**Marine Sciences** 

The SSU Marine Sciences Program provides vital research, education, and outreach programming to develop a technically qualified, intellectually

> thoughtful, and ethnically diverse community of ocean scientists.

Stop by to meet the faculty and visit our beautiful locations next to

Boat photo courtesy of Dr. Matthew Gilligan, "Students collecting samples" courtesy of Courtney Pegus.

The Marine Sciences Program at Savannah State University offers an array of hands on educational research opportunities. Popular experiences include sample and data collection aboard SSU's vessels, including the R/V Margaret C. Robinson. Skills in aquarium systems, GIS, data analytics, technical writing, and ocean instrumentation are developed in our courses and are applied in student research.
