PARKING POLICIES AND REGULATIONS

Savannah State University Parking citations are issued to vehicles that violate the University’s parking rules, regulations, and procedures. The name of the individual listed as registrant is responsible for the violation, regardless of who was driving the vehicle at the time of the infraction. The parking citation is left on the windshield of the vehicle in violation. An email is sent to the individual listed as registrant to inform of the violation, if the vehicle is registered in the parking management system. The citation clearly indicates the type of infraction committed, time and date of the violation, and the cost associated with the particular infraction.

If fines are not paid, the Bursar’s office will place a financial hold on the violator’s records. This means that failure to pay parking citations will result in a person not being permitted to register for classes, graduate, or receive a transcript until the fine is paid. If the violator is a faculty or staff member, any outstanding fine will prevent them from clearing the University upon termination of employment.

Parking regulations are enforced 24/7.

I. Vehicle Identification and Liability

The University has adopted the following regulations to ensure safe, courteous, and orderly vehicle operations and parking on campus. It is the responsibility of the owner and driver of the vehicle to know and follow these regulations to prevent being cited for any violation.

Vehicle identification is required in order to purchase a parking permit, for any vehicle operated by a member of the University community on the University campus or any property owned or leased by the University. In accordance with Georgia State Law, any vehicle operated on the campus as well as any other State roadway must contain proof of liability insurance and the driver must possess a current State driver’s license.

Savannah State University assumes no responsibility, nor creates any liability, for the care and/or protection of any vehicle, or its contents, while it is on campus, whether the activity is academic, extra-curricular, or recreational.

II. Vehicle Permits (Decals) and Fees

A. All students, faculty, and staff who park on campus are required to obtain a University parking permit (go to www.savannahstate.edu/permit and login using your SSU network ID and password), unless the vehicle has a valid decal or other type of permit from another University System of Georgia institution.

B. Individuals may only purchase permits for those vehicles to which they, their spouse, parents or guardians hold the title or lien.

C. All permits expire on the 15th of August each year or for as long as the student is currently enrolled in classes. The subsequent year’s permit may be placed on a vehicle prior to August 31.
D. A residential permit is only valid for the current term a student is enrolled and registered to live in University housing.

E. Unless a reserved parking space is purchased, the purchase of a parking permit does not guarantee parking in a specific space on campus.

F. Permits and Citations are official documents of the University. Persons falsifying, copying, stealing, altering or mutilating an official document will be subject to criminal and administrative action.

G. **Temporary Parking Permits.**

Under the following circumstances, temporary parking permits will be issued from the Auxiliary Services Office in 127 King-Frazier to University community members who have already purchased a permit. In every case, you must bring with you the information required below, and the make, model, and tag (license plate) number of the vehicle. **Temporary passes are not provided for employees or students who have not purchased a permit, except as indicated below. Please do not request an exemption based on financial need.**

a. **Rental Car.** When you are using a rental car, you must present the vehicle rental agreement. The temporary permit will be issued only for the length of time on the rental agreement.

Contractors coming onto campus for multiple days must have a special temporary permit made for them by Auxiliary Services.
