Special Notice

The statements set forth in this catalog are for information purposes only and should not be construed as the basis of a contract between students and this institution.

While the provisions of this catalog will generally be applied as stated, Savannah State University reserves the right to change any provision listed in this Catalog, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the Offices of the Registrar, the Vice President for Academic Affairs, the Vice President for Student Affairs, and the offices of the academic deans. It is especially important that students note that it is their responsibility to remain apprised of current graduation requirements for their particular degree programs.

Savannah State University, an affirmative action/equal opportunity education institution, does not discriminate on the basis of sex, race, age, religion, handicap, or national origin in employment, admissions, or activities.
University System of Georgia

The University System of Georgia includes all state-operated institutions of higher education in Georgia - 4 research universities, 2 regional universities, 13 state universities, 8 state colleges, and 8 two-year colleges. These 35 public institutions are located throughout the state.

A 16-member constitutional Board of Regents governs the University System, which has been in operation since 1932. Appointment of board members - five from the state-at-large and one from each of the state’s eleven congressional districts - are made by the governor, subject to confirmation by the State Senate. Regular terms of board members are seven years.

The chairman, the vice chairman, and other officers of the Board are elected by the members of the Board. The chancellor, who is not a member of the Board, is the chief executive officer of the Board and the chief administrative officer of the University System.

The overall programs and services of the University System are offered through three major components: instruction, public service/continuing education, and research.

Instruction consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates.

Requirements for admission of students to instructional programs at each institution are determined, pursuant to policies to the Board of Regents, by the institution. The Board establishes minimum academic standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed in all cases to the institutions.

A core curriculum, consisting of freshman and sophomore years of study for students whose educational goal is a degree beyond the associate level, is in effect at the universities, four-year colleges, and two-year colleges. This curriculum requires 60 semester credit hours, including 42 in general education - humanities/fine arts, mathematics and natural sciences, and social sciences - and 18 in the student's chosen major area of study. It facilitates the transfer of freshman and sophomore degree credits within the University System.

Public service/continuing education consists of non-degree activities, primarily, and special types of college-degree-credit courses. The non-degree activities are of several types, including short courses, seminars, conferences, lectures, and consultative and advisory services. Typical college degree-credit public service/continuing education courses are those offered through extension center programs and teacher education consortiums.

Research encompasses investigations conducted primarily for discovery and application of knowledge. These investigations include clearly defined projects in some cases, non-programmatic activities in other cases. They are conducted both on and off campus.

The research investigations cover a large number and a variety of matters related to the educational objectives of the institutions and to general societal needs.

Most of the research is conducted through the universities; however, some of it is conducted through several of the four-year and two-year colleges.

The policies of the Board of Regents are for the governance, management, and control of the University System. The administrative actions of the chancellor provide autonomy of high degree for each institution. The executive head of each institution is the president, whose election is recommended by the chancellor and approved by the Board.

The University System Advisory Council, with 34 committees, engenders continual system wide dialogue on major academic and administrative matters of all types. It also makes recommendations to the chancellor for transmittal to the Board of Regents as appropriate, regarding academic and administrative aspects of operation of the system.

The advisory council consists of the chancellor, the vice chancellor, and all presidents as voting members, and it includes other officials and staff members of the institutions as nonvoting members. The advisory council’s 21 academic committees and 13 administrative committees are made up of representatives from the institutions. The committees dealing with matters of university-system-wide application include, typically, at least one member from each institution.

Introduction

President's Message

Welcome to Savannah State University!

For 118 years, Savannah State University has been an important part of higher education. As the oldest public institution in Savannah, Savannah State University has transformed the lives of generations of students who had the dream, desire and motivation to achieve a higher education and a more rewarding future for themselves and their loved ones.

The 173-acre campus is by far the most picturesque in the state of Georgia. The moss-laden sweeping oak trees, expansive marsh and historic architecture create a resplendent yet tranquil atmosphere. Beneath the beauty and splendor is a vibrant residential campus bursting at the seams with the vim and vigor of quality collegiate life: relevant academic majors, engaging lectures, cutting-edge research, quality student-faculty engagement and a nurturing environment. I invite you to become a part of the SSU family. Please continue your exploration of Savannah State University—both on the Web and in person—and share our excitement.

Again, welcome to Savannah State University.

Earl G. Yarbrough, Sr., Ph.D.
President

Vision

As the President of an institution that was founded upon the principle of “adding value” to the lives of former slaves, it is imperative that we never forget the sacrifices made and the ideals our forefathers believed and practiced over the years. The leaders and faculty at the Georgia State Industrial College for Colored Youth (now Savannah State University), believed that education and self worth were keys to a productive and rewarding life. They lacked material wealth and were given very few tools to work with, but they believed that love and caring were important and necessary in the educational process and that such attributes would lead to a rewarding and professional career and leadership position in our society. This institution created enormous value in its people.

Using the principals of the past to guide our future, it is my vision as President, to continue this “Value-Added” approach to education. With the modern tools of today and our outstanding faculty, staff, administration, alumni, and friends, we will not only educate academically and for a profession, but will enhance our students’ self worth, social responsibilities and leadership skills. Today, we are a strong institution that meets students where they are in life and are prepared to increase every student’s value to themselves and our society in general.

As our American society has evolved and we no longer separate educational institutions by race, there is an even greater need today for institutions of higher education (who have a history of “adding value”) to recruit and educate ALL STUDENTS, regardless of race, who are motivated and eager, and have the potential and vision for a better life.

It is my vision for Savannah State University to be the best “Value Added” institution in the country.

Purpose and Goals of the University

Mission Statement:
Chartered by the State of Georgia in 1890, as a department of the State University for the education and training of Negro students, Savannah State University now serves a diverse student population as a senior university of the University System of Georgia. The University serves a primarily African-American student population, enriched by a diversity of traditional and nontraditional students from other countries, cultures, and races.

The University’s mission is to graduate students prepared to perform at higher levels of economic productivity, social responsibility, and excellence in their chosen fields of endeavor in a changing global community. The educational goal is realized through program offerings in the College of Business Administration, the College of Liberal Arts and Social Sciences, and the College of Sciences and Technology, which lead to baccalaureate, and master’s degrees.

Savannah State University, located in a coastal, urban, port city setting, serves residential and commuter students from diverse educational, geographical, and racial backgrounds. In a beautiful and unique setting of a live oak forest next to a salt marsh estuary, the University is well situated for the study of commercial, technological, environmental and urban issues. The University’s mission is consistent with the core missions of the University System of Georgia and the senior universities in the System.

Savannah State University shares with the University System of Georgia the following characteristics:

- a supportive campus climate, necessary services, and leadership development opportunities, all to educate the whole person and meet the needs of students, faculty, and staff; cultural, ethnic, racial, and gender diversity in faculty, staff, and student body, supported by practices and programs that embody the ideals of an open, democratic, and global society;
- technology to advance educational purposes, including instructional technology, student support services, and distance education;
collaborative relationships with other System institutions, state agencies, local schools and technical institutes, and businesses and industries, sharing physical, human, information and other resources to expand and enhance programs and services available to the citizens of Georgia.

Savannah State University shares with senior universities in the University System of Georgia these characteristics:

- a commitment to excellence and responsiveness within the scope of influence defined by the needs of an area of the state, and by particularly outstanding programs or distinctive characteristics that have a magnet effect throughout the region or state;
- a commitment to the teaching/learning environment, both inside and outside the classroom, that sustains instructional excellence, serves a diverse and college prepared student body, promotes high levels of student achievement, offers academic assistance, and provides Student Academic Support programs for a limited student cohort;
- a commitment to a high quality general education program supporting a variety of disciplinary, interdisciplinary, and professional programming at the baccalaureate level, with selected master’s, and selected associate degree programs based on area need and/or inter-institutional collaborations;
- a commitment to public service, continuing education, technical assistance, and economic development activities that address the needs, improve the quality of life, and raise the educational level within the University’s scope of influence; and
- a commitment to scholarly and creative work to enhance instructional effectiveness and to encourage faculty scholarly pursuits; and a commitment to applied research in selected areas of institutional strength and area need.

The continuing commitment of Savannah State University to academic excellence is expressed through the following characteristics:

- tradition of serving the educational needs of African-American students as well as those of all other students, regardless of race, ethnicity, or culture; the historical tradition as an African-American institution which defines the University as a unique cultural and educational resource for the interpretation and transmission of the African-American legacy; the guiding principle of the faculty and staff which is service to students expressed by quality, student-centered instruction, scholarship, research and effective support services that nurture the intellect and value honesty and human sensitivity; a high quality general education offered through the core curriculum in humanities, mathematics, natural sciences, and social and behavioral sciences;
- baccalaureate degree offerings with a dynamic mix of liberal arts programs that address the study of the humanities, social sciences and the sciences; professional programs that address the study of commerce, entrepreneurship, communications, social services, technology and environmental sustainability; master’s degree offerings that address the study of the social and behavioral sciences, and natural sciences; and initiatives to provide new programs and levels of service to meet the ever changing needs of a coastal urban area;
- a commitment to excellence in the area of engineering technology;
- Student Academic Support services that provide educational access and opportunity for students, and service programs, offered singly and collaboratively, to enhance student satisfaction and academic success; and
- an active community service function that is carried out through collaborative partnerships with business, private and governmental agencies, public schools, and other institutions in the University System.

Savannah State University intends to increase the scope and quality of service to diverse populations by focusing and developing an array of excellent programs, supported and delivered through instructional technology and distance education to all who seek its programs and services.

Overview of Savannah State University

Savannah State University was founded when enabling legislation was passed by the Georgia General Assembly on November 26, 1890, creating a normal school for the training of Black citizens. The fledgling institution, known as the Georgia State Industrial College (GSIC) for Colored Youths, began its first session in June 1891, in the Baxter Street School Building in Athens, Georgia, with Richard R. Wright, Sr., as principal, and was considered a part of the University of Georgia. Religious and educational leaders such as Professor John McIntosh, Reverend E. K. Love, James Simms, Alexander Harris, and others met in March 1891, in the basement of the First African Baptist Church and developed a proposal that convinced Judge Peter W. Meldrim, chair, and the other white members of the Georgia State Industrial College Board of Commissioners to locate the new Black institution in Savannah.

The College was established as a result of the Second Morrill Land Grant Act of August 30, 1890, which had specific wording mandating the development of Black land grant colleges in the southern and border states. The early educational paradigm of the College was based on the Talented Tenth philosophy of W. E. B. DuBois, the vocationalism of Booker T. Washington, and the model of the New England College espoused by Richard R. Wright, Sr., as a result of his education under the American Missionary Association at Atlanta University. The early curriculum had normal, agricultural, and college programs. The College opened in Savannah on October 7, 1891, with Richard R. Wright, Sr., as principal, five students from Ware High School in Augusta, and a foreman for the farm. Richard R. Wright, Jr., received the first baccalaureate degree from the College in June 1898. During Wright's presidency, Presidents William McKinley (December 1898) and William Howard Taft (May 1, 1912) visited the campus. During Cyrus G. Wiley's (GSIC Class of 1899) tenure (1921-26), women were admitted as boarders, and the College was established as a federal agricultural extension center.

Presidents

Richard R. Wright 1891-1921

Cyrus G. Wiley 1921-1926

Benjamin F. Hubert 1926-1947

James A. Colston 1947-1949

William K. Payne, Ph.D., Acting 1949-1950

William K. Payne, Ph.D.
1950-1963

1989-1991
Annette K. Brock, Ph.D., Acting
1991-1993
John T. Wolfe, Ph.D.
1993-1997
Carlton E. Brown, Ph.D.
1997-2006
Julius S. Scott, Ph.D., Interim
January-July 2007
Earl G. Yarbrough, Sr., Ph.D.
2007-

Location
Savannah State University is located approximately five miles east
southeast from the center of beautiful, historic Savannah, the original
European settlement in Southeast Georgia, founded by James Oglethorpe
in 1733. Savannah today is an extraordinarily attractive and busy port
city with nearly 200,000 inhabitants. Nearby are historic and
contemporary sea resort islands of St. Simons, Jekyll, and Hilton Head,
South Carolina. Daufuskie, home of the famed Gullah culture, a blend of
early African and American ways of life, language, and music, is nearby.
Tybee Island lies to the east and is noted for its easy-going life style and
sport fishing. The general environment is replete with abundant historic
and contemporary tourist and outdoor attractions, including wildlife
refuges, museums, heritage preserves, and numerous other attractions.
Historically, the region was noted for its rich rice and cotton production
as well as its lively pirate trade. Many believe Savannah, with its
exemplary urban renewal and historic preservation record, is the ultimate
Southern hostess city.

The campus itself lies on a stunning site adjacent to the inland waterway
near the estuary of the Savannah River and proximate to the Atlantic
coast. Several of the university's major buildings overlook the open
marsh and peaceful tidewater flood plain while others center on the two
beautifully landscaped quads of native foliage. A temperate climate
encourages year-round outdoor activities with mean high temperatures
ranging from the low 50s for December/January to the 80s for
July/August.
Academic Information

Mission
The mission of Academic Affairs at Savannah State University is to create and support an environment that advances our institutional purpose of excellence in teaching, scholarship, and service. Academic Affairs enables students to develop skills and knowledge for growth and success by offering high quality academic programs. We seek to accomplish our mission in a student-centered environment grounded in a liberal education. We respect diverse abilities, backgrounds and contributions by all members of the university community. Academic Affairs prepare students to meet global opportunities and challenges through teaching and learning. We value service learning as an integral part of developing a well rounded student. We will achieve our mission by:

- providing students with a high quality education, including knowledge, skills and values necessary to be competitive in a complex global world;
- recognizing the varying degrees of academic preparedness of our students;
- fostering an environment in which differences among people are respected and mutual understanding is promoted;
- embracing technology as a tool in the workplace and classroom;
- fostering a holistic environment of nurturing and caring for our students and faculty;
- promoting engagement with our local, state, national and global communities; and
- promoting ethical behavior among members of the university community.

University Library
The Asa H. Gordon Library offers a variety and wealth of informational resources and services to the university community. The library ensures access to resources to serve both the research and general needs of undergraduates, graduate students, and faculty through its collections of print and electronic journals, GALILEO databases (a project funded by the Board of Regents of the University System of Georgia), interlibrary loans, a reference collection, and archival materials that relate to Savannah State University's history.

The library houses and provides access to approximately 190,209 volumes of books, 30,000 bound periodicals, 548,273 microforms and print periodical subscriptions, 4,000 audio visual materials, various educational media materials including television monitors, projectors, and distance learning facilities, and over 240 electronic databases including JSTOR. The library also has study and conference rooms that are equipped with computers with access to the Internet along with printing capabilities. The Gordon Library is centrally located within close proximity to all institutional facilities on campus. Access to the library is provided through two main ground level entrances. The east entrance is ADA accessible and is equipped with an entrance ramp and an automatic door. A newly renovated café is found on the first floor and provides an informal area for patrons to enjoy food and drink and quiet individual or group study. Students have access to over 75 computers located in study rooms, the computer lab and the reference area of the library.

In addition to its resources and collections, the library also offers services and programs desired by the faculty, staff, and students of Savannah State University. The library is the most reliable point of access for needed materials and information. The library’s online catalog is located at http://gil.savannahstate.edu. The Voyager system, an integrated automated library system, enables patrons to access the library catalog 24/7 anywhere there is an Internet connection. Through interlibrary loan services, patrons may obtain materials that are not owned by the library or through GIL Express, a resource sharing initiative that allows students, faculty, and staff to borrow all eligible circulating materials at all 35 USG libraries. Faculty course reserves services are available for monographs, articles, and other instructional materials and electronic reserves services are also available and provide access through the library’s catalog. Reference services are provided by librarians who assist patrons in locating and evaluating information to meet their research needs. Also the library provides instruction to any class offered at Savannah State University. Through this service, the objectives for Information Literacy Instruction and support for E-learning courses is also provided. The library has a well-trained staff available to assist the campus community at all times during the hours of operation.

Center for Academic Success
Higher Levels of Achievement - Greater Levels of Success
The Center for Academic Success (CAS) serves to advance the mission of the university community through the development of comprehensive strategies designed to enhance students’ academic achievement and success. As a comprehensive center, the strategies designed to improve academic achievement and advancement rates include: centralized advisement, and student academic assistance.

Centralized Advisement
The Center for Academic Service serves a central location for students to get assistance with their academic advisement needs. Whether it is general course planning or help with deciding on a major, CAS staff is ready and willing to assist students. In the area of advisement CAS:

- Provides students’ with information and advisement as it relates to general educational program requirements and course planning for core curriculum
- Facilitates students’ transition to a specific major by serving as a liaison between the students and the colleges and departments
- Advises students regarding any specific core curriculum requirements related to their academic status, enrollment status and/or classification
- Works together with the Academic Advisement Council to identify resources and recommend intervention strategies designed to assist students with the necessary skills and knowledge needed to increase academic achievement levels
- Collects and analyzes data pertaining to academic advising, academic success, and student retention rates and translates the information into useful tools for further assessment and resourceful development

Academic Assistance
The Center for Academic Success provides students with academic
assistance through Learning Support, Freshman Year Experience and Regents' preparation courses. The Center for Academic Success also serves as the testing center and is responsible for all university system required testing. In addition, CAS provides academic coaching services to students who need individual assistance.

Learning Support Curriculum

The Learning Support curriculum is offered through CAS for students who have been provisionally admitted to the University. These courses provide students with an opportunity to strengthen their skill levels in reading, math, oral and written communication before taking on the full challenge of academically rigorous courses. Learning Support courses are specifically designed to address these skill areas. Provisionally admitted students may be required to take one or more of these courses. Classroom instruction is accompanied by laboratory experiences and individual academic coaching as needed.

Students required to enroll in Learning Support courses have demonstrated deficiencies in English, reading, and mathematics as indicated by their performance on the University System's placement examinations. Entering students who fall into this category are nontraditional students, limited admit students, Basic Studies Academy (BSA) students and presidential exceptions.

Non-traditional students are students who graduated from high school at least five years ago and who may have completed up to 15 college credits. These students are exempt from the SAT/ACT admission criteria. Instead, they must sit for the University’s placement examinations. Limited admit students are students who did not meet regular admissions requirements. Basic Studies Academy (BSA) students are students with pre-college deficiencies who would normally attend a two-year college and then transfer to a state university. The Savannah service area does not have a two-year college system. Basic Studies Academy was developed as a solution to this dilemma to ensure access to motivated individuals who would not otherwise be served by the Georgia University System. Presidential exceptions are recent high school graduates who, in very special and rare circumstances, the President of the University may grant exceptions to the College Preparatory Curriculum (CPC) and Freshman Index (FI) requirements. Similarly, these students must sit for the University’s placement examinations, which include the Computer Assisted Adaptive Assessment (COMPASS).

Placement scores on COMPASS sub-tests that determine placement in Learning Support courses are:
- 36 and below on the math test,
- 73 and below on the reading test, and
- 59 and below on the English test and/or a failing assessment on the Placement Writing Sample.

Students who fail to satisfy either portion of the University’s placement examinations must enroll in corresponding Learning Support courses in mathematics, reading and/or English.

All students enrolled in Learning Support courses are advised by CAS. Basic Studies Academy (BSA) students are advised by CAS until they complete their Learning Support requirements and accumulate 30 hours of college credit and a minimum 2.0 grade point average. At such time, they transfer to the college that offers their major. (For information on Basic Studies, see "Basic Studies Academy" under "Special Academic Programs and Services.") All other students who place in Learning Support courses transfer to the college that offers their majors upon completion of their Learning Support courses.

Policies and Requirements

Students shall have three semesters or three attempts per area to develop requisite skills, provided that they consistently demonstrate satisfactory academic progress. Developmental students whose academic standing is less than that which is accepted by the University are subject to academic suspension even though they may not have exhausted all three attempts. Students who are enrolled in credit courses are governed by the University's policy on academic standing. Moreover, students who fail to exit any one or more courses within the time allotted shall be suspended for three years from Savannah State University and any other unit of the University System of Georgia. However, students may appeal the suspension, provided they have only one Learning Support area to complete (which must be an exit level course), have a class average of at least "B" or above, and obtain a letter of recommendation from their recent instructor of the course that needs to be completed. If the students fail to pass the course after the appeal, the students may submit a second appeal provided they again meet the criteria for an appeal. If the students' appeal is approved for the second time, they must enroll only in their Learning Support course. They are not allowed to enroll in any degree credit hour courses. If the students fail to exit their Learning Support course after the second appeal, they will be suspended for three years. After a three-year suspension, students may reapply for admission, subject to meeting the institution’s requirements for readmission. Any student readmitted must be retested on the COMPASS placement test in the area(s) not previously exited and placed accordingly in the appropriate courses.

Students may not accumulate more than 20 hours of degree credit before completing their Learning Support requirements. Any students who have accumulated 20 credit hours or more and who have not successfully completed the required Learning Support courses may enroll only in those said courses until the Learning Support requirements are successfully completed.

Students must subscribe to the campus webmail to remain connected to their Learning Support advisor and to remain abreast of the preceding Learning Support and academic status issues. Hard copies of status letters will be mailed each semester.

No degree credit will be awarded for Learning Support course work. Institutional credit only will be awarded.

Students who score 22 and below on the math subtest are placed in the entry level course MATH 0097. Students who score 23 and above but below 37 are placed in the exit level course MATH 0099. Students who score below 60 on the English subtest are placed in ENGL 0099 an exit level course. Students who score below 74 on the reading subtest are placed in READ 0099, also an exit level course. For a description of these courses, see "Student Academic Assistance" under "Course Descriptions".

Students in an exit level (0099) course who maintain a "C" average or better throughout the semester are eligible to sit for the exit examination(s). To exit the mathematics program, students must earn a scaled score of 37 or higher on the post-COMPASS. To exit the reading program, students must earn a scaled score of 74 or higher on the post-COMPASS. To exit the English program, students must pass a Writing Assessment with a score of 2 or higher as well as earn a scaled score of 60 or higher on the post-COMPASS. Students who earn a passing score on any part of the English post-examination need not retake that part during subsequent semesters.

No students will rewrite the Final Writing Assessment unless documentation supports that the test environment was not conducive to testing. However, students may appeal the Final Writing Assessment, provided that the students' writing sample received at least one passing
Any student who score within five points of the minimum passing COMPASS score for a subject area (math, reading or English) are eligible to retest, whether the examination is a placement or post-examination.

The following final grades will be issued:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S (Satisfactory)</td>
<td>Met all requirements in MATH 0097. Recommended for MATH 0099.</td>
</tr>
<tr>
<td>A, B, C</td>
<td>Satisfied class work in an exit level 0099 course and passed COMPASS.</td>
</tr>
<tr>
<td>IP (In Progress)</td>
<td>Sat for exit examination(s) (COMPASS and/or Writing Assessment), but did not pass. Must enroll in course again.</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete grade due to non-academic reasons.</td>
</tr>
<tr>
<td>F (Failure)</td>
<td>Student failed class work. Must repeat course.</td>
</tr>
<tr>
<td>W (Withdraw)</td>
<td>Student withdrew without penalty before the deadline.</td>
</tr>
<tr>
<td>WF (Withdraw, Failing)</td>
<td>Student withdrew from a course after the deadline for penalty and was failing at time of withdrawal.</td>
</tr>
</tbody>
</table>

A student cannot drop/withdraw from a Learning Support (LS) course without withdrawing from the university. If a student withdraws from a course before mid-semester, his/her entire registration will be cancelled. This practice is to ensure that no LS students earn more than 20 credit hours while he/she is enrolled in LS course(s).

If a student does not report to any LS class before the deadline to report NAs (students who never attended class), the student will be reported as NA to the Registrar, and his/her entire registration will be cancelled.

In order for a student to be assigned a grade of "F" a student must be in good academic standing and experiencing extenuating circumstances that preclude the student from completing course requirements.

A WF (Withdraw-Failing) is assigned to a student who stops attending class after mid-semester.

A WF (Withdraw-Failing) is counted as a semester attempt.

Course Restrictions
- Any student needing a READ 0099 course cannot enroll in college level social, natural, or physical science courses or college-level English until remedial requirements have been satisfied. However, a student must still fulfill his or her CPC deficiencies in social science, natural science, etc. Courses used for CPC deficiency do not count as part of the core curriculum.
- Any student needing MATH 0099 cannot enroll in college level mathematics, physics, chemistry, or any science courses with a prerequisite of college-level mathematics until remedial mathematics requirements have been satisfied.

- Any student enrolled in ENGL 0099 cannot enroll in college-level English.
- These restrictions mean that "limited admit" students are not guaranteed a full class load as may be required to qualify for financial aid.

Freshman Year Experience

Enrollment in a Freshman Year Experience course is a part of the university requirement for all first year students to be taken in their first semester on campus. This course includes an explanation and discussion of policies, standards, procedures, expectations, and resources that will contribute to students' success throughout their academic career. Test taking, time management, organization, note taking and study skills are also included with tips and strategies to help students get on track and remain on track. Academic coaching is also available to help students who would like assistance in these areas. An overview of major courses of study offered in each of the colleges and their requirements for graduation is also provided.

Regents' Testing and Preparation Program

All institutions under the University System of Georgia shall ensure that students obtaining a degree from a USG institution possess certain minimum skills of reading and writing. Students must satisfy the Regents' Writing (RGTW 0199) and Regents' Reading (RGTR 0198) requirement by taking the Regents' Preparation courses and passing the Regents' Test. Students who pass the Regents' Test before accumulating 45 semester hours will be exempt from taking the Regents' Preparation courses. All students must pass the reading and writing sections of the Regents' Test in order to receive a baccalaureate degree.

Registration Procedures for the Regents' Exam

Students should register for the Regents' Test during the advisement and registration period each semester. The Regents' Test schedule is included on the course schedule. The test is offered once per semester. The actual test dates for the Regents' Test are listed on the SSU Academic Calendar.

Student Responsibility

Students are responsible for complying with all policies regarding the Regents' Test. Failure to take the test at the designated time will result in disciplinary action ranging from reprimand to cancellation of registration or suspension, depending upon the severity of the noncompliance.

Description of the Test

The Regents' Reading section of the test is a multiple-choice test taken in one hour. This test consists of a series of reading passages with five to eight questions about each passage. The passages cover a variety of subjects (for example, social science, math, natural science, humanities, etc.). No dictionaries or other aids can be used while taking this section of the test.

The Regents' Writing section of the test is a one-hour essay. Students are asked to write an essay on one of four topics. A dictionary may be used during the last 15 minutes of the Writing section of the test.

The Regents' Test - Rules and Regulations

The Regents' Test (reading and writing) is designed to provide a method for satisfying the USG mandated Regents' Writing (RGTW 0199) and Regents' Reading (RGTR 0198) requirement. The formulation and administration of the Regents' Test and the Regents' writing and reading skills requirement are determined by USG Board of Regents as listed in the Academic Affairs Handbook. Both sections of test are taken at one
Students who live out of state may be permitted, upon approval from the Regents’ Testing Program Office to have the Regents’ Test administered out of state. They must have fulfilled all course requirements for graduation and follow the procedures outlined in the Regents’ Testing Program Administration Manual.

Exceptions
Students holding a baccalaureate or higher degree from an accredited institution of higher education are not required to complete the Regents’ Test to receive a degree.

Exemptions
Students may exempt RGTR 0198 by scoring at or above specified scores on the following examinations:

- Regents’ Reading Test exemption score: 61
- SAT Critical Reading exemption score: 510
- ACT Reading exemption score: 23
- SAT Reasoning Test, Writing Section exemption score: 560 (effective Spring 2007)

(SAT or ACT scores must be from a national administration. Scores from institutional SAT or residual ACT tests will not be acceptable for this purpose.)

Students may exempt RGTE 0199 by scoring at or above specified scores on the following examinations:

- Regents’ Test Writing essay exemption score: 2
- College Board Advanced Placement (AP) English Language and Composition Exemption score: 3
- College Board Advanced Placement (AP) English Literature and Composition exemption score: 3
- International Baccalaureate (IB) higher-level English exemption score: 4
- SAT II English Writing exemption score: 650

The following four exemptions are not available for students entering the system after Spring 2008 or later:

- SAT Critical Reading exemption score of 530 for students who earn an “A” in English 1101 (only applies to students enrolled Spring 2008 or earlier)
- SAT Critical Reading exemption score of 590 and above for students who earn an “A” in English 1101
- ACT English exemption score 23 and above for students who earn an “A” in English 1101
- ACT English exemption score 26 and above for students who earn a “B” in English 1101

Special Administration of the Regents’ Test

Students with Disabilities or Other Documented Needs
A diagnosis of learning disability and/or physical disability must include evidence of a discrepancy between ability and achievement in the area affecting test performance and must be consistent with the definition and criteria for evaluation provided in Section 2.2 of the Academic Affairs Handbook. The documentation for each student is to be evaluated and maintained by the institution.

Students with Visual, Hearing, or Motor Impairment
An alternative means of exempting or examining students with visual, hearing, or motor impairment may be used. Such examination shall equal the standards of the Regents’ Tests. In most cases, a Regents’ Test would be administered with accommodations determined by the institution on the basis of the student’s needs.
The Regents’ Reading Test administration for a student with a visual, hearing, or motor impairment should correspond as closely as possible to the student’s usual means of obtaining information from text. A visually impaired student, for example, could use the Braille, large-print, recorded or text-to-speech version of the Reading Test. If it is necessary for the Reading Test to be scored locally rather than submitted to the Regents’ Testing Program Office for scoring, a test form designated by the Regents’ Testing Program Office may be used.

If a student with a visual, hearing, or motor impairment is unable to handwrite an essay on the regular Essay Test form for rating, the essay may be copied to the regular Essay Test form by a proctor and submitted to the Regents’ Testing Program Office for rating. The Regents’ Testing Program Office cannot obtain ratings for essays that are not written on the regular test form or that are otherwise identifiable as special administrations.

The Regents’ Testing Program Office does not have to be informed when a student with a visual, hearing, or motor impairment takes or passes an alternative test. However, the student record system must indicate that alternative procedures have been used. The documentation for each student is to be evaluated and maintained by the institution and summarized in the institution’s Annual Report on Learning Disorders.

**Allowable Accommodations and Restrictions**

The accommodations that may be made are limited to the following:

- extended time
- separate room for test administration
- large-print test format
- use of a word processor, typewriter, or scratch paper for composing the essay (The student must handwrite the essay on the regular essay form for grading, or, if the student's diagnosis indicates an inability to copy the essay, the test administrator or proctor must copy the essay as written by the student with no changes and send both the original and copied essay to the Regents’ Testing Program Office.)
- Specialized software may be used to read an essay to the student (If the student's diagnosis indicates a visual processing deficit that prevents the student from reading his or her own essay accurately, the proctor may read the essay aloud exactly as written while the student makes corrections to the essay.)
- transcription of reading test responses to the scanner sheet

Essays must be rated through the usual rating process, which does not allow for the provision of any information about the student to the raters. Raters cannot be asked to take a student’s disabilities into account when rating an essay. Instead, appropriate modifications in the test administration process must allow the student’s essay to be rated through the usual process.

**All test administrations must meet the following conditions**

- The essay and Reading Test responses must be submitted to the Regents’ Testing Program Office for scoring
- The product submitted must be in the standard format for grading: the essay must be handwritten on the regular essay form with no extra paper, and the Reading Test responses must be recorded on the student’s scanner sheet. Except as indicated above under allowable exceptions for students who are unable to copy or read their own essays, the product submitted for grading must be produced by the student with no assistance provided or changes made by any other person
- Tests must be administered under secure conditions, and all work must be completed under supervision

Accommodations other than those described above may be made only upon recommendation of a Regents Center for Learning Disorders. The Center will make recommendations for students with learning disabilities or acquired brain impairment. The procedures used by the Center are described in Section 2.22. The Regents’ Reading and Writing Skills courses may not be waived for students with disabilities. However, appropriate accommodations will be provided.

**Appeal of Failing Scores**

**Appeal of a failing Writing score**

A student may request a formal review of Writing Test if that student's essay received at least one passing score among the three scores awarded. Students who wish to appeal should contact the Center for Academic Success. The review procedures shall be as follows. A student should initiate the review procedure within the first three weeks of his or her first semester of enrollment after the semester in which the Writing Test was failed. If this deadline is missed, students may initiate an appeal within one calendar year from the semester in which the failure occurred.

**Appeal of a failing Reading score**

There is no appeal process for the reading portion of the Regents’ Test. However, students may request (at a fee of $10) the hand scoring of the reading portion. The Regents’ Reading section is machine scored twice prior to score reporting. Therefore, students should keep in mind that in the history of the Regents’ test, there has never been a successful overturn of a failing score on the reading portion.

**University-Wide Testing Program**

The Center for Academic Success at Savannah State University serves as a national testing center for several entities. Tests administered at the University include Law School Admission Test (LSAT), Scholastic Aptitude Test (SAT Reasoning and Subject), American College Test (ACT), the College Level Examination Program (CLEP), DANTES Test, COMPASS (Computer-Adaptive Placement Assessment and Support System) and the Regents’ Test. CAS administers institutional exams such as the Regents’ Test, the Chemistry Placement, and COMPASS Exams (placement and exit). Proctored exam administration is also available.

A comprehensive description of the scope of services offered through the Center of Academic Success is located on the CAS website ([http://cas.savannahstate.edu/default.htm](http://cas.savannahstate.edu/default.htm)).

**Basic Studies Academy**

**What is BSA**

The Basic Studies Academy (BSA) is a program housed at Savannah State University, which is designed to meet the pre-college and associate level needs of local students impacted by the new admission standards of the University System of Georgia (USG). The program was developed as a response to the Board of Regents’ mandate to phase-out remedial programs at state universities by fall 2001. The mandate limits remedial programs to the two-year colleges for all traditional students (students who completed high school within the past five years). Consequently, motivated, traditional students with pre-college deficiencies who want to earn a baccalaureate degree must first attend a two-year college and then transfer to a state university upon satisfying remedial and other requirements. However, the Savannah service area does not have a two-year system college to provide access to the two local state universities. As the Savannah solution to the two-year college dilemma, BSA was developed as an alternative delivery model to ensure access to USG to motivated individuals who would not otherwise be served.
During summer 2005, the scope of BSA was modified to include the University System's admissions pilot, designed to provide more access opportunities. The admissions pilot does not require students' SAT/ACT scores, but rather their scores on the college placement examination (Computer Adaptive Placement Assessment). Heretofore, those opportunities were limited by SAT/ACT scores, which have not proven to be consistent predictors of college success in the two-year sector.

Access to University System of Georgia
The Basic Studies Academy provides access by addressing the pre-college and associate level needs of students through classroom instruction and laboratory experiences. College placement scores determine placement and/or exemption from remedial courses in English, reading, and mathematics. Students must satisfy remedial requirements by either passing the placement test(s) or completing the remedial course(s). Moreover, they must earn 30 hours of a prescribed core of courses (with at least a 2.0 GPA) to be eligible to transfer to a two-year or four-year degree program. BSA will document successful completion of the curriculum by issuing students a certificate of achievement for transfer to a degree program.

Student Success
BSA promotes student success by providing a cadre of faculty who are trained in pedagogy as well as in the content and who are sensitive to the needs of developmental learners. This sensitivity is manifest in small, laboratory-oriented courses to provide timely feedback on assignments. Enrichment courses and activities are also provided to help students to develop cognitive and metacognitive skills and to explore career options.

Eligibility
Residents of Chatham County and adjacent counties in commuting distance (Bryan, Effingham, and Liberty) are eligible to enroll.

Applicants (including local high school graduates who have earned a Technology/Career Preparatory diploma) who are eligible to enroll must meet the following minimum criteria:

- High School Diploma or GED
- High School GPA of 2.0 or higher
- Completion of College Preparatory Courses (CPC) Units. Strongly recommended but not mandatory (a minimum of 16 units preferred)
- Tech/Prep curriculum admissible with 2.2 HSGPA
- No SAT or ACT score required

All prospective students must sit for the Computer Adaptive Placement Assessment (COMPASS) and a writing assessment.

Local residents whose goal is to earn a two-year degree within the System, but whose current circumstances preclude their relocation, are also eligible to enroll. These students may transfer before satisfying remedial and other requirements, provided they meet freshman admission standards at the receiving institution.

Moreover, local applicants to Savannah State University and Armstrong Atlantic State University who meet the criteria of limited admitted students but who did not make the “cut” for the quota established by the Board of Regents may be referred to BSA. Once these students have satisfied all transfer requirements, they may transfer to the local university which offers their program of interest.

Because most BSA students may opt to transfer to a state university, all students are enrolled in core courses with SSU students, earning their required 30 hours in courses developed and taught by the University’s faculty. This arrangement prepares them for the academic rigors of a university.

Restrictions and Limitations
The Basic Studies Academy's main goal is to prepare students to transfer to a degree program. While students are earning their 30 hours of transfer credit, they may not participate in Savannah State's intercollegiate sports; hold office in Savannah State's Student Government Association (SGA), or hold membership in any of Savannah State's extracurricular organizations. These restrictions are imposed by the Board of Regents and supported by Savannah State University to keep students focused on satisfying their remedial and transfer requirements. Once students transfer to a degree program, they will have the privilege to participate in similar activities.

There is no limit on the time to earn the 30 credit hours for transfer, given that some students attend part-time and some full-time. However, there is a limit on the number of semesters students can enroll to satisfy remedial requirements in English, reading, and mathematics. Full-time students must enroll in all remedial requirements concurrently, and they have three semesters to remediate and up to two additional semesters if they satisfy criteria for an appeal. Part-time students who have at least two remedial requirements but who enroll in only one requirement at a time have three semesters per requirement to remediate.

Contact Information
Director
Center for Academic Success
(912) 356-2178 or -2179

For additional information also visit our website http://cas.savannahstate.edu/default.htm and click Academic Assistance.

ROTC

Through the University’s Army and Naval ROTC Programs, Savannah State University students can prepare for commissioned service as regular or reserve officers in the Army, Army National Guard, Navy, or Marine Corps, commensurate with earning their degree. The Army and Naval ROTC Programs constitute an academic minor in military and naval science, respectively. For further information contact Army ROTC at (912) 356-2727, located at Hubert C Room 505b; or contact Navy ROTC at (912) 356-2206, located in the NROTC building.

Teacher Education

While Savannah State University does not offer degrees in teacher education, the University maintains its century-old tradition of training teachers through innovative, alternative programs offered in collaboration with Armstrong Atlantic State University. Current teacher preparation programs are listed below.

The Cooperative Teacher Certification Program enables Savannah State students to earn degrees in one of seven disciplines - biology, chemistry, English, history, mathematics, music or physics-and also take professional education courses. In some departments, students are able to complete a minor, or the equivalent thereof, in education. Through the Cooperative Teacher Certification Program, students earn degrees in the field of their choice and generally are able to complete four-to-six of the education courses required for teacher certification. The program places students on the cutting edge of teacher preparation reform. National commissions on teacher education have recommended that teachers hold degrees in the disciplines they teach, supplemented by a professional education curriculum, rather than degrees in education. Students should contact the appropriate academic departments for more information.
International Education Center

Savannah State University provides students with a multitude of opportunities to study abroad while earning academic credit toward completion of degree requirements. The University’s International Education Center (IEC) offers students access to study abroad in several countries to include Africa, Asia, the Caribbean, Europe, North America, and South America.

Some of the study abroad programs are offered by other University System of Georgia institutions. System institutions generally open their programs to all undergraduate students with a minimum cumulative GPA of 2.5; however, certain programs may require a higher GPA and completion of prerequisites. Students in the University System of Georgia who are eligible for financial aid may use that aid toward study abroad. A limited number of study abroad scholarships are available. For further information contact the (IEC) at (912-353-4942, located at King-Frazier Student Center, Room 246.

Studying abroad enables students to increase their knowledge of a foreign language, provides the opportunity to gain insights into the appreciation for the cultures and institutions of other peoples, facilitates the development of relevant career skills, and contributes to personal maturity, independence, self knowledge, and confidence.

Academic Renewal for Returning Students

Academic Renewal policy established by University System of Georgia allows Savannah State University degree-seeking undergraduate students who have experienced academic difficulty to have one opportunity to make a fresh start at Savannah State University after an absence of five consecutive calendar years. Former Academic Assistance or Learning Support students may apply for academic renewal only if they have successfully completed all Student Academic Assistance or Learning Support requirements before the commencement of the five-year period of absence.

All previously attempted course work continues to be recorded on the official transcript. For a complete statement of this policy, see “Academic Renewal for Returning Students” under “Academic Regulations” of this catalog or the policy statement in the Office of the Registrar.

Academic Renewal allows re-calculating GPA and credit hours toward graduation, based exclusively on work completed after returning to the University. This policy is for undergraduate students who have acquired maturity through extended experience outside course enrollment in higher education institutions. Students who qualify for academic renewal must

- Not have enrolled for credit in any courses, offered by academic/postsecondary institutions (accredited by one of the organizations recognized by Council on Postsecondary Education Association) for at least five years after the enrollment period subject to academic renewal;
- Be undergraduates who have not been awarded an associate or bachelor's degree; and
- Request academic renewal status within two academic semesters of re-enrollment or within one calendar year, whichever comes first.

Academic Renewal Procedures and Implementation Issues

Course work and grades earned prior to a five-year (or longer) separation period will remain on the transcript.

In consideration of any course work completed after the period of separation, only Savannah State University course work and subsequent transfer work will be used in the calculation of the overall GPA. This GPA (overall GPA) will be used for admission to programs/majors requiring a minimum grade point average.

Academic credit for previously completed course work, including transfer course work, will be retained only for all courses in which an A, B, C, or S grade has been earned. Retained grades are not calculated in the academic renewal GPA. The course credit hours will count in the academic renewal hours earned.

Former Academic Assistance or Learning Support students may apply for academic renewal only if they successfully complete all Student Academic Assistance or Learning Support requirements before the commencement of the five years of absence.

Students who transfer from Savannah State University should recognize that the receiving institution is under no obligation to acknowledge the adjusted GPA. The receiving institution is expected to recognize only the cumulative GPA.

The academic renewal GPA will be used for determining academic standing and eligibility for graduation.

All courses will be considered in the implementation of the Board of Regents’ Examination and College Preparatory Curriculum policy requirements.

Academic renewal can be approved only once. Once academic renewal is requested and approved, it cannot be reversed.

All courses will be considered for the determination of financial aid and/or veterans benefits.

To earn a degree, students must meet Savannah State University's residency requirements.

Past scholastic suspensions shall remain recorded on permanent records.

Academic Policy and Registration

Definition of Legal Residence

Regents’ Policies Governing the Classification of Students for Tuition Purposes

The following policies have been adopted by the Board of Regents for the purposes of determining the tuition status of students:

403.02 Classification of Students for Tuition Purposes

- If a person is 18 years of age or older, he or she may register as an in-state student only upon showing that he or she has been a legal resident of Georgia for a period of at least 12 months immediately preceding the date of registration.

Exceptions:

- A student whose parent, spouse, or court-appointed guardian is a legal resident of the State of Georgia may register as a resident providing the parent, spouse, or guardian can provide proof of legal residency in the State of Georgia for at least 12 consecutive months immediately preceding the date of registration.
- A student who previously held residency status in the State of Georgia but moved from the state then returned to the state in 12 or fewer months.
Students who are transferred to Georgia by an employer are not subject to the durational residency requirement.

No emancipated minor or other person 18 years of age or older shall be deemed to have gained or acquired in-state status for tuition purposes while attending any educational institution in this state, in the absence of a clear demonstration that he or she has in fact established legal residence in this state.

If a parent or legal guardian of a student changes his or her legal residence to another state following a period of legal residence in Georgia, the student may retain his or her classification as an in-state student as long as he or she remains continuously enrolled in the University System of Georgia, regardless of the status of his or her parent or legal guardian.

In the event that a legal resident of Georgia is appointed by a court as guardian of a nonresident minor, such minor will be permitted to register as in-state student providing the guardian can provide proof that he or she has been a resident of Georgia for the period of 12 months immediately preceding the date of the court appointment.

Aliens shall be classified as nonresident students, provided, however, that an alien who is living in this country under an immigration document permitting indefinite or permanent residence shall have the same privilege of qualifying for in-state tuition as a citizen of the United States.

Waivers: An institution may waive out-of-state tuition for:

An institution may waive out-of-state tuition and assess in-state tuition for:

- Academic Common Market. Students selected to participate in a program offered through the Academic Common Market.
- International and Superior Out-of-State Students. International students and superior out-of-state students selected by the institutional president or an authorized representative, provided that the number of such waivers in effect does not exceed 2 percent of the number of students at each of these institutions to whom such waivers are granted shall not exceed the number assigned below at any one point in time:
  - University of Georgia: 80
  - Georgia Institute of Technology: 60
  - Georgia State University: 80
  - Medical College of Georgia: 20
- Border County Residents. Residents of an out-of-state county bordering a Georgia county in which the reporting institution or a Board-approved external center of the University System is located.
- National Guard Members. Full-time members of the Georgia National Guard, their spouses, and their dependent children. (BR Minutes, April, 1998, pp. 16-17);
- Students enrolled in University System institutions as part of Competitive Economic Development Projects. Students who are certified by the Commissioner of the Georgia Department of Industry, Tourism and Trade as being part of a competitive economic development project;
- Students in Georgia-Based Corporations. Students who are employees of Georgia-based corporations or organizations that have contracted with the Board of Regents through University System institutions to provide out-of-state tuition differential waivers;
- Students in Pilot Programs. Students enrolled in special pilot programs approved by the Chancellor. The Chancellor shall evaluate institutional requests for such programs in light of good public policy and the best interests of students. If a pilot program is successful, the tuition program shall be presented to the Board for consideration;
- Students in ICAPP® Advantage programs. Any student participating in an ICAPP® Advantage program;
- Direct Exchange Program Students. Any international student who enrolls in a University System institution as a participant in a direct exchange program that provides reciprocal benefits to University System students.
- Families Moving to Georgia. A dependent student who, as of the first day of term of enrollment, can provide documentation supporting that his or her supporting parent or court-appointed guardian has accepted full-time, self-sustaining employment and established domicile in the State of Georgia for reasons other than gaining the benefit of favorable tuition rates may qualify immediately for an out-of-state tuition differential waiver which will expire 12 months from the date the waiver was granted. An affected student may petition for residency status according to established procedures at the institution.
- Recently Separated Military Service Personnel. Members of a uniformed military service of the United States who, within 12 months of separation from such service, enroll in a program for teacher certification and demonstrate an intent to become a permanent resident of Georgia. This waiver may be granted for not more than one year.

Additional Resident Information

Individuals who enter Savannah State University as nonresident students but who wish later to qualify as legal residents must submit a Petition for Georgia Resident Classification, which can be obtained in the Office of the Registrar. Residence status is not changed automatically, and the burden of proof rests with students. Students are responsible for registering under the proper residence classification. Students classified as nonresidents who believe they are entitled to be reclassified as legal residents may petition the Registrar for a change in status. To avoid delay and inconvenience at registration, the petition must be filed no later than 60 working days prior to registration for the semester students are petitioning for in-state residence status.
Items to be included with Petition for Residency

A notarized statement verifying employment during the last 12 months should indicate dates of employment. Statements on company letterhead do not have to be notarized.

A copy of lease or deed showing residence during the last 12 months should be included. Leases or deeds in a name other than that of the student require a notarized statement of residence from the person holding the lease or deed.

Courses at Other Colleges

Savannah State University students who are concurrently enrolled in courses for credit at another institution may not transfer such credit to Savannah State unless the appropriate dean or his designated representative gives written authorization.

Grades

Grading System

The University uses letters to indicate quality of academic work. “A” is the highest grade; “D” is the lowest passing grade, except when a “C” is required. Grade distinctions and quality points values are:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Meaning</th>
<th>Per Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Average</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0</td>
</tr>
<tr>
<td>W</td>
<td>Withdrew</td>
<td>0</td>
</tr>
<tr>
<td>WF</td>
<td>Withdrew, Failing</td>
<td>0</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
<td>0</td>
</tr>
<tr>
<td>P</td>
<td>Passing</td>
<td>0</td>

<td>Audit</td>
<td>0</td>
</tr>
<tr>
<td>K</td>
<td>Credit</td>
<td>0</td>
</tr>
<tr>
<td>NR</td>
<td>Not Reported</td>
<td>0</td>
</tr>
</tbody>
</table>

The grade “F” indicates a failure to meet the minimum requirements of a course.

Students who earn the grades of “D” or “F” in courses in Areas A and F of the core curriculum or Learning Support courses must repeat these courses. Additionally, students who earn grades of “D” or “F” in major, minor, or professional education courses must repeat these courses.

The following grades are not included in determining the grade point average.

W (Withdrawal) - This symbol indicates permission to withdraw without academic penalty. Such withdrawals will not be permitted after the midterm (refer to Academic Calendar for mid-term date), except when students in good standing are experiencing hardships as determined by the Vice President for Academic Affairs.

I (Incomplete) - This symbol indicates that students were doing satisfactory work, but, for non-academic reasons beyond their control, were unable to meet the requirements of the course. Students may remove the “I” by completing the remaining requirements within two semesters of residence; otherwise, the Registrar will change the grade of “I” to the grade of “F.” Students are responsible for initiating the completion of requirements with the instructor.

S (Satisfactory) - This symbol indicates completion of requirements in Student Academic Assistance or the Regents’ remediation course(s).

U (Unsatisfactory) - This symbol indicates failure to pass the Regents’ Test and continued required enrollment in the Regents’ remediation course(s).

IP (In Progress) - This symbol indicates satisfaction of Student Academic Assistance or Learning Support class work requirements but not of the Student Academic Assistance or Learning Support exit examination (CPE/COMPASS).

V (Audit) - This symbol indicates permission to sit for a course without receiving quality points or a grade other than “V.” Students may not transfer from audit to credit or vice versa. Students may register on a credit basis for a course that has previously been audited.

K (Credit) - This symbol indicates credit for the course via a credit by examination program approved by the faculty of the University. A “K” may be assigned for courses that have previously been audited if institutional procedures for credit by examination are followed.

NR (Not Reported) - This symbol indicates no grade reported by the instructor.

Reporting of Grades

At mid-semester and at the end of the semester, faculty members submit grade reports to the Office of the Registrar. At the end of each semester, grades are provided electronically which notes the grades and credit hours earned in each course in which they were enrolled, grade-point average for the semester, cumulative grade point average, and academic standing.

Mid-semester grade reports indicate deficiencies for students whose current work in a course is below the “C” level.

Students can access grade information on the Web “PAWS”. Information and directions to access the system can be obtained from the Registrar’s office.

Calculating the Cumulative Average

Determinations of scholastic standing are generally based upon a cumulative grade point average, which appears on each student’s permanent record. The cumulative grade point average is calculated by dividing the total number of grade points or quality points earned in academic courses by the total number of academic credit hours attempted at Savannah State University. Credits earned at other institutions, credits by examination, credits that carry S/U grades, institutional credits, and credits specifically excluded by University policy are not used in computing the cumulative grade point average.

Repeating of Courses

Students may repeat courses in which grades D, F, or WF were earned. Only the last grade will count in computing the grade point average for undergraduate degree requirements. Courses may be repeated anytime before the first degree is awarded. The student can select the courses eligible to be repeated as long as these courses meet the requirements below:

- The student must have earned a grade of D, F, or WF in the course.
### Grade Challenges by Students

Students who feel that they have received an unfair grade in any course should meet with the instructor within 7 calendar days of the first day of class of the next semester (excluding summer) in an effort to reach a resolution. If no satisfactory resolution is reached, students may, within 7 days after meeting with the instructor, challenge the grade by writing a letter of appeal to the chair of the department in which the course was offered. If the instructor is also the chair of the department, the appeal letter should be addressed to the dean of the college in which the course was offered. This procedure must be accomplished within 14 days of the first day of classes of that semester. If a resolution satisfactory to the student is not reached, the department chair or college dean may appoint a review committee (exclusive of the dean, department chair, and the instructor). The review committee, after hearing both the instructor and the student, submits its report and recommendation(s) to the chair, dean, or director of division, who then submits the report and recommendation to the Vice President for Academic Affairs. Upon accepting a recommendation to change a grade or upon reversing a recommendation not to change a grade, the Vice President directs the Registrar to make the appropriate change. The Vice President or his designee shall communicate final decisions to students. In order for the department chair, dean, or director of division to grant a hearing, students must present adequate evidence of unfair grading.

### Changes in Grades

Once a grade has been reported to the Registrar, it can be changed only if one of the following conditions are:

- The instructor presents to the dean of the college conclusive, documentary evidence that the grade was reported in error;
- The instructor follows the procedure of removal of an I (Incomplete) grade;
- The instructor follows the procedure of removal of an NR (Not Reported) grade; or
- A committee appointed to conduct a hearing of a student's challenge of a grade recommends a change, and the Vice President Academic Affairs accepts that recommendation.

### Classification

Students are classified on the basis of earned academic credit hours as follows:

- Freshman - 30 or less credits
- Sophomore - more than 30 credits up to 60 credits
- Junior - more than 60 credits up to 90 credits
- Senior - more than 90 credits

### Academic Probation and Suspension

Savannah State University is designed for serious-minded students who can profit from an institution of higher learning. Students who fail to fulfill the scholarship requirements of the Institution are subject to scholastic discipline. At the end of each semester, the Office of the Registrar computes cumulative grade point averages in order to determine the academic standing of all students.

#### Stages of Progress

<table>
<thead>
<tr>
<th>Hours Attempted</th>
<th>Minimum Cumulative Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-30</td>
<td>1.5</td>
</tr>
<tr>
<td>31-60</td>
<td>1.7</td>
</tr>
<tr>
<td>61+</td>
<td>2.0</td>
</tr>
</tbody>
</table>

- Students who earn a “D” or “F” in ENGL 1101, ENGL 1102, MATH 1111, or MATH 1113, or in any required major or minor course must repeat the course during the next term they are enrolled.
- Students whose cumulative grade average at the end of any term is at or above the minimum grade point average for their appropriate stage of progress will be considered in good standing.
- Students will be placed on academic warning when their cumulative grade point average falls below the minimum grade point average for their stage of progress.
- Students on academic warning will be placed on academic probation if their grade point average is not raised to the satisfactory level for their stage of progress at the end of the term following the term of academic warning.
- Students who do not achieve the cumulative grade point average for their stage of progress, but who do maintain a 2.0 grade point average during their probationary term will remain on probation for the next term of attendance.
- Students who do not raise their grade point average to the minimum level for their stage of progress or who do not achieve a 2.0 grade point average during their probationary term will be suspended from the University and must reapply for admission.
- Students on probation cannot register for more than twelve hours which is still considered a full load; (1) must repeat all courses in which they earned the grade of “F” if these courses are prescribed in their curriculum; (2) must repeat all courses in their major and minor concentration in which they earned a grade of “D” or “F”; (3) must repeat ENGL 1101, ENGL 1102, MATH 1111, and MATH 1113 if they earned the grade of “D” or “F” in these courses; (4) must report to their academic advisor for counseling immediately after being notified of probationary status, and (5) will not be permitted to represent the University or hold office in any university organization.
- Students who do not remove probationary status within two terms will be suspended for one term unless they achieve a 2.00 average GPA.
Degree and Graduation Requirements

Application for Graduation

All candidates for a degree must file a formal application for graduation with the Office of the Registrar. Candidates should apply two semesters preceding their expected graduation date that is January for December graduation, or September for May graduation. The Registrar will inform the academic departments when the application is filed. The department will conduct an audit and inform students of any remaining requirements. The Registrar conducts an independent audit to ensure that all degree requirements have been satisfied.

Dual Degrees

Dual degrees are earned when a student satisfies all requirements for two different baccalaureate degrees (for example, B.A. and B.S.) within one or more colleges of Savannah State University. The minimum residence requirement of 30 semester hours at Savannah State University in courses numbered 3000 or above must be met for the first degree. For the second degree, students must complete all discipline-specific course requirements including Area F. If the second degree is completed at the same time as the first degree, or within eight calendar years of the first degree, this requirement shall be deemed to have been satisfied for both degrees. Students who complete the first and second major at the same time are exempted from minor requirements. Whenever the second major is completed, the requirements for the second major will adhere to the catalog edition that the student followed for the first major.

After eight years from the date of awarding the first major, credit that was used to satisfy the university's academic residence requirement cannot be applied toward the university's residence requirement for the second major. At least one-half of the second major courses must be taken at Savannah State University. Students pursuing a double major should consult with an academic advisor.

Minor

A minor area of study requires a minimum of 15 semester credit hours. At least 9 of these credit hours must be at the 3000 level or higher. To be noted on the transcript, a minor must be declared at least one year prior to graduation.

Graduation

Degrees will be awarded only to students who meet academic standards and residency requirements of an academic college. Degrees are conferred formally at commencement exercises at the end of the Fall and Spring Semesters.

Graduation with Honors

Graduation with honors requires a minimum attendance period of four semesters and completion of at least sixty hours at Savannah State University. In addition, students who graduate with honors must attain the following grade-point averages the entire period of attendance:

- Cum Laude 3.00
- Magna Cum Laude 3.40
- Summa Cum Laude 3.75

Due to processing and final evaluation time constraints, Spring Semester grades for May graduation and Fall Semester grades for December graduation will not be used in computing the GPA for honors. After May and Decembergraduations, the GPA is rechecked for honors qualifications; the honors designation will then be added to the record of students who qualify.

General Requirements for the Baccalaureate Degree

- A minimum of 120 semester hours, exclusive of the required health, physical education, and freshman orientation courses;
- A scholastic average of 2.0 or higher;
Satisfactory completion of the minimum requirements of the Core Curriculum as outlined for Area A, B, C, D and E;

Satisfactory completion of core courses (POLS 1101 and HIST 2111 or HIST 2112) designed to give students proficiency in United States and Georgia history and government;

Satisfactory completion of the University System of Georgia Regents' Examination;

A prescribed college or departmental major (such as business administration, chemistry, or engineering technology) or a major of at least 30 semester hours in one department and a minor of 15-21 hours, with no grade below “C” in major, minor, or special subject requirements. (15-30 hours of major courses must be taken in residence at this university);

Residence of at least one year at Savannah State University (During their senior year, students are required to spend a minimum of 30 semester hours in residence); and

Completion of all the aforementioned requirements within eight calendar years. The University reserves the right to allow exceptions to the requirements when recommended by the chair of the department in which the student is majoring.

Note: Graduation requirements include a 2.00 minimum grade point average for undergraduate degrees. The computation of this graduation grade point average will include only the final attempt in courses that have been repeated. With the preceding exception, the grade point average will be computed in the manner prescribed in the Grading System and Calculating the Cumulative Grade Point Average sections of the general catalog. Credits earned at other institutions or by examination and courses with “S” or “U” grade are not used to compute the grade point average.

All incomplete grades for previous semesters must be received in the Office of the Registrar in writing thirty (30) days prior to graduation date or completion of academic requirements. Students are responsible for seeing that incomplete grades are properly recorded. Students exempted from taking required credit hours of physical education courses must take the same number of credit hours of electives to replace graduation requirements for physical education.

Exit Examinations

As conditions of graduation, the University and academic departments may require students to take additional competency tests appropriate to their programs of study. Information relative to these tests is available in the academic departments.

Students failing to demonstrate required proficiency on any competency test may be required to complete additional courses to correct the deficiency. Courses required and completed under this provision may be with or without academic credit and may be required without regard to prior course credits in these disciplines.

Savannah State University Honors Program

Purpose and Goals
The Savannah State University Honors Program maintains a community of academically talented students. It provides the students with opportunities for intellectual growth and for high achievement. The advantages of participation in the honors program are numerous, for the program is highly competitive and multi-faceted. The general education honors core is the same as the University's general education core; however, honors students study at an accelerated pace and have a myriad of activities on and off campus. Honors students are able to network with other students who are highly motivated. The program is designed to assist students in their preparation for graduate and professional study and ultimately to assume leadership roles.

Admission Requirements
Freshmen applicants for admission to the Savannah State University Honors Program must meet the following requirements:

- Rank in the upper 25 percent of their high school class and/or
- Achieve a minimum SAT I score of 900/GPA 3.5 or SAT I score of 1200+/GPA 3.30;
- Meet the general admission requirements of the University; and
- Have a strong college preparatory background in English, mathematics, and/or science.

Transfer students who wish to enter the Savannah State University Honors Program should apply to the director of the program. They should also present transcripts of their previous college work and any SAT I, ACT, and Advanced Placement Scores. However, since the core of the honors curriculum is offered in the freshman and sophomore years, transfer students should seek admission to the University as soon as possible.

Academic Requirements and Credit
Honors students are required to enroll in and successfully complete a minimum of 15 credit hours each semester. Students who do not maintain a cumulative grade point average of 3.50 or above will be placed on honors probation the following semester. If the standard is not met at the close of the probation period, the students will be suspended from the honors program, but they may appeal the decision through proper administrative channels and apply for readmission.

General Education Honors Core
Students in the honors program must complete a minimum of 10 hours in each honors core area: humanities, mathematics and science, and social science.

Campus Honor Societies

Recognition of Excellence in Scholarship

Persons who have not been subject to disciplinary action while earning superior grades and who have not incurred any academic deficiencies are eligible for honors status as indicated:

Students who maintain an average of “B” in a full program (12 hours) during a semester are eligible for listing on the Honor Roll.

Students who maintain an average of 3.50 or higher in a full program (12 hours) during a semester will have their names placed on the Dean's List.
Students who maintain a 4.0 average in a full program (12 hours) are designated Presidential Scholars.

Students who maintain an average of 3.00 during any semester may obtain permission to take an overload during the following semester, the total not to exceed twenty hours.

**Class Regulations**

**Student Load - Undergraduate**

The University policy governing semester academic course load for full-time status is as follows: freshmen (12 credit hours, minimum; 16 credit hours, normal; 17 credit hours, maximum), and sophomores, juniors, and seniors (12 credit hours, minimum; 16 credit hours, normal; 18 credit hours, maximum). Students are generally expected to enroll in at least 15 hours per semester.

Under ordinary circumstances students may enroll in courses up to but not in excess of fifteen (15) semester hours. Students who maintain an average 3.00 during any semester may seek permission to take additional hours during the following semester, the total not to exceed twenty (20) semester hours. **Exceptions to the 3.00 average may be made for students who are within two semesters of graduation.** For these students, the total hours carried for credit may not exceed twenty (20). Advisors must recommend this overload to the dean.

**Overloads**

Permission to enroll for more than 18 semester hours will be granted by the appropriate Dean to a student:

- with an average grade of “B” for full-time enrollment in the preceding semester, or
- with an overall grade-point average of 3.0 or
- requiring an extra course in one of the two semesters prior to graduation

No student will be allowed to register for more than 21 hours. A student who is on academic probation will not be permitted to register for more than 13 semester hours. Exceptions to these limitations may only be made by the appropriate Dean.

**Special Policy for Limited Seating Classes**

Certain classes, such as computer lab classes, with limited seating are governed by a more stringent attendance policy. These classes are identified in the catalog and/or registration schedules as “limited seating classes.” In these cases, students must attend the first class session or notify the instructor immediately that they will be absent. Failure to comply with these requirements may result in the immediate removal (withdrawal) from the class. The seat may be reassigned. When circumstances prevent their attending the first session, students are responsible for notifying instructors or the administrative unit head (department chair or dean of the instructor's college). Withdrawals may also impact financial aid classification if students' academic load then falls below the required minimum.

**Class Attendance**

Savannah State University endeavors to provide optimum conditions for the intellectual growth and development of its students. With the exception of University approved activities, it is expected that students should attend and be punctual to their classes, laboratories, and officially scheduled class requirements. Students who are absent because of participation in approved University activities will be permitted to make up work missed during their absences, provided that no more than 15% of class hours per course per term are missed and that work is assigned for completion prior to the University sanctioned activity.

All matters related to student absences, including the making up of work missed, are to be arranged between the student and the instructor. Instructors will publish their guidelines for handling absences in their syllabi. Students are obligated to adhere to the requirements of each course. Faculty are encouraged to take into consideration religious holidays of the student's faith, summons, jury duty, or similar compelling reasons for absences.

**Non-Attendance Policy (NA) & Instructor Drop/Delete**

Students who have never attended a single class during the first seven class days (including the first Saturday) of the term will be assigned a designation of NA (Non-Attendance - never attended, or Logged In) by their instructors. An NA designation drops and deletes a course from the student's registration, and removes all financial obligations associated with that course. Students who attend one or more class sessions of a particular class are not eligible for the NA designation. Students who are not planning on attending a particular course should officially drop the course from their schedules and not leave it up to the instructor to input an NA designation. NA designations are only applicable during the first seven days of a term.

Subsequent to the NA deadline, instructors have three additional days to drop/delete (DD) students who fail to satisfy course prerequisites and/or grade requisite from their roster without financial or academic penalty.

The NA policy and instructor drop/delete do not exempt students from their responsibility for officially dropping/withdrawing from classes. To avoid financial, or academic, penalty for dropping courses, students must drop courses during the official drop period (as specified in the Academic Calendar).

**Class Drop/Add Policy**

Subsequent to registration, students may drop classes from, or add classes to, their schedules, without financial or academic penalty, until the last day of late registration (refer to the Academic Calendar for this date). All drops during this period will delete the class from the student's schedule and release the student of any financial obligations corresponding to the class.

Subsequent to the late registration deadline, students may still officially drop a class from their schedules until the last day of classes of the term. However, all drops during this period will be assessed corresponding tuition and fees, and a grade of W will be assigned for any class dropped by the drop deadline, and a grade of WF will be assigned for any class dropped after the drop deadline through the last day of classes.

Students will not be permitted to add classes to their schedules after the last day of late registration.

Students desiring to drop or add classes need to secure the drop/add form from their academic department, or from the Office of the Registrar, obtain the signatures of instructors for the class(s) they are adding and/or dropping, and return the form to the Office of the Registrar for processing.
Withdrawing from Learning Support Courses

Students may not withdraw from Academic Assistance (Learning Support) courses. Withdrawal from these courses results in an automatic cancellation of registration and withdrawal from the University. During the first week of each semester, instructors will notify each class of the attendance policy, emphasizing what constitutes excessive absences and penalties. Students may appeal any absence-related decision of an instructor to the department chair, or to the dean of the instructor’s college, and ultimately to the Vice President for Academic Affairs.

Withdrawing from the University

Students who wish to withdraw from the University may do so by filing the appropriate forms in the Office of the Vice President for Academic Affairs.

The last day to withdraw without academic penalty (meaning that the student will receive a non-punitive withdrawal grade of W) is at mid-term of each semester (refer to Academic Calendar for mid-term date).

Except in cases of hardship as approved by the academic dean in consultation with the Vice President for Academic Affairs, students who withdraw after the mid-term of each semester will receive a penalty grade of “WF”. This grade is included in the calculation of the student’s term and cumulative grade point averages. If the student’s withdrawal from the university is due to extenuating circumstances resulting in undue hardship, the student should initially petition the Vice President for Academic Affairs for relief prior to submission of the withdrawal application.

Counselors and advisors are available to counsel with students in an effort to determine whether the circumstance causing the withdrawal are such that the University can provide assistance that might make it possible for students to remain in school. If such assistance cannot be afforded, the Vice President for Academic Affairs will forward the approved withdrawal application forms to the offices of Financial Aid, Cashier, and Registrar for processing.

Students who withdraw without giving formal notice will forfeit claims for any funds.

The last day to withdraw from the university for the semester will be the last day of scheduled classes.

Unofficial Withdrawals

Students who cease attending all classes (stop-out) without officially withdrawing, are considered unofficially withdrawn from the university.

Upon submission of final grades for a term, instructors are required to indicate the last day of attendance for each failing grade (F) submitted. In compliance with Title IV regulations for unofficial withdrawals, students who have failing grades of “F” in all classes, and whose last date of attendance is the 50% point of the semester or below will be considered as unofficially withdrawn from the University and reported as such.

Note: This procedure for processing unofficial withdrawals will take effect in the summer 2008 term.

Student Information

Access to Student Records

Savannah State University is covered by the Family Educational Rights and Privacy Act of 1974, as amended (FERPA), which are designed to protect the students’ rights with regard to education records maintained by the institution. Under the Act, students may inspect and review their own education records maintained by the institution and challenge the content of records (except grades which can only be challenged through the academic appeal procedure) on the grounds that they are inaccurate, misleading or in violation of privacy or other rights; and control disclosures from educational records with certain exceptions.

Savannah State University's policy on “Access to Student Records” complies with the provisions of FERPA. A copy of this policy and a copy of a summary of the FERPA regulations may be obtained in the Office of the Registrar. Students also have the right to file complaints with the FERPA Office of the Department of Education, Washington, D.C. 20201.

Release of Directory Information

Directory information will be treated as public information and generally will be available on all students and former students at the discretion of the University.

Directory information includes the students’, date and place of birth, major field of study; height, weight, age, hometown, hobbies, participation in officially recognized activities and sports, general interest items of members of athletic teams, dates of attendance, degree applied for or received, honors and awards received, and previous educational institutions attended.

Students or parents of students who are under eighteen (18), may refuse to permit the release of any or all of the categories of directory information until the end of Spring Semester by submitting a written request to the office of the Registrar within ten (10) days of the beginning of any academic semester during which the students are enrolled. This time requirement is necessary to insure that directory information, which is withheld, is not included in the various university publications during the year. Of course, requests to withhold the release of directory information will be honored at any time, but the university cannot be reasonably certain that some directory information will not be released if the aforementioned time limits are not met. The student directory is usually published during the Fall Semester. Requests received after press time cannot be honored. Information from this and similar publications cannot be deleted after printing, and previously released information cannot be recalled.

Inquiries from news media about students or former students should be made to the Director of Communications. Due to the unpredictable nature and immediacy of media inquiries, notice cannot be given of media releases (non-athletic). Students or former students who wish to have directory information withheld should notify the Director of Communications prior to the anticipated date of any media inquiry.

Change of Address

Students are responsible for notifying the Office of the Registrar of any change in address. The mailing of notices to the last address on record constitutes official notification.
Student Academic Grievance

Appellate Procedures (Disciplinary)

Original Jurisdiction

All student grievances of an academic nature in the University shall rest with the individual departments for a decision. Students may accept this decision or make an appeal. This step is handled by the Educational Policy Committee.

Right of Appeal

Appeals shall be available to every student in an academic grievance proceeding against the University. Within forty-five (45) working days, students must file the appeal with the department chair.

Appellate Procedure

When a decision of original jurisdiction has been rendered, the grievant shall have seven (7) working days to appeal this decision. All appeals shall be in writing and supporting documents presented to the dean of the college.

Within three (3) days, appellants shall be given, in writing, all charges upon which the original decision was based as well as all necessary information for the appellate hearing procedures. Appellants shall be guaranteed a speedy hearing, yet given adequate time to prepare their defense.

Jurisdiction of Appeal

The Vice President for Academic Affairs shall make the decision regarding all appeals. The Vice President shall have the prerogative of either creating a special committee or using an independent officer to assist in hearing the case.

Rights of Appellant

Grievants shall have the right to be present when all evidence is presented against them and all witnesses appear, have an advisor (non lawyer) present to assist throughout the proceedings, cross-examine witnesses, present evidence by witness or affidavit, and present evidence by deposition when a witness is unable to appear.

Hearing Procedures

A record shall be kept of the entire proceedings, either by tape or stenographer. The hearing will commence by a reading of the charges and the decision of the department of original jurisdiction. Evidence will be presented to sustain the decision.

Disciplinary Interim Suspension

A student who has been summarily suspended according to the Savannah State University Student Conduct Code pending the outcome of a disciplinary hearing will not be eligible for withdrawal from the University until the final disposition of the case. Should the student be found guilty of violating the Student Conduct Code or plead "no contest", the student will receive failing grades from the date of the summary suspension and forfeit the semester. Should the student be found not guilty, the Vice President for Student Affairs will provide written notification to the Vice President for Academic Affairs of the disposition. Should the student desire to withdraw, the Vice President for Academic Affairs will accept a petition from the student and grant an automatic withdrawal without penalty and forward the withdrawal approval to the appropriate offices.

Veterans, Disability, and War Orphans’ Benefit

Savannah State University maintains a veteran's coordinator in the office of Enrollment Management to certify and assist students who are eligible for veterans benefits and to coordinate veterans affairs.

Veterans who wish to attend Savannah State University under any of the veteran's benefits programs provided by public law should apply to the Savannah State University Office of Admissions in the normal manner. It is advisable for veterans who have not previously used any educational benefits to apply to the Veterans Affairs (VA) Regional Office for those benefits, and for veterans who will be transferring to Savannah State from another institution where educational benefits were received to process a “Request for Change of Program or Place of Training” form with the VA Regional Office concurrently with their application to Savannah State University. As soon as the Savannah State University Office of Admissions notifies applications of their acceptance to the University, applicants should contact the SSU veteran's coordinator for further instructions.

Although additional information is contained on the application for benefits and the informational sheet, which must be completed in the Office of the Registrar, veteran students should pay particular attention to the following:

- Veterans may be certified for benefits only after having been accepted to and while attending in a designated degree program (except for students enrolled in Student Academic Assistance or Learning Support) in certain certification programs. Students classified as non-degree (ND), post-graduate (PG) or post-baccalaureate (PB) will not be certified for benefits while attending in those classifications, unless enrolled in an approved certification program.
- Students may be certified for only those courses that apply to their formal and designated degree objective. Certain required remediation and/or prerequisite courses may be certified for benefits, but only if those courses are specifically required of the student, and the requirement is appropriately documented in the Office of the Registrar.
- Students receiving benefits are required to notify the veterans coordinator whenever their attendance in a course or program is interrupted, or whenever the students formally change degree objectives. Failure to do so may result in an overpayment of benefits. Students are liable for overpayments.
- Students may not be certified for repeated courses unless the repetition is required by academic policy which is specified in the University catalog.
- Savannah State University defines a normal full-time load for undergraduate students as 12 semester hours. Undergraduate students who carry fewer than 12 semester hours will not be certified as full-time.
- Continuing students who wish to continue to receive benefits must renew their certifications through the veteran's coordinator each Fall and Spring Semester. Students whose attendance was interrupted must renew their certifications at the beginning of the next semester of attendance in which they wish to receive benefits. Student Academic Assistance or Learning Support students, active duty military personnel, and students attending on a less-than-half-time
basis must renew their certifications each semester. These students who are certified on a semester basis will routinely experience a break in benefit payments between terms and should contact the Veterans Administration Regional Office to ascertain the amount and schedule of their checks.

• Veterans with discharges (DD-214) are exempted from taking physical education (P.E.) courses. They can provide copies of their DD-214 and receive up to 4 credit hours of P.E. Veterans should be prepared to pay their own tuition and fees if they have not applied for advance pay at least 40 days prior to the beginning of the semester.

Classification of Courses

Courses are numbered as follows:

<table>
<thead>
<tr>
<th>Student Status</th>
<th>Number Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Institutional</td>
<td>0001-0199</td>
</tr>
<tr>
<td>Freshman</td>
<td>1000-1999</td>
</tr>
<tr>
<td>Sophomore</td>
<td>2000-2999</td>
</tr>
<tr>
<td>Junior</td>
<td>3000-3999</td>
</tr>
<tr>
<td>Senior</td>
<td>4000-4999</td>
</tr>
</tbody>
</table>

Credit Course Description

Under each course title, there are three numbers, such as 3-0-3. The first number listed is the number of hours of lecture; the second number indicates the number of hours of laboratory; and the third number indicates the number of credit hours awarded for successful completion of the course.

Courses Using the Web

Online courses are taken exclusively over the Internet. There are no required on-campus meetings. Hybrid courses are held both on campus and online. They are traditional face-to-face courses in which some of the on-campus class meetings are replaced with online assignments. Web-enhanced courses are traditional face-to-face courses that are augmented by course websites. Unlike the class meetings for hybrid courses, the class meetings for web-enhanced courses are all scheduled on campus unless classes are redirected for special activities.

Code Category Description

**F - Fully at a distance**

All or nearly all of the class sessions are delivered via technology. The course does not require students to travel to a classroom for instruction; however, it might require students to travel to a site to attend an orientation or to take exams. (NOTE: This is generally equivalent to delivering more than 95 percent of sessions via technology.)

**P - Partially at a distance**

Technology is used to deliver more than 50 percent of class sessions, but visits to a classroom (or similar site) are required. (NOTE: If a course is offered through two-way interactive video, then it should be coded partially at a distance because students must meet at a designated location.)

**H - Hybrid**

Technology is used to deliver 50 percent or less of class sessions, but at least one class session is replaced by technology.

**T - Technology enhanced**

Technology is used in delivering instruction to all students in the section, but no class sessions are replaced by technology.

**Null - No technology**

No technology is used in delivering instruction.
Student Services

Central to the Division of Student Affairs is enhancing the holistic educational experience of students by providing educationally purposeful services and programs that bridge classroom learning with out-of-class experiences. As such, the primary focus of the Division of Student Affairs is to provide opportunities (e.g., activities, programs, resources, and well-maintained facilities) and to create environments that support the achievement of the university’s educational goals. The quality of student life, however, depends on the extent to which students take advantage of what the university offers for their personal learning and social enrichment. Students can be assisted in this important task through the units that comprise the Division of Student Affairs.

Center for Leadership and Character Development

The development of leadership skills is a desired educational outcome at the university. As such, the university, through the Office of Student Affairs, has established the Center for Leadership & Character Development. The Center focuses primarily on developing student leadership, character development, and service through seminars, institutes, retreats, and workshops. The Center itself is located in the Office of Student Affairs suite; it houses dozens of books and audio tapes on leadership, personal development, career development, and service learning. Programs include the Freshman Academic during the fall semester, the Alternative Spring Break experience and a Leadership Lecture Series throughout the year. All students are encouraged to utilize the Center. Students should be mindful that the major leadership programs are limited to small numbers of students.

Department of Student Development

The focus of the Department of Student Development is to incorporate student learning and student development into experiential and social opportunities that will enhance our students’ overall educational experience. This department recognizes the importance of a comprehensive college health program which supports our academic program, to include focus on professional personal and career counseling services, health promotion, education and prevention, medical/clinical/holistic services, intramural sports and wellness and other adjustment and consumer service.

Counseling and Disability Services

The Office of Counseling and Disability Services provides free, confidential counseling to all students at SSU. We know that college life is a transitional period marked by change, pressure and stress. Therefore, our goal is to help students understand this period, find ways of coping and grow from their experiences.

Personal Counseling

Mission
To provide developmental, remedial, preventive and consultative/training services which will assist students to grow and experience personal and academic success within the educational framework.

Areas of counseling include but are not limited to: relationship issues, self-esteem, stress management, eating disorders, problem gambling, pregnancies, anger management, depression and suicide, home-sickness, self injurious behaviors and substance abuse.

Disability

Mission
To improve the educational development of students with disabilities and enhance understanding and support within the campus community.

Accommodations are academic adaptations that do not compromise academic standards or the mastery of essential course elements. They include, but are not limited to: preferential housing, extended time for exams, use of adaptive equipment, books on CD, sign language interpreters, magnification equipment for testing, proctors, readers, registration assistance, preferred seating, use of tape recorder, use of readers and note takers, quiet rooms for testing and accommodations for the Regents exam.

Contact: The Office of Counseling and Disability Services is located in the King-Frazier Building, Room 233, and can be contacted at (912) 356-2202/2285.

Student Health Services

Harris-McDew Student Health Center

Mission
To become the principle advocate for a healthy campus by promoting the health of students through the provision of services; which are committed to integrating primary prevention and education with clinical care, and through referral, mental health support and nutritional counseling.

All full-time undergraduate and graduate students pay a student health fee that covers the unlimited use of student health center services without additional cost for services provided by the staff. Services provided include:

- Medical and nursing examination and care;
- Alcohol and Drug Awareness Resource Center;
- Limited pharmacy services;
- Information, consultation and referrals;
- Wellness and wholesome mental and physical health habits programs;
- Day beds for temporary observation and care; and
- The center, which is staffed by nurses, is open Monday through Friday.
- Part time physician (Monday through Friday)

A resident student suffering from an injury or sudden illness during hours when the health center is closed should contact the resident hall staff, resident assistant, or the Department of Public Safety. An ambulance or paramedic unit may be dispatched to campus for an immediate evaluation or transportation to the hospital as needed at the Student’s expense. Students are responsible for the cost of all services provided by any other community health care provider. All students are encouraged to secure coverage by an adequate health insurance plan and should follow its directions for emergency or crisis care. Information on a current student
health insurance plan is maintained in the Student Health Center. Participation in the student health insurance plan is voluntary and the student is responsible for the cost.

Contact: The Harris-McDew Student Health Center is conveniently located on the SSU campus on Jasmine Avenue adjacent to Payne Hall, and can be contacted at (912) 356-2217.

Intramural Sports and Wellness Programs
The Intramural Sports and Wellness Program (ISWP) is designed to foster both competitive and leisure sports and fitness activities for both men and women. The purpose of the Savannah State University Intramural Sports & Wellness Program is to promote student learning and development by encouraging outcomes such as intellectual growth; ability; to communicate effectively, realistic self-appraisal, enhanced self-esteem, clarification of values, leadership development, physical fitness, meaningful interpersonal relations, ability to work independently and collaboratively, social responsibility, satisfying and productive lifestyles, appreciation of aesthetic and cultural diversity, and achievement of personal goals.

Mission:
To enhance students’ fitness and wellness, knowledge, personal skills, and enjoyment by providing opportunities for a variety of activities that may contribute to individual fitness and wellness; opportunities for cooperative and competitive play activity in the game form; and a medium through which students can learn and practice leadership, management, program planning and interpersonal skills.

Activities usually include, but are not limited to, basketball, volleyball, softball, and flag football. Participants are required to complete a Student Waiver Form with the ISWP Office. Sporting equipment and other resources will be made available.

Contact: Intramural Sports and Wellness programs are located in the Wiley Wilcox Gym, and can be contacted at (912) 351-3506/3450.

Career Services
Career Services are designed to assist students and other designated clients through all phases of their career development.

• Career Counseling

Mission
To assist students, alumni and retirees of Savannah State University in developing and implementing career plans, through career guidance, promoting institutional awareness, early intervention activities, exposure to resources and involvement in opportunities for learning and development of career goals.

The Office of Career Services offers services and resources which include, but are not limited to career focus checklist for freshmen through seniors, job fairs, computer career guidance, employment bulletins, internship guidance, interviewing and job searching programs, on campus recruiting and outreach programs, referral services, resume development.

Contact: Career Services is located in the King-Frazier Building, Room 233, and can be contacted at (912) 353-3049/356-2202.

Department of Student Life
The mission of the Department of Student Life at Savannah State University is to foster an inclusive culture of student leadership development, campus and community involvement, and programming in order to develop a socially just community of lifelong learners through the provision of services and facilities. The department advocates the needs of students to campus leaders, foster student pride and assist in the university efforts to retain students. Student Life services are provided through the Office of Residential Services and Programs, Office of Student Programs and Organizations, Student Government Association and Office of Student Ethics.

Residential Services and Programs
The Office of Residential Services and Programs provides comfortable, affordable, and secure residential communities located throughout campus. In particular, the university has traditional residence hall facilities and an apartment-style facility, which is for upper-class-level students. Residence life programs promote academic success, student development, and leadership. For a greater understanding of residence life at the university, students are encouraged to read the Residence Hall Student Handbook, which is available in the Office of Housing & Residence Life.

Residential Facilities
There are residence facilities at Savannah State University that offer a variety of living and learning options for students. Assignment to living areas is based on sex and classification.

Residence on campus complements classroom instruction. There are certain regulations in place to ensure that the living/learning processes of students are maintained. Such regulations can be found in this catalog and publications distributed by the Office of Student Affairs and the Office of Residential Services and Programs.

Freshmen from outside the Chatham County area are expected to reside in the residence halls of Savannah State University. Students are required to apply for housing at the beginning of the academic year, summer school, and any semester that is preceded by a break in continued residence. Room assignments are made for the academic year. Students in double occupancy, who have not contracted for single occupancy and who do not have a roommate, or change rooms. Students who had assigned roommates and the roommate did not occupy their assigned space or withdrew from campus housing within a month of the end of registration for a term must also adhere to the room consolidation requirements. Any room changes must be approved in writing by the Office of Residential Services and Programs and be completed within five days after notification to consolidate. Individual students remaining in a double occupancy room will be automatically charged and legally obligated to pay a prorated single room rate. These students may contract for a double occupancy room as a single for the remainder of the current semester only.

Students are expected to clear housing at the end of spring and summer semesters, if they do not plan to return, or if they graduate. Before vacating their assigned rooms, all students must complete a clearance form and must obtain the signature of the Resident Hall Director or the Resident Assistant (RA).

Students who live in residential facilities are required to purchase a 20-meal-per week meal plan. Students who have a diet prescribed by a physician may be exempted only if the University cafeteria is unable to prepare the diet meals. Hot plates and other cooking devices are prohibited in the residence halls. Prohibited items found in rooms will be confiscated; students who violate cooking policies will be charged a fine.
Reservation Policy

Purpose
The room reservation policy is to provide the condition upon which students who wish to participate in residential on-campus housing must adhere to.

Eligibility
Any student desiring to reside in University housing is required to submit an annual room reservation fee in the amount of $200.00. This fee is due prior to or at the time the residential housing application is submitted. The fee will then be allocated toward current residential charges for the semester.

Stipulations, Conditions, and Limitations
Students residing in University housing must agree to the following:

- The room reservation fee must be paid annually before a student can be assigned to campus housing for the academic year (term).
- The fee will be applied to charges for term upon which the student is entering SSU.
- A room reservation fee will not be required for students entering during the summer semester.
- Students who wish to cancel the on campus housing contract will be subject to the following given:
  - The student formally request and withdraw their application for housing prior to July 1, for the fall semester or December 1, for the spring semester, the student will receive a full refund in the amount of $200.00.
  - The student does not formally communicate intentions of withdrawal within the time frames specified above the student will then forfeit the room reservation fee.

Full refund of room reservation/damage deposit is granted UPON WRITTEN REQUEST if room cancellation is postmarked thirty (30) days prior to the start of any semester.

Contact: The Office of Residential Services & Programs is conveniently located on the King-Frazier Student Center Room 238 and can be contacted at (912) 356-2324.

Office of Student Programs and Organizations
The Office of Student Programs and Organizations is responsible for enhancing student life through co-curricular activities, which are an integral part of the physical, social, emotional, spiritual, and intellectual growth of students. Student activities at Savannah State University consist of:

- Clubs and Organizations
- Game Room and Recreational Activities
- Movies
- Campus-wide and Informal Activities
- Departmental Activities

Student organizations provide opportunities for students, faculty, and staff to interact with one another during cultural, recreational, spiritual and social activities either in formal or informal settings.

Contact: The Office of Student Programs and Organizations is conveniently located on the SSU campus in the King-Frazier Student Center Room 244 and 128, and can be contacted at (912) 353-3149 and (912) 356-2277.

Student Government Association
The Student Government Association (SGA), which is the official representative of the student body, works closely with the university administration on matters related to student life. The SGA is comprised of students pursuing the betterment of the institution so that all members of the University community are beneficiaries of the opportunities and advantages available in an environment conducive to growth.

Contact: The Student Government Association is conveniently located on the SSU campus in the King-Frazier Student Center Room 206, and can be contacted at (912) 356-2504.

Other organizations that are recognized at the university include:
- Honor Societies
- Professional and Departmental Organizations
- Fraternities and Sororities
- Service Clubs and Organizations
- Student Leadership Development

New and Transfer Student Orientation

The Dean of Enrollment Management supervises the orientation program which is designed to assist new students in becoming acquainted with other students, University regulations, routine procedures, campus traditions, opportunities for training, and specialized vocational guidance. The program concentrates on all freshmen and new students entering the University. Orientation includes placement testing, academic advisement and pre-registration. Activities typically include a dance, dinner, and get acquainted activities and picnic on the campus circle.

Two follow-up courses dealing with the psychology of human relationships, required of freshmen and transfer students, are designed to facilitate the process of total adjustment to university life and to guide students’ thinking in reference to the social forces that affect them daily. These courses are designated Freshman Year Experience I and Freshman Year Experience II.

Fraternities and Sororities

The national fraternities organized on the campus include Alpha Phi Alpha, Iota Phi Theta, Kappa Alpha Psi, Phi Beta Sigma, and Omega Psi Phi.

The national sororities organized on the campus are Alpha Kappa Alpha, Delta Sigma Theta, Sigma Gamma Rho, and Zeta Phi Beta.

These organizations sponsor rich and varied programs designed for intellectual and social development.

Honor Societies

A number of national honor societies are active on campus. These include: Alpha Kappa Delta International Society; Alpha Phi Sigma Criminal Justice Honor Society, Inc.; Beta Beta Beta Honor Society; Beta Sigma Gamma Business Honor Society; Kappa Kappa Psi Honorary Band Fraternity; Phi Kappa Mu Honor Society; Tau Beta Sigma Honor Society; and Golden Key National Honor Society.

Intercollegiate Athletics

Savannah State University holds membership in the National Collegiate Athletic Association (NCAA) Division I and participates in the following sports: football, baseball, basketball (men and women), cross-country (men and women), tennis (men and women), track and field (men and women), and volleyball (women only), golf (men), and softball (women).

Qualified instructors in health, physical education, and recreation provide training in the several aspects of the required activity program.

Recreational activities, social dancing, swimming, and free exercise activities are encouraged and centered in this area. The area makes every effort to provide wholesome recreational activities for all students.

Cultural Activities

To complement formal education on the campus, the University provides many activities for cultural enrichment. Student assemblies, motion pictures, lectures, art exhibitions, drama productions, forums, hobby groups, and tours contribute to the general enrichment of the University community.

The Office of the President sponsors the President Enhancement Lecture Series and the Office of the Vice President for Academic Affairs sponsors the Academic Affairs Lecture Series. All students are encouraged to attend these formal activities, which afford inspiring association with outstanding personalities.

The Department of Liberal Arts and Humanities sponsors several drama presentations, musical programs and art exhibitions during the school year. The Christmas and spring concerts are significant events in the cultural program of the University.

The University sponsors an annual Black Heritage festival in conjunction with the City of Savannah, Department of Cultural Affairs.

Office of Student Ethics

The Office of Student Ethics, which is part of the Department of Student Life, mission is to promote the development character, conscience, citizenship, civility, individual and social responsibilities of students and student organizations at Savannah State University. The office provides programs that promote the obligations of citizenship in the University community. Students and student organizations are also provided with the tools necessary for success in pluralistic society by providing feedback about behaviors that both enhance and harm the academic community, as well as assistance and opportunities in modifying such behaviors.

Student Conduct

Students enrolled at Savannah State University are expected at all times to exemplify civility, respect and integrity. The University reserves the right to exclude at any time students whose conduct is deemed improper or prejudicial to the welfare of the University community.

Disruptive Behavior

The following statement is the policy of the Board of Regents regarding disruptive behavior at any institution of the University System. The rights, responsibilities, and prohibitions described in this statement are incorporated as a part of these regulations.

"The Board of Regents of the University System of Georgia reaffirms its policies to fully support freedom of expression by each member of the academic community and to preserve and protect the rights and freedoms of its faculty and student members to engage in debate, discussion, and peaceful and non-disruptive protest and dissent. The following statement relates specifically to the problem described herein. It does not change or in any way infringe upon the Board’s existing policies and practices in support of freedom of expression and action. Rather it is considered necessary to combat the ultimate effect of irresponsible, disruptive, and obstructive actions by students and faculty who tend to destroy academic freedom and the institutional structures through which it operates. In recent years a new and serious problem has appeared on many college campuses in the nation. Some students, faculty members, and others have on occasion engaged in demonstrations, sit-ins, and other activities that
have clearly and deliberately interfered with the regular orderly operation of the institution concerned. Typically, these actions have been the physical occupation of a building or campus area for a protracted period of time or the use of verbal or written obscenities involving indecent or disorderly conduct.

These actions have gone beyond all heretofore recognized bounds of meetings for discussions, persuasion, or even protest in that (1) acquiescence to demands of the demonstrators is the condition for dispersal, and (2) the reasonable and written directions of institutional officials to disperse have been clearly ignored. Such activities thus have become clearly recognizable as an action of force, operating outside all established channels on the campus, including that of intellectual debate and persuasion, which are at the heart of education.

The Board of Regents is deeply concerned about this problem. Under the Constitution of the State of Georgia, under all applicable court rulings, and in keeping with the tradition of higher education in the United States, the Board is ultimately responsible for the orderly operation of the several institutions of the University System and the preservation of academic freedom in these institutions. The Board cannot and will not divest itself of this responsibility.

Of equal or even greater importance, such action of force as previously described destroys the very essence of higher learning. The essence is found in the unhampered freedom to study, investigate, write, speak, and debate on any aspect or issue of life. This freedom, which reaches its full flowering on college and university campuses, is an essential part of American democracy, comparable to the jury system or the electoral process.

For these reasons and in order to respond directly and specifically to this new problem, the Board of Regents stipulates that any student, faculty member, administrator, or employee, acting individually or in concert with others, who clearly obstructs or disrupts, or attempts to obstruct or disrupt any teaching, research, administrative, disciplinary or public service activity, or any other activity authorized to be discharged or held on any campus of the University System of Georgia, is considered by the Board to have committed an act of gross irresponsibility and shall be subject to disciplinary procedures, possibly resulting in dismissal or termination of employment.

The Board reaffirms its belief that all segments of the academic community are under a strong obligation and have a mutual responsibility to protect the campus community from disorderly, disruptive, or obstructive actions, which interfere with academic pursuits or teaching, learning, and other campus activities.”

Violations of the Student Conduct Code

Students may receive disciplinary action, including suspension and dismissal for a number of acts of misconduct committed on or away from University property. (For additional details, see the Savannah State University Code of Student Ethics) as listed in the Student Handbook.

Examples of these actions are listed below.

- Academic misconduct
- Damage to public and private property
- Disorderly conduct
- Misuse of student identification cards
- Gambling
- Possessing explosives
- Disregard of fire safety regulations
- Hazing and/or harassment
- Violation of outside law
- Possession of drugs and alcoholic beverages
- Disorderly assembly
- Falsification of records
- Theft
- Unauthorized use of computer resources
- Unauthorized entry or use of University facilities
- Violation of residence hall visitation rules and regulations
- Possession of weapons
- Joint responsibility for violations

Disciplinary Procedures

A charge of misconduct originates with the accuser filing a written charge with the Office of the Vice President for Student Affairs. Any person may refer a student suspected of violating the student conduct code.

Upon receipt of the charge, the Vice President's designee conducts an informal investigation to determine whether to drop the case or send a letter of notification to the accused student.

If a formal charge is made to the accused, either by certified letter or in person, the Vice President's designee will instruct the accused to contact the Office of Student Affairs to arrange an administrative interview to discuss the complaint. Copies of all pertinent documents known at that time will be attached to the letter. The Vice President's designee will request a meeting with other necessary relevant parties on an individual basis. However, the Vice President's designee or the accused may ask to have more than one relevant party present at the interview. The purposes of the administrative interview are two-fold: first, to determine whether probable cause exists to believe the accused may have committed the charged offenses; and second, to determine whether to have the case heard by the Vice President's designee or the University's Student Ethics Board.

The Vice President for Student Affairs will notify all persons of the time and place when they are to appear before the Board. The Vice President will also notify students about the specific charges against them.

Rights of the Accused During Hearings

Accused students have specific rights, including

- The right to a non-legal advisor of their choice. (An attorney may be present only when it appears that the hearing also relates to a potential, or actual, criminal charge against the accused);
- The right to question the accuser(s);
- The right to present evidence;
- The right to call witnesses;
- The right to remain silent and have no inference of guilt drawn from such silence;
- The right of cross-examination;
- The right to appeal an adverse decision to the President; and
- The right to attend classes and required University functions until a hearing is held and a decision is rendered against the accused by the Vice President or Discipline Committee. (The accused may remain at the Institution pending an appeal to the President, if his or her presence is judged not to be a clear and present danger to the normal operation of the University. If the President upholds the suspension or expulsion, the student must depart, notwithstanding the student's subsequent application for review to the Board of Regents.)

Student Ethics Board

Unless the accused elects to have the case decided by the Vice President for Student Affairs' designee, the Student Ethics Board (comprised of
Basis for Review (Appeals to the President)

All appeals to the President or his/her designee must be made in writing within five business days of the original decision. The original decision is final on the day it is rendered by the Vice President for Student Affairs and the Hearing Body (Hearing Officer, Student Ethics Board or Administrative Hearing Officer). The filing of an appeal to the President or his/her designee will not postpone punishments imposed there under, by the Vice President for Student Affairs or the Hearing Body.

The accused may appeal to the President or his/her designee from a decision of the Vice President for Student Affairs or the Discipline Committee on the grounds listed below. Additional grounds may be asserted by the appellant, as appropriate.

The proceeding failed to follow procedures; including observing the rights of the accused, but only if such failure actually resulted in preventing the accused from adequately defending against the charge.

The findings are not supported by substantial evidence, or the recommendations are not supported by the findings.

One or more members of the adjudicating body demonstrated bias. “Bias” requires more than merely knowing the accused or knowing something about the case. Disqualification occurs only where it can be established that the Vice President or Student Ethics Board member was incapable of rendering a fair decision.

In light of the nature of the offense and the student's disciplinary record, the sanctions imposed by the adjudicating body were excessive.

Article IX Appeal to Board of Regents

A student dissatisfied with the President's decision has the right to appeal to the Board of Regents. The appeal to the Board shall be submitted in writing to the executive secretary of the Board through the Chancellor, within twenty calendar days after the President's decision and shall cite all the reasons for dissatisfaction with the previous decision.

Drugs

Possession or use (without valid medical or dental prescription), manufacture, transportation, storage, furnishing, or sale of any narcotic or dangerous drug controlled by federal or Georgia law is prohibited. Students convicted of violation Section II (Drugs and Alcohol) of the student conduct code may lose academic credit and/or federal financial aid and/or be suspended from the University.

Weapons

Persons found in possession of weapons will be subject to disciplinary action by the University and/or local courts. Violators will be subject to arrest and prosecution by University and/or local, state, and federal courts. It is against University rules and regulations for students to possess, use, or store weapons such as guns, blackjacks, bow and arrows, taser guns, BB guns, air guns, ammunition, hunting slingshots, martial arts weapons, chemical weapons, medieval weapons, darts, knives or mace. Carrying a weapon onto or within 1,000 feet of property owned, controlled, or leased by the University is strictly prohibited.

Contact: The Office of Student Ethics is conveniently located on the SSU campus in the King-Frazier Student Center, and can be contacted at (912) 356-2194.

Enrollment Management

As a resource to Savannah State University, the Office of Enrollment Management facilitates, coordinates, manages, and provides continued outstanding services to students, faculty, staff, administration, the community, prospective students, and alumni.

The Enrollment Management endeavors promote and enrich student education through recruitment, admissions, and student services support by way of ongoing direct contact with students in their everyday lives. This mission is accomplished by working in partnership with the University community and its stakeholders.

The scope of the office is to advance the recruitment and admissions activities of the institution while achieving a healthy overall mix of high achieving students, students with limited learning support need, adult learners, transfer students, out-of-state and international students. The office is also charged with creating an enrollment profile that reflects the changing demographics of the State of Georgia and, in particular, the metropolitan areas of Savannah and the Coastal Georgia region.

By developing and/or implementing highly functional information systems, and a robust reporting environment, the Office of Enrollment Management provides ongoing analysis of the characteristics and student behaviors of current, prospective, and former students to help the University achieve its goals. It studies enrollment trends, forecasts enrollments, and develops strategies to improve recruitment and customer service efforts and endeavors.

Undergraduate Admission to the University

Persons who wish to enroll at Savannah State University must file an application, which can be obtained from the Office of Admissions. Applicants who are high school students should file an application as early as possible during their senior year. All applications must be filed and completed by the application deadline for the semester in which applicants plan to enroll. Applicants must furnish evidence indicating ability to do university level work.

All new students (freshmen, transfers, and others) attending regularly scheduled classes or receiving resident credit will be required to submit a University System of Georgia Certificate of Immunization prior to attending such classes. This certificate will be kept on file in the Office of the Registrar and will be valid throughout enrollment. Students without this certification of immunization may be denied permission to enroll at the University. Exceptions may be made for students who have religious objections and students whose physicians have certified that the students cannot be immunized because of medical reasons.

Savannah State University reserves the right to employ appropriate assessment mechanisms to ascertain the suitability of applicants to enroll in the University and to deny enrollment or admission to individuals based upon the results of this assessment.

The University reserves the right to withdraw admission prior to or following enrollment if students become ineligible as determined by the standards of the University or Board of Regents. These standards may be revised and new policies initiated upon the discretion and consensus of the University and Board of Regents.
Admission Procedures

Applicants are responsible for requesting that official documents required for admission be sent directly from their previous institutions to the Office of Admissions. Official documents must be issued by the records office of the previous institution(s) in a sealed envelope and mailed directly to the Office of Admissions at Savannah State University. These documents become part of the applicants’ permanent records and will not be returned.

The following are specific items required for admission:

- **APPLICATION FORM.** Applicants seeking admission must file an application for admission prior to the specified deadline as indicated in the academic calendar. An application may be obtained from the Office of Admissions or online at [http://www.savannahstate.edu/em/admissions/apply.htm](http://www.savannahstate.edu/em/admissions/apply.htm). Care should be taken to read the directions accompanying the application and provide all information requested. An incomplete application will cause delay and may be returned.

- **CERTIFICATE OF IMMUNIZATION.** All applicants must submit a University System of Georgia Certificate of Immunization as a condition of enrollment. This form must be on file before registration.

- **APPLICATION FEE.** A non-refundable processing fee of $20.00 is required with all applications.

- **OFFICIAL TRANSCRIPT(s) OF COURSES COMPLETED.** All documents must be on file in the Office of Admissions prior to the specified document **deadline.** Freshmen applicants should request their high school guidance department to send an official copy of their transcript. Non-traditional adult candidates must submit an official high school transcript and official college transcript(s), if applicable. Transfer candidates with fewer than 45 transferable quarter hours, or 30 transferable semester hours (students in this category must have completed two college level English courses and one college level math course) should submit official transcripts from their high schools and from all colleges previously attended.

- **COPIES OF TEST SCORES.** The Scholastic Aptitude Test (SAT I) or the American College Testing Program (ACT) tests are required for all freshmen applicants and transfer students not meeting transfer requirements. Applications and information for the college entrance exams can be obtained from the College Board (Box 398, Princeton, New Jersey 08540), or the American College Testing Program (3355 Lennox Road, N.E., Suite 320, Atlanta, Georgia 30326-1332). The SAT college code assigned to Savannah State University is 5609, and the ACT college code number is 0858. Holders of the GED certificate are also required to submit SAT I or ACT scores and SAT II Subject Test scores as required to satisfy admission criteria. Transfer candidates who have attempted fewer than 45 transferable core quarter hours or 30 transferable semester hours must also submit SAT I or ACT scores and submit an official copy of their high school transcript.

- **OTHER REQUIREMENTS.** The University may require applicants to appear for a personal interview and to take any achievement, aptitude, and psychological tests it deems appropriate in order to make a decision regarding the qualification for admission to the University. Once admitted, all students are required to take a Writing Assessment. Some students may also be required to take placement tests in English, reading, and/or mathematics.

Admissions Requirements

**Freshman Applicant/Regular Admission**

Acceptance to the University is determined on the basis of a Freshman Index, which is calculated by using a numerical formula. (see Freshmen Index below) The required Freshmen Index for Fall 2002 is 1940. The high school curriculum, ACT or SAT scores, and the high school college prep. Grade point average is used to determine admissions. Applicants must be a graduate of an accredited high school (regional accrediting association or a public school regulated by a school system and state department of education) with a diploma (a certificate of attendance is not acceptable). The University requires the students' final high school transcripts before they are allowed to attend classes. Applicants graduating from high school less than 5 years or earlier, must complete requirements of the College Preparatory Curriculum (CPC) of the Board of Regents (see College Preparatory Curriculum).

**Regular Admissions Requirements:**

- Freshman Index of 1940
- SAT Critical Reading score of 430 SAT Math score of 400
- Or ACT English 17, ACT Math 17, and ACT Composite 17
- 2.2 GPA
- 16 CPC Units

**Freshman Index**

The Freshman Index is calculated by adding a weighted high school GPA (500 x HSGPA) to sum of the verbal and mathematics scores on the SAT I. If ACT scores are submitted, a comparable formula is used.

Formula for SAT I

(Freshman Index = 500 x HSGPA + SAT I verbal + SAT I Math)

Formula for ACT

(Freshman Index = 500 x HSGPA + (ACT Composite score x 42) + 88)

The required index score for regular admission to Savannah State University is subject to increase. Contact the Office of Admissions for current index scores for application term.

**Test Scores**

The highest scores submitted by the applicant will be used for admissions purposes. The minimum scores for regular admissions are as listed:

SAT I: 430 Critical Reading and 400 Math
ACT: 17 English, 17 Math, and 17 Composite

Applicants who score below the minimum score requirements must sit for the COMPASS (see testing section) test.

**High School Grade Point Average**

A minimum of a 2.2 grade point average is required for Regular Admissions. The high school grade point average is calculated by using only college preparatory curriculum courses in the formula. All courses attempted will be counted into the grade point average (upon receipt of final high school transcript the GPA is calculated on the 16 units used to satisfy College Prep. requirements). Courses will not be weighted unless designated by a grade legend printed on the applicant's high school transcript indicating additional points should be added. A preliminary GPA is calculated for admissions and is re-calculated when the final high school transcript is received by the Office of Admissions.
College Preparatory Curriculum

Listed are the requirements for completion of a College Preparatory Curriculum (CPC). A preliminary evaluation is processed using the current high school transcript to determine if the applicant is on track to complete the required number of units. A final evaluation is processed when the final high school transcript is received. The applicant must complete a minimum number or CPC units when the preliminary evaluation is processed for admissions.

Limited Admission/Conditional Freshman Applicant

Freshmen applicants that do not meet the regular requirements for admissions may qualify for limited admissions if a minimum set of requirements are met. Only a small percentage of the total freshmen class may be admitted as Limited admits. Students will be evaluated and granted Limited admissions on a space availability basis if the minimum requirements are met.

Applicants that are admitted as Limited must sit for all parts of the COMPASS (The Computer-Adaptive Placement Assessment and Support Exam), and the Writing Assessment Test.

Minimum Requirements for Limited Admissions:

- Freshman Index of 1940
- 1.9 grade point average
- SAT Critical Reading 400 and SAT Math 390 or ACT of 16 Verbal, 15 Math, and Composite 17
- Applicants must earn a combined total of 830 SAT CR and Math SAT (Writing Scores are not included in the total or students taking the ACT must have a Composite of 17 to be considered for Limited Admits
- A minimum of 16 units of CPC courses

Satisfying College Preparatory Curriculum (CPC) Deficiencies

Students who have not completed the CPC requirements in high school, students that graduate from high schools that are not accredited, home school students and applicants earning a GED must satisfy the minimum number of units to satisfy requirements for admissions. Students that are admitted via limited admissions must satisfy the requirements during the first term(s) of enrollment.

English. Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. A score of 520 on the English Writing SAT II subject test and a score of 530 on the Literature test are passing scores. Students with a passing score on only one test would have two deficiencies at admission and, therefore, must be tested for placement into a Student Academic Assistance or Learning Support English course (institutional credit only). Satisfactory scores on either test will provide credit for two years of CPC English while satisfactory scores on both tests will provide credit for four years or CPC English.

Limited admit applicants graduating with fewer than the four required units of English are required to take the Computer-Adaptive Assessment and Support System exam (COMPASS) in English, the Writing Assessment and the COMPASS in reading. Based upon the score earned, students will either be exempt from or required to enroll in the Student Academic Support English and/or reading course.

Mathematics. Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. To satisfy the math CPC course requirements an applicant must achieve a score of 500 on the Math IC and a score of 550 Math IIC must be earned on the test. Students not passing either test would have three deficiencies.

Limited admit students that are admitted with a deficiency in Math are required to take the COMPASS Mathematics test. Students that are placed in the Student Academic Support mathematics course will receive institutional credit only and must pass the exit exam to satisfy CPC requirements. Applicants graduating with fewer than the four required units of mathematics must sit for the exam.

Science. Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. To satisfy the science CPC course requirements an applicant must achieve a score of 520 on the Biology subject test and a 540 on the Chemistry subject test or 590 on the Physics subject test. Students passing only one of the two required tests would have two deficiencies at admission.

Limited admit students that are admitted with fewer than the three required units of science are required to take a laboratory science course (institutional credit only) and pass it with a grade of “C” or better. Students must enroll in a laboratory science course and pass the course with a “C” or better. This CPC deficiency course cannot be used for graduation requirements.

Social Science. Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. To satisfy the social science CPC course requirements an applicant must achieve a 560 on the SAT II subject tests in American History and Social Science and achieve a 540 on the World History. Students passing only one of the two required tests would have two deficiencies at admission and, therefore, will be required to enroll in a social science course.

Limited admit students that are admitted with fewer than the three required units of social science are required to take a three semester hour course (for institutional credit only) chosen from approved social science courses and pass it with a grade of “C” or better. This course cannot be used for graduation requirements.

Foreign Language. Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. To satisfy the foreign language CPC course requirements an applicant must pass a SAT II test for language or qualify for exemption. Alternatively, the CLEP, AP, or a departmental exam may be taken, and, if the score earned is adequate, credit will be granted for meeting the foreign language requirements.

Limited admit students that are admitted with fewer than the two required units of foreign language are required to take a three semester hour course (for institutional credit only) chosen from approved social science
courses and pass it with a grade of “C” or better. This course cannot be used for graduation requirements.

**Policies Regarding CPC Deficiencies**

All course work required to overcome deficiencies must be completed prior to accumulating 30 semester hours of university level course work. In social science, and foreign language courses, it is necessary to complete the course with a grade of “C” or better. Although credit is received for courses used to satisfy College Preparatory Curriculum deficiencies, such credit may not be used to satisfy either core curriculum or degree requirements.

Students should register for courses to satisfy deficiencies in science, social science, or foreign language during their first and each subsequent semester of enrollment until the deficiencies are satisfied.

Students who are readmitted to Savannah State University and students who transfer from within the University System of Georgia who have earned 30 or more semester hours of college-level credit and who have not satisfied College Preparatory Curriculum deficiencies in science, social science, or foreign language may not register for other courses (except required Student Academic Assistance courses) unless they also register for the appropriate deficiency course or courses.

Students transferring from outside the University System with fewer than 30 transferable credit hours of accepted transfer credits which do not include completion of area A of the core curriculum credits, or from a program not requiring the College Preparatory Curriculum are required to submit a high school transcript and appropriate test scores for evaluation. Applicants not meeting regular freshman requirements (see “Regular Admission”) are required to test for placement and should register for any deficiencies immediately upon entering Savannah State University. Such students who earn 30 or more hours of university credit at the institution and who have not satisfied College Preparatory Curriculum deficiencies in science, social science, or foreign language may not register for other courses (except required Student Academic Assistance courses unless they also register for the appropriate deficiency course or courses).

Students whose native language is not English may be considered to have met the CPC foreign language requirements if they are proficient in their native language. A formal examination is not necessary if other evidence of proficiency (for example, attendance at a school in the native language) is available.

**Exceptions to the CPC Requirements**

Applicants who have not attended high school within the previous five years are exempt from College Preparatory Requirements. Qualified transfer applicants and International students are exempt.

Non-traditional applicants who are admitted with CPC exemptions are required to sit for the COMPASS placement examination and the Writing Assessment (see “Center for Academic Success”).

**Presidential Exceptions**

In very special and rare circumstances, the President of Savannah State University may grant exceptions to the CPC and FI requirements for limited admissions if students show exceptional promise for success. Only a few students can be admitted under this category. The total number of Presidential Exceptions must be included in the Limited Admit category and both categories must not exceed 20 percent of Freshman cohort. Applicants are required to submit three letters of recommendations and a letter demonstrating desire and competency to attend college.

**Admission of Students with Disabilities**

Applicants with disabilities are expected to have completed the CPC with the appropriate instructional accommodations. The Core Curriculum of Savannah State University requires students to complete university-level courses in English, mathematics, social science, and science. No exemptions or substitutions are permitted for these required college courses. Students who are not successful in the high school courses will not be provided with CPC exceptions in the admissions process.

Foreign language fluency is not required for all majors at Savannah State University. Therefore, students with learning disabilities that preclude the acquisition of a foreign language may petition for admission without completing this CPC requirement.

For admission to Savannah State University, students must receive approval from a Regents’ Center for Learning Disorders (RCLD) prior to acceptance. To ensure consideration under this provision, students should apply for admission and request a RCLD review no later than six months before the admissions decision is to be made. Students applying should also apply and request approval at least six months in advance, but may be admitted in the “limited” category if they meet other requirements. Those admitted without approval must request a RCLD review and submit all requested materials during their first semester of enrollment. Students who receive approval from the RCLD may then satisfy the CPC foreign language deficiency by substituting another type of course determined by the Institution.

Students are expected to achieve the University’s minimum SAT scores with the appropriate SAT accommodations from the College Board.

Students may apply and be admitted without regard to disability. However, students who do not meet the regular admissions requirements and who would like to be considered for accommodations in the admissions process must notify the Office of Counseling and provide documentation of their disability. In particular, students with learning disorders who are requesting an accommodation that requires approval from a RCLD review should apply at least six months in advance of the time the admissions decision is needed.

Students should be aware that certain programs and degrees require the ability to perform specific critical skills. Students should, prior to applying for or beginning a program of study, review all requirements that are necessary for completion of the program.

**Transfer Students**

Transfer students who have been out of high school fewer than five years are requested to submit high school transcripts as part of their application package unless they have completed 30 transferable hours and have earned the equivalent of 6 semester hours of college level English and 3 semester hours of college level math. This requirement also applies to students enrolled in University System of Georgia institutions that do not require the College Preparatory Curriculum for admission.

Transfer students completing high school less than 5 years ago and transferring from University System of Georgia institutions maintain their CPC status as determined by the first University System institution making the original CPC evaluation.

Transfer applicants are required to request the registrar of institutions they formerly attended to remit an official transcript of their records to the Office of Admissions at Savannah State University, regardless of the transferability of the credits.
Transfer applicants are not considered for admission unless they are academically eligible to return to the colleges or universities they last attended.

Transfer applicants will be considered for admission to Savannah State University if their grade point average is equivalent to 2.0 on all work attempted at other institutions. Applicants with a GPA of less than 2.0 will be denied routine admission, but may appeal to the University's Admissions Committee.

Credit will be given for transfer course work in which a grade of "C" or better has been earned. Courses earning less than a "C" are posted on the academic record, however the coursework may not be used to satisfy graduation requirements at the university.

The total credits that Savannah State University will allow for work completed at other institutions during a given period may not exceed the normal number of credits that could have been earned at Savannah State University during that same period.

Credit allowed for extension, correspondence, CLEP examination, or military service schools shall not exceed a total of 30 semester hours.

Transfer students who have earned excessive credit in freshman and sophomore courses may not be granted credit in excess of 67 semester hours below the junior class level.

Transfer credit may be accepted from degree granting institutions that are accredited at the collegiate level by their appropriate regional accrediting agencies. Students may be required to validate credit by examination. In computing cumulative grade point averages, only the work attempted at Savannah State University will be considered.

If the Core Curriculum requirements in Area A (Essential Skills), Area B (Institutional Options), Area C (Humanities/Fine Arts), Area D (Science, Math, and Technology), Area E (Social Sciences), freshman experience, and/or health and wellness have been completed at a University System of Georgia institution, each completed area will be accepted as having met the respective area requirement at Savannah State University.

An official evaluation of applicants' previous college credit hours earned will be completed prior to their first semester of attendance, provided that all transcripts are on file. Transfer credit will be awarded from institutions listed in the American Association of College Admission Officers and Registrars Handbook as being regionally accredited.

Students who complete course work and exit any area of Student Academic Assistance or Learning Support at a University System institution shall not be required to re-enroll in that area of Student Academic Assistance or Learning Support upon transfer to Savannah State University.

All transfer students from within the System shall be subject to all provisions of this policy. Students from institutions outside the System who transfer to Savannah State University with thirty (30) or more earned degree semester credit hours shall take the Regents' Test during their initial semester of enrollment if Student Academic Assistance or Learning Support and core curricular English requirements are met. During subsequent semesters, these students shall be subject to all provisions of this policy. Provisionally admitted transfer students must meet the same regular admission requirements as individuals admitted to the University for the first time. A complete record of past remedial course work and CPE or COMPASS scores must be on file in the Savannah State University Office of Admissions before admission.

Early Admission

- Students who have completed the eleventh grade in high school and who have demonstrated outstanding ability towards academic achievement will be considered for early admission. The University will consider students for early admission only upon written recommendation from their high school principals or counselors. To be admitted early, students must satisfy all of the following criteria:
  - Have a minimum Scholastic Aptitude Test (SAT I) score of 970 (with not less than 530 Critical Reading SAT/23 ACT English and 530 Math SAT/22 ACT Math), combined verbal and mathematics sections, or the ACT composite score no less than 23;
  - Have at least a minimum cumulative high school grade point average of 3.0 or numerical average of 80 or higher in academic subjects;
  - Be exempt from all Student Academic Assistance or Learning Support requirements;
  - Submit written recommendation from their high school principal or counselor;
  - Present written consent of parents or guardian (if students are minors); and
  - Have completed the University System of Georgia College Preparatory Curriculum requirements with the following exceptions:
    - Students with SAT I Critical Reading scores of at least 530 (or ACT English of at least 23), who have not completed the final unit of high school English and/or social science, may be permitted to fulfill these high school requirements with the appropriate university course taken through the joint enrollment or early admissions program.
    - Students with SAT I Math scores of at least 530 (or ACT English of at least 23), who have not completed the final unit of high school English and/or social science, may be permitted to fulfill these high school requirements with the appropriate university course taken through the joint enrollment or early admissions program.
    - Students who have not completed the College Preparatory Curriculum requirements may be admitted through the joint enrollment program if they are enrolled in the necessary high school courses and are scheduled to complete the requirements by the end of their senior year.

College Enrollment as a High School Student

Joint Enrollment of High School Students

If you're a high school student who desires to get a head start on your college education, Savannah State University offers several options.

Joint Enrollment

The joint enrollment program is designed for high school juniors and seniors who wish to enter college on a part-time basis and earn college credit while they complete their junior and/or senior year of high school. You must have prior approval from your parents and high school counselor or principal. The student must earn a minimum of 970 total on the SAT or 23 ACT composite. The requirements for enrollment in college level English and Math is a minimum of 530 Critical Reading SAT or 23 ACT English and 530 Math SAT or 22 Math ACT.

ACCEL-HOPE Program

The Accel Program is for students classified as high school juniors and seniors at accredited public or private high schools in the state of Georgia, and is operated in all school terms except summer. The program allows students to pursue postsecondary study at Savannah State University, while receiving dual high school and college credit for
Courses pursued by students under this program must come from the approved course directory (found at www.gsfce.org) which is supplied to high school counselors in the state. Courses are available only in the areas of the core graduation requirements for college preparatory students: English, Mathematics, Social Studies, Science, Foreign Language.

At Savannah State University the program pays for tuition, and a portion of the mandatory fees and provides participating students with a book allowance, in keeping with the benefits provided by the HOPE Program. Students are required to pay the balance not covered by the HOPE program. Transportation and other expenses are the responsibility of the student, including tuition and other expenses for non-core courses, if any are taken.

Although successful completion of designated high school coursework is necessary for student success in college, those few students who score at the upper five percent of all students nationally on the SAT I have demonstrated potential for success in college.

- Students who demonstrate very high academic ability by achieving a composite SAT I Total (Critical Reading + Math) score in the upper five percent of national college-bound seniors according to the most recent report from the College Board and who show other evidence of college readiness may be admitted under this section. (An ACT score which is equivalent to this SAT I score may also be used.) Institutions must carefully evaluate such students to determine their ability to benefit from college coursework. Students must satisfy any CPC deficiencies in areas other than English or mathematics. For 2007-2008 admissions the SAT score at the 95th percentile is 1370 and the comparable ACT Composite score is 31.

Students who do not necessarily meet all of the above criteria but who demonstrate very high academic abilities through their SAT or ACT performance may be permitted to enroll in college courses at the discretion of the Savannah State University, after documentation of academic maturity and minimum score requirements of at least:

- 700 on the SAT I Mathematics test (or 31 on ACT Mathematics) to enroll in college courses that require advanced mathematical ability;
- 700 on the SAT I Critical Reading test (or 31 on ACT English) to enroll in college courses that require advanced verbal ability; and
- in addition, students with extremely high total SAT I or ACT Composite scores may be admitted through the provision for Students with Outstanding Scores.

Application Process/Application Procedure

The student must complete an application for admissions and pay a $20.00 non-refundable application fee. Request your high school to send an official copy of your transcript to be sent directly to the Admissions Office. Submit official test scores from either the College Board Scholastic Aptitude Test (SAT I) or The American College Testing Program (ACT). We will accept scores posted on high school transcripts. Submit recommendations from your guidance counselor and parents or a signed joint enrollment form or the ACCEL application from your high school signed by your high school guidance counselor and your parents.

International Students

Savannah State University subscribes to the principles of international education and to the basic concept that only through education and understanding can mutual respect, appreciation, and tolerance of others be accomplished.

Students from a country other than the United States who are interested in attending Savannah State University should write to the Office of Admissions, Savannah State University, Savannah, Georgia 31404, USA, and submit a completed application along with a $20.00 application fee in the form of a money order or certified check. Applications must be submitted at least ninety days prior to the beginning of the anticipated semester of enrollment.

Applicants must have the equivalent of a USA high school diploma and the equivalent of a 2.0 minimum grade point average on academic work only (on a 4.0 scale).

Savannah State University does not evaluate high school or college coursework completed outside of the United States. An official International Record evaluation must be completed by a university recognized agency. Please review the university website for a complete listing of agencies.

Applicants must provide evidence of English language proficiency through the TOEFL. Language school records and scores from all tests must be sent to the Office of Admissions. The minimum acceptable TOEFL on the paper version is 523 the score on the computerized version is 193. A score of 70 is the minimum for the Internet based exam. Freshman applicants must also sit for the SAT.

Applicants must be required to take a university placement exam as well.

Applicants must submit evidence of financial ability to pursue a full-time education in this country since no financial aid is available for international students. All international students are required to pay out-of-state tuition.

After all of the above conditions have been met, the Immigration Form I-20 (Certificate of Eligibility) needed to obtain a student VISA will be issued to applicants. Applicants must pay the Student and Exchange Visitor Information System (SEVIS) fee and make an appointment for an F-1 Visa and must be granted the student visa prior to enrollment.

International students with a student visa are required to carry a full course of study in every semester, except summer. A minimum course load at Savannah State University is twelve semester hours for undergraduate students and nine semester hours for graduate students.

Resident aliens must present their Alien Registration card as proof of their official status to the Office of Admissions.

All international students must be prepared to obtain adequate health and accident insurance while they are attending Savannah State University. Prior to registration, they must provide proof of insurance and a local street address. A mandatory health insurance program is required for undergraduate and graduate students.

International students must take a proficiency test in both reading and writing (Michigan Test of English Language and a writing test) during their sophomore year. Students who fail either or both tests will be required to enroll in remedial courses.

The University’s international student advisor assists international students on campus and in the community. There is an active International Students Association.
Admission to Engineering Degree Programs

Students admitted to engineering degree programs will be able to qualify for the Georgia Tech engineering degree by completing the equivalent courses included in freshman and sophomore years of the engineering discipline in which the student intends to major at Georgia Tech with a 2.7 (3.0 for the out of state student) or higher GPA.

The freshman admission criteria for the Engineering Degree Programs as well as Dual Degree Program are the same as regular freshman admission criteria.

The freshman admission criteria for direct admission in the Regents' Engineering Transfer Program (RETP) and Georgia Tech Regional Engineering Program (GTREP) are as follows:

- A combined SAT score of at least 1090 (including a minimum of 560 on the math and 440 on the verbal portion)
- A high school GPA of at least 3.0 or
- Have been admitted to an engineering program at Georgia Tech.

Student must be a resident of Georgia to be eligible for the RETP.

Special Admission Categories

Nontraditional Students

Applicants who have not attended high school or college within the previous five years and who have earned fewer than 30 transferable semester hours of college credit are not required to take the SAT or ACT. However, these applicants will be required to take the Collegiate Placement Examination or COMPASS and the Writing Assessment and complete any Student Academic Assistance requirement(s). Students admitted under this category must complete 30 hours of college credit with a minimum 2.0 grade point average and fulfill Student Academic Assistance requirements in order to be granted regular admission status.

Post-Baccalaureate/Non-Degree Students

Applicants who desire to enroll in courses that do not require Student Academic Assistance prerequisites may be admitted to enroll in no more than 9 semester hours after providing documentation of earning the equivalent of a high school diploma and applying for admissions as a non-degree student. Applicants who possess a baccalaureate degree from an accredited college or university may enroll as post-baccalaureate students after submitting an official college transcript showing completion of a baccalaureate degree. There is no limitation on the number of hours of undergraduate credit these students can earn.

This category is temporary, and applicants must complete an application each semester of enrollment. To enter a degree program, fulfillment of all beginning freshman requirements are necessary. Non-degree students must satisfy all prerequisites before enrolling in a course.

Transient Students Enrolling at Savannah State University

Students officially enrolled at another college may apply for the privilege of temporary registration at Savannah State University. These students will ordinarily be expected to return to their home institution.

Transient students are admitted for only a specified time, normally one term. These students must file a regular Application for Admission form, submit a University System of Georgia Certificate of Immunization, submit a statement of good standing from their home institution, and have home institution’s permission to take specific courses at Savannah State University. An application fee of $20.00 is also required. Since transient students are not admitted as regular students, transcripts of college work completed elsewhere are not required for admissions. A transcript of coursework verifying prerequisites have been met may be required by departments. The College of Business and Department of Social Work require documentation of prerequisites completion.

Transient students who wish to enroll at Savannah State University for a subsequent term must submit (from their home institutions) another statement of good standing and another permission to take specific courses.

Transient students who later wish to apply as transfer students to Savannah State University must meet all requirements for transfer applicants and must submit transcripts from all institutions attended.

Georgia Resident Senior Citizens/Persons 62 or Older

Persons who are 62 or older may enroll as regular students in credit courses on a space available basis without payment of fees. Students must pay for their supplies and laboratory or special course fees. They must be residents of the State of Georgia and must present a birth certificate or comparable written documentation of age to enable the Office of Admissions to determine eligibility. They must meet all admission and degree requirements.

Special Students

All students in classifications not otherwise covered in the University's admissions categories shall be required to meet all requirements prescribed for admission to undergraduate or graduate programs and to meet any additional requirements prescribed by the University. Exceptions may be made only with written approval of the Chancellor of the University System of Georgia.

Auditors

Students who submit evidence of graduation from an accredited high school or a GED certificate which satisfies the minimum score requirement of the State of Georgia may register as auditors. Under extraordinary circumstances, the President may waive the requirement of a high school diploma or equivalent. Students registered as auditors shall be required to pay the regular fees for enrollment and shall be prohibited from receiving credit at any later time for course work that they completed as auditor. Prior to registration, students must complete a request for Audit of Course Form and indicate this category on the course schedule planning and registration form.

Faculty members of Savannah State University may attend classes offered by other faculty members if space is available without registering as auditors, but they may not receive credit.

University System Employee/Tuition Remission Program

Savannah State University and the University System of Georgia encourage full-time faculty, staff, and administrators to participate in professional development study by remitting or reimbursing tuition for those courses that have been authorized. These courses should be clearly related to employment consistent with the current Savannah State University guidelines regarding tuition remission. Detailed information and forms are available in the Office of Human Resources.

Full-time employees who meet admission requirements and who receive prior authorization from their supervisor and the Director of Human Resources may register for up to eight semester credit hours per term on a space available basis at Savannah State University.

Full-time employees who meet admission requirements and who receive prior authorization from Savannah State University may register for up to eight semester credit hours per term at any other University System
institution. Upon successful completion of the course with a grade of “C” or better, Savannah State University will reimburse its employees for tuition and fees.

Full-time employees from other institutions must meet Savannah State University admission requirements and receive prior approval from their institution. Any remission of tuition and fees is the responsibility of the home institution of these employees.

**Armstrong Atlantic State University Student Exchange Program**

Students who are enrolled at Savannah State University, or Armstrong Atlantic State University, and who are taking at least 12 semester hours (full-time enrollment) at the home institution may take courses at the other institution without paying additional tuition (up to a maximum combined total of 18 credit hours). Students who qualify to take an overload at their home institution may exceed the 18 credit hours limit. After successful completion of the exchange courses, the exchange student must request a transcript from the host institution and require that it be sent to the home institution so that their work can officially become transfer credits at the home institution.

**Student Exchange Form Instructions**

Students must complete any required applications and the exchange form at their home institution, have the form signed by the Registrar at the home institution, and have the forms stamped “Paid” by the Cashier’s Office of the home institution. Also, schedule printout of home institution classes must be submitted with the required documentation.

Students should take the completed documentation to the host institution's Offices of Admissions, Registrar, and Cashier to complete registration there. The form will serve as proof of fee payment.

Students must complete an application for each semester of enrollment. Immunization forms must be on file at both institutions, and students must pay the appropriate application fee.

Upon successful completion of the course, students should request that the office of the registrar, at the exchange institution, send a transcript to their home institution.

**College Credit by Examination and Experiences**

On the basis of scores on the College Board Advanced Placement Examination program, Savannah State University gives advanced placement or in some cases college credit, for college-level, high school courses upon approval by the appropriate department chair at Savannah State University.

**AP** - Advanced Placement

Savannah State University grants credit for College Board Advanced Placement exam with a score of 3 or higher. Applicants must request the official score report to be mailed to the university.

**IB** - International Baccalaureate Diploma and Certificates

Students who have participated in International Baccalaureate Programs in their high schools are welcomed at Savannah State University. In many circumstances, college credit is granted based on exemplary performance in IB courses. Applicants not earning the International Baccalaureate Diploma but did earn a certificate in one or more higher level International Baccalaureate (IB) courses are awarded specific course credit with a score of 4 or higher. The official transcript must be submitted to the Office of Admissions.

**CLEP** - College-Level Examination Program

College credit may be granted for satisfactory scores on selected tests of the College-Level Examination Program (CLEP). Applicants must verify with the university testing office for an updated list of exams and equivalent courses. The DANTES is accepted as well.

**College Credit for Military Experience and Training**

Students who wish to have their military experience and training evaluated for college credit should submit a copy of appropriate form to the Office of Admissions. Veterans should submit DD Form 214, and active duty military personnel should submit DD Form 295. Active duty Army personnel and soldiers discharged since October 1, 1986, should also provide a copy of their Army/American Council on Education Registry Transcript.

For satisfactory completion of appropriate courses and tests offered through the United States Armed Forces Institute (USAFI), and for military service schools and experience as recommended by the Commission on Accreditation of Service Experiences of the American Council on Education. Credit by examination and correspondence or extension study may not exceed one-fourth of the work counted toward a degree.

**Re-Admissions to Savannah State University**

Students who have remained out of the University for two or more semesters (excluding summer terms) must apply for readmission by completing the readmission form and returning it to the Office of the Registrar by the established application deadline. Students who have attended other colleges in the interim are considered transfer students and must submit official transcripts of all colleges attended and must complete an application in the Office of the Undergraduate Admissions. Former Savannah State University students are not required to pay an application-processing fee when they apply.

Former students who leave the University prior to completing Student Academic Assistance requirements and/or satisfying College Preparatory Curriculum deficiencies will not be allowed to return to the University as transient students from other institutions without transcripts from those schools. Students who are readmitted after an absence from the University for more than two years must meet degree requirements in effect in the current catalog at the time of their return (see Academic Regulations).

**Right of Appeal of Admissions Denial**

In all matters concerning admissions, the students may appeal by writing to the Office of Admissions and clearly stating the basis for an appeal. The request will be considered by the Admissions Committee.

A written appeal must be received in the Office of Admissions by 20 days before the first day of registration for classes for the semester for which the applicant is seeking admission.

Readmit applicants may appeal by submitting a letter to the Admissions Committee prior to first day of registration. Individuals failing to satisfy the deadline may submit their appeal for the following semester.
Financial Information

Bursar's Office
The Bursar's Office is responsible for student billing and revenue collection. The office is also responsible for collecting and posting payments on student's accounts, processing refunds from overpayments, and calculating university withdrawals. The Bursar's Office contains two major components to carry out its functions, the Cashier's Office and Student Accounts.

Refund Policy
Formal withdrawal must begin with a written request in the Office of Academic Affairs. Failure to officially withdraw from the institution will result in the assessment of charges up to the date the university becomes aware of non-attendance. No refunds for reduction in academic loads or student services are allowed unless such reductions are necessitated by schedule changes initiated by the University. Students suspended or
Deadlines for processing financial aid applicants are as follows:

University.

Students are expected to provide documents, records, and materials they will be mailed a Student Aid Report (SAR). FAFSA on the web is one of the institutions to answer all questions on the form and list Savannah State University as for Federal Student Aid (FAFSA) or the renewal FAFSA if they have plan to attend. In approximately four weeks, they will be mailed a Student Aid Report (SAR). FAFSA on the web is available at www.fafsa.ed.gov

Students are expected to provide documents, records, and materials promptly. Their files must be complete by April 15 to get priority consideration for financial assistance, and they must be admitted to the University.

Deadlines for processing financial aid applicants are as follows:
- Fall Semester - June 1
- Spring Semester - November 1
- Summer Semester - April 1

Students who fail to submit paperwork by the deadline will not be awarded financial aid for the particular semester and may become ineligible to receive certain funds from a particular program.

Financial Aid Programs (Title IV Programs)

The Office of Financial Aid administers the following U.S. Department of Education student financial aid programs: Federal Pell Grants, Federal Direct Loans, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work Study (FWS), and Federal Perkins Loans. State of Georgia programs administered by the Office of Financial Aid include the Student Incentive Grant Program and the HOPE Scholarship Program.

In order to be eligible, students must have financial need, have earned high school diploma or a GED certificate, be a U.S. citizen or eligible non-citizen, have a valid Social Security Number, make satisfactory academic progress, register with Selective Service if applicable, not be in default on a student loan, and not owe a refund on a previous federal student grant.

Federal Pell Grant

Undergraduate students who have not earned an undergraduate or professional degree are eligible for Pell Grants. These grants provide a foundation of financial aid to which other aid may be added. Savannah State University's Office of Financial Aid requires that all students seeking financial aid apply for the federal Pell Grant.

Academic Competitiveness Grants

To receive the Academic Competitiveness Grant (ACG), a student must have successfully completed a rigorous secondary school program of study. They must also be Pell Grant eligible, a U.S. citizen and be enrolled full-time in either their first or second academic year of an eligible program of study. Second year students must have successfully completed their first year with at least a 3.0 cumulative grade point average. The ACG for the first year is $750 and $1,300 for the second year.

National Science and Mathematics Access to Retain Talent Grants

The National Science and Mathematics Access to Retain Talent Grant (National SMART Grant) is for Pell Grant eligible students that major in physical, life or computer science, engineering mathematics, technology, or a critical foreign language. SMART grant recipients must also be a U.S. citizen that is enrolled full-time in their third or fourth academic year of their program of study with a cumulative GPA of at least 3.0 on a 4.0 scale. The National SMART Grant is $4,000 for each of the third and fourth years.

Federal Supplemental Educational Opportunity Grants

The Supplemental Educational Opportunity Grant (FSEOG) is for undergraduates who have exceptional financial needs. These include students with the lowest Expected Family Contributions (EFCs), and gives priority to students who receive federal Pell Grants. The average yearly award ranges from $300 to $1,500.

Federal Work-Study

The Federal Work-Study Program provides jobs for undergraduate and graduate students with financial needs. The program encourages community service work and work related to the students' course of study.
December 31 is the official application deadline to be considered for an

Scholarships

Satisfactory Academic Progress (SAP) Guidelines for

Student Financial Aid

Savannah State University is required by the U.S. Department of

Requirements

Part-time and Full-time Undergraduate Students

- Must successfully complete at least the percentage of hours attempted
  according to the scale below. Hours attempted include courses with a
  grade of “W”, “F” and all accepted transfer hours.
- Must maintain the minimum cumulative grade point average
  according to the scale below.
Calculating the Cumulative Average

Determinations of scholastic standing are generally based upon a cumulative grade point average, which appears on each student's permanent record. The cumulative grade point average is calculated by dividing the total number of grade points or quality points earned in academic courses by the total number of academic credit hours attempted at Savannah State University. Credits earned at other institutions, credits by examination, credits that carry SSU grades, institutional credits, and credits specifically excluded by University policy are not used in computing the cumulative grade point average.

Financial Aid Suspension

Failure to meet or exceed the SAP standards will result in suspension from financial aid eligibility until such time as the student fulfills the requirement listed in items 1 and 2. During a period of suspension, the student is not eligible to receive Title IV aid.

Time Frame

Undergraduate financial aid applicants (including transfer students) enrolled in a four-year degree program have a maximum of 180 credit hours attempted of undergraduate work to complete their bachelor's degree requirement.

Students pursuing a second bachelor's degree will have an extension of 66 credit hours attempted beyond the maximum 180 credit hour limit to complete their second bachelor's degree.

Graduate financial aid applicants enrolled in a Master's program have a maximum of 54 credit hours attempted to complete their degree requirements.

Eligible Student Academic Assistance or Learning Support students may receive aid for one academic year's worth of credit hours.

Appeal of Financial Aid Suspension

A student wishing to appeal financial aid suspension must do so in writing with appropriate documentation.

Auxiliary Services

The Auxiliary Services Department is an organization within the Division of Fiscal Affairs, responsible for providing services both directly and indirectly to students, faculty, staff, and the University community. By policies of the Board of Regents, the Department must be totally self-supporting; no state funds are allocated to the Department. The Department is subject to rules and regulations of the University System of Georgia. Auxiliary Services is committed to providing quality, value, and excellence in customer service, while assuring best uses of available resources.

Currently, Savannah State University's Auxiliary Services Department is responsible for the following: SSU Bookstore, SSU Post Office, dining services, vending services (snack, beverage, and laundry), photocopy services, transportation, and athletic budget management.

Bookstore

SSU Bookstore is an integral part of the academic and social life of the university. It is a focal point on campus offering many goods and services required by a multifaceted university community.

The bookstore provides a book-buy-back at posted times during each semester. For additional information, including hours of operation, please see the SSU Bookstore website.

The SSU Bookstore is located on the first floor of the King-Frazier Complex.

Dining Services

Savannah State University has been defined by the Board of Regents of the University System of Georgia as a residential institution. Therefore, the University must provide on-campus facilities for room and board. All students who live in on-campus housing must purchase a meal plan. Freshman students must purchase a full (20-meals-a-week) plan; non-freshman students must purchase at least a 14-meals-a-week plan. Students assigned to on-campus housing will be billed automatically via the Banner Student Information System accordingly. There is no refund for missed meals, and meals do not carry over from one semester to another during the meal contract period. Resident students leaving housing will be billed for meal plans on a prorated basis.

Laundry

Washers and dryers are found in all of the residence halls. Resident students pay a fee each semester for laundry, and can use the machines without further charges. Laundry supplies can be purchased in the bookstore.

Parking

Resident students and commuter students that have a car on campus are required to purchase a decal which entitles them to park in one of the parking areas designated for students. Vehicles on campus without appropriate decal are subject to ticketing and towing.

Photocopying

Student coin-operated copiers are located throughout campus. In addition, students can have color or higher volume documents printed at the Document Center for a fee.

SSU Post Office

The SSU Post Office is a combination on-campus post office and U.S. Postal Service Contract substation located on the first floor of the King-Frazier Complex. Money orders may be purchased Monday through Friday from 8:30 AM to 4:00 PM. The window schedule is Monday through Friday from 8:30 AM to 4:30 PM. The Campus Postal Service must comply with all USPS rules and regulations.

The University Postal Staff will assign all students who live in Freshman Living Learning Center, Bowen-Smith Hall, Bostic Hall, Peacock Hall, University Village, or University Commons a mailbox. If a student has
preregistered for classes and housing the subsequent semester, he/she will not be required to clear box with the University Postal Staff. Students leaving residence housing should complete a forwarding address request with USPS.
Computers and technology are integral parts of the University. They facilitate teaching, learning (both online and traditional) and administrative functions. The University maintains a state of the art local-area network through state and federal funding.

The University's infrastructure is supported by a campus-wide fiber optics backbone and wireless network, connecting campus users to speeds up to 1 gigabit (GB). Internet connectivity is supported by PeachNet, supplying a 50-megabit (MB) Internet path for faculty, staff, and administrators and a dedicated 100-megabit Internet path for the residential network. The University's supporting applications include electronic mail, a campus-wide distributed messaging system, a university web site (http://www.savannahstate.edu), door card access, and communication support and remote access services.

Teaching and learning is supported through the establishment of general purpose and specialized computer labs, in both PC and MAC formats, in academic and residential facilities. The University offers distance education through Video Conferencing and Blackboard Vista to deliver distributed elearning. The Center for Academic Success (CAS) supports the design and development of online and web-enhanced courses as well as faculty training for course navigation. The University's library offers online services with access to Galileo Interconnected Libraries (GIL) - a Board of Regents supported Web-based virtual library, satellite down links, a SSU/GaTech Regional Engineering Program (GTREP), and local centralized application support.

The University's administrative functions are supported through SunGard's Banner - a student information system, PeopleSoft Financials and Human Resources systems, an automated work order system, electronic building security, and Blackbaud - an alumni financial system.

The University strives to stay in the forefront of technology to better facilitate the services to and education of its student population.
Core Curriculum

All students, regardless of major, who are enrolled for the first time in the Fall Semester of 1998 or later, must complete the University's core curriculum. The core curriculum consists of sets of specific courses drawn from across the University's curriculum which are usually completed prior to undertaking major field preparation. Students who enrolled prior to the Fall of 1998, and who have not completed the quarter hour core curriculum must complete the new core curriculum. Quarter hour courses completed will be converted to semester hours and credited to the students' total requirements were reasonably equivalent. Students will then complete the remaining hours in the new core curriculum.

Core Curriculum Grid

All students should complete the sixty hours of core curriculum requirements during their first two years of enrollment and prior to their enrollment in their major classes, exclusive of those specified in Area F (courses appropriate to the program of study) of the core.

In addition to the sixty hours in Areas A, B, C, D, E, and F, students will also complete five additional hours of required courses.

Core Area A-Essential Skills 9 hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>

**Total Hours Required in the Core Curriculum**: 65 hours

---

### State Requirement in History and Government

By State law, students who receive a diploma or certificate from a school supported by the State of Georgia must demonstrate proficiency in United States history and government and in Georgia history and government. Students at Savannah State University may demonstrate such proficiency by receiving credit in certain courses: United States and Georgia government POLS 1101 for United States and Georgia government; HIST 2111 or 2112 for United State and Georgia history.

### Major Curriculum

In addition to the required core curriculum, which is usually completed in the first two years of college attendance, students will select a major field of study that focuses attention during the second two years of study. Area F of the core curriculum (courses appropriate to the field of study) provides a foundation for the major field of study and should be completed prior to students’ undertaking major courses. Plans and requirements for the various major programs are detailed in the sections of this catalog, which describe the University’s three colleges.

### Minor Curriculum

While students are all required to complete the core and a major curriculum, completing a minor program is an additional option. A minor consists of a set of 15-17 credit hours in a specific field of study. Some major programs require students to complete formal minor programs while others do not. Formal minor programs are established in a variety of fields. Requirements are listed in this catalog along with the departments sponsoring them. Informal minors may be developed by acquiring any set of 18 credit hours of upper-division course work in any field for which such work is offered. Students often find that completing a minor curriculum is a valuable professional asset for use in the highly competitive world following graduation.

---

Savannah State University students may pursue a minor in education in conjunction with the following academic fields: English, mathematics, history, biology, and chemistry.

Also, students whose major departments offer no minor or do not allow the minor in education may take courses that constitute the equivalent of a minor through additional course work. An education minor does not satisfy the requirements for teacher certification in Georgia, but enables students to complete 18 hours of the professional education courses required for certification. Teacher certification programs also are offered at Savannah State University. Students should contact their academic departments with specific questions regarding education minors or certification. Savannah State University offers education courses in collaboration with Armstrong Atlantic State University.

College of Business Administration

The College of Business Administration offers a four-year professional program that combines a general education with broad based programs of education in business. This program is predicated on the philosophy that the best education for business leaders is one which combines professional studies and studies in the liberal arts.

The emphasis on the liberal arts is most significant during the freshman and sophomore years. The major focus during the remaining years of study is on the basic business core, which serves as the foundation upon which students develop a major. This education provides graduates with the necessary background for initiating careers in one of the functional areas of business and an appropriate introduction to the tools of management that are necessary for success.

The College of Business Administration offers programs of study leading to the Bachelor of Business Administration degree (B.B.A.). Area of Specialization programs include accounting, computer information systems, management, and marketing. The College also offers the Masters Degree in Business Administration.

Vision Statement
Building on the rich history of Savannah State University, the College of Business Administration will be a premier, student-centered college in our region, where students can maximize their options and fulfill their potential in an environment that embraces diversity. The College will create an efficient, service-oriented culture that is responsive to the needs of students, faculty, staff, alumni and the community.

Mission Statement
The College of Business Administration at Savannah State University is dedicated to delivering quality undergraduate and graduate business programs to a diverse student population. Through innovative instruction, mentoring, applied research, and community involvement, the College develops business graduates who compete effectively in the public and private sectors.

Guiding Values
The following “Guiding Values” were formulated as part of COBA’s strategic planning process and adopted by COBA faculty members:

- High Expectations. We believe that students’ academic performance rises with high faculty expectations and mentoring.
- Service Learning. We believe that applied experiences enhance student learning and personal growth.
- Ethical Awareness. We believe that integration and reinforcement of ethical and leadership values are essential throughout the students’ COBA experience.
- Professional Development. We believe that mastery of business, communication, and interpersonal skills is critical to developing professional and successful students.
- Key Advantages. We believe that access to faculty, technology, innovation, and small class size are key advantages COBA provides to enhance the student learning experience through instructional excellence.
- Diversity. We believe that the college’s increasingly diverse learning environment is beneficial to the future of our students.

Accreditation
The College of Business Administration is accredited by the AASCB International, the Association to Advance Collegiate Schools of Business. AASCB International accreditation represents the highest standard of achievement for business schools, worldwide.

Academic Counseling
Students in the College of Business Administration are assigned academic advisors in their area of specialization. Since the advisement process is essential to ensure all prerequisites have been successfully completed prior to enrollment in a particular course, students must consult with their advisors before registering. Students should also work with their advisors to develop a plan of academic progress.

Advisement Process
- Advisor Listing and Academic Grid Sheets (Accounting, Computer Information Systems, Management, and Marketing) are available in COBA Student Services (Jordan 141).
- Prior to registration, students should update Academic Grid Sheet using the degree evaluation tool in PAWS. Instructions are available in COBA Student Services.
- Meet with advisor during their scheduled office hours (bring updated Academic Grid Sheet).

Academic Regulations
- At least 30 semester hours of business courses must be taken in residence, at the College of Business Administration, in order for a student to earn a (B.B.A.) degree from the institution.
- To graduate, Business majors must complete Areas A through F of the core curriculum with a minimum adjusted grade point average of 2.0 and with a grade of “C” or better in each of the following courses: ENGL 1101, ENGL 1102, CISM/CSCI 1130, MATH 1111 and all Area F courses.
- To graduate, business majors must complete, with a grade of “C” or better, all courses in Area F (Business Core), Area G (Foundation Knowledge of Business) and the Area of Specialization (concentration).
- 42 Hour Rule” - Business students may enroll in 3000 level courses in the College of Business Administration after successful completion of 42 semester hours including the courses listed in Area F, provided all course-specific prerequisites have been satisfied. Students will not be eligible to take 3000 level business courses, prior to having completed 60 credit hours (junior standing), until all Area F courses are completed.
- Students who enroll as special students (as defined in this catalog), and who subsequently change their status to degree-seeking, may transfer for credit a maximum of seven semester hours earned while in special student status.

Transfer Students
- The Dean of the College of Business Administration determines eligibility for transfer of credit for business course work which will apply toward business degrees.
- Business courses taken at system universities and senior colleges will transfer if the prerequisites at Savannah State have been satisfied.
- Business courses completed at the lower division level at other institutions will not be awarded transfer credit if these courses are offered at the junior and senior levels at Savannah State University.
- Students with an excess of 30 transfer credit hours of business courses will be allowed to substitute a course for BUSA 1101, if the student transfers in with an excess of 60 hours then that student will be allowed to substitute one course for BUSA 1101 and one course for BUSA 2101.

**Transient Students**
- Students enrolled at SSU in COBA who would like to be a Transient Student at another college/university for a given semester should follow these instructions:
- Provide COBA-Student Services with documentation that the college/university you would like to attend is accredited at least by a Regional accrediting agency, such as SACS, NEASC, NCACS, NWCCU, or WASC.
- Select the course(s) you would like to take at the college/university; using the course descriptions from both institutions, make sure the course(s) are comparable to a course(s) here at SSU.
- Make a copy of the catalog course description from the other college/university and from Savannah State University.
- If course falls under the schools of CLASS or COST, please have the appropriate department sign off on the course description page to signify that the course is an appropriate transfer course.

Bring the completed Transient Form, catalog descriptions and other supporting documentation to COBA Student Services for processing (Allow five business days). All forms turned in after the posted deadlines will be subject to a longer processing time regardless (Allow five business days). All forms turned in after the posted deadlines will be subject to a longer processing time regardless of the deadline for the institution for which you are applying for transient status).

**Deadline for processing Transient Form:**
- Fall Semester: July 1st
- Spring Semester: November 1st
- Summer: April 1st

**Incoming Transient Students**
Students who are attending Savannah State University and taking College of Business Administration classes as a transient student are required, for our accreditation purposes, to provide an official transcripts to be placed on file in COBA Student Services.

**Center for Business Growth and Entrepreneurship**

The Center’s mission is to help the College and the University in meeting their respective responsibilities for supporting the growth and development of the economy of the Savannah region by:
- Providing assistance in the establishment of new minority owned small businesses in the Savannah Community.
- Providing assistance to existing minority small business owners in their efforts to expand their businesses.
- Collecting, analyzing and disseminating business, economic and demographic information.
- Conducting applied business and economic research.

- Periodically preparing and delivering training workshops to meet the needs of the business community.

The Center for Business Growth and Entrepreneurship will strive to serve as a vital link between the business and economic development community and the College of Business Administration at Savannah State University. In doing so it will support the University’s effort to fulfill its mandate as a state University to serve as a key partner in the efforts to enhance the pace and direction of development or the economy of the City of Savannah and the surrounding region.

**The Coastal Georgia Center for Economic Education**

The Coastal Georgia Center for Economic Education is a joint program between the College of Business Administration at Savannah State University and the College of Education at Armstrong Atlantic State University. The purpose of the Center is to promote the basic economic ideas considered essential for good citizenship. This aim is accomplished through programs conducted in teacher workshops and the dissemination of materials. The center cooperates with the Georgia Council on Economic Education in providing workshops for area teachers to help meet the economic standards, which are mandated for students by the State of Georgia. The Center also cooperates with teachers from the Economics America Program of the Savannah-Chatham school system.

### Master of Business Administration Program

The Master of Business Administration (MBA) program is designed to prepare students for careers in management and leadership in both the private and public sectors. Students acquire a comprehensive foundation in the functional areas of business, the global environment in which they will function, and the analytical tools for intelligent and ethical decision making. The MBA program is accredited by The Association of Advance Collegiate Schools of Business (AACSB International). (See Graduate Programs for Details)

The following areas of concentration are offered: Religious and Philosophical Studies, Foreign Language, Print Journalism, Public Relations and Advertising, Radio and Television, Art, Music, Theatre and Dance, Applied Forensic Analysis, Pre-Law, Public Administration, and International and Comparative Politics. The College also offers three Master's degree programs, the Master of Public Administration, the Master of Social Work, and the Master of Science in Urban Studies.

The College of Liberal Arts and Social Sciences is committed to the mission of Savannah State University. The College strives to assure an academic milieu that fosters excellent teaching, scholarly activities, service to students and meaningful community outreach. The College recognizes its rich cultural history as central to the ethos of the University.

The goals of the College of Liberal Arts and Social Sciences are as follows:

- To promote the belief that demography is not destiny: all students have a potential to graduate, and all students should be held to a high level of expectation;
- To provide students with a body of knowledge in the humanities, social sciences, arts, and wellness that empowers critical, visionary scholarship;
- To promote an inclusive environment that encourages students to develop intellectually, physically, ethically, emotionally and aesthetically;
- Provide an overarching culture that supports and nurtures students through relationships cultivated between faculty and students;
- Provide learning experience that promotes critical and analytical thinking and effective communications skills;
- Promote applied research and creative and scholarly activity among faculty and students.
- Serve as an educational resource for cultural enrichment and economic growth throughout southeast Georgia;
- Foster cultural diversity;
- Emphasize tradition of African-American and African cultural and serve as a repository of knowledge about African-American experience; and
- Promote a desire for learning, a concern for humanity, human rights and the ideals of equality, citizenship and social justice.
**Department of Liberal Arts**

The programs of Visual and Performing Arts, English Language and Literature, Foreign Languages, Humanities, Religious and Philosophical Studies and Health Education comprise the Department of Liberal Arts. These programs provide a variety of course offerings in literature, writing, foreign languages (Arabic, Chinese, French, and Spanish), religious studies, philosophy, humanities, critical thinking, music, art, speech, theatre, dance, and health education. The Department offers courses leading to the baccalaureate degree (B.A.) in English language and literature, and to a baccalaureate degree in Fine Arts (B.F.A.) in the Visual and Performing Arts; additionally, it contributes significantly to the interdisciplinary program of Africana Studies. Minors in English language and literature, art, music, dance, and theatre are available as well as areas of concentration (15 credit hours) in religious and philosophical studies, French and Spanish. The department serves a crucial need of the University by offering courses to satisfy the core curriculum requirements in Area A-Essential Skills, Area B-Institutional Options, Area C-Humanities/Fine Arts, and university mandated “Additional Requirements.”

**Mission Statement**

The mission of the Department of Liberal Arts is consistent with that of the College of Liberal Arts and Social Sciences as well as that of Savannah State University. Specifically, we are in concert with the following ideals:

- To graduate students prepared to perform at higher levels of economic productivity, social responsibility, and excellence in their chosen fields of endeavor in a changing global community;
- To embrace cultural, ethnic, racial and gender diversity supported by practices and programs that embody the ideal of an open, democratic, and global society;
- To develop high quality programs that utilize appropriate technology and support a variety of disciplinary, interdisciplinary, and professional programming;
- To commit to a high level of scholarly and creative work;
- To serve the needs of African American students as well as those of all other students, regardless of race, ethnicity, or culture;
- To embrace health and wellness as lifelong pursuits;
- To use student-centered instruction, scholarship, research, and effective support services that nurture the intellect and value honesty and human sensitivity;
- To provide effective programs and levels of service to meet the ever-changing needs of a coastal urban area;
- To serve as an educational resource for cultural enrichment and economic growth through southeast Georgia; and
- To promote a desire for learning, a concern for humanity, and the ideals of equality, citizenship, and social justice.

**Aims and Objectives**

The department's programs aim to develop the following essential interdisciplinary skills:

- Creative skills: skillful and thoughtful self-expression in varied genres and media;
- Analytical skills: the ability to think rigorously and critically about ideas and propositions and to assess the validity of arguments;
- Synthesis skills: the ability to draw interdisciplinary relationships and to reach valid conclusions;
- Reading and interpretative skills: the ability to understand, with sensitivity to nuance and effect, the complexities and varieties of the ways in which oral, written and artistic texts communicate meaning;
- Oral, written, and artistic skills: the ability to formulate a point of view and to present, develop, illustrate, and defend it;
- Research skills: the ability to distinguish relevant data, to locate and gather it from a variety of sources, and to record it in an accessible fashion, using acceptable bibliographical and typographical conventions;
- Time management skills: the ability to plan work ahead, to structure time purposefully, and to carry out what is planned to meet deadlines;
- Independent learning and study skills: the ability to work alone, to locate useful information, and to record and deploy it pertinently;
- Interpersonal skills: the ability to collaborate, to participate in joint projects, and to accept criticism.

**Visual and Performing Arts Program**

The Department of Liberal Arts offers courses leading to the (Bachelor of Fine Arts) in the Visual and Performing Arts. The Visual and Performing Arts program also delivers fine arts courses as fulfillment of core requirements, as electives, and as advanced courses leading to a minor (15 credit hours) in music, visual art, dance, and theatre. Students of all disciplines collaborate on productions and other related projects throughout the year threading connections throughout the arts. The program also provides opportunities for student engagement in the Visual and Performing arts through concerts, theatrical and dance productions, visual art exhibitions, festivals, open studios, visiting artists, community outreach, study abroad, conferences and guest lectures.

The program seeks to develop student appreciation of culture and aesthetics; to develop individual ability and intellectual curiosity through performance, research, and other scholarly activity; to develop an awareness of social and civil responsibility; to provide interdisciplinary specialized training in visual art, music, dance, and theatre; and to develop cultural transmitters in an increasingly technological age.

**Visual and Performing Arts Major**

In addition to completing the Core Curriculum, students seeking a major in the Visual and Performing Arts must select (an area of concentration and) a field of emphasis. The areas of concentration with the corresponding fields of emphasis are as follows: a Concentration in Visual Art with an emphasis in either Art History or Studio Art; a Concentration in Music with an emphasis in either Voice Performance or Keyboard Performance with mandatory participation in The Savannah State University Concert Choir, and a Concentration in Theatre and Dance with an emphasis in either Dance Performance or Theatre Performance.

**Academic Requirements for the Baccalaureate Degree in the Visual and Performing Arts**

**Admission Requirements:** Students must pass audition or submit a portfolio before or at 12 credit hours within their respective concentration area to be fully admitted into the BFA program.

**Visual Arts**

- Portfolio submission, at least 75% at or before 12 credit hours
- Previous related experience
- Letter of Recommendation
Music
- Passing audition, at least 75% at or before 12 credit hours
- Previous related experience
- Letters of Recommendation

Theatre and Dance
- Passing audition, at least 75% at or before 12 credit hours
- Previous related experience
- Letters of Recommendation

Additional program requirements:
- Participation in BFA Program Events
- Written Critiques
- Peer Critiques
- Exhibitions
- Voice/Choral Recitals
- Performance lab work
- Savannah State University Concert Choir
- Theatre/Dance Productions
- Senior Exhibitions
- Senior Recitals
- Senior Productions
- Senior Portfolios
- Senior Exit Exams
- Internships/Practicum/Seminar

(Students are reminded that SPEH 1101 and THEA 2101 must be taken as part of the Core prior to the Concentration Area. Any student in consultation with his advisor may minor in Dance. A minor in Dance requires 6 credits in Dance courses above the 3000 level.)
Literature, Languages and Humanities in the Department of Liberal Arts

The Department of Liberal Arts offers courses leading to the baccalaureate degree (B.A.) in English language and literature. A minor is available in English, and areas of concentration (15 credit hours) are available in religious and philosophical studies, in Spanish, and in French. The department also offers courses in Arabic, German, Portuguese, Chinese, Africana Studies, critical thinking, and interdisciplinary humanities.

The department seeks to provide a liberal arts education in which students may develop competence in communication skills; reading, writing, speaking, listening, analysis, and critical thinking; achieve competence in one or more foreign languages; increase knowledge and appreciation of art, literature, music, philosophy, and religion; explore the interdisciplinary approach in Africana Studies; and prepare for graduate study in language and literature as well as pre-professional areas such as law, library science, medicine, and education.

Freshman English

Entering freshmen who meet the requirements of regular admission are placed in ENGL 1101. Applicants for admission who do not meet the requirements for regular admission must take the Collegiate Placement Examination (CPE). On the basis of their performance on the English section of this test (including a writing sample), these students are assigned to ENGL 1101 or to ENGL 0099 in the Student Academic Assistance Program (SAAP).

Advanced Placement and Credit by Examination

Students who earned the grade of 3 or above on the Advanced Placement Test or 47 on the Freshman English CLEP may be exempted from ENGL 1101 with credit.

Students who earned the grade of “B” or above in advanced placement language (French, German, Spanish, Arabic or Chinese) or 4 or above on the Advanced Placement Test may be exempted from the first course in language (1001).

English Language and Literature Major

Students majoring in English language and literature will complete at least thirty-nine semester hours in language, writing, and literature, beyond Area F requirements. English courses taken in the core curriculum Areas A, B, C, and F may not be counted as a part of the thirty-nine hours required for the major.

As sophomores, students should prepare to major in English by taking ENGL 2104 and 2105. ENGL 2105 is recommended as a prerequisite to all other English courses.

Courses required for the major are the two introductory courses in British literature (ENGL 2121-2122), the two introductory courses in American literature (ENGL 2131-2132), one course in language (ENGL 3321), one course in creative writing, one course in Shakespeare (ENGL 4011), one advanced course in African-American literature (ENGL 3212, 3216, 4211, 4217, or 4218), and the senior seminar (ENGL 4700), and five English electives at the 3000 or 4000 level.

Academic Requirements

Candidates for the baccalaureate degree in English Language and Literature must pass the reading and essay writing components of the Regents' Testing Program (RTP).

</tr>
</tbody>
</table>

Senior English majors must take the departmental exit examination.

Students enrolled in the English degree program will be assigned an academic advisor by the chair of the department. Students are required to be advised by their advisor prior to registering each semester.

Students must earn a minimum grade of "C" in all prerequisite courses prior to registering for an upper level course.

Students must earn a minimum grade of "C" in all major courses and all courses listed under Area F.

English Language and Literature Minor

A minor in English consists of a minimum of fifteen hours beyond ENGL 1102. Students minoring in English are required to take ENGL 2105 as a prerequisite to all other English courses except ENGL/SPEH 4101 and ENGL 2104. Other courses required for the minor are one course in English literature, one course in American literature, and one course in African-American literature. Additional English courses needed to complete the minor are electives (excluding the honors thesis, ENGL 4800, which only English majors may take).
Areas of Concentration in the Department of Liberal Arts

Religious and Philosophical Studies
Religious and Philosophical Studies courses are designed to provide students with a broad humanistic background in religion and philosophy and to offer students expanded opportunities to pursue liberal studies. An area of concentration consists of 15 hours (minimum) in religious and philosophical studies, including RPHS 2101.

French and Spanish
The aims of the French and Spanish areas of concentration are (1) to develop the ability to communicate in a foreign language; (2) instill respect for other people and other cultures; (3) to develop an appreciation for the artistic expressions which are found in other languages, and (4) to bring about a greater awareness of our cultural heritage. The French or Spanish minor consists of the second intermediate course in the language and twelve additional hours at the junior or senior level.

Prior to enrolling in a foreign language course, student may take a placement test. Depending on the results of that test, students are placed in either an elementary level course (1001 or 1002) or in the first intermediate course (2001). Students should take note of the language requirements in their majors since some majors do not permit credit for 1001 or 1002.

Health Education Program
The Health Education Program provides wellness-based core curriculum courses for all students and seeks to develop students' intellectual competency regarding lifestyle habits and issues that affect health, quality of life, and well being as a life-time process.

Wellness Requirements
All students entering Savannah State University are required to satisfactorily complete three hours of health education courses as a prerequisite for graduation: one 2-hour health education course and one 1-hour physical activity course. Students with disabling conditions are encouraged to consult with the coordinator of the department for an individualized program based on their needs. Some of the courses in the wellness curriculum have a required dress code.
Department of Mass Communications

The department of mass communications offers courses leading to the baccalaureate degree (B.A.) with a concentration in one of three areas: print, radio and television, and public relations and advertising. Minor programs are available in several other disciplines in the university. The department also offers courses in desktop publishing, photojournalism, radio, film, television production, public relations, and advertising copywriting.

The objectives of the department are:
- To prepare students for graduate study in mass communications, film, and other areas of endeavor.
- To offer students state-of-the-art equipment and instruction in print, broadcast, and public relations and advertising to prepare them for jobs in professional media.
- To aid students in developing critical thinking and analytical skills, writing skills, computer/software usage skills in print, broadcast, and public relations and advertising.
- To orient students to the importance of minority contributions to the areas studied in mass communications to enhance their global view of the world.
- To assist students in developing a broad interdisciplinary liberal arts perspective inclusive of literature, art, film, philosophy, African American studies, and music.
- To involve students in applied experiences in the program to enhance their employability in a modern workforce.
- To offer interdisciplinary courses that enhance the African and Africana Studies major.

Mass Communications Major

The mass communications degree program is an interdisciplinary program which offers students who are interested in a professional communications career an opportunity to be flexible. The program, which leads to the B.A. degree, allows students the option of concentrating in print journalism, radio and television, or public relations and advertising.

Enriched knowledge and understanding of the nature, circumstances, and aspirations of people are derived from historical, literary, social, philosophical, and theological studies, which are traditionally called humanistic. Therefore, the mass communications department utilizes these disciplines to assist students to develop basic insights into human nature and to acquire humanistic principles upon which the media must rest.

Students in CLASS participate in internships on campus and in the community. WHCJ-FM, 90.3, the university's radio station, serves as a learning laboratory for students interested in acquiring radio production skills. CLASS provides students with a variety of opportunities including the concert choirs, the marching band, the Model United Nations, the jazz ensemble, the Mass Communications Student Association, and the Tiger's Roar and the Tiger's Roar Online student newspapers.

Academic Requirements for the Baccalaureate Degree in Mass Communications

Candidates for the baccalaureate degree in the Department of Mass Communications must pass the reading and essay components of the Regents’ Testing Program (RTP). Students enrolled in the mass communications degree program will be assigned an academic advisor by the chair of the department. Students are required to be counseled by an advisor prior to registering for a course. Students must complete all Areas A-F courses prior to enrolling in upper level courses. Students must earn a minimum grade of "C" in all prerequisite courses prior to registering for an upper level course. Students must earn a minimum grade of "C" in all major courses and all courses that are appropriate to the major. Generally, the courses appropriate to the major are listed under Area F courses. Senior mass communications majors must take the departmental exit examination.

PROGRAM OF STUDY

MASS COMMUNICATIONS MAJOR

Core Curriculum

| Areas A, B, C, D, E, and additional requirements | 47 hours |
| Area F Courses Appropriate to the Program of Study | 18 hours |
| COMM 2101 Writing for the Media | 3 hours |
| COMM 2105 Mass Media & Society | 3 hours |
| COMM 2106 African-Americans in the Media | 3 hours |
| COMM 4810 Intro. to Communications Research | 3 hours |

Foreign Language Sequence

| 6 hours |
| These may include the second elementary level course and the first intermediate level course of the same language, or two intermediate level courses in the same language. |

Recommended: SPAN 1002 and SPAN 2001 or SPAN 2001 and SPAN 2002

PRINT CONCENTRATION

COMM 3105 Wrtg. for Newspapers & Magazines 3 hours
COMM 3110 Desktop Publishing 3 hours
COMM 3120 Intro. to Communications Theory 3 hours
COMM 3201 Feature Writing 3 hours
COMM 4106 Communications Practicum 3 hours
COMM 4170 Adv. Newspaper Wrtg. & Reporting 3 hours
COMM 4201 Copy Editing 3 hours
COMM 4705 Communications Law & Ethics 3 hours
COMM 4902 Professional Media Internship 3 hours

Other Requirements
SPEH 4101 Advanced Speech 3 hours
GEOG 1101 Intro. to Human Geography 3 hours

Minor Field

| 15 hours |
| Electives (ENGL 2104 is a required elective) | 9 hours |
Total hours required for the major in Mass Communications with Print Concentration

125 hours

RADIO AND TELEVISION CONCENTRATION

COMM 3120 Intro. to Communications Theory 3 hours
COMM 3301 Intro. to Television Production 3 hours
COMM 3303 Scriptwriting for Radio & Television 3 hours
COMM 3306 Intro. to Audio Production 3 hours
COMM 4106 Communications Practicum 3 hours
COMM 4107 Advanced Television Production 3 hours
COMM 4705 Communication Law & Ethics 3 hours
COMM 4815 The Documentary 3 hours
COMM 4902 Professional Media Internship 3 hours

Choose one of the following courses:
COMM 3101 Media Arts & Design 3 hours
COMM 3102 Photo-Journalism 3 hours
COMM 3130 History of Journalism 3 hours
COMM 4105 Editorial Writing 3 hours
COMM 4211 Newspaper Production 3 hours
COMM 4402 Pub. Relations & Advertising Camp. 3 hours
COMM 4810 Intro. to Communications Research 3 hours

Recommended: SPAN 1002 and SPAN 2001 or SPAN 2001 and SPAN 2002
COMM 3302  Speech for Radio & Television  3 hours
COMM 4108  Film & Television Directing  3 hours
COMM 4110  Advanced Audio Production  3 hours
COMM 4111  Film & Television Editing  3 hours

Other Requirements
SPEH 4101  Advanced Speech  3 hours
GEOG 1101  Intro. to Human Geography  3 hours

Minor Field  15 hours
Electives (ENGL 2104 is a required elective)  9 hours

Total Hours Required for the Major in Mass Communications with Television Concentration  125 hours

PUBLIC RELATIONS ADVERTISING CONCENTRATION  36 Hours
COMM 3110  Desktop Publishing  3 hours
COMM 3120  Intro. to Communications Theory  3 hours
COMM 3401  Intro. to Pub. Relat. & Advertising  3 hours
COMM 4101  Advertising Copy Writing  3 hours
COMM 4106  Communications Practicum  3 hours
COMM 4402  Pub. Relations & Advertising Camp.  3 hours
COMM 4406  Pub. Relations & Advertising Wksh.  3 hours
COMM 4705  Communications Law & Ethics  3 hours
COMM 4902  Professional Media Internship  3 hours

Choose one of the following courses:
COMM 3101  Media Arts & Design  3 hours
COMM 3102  Photo-Journalism  3 hours
COMM 3130  History of Journalism  3 hours
COMM 3301  Intro. to Radio & TV Production  3 hours
COMM 3302  Speech for Radio & Television  3 hours

Other Requirements
SPEH 4101  Advanced Speech  3 hours
GEOG 1101  Intro. to Human Geography  3 hours

Minor Field  15 hours
Electives (ENGL 2104 is a required elective)  9 hours

Total Hours Required for the Major in Mass Communications with Public Relations Concentration  125 hours

Mass Communications Minor
All students completing a minor in mass communications are required to take and satisfactorily complete fifteen semester hours which must include COMM 2101 and other communications courses at the 3000 or higher levels; however, COMM 2106 (African-Americans in the Media) may be taken with permission of the chair of the department. Suggested courses include, but are not limited to:

COMM 2101  Writing for the Media (required)  3 hours
COMM 3110  Desktop Publishing  3 hours
Prerequisite: COMM 3102
COMM 3120  Intro. to Communications Theory  3 hours
Prerequisite: Junior standing
COMM 3302  Speech for Radio & Television  3 hours
COMM 3401  Intro. to Pub. Relat. & Advertising  3 hours
Prerequisites: COMM 2101 & COMM 3110
Department of Social and Behavioral Sciences

The Department of Social and Behavioral Sciences offers academic programs in behavior analysis, criminal justice, history, and sociology to prepare students for graduate studies and career goals. These programs include scholarly activities designed to develop historical consciousness, awareness of civic responsibilities, appreciation of cultural diversity, and understanding of both human behavior and interpersonal relationships.

The department promotes the examination of the various issues, and opportunities that affect the lives of societal members in Georgia, the nation, and the world.

The Department of Social and Behavioral Sciences offers courses leading to a Bachelor of Arts degree in history and Africana Studies. Africana Studies offer an option to concentrate in humanities or social sciences. The department also offers a Bachelors of Science degree in behavior analysis, criminal justice, and sociology.

The department offers minor programs in African-American studies, behavior analysis, criminal justice, history, sociology, and gerontology. In conjunction with Armstrong Atlantic State University, the department also offers a teacher certification program in secondary education for history majors.

The objectives of the department are as follows:
- To provide introductory courses in behavior analysis, history, geography, and sociology, for both general knowledge and a foundation for advanced classes;
- To develop students’ abilities and skills through critical thinking, logical and quantitative reasoning, effective writing and speaking, and computer literacy;
- To prepare students for graduate work in behavior analysis, criminal justice, sociology, psychology, and other related fields; and
- To prepare students for successful careers in behavior analysis/psychology, the criminal justice system, education, foreign service, and other traditional and nontraditional careers in the public and private sectors.

Department of Social Work

Center of Excellence

Mission Statement

The mission of the Department of Social Work is to prepare students to excel in social work practice. The BSW program prepares students for generalist practice and the MSW program builds on the generalist foundation and prepares students for advanced practice in Clinical and Social Administration. The Department promotes student focused learning, incorporates an Afrocentric perspective and graduates students who are competent to practice social work in rural, urban, and global settings.

Bachelor of Social Work Program

The Bachelor of Social Work (BSW) degree is a carefully articulated program that provides a generalist academic and experiential foundation for students seeking a career in the varied and expanding profession of social work. The BSW program is accredited by the Council on Social Work Education. The major requires a selective liberal arts base of knowledge from social, behavioral, and natural sciences (e.g. psychology, sociology, biology) together with group social work skills, values, and methodologies of intervention at the individual, family, group, institution, and community levels. BSW graduates are educated to respond in an informed way to identifiable social work needs in a variety of settings, including rural, urban, and international. The social work major is structured around four interrelated components: theoretical foundations/intervention strategies; client population/cultural diversity; research/evaluation; and skills development/fieldwork. Students admitted to the major are expected to maintain academic excellence and demonstrate professional and ethical behavior as reflected in the BSW Handbook. Students must maintain a minimum GPA of 2.5 and above in all social work courses after formal admission to the social work program.

BSW Admission Requirements

Students interested in declaring social work as a major are required to complete the Application for Admission to the BSW Program. Completed applications are evaluated by the BSW Admissions Committee and recommendations are forwarded to the BSW Program Coordinator. Typically, application is made spring semester of the sophomore year. See the Department of Social Work webpage (bswmssw@savannahstate.edu) for the BSW application. Admission to the BSW program is based on the following criteria:

- Completion of the University Core Curriculum
- Minimum grade point average (GPA) of 2.3
- Completion of SOWK 2200 *Human Needs and Human Services (gateway course) with a grade of "C" or better
- Completed Application for Admission to the BSW Program includes:
  - Two Letters of Reference: One from a Savannah State University professor and one from an employer or supervisor (you may substitute a supervisor for a volunteer experience). Transfer applicants may submit a reference letter from a previous university or college
  - Current official transcript
  - An interview may be requested by the admission committee

Applications are due on or before April 15th for fall semester. Students who register for SOWK 2200 in the summer must submit their application by June 15th to:

ADMISSIONS COMMITTEE
Box 20553
Savannah State University
Savannah, GA 31404

Academic credit for life or previous work experience is not considered in whole or in part in lieu of admission requirements or in lieu of social work courses including field practicum requirements (CSWE Accreditation Standard 5.2, 2004).

SOWK 2200

SOWK 2200 is the gateway course for admission to the BSW program at Savannah State University.

Transfer Students

The SSU Admissions Office provides preliminary evaluation of transfer credit in the core curriculum. The BSW program evaluates and provides final approval for all transfer credits in the social work curriculum. The Department of Social Work makes decisions about transfer of credit toward requirements specifically for the social work major. Students who wish to transfer other social work courses from other CSWE accredited programs must submit a copy of the course syllabus for each course being considered for transfer. The course syllabus is reviewed by the BSW Program Coordinator and faculty to determine whether there is a comparable course in the BSW Program for which credit may be given. Non-equivalent social work courses from CSWE-accredited programs may be transferred as social work electives.

Only social work courses completed within the last ten years of readmission or transfer to Savannah State University will apply toward the BSW degree requirements.

Requirements for Admission to Field Practicum (SOWK 4701 & 4702 and 4901 & 4902)

To be eligible for admissions to Field Practicum, students earn a minimum GPA of 2.5 and above in all Social Work courses after formal admission to the social work program. Students must also satisfy the standards for social work education as stated in the BSW Student Handbook.

Field placements are during week day and daytime hours. Students must adjust their personal schedules to meet the demands of field practicum.

Students who are denied admission to field practicum must select another major. Students who fail field practicum a second time will be dismissed from the social work program and must select another major.

Requirements for Graduation

In addition to completing 47 hours of Savannah State University’s core curriculum requirements (Areas A, B, C, D*, E, and additional requirements), 18 hours in Area F (courses appropriate to the program of study); and 60 hours of social work major (SOWK) courses.

*Social Work majors must complete BIOL 1104 (Human Biology) and
BIOL 1104 Lab in Area D

**Master of Social Work Program**

The Master of Social Work (MSW) Program is accredited by the Council on Social Work Education. The MSW program is designed to prepare students for entry into advanced social work practice. The 60 credit-hour degree program consists of a foundation curriculum which provides knowledge, values, and skills common to generalist social work practice, concentration courses in clinical practice social administration, and three field practicum courses which are designed to enhance the competencies in the foundation and concentration areas. Students must declare a concentration within the first semester of full-time enrollment or within two semesters of part-time enrollment. (See Graduate Programs for Details)
Department of Political Science and Public Affairs

Homeland Security and Emergency Management Major

The SSU Homeland Security and Emergency Management Program (HSEM) is built on the existing body of knowledge in homeland security and emergency management as well as current and developing research, with an emphasis on lessening the impacts of disasters on our most vulnerable citizens. The program will prepare students to move into entry-level public and private sector positions in this growing field.

The HSEM program uses an integrated and interdisciplinary approach to homeland security and emergency management, preparing students with the knowledge, skills, and abilities to leverage and coordinate the full range of capacity and resources to improve outcomes in a disaster – whether natural or human-caused. The program will offer students knowledge specific to different types and causes of disaster, lessons from past disasters, and comprehensive and hazard-specific practices that lead to effective prevention, protection, mitigation, preparedness, response and recovery. The SSU HSEM program is the only bachelor’s degree program in homeland security and/or emergency management in the state of Georgia and the first in the nation at a historically black college/university.

The program leads to the bachelor’s degree in homeland security and emergency management. Students must earn 125 hours to graduate, with 36 semester hours in major courses, with no requirement for a subject area minor.

Major in Homeland Security and Emergency Management (125 hours)

Core Curriculum

Areas A, B, C, D, E, and Additional Requirements 47 hours

Area F, Courses appropriate to the program 18 hours

HSEM 1101 Intro. to HSEM 3 hours
GEOG 1101 Intro. to Human Geography 3 hours
or
ANTH 1101 Intro. to Anthropology 3 hours
HIST 2111 U.S. History to the Post-Civil War Period or
HIST 2112 U.S. History from the Post-Civil War Period- Present 3 hours
SOCI 2101 Social Statistics 3 hours
Foreign Language 6 hours

Major required courses* 36 hours

HSEM 3110 Politics & Policy of HSEM 3 hours
HSEM 3120 Law & Ethics in HSEM 3 hours
HSEM 3130 Emer. Planning & Incident Mgmt. 3 hours
HSEM 3140 Diversity Issues in HSEM 3 hours
HSEM 3250 Risk & Vulnerability Assessment 3 hours
HSEM 3260 Terrorism in the Modern World 3 hours
HSEM 3822 Tools for Decision Making in HSEM 3 hours
HSEM 3840 Effective HSEM Communication & Leadership 3 hours
HSEM 3901 Internship 3 hours
HSEM 4901 Senior Capstone Seminar 3 hours

Foreign Language (6 hours in addition to those in Area F) 6 hours

Electives 24 hours

HSEM electives 9 hours
General electives 15 hours
Total 125 hours

*HSEM 1101 is a pre-requisite to all HSEM courses.

Minor in Homeland Security and Emergency Management 15 hours

Certificate in Homeland Security and Emergency Management

The 15-hour undergraduate certificate in Homeland Security and Emergency Management (HSEM) is a certificate for individuals who would like to add competencies in the HSEM field, working practitioners who want an interim benchmark for work toward a bachelor’s in HSEM, and for other students who would like to take a portion of SSU HSEM classes online before relocating to the campus to complete their bachelor’s degree.

Political Science

The Department of Political Science and Public Affairs offers the Bachelor of Science degree in political science. Students majoring in political science may elect to concentrate in pre-law, public administration, or international (comparative) politics.

The Political Science program seeks to prepare leaders for greatness in public service to Georgia and beyond, and who are able to

- Demonstrate an understanding of American governmental structures, as well as comparative political systems;
- Exhibit knowledge of the political science literature and have the ability to retrieve information and acquire knowledge on their own;
- Communicate effectively about the impact of political science in society and the significance of the discipline in the social sciences;
- Pursue graduate and professional schools;
- Compete successfully for entry-level jobs in the domestic and international arenas in Georgia and beyond; and
- Perform at higher levels of economic productivity, social responsibility, and moral excellence in their chosen field.

**Total Hours Required for the Major in Political Science** 125 hours

**Master of Public Administration Program**

Consistent with Savannah State University’s unique and historic mission as one of three historically black colleges and universities in the University System of Georgia, the Master of Public Administration program seeks to be the program of choice for non-traditional managers in our region, while offering traditional managers an environment that enhances cultural competency. (See Graduate Programs for Details)

**Master of Science in Urban Studies Program**

The Masters of Science in Urban Studies (MSUS) is an interdisciplinary, collaborative graduate program between the College of Liberal Arts and Social Sciences (CLASS) at Savannah State University (SSU) and the College of Arts and Sciences (CAS) at Armstrong Atlantic State University (AASU). The program seeks to enhance the development of each student’s analytical and research skills, strengthen their intellectual resources necessary for the generation of new knowledge of urban areas in Georgia and worldwide; and to add to the general public’s awareness of the problems and strengths of Georgia’s urban areas through community activity. (See Graduate Programs for Details)
College of Sciences and Technology

The College of Sciences and Technology comprises four departments: the Department of Natural Sciences and Mathematics, the Department of Engineering Technology, the Department of Naval Science and the Department of Military Science. It offers Bachelor of Science degree programs with majors in Biology, Chemistry, Environmental Sciences, Marine Science, Mathematics, Civil Engineering Technology, Computer Science Technology, and Electronics Engineering Technology.

The College offers Master of Science degree in Marine Science. In collaboration with Georgia Tech, it also offers engineering degree programs under Georgia Tech Regional Engineering Program (GTREP), Regents Engineering Transfer Program (RETP) and Dual degree program.

The Naval Reserve Officers Training Program gives young men and women the choice of attending college in an academic discipline of their choice while at the same time receiving military training that culminates at being commissioned as military officers in the Navy or Marine corps upon completion of the baccalaureate degree.

The Army Reserve Officers Training Program enhances a student's education by providing unique leadership and management training along with practical experience. It helps a student develop many of the qualities basic to success in the Army, or in a civilian career. ROTC gives students a valuable opportunity to build for the future by enabling them to earn a college degree and an officer's commission at the same time.

Core Curriculum

All students enrolled for the first time must complete the core curriculum, which consists of six areas and includes sixty-five semester hours of course work.

Numbers in parentheses following course description indicate, in subsequent order, the number of hours of lecture each week, the number of laboratory hours each week and the semester hour credit the course carries.

Students seeking degrees with any major through the College of Sciences and Technology are required to complete the University's "Core Curriculum".

Students then select and complete the requirements for a specific major curriculum as described in the appropriate sections of this catalog.
Department of Natural Sciences and Mathematics

Mission

The two-fold mission of the Department of Natural Sciences and Mathematics is:

- To graduate students prepared to perform at high levels of excellence and productivity in their chosen fields of endeavors in a changing technological society and the global community.
- To provide academic course offerings that include teaching and research opportunities that prepare students for careers or graduate studies in medical, marine science, environmental science, biological, chemistry, physical science and mathematical fields.

The mission is realized through its goals:

- To offer foundation courses in biology, chemistry, marine science, environmental science, physical science and mathematics that enhance a liberal arts education and serve as a basis for advanced studies.
- To develop courses which develop competencies in critical thinking, oral and written communication, creative thinking, and problem solving.
- To offer a variety of courses which prepare and enhance the professional growth of traditional and nontraditional students.
- To offer scholarly and research activities which enhance the continued educational and professional growth of faculty members.
- To develop structured web-based courses.

The philosophy and purposes of the Department of Natural Sciences and Mathematics are, in general, consistent with the overall philosophy of the university. Specifically, the Department accepts the responsibility of preparing students for job opportunities in the professional arena:

- To gain basic preparation, knowledge and skills necessary to the satisfaction of their general needs of home and society.
- To acquire specialized training in one of the natural sciences or mathematics, to develop individual talents and intellectual curiosity that is essential to further study and progress.
- To develop an understanding of mental, emotional, and physical health, and to practice habits that are conducive to sound personal and community health.

The Department of Natural Sciences offers a graduate degree in Marine Sciences; undergraduate degrees in Biology, Chemistry, Marine Science, Environmental Science and Mathematics; and minors in Biology, Chemistry, Marine Science, and Mathematics.

Biology Major

The Program in Biology within the Department of Natural Science and Mathematics offers curricula leading towards B.S. degrees in Biology. Additional courses are offered for students with a general interest in the life sciences, but these courses are not counted toward the above-mentioned degree programs.

The options within the program emphasize distinct training to pursue careers in research, education, biomedicine, biotechnology, or unique paths selected by the students in consultation with their faculty advisors. Related Programs in Environmental Science and Marine Science are coordinated with the Program in Biology, primarily concerning joint enrollment in the Principles of Biology I & II classes. Specific upper level courses from the Marine Science and Environmental Science

Programs may be counted toward the degrees in Biology. Students will need to discuss specific options with their advisors.

Students will have the option to specialize in areas ranging from molecular mechanisms to ecological analysis. A broad range of course materials emphasizing critical thinking will be cultivated by involvement in investigative techniques ranging from laboratory experiments to individual research projects. Students will be encouraged to think beyond the classroom and participate in activities on and off campus.

A departmental Exit Exam is required of all students applying for graduation with a degree from the program. The Exit Exam will be a summary test of the biology core course material specific to the program of study, and it will be administered within a senior level course specific to the program of study. The Exit Exam will be graded on a pass-fail basis, and a passing grade is required for graduation. Biology majors will take the Exit Exam while enrolled in BIOL 4930.

All students must pass both parts of the Regents’ Test and must earn a minimum grade “C” in all courses specified as major/minor requirements.

Programs of Study

Bachelor of Science in Biology

The Bachelor of Science in Biology can be earned by the completion of different courses, all centered on common core courses. The university Core Curriculum is followed by the core courses in biology, and includes required courses in chemistry, mathematics, and physics.

Electives within the department allow for training to focus on specific career objectives. Electives will be selected following consultation with the faculty advisor. For example, the health-science or biomedical option can be used as the foundation for careers as a medical doctor, dentist, veterinarian, or many other related professions.

Majors are reminded to be aware of the non-degree courses offered by the department (see below). These courses will not earn credit toward the degrees within the program. A grade of "C" or better is required in all courses required for the degree.

University Core Curriculum

**Environmental Science Major**

The Department of Natural Sciences and Mathematics offers courses leading to the degree of Bachelor of Science with a major in Environmental Science. In addition, the program also offers courses leading to a minor option in environmental science for science and non-science majors. The objectives of the program are as follows:

- To provide a broad-based curriculum and specialization involving integration of information from different disciplines such as natural and social science and leading to a degree in environmental science.
- To offer courses that satisfy the environmental science curriculum requirements for persons planning to pursue careers in the environmental sciences and related disciplines as well as preparation for advanced study in environmental related disciplines.
- To offer core courses in environmental science for science and non-science majors for completion of a minor option.
- To participate in community outreach activities as professional scientists, educators and representatives of the University.
- To encourage student and faculty from all disciplines to participate in environmental research and to be active in pursuit of the knowledge of sustainable development. Critical thinking, data analysis and interpretation; computer application and instrumentation usage skills are to be developed.

All students must pass both parts of the Regents' Test and must earn a minimum grade of “C” in all courses specified as major/minor requirements.

**Program of Study**

The Bachelor of Science in Environmental Science can be earned by the completion of different courses, all centered on common core courses. The university Core Curriculum is followed by the core courses in environmental science, and includes required courses in biology, chemistry, mathematics, and physics. Electives or course options will be selected following consultation with the faculty advisor.

**Comprehensive Examination**

A departmental Exit Exam is required of all students applying for graduation with a degree from the program. The Exit Exam will be a summary test of core course material specific to the program of study, and will be administered within a senior level course specific to the program of study. The Exit Exam will be graded on a pass-fail basis; a pass is required for graduation.

Environmental science majors will take the Exit Exam while enrolling in ENVS 4910.

### Core Curriculum (Areas A, B, C, D, E and additional requirements) 47 hours

**CORE COURSES (A-F) Total 65 hours**
The Bachelor of Science in Marine Science degree program provides instruction in the University System of Georgia with direct ocean access and marine science facilities. The program offers an interdisciplinary approach to provide students a sound educational background in the various fields as measured by the problem-solving skills, an understanding of basic physical principles, and will enable them to apply these skills to their respective areas of study; and (2) to provide students in mathematics with the theory and applications necessary for use in post-baccalaureate study and/or in their work force, insight into physical and natural laws, and the analytical and logical thinking necessary for the application of these tools in the various fields as measured by the program and standard national level examinations.

**Freshman Mathematics**

Entering freshmen whose scores on the combined verbal and mathematics sections of the Scholastic Aptitude Test (SAT) meet the minimum requirements for enrollment are expected to have adequate background in high school mathematics. The program promotes an extensive interdisciplinary approach to provide students a sound educational background, one that will make the students quite remarkable and thus prepared for gainful employment, or prepared to pursue graduate study. Course offerings include pure mathematics, applied mathematics, and statistics.

The main objectives of the Program in Mathematics and Physical Sciences are (1) to provide a program of study in mathematics, physical sciences, and environmental science which will enable students to achieve computational and problem-solving skills, an understanding of basic physical principles, and will enable them to apply these skills to their respective areas of study; and (2) to provide students in mathematics with the theory and applications necessary for use in post-baccalaureate study and/or in their work force, insight into physical and natural laws.
requirements for regular admission are placed in college algebra, precalculus, or calculus courses.

Applicants for admission whose SAT score do not meet the requirements for the regular admission must take the collegiate Placement Examination (CPE) or COMPASS. Placement test in English, reading and mathematics. On the basis of their achievement on the Mathematics test, these students are assigned to college algebra or to a mathematics course in the Division of Learning Support.

**Required Examinations**
Candidates for the baccalaureate degree in the program of Mathematics and Physical Sciences are required to pass the reading and essay writing components of the Regents' Test Program (RTP).

Seniors Mathematics majors are required to take the departmental assessment examination and pass with an average of 50% to graduate from the program.

**Exemption Examinations**
Students may be exempted with credit hours from college algebra, precalculus, or calculus courses by passing the requisite examinations. Examinations should be taken before the end of the first semester of enrollment at Savannah State University and must be taken in sequential order. The College Level Examination Program (CLEP) tests are administered by the University's Director of Testing.

**Examinations Required for Exemption with Credit**

</tbody>
</table>

**Important Information**
Students who have passed either Calculus I, Calculus II, or Calculus III with a minimum grade of “C” will not receive credit hours for the precalculus course taken subsequently.

All students must pass both parts of the Regents’ Test and must earn a minimum grade of “C” in all courses specified as major/or minor requirements.

Students enrolled in the Program of Mathematics and Physical Sciences who earned less than the grade “C” in any English, mathematics, science, engineering, or major or minor course required in their curriculum must repeat the course during the next semester that the course is offered.

Students whose score on mathematics section of the SAT is less than 475 must take college algebra, the prerequisite course for precalculus.

**Bachelor of Science in Mathematics**
The curriculum in Mathematics is designed for those students who are interested in careers in mathematics or related fields (after graduation) in industry/government or pursuing an advanced degree in mathematics, pure or applied.

**Dual Degree Program**
In cooperation with the Georgia Institute, a dual degree program is offered, whereby undergraduate students can attend Savannah State for approximately three years and then attend the Georgia Institute of Technology for approximately two years. Upon completion of the program, students will receive baccalaureate degrees from both institutions. More details on this program are listed in the engineering technology section of this catalog.

Specified Elective Choices
- 15 hours

Choose one of the following:
- MATH 4111 Abstract Algebra II
- MATH 4211 Analysis II
- MATH 4311 Probability & Statistics II

Choose four of the following:
- MATH 3301 Differential Equations 4 hours
- MATH 3401 Modern Geometry 3 hours
- MATH 3501 Numerical Analysis 3 hours
- MATH 4111 Abstract II 3 hours
- MATH 4211 Analysis II 3 hours
- MATH 4221 Complex Analysis 3 hours
- MATH 4331 Probability & Statistics II 3 hours
- MATH 4401 Number Theory 3 hours
- MATH 4411 Statistical Methods 3 hours
- MATH 4421 Regression Analysis 3 hours
- MATH 4501 Intro. to Topology 3 hours
- MATH 4701 History of Math 3 hours
- MATH 4901 Senior Seminar 1-3 hrs

**Free Electives 12-15 hours**
All majors are encouraged to take mathematics electives to fulfill their remaining 12-15 hours of course of work. To this effect, the program has devised three cognate areas, and students are advised to choose one.

**Analysis Cognate:**
- MATH 3301 Differential Equations 4 hours
- MATH 4211 Analysis II 3 hours
- MATH 4221 Complex Analysis 3 hours

**Statistics Cognate:**
- MATH 4211 Analysis II 3 hours
MATH 4311 Probability & Statistics II 3 hours
MATH 4411 Statistical Methods 3 hours
MATH 4421 Regression Analysis 3 hours

Pure Mathematics and Secondary Education:
MATH 3401 Modern Geometry 3 hours
MATH 4111 Abstract Algebra II 3 hours
MATH 4401 Number Theory 3 hours
MATH 4501 Intro. to Topology 3 hours

Note: Students who plan to attend graduate school should take 6 hours of foreign languages (French or German) as part of their electives.

Note: Students opting for the analysis cognate should take 8 hours of physics (calculus based) in the area B of the core curriculum.

Minor in Mathematics 15-18 hours
MATH 2101 Calculus I 4 hours
MATH 2111 Calculus II 4 hours
MATH 3101 Linear Algebra 3 hours
MATH 3201 Probability & Statistics I 3 hours
Mathematics Electives—Upper Division course 3 hours
(Students who will take MATH 2101 and/or 2111 in major program will take MATH 2111 and/or 2121 and nine to twelve hours of upper division courses to have a minimum of sixteen semester hours)

Minor in Physics 17 Hours
PHYS 3111 Heat & Thermodynamic 3 hours
PHYS 3121 Optics 3 hours
PHYS 3131 Magnetism & Electricity 3 hours
PHYS 3211 Mathematical Physics 3 hours
PHYS 4111 Modern Physics 3 hours
PHYS 4951 Intro. to Research in Physics 2 hours

Master of Science in Marine Sciences
The Master of Science in Marine Sciences degree program provides a curriculum designed to meet the needs of individuals who desire a graduate degree to prepare them for a career to address marine resource and coastal environmental issues through research, education, and outreach. The program takes advantage of its campus location adjacent to a salt marsh and is the only instructional unit in the University System of Georgia with direct ocean access and on-campus marine laboratory facilities. A collaborative agreement with the Skidaway Institute of Oceanography, the National Oceanographic and Atmospheric Administration (NOAA) and on-going collaborative programs and contracts with universities, state agencies and federal agencies also contribute to a framework of quality and excellence. (See Graduate Programs for Details).
Department of Engineering Technology

The Department of Engineering Technology offers courses leading to the degree of Bachelor of Science, with majors in Civil Engineering Technology, Computer Science Technology, Electronics Engineering Technology, and Electronics Engineering Technology (computer option). The civil and electronics engineering technology programs are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology. The Electronics Engineering Technology program is accredited by the National Association of Radio and Telecommunications Engineers, Inc. (NARTE) and the University is a certified NARTE Testing Center.

Engineering technology embraces the physical sciences, mathematics, and the practices and materials of modern industry, which are utilized in the design, and construction of the machines, structures, highways, power sources, process systems, communication systems, and products needed to maintain a highly technological society. The activities of engineering technology are concerned with translating the concepts and theories of professional engineers and scientists into actual devices and products by using tests to provide data for rational solutions and designs. These tests are followed by interpretations of data and preparation of appropriate plans for use by skilled craftsmen who produce the devices and/or products.

The objectives of the engineering technology and computer science technology programs are to prepare their students for successful careers, and this process requires the department to provide opportunities for students to acquire the essential educational experiences for applying their knowledge and methods coupled with skills in support of technical activities.

Registration for Professional Engineer

To protect public safety, each state establishes laws to license engineers involved in projects affecting public health, safety and life. The registration process involves written examination, professional work experience and professional recommendations.

Although it is not the goal of Savannah State University to prepare an individual for professional engineering registration, it is possible for an engineering technology graduate of Savannah State University to become registered in Georgia and some other states. Students considering registration as a professional engineer should contact the Department of Engineering Technology for further information.

Engineering Technology graduates from TAC of ABET accredited programs are qualified for professional licensing by the National Institute for Certification in Engineering Technologies (NICET). Students interested in this certification may contact the department Chair for more information.

Engineering Technical Organizations

Students are encouraged to join appropriate engineering societies to stimulate their interest in professional activities, to promote their pursuit for life-long learning, and to expose them to professional conduct and ethics. The department has, at present, the following student organizations:

- Institute of Electrical and Electronic Engineers (IEEE)
- American Society of Civil Engineers (ASCE)
- National Society of Black Engineers (NBSE)

Cooperative Education Program

The Cooperative Education Program enables engineering technology students to gain work experience in industry as paid employees during their college tenure. The program is coordinated through the Office of Cooperative Education. The program is available to students who have acquired at least 30 semester hours, including at least five courses in the major; who are proficient in a computer language; who have a satisfactory academic record; and who meet the job specifications of the employer.

Students work in industry and attend college during alternate semesters or as arranged. To remain in the program, they must maintain creditable records at both places. Students must register for the appropriate cooperative education course each semester they are employed and must observe all applicable regulations of the cooperating company.

Students pursuing the coop program should expect their matriculation to extend beyond four years. The University does not guarantee the availability of coop stations, duties, or compensation. At the conclusion of the coop experience, students are not obligated to accept employment with the cooperating companies nor are the companies obligated to offer them employment.

Students interested in this program should consult with their advisors.

Baccalaureate Degree Programs

Special Requirements for Majors

Students enrolled in the Department of Engineering Technology who earn less than a “C” in any English, mathematics, sciences or major course required in their curriculum must repeat the course during the next semester that it is offered. Major courses are those courses offered by the Department of Engineering Technology.

Major Comprehensive Examination

To satisfy the institutional requirements for a comprehensive examination, all students in engineering technology are required to take an exit examination administered by the department.

Civil Engineering Technology Major

Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology

The curriculum in civil engineering technology is designed to provide ample instruction in those areas of knowledge required for successful performance in the following capacities as well as in other construction-related positions.

Architectural and structural draftsman and designer - plans, designs, and supervises construction of frame, steel, and concrete structures; makes architectural inspections and appraisals for architects and builders.

Highway engineering technologist - collects and tests soil samples, concrete and other materials to ascertain their physical characteristics for use in highway construction; establishes the location and measurements of points, elevations, lines, areas and contours of land needed for highway construction and prepares hard copy, draft or computer generated drawings of land.

Estimator - determines quantities and costs of materials and labor required to erect structures.
Materials tester - determines mechanical properties of materials used in the erection of structures and highways.

Surveyor - supervises, directs, and is responsible for the accuracy of the work of an engineering survey party engaged in determining the location and measurements of points, elevations, lines, areas, and contours on the earth’s surface for purposes of securing data for building and highway construction, map-making, land valuation, mining, or other purposes.

Environmental technologist - plans, designs, and monitors water, wastewater, and other environmental pollution control systems.

Computer Science Technology Major
The curriculum in computer science technology is designed for those students who are interested in careers in computer science. This program is flexible so that students may orient the major emphasis toward software aspect of computer science or to be the hardware realm of computer science. This program promotes an extensive interdisciplinary approach to provide students a sound educational background, one that will make the students quite marketable and thus be prepared for gainful employment in following areas:

Programming/Software development - consider how software (Java, Visual Basic, C# and Visual Studio) can, will, and should be developed.

Install Software/End user support - computer applications with knowledge of hardware, word processing, spreadsheet, and database programs.

Network setup and administration – Install, tests, maintain the network software (Linux, NT) covering basic hardware configuration, using TCP/IP, configuring routing, network security, involved in operations, policies, procedures, functions, principles and practices of network and telecommunications support services.

Electronics Engineering Technology Major
Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology

The electronics engineering technology curriculum provides instruction in the fundamentals of modern electronics theory, with emphasis on the application of theoretical principles to actual electronic devices, circuits, systems, design and fabrication. Graduates of the electronics engineering technology program are prepared to function effectively in several capabilities, including:

Research and development technologist - engages in the development, building and testing of new equipment in the areas of digital electronics, communication electronics and microelectronics.

Process control technologist - supervises the operation of automatic control equipment for industrial processes.

Field engineering specialist - installs, tests, and maintains equipment such as data processing machines and other electronic systems.

High frequency technologist - maintains and/or operates radar, sonar, and other warning detection and navigation devices.

Program of Study in the Department of Engineering Technology

Note: All programs in Engineering Technology require 128 semester hours (and five additional hours).

**Engineering Degree Programs**

**Georgia Tech Regional Engineering Program (GTREP)**

GTREP offers undergraduate degree programs in Civil, Computer, Electrical and Mechanical Engineering that are similar in content and equal in quality to programs offered on the Atlanta campus of Georgia Tech. During the freshman and sophomore years of the undergraduate program, students are enrolled at Savannah State University offers all of the mathematics and science courses and some of the engineering courses required in the first two years of the Georgia Tech engineering curriculum.

Prior to their junior year, students apply for transfer admission to Georgia Tech and complete their degree program as a Georgia Tech student. Students remain physically located in Savannah, but are taught by local Georgia Tech faculty supplemented by distance learning connections. Students graduating from GTREP receive a Georgia Tech – Regional Engineering Program degree.
Regent’s Engineering Transfer Program (RETP)
Qualified students seeking a bachelor of engineering degree may begin their college studies at Savannah State University through the Regent’s Engineering Transfer Program. Upon successful completion of the pre-engineering curriculum, students may transfer to Georgia Institute of Technology (Atlanta campus) to complete their degree requirements. Specific times each year have been established for students to visit Georgia Tech campus and meet with representatives of their anticipated major. Aerospace, Chemical, Civil, Computer, Electrical, Industrial, Materials, Mechanical, Nuclear and Textile Engineering majors are available to RETP students. Please note the RETP is only open to students who are residents of Georgia.

Dual Degree Program
Savannah State University has entered into an agreement with Georgia Institute of Technology to offer a dual degree program whereby undergraduate students can attend this institution for approximately three academic years and then transfer to an engineering program at Georgia Institute of Technology. After completing the academic requirements of both institutions, students shall be awarded a baccalaureate degree from both institutions. This program is open to majors in chemistry, mathematics, computer science technology, and chemical, civil, electronics, and mechanical engineering technology.

Bachelor’s degrees offered at Georgia Institute of Technology as a part of this program are in aerospace engineering, ceramic engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, engineering science and mechanics, industrial engineering, materials engineering, mechanical engineering, nuclear and radiological engineering, textile chemistry, textile engineering, and textiles.

Program of Study
Students participating in the dual degree program shall complete the following at Savannah State University:

Approximately three-fourths of the number of hours required for the degree at Savannah State University.

All courses required for admission of engineering transfer students to Georgia Tech.

The equivalent mathematics and science courses included in the freshman and sophomore years of the engineering discipline in which the student intends to major at Georgia Tech.

Admissions Requirements
To be admitted to Georgia Tech in the dual degree program, students must:

- Complete the program of study as indicated above and obtain a positive recommendation from the dual degree coordinator.
- Meet the minimum grade point average requirements for admission of transfer students to Georgia Tech (those in effect at the time the student matriculates at Savannah State University).
- Submit application materials for evaluation by the Office of Undergraduate Admissions at Georgia Tech.
- Be citizens or permanent residents of the United States.
**Department of Naval Science (Naval ROTC)**

**General**
The department offers a minor in naval science. The program is designed to prepare the student for a commission in the U.S. Navy or Marine Corps and is required of those NROTC students who will obtain a commission. All course work must be completed with a grade of “C” or better.

**Naval Science Courses Program of Study**

**Additional and Substitute Requirements:**

- NSCI 4050, Naval Drill (0-2-0), is required each academic term of all midshipmen.
- NSCI 1003 AND 4050 satisfy the university physical education requirement.

**Navy Scholarship Midshipmen (additional requirements):**

- One year of calculus (completed before junior year) 6 hours
- One year of calculus – based physics (completed before senior year) 6 hours
- Regional Studies, World Culture and/or World Religion 3 hours
- Military history and political science 6 hours

(Professor of Naval Science will promulgate courses that satisfy the above requirements)

**Non-Scholarship Navy College Program Midshipmen (non-scholarship)**

These students must complete on year of math, college algebra or higher, by the end of the junior year and one year of physical science by the end of the senior year as a prerequisite for commissioning. The physical science requirement can be met by completing a one-year sequence or two courses in any area of physical science. One mathematics course may be selected from the field of computer science or statistics.

**Marine Corps Option**

All Marine Corps option students shall take, during the junior or senior year, one course in military history and one in political science (6 hours total) from a list approved by the Professor of Naval Science.

**NROTC Uniforms, Books and Instructional Materials**

NROTC uniforms, books and special instructional materials will be issued at no charge to naval scholarship and college program students. Uniforms must be returned upon exit from the NROTC program. Books and other instructional material must be returned at the completion of each academic term.

**Scholarships**

Nationally awarded Navy ROTC scholarships are available to qualified students for tuition, fees and laboratory expenses. The scholarships can pay for up to four years of expenses and includes a $350 book stipend per semester. Additionally, the Professor of Naval Science has several Historically Black College and University NROTC Scholarships that may be awarded to qualified high school seniors and graduates.

**Financial Assistance**

All Midshipmen in the NROTC program who qualify for the college program advanced standing or the scholarship program are paid a monthly tax-free stipend. The monthly amount is $250 for freshmen, $300 for sophomores, $350 for juniors, and $400 for seniors.

**Summer Training Cruises**

Scholarship midshipmen will go on summer training cruises during three of their summer inter-term periods. Other midshipmen will attend summer training cruises based on their scholarship programs.

NROTC students must receive NSCI Course credit not MILs course credit for ACE recommended military experience.
Department of Military Science (Army ROTC)

General
The Reserve Officer Training Corps program is designed as a four-year course of study leading to a commission in the United States Army. In addition to a major, students must satisfy requirements in written communications skills, oral communications skills, military history, and computer literacy and complete the appropriate military science courses. Students interested in this program should consult with the professor of military science.

Military Science Courses Basic Course

| MILS 1101 Intro to Military Sci. & Skills Dev. | 2 hours |
| MILS 1102 Basic Military Leadership           | 2 hours |
| MILS 2201 Basic Military Skills               | 2 hours |
| MILS 2202 Basic Military Tactics              | 2 hours |
| MILS 2250 Basic Field Internship Ft. Knox, KY | 5 hours |
| MILS 5000K Basic Leadership Lab               | 0 hours |
| MILS 2001 Evolution of Warfare               | 2 hours |

Basic military science courses involve four (4) semesters during the freshman and sophomore years. Students learn leadership and management and acquire essential background knowledge of customs and traditions, weapons, map reading, tactics and survival. Equally important, these courses have the objective of developing the students’ leadership, self-discipline, integrity and sense of responsibility. Those students who successfully complete the Basic Course, meet the Army physical standards, and demonstrate officer potential, will be considered for contracting and enrolling in the Advanced Course.

Advanced Course

| MILS 3301 Adv. Tactics & Applied Leadership I | 3 hours |
| MILS 3302 Adv. Tactics & Applied Leadership II | 3 hours |
| MILS 3350 Adv. Mil. Skills Prac. Ft. Lewis, WA | 5 hours |
| MILS 4401 Mil. Leadership & Mgt. Seminar       | 3 hours |
| MILS 4402 Transition to Lieutenant             | 3 hours |
| MILS 6000K Advanced Leadership Lab             | 0 hours |

Veterans who have at least two years of active duty service and who have completed 60 semester hours, and junior ROTC cadets who have completed 60 semester hours and 3 years of junior ROTC may receive placement credit and authorization to enroll in the advanced course when approved by the professor of military science (PMS). Also, qualities of positive potential for becoming an officer must be demonstrated. Leadership potential is emphasized as a very important single factor to be considered for enrollment and continuance in the program.

Advanced Military Science

The general objective of this course of instruction is to produce junior officers who, by education, training, attitude and inherent qualities, are suitable for continued development as officers in the Army. There are two avenues available for the student to be eligible for entry into the advanced program and obtain a commission as a second lieutenant:

- Satisfactory completion of, or placement credit for, the basic program basic ROTC and meeting the entrance and retention requirements established by the Army.
- To be an honorably discharged active duty veteran or junior ROTC cadet graduate eligible for placement credit.

Placement

Veterans entering the military science programs will receive appropriate placement credit for their active military service. Students who have completed military science courses in military preparatory schools or junior colleges may be given appropriate credit. Students with at least three years of high school ROTC may also be granted placement credit. Placement credit or four (4) semesters of basic military science, or equivalent thereof, is a prerequisite to admission into the advanced program.

Alternate Programs for Admittance

Students who have two years of course work remaining, but who have not completed basic military science are eligible to be considered for selection into the advanced military science program. Those selected under the provisions of the two-year advanced program must satisfactorily complete a Leaders’ Training Course (LTC) of four weeks duration prior to entering the advance program. Students attending the (LTC) at Fort Knox, Kentucky, are paid active army rates and given a travel allowance from their home to camp and return. Attendance at (LTC) is voluntary and incurs no military obligation until the student returns and decides to sign a contract to pursue a commission.

Leadership Diagnostic and Assessment Course (LDAC)

Students that are contracted and in the advance course are required to attend (LDAC) at Fort Lewis, Washington, normally between their junior and senior academic years. Students attending this course are paid active army rates and given travel allowance from their home to camp and return.

Financial Assistance

All contracted advanced cadets are paid a subsistence allowance of $150.00 per month and $450.00 per year for books while enrolled in the advanced course.

Scholarship Program

Each year the U.S. Army awards two and three-year on-campus scholarships to outstanding young men and women participating in the Army ROTC program who desire careers as commissioned officers in the U.S. Army. The Army pays tuition fees, books, and laboratory expenses incurred by these students. In addition, each student receives $250.00 to $400.00 per month stipend for the academic year. Individuals desiring to compete for these scholarships should apply at the Department of Military Science.

Army ROTC Uniforms, Books and Supplies

Students enrolling in the Army ROTC program will be issued U.S. Army uniforms, books, and supplies by the Department of Military Science. No fees or deposits of any kind will be required. Uniforms must be returned before commissioning or upon non-enrollment from the ROTC program.

MIL Courses

The basic course of four (4) semesters consists of one hour of lecture with one hour of leadership lab per week for freshmen and two hours of lecture and one hour of leadership lab per week for sophomores. In the classroom, students acquire knowledge of military leadership, weapons, tactics, basic military skills, and physical fitness. In field training exercises, potential for leadership is progressively developed.

The advanced course consists of three hours of classroom work and one hour of leadership laboratory per week. During the second semester prior to advanced camp, students enroll in MILS 3302 to prepare for attendance at advanced camp. History 2361 (American Military History) is normally taken the second semester of the senior year. The course work during the advanced course emphasizes techniques of management and leadership and the fundamentals and dynamics of the military team. Field training exercises provide students with applied leadership experiences.
Professional Military Education (PME) Requirements

The Army’s Professional Military Education requirements are established to provide cadets with the training and enrichment necessary to successfully compete in the Army. In addition to completing a baccalaureate degree, the cadet must complete an undergraduate course from each of the five designated fields of study. The five PME designated fields of study are listed below and the courses that meet the cadet command PME requirements.

- Written Communication Skills: ENGL 1101, 1102.
- Human Behavior: SOCI 1101, PSYC 1101, HIST 1101, 1102.
- Math Reasoning: MATH 1101.
- Computer Literacy: CSCI 1135, CLSM 2201.

Minor Concentration

The department offers a minor in military science. The program is designed to prepare students for commission in the United States Army. Whatever the major, a military science minor will strengthen students’ management, leadership, and interpersonal communication skills. The minor requires fifteen credit hours with minimum grades of “B” in the following upper division military science courses: MILS 3301, 3302, 4401, and 4402, HIST 2361, and five additional credit hours of course work approved by the department chair. Students earning a minor in military science must be contracted. This contract will lead to being commissioned in the U.S. Army.

Physical Training

Physical Training (PT) is an important part of the Army ROTC program. Its purpose is to ensure each cadet is physically fit. The Army Physical Fitness Test (APFT) is used to determine the level of fitness by measuring cadets’ endurance and stamina in three different events: push-ups, sit-ups, and a 2-mile run.

Basic course students who are freshmen are required to participate in one PT session per week. This session is part of their regular military science class and is normally held on Monday. Students who are sophomores are required to participate in physical training two times per week, normally on Mondays and Wednesdays.

Advanced course cadets are required to participate in PT as part of their regular military science class. PT is conducted 3 days a week for one hour on Mondays, Wednesdays, and Fridays. Six hours of PE credit are given to those cadets who successfully complete the Army ROTC advanced course (1 credit hour per course).
Description of Courses

College of Business Administration

Accounting

ACCT 2101 Principles of Financial Accounting 3 Credits
A study of the underlying theory and application of financial accounting concepts.
Prerequisite: MATH 1111

ACCT 2102 Principles of Managerial Accounting 3 Credits
A study of the underlying theory and application of managerial accounting concepts.
Prerequisite: ACCT 2101

ACCT 3111 Intermediate Financial Accounting I 3 Credits
An introduction to accounting theory underlying financial statements. There is an emphasis on the study of accounting principles and ethics relating to the recording and presentation of cash, receivables, and the investment in productive resources such as inventories, property, plant and equipment. Computer aided instruction will be utilized wherever applicable.
Prerequisite: ACCT 2102

ACCT 3112 Intermediate Financial Accounting II 3 Credits
A course that is a continuation of ACCT 3111. The topics covered include liabilities, contingencies, stockholders' equity, dilutive securities, earnings per share, investments, revenue recognition, income taxes, pensions, post-retirement benefits, leases, accounting changes, error correction, cash flows, financial statement analysis, and full disclosure. Computer assisted instruction will be utilized wherever applicable.
Prerequisite: ACCT 2102

ACCT 3113 Federal Income Taxation of Individuals 3 Credits
An analysis of the federal income tax law and its application to individuals. The course includes extensive practical problems, including the preparation of returns. Computer assisted instruction will be utilized.
Prerequisite: ACCT 2102

ACCT 3114 Federal Income Taxation of Corporations and Partnerships 3 Credits
A continuation of the study of the Internal Revenue Code begun in Federal Income Taxation of Individuals and a survey of the income tax treatment of corporations and shareholder, partnerships and partners, S corporations, and other taxable entities. The course includes a limited coverage of tax research techniques.
Prerequisite: ACCT 3113

ACCT 3115 Cost/Managerial Accounting 3 Credits
A course that furthers the knowledge gained in the fundamental managerial accounting course. This course emphasizes the use of basic cost accounting theory and concepts for cost accumulation and usage under job order, process, and activity-based costing systems, as well as budgeting and standard costing in a manufacturing environment. It also covers control and analysis of materials, labor and manufacturing overheads, and well as cost control and accumulation in a service environment.
Prerequisite: ACCT 2102

ACCT 3117 Accounting Information Systems 3 Credits
The course introduces systems concepts and the role of the accountant in the Systems Development Life Cycle (SDLC). It covers areas such as documentation of systems, database management tools and strategies, and aspects of information systems controls. The impact of emerging technologies on accounting is also addressed. Additionally, specific accounting systems (Purchasing, Production, etc), with relevant systems applications in current use are also covered.
Prerequisite: ACCT 3111

ACCT 4111 Intermediate Financial Accounting III 3 Credits
Prerequisite: ACCT 3112

ACCT 4116 Accounting for Not-For-Profit Institutions 3 Credits
A course focusing on the basic concepts and techniques of fund accounting, including budgeting and management accounting problems for governmental, educational, religious, and charitable organizations.
Prerequisite: ACCT 2102

ACCT 4117 Auditing 3 Credits
A comprehensive study of the philosophy, concepts, and techniques used by independent auditors. Topical coverage includes professional ethics, standards, audit programs, study and evaluation of internal control, auditors' opinions, statistical sampling techniques, and EDP auditing.
Prerequisite: ACCT 2102

ACCT 4118 Strategic Cost Management 3 Credits
This course uses the case approach to emphasize transition of costing systems from traditional systems to the development of Activity Based Costing systems and the use of ABC tools in management (Activity Based Management). Additionally, case studies in such areas as transfer pricing, target costing, management compensation and incentives, and the Balanced Scorecard are included. The relevance of technology in these areas is highlighted.
Prerequisite: ACCT 3115

BUSA Administration

BUSA 1101 Leadership and Professional Development I 1 Credit
This seminar is required of all undergraduate business students and should typically be taken during the freshman year. This first course serves as a prerequisite for the following course in the series. The courses are designed to help students identify, appreciate and capitalize on natural strengths that will enable them to communicate, learn, and think more effectively. Students will be able to make critical decisions more efficiently and set realistic goals for success in college and the world of work.
BUSA 2101 Leadership & Professional Development II 1 Credit
This second course in the series continues with the purpose of helping students identify, appreciate and capitalize on natural strengths that will enable them to communicate, learn, and think more effectively. Students will be able to make critical decisions more efficiently and set realistic goals for success in college and in the world of work.
Prerequisite: BUSA 1101

BUSA 2105 Communicating in the Business Environment 3 Credits
An emphasis on both interpersonal, and organizational communication through written and oral exercises appropriate to business practice.
Prerequisites: ENGL 1101, 1102, and CISM 1130 or CSCI 1130

BUSA 2106 The Environment of Business 3 Credits
An introduction to the legal, regulatory, political, social, ethical, cultural, environmental, and technological issues which form the context for business and an overview of the impact of demographic diversity on organizations.

BUSA 2182 Introduction to Business Statistics 3 Credits
An introduction to the methods of scientific inquiry and statistical inference. Subjects covered are sampling, parameter estimating, hypothesis testing, determination of the nature and strength of relationships among variables, decision theory, time series analysis, and non-parametric methods. The course develops proficiency in the use of statistical software. Spreadsheets and statistical packages are used extensively.
Prerequisite: MATH 1113

BUSA 4101 (formerly BUSA 3101) Leadership and Professional Development III 1 Credit
This final course in the series continues with the purpose of helping students identify, appreciate and capitalize on natural strengths that will enable them to communicate, learn, and think more effectively. Students will be able to make critical decisions more efficiently and set realistic goals for success in college and in the world of work. In addition, student learning throughout the business curriculum is assessed.
Prerequisites: All of Area F (ACCT 2101 & 2102, BUSA 2105 & 2106, ECON 2105 & 2106); Area G: MATH 1113 & BUSA 2102, FINC 3155, MGMT 3165, and MKTG 3175. All other Area G courses can be taken with BUSA 4101 if student's final semester. If not final semester, all other Area G courses must be complete.

BUSA 4126 Business Policy 3 Credits
A capstone course in the College of Business Administration required of all seniors. The course integrates subject matter from the business core courses and other disciplines. This course focuses on integrated approaches to medium and long-term organizational challenges in a dynamic environment. Students develop managerial skills and learn to appreciate the role of all managers in the formulation and implementation of organizational strategies.
Prerequisites: All Area F courses, MATH 1113, BUSA 2182, FINC 3155, MGMT 3165 and MKTG 3175 (All other Area G courses can be taken with BUSA 4126 if it's your final semester.)

BUSA 4229 Administrative Practice & Internship 3 Credits
This course provides experiential learning in an employment setting, which is appropriate to the business student's academic program and career objectives. A minimum of 100 hours of relevant and practical work experience are required in a public or private organization, which has entered into a formal internship agreement with the College of Business Administration. The student intern will perform duties and services as assigned by the organization's supervisor and the COBA internship coordinator. In addition, the student intern may be required to attend seminars dealing with human relations, business etiquette, and professional and ethical responsibilities appropriate to the intern's major. Business students will be awarded 3 semester credit hours for successful completion of the internship. (A student cannot receive credit for both BUSA 4229 and CISM 4900). (Grading: Pass/Fail)
Prerequisite: MGMT 3165, at least a 2.75 CUM and 3.0 GPA in major, the completion of seventy-five (75) semester hours, and approval of the Office of the Dean of COBA

BUSA 4999 Study Abroad 3 Credits
The SSU study abroad program takes place during the summer semester for a period of about four (4) weeks. Participants take courses in the history and culture of partnering countries (currently Brazil, the Caribbean, China, Ghana, and India) as well as in other areas of the academic curriculum. A typical course load consists of six (6) credit hours or two courses. COBA students will enhance their knowledge of other cultures through a three-hour history/culture courses, and will take the remaining three hours in a study abroad course in one of the business disciplines: accounting, management, marketing, or computer information systems. Through the study abroad program students can develop an in-depth appreciation of what it means to live and work in other cultures.
Prerequisite: Permission of Dean

Computer Information Systems

CISM 1130 Computer & Its Applications (same course as CSCI 1130) 3 Credits
An introductory course specially designed to help students become computer literate. The course covers the history of computers, hardware, software, and use of the state-of-the-art technology. Another unique feature of this course is that student use Internet, MS OFFICE applications using word processing, spread sheets, and HTML language to create homepages.

CISM 2130 Business Information Systems 3 Credits
This course will introduce the business student to the management information system theory, the hardware and software systems available for meeting the information systems requirements, and the use of application software (spreadsheets and databases) to solve information problems and meet requirements. The emphasis is primarily on using a microcomputer through practical, hands-on operation thereby providing experience in the use of computers in higher-level college courses and a business environment.
Prerequisite: CISM 1130 or CSCI 1130

CISM 3137 System Analysis & Design 3 Credits
A capstone course specially designed to help students become computer literate. The course covers the history of computers, hardware, software, and use of the state-of-the-art technology. Another unique feature of this course is that student use Internet, MS OFFICE applications using word processing, spread sheets, and HTML language to create homepages.

CISM 2140 Introduction to Programming: Visual Basic 3 Credits
Topics include the visual programming environment, event-driven programming, file processing, database processing, error handling, objects and class libraries.
Prerequisite: CISM 1130 or CSCI 1130

CISM 3232 Web Application Development (formerly CISM 4232) 3 Credits
This course is an introduction to developing Web application. As such, this course is designed to provide basic concepts (e.g., client-server computing)
Description of Courses

and technologies. This course also introduces students to the languages and
Web developing software used to create web pages.
Prerequisite: CISM 1130 or CSCI 1130

CISM 3325 Data Communication & Computer Networks 3
Credits
This course provides an introduction to the principles and techniques of
data communications and computer networks. The course covers the topics
of transmission media and modes, communication protocols, and network
architecture. It will also cover the day to day administrative tasks necessary
to maintain a business computer network.
Prerequisite: CISM 1130 or CSCI 1130

CISM 4137 Database Design & Implementation 3 Credits
An introduction to the concept of database processing. The topics covered
in this course are the components of database systems (DBMS), the
entity/relationship diagrams, semantic object models as well as
normalization and the relational model.
Prerequisite: CISM 1130 or CSCI 1130

CISM 4138 Contemporary Topics in CIS 3 Credits
A course that examines current issues in CIS. Topics may include visual
programming, RAD techniques, building Internet applications, and
advanced networking techniques.
Prerequisites: CISM 1130 or CSCI 1130 and permission of instructor

CISM 4157 Advanced Web Application Development 3 Credits
This course is designed to provide concepts and technologies of multi-tier
Web-based applications development. Since multi-tier Web environment,
especially three-tier in this course, consists of the client-tier, server-tier,
including application server and Web server, and database-tier, this course
will provide students with knowledge and skills that are required to design
and develop advanced Web applications at each tier using Microsoft SQL
Server, ASP.NET, and ADO.NET.
Prerequisites: CISM 2140, 3232, 4137

CISM 4200 Project Management 3 Credits
This course is designed to help students learn technologies and
methodology to initiate, plan, monitor and execute projects. Students will
learn and exercise to develop a comprehensive project plan, including tasks
with time, cost, and quality measures throughout the course.

CISM 4900 Occupational Internship 3 Credits
This course is expected to serve as a supplemental source of learning and
also to enhance the student's academic program and career objectives. A
minimum of 100 hours of relevant and practical experience are required in
a public or private organization, which has entered into a formal internship
agreement with the College of Business Administration. The student will
perform duties and services as assigned by the work supervisor and
internship coordinator. Reports and assignments are required to be
completed by the students. General tasks include PC maintenance,
software/hardware installation and upgrades, Web Page
creation/maintenance, and Database creation and maintenance. CIS majors
will be awarded 3 semester credit hours for successful completion of the
internship. A grade of "C" or better is required. (A student cannot receive
credit for both BUSA 4229 and CISM 4900).
Prerequisite: CISM 1130 or CSCI 1130 and 2.75 Cum and 3.0 GPA in
major; and permission of instructor

Economics

ECON 2105 Principles of Macro-Economics 3 Credits
An introduction to concepts that enable students to understand and analyze
economics aggregates and evaluate economic policies. For non-business
majors, this course is now an option in AREA E (recommended option for
those seeking the business minor).
Prerequisite: MATH 1111 or equivalent

ECON 2106 Principles of Micro-Economics 3 Credits
An introduction to concepts that enable students to understand and analyze
the structure and performance of the market economy.
Prerequisite: MATH 1111 or equivalent

ECON 3145 Global Business Issues 3 Credits
A survey of environmental factors, such as culture, economics, law, and
politics, affecting international business decision-making. The impact of the
globalization of markets and competition as well as the increasing role of
multinational corporations is emphasized.
Prerequisites: ECON 2105 and ECON 2106

Finance

FINC 3000 Personal Finance 3 Credits
A course designed to acquaint non-business students with the tools and
constructs necessary for economic survival. This course focuses on
consumer credit, savings and investment, insurance, home ownership, and
estate planning.
Prerequisites: MATH 1111 and CISM 1130

FINC 3155 Business Finance 3 Credits
Financial management of non-financial corporations and the role of interest
dates and capital markets in the economy. Topics will include the structure
and analysis of financial statements, time value of money calculations
(using financial calculators), stock and bond valuation, financial
forecasting, valuation of income-producing physical assets, determination
of the cost of capital, the profitability of proposed investments in fixed
assets, risk-return tradeoffs that must be considered in using financial
leverage, and methods used in obtaining funds from the various capital
markets. This course is taught mainly through lectures and class discussions
of textual materials and problems.
Prerequisites: ECON 2105, ECON 2106, ACCT 2101, ACCT 2102 and
BUSA 2182

Management

MGNT 3165 Management of Organizations (formerly
“Organizational Behavior and Theory”) 3 Credits
The study of fundamental management principles and their applications in
managing organizations. Topics will include planning, organizing, leading,
and controlling, as well as management ethics and basic financial
management techniques.
Prerequisite: "42 hours rule" for business majors: (See Academic
Regulation #1 above) junior standing (60 semester hours) for others

MGNT 3185 Operations Management (formerly QUAN 3185) 3
Credits
This course focuses on the issues and techniques relevant to the
management of the operations function within an organization,
emphasizing its strategic significance. Operations Management is an
introductory level course designed to expose students to the dynamic
forces, which are responsible for shaping the business environment. The
subject matter represents a blend of concepts from industrial engineering,
cost accounting, general management, quantitative methods, and statistics. Students will learn about operations activities such as forecasting, scheduling, product and design service, capacity planning and project management to name a few. As with many core courses in business, the foundation of this course relies on teaching students sound decision-making principles. The basic quantitative techniques presented are essential to developing and nurturing students' decision-making skills. Prerequisites: ACCT 2102, MATH 2181 (formerly QUAN 2181), BUSA 2182 (formerly QUAN 2182), and MGNT 3165

MGNT 3190 Supply Chain Management 3 Credits
This course introduces students to key concepts in supply chain management and develops and understanding of the strategic importance of strategic sourcing in improving a firm's competitive position. Challenges in managing the relationships among businesses involved in the process of buying and selling products and services are explored. Prerequisite: MGNT 3185

MGNT 3195 Service & Non Profit Management 3 Credits
Service sector performance and methods designed to improve service sector competitiveness. The operations management decisions in service businesses in relation to productivity, quality, workforce management, location, capacity, the effect of new technologies, and international issues. Also exploration of management issues facing nonprofit organizations from start-up ventures to the evolving missions of established nonprofits. Specific attention is given to board roles, resource development, and fundraising, as well as to the history and legal basis of the nonprofit sector. Prerequisite: MGNT 3165

MGNT 3196 Small Business Management & Ownership 3 Credits
Management of newly created or newly acquired small businesses. Beginning with traits commonly found in successful entrepreneurs, students cover the various topics necessary to develop and run a profitable business. The topics include business entity forms, marketing for small/fledgling businesses, advertising, elements of business plan, risk management, and staffing decisions. Prerequisite: MGNT 3165

MGNT 3300 Organizational Behavior & Theory (formerly MGNT 4500) 3 Credits
This course is designed to provide the management major with in-depth knowledge of the key issues in organizational behavior and theory facing managers today. Topics include organizational behavior of individuals and groups, and modern organizational design concepts. Experiential learning tools and videos will be utilized as well as the traditional methods of teaching via lecture and case analysis. Prerequisite: MGNT 3165

MGNT 4165 Human Resource Management 3 Credits
A course focusing on the principles, practices, and scientific techniques and methods involved in the development and operation of an effective personnel and industrial relations program. The topics covered include the methods and procedures used by business management in recruiting, selecting, and maintaining an efficient work force. Prerequisite: MGNT 3165

MGNT 4166 Labor-Management Relations 3 Credits
The development of organized labor, the theory and practice of collective bargaining, and the legal and economic aspects of employer-employee relations. Prerequisite: MGNT 3165

MGNT 4167 Training & Development for Human Resources 3 Credits
A focus on developing a philosophy of teaching and the development of skills for delivery of instructional systems, analysis, design, development, delivery, and evaluation of instruction. Curriculum development, learning theories, instructional strategies, and professional development for professional trainers are emphasized. Prerequisite: MGNT 3165

MGNT 4168 International Business Management 3 Credits
A course divided into three major parts. Part one covers the various dimensions of the international business field, including brief coverage of the major theories of international trade and investment. Part two deals with the environment in which international business operates, the financial variables, including balance of payment, exchange rates, and capital markets, along with the cultural, legal, political, and economic institutions with which international business firms may come in contact. Part three concentrates on the operation aspects of international business; the firm-specific variables including marketing, finance, management, accounting; and attempts to integrate the environmental with the firm-specific variables into a meaningful, conceptual framework. Prerequisite: MGNT 3165

MGNT 4169 Quality Management 3 Credits
An introduction to the topic of quality in the management of modern organizations. Approaches of the major contributors such as Deming, Juran, and others are examined. This course provides business students with a set of skills for achieving and maintaining quality and process or service control. The course emphasizes the strategic importance of quality, statistical process control methods, problem-solving tools, and the management of quality. Prerequisite: MGNT 3165

MGNT 4199 Small Business Entrepreneurial Strategy 3 Credits
A course that uses a case study approach. This course is designed to allow students to perform in-depth case analysis of small/entrepreneurial businesses. The course culminates with students developing a comprehensive strategic plan for an entrepreneurial venture. Prerequisite: MGNT 3165

MGNT 4200 Management of Diversity (formerly MGNT 3500) 3 Credits
This course is designed to introduce the student to the complexities of managing workforce diversity. Topics include resistance to diversity, discrimination and fairness, diversity and organizational effectiveness, cultural diversity and multiculturalism, diversity in decision-making teams, and diversity training. Prerequisite: MGNT 4165

MGNT 4800 Contemporary Topics in Management 3 Credits
An elective for management majors, this course will address management topics of special interest. The topics may include, but are not limited to, crisis management, organizational communications and data management, compensation management, business ethics, organizational change, leadership, managing non-profits, management of risk, or case studies in management. Prerequisite: MGNT 3300
Marketing

MKTG 3175 Principles of Marketing 3 Credits
A comprehensive overview of the marketing process for goods, services and ideas. The course is taught from a marketing management and decision-making perspective. Topics such as the organization’s environment, marketing research, and buyer behavior are discussed as the context in which marketing plans and strategy are formulated. In addition, the marketing decision elements, product, distribution, promotion, and price are examined. Finally, topics such as international marketing, service marketing, and nonprofit marketing are explored.
Prerequisite: ECON 2106

MKTG 3176 Professional Selling 3 Credits
Course designed to introduce the basic principles and techniques of professional selling. Students build strategies for effective selling and practice approaches to presenting products, handling objections, and closing sales. The economic and psychological motives of the buyer are examined in both industrial and consumer goods and services markets. Some special topics such as telemarketing and sales technologies are also introduced.
Prerequisite: MKTG 3175

MKTG 3177 Retail Management 3 Credits
A course that deals with broad aspects of contemporary retailing. It covers the principles of retail store management, including strategic planning, location decisions, merchandise planning, budgeting decisions, inventory, pricing, advertising, and selling strategies. Legal and ethical constraints are also examined.
Prerequisites: ACCT 2102 and MKTG 3175

MKTG 3178 Buyer Behavior 3 Credits
An examination of the basic concepts and research results from marketing and the social sciences with the goal of enabling marketers to better understand customers and meet their needs. The decision process of buyers, factors affecting purchasing decisions, and customer satisfaction are major conceptual areas of the course. Implications for marketing strategies (e.g., market segmentation and product design and promotion) are discussed.
Prerequisite: MKTG 3175

MKTG 3179 E-Marketing 3 Credits
This course focuses on the role of marketing in electronic commerce. The technologies of electronic commerce, web-based marketing strategies, and the use of the Internet to improve management and marketing operations are discussed.
Prerequisites: MKTG 3175 and CISM 2130

MKTG 4116 Marketing Research 3 Credits
A course that examines the scientific method as applied to marketing research problems. The use of primary and secondary information for management decision-making is examined. Survey design, questionnaire construction, sampling processes, and data analysis are studied in depth. The course requires the extensive use of the computer for word processing and statistical analysis (SPSS & LISREL).
Prerequisites: BUSA 2182 and MKTG 3175

MKTG 4175 Advertising & Promotion 3 Credits
A course that examines advertising as a business and as a multidisciplinary subject that draws from both the arts and sciences. The first half of the course takes an analytical perspective, focusing on the history of advertising, as well as the social, legal, ethical, and economic issues. The second half of the course assumes a managerial perspective as students learn about the advertising process and create an advertising campaign.
Prerequisite: MKTG 3175

MKTG 4176 Contemporary Topics in Marketing 3 Credits
An elective for marketing majors. The course contains a variety of topics that are offered annually on a rotating basis. These topics may include, but are not limited to, buyer behavior, database marketing, channels of distribution, transportation and logistics, or case studies in marketing.
Prerequisite: MKTG 3175

MKTG 4179 International Marketing & Export Management 3 Credits
A course that focuses on the marketing mix issues that are faced by large and small multinational organizations. Marketing decisions related to product line, branding, communications, distribution, and pricing are addressed.
Prerequisites: MGNT 3165 and MKTG 3175

MKTG 4185 Strategic Marketing 3 Credits
This course is designed as the capstone course in the marketing curriculum. Students will integrate materials learned in previous marketing course and apply marketing principles to solve actual business problems. The emphasis will be on planning, operation, and control of marketing activities. Case studies and simulation games where students market one or more products are used to present “real life” situations. The emphasis will be on the analysis of marketing information and on the skills involved when making marketing decisions. Students will be required to prepare a marketing plan for a local business or nonprofit organization.
Prerequisites: MKTG 3175 and nine (9) hours of additional marketing courses
College of Liberal Arts and Social Sciences

Africana Studies

AFRS 1501 Survey of the African American Experience
A survey and understanding of the cultural, economic, political, psychological and social development of African Americans and an analysis of their contemporary status.

AFRS 2000 Introduction to Africana Studies 3 Credits
This course is a broad based survey course designed to give the student and understanding of the general history of the development of the discipline and to define its scope. The conceptual parameters of study will be established and distinguished from other fields of academic inquiry.

AFRS 3000 Africana Political Ideology & Philosophy 3 Credits
This course is designed to study the relevant ideas that have served as the intellectual and philosophical foundations of mass movements throughout Africa and the diaspora. Classical Pan Africanism, Negritude, the ideology of selected Black Millenarian Movements, Black Nationalism, Black Cultural Nationalism, Ujamaa Socialism, Kawaida Nationalism, Black Marxism, and contemporary Pan African and Afrocentric thought will be considered.

AFRS 3102 The African & African American Family 3 Credits
This is an upper division course, which focuses upon the unique development of the African and African-American family within the traditional and modern context both within continental Africa and the Americas. Relevant topics concerning the African American family will be studied. Particular attention will be given to the survival role the family has served for African peoples.
Prerequisite: AFRS 2000

AFRS 3111 The Africana Woman 3 Credits
This course specifically addresses the role of African women in the development of modern and post modern society in Africa and the diaspora. The unique continuing contribution of Africana women in the ongoing transformation of social relations is the central theme and topical focus of this course. The course will examine various political tendencies within the African women’s movement. It will also explore the underlying social causes of male chauvinism, gender violence, and gender role transformation within the context of race and class oppression.
Prerequisites: AFRS 2000 or AFRS 1501

AFRS/POLS 3141 African Government & Politics 3 Credits
An introductory survey of political patterns, political processes, and political ideologies in Africa; an examination of the legacy of colonialism and the processes of modernization, and development: problems of political instability.

AFRS 3211 Religion & African Thought Systems 3 Credits
An extensive examination of the various cosmologies, basic ethical systems, and spirituality of selected traditional African societies and the extent of their impact and influence on the development of the African American religious tradition.

AFRS 3212 African-American Oral Literature 3 Credits
Studies African-American folklore, preaching and speaking, and the lyrics of spirituals, blues, and rap in relation to African roots, historical conditions, and literary practice.
Prerequisite: ENGL 1102

AFRS 3218 (Also ENGL 3218) African Literature 3 Credits
A survey of African-American poetry from the nineteenth century through the Harlem Renaissance to contemporary poetry, examining its relationships to the oral tradition and to literary, social, and political influences. Includes such writers as Claude McKay, Langston Hughes, Gwendolyn Brooks, Nikki Giovanni, Sonia Sanchez, and Rita Dove.
Prerequisite: ENGL 1102

AFRS 3219 (Also ENGL 3219) African-American Fiction 3 Credits
A survey of the development of African American theater from minstrels to modern theater workshops and the plays of such writers as Langston Hughes, Lorraine Hansberry, Amira Baraka, Ntozake Shange, and August Wilson.

AFRS 4211 (Also ENGL 4211) African American Drama 3 Credits
A survey of the cultural patterns and institutions foundations and structure of selected African societies that presents and examines both traditional and contemporary aspects of the African culture as well as examining the impact of culture on the various areas of societal, institutional, and national development will be discussed as well.

AFRS 4217 (Also ENGL 4217) African American Fiction 3 Credits
A critical survey focusing on leading themes and techniques in the short stories and novels of such authors as Charles Chestnut, Zora Neale Hurston, Richard Wright, Ralph Ellison, James Baldwin, Toni Morrison, Ishmeal Reed, Alice Walker and Gloria Naylor.

AFRS 4218 (Also ENGL 4218) African-American Nonfiction 3 Credits
A survey of African-American nonfiction from the early slave narratives to the present, including W.E.B. DuBois, Alex Haley, Alice Walker, and others.
Prerequisite: ENGL 1102

AFRS 4501 African Americans, Africa, & Pan-Africanism 3 Credits
An interdisciplinary examination of the concept of Pan Africanism as a realistic, authentic, effective and multidimensional mechanism by which people of African descent in the United States have related historically and culturally to the African dimension of their identity. The course employs methods germane to the disciplines of History, Sociology, Political Science and Anthropology.
Prerequisite: AFRS 1501

AFRS 3213 (Also ENGL 3213) African Literature 3 Credits
An introduction to the “orature” and literatures (anglophone and, in translation, vernacular, francophone, Swahili, and Arabic) of sub-Saharan Africa. Includes such writers as Achebe, Soyinka, Okri, Ngugi, Senghor, Beti, Oyono, Fagunwa, and Salih.
Prerequisite: ENGL 1102

AFRS 3216 (Also ENGL 3216) African-American Poetry 3 Credits
A survey of African-American poetry from the nineteenth century through the Harlem Renaissance to contemporary poetry, examining its relationships to the oral tradition and to literary, social, and political influences. Includes such writers as Claude McKay, Langston Hughes, Gwendolyn Brooks, Nikki Giovanni, Sonia Sanchez, and Rita Dove.
Prerequisite: ENGL 1102

AFRS 3218 (Also ENGL 3218) African-Caribbean Literature 3 Credits

AFRS 3501 Survey of African Cultures & Societies 3 Credits
A survey of the cultural patterns and institutions foundations and structure of selected African societies that presents and examines both traditional and contemporary aspects of the African culture as well as examining the impact of culture on the various areas of societal, institutional, and national development will be discussed as well.

AFRS 4211 (Also ENGL 4211) African American Drama 3 Credits
A study of the development of African American theater from minstrels to modern theater workshops and the plays of such writers as Langston Hughes, Lorraine Hansberry, Amira Baraka, Ntozake Shange, and August Wilson.

AFRS 4217 (Also ENGL 4217) African American Fiction 3 Credits
A critical survey focusing on leading themes and techniques in the short stories and novels of such authors as Charles Chestnut, Zora Neale Hurston, Richard Wright, Ralph Ellison, James Baldwin, Toni Morrison, Ishmeal Reed, Alice Walker and Gloria Naylor.

AFRS 4218 (Also ENGL 4218) African-American Nonfiction 3 Credits
A survey of African-American nonfiction from the early slave narratives to the present, including W.E.B. DuBois, Alex Haley, Alice Walker, and others.
Prerequisite: ENGL 1102

AFRS 4501 African Americans, Africa, & Pan-Africanism 3 Credits
An interdisciplinary examination of the concept of Pan Africanism as a realistic, authentic, effective and multidimensional mechanism by which people of African descent in the United States have related historically and culturally to the African dimension of their identity. The course employs methods germane to the disciplines of History, Sociology, Political Science and Anthropology.
Prerequisite: AFRS 1501

AFRS 3213 (Also ENGL 3213) African Literature 3 Credits
An introduction to the “orature” and literatures (anglophone and, in translation, vernacular, francophone, Swahili, and Arabic) of sub-Saharan Africa. Includes such writers as Achebe, Soyinka, Okri, Ngugi, Senghor, Beti, Oyono, Fagunwa, and Salih.
Prerequisite: ENGL 1102

AFRS 3216 (Also ENGL 3216) African-American Poetry 3 Credits
A survey of African-American poetry from the nineteenth century through the Harlem Renaissance to contemporary poetry, examining its relationships to the oral tradition and to literary, social, and political influences. Includes such writers as Claude McKay, Langston Hughes, Gwendolyn Brooks, Nikki Giovanni, Sonia Sanchez, and Rita Dove.
Prerequisite: ENGL 1102

AFRS 3218 (Also ENGL 3218) African-Caribbean Literature 3 Credits

AFRS 3501 Survey of African Cultures & Societies 3 Credits
A survey of the cultural patterns and institutions foundations and structure of selected African societies that presents and examines both traditional and contemporary aspects of the African culture as well as examining the impact of culture on the various areas of societal, institutional, and national development will be discussed as well.

AFRS 4211 (Also ENGL 4211) African American Drama 3 Credits
A study of the development of African American theater from minstrels to modern theater workshops and the plays of such writers as Langston Hughes, Lorraine Hansberry, Amira Baraka, Ntozake Shange, and August Wilson.

AFRS 4217 (Also ENGL 4217) African American Fiction 3 Credits
A critical survey focusing on leading themes and techniques in the short stories and novels of such authors as Charles Chestnut, Zora Neale Hurston, Richard Wright, Ralph Ellison, James Baldwin, Toni Morrison, Ishmeal Reed, Alice Walker and Gloria Naylor.

AFRS 4218 (Also ENGL 4218) African-American Nonfiction 3 Credits
A survey of African-American nonfiction from the early slave narratives to the present, including W.E.B. DuBois, Alex Haley, Alice Walker, and others.
Prerequisite: ENGL 1102

AFRS 4501 African Americans, Africa, & Pan-Africanism 3 Credits
An interdisciplinary examination of the concept of Pan Africanism as a realistic, authentic, effective and multidimensional mechanism by which people of African descent in the United States have related historically and culturally to the African dimension of their identity. The course employs methods germane to the disciplines of History, Sociology, Political Science and Anthropology.

</tbody>
</table>
**BEHV 3101 Descriptive Analysis 3 Credits**
An examination of the processes of gathering, reporting, interpreting and making use of research data from non-experimental studies, ethnography study, phenomenological studies and field studies, etc., as well as the process of checking the trustworthiness of data by triangulation. The emphasis in the course is on non experimental qualitative methods appropriate to Behavior Analysis and psychology.

**BEHV 3102 Experimental Analysis 3 Credits**
The course is designed to provide the student with insight into the ways that psychologists go about answering questions about behavior and skills in conducting scientific research. The course will provide opportunities for hands-on experience related directly to the theories and ideas of psychologists explored theoretically in General Psychology and the History of Psychology. Special emphasis is placed on direct student oriented experience with the research methodologies and statistical applications used to support or refute the findings of researchers.

**BEHV 3103 Behavior Principles I 3 Credits**
This course surveys the principle of Skinnerian psychological research. The course will explore the scientific study of behavior modification in physiology, motivation, personality development, psychopathology, psychotherapy and social change.

**BEHV 3104 Behavior Principles II 3 Credits**
This course explores principles underlying behavior change in all fields; experimental underpinnings of science of behavior; focus on the relations among events that account for the acquisition and maintenance of individual behavior.

**BEHV 3105 Learning and Motivation 3 Credits**
The primary focus of the course is on basic processes in learning and motivation. Emphases will be on theoretical and experimental analyses of behavior, the practical applications of the theoretical perspectives, and behavioral psychology.

**BEHV 3106 Neuroscience 3 Credits**
This course will treat the mind as a) a function of the nervous system and b) a product of evolution. The first half of the course will introduce the basics of neuroscience. The second half of the course will examine the neural basis and evolutionary background of cognition, learning, and memory. Lastly, we will discuss the biological basis of society and language.

**BEHV 3117 Counseling & Behavior Change 3 Credits**
This course is designed as a survey of contemporary theories and techniques of counseling.

**BEHV 3118 Counseling & Minority Behavior 3 Credits**
The course is designed to identify and explore issues, strategies and successes with minority clientele. Special emphasis will be placed on behavior change strategies and techniques for working with dysfunctional patterns moving toward effective change in the work, family and community settings.

**BEHV 4000 Selected Topics in Behavior Analysis 3 Credits**
An in depth study of current topics, which are selected, developed and taught by a member of the faculty.

**BEHV 4111 Health Behavior 3 Credits**
This course involves an examination of theories, issues and research findings regarding health psychology, the healthy personality and healthy mental functioning.

**BEHV 4112/AFRS 4311 Behavior of the African American 3 Credits**
An overview of contemporary topics in the area of Black Psychology, including the emergence of contemporary Black psychology, the Black family, self concept and motivation, theoretical background and others.

**Prerequisite: PSYC 1101 or consent of the instructor**

**BEHV 4212 Internship 3 Credits**
An individual designed project involving off-campus study, research, and where applicable, work in a public or private agency; supervised by the sponsoring agency and faculty advisor.

**BEHV 4213 Research Seminar 4 Credits**
The study and application of qualitative and quantitative research methods used in the social sciences for measurement, analysis and inferences of data. Emphasis on computer applications for analysis of and presentation of research data. Students will have opportunities to conduct action-oriented research projects and to prepare written reports in appropriate formats.

---

**Criminal Justice**

**CRJU 1101 Introduction to Criminal Justice 3 Credits**
A study of the history, theory, and structure of the criminal justice system; introduction to substantive and procedural criminal law, police, courts, corrections, and juvenile justice.

**CRJU 2102 Police & Society 3 Credits**
A study of the role of the police in American society and an overview of police organization and administration.

**Prerequisite: CRJU 1101**

**CRJU 3121 American Corrections: Practice & Policy 3 Credits**
A study of the historical and philosophical development of the correctional system; the organization and functions of correctional agencies; and the role and responsibilities of personnel in the correctional setting.

**CRJU 3301 Constitutional Law in the Criminal Process 3 Credits**
A case study approach to theoretical and applied knowledge of constitutional issues affecting the criminal justice system.

**CRJU 3311 American Court Systems 3 Credits**
An examination of the history, philosophy, and basic concepts of the legal system; the organization and jurisdiction of federal, state, and local courts; and the legal process from inception to appeal.

**Prerequisite: CRJU 1101**

**CRJU 3321 Race, Gender, Class & Crime 3 Credits**
A comprehensive study of the role of crime in the lives of various minorities within American society.

**Prerequisite: CRJU 1101**

**CRJU 3361 Human Behavior 3 Credits**
The study of the origins of human and deviant behavior from a multidisciplinary approach (biological, psychological, sociological, criminological); addresses major theories and research including case studies illustrative of deviant behavior such as drug abuse, suicide, mental illness, and sexual deviance.

**CRJU 3432 Community Policing 3 Credits**
Community policing philosophy, applications and issues and contemporary research of policing methods.
CRJU 3521 Drugs, Alcohol, & Crime 3 Credits
History of pharmacology, health consequences, and crime-related aspects of mind-affecting drugs. Emphasis on effects on criminal behavior, the legal response to the problem and on treatment and prevention of abuse.

CRJU 3610 Theories of Criminal Behavior 3 Credits
Provides a basic understanding of the complex factors related to crime, with concentration on principal theoretical approaches to the explanation of crime.

CRJU 3901 Internship 12 Credits
Participation on staff of a criminal justice agency under co-supervision of faculty and agency personnel. This course requires field experience, periodic conferences and seminars, and compositions and readings designed to combine theory and professional practice. A forty-hour week, full-time internship is required.
Prerequisites: CRJU 4901 or instructor’s approval

CRJU 4111 Criminology 3 Credits
A study of criminal behavior and its impact on society, overview of major theories and crime causation and empirical findings about numbers of crimes and the characteristics of offenders and victims.
Prerequisite: CRJU 1101

CRJU 4301 Jurisprudence of Criminal Law 3 Credits
An examination of the nature and scope of criminal law; the classification and analysis of crimes and the examination of specific offenses, justifications, excuses, and other defenses.
Prerequisite: CRJU 1101

CRJU 4311 Juvenile Justice 3 Credits
A study of children in the legal system, including issues and problems concerned with the social control and protection of young persons; the role and responsibilities of the juvenile court, law enforcement, and corrections.
Prerequisite: CRJU 1101

CRJU 4331 Comparative Criminal Justice Systems 3 Credits
An analysis of the design, operation, and legal basis for systems of justice in other countries, governmental, political, demographic, and economic factors in past and current trends in the adjudication of offenders; cross-cultural analysis of causes of crime and systems of justice.
Prerequisite: CRJU 1101

CRJU 4411 Criminal Investigations 3 Credits
An explanation of the history, theories, and procedures for investigating crimes.
Prerequisite: CRJU 1101

CRJU 4420 Crime Analysis 3 Credits
Examination of various approaches to crime analysis and its effect on planning for criminal justice and related programs.
Prerequisite: CRJU 1101

CRJU 4501 Violence, Crime & Justice 3 Credits
An examination of violence, criminal responses to violence, and the role of non-criminal justice agencies in the area of violence prevention; a review of theories, statistical data, and case studies from other disciplines, such as: law, psychology, sociology, history, and, of course, criminology and criminal justice.
Prerequisite: CRJU 1101

CRJU 4521 Criminal Justice Management 3 Credits
A focus on issues in the organization and management of criminal justice agencies, including police departments, prosecutors’ offices, courts, jails, prisons, and community corrections.
Prerequisites: CRJU 1101 or CRJU 2102

CRJU 4701 Criminal Law Practicum 3 Credits
A demonstration of knowledge acquired in previous law courses by engaging in a practical exercise (mock trial); requires thorough knowledge of all aspects of criminal law and trial procedures.
Prerequisite: CRJU 3301 and CRJU 4301

CRJU 4901 Senior Seminar 3 Credits
Selected topics of current interest. Critical analysis of current research literature and development of action projects by seminar members.
Prerequisite: Permission of the instructor

Dance

DNCE 2501 Modern Dance Technique & Performance 3 Credits
This course is designed to teach students with basic to advanced skills techniques of modern dance that lead to performances. This course introduces students with beginner level to advance levels elements of dance that are necessary in order to improve their dance skills. This will then lead to dance performance. The student will be evaluated through class participation, written work, and demonstration of dance skills taught in class. This evaluation is based solely on the student’s ability and not on the ability of others in the class, but the studio performance will be based on how well the class organizes a dance recital as well as individual choreography. By learning more about the art of dance, it is the hope of the instructor upon exiting this class, that each student will develop a better appreciation for this art form. It is helpful if students who take this class already have some dance training.

DNCE 3501 Appreciation & History of Dance 3 Credits
This course surveys dance cultures in America and the relationship of dance to the identity and expression of different groups in the United States. Jazz, modern, ballet, and multi-cultural dance forms will be the focus of the class. The course includes guest lectures, film, videos, performing artists, reading, discussions, research papers and attending a dance performance.

DNCE 3503 African-Caribbean Dance 3 Credits
Beginning with Dunham Techniques, the course introduces the rich dance cultures of the Caribbean. Students will learn the different dances of Haiti, Cuba, Jamaica, and Trinidad as they relate to their function in secular and religious culture. Students will also study the Dunham Dance Techniques as codified by distinguished dancer Katherine Dunham.
Prerequisites: ARTS 1501, 1511

DNCE 4201 Theatre Dance 3 Credits
The course is designed to expose the student to the dynamic styles used when dancing in and choreographing for theatrical presentations. This course will involve learning theatre dance styles, but also acting, costuming, and singing. The student will be required to participate in the theatre department musical production in the spring semester.
Prerequisites: DNCE 2501 and THEA 3101

DNCE 4501 Dance Theory 3 Credits
This course is an exploration of contemporary theories of movement as they relate to dance and how those theories shaped that development of different dance technique. The course also looks at the impact ballet had on dance and the development of different dance forms that were derived from
ballet. Students study the theory behind Horton Technique, Graham Technique, Dunham Technique, as well as other techniques. This class will consist mainly of lecture, with some laboratory.

**Prerequisite:** ENGL 2501 and DNCE 3501

influences. Includes such writers as Claude McKay, Langston Hughes, Gwendolyn Brooks, Nikki Giovanni, Sonia Sanchez, and Rita Dove. 

**ENGL 3218 (Also AFRS 3218) African-Caribbean Literature 3 Credits**

An introduction to the literature of the Caribbean produced by writers of African descent. Includes such writers as Walcott, Braithwaite, Lamming, Marshall, Kincaid, Cesaire, and Guillen. 

**Prerequisite: ENGL 1102**

**ENGL 3321 Introduction to Language Study 3 Credits**

A general survey of linguistics, with emphasis on sociolinguistics, the historical development of the English language, and the structure of contemporary English. 

**Prerequisite: ENGL 1102**

**ENGL 3416 Introduction to Creative Nonfiction Writing 3 Credits**

Guided practice in the writing of various forms of nonfiction (memoir or autobiography, personal essays, travel writing, cultural criticism) that are distinguished by the use of personal perspectives and literary techniques. Students will study and discuss examples by professional writers and other students, submit frequent writing projects, and hold frequent conferences with the instructor. 

**Prerequisite: ENGL 1102**

**ENGL 3417 Introduction to Poetry Writing 3 Credits**

An introductory course with an emphasis on the craft of poetry writing. Students will explore and deconstruct a variety of poetic forms and conventions and engage in writing exercises that will help create their own poetry manuscript while building skill as writers. Reading will form the framework for the workshop format in which students will practice the art of constructive criticism and peer critique. To produce poems for workshops, students will write intensely and receive instruction in poetic forms, movements, voice and traditions. 

**Prerequisite: ENGL 1102**

**ENGL 3418 Introduction to Fiction Writing 3 Credits**

An introductory course with an emphasis on the craft of fiction writing. Students will examine a variety of fiction texts in order to gain a theoretical understanding of the writing and reading of fiction which will allow them to analyze and critique fiction works. Reading will form the framework for the workshop format in which students will practice the art of constructive criticism and peer critique. To produce stories for workshops, students will write intensely and receive instruction in fiction techniques and literary elements including plot, theme, tone, setting, imagery, and description. 

**Prerequisite: ENGL 1102**

**ENGL 3515 World Drama 3 Credits**

A survey of important dramatic works from the Americas, Europe, Asia, and Africa. 

**Prerequisite: ENGL 1102**

**ENGL 3800 Peer Writing Tutor Seminar**

This course is designed to examine the theoretical and practical components of writing center work. 

**ENGL 3810 Peer Writing Tutor Practicum**

This course is designed to allow students who have successfully completed ENGL 3800 further opportunity to apply the theoretical and practical components of writing center work. 

**ENGL 3900 Internship for English Majors 3 Credits**

This course is designed to give students practical experience working, researching, and/or studying in a public or private agency related to the field of English. Students will be supervised by the sponsoring agency as well as faculty advisor; all parties will work together to designate individual goals and responsibilities for each student. Intern positions may be obtained in any one of a broad range of relevant organizations, including but not limited to various media outlets, publishing and/or editing firms, non-profits, libraries, governmental agencies, educational and educational support facilities, and legal firms. Students must complete at least 100 hours of onsite work as well as additional writing and research assignments. 

**ENGL 4011 Shakespeare 3 Credits**

Reading and critical discussion of the great tragedies, comedies, and historical plays of Shakespeare with attention to Shakespeare’s life and to Elizabethan theater. 

**Prerequisite: ENGL 2121**

**ENGL 4021 The British Novel 3 Credits**

An evaluative study of works of great English novelists. Rise and development of the English novel, together with an analytical appraisal of four elements—setting, character, plot and philosophy. Readings and discussion of various types, with emphasis upon the variety of methods by which the novel interprets life. 

**Prerequisite: ENGL 2102 or consent of the instructor**

**ENGL 4112 History of Literary Criticism 3 Credits**

**Prerequisites: ENGL 2104 and ENGL 2105**

**ENGL 4121 American Women's Writing 3 Credits**

A study of writing by American women, from the colonial period to the present, with particular attention to issues of identity and literary authority. The course will consider writers such as Bradstreet, Wheatley, Rowlandson, Fuller, Jacobs, Dickinson, Chopin, Gilman, Wharton, Hurston, Moore, Stein, H.D., Morrison, Walker, and Angelou. 

**Prerequisites: ENGL 2131 and ENGL 2132 or consent of the instructor**

**ENGL 4211 (Also AFRS 4211) African-American Drama 3 Credits**

A study of the development of African-American theater from minstrels to modern theater workshops and the plays of such writers as Langston Hughes, Lorraine Hansberry, Amiri Baraka, Ntozake Shange, and August Wilson. 

**Prerequisite: ENGL 1102**

**ENGL 4217 (Also AFRS 4217) African-American Fiction 3 Credits**

A critical survey focusing on leading themes and techniques in the short stories and novels of such authors as Charles Chesnutt, Zora Neale Hurston, Richard Wright, Ralph Ellison, James Baldwin, Toni Morrison, Ishmael Reed, Alice Walker, and Gloria Naylor. 

**Prerequisite: ENGL 1102**

**ENGL 4218 (Also AFRS 4218) African-American Nonfiction 3 Credits**

A survey of African-American nonfiction from the early slave narratives to the present, including W.E.B. DuBois, Alex Haley, Alice Walker, and others. 

**Prerequisite: ENGL 1102**
ENGL 4311 Nineteenth Century American Literature 3 Credits
A study of fiction and poetry of the Romantic and Realist periods in the United States.
Prerequisite: ENGL 1102

ENGL 4321 American Literary Realism 3 Credits
A focus on the Realist and Naturalist movements in the United States, including local color writers. Includes such writers as Twain, Crane, James, Norris, Chesnutt, Chopin, and Dreiser.
Prerequisite: ENGL 1102

ENGL 4332 American Short Story 3 Credits
A survey of the development of the short story as a literary form from Poe to the present. Includes such writers as Harte, Henry, Anderson, Faulkner, Hemingway, O’Connor, Updike, Carver, and Barthelme.
Prerequisite: ENGL 1102

ENGL 4335 American Poetry 3 Credits
A study of poetry written in America, with an emphasis on significant themes, techniques, and movements.
Prerequisite: ENGL 1102

ENGL 4400 Special Topics in Literature 3 Credits
An in-depth exploration of a literary topic. The topic changes each time the course is offered. Examples of topics include The Gullah Culture, Contemporary Multietnic American Literature, Islamic Literature (in translation), Latin American Fiction (in translation), and Japanese Literature (in translation). Can be repeated for credit with different topics.
Prerequisite: ENGL 1102

ENGL 4416 Creative Nonfiction Writing Seminar 3 Credits
This course is designed to continue work in the craft and creation of creative non-fiction writing. In this seminar students will closely examine their writing and that of their peers, as well as a variety of creative and academic creative non-fiction texts in order to further a theoretical understanding of the writing and reading of creative non-fiction. Students will write intensively to produce works for peer critique in a workshop setting.
Prerequisite: ENGL 3416 or permission of the instructor with writing sample

ENGL 4417 Poetry Writing Seminar 3 Credits
This course continues work in the craft and creation of poetry writing. In this seminar students will closely examine their writing and that of their peers, as well as a variety of creative and academic poetry texts in order to further a theoretical understanding of the writing and reading of poetry. Students will write intensively to produce works for peer critique in a workshop setting.
Prerequisite: ENGL 3417 or permission of instructor with writing sample

ENGL 4418 Fiction Writing Seminar 3 Credits
This course continues work in the craft and creation of fiction writing. In this smaller workshop format, students will closely examine their writing and that of their peers, as well as a variety of fiction texts in order to further a theoretical understanding of the writing and reading of fiction. Students will write intensively to produce works for peer critique in a workshop setting.
Prerequisite: ENGL 3418 or permission of instructor with writing sample

ENGL 4419 Advanced Screenwriting Seminar 3 Credits
An advanced course in screenwriting with an intensive emphasis on the craft of screenwriting. Students will explore and deconstruct conventions of American and foreign film and engage in writing exercises that will help create their own script while building their writing skills. Students will acquire detailed instruction in story structure, dialogue, character development and cinematic methods. By the end of the course each student will have produced a complete, polished original screenplay.
Prerequisite: THEA 4105 or permission of instructor with writing sample

ENGL 4551 Postcolonial Studies 3 Credits
An exploration of such concerns as race, gender, nationality, and postcolonial subjectivity. Texts studied will include such writers as Jean Rlys, V. S. Naipaul, Salman Rushdie, Grace Nichols, and Okot p’Bitik, along with such theorists and critics as Homi Bhabha and Frantz Fanon.
Prerequisite: ENGL 1102

ENGL 4621 Popular Culture Studies 3 Credits
An examination of American pop culture, with an emphasis on developments since World War II. Studies current trends in pop culture and cultural theory.
Prerequisite: ENGL 1102

ENGL 4631 Literary & Cultural Theory 3 Credits
Focuses on current trends in literary and cultural theory. Introduction to major schools/tendencies, including Marxist materialism, dialogic and semiotic analysis, deconstruction, reader-response criticism, psychoanalytic criticism, new historicism, materialist feminism, and African-American feminism.
Prerequisite: ENGL 1102

ENGL 4700 Senior Seminar 3 Credits
A capstone course in which students will be guided to synthesize previous coursework through intensive study of literary movements, genres, and authors. Methods include small group discussion, formal and informal oral presentations, and conferences with the professor. Each student will prepare a major paper demonstrating skill in research, writing, and critical thinking.
Prerequisite: Senior standing

Fine Arts

FINE 2104 Portfolio/Career Marketing 3 Credits
This course is designed to advise students on their chosen career and the variety of possible job opportunities. Students will learn how to audit professionally and develop a portfolio for presentation in their area of concentration.

FINE 2601 Stagecraft 3 Credits
This course is an introductory management course for the student seeking a career in the visual and performing arts. Students will be introduced to the various aspects of entertainment law.

FINE 2909 Business Management through the Arts 3 Credits
This course is an introductory management course for the student seeking a career in the visual and performing arts. Students will be introduced to the various aspects of entertainment law.

FINE 2999 Legal Aspects of the Arts 3 Credits
This course studies the copyright issues and laws affecting artists, their profession and artists in media industries, and assesses the adequacy of laws in the arts in an era of dynamic technological change.
Description of Courses

FINE 4909 Special Topic
Provides the students with an opportunity to address contemporary issues in real time. Topics may be chosen by faculty or resulting from student input.

FINE 4999 Seminar/Practicum/Internship 3 Credits
This is a senior level course with two components: 1. Students will be involved in off-campus, on-the-job observation and training in which the student pursues professional work in a variety of traditional and non-traditional careers appropriate to their academic program. An internship must be completed at 100 clock hours. 2. Students must have an understanding of the various kinds of research as well as knowledge in their field of concentration in preparation for graduate schools and professional entry positions. Students must show competence skills in their field of study, prepare for successful completion of departmental exit examinations, and prepare a marketable project in the field of study.
Prerequisite: Completion of 30 credit hours in BFA major

Foreign Languages

Arabic

ARAB 1001 Elementary Arabic I 3 Credits
An introduction to elementary modern standard Arabic. The course will focus on the phonology and writing system. Lectures in Arabic civilization and culture will be integrated into the language study. Not open to students who have more than one year of high school Arabic or who are native speakers of Arabic.

ARAB 1002 Elementary Arabic II 3 Credits
A continuation of Elementary Arabic I. The emphasis will be on speaking and writing skills. Intensive practice of sentence structure and basic vocabulary will be required. Various aspects of Arabic culture will be examined. Not open to students who have more than one year of high school Arabic or who are native speakers of Arabic.
Prerequisite: ARAB 1001

ARAB 2001 Intermediate Arabic I 3 Credits
An intensive review of grammar and sentence structure, along with drills in reading, speaking and writing. Language instruction will be supplemented with lectures and audio-video presentations.
Prerequisite: ARAB 1002 or two years of high school Arabic

ARAB 2002 Intermediate Arabic II 3 Credits
Continuation of Intermediate Arabic I.
Prerequisite: ARAB 2001

Chinese

CHIN 1001 Elementary Chinese I 3 Credits
An introduction to elementary Chinese. This course focuses on listening to, speaking, writing, and reading everyday Chinese. Lectures on Chinese civilization will be integrated into the language study. Not open to students who have more than one year of high school Chinese or who are natives of Chinese.

CHIN 1002 Elementary Chinese II 3 Credits
A continuation of CHIN 1001 with more emphasis on writing. Intensive practice in grammar and composition will be required. Continuing study of Chinese culture. Not open to students who have more than one year of high school Chinese or who are natives of Chinese.
Prerequisite: CHIN 1001

CHIN 2001 Intermediate Chinese I 3 Credits
Intensive review of grammar and sentence structure, with emphasis on writing, speaking, and reading. Some cultural aspects will also be studied.
Prerequisite: CHIN 1002 or two years of high school Chinese

CHIN 2002 Intermediate Chinese II 3 Credits
Continuation of CHIN 2001.
Prerequisite: CHIN 2001

French

FREN 1001 Elementary French I 3 Credits
A beginning French course which focuses on practice in hearing, speaking, reading, and writing everyday French. The culture and civilization of France are also stressed. Not open to students who have more than one year of high school French or who are native speakers of French.

FREN 1002 Elementary French II 3 Credits
A continuation of FREN 1001 with emphasis on hearing, speaking, reading and writing.
Prerequisite: FREN 1001

FREN 2001 Intermediate French I 3 Credits
An intensive review of basic French with more emphasis on speaking, reading, and writing. Various cultural aspects of France and Francophone countries are examined.
Prerequisite: FREN 1002 or two years of high school French

FREN 2002 Intermediate French II 3 Credits
Prerequisite: FREN 2001

FREN 3101 Advanced Conversation & Composition 3 Credits
Intensive practice in conversational French based upon written texts and audio-visual documents. Development of writing and stylistic skills in addition to advanced review of grammatical structure.
Prerequisite: FREN 2002

FREN 3201 French Civilization 3 Credits
Acquaintance of the student with major contributions of France to Western civilization. The notion of Francophones will also be studied.
Prerequisite: FREN 3101

FREN 3203 Survey of French Literature 3 Credits
Diachronic study of French literature from the middle ages to modern times, with emphasis on major authors and/or works.
Prerequisite: FREN 3101

FREN 3401 Introduction of Business French 3 Credits
Basic notions of management, market studies, insurance, corporate laws, export-import, telecommunications and commercial correspondence will be introduced.
Prerequisite: FREN 3101

FREN 3402 Intermediate Business French 3 Credits
Same emphasis as FREN 3401 in addition to the usage of French Minitel through the Internet.
Prerequisite: FREN 3401

FREN 4100 Survey of African & Caribbean Francophone Literature 3 Credits
Prerequisite: FREN 3101
FREN 4500 Study in France 3-12 Credits
Summer study in France with the Study Abroad Program of the University System of Georgia. Topics and levels of study may vary.  
Prerequisite: Recommendation of instructor

Geography

GEOG 1101 Introduction to Human Geography 3 Credits
A study of man’s relationship to the natural, physical, and cultural environment, world patterns of population, climate and industrial development; problems of agricultural, commerce, trade, transportation, and communication, and conservation of natural resources.

GEOG 3122 The Geography of Poverty 3 Credits
This course provides an examination of the spatial dimensions of poverty in the United States and provides evidence that there is some utility in bringing the spatial perspective of the geographer to bear on the national problem of poverty. The course addresses disparities in wealth, economic prosperity and social-well being and quality of life issues in American cities. Different perspectives (geographical, sociological, economic, psychological, and cultural) on the definitions and dimensions of poverty are examined in some depth.

GEOG 3621 Population Geography 3 Credits
The course is designed to acquaint the students with the essentials of population geography. Students will learn where and how to obtain pertinent demographic data and how to analyze it in a meaningful way with maps and statistics. It examines the characteristics and distribution of human populations across the diaspora paying special attention to the factors responsible for the spatial variations in mortality, fertility and migration patterns.

GEOG 3631 Urban Social Geography 3 Credits
An examination of the ways in which urban geography facilitates an understanding of cities, how cities are conceived, lived and represented.

SPAN 3204 Survey of Literature 3 Credits
Introduction to some of the principal authors, works, and ideas in the literatures of Spanish-speaking countries.  
Prerequisite: SPAN 3101

SPAN 3401 Introduction to Business Spanish 3 Credits
A study of business terminology, including letter writing, insurance, banking, situations dealing with export and import companies, and job interviews.  
Prerequisite: SPAN 1002 or two years of high school Spanish

SPAN 3402 Intermediate Business Spanish 3 Credits
A continuation of SPAN 3401 with further emphasis on terminology relating to banking, insurance, letter-writing, job interviews, and exporting and importing.  
Prerequisite: SPAN 3401

SPAN 4101 Beginning Medical Spanish 3 Credits
A study of terminology vital to medical personnel, nursing students, and anyone in any health-related field.  
Prerequisite: SPAN 1002 or two years of high school Spanish

SPAN 4102 Intermediate Medical Spanish 3 Credits
A continuation of SPAN 4101. Students will continue to learn vocabulary useful to anyone in any medical or health-related field.  
Prerequisite: SPAN 4101

SPAN 4500 Study Abroad 3-12 Credits
Students spend one summer in the Study Abroad Program of the University System of Georgia. They take language, literature, and civilization courses and participate in extra-curricular activities, including cultural tours.  
Prerequisite: Recommendation of instructor

Spanish

SPAN 1001 Elementary Spanish I 3 Credits
A course for students with little or no previous language study. Practice in listening to, speaking, reading, and writing everyday Spanish. Introduction to Spanish culture. Not open to students who have more than one year of high school Spanish or who are native speakers of Spanish.

SPAN 1002 Elementary Spanish II 3 Credits
Practice in listening to, speaking, reading, and writing Spanish. Continuation of SPAN 1001.

SPAN 2001 Intermediate Spanish I 3 Credits
An intensive review of basic principles of the language; continued practice in listening, speaking, reading, and writing.

SPAN 2002 Intermediate Spanish II 3 Credits
Intensive review of basic principles of Spanish; continued practice in listening, speaking, reading, and writing.

SPAN 3101 Advanced Conversation & Composition 3 Credits
A course focusing on understanding, speaking, and writing. Students will give oral presentations and write compositions on assigned topics.

SPAN 3201 Civilization & Culture of Spain 3 Credits
An historical survey of the culture of Spain from the Pre-Roman era to the present. Classes will be conducted in Spanish.

SPAN 3202 Civilization & Culture of Latin America 3 Credits
An historical survey of the culture of Latin America from the Pre-Columbian era to the present. Classes will be conducted in Spanish.

GRMN 1001 Elementary German I 3 Credits
A beginning course using a practical approach with emphasis on speaking, listening to, and reading everyday German. Not open to students who have more than one year of high school German or who are native speakers of German.

GRMN 1002 Elementary German II 3 Credits
Continuation of GRMN 1001 with more emphasis on writing.  
Prerequisite: GRMN 1001

GRMN 2001 Intermediate German I 3 Credits
Intensive review of grammar and structures. Practice in speaking and writing based on textual readings.  
Prerequisite: GRMN 1002 or two years of high school German

GRMN 2002 Intermediate German II 3 Credits
Continuation of GRMN 2001.  
Prerequisite: GRMN 2001

German

GRMN 2001 Intermediate German I 3 Credits
Intensive review of grammar and structures. Practice in speaking and writing based on textual readings.

GRMN 2002 Intermediate German II 3 Credits
Continuation of GRMN 2001.

Prerequisite: GRMN 2001

GRMN 1002 Elementary German II 3 Credits
Continuation of GRMN 1001 with more emphasis on writing.

GRMN 2002 Intermediate German II 3 Credits
Continuation of GRMN 2001.

Prerequisite: GRMN 2001
The course helps students understand how different social groups in cities affect the spatial configuration of the urban landscape and how such landscapes have changed over the course of human history. It discusses the ways in which different social groups make claims on space and place, and addresses the question of how communities are delimited in the framework of "social space".

Gerontology

GRNY 2101 Introduction to Gerontology 3 Credits
A general introduction to social issues in gerontology with emphasis on the normal activities of aging, review of current studies on the roles, activities, and status in the later years, including income status and needs as worker, retiree, and users of leisure services.

GRNY/PSYC 3102 Psychology of Aging 3 Credits
An exploration of the general psychological effects of aging on the populace of the United States of America; a comparison of aging and its effects on the populace of several other nations; a comparison of accepted and/or often used terms to describe chronological, physiological, and psychological aging as well as the concept of ageism and some of its effects. Prerequisite: PSYC 1101 or PSY 201

GRNY 3104 Biological & Physiological Aspects of Aging 3 Credits
A study of the general biology of aging, physiological changes with age, theories of biological and physiological aging, factors affecting longevity, and genetic aspects of aging.

GRNY 3120/AFRS African-American Aging 3 Credits
An examination of the historical, demographic, and socio-economic profiles of Blacks; an analysis of major problems encountered by Black elderly persons; review of issues such as income, health, housing, and transportation; emphasis on unique aspects of Black religion, family ties, language habits, coping behaviors, and population distribution.

GRNY 4101 Consumer Economics & Law for the Aging 3 Credits
An examination of age-related consumer and legal concerns. This will be a practical course including exploration of such topics as wills and other legal matters, generic drugs, health care costs, food and nutrition, budget management, fraud, and consumer protection laws.

GRNY/SOWK 4110 Services to the Elderly 3 Credits
An emphasis on the social, economic, and health needs of the elderly with attention to delivery systems that work; focus on knowledge, research, and actual projects; designed for students planning to work in public or private agencies serving the elderly.

GRNY 4201 Death & Dying 3 Credits
A study of the literature expressing historical, social, and cross-cultural attitudes towards death and dying; designed to help students understand death in its social context.

GRNY 4301 Physical Fitness & Recreation for the Elderly 3 Credits
A focus on the physiological, psychological, and sociological values of physical exercise and recreations for the older adult; an opportunity to develop physical fitness and recreational programs for healthy adults; and less vigorous ones.

GRNY 4501 Field Experience Credits Varies
A field experience for students to work under professional supervision in a facility for older people, such as a home for the aged, senior citizens activity center, or housing development.

GRNY 4705 Seminar in Gerontology 3 Credits
An integration of theoretical classroom learning with practical experience gained by the students in the field.

Health Education

HEDU 1101 Concepts in Healthful Living 2 Credits
An introduction to concepts related to healthful living. These concepts are physical activity, stress management, nutrition, environmental sensitivity, sexuality, and weight management. (0-2-2)

HEDU 1111 Physical Fitness for Life 2 Credits
An introduction to the role of physical fitness in a healthful lifestyle. This course involves developing exercise programs for each component of physical fitness. Students spend two hours each week on physical fitness activities and one hour each week exploring the relationship of physical fitness activities to a healthy lifestyle. (1-2-2)

HEDU 1201 Physical Activity & Stress Management 2 Credits
A course focusing on the development of physical activity and relaxation programs that help students to manage and cope with stress in their lives. The course consists of two hours each week of physical activity and relaxation application and one hour each week exploring the nature of the human stress response. (1-2-2)

HEDU 1211 Physical Activity & Body Composition 2 Credits
A course designed to help students develop and execute exercise programs that will develop a healthy body composition and achieve and maintain a desirable body weight. Students spend two hours each week participating in exercise programs. The course also explores theories regarding the relationship of exercise and body composition. (1-2-2)

HEDU 1301 Weight Training 1 Credit
Participation in weight training exercise programs and weight resistance activities to achieve desired level of strength and a healthy level of body composition. (0-2-1)

HEDU 1401 Physical Conditioning 1 Credit
Participation in weight training exercise programs that develop the five components of physical fitness. The major emphasis in the course is on the development of cardiovascular fitness. (0-2-1)

HEDU 1601 Swimming 1 Credit
A beginning course in swimming. Students learn basic techniques and drown-proofing skills. (0-2-1)

HEDU 1611 Swimming II 1 Credit
A course designed for development of advanced swimming fundamentals and techniques to be used for acquiring and maintaining a desirable quality of life and cardiovascular fitness. (0-2-1)

HEDU 1621 Aqua Dynamics 1 Credit
A water aerobics class that focuses on all the components of physical fitness. (0-2-1)
History

HIST 1111 Survey of World History to Early Modern Times 3 Credits
A survey of the major civilizations of the world from the earliest time to approximately 1500.

HIST 1112 Survey of World History from Early Modern Times to the Present 3 Credits
A survey of the major civilization of the world from about 1500 to the present.

HIST 2111 A Survey of U.S. History to the Post-Civil War Period 3 Credits
An introductory survey of the formative years of the history of the United States.

HIST 2112 A Survey of U.S. History from the Post-Civil War Period to the Present 3 Credits
A survey of African-American and American History from the Civil War to the present.

HIST 2301 History of American Military Affairs 3 Credits
An introductory survey of military affairs in the United States from the Revolution to the present, designed to acquaint the student with the American military experience, to emphasize the problems involved in waging war, and to examine the effects of war on society.

HIST 3101 Historical Research 3 Credits
An analysis of sources and critical methods for evaluating, organizing, and using these materials; a focus on selected historians and distinctive type of historical writing. 
Prerequisites: HIST 2111 or HIS 202 and HIST 2112 or HIS 203

HIST 3207 Georgia History 2 Credits
A survey of the history of Georgia from pre-colonial times to present.

HIST/AFRS 3301 African-American History Before 1900 3 Credits
A survey of the history of African-Americans beginning with the African background to 1900 with an overview of the twentieth century.

HIST/AFRS 3312 The African-American in the 20th Century 3 Credits
An analysis of the modern African-American experiences such as African-American participation in the World Wars, the Depression, and the struggles for civil rights, identity, and self-determination.

HIST 3411 History of Early Modern Europe 3 Credits
A study of the history of Europe from about 1500 until the French Revolution covering the Reformation, Scientific Revolution, absolutism, family and demographic developments, and the Enlightenment.

HIST 3412 History of Modern Europe 3 Credits
A detailed study of the political, social, economic, and intellectual development in Europe since 1789. Emphasis is on western Europe.

HIST 3501 Colonial America 3 Credits
An examination of cultures and institutions of colonial America before 1776.

HIST 3502 American Revolution & New Nation 3 Credits
An examination of American cultures and institutions from the outbreak of the revolution through the early years of the New Republic.

HIST 3503 American Civil War & Reconstruction 3 Credits
An intensive examination and analysis of the forces at work in American life during the crucial period from 1840 through 1877.

HIST 3504 Recent American History 3 Credits
An intensive study of the political, social, and economic history of the United States from the First World War to the present.

HIST 3601 Colonial & Early National Latin American History 3 Credits
An appraisal of the origins and development of social, political, economic, and intellectual characteristics of Latin America from the pre-Colonial era through the wars for independence.

HIST 3801 Modern Asian History 3 Credits
An introduction to the origins and developments of the economic, political, social, and cultural characteristics of Asian nations with special emphasis on the roles of China, Japan, and India during the past four centuries.

HIST 3901 Internship Credit Varies
An individually designed course-project involving research in a government or private agency. Students will be under the joint supervision of the sponsoring agency and their faculty advisor. This internship will be arranged by the faculty advisor and department chair.

HIST 3909 Readings in History Credit Varies
Directed readings and other activities related to particular topic in the discipline.

HIST/AFRS 4301 History of African-American Thought 3 Credits
A study of the ideas, institutional practices, values, and ideologies embraced by African-Americans. The course incorporates the philosophies and tactics of accommodation, integration, and separation. 
Prerequisite: HIST 3301 or HIS 308 or permission of the instructor

HIST 4411 History of Modern Britain 3 Credits
A survey of British history since the revolution of the seventeenth century, including its economic growth, its rise as a world power, and its role in the world today.

HIST 4601 Latin America in the Modern World 3 Credits
An intensive study of the political, social, and economic history of the United States from the Post Civil War to the present.

HIST 4801 History of China Since 1600 3 Credits
An examination of the major issues, revolutions, and personalities in the history of China from 1600 to the present; a comprehensive presentation of
China’s economics, politics, society, and culture during the past four centuries.

HIST 4805 Twentieth Century East Asian Economic History 3 Credits
An examination of the themes, patterns, and problems of economic development in China, Japan, Korea, Taiwan, and Hong Kong since 1900. This course provides an historical background to the relations between economics and non-economic affairs.

HIST 4901 Senior Seminar 3 Credits
A review of general historical time-lines of United States and world history with reference to trends in historiography and historical interpretations as well as a review of library research skills.

Homeland Security and Emergency Management
HSEM 1101 Introduction to HSEM 3 Credits
A survey of the emerging field of homeland security and emergency management. The course provides students with a broad picture of the emergency management system in the United States, including historical events, practices, and policies that have had an impact on the development of emergency management and homeland security as a governmental function and as a profession. Students will get an overview of the role and methods of emergency management and homeland security in protecting lives, property, and infrastructure.

HSEM 3110 Politics & Policy of HSEM 3 Credits
Examines policies, programs, agencies, and institutions involved in U.S. disaster and emergency management. Focus is on the role of politics, public policymaking, and intergovernmental relations in managing all hazards at the local, state, and national levels. Emergency management and homeland security encompass a wide range of expertise and activities; policy and politics have significant impact on these preparedness, response and related activities before and during a disaster. Prerequisite or Corequisite: HSEM 1101

HSEM 3120 Law & Ethics in HSEM 3 Credits
Focuses on the legal, liability and ethical concepts underlying U.S. civil liberties and rights in the context of HSEM activities, from mitigation and prevention, to declarations of emergency or acts of terrorism. Topics addressed include surveillance, public health quarantine, property buyouts, federal laws passed in the aftermath of September 11, 2001, terrorists attacks, rights of citizens and foreign nationals, government infrastructure for decisions concerning national and international legal rights, and jurisdictional issues. Prerequisite: HSEM 1101

HSEM 3122 International Humanitarian Law 3 Credits
An elective that provides an introduction to concepts and rules related to human rights law of armed conflict. Topics include humanitarian aid, legal principles, non-governmental organizations, the Nuremberg Charter, Geneva Convention, Genocide Convention, and background, statutes and experiences related to United Nations tribunals and the International Criminal Court.

HSEM 3130 Emergency Planning, Mitigation & Incident Management 3 Credits
Provides foundation knowledge and develops skills and abilities in planning, hazard mitigation and incident management. It addresses planning principles and specific types of planning including emergency operations planning, continuity of operations and continuity of government planning, and business continuity planning. It includes instruction on incident management, addressing direction, control and cooperation challenges, systems, and approaches across disciplines and levels of government. Training and exercises as key components of preparedness also are addressed. Prerequisite or Corequisite: HSEM 3250

HSEM 3140 Diversity Issues in HSEM 3 Credits
Examines the extent to which HSEM practitioners and their organizations serve the needs of diverse groups, including the elderly, disabled, women, racial and ethnic groups, the poor and/or disadvantaged, and other segments of the community. The course also explores ways of expanding participation of diverse groups in the design and implementation of disaster planning and policy. Prerequisite or Corequisite: HSEM 3250

HSEM 3250 Risk & Vulnerability Assessment 3 Credits
A study of a hazard identification and risk and vulnerability assessment across all types of hazards. The course provides instruction in analytical techniques and methodologies for threat and vulnerability assessment for public and private entities. It uses an all-hazards approach to assessing risk, addressing natural, human-caused, and technological hazards, and will include cyber and critical infrastructure threats. Prerequisite or Corequisite: HSEM 1101

HSEM 3260 Terrorism in the Modern World 3 Credits
A survey of the problem of terrorism from a contemporary perspective, emphasizing political and ideological roots of terrorism. Examines the history of terrorism, domestically and internationally, the roles of religion and culture, the structures and operations of terrorist organizations, and antiterrorism policies and policymaking.

HSEM 3360 The Intelligence Community & the Intelligence Process 3 Credits
An elective course that examines the processes and challenges of state, local, and federal intelligence gathering and dissemination. Intelligence policy and practice will be addressed. Prerequisite: HSEM 3110

HSEM 3400 Public Health Issues in HSEM 3 Credits
An elective course that explores public health issues involved in homeland security and emergency management, including study of biological agents, prevention, preparedness, public health communications, pandemic planning, and public health response.

HSEM 3822 Tools for Decision-making in HSEM 3 Credits
A study of technology tools and organizational and decision-making techniques useful in homeland security and emergency management. Examines use of communications, software, information management and other tools in HSEM settings. Includes use of hazard analysis and mapping software applications, including geographic information systems (GIS), and incident management technologies. Prerequisite: HSEM 3250

HSEM 3840 Effective HSEM Communication & Leadership 3 Credits
Prepares future HSEM professionals with communication and leadership skills to fulfill crucial roles of communicating and team-building with individuals in government, private sector, and the community. The course will explore the need for and provide tools for developing strong communication and leadership across a spectrum of constituencies and...
environments, including within the incident management system, with the objective of improved outcomes in disasters.  
Prerequisite or Corequisite: HSEM 3250

HSEM 3901 HSEM Internship 3 Credits
Designed to provide the HSEM major or minor with an opportunity to relate theory to practice through observation and actual experience with government, private sector, and/or non-profit sector organizations that have responsibilities for developing policy or performing work in the area of homeland security and emergency management.  
Prerequisite: 75 credit hours or permission of instructor

HSEM 4000 Independent Study 3 Credits
An elective open to students with junior and senior standing who have earned at least 12 credit hours in HSEM. Independent study, which requires permission of the HSEM program coordinator, offers students an opportunity to conduct research under the direction of an instructor qualified in the subject or field of major interest.  
Prerequisite: HSEM 1101 and permission of instructor

HSEM 4601 Topics in HSEM 3 Credits
An elective that addresses an HSEM topic of special interest.  
Prerequisites: HSEM 1101 and permission of instructor

HSEM 4901 Senior Capstone Seminar 3 Credits
A capstone course examining major issues in homeland security and emergency management. Students will produce a research project.  
Prerequisite: Required HSEM courses through 3200 level or permission of instructor

**Humanities**

HUMN 1201 Critical Thinking & Communication 3 Credits
This course is designed to assist in the development of skills in critical reading, critical thinking, and interpersonal communication in the context of contemporary issues. This course focuses not only on improving reading comprehension and analytical skills, but also on identifying problems with logic found in one’s own communication and in that of others, on developing an awareness of techniques commonly used in advertising and political language, on understanding principles of interpersonal communication and public speaking, and on organizing, developing, and presenting audience-centered material.  
Prerequisite: ENGL 1102 or ENGL 109

HUMN 2011 Humanities 3 Credits
Designed as a multicultural, cross-disciplinary course to enable students to discover, interpret, and assess critically the intellectual and aesthetic expressions of cultures of America, Europe, Asia, and Africa.  
Prerequisite: ENGL 1101 or ENGL 109

**Mass Communications**

COMM 1000 Mass Communications Colloquium 1 Credit
This course is for entering freshmen. The one hour a week course will provide the students with similar content to the course in Freshman Experience. The course will also provide the faculty in the mass communications department opportunities to engage majors at an earlier time in their matriculation and provide guidance to freshman majors on curriculum and concentration areas.  
Prerequisite: ENGL 1101 or ENGL 109

COMM 2101 Writing for the Media 3 Credits
Lecture and laboratory course introducing students to the fundamentals of writing news stories for print and broadcast media including public relations.  
Prerequisites: ENGL 1101 and ENGL 1102

COMM 2105 Mass Media & Society 3 Credits
General examination of the foundations, organization, control, and current status of the media. Economic and social impact of the media (radio, television, newspapers, books, magazines, and comics) are surveyed. Broad comparisons of the American with foreign media systems are included.

COMM 2106 African-Americans in the Media 3 Credits
A survey of the history, the contributions, representation, and portrayal of African-Americans and other minorities in the media. Assessment of the impact of such portrayals on social, political, and cultural interactions.

COMM 3101 Media Arts & Design 3 Credits
The development of basic skills in graphics for print and television. The course introduces students to the practice of image making and new technologies. It includes layout, page design, and other graphic elements necessary for public relations and advertising campaigns.

COMM 3102 Photo-Journalism 3 Credits
Instruction in taking, developing, and printing pictures for news purposes. Digital camera required.

COMM 3105 Writing for Newspapers & Magazines 3 Credits
A continuation of COMM 2101 with emphasis on writing for the print media.  
Prerequisite: COMM 2101

COMM 3110 Desktop Publishing 3 Credits
An in-depth, hands-on application of at least two desktop publishing software packages (including InDesign) as writing tools.  
Prerequisite: COMM 3102

COMM 3120 Introduction to Communications Theory 3 Credits
An overview of the major concepts and applications of human mass communications theories. While interpersonal and intercultural communications will be examined, applications of the theories and concepts in the mass media will be emphasized.

COMM 3130 History of Journalism 3 Credits
An historical survey of the principal developments in journalism from the eighteenth through the twentieth centuries.

COMM 3201 Feature Writing 3 Credits
A course designed to further develop a student’s skill in researching, organizing, and writing news features and human interest stories.  
Prerequisite: COMM 3105

COMM 3301 Introduction to Television Production 3 Credits
This course is designed to provide students with a working knowledge of the disciplines and techniques involved in television production. The course will also give students a basic operating knowledge of the terminology used in the television industry.  
Prerequisite: COMM 3303

COMM 3302 Speech for Radio & Television 3 Credits
A course designed to teach the basic techniques of radio and television broadcasting. Emphasis on newscasting, advertising, sportscasting, and announcing formats.  
Prerequisite: SPEH 1101
Description of Courses

COMM 3303 Scriptwriting for Radio & Television 3 Credits
Scriptwriting for Radio and Television provides practical experience in writing various forms used in broadcast and film media and provides students with exposure to professional audio and video production equipment and techniques.
Prerequisite: COMM 2101

COMM 3305 Introduction to Film Production 3 Credits
Provides students a working knowledge of the disciplines and techniques involved in film production including a basic operating knowledge of the terminology and equipment used in the film industry.
Prerequisite: COMM 3901

COMM 3306 Introduction to Audio Production 3 Credits
Designed to provide students with a working knowledge of the disciplines and techniques involved in radio and other professional audio production systems. The course will also give students a basic operating knowledge of professional audio equipment and technology and appropriate terminology.

COMM 3401 Introduction to Public Relations & Advertising 3 Credits
An introduction to the role of public relations and advertising in our society, how “publics” and markets are determined and targeted, the different types of public relations fields, the use of public relations in image packaging, the use of advertising in selling goods and services, and the relationship of advertising agencies to advertisers and media.
Prerequisites: ENGL 1102, COMM 2101 and COMM 3110

COMM 3402 Advertising Media Sales & Purchases 3 Credits
Analysis of major media sales practices, including organization and preparation of radio, newspaper, television, or magazine presentations for advertising clients. Introduction to common media sales terminologies, data collection, and calculations and tools, including ratings and rate cards.

COMM 3901 History of Film 3 Credits
Class sessions are informal. The instruction process is lecture by the instructor, guest lecturers, out of class procedural demonstrations, examination and viewing of various film genres, and exercises by the class in various production situations. Student and group projects will be conducted in and outside of the regular class period.

COMM 4101 Advertising Copy Writing 3 Credits
Principles and practices of planning, preparing, and writing effective advertising messages for newspapers, magazines, industrial publications, the trade press, radio, television, mail order, and billboards. Analysis and critique of current advertisements. Copy and product tests in relation to markets.

COMM 4105 Editorial Writing 3 Credits
Conceptualizing, researching, and writing effective editorials for the mass media.
Prerequisite: COMM 3105

COMM 4106 Communications Practicum 3 Credits
Intensive field and laboratory practice on video, audio, or print projects under faculty supervision.
Prerequisites: COMM 3401 or COMM 4107 or COMM 4170 and Permission of instructor

COMM 4107 Advanced Television Production 3 Credits
Advanced instruction and practice in television production, including directing, programming, and equipment.
Prerequisite: COMM 3301

COMM 4108 Film & Television Directing 3 Credits
This course is designed to provide students with a working knowledge of the disciplines and techniques involved in the directing process for film and television, and will give students a basic operating knowledge of the terminology used in directing film and television production.
Prerequisite: COMM 3301 or COMM 3305

COMM 4109 Radio Production & Programming 3 Credits
This course will provide students with experience in how radio stations operate and the various programming functions involved in the radio and music industries.

COMM 4110 Advanced Audio Production 3 Credits
Advanced instruction and practice in radio production, including directing, programming, and equipment.
Prerequisite: COMM 3301

COMM 4111 Film & Television Editing 3 Credits
This course will provide students with an introduction to linear and non-linear editing processes for film and television.
Prerequisite: COMM 3301 or COMM 3305

COMM 4112 Commercial Recording 3 Credits
This course will provide students with experiences in recording for the broadcast and music industries. Commercials, music video production, music production, and public service announcements will be examined. New approaches to digital music production and software usage in the music industry will also be covered.
Prerequisite: COMM 3306

COMM 4113 Advanced Post-Production Techniques 3 Credits
This course will provide students with advanced techniques for the non-linear editing processes for film and television. This course will give students expert operating knowledge of the terminology used in the post-production process of film and television productions.
Prerequisite: COMM 4111 or COMM 4112

COMM 4115 Independent Study 3 Credits
Directed individual work under the guidance of various faculty members.
Prerequisite: Permission of the instructor

COMM 4170 Advanced Newspaper Writing & Reporting 3 Credits
Instruction and practice in reporting all areas of public affairs. Includes ethics of journalism, law of libel, right of privacy, fair comment and criticism, privileged matter, and other issues.
Prerequisite: COMM 3105

COMM 4201 Copy Editing 3 Credits
Designed to give students training in the theory and practice of copy editing and headline writing. Simulated local news copy and wire service stories are used.
Prerequisite: COMM 3105

COMM 4211 Newspaper Production 3 Credits
Copy editing, headline writing and newspaper layout. Emphasis upon the principles and skills involved in producing a newspaper by the off-set of cold type method.
Prerequisite: Prior approval of instructor

COMM 4402 Public Relations & Advertising Campaigns 3 Credits
Analysis of contemporary public relations and advertising issues. Development of public relations and advertising campaigns involving
Research, planning, preparation and presentation for various types of public relations and advertising organizations. Problem-solving and decision-making techniques.

Prerequisites: COMM 3401 and COMM 4101

**MUSC 1101 Music Appreciation 3 Credits**

An introductory music course which emphasizes the repertoire most frequently heard in concert halls today—music from the baroque period to the present. Course content includes jazz, American popular idioms, and music from a wide span of cultures, including Indian, Arabic, Indonesian, African, Japanese, and Chinese.

**MUSC 1201 Fundamentals of Music 3 Credits**

Course in rudiments of music designed for non-music majors.

**MUSC 1311 Theory I 3 Credits**

Course in notation, time signatures, major and minor scales, intervals, melodic and rhythmic problems, sight-reading and musical dictation.

**MUSC 1312 Theory II 3 Credits**

A continuation of MUSC 1311. Course in notation, time signatures, major and minor scales, intervals, melodic and rhythmic problems, sight-reading and musical dictation.

**MUSC 1408, 2408, 3408 and 4408 are courses directly related to the official band of Savannah State University and run concurrently during the first semester according to student rank. A continuation of the course takes place during the second semester.**

**MUSC 1408 Band Organization (1st Semester) 1 Credit**

A course that focuses on band performance and technique development. Freshman level.

**MUSC 1409 Band Organization (2nd Semester) 1 Credit**

A continuation of MUSC 1408.

**MUSC 1411 Applied Percussion**

A private lesson held in the percussion studio for one hour a week by appointment only. Freshman level.

**MUSC 1412 Applied Percussion (2nd Semester) 1 Credit**

A continuation of MUSC 1411.

**MUSC 1422 Applied Major Area—Band Instruments (Music Majors Only) 1 Credit**

A continuation of MUSC 1421.

**MUSC 1542 Basic Keyboard 3 Credits**

A basic course in the elements of piano playing. The course will cover practical playing skills, technical study, ensemble playing, sight-reading, harmonization and study of solo repertoire.

**MUSC 1608, 2608, 3608, AND 4608 are courses directly related to the official choir of Savannah State University and run concurrently during the first semester according to student rank. A continuation of the course takes place during the second semester.**

**MUSC 1608 Choral Organization (1st Semester) 1 Credit**

The official choir of Savannah State University. The choir studies and performs standard choral literature encompassing music from the pre-Baroque style to 20th century music and beyond. The choir makes appearances in support of the University. Freshman level.

**MUSC 1609 Choral Organization (2nd Semester) 1 Credit**

A continuation of MUSC 1608.

**MUSC 1808 Chamber Organization (1st Semester) 1 Credit**

A course that involves the official percussion ensemble of Savannah State University which studies and performs chamber and ensemble music. The group performs at various functions on and off campus in support of the university. Freshman level.
MUSC 1809 Chamber Organization (2nd Semester) 1 Credit
A continuation of MUSC 1808.

MUSC 2101 Theory II 3 Credits
A continuation of MUSC 1311 and MUSC 1312. Diatonic harmony, modulation, chromatic chords, modes, harmonizations from melody and bass, analysis of examples.

MUSC 2102 Theory II 3 Credits
A continuation of MUSC 2101. Diatonic harmony, modulation, chromatic chords, modes, harmonizations from melody and bass, analysis of examples.

MUSC 2121 History & Literature of Music I 3 Credits
A survey of the history of music from the beginning of the Christian era to the Baroque period. Emphasis placed upon a study of representative works by major composers, together with a comprehensive analysis of style and musical development.

MUSC 2122 History & Literature of Music II 3 Credits
A continuation of MUSC 2121 beginning with the Baroque period to the present.

MUSC 2408 Band Organization (1st Semester) 1 Credit
A course that focuses on band performance and technique development. Sophomore Level.

MUSC 2411 Applied Percussion (1st Semester) 1 Credit
A private lesson held in the percussion studio for one hour a week by appointment only. Sophomore level.

MUSC 2412 Applied Percussion (2nd Semester) 1 Credit
A continuation of MUSC 2411.

MUSC 2409 Band Organization (2nd Semester) 1 Credit
A continuation of MUSC 2408.

MUSC 2522 Keyboard I 3 Credits
A continuation of MUSC 1542. The course will further develop student skills in practical playing skills, technical study, ensemble playing, sight-reading, harmonization and study of solo repertoire.
Prerequisite: MUSC 1542

MUSC 2608 Choral Organization (1st Semester) 1 Credit
The choir studies and performs standard choral literature encompassing music from the pre-Baroque style to 20th century music and beyond. The choir makes appearances in support of the University. Sophomore level.

MUSC 2609 Choral Organization (2nd Semester) 1 Credit
A continuation of MUSC 2608.

MUSC 2641 Intermediate Voice
Basic elements of tone production, diction, breathing, and style, expanded through performance of standard musical literature through one on one weekly lessons with qualified instructor.

MUSC 2642 Intermediate Voice
Basic elements of tone production, diction, breathing, and style, expanded through performance of standard musical literature through one on one weekly lessons with qualified instructor.

MUSC 2808 Chamber Organization (1st Semester) 1 Credit
A course that involves the official percussion ensemble of Savannah State University which studies and performs chamber and ensemble music. The group performs at various functions on and off campus in support of the university. Sophomore level.

MUSC
A continuation of MUSC 2808.

MUSC 3011 African-American Music 3 Credits
A cultural analysis of African folk music and its influence upon the development of spirituals, work songs, and jazz. Contributions of African-American music to both popular and classical traditions studied.

MUSC 3101 Gospel & Spiritual Keyboarding I 3 Credits
A course that is an intermediate course for the study in religious keyboarding. The course will survey piano repertoires in gospel spirituals music. This is a two-semester course required of all students interning in the religious sector.
Prerequisite: MUSC 2522

MUSC 3102 Jazz Ensemble 3 Credits
A course designed to expose students to composers and arrangers of jazz, rock, and soul music. Improvisation also included.

MUSC 3111 Theory III (Form & Analysis) 3 Credits
A study of the construction of music from the eighteenth century to the present, including melodic and harmonic analysis of selections by major composers.

MUSC 3411 Applied Percussion (1st Semester) 1 Credit
A private lesson held in the percussion studio for one hour a week by appointment only. Junior level.

MUSC 3412 Applied Percussion (2nd Semester) 1 Credit
A continuation of MUSC 3411.

MUSC 3454 Band Methods 2 Credits
A course designed to present ideas, suggestions, and various methods involved in operating a band program.

MUSC 3455 Band Repertory 2 Credits
A course designed to expose and present works for band with regards to style, difficulty, scoring, rhythm and melodic lines, and other critical aspects of playing, interpreting, and performing band literature.

MUSC 3601 Choral Literature 3 Credits
The study of the literature and performance practices of various periods, the history of choral music, study of representative works of English, Italian, German and American composers.

MUSC 3608 Choral Organization (1st Semester) 1 Credit
The choir studies and performs standard choral literature encompassing music from the pre-Baroque style to 20th century music and beyond. The choir makes appearances in support of the University. Junior level.

MUSC 3609 Choral Organization (2nd Semester) 1 Credit
A continuation of MUSC 3608.

MUSC 3620 Choral Techniques 3 Credits
Course designed to develop basic techniques for choral musicians. Discussions include meter pattern, preparatory beats, cluing, diction, blend, balance, and intonation.

MUSC 3641 Advanced Voice (Non-music Majors Only) 1 Credit
A continuation of MUSC 2641-2642. Further advanced techniques studied through selected musical literature.
MUSC 3642 Advanced Voice 1 Credit
A continuation of MUSC 3641.

MUSC 3644 Applied Major Area—Voice (Music Majors Only) 1 Credit
A course devoted to the development of proficiency in a specific area of applied music selected by the student with the consent of advisor. Regular lessons scheduled and periodic performances expected.

MUSC 3645 Applied Major Area—Voice (Music Majors Only) 1 Credit
A continuation of MUSC 3644.

MUSC 3645 Voice Performance II 3 Credits
A course that is a study of vocal repertory, including art songs, arias from opera/oratorio/cantata, and musical theater, appropriate for first year students. Laboratory required. Prerequisite: MUSC 2645

MUSC 3651 English and Italian/German/French Diction 1 Credit
A course to assist students with the pronunciation and sounds of English, Italian, French, and German for good vocal performance.

MUSC 3652 English and Italian/German/French Diction 1 Credit
A continuation of MUSC 3651.

MUSC 3653 Vocal Pedagogy 1 Credit
Methods and materials for the studio.

MUSC 3751 Conducting 2 Credits
A study of the techniques of conducting and interpretation of instrumental and choral literature. Prerequisites: MUSC 3751 or MUS 351

MUSC 3752 Advanced Choral Conducting II 2 Credits
A continuation of MUSC 3751, with choral music concentration. Prerequisite: MUSC 3751 or MUS 351

MUSC 3753 Advanced Instrument Conducting II 2 Credits
A continuation of MUSC 3751, with instrumental music concentration. Prerequisite: MUSC 3751 or MUS 351

MUSC 3808 Chamber Organization (1st Semester) 1 Credit
A course that involves the official percussion ensemble of Savannah State University which studies and performs chamber and ensemble music. The group performs at various functions on and off campus in support of the university. Junior level.

MUSC 3809 Chamber Organization (2nd Semester) 1 Credit
A continuation of MUSC 3808.

MUSC 4010 Conducting and Directing 3 Credits
This course seeks to prepare the student to meet both the musical and non-musical challenges of conducting. A special emphasis will be given to learning material that will be valuable to professionals in the field of music education. This course is designed to introduce the student to the basics of conducting. It provides the basis for instrumental and choral conducting, and, as such, is intended for students in both areas. (The course is for music concentration majors). Students who apply themselves will gain the fundamental psychomotor techniques and score-reading skills necessary for clear and expressive conducting. The course will begin with choral work, the majority of the semester will focus on instrumental conducting, and acquiring the body of knowledge necessary for success in that realm.

MUSC 4011 Theory IV Counterpoint and Composition 2 Credits
A study of the construction of music from the eighteenth century to the present, including melodic and harmonic analysis of selections by major composers. Prerequisites: MUSC 2101, 2102 or MUS 211

MUSC 4012 Theory IV Counterpoint and Composition 2 Credits
A continuation of MUSC 4011. Prerequisites: MUSC 3111 or permission from instructor

MUSC 4408 Band Organization (1st Semester) 1 Credit
A course that focuses on band performance and technique development. Senior level.

MUSC 4409 Band Organization (2nd Semester) 1 Credit
A continuation of MUSC 4408.

MUSC 4411 Applied Percussion (1 Semester) 1 Credit
A private lesson held in the percussion studio for one hour a week by appointment only. Senior level.

MUSC 4420 Seminar: Instrumental Pedagogy and Techniques 1 Credit
A course designed to use comprehensive methods and materials in understanding the repertoire of instrumental music.

MUSC 4536 Intermediate Keyboard II 3 Credits
Offered fall semesters only, this course surveys piano repertoire from Baroque through the Romantic (Baroque, Classical, Romantic). Students are expected to take 2 semesters of the course in order to cover all of the periods of piano repertoire. Classroom instruction is largely devoted to directed listening to the music. Reading assignments are given for outside work. Prerequisite: MUSC 2522.

MUSC 4608 Choral Organization (1st Semester) 1 Credit
The choir studies and performs standard choral literature encompassing music from the pre-Baroque style to 20th century music and beyond. The choir makes appearances in support of the University. Senior level.

MUSC 4609 Choral Organization (2nd Semester) 1 Credit
A continuation of MUSC 4608.

MUSC 4611 Opera and Art Song Literature 2 Credits
A course in which students listen with scores to representative opera and art song selections from various historical periods. Alternate years. Prerequisites: French and German

MUSC 4632 Advanced Keyboard Performance II 3 Credits
A continuation of Music 4536, Intermediate performance, and surveys of the piano repertoire from Romantics through 20th century (Romantic, Impressionistic and 20th Century). Classroom instruction is largely devoted to directed listening to the music. Reading assignments are given for outside work. This course is required prior to internship. Prerequisite: MUSC 4536.

MUSC 4641 Senior Voice (Non-music Majors Only) 3 Credits
A continuation of MUSC 3641-3642. Concert repertoire and public performance required.
MUSC 4642 Gospel and Spiritual Performance I
A two semester advanced course in religious music. The applied course will concentrate on familiar Negro gospel and spiritual songs. This course is prerequisite for all students expecting to intern in Sunday schools, Churches, or other institutions needing religious songs. (4642 and 4643 required before religious internship and passing jury examination).

MUSC 4643 Gospel and Spiritual Performance II 3 Credits
is the second part to gospel spiritual choral music. The course will concentrate on a collection of the “Standard” old songs, popular works of best known composers, of sacred songs, collection of Jubilee songs known as Spirituals, the rarest and prime favorites songs. This course is required for all students expecting to intern in Sunday schools, Churches, or other institutions needing religious songs.
Prerequisite: MUSC 4642

MUSC 4644 Applied Major Area—Voice (Music Majors Only) 1 Credit
A course devoted to the development of proficiency in a specific area of applied music selected by the student with the consent of advisor.

MUSC 4645 Musical Theatre 3 Credits
This course explores the origins of the Musical Theatre in the United States and the African American Contribution to the American Musical. Students will learn the different forms of musical theatre and develop a full production, with orchestra, scenery, choreography and choral.

MUSC 4690 Senior Voice Performance 3 Credits
An advanced applied voice course requiring major performance in SSU productions. The course reinforces what as previously been taught. The course is designed to provide students with an understanding of the difference aspect of vocal performance.
Prerequisites: MUSC 3645 and 4643. 100 hours of practicum

MUSC 4808 Chamber Organization (1st Semester) 1 Credit
A course that involves the official percussion ensemble of Savannah State University which studies and performs chamber and ensemble music. The group performs at various functions on and off campus in support of the university. Senior level.

MUSC 4809 Chamber Organization (2nd Semester) 1 Credit
A continuation of MUSC 4808.

MUSC 4999 Seminar/Pacticum/Internship 3 Credits
A senior level course with two components: 1) Off-campus, on-the-job observation and training with the students pursuing professional work in a variety of traditional and non-traditional careers appropriate to their academic program. An internship must be completed at 100 clock hours for 3 credits. 2). Students must have an understanding of the various kinds of research as well as knowledge in their field of concentration in preparation for graduate schools and vocational entry positions. Students must show competence and skills in their field of study, prepare for successful completion of the departmental exit examination, and prepare a marketable project in the field of study.
Prerequisite: completion of 30 credit hours in BFA major

Political Science

POLS 1101 American Government 3 Credits
A comprehensive study of the origins, principles, structures, processes, and practices of American government, emphasis on various perspectives on democratic theory and practice of governmental institutions.

POLS 2101 Introduction to Political Science 3 Credits
An introduction to the concepts, issues, and methods of the field of political science; emphasis on basic analytical skills, including research methods that will be important in subsequent course work.
Prerequisite: For upper level POLS courses for majors/minors

POLS 2201 State & Local Government 3 Credits
A study of the structure, powers, functions, and problems of state and local governments and their roles in the federal government system.

POLS 2401 Global Issues 3 Credits
An interdisciplinary approach to selected topics in contemporary societies, using the sociological, economic, geographic, and political perspectives; an opportunity to equip students to understand and meet the challenges of a rapidly changing world community.

POLS 2601 Introduction to Public Administration 3 Credits
An introduction to the field of management in the public, non-profit, and international sectors; an investigation of the growth and patterns of modern bureaucracies with a focus on the federal, state, and local governments in the United States; theories and practices with emphasis on administration processes, including organizational behavior, leadership, decision-making, budgeting, personnel administration, and policy development and implementations.

POLS 3101 International Politics 3 Credits
A survey of the basic factors that motivate international relations; an examination of the causes of war and the institutions and processes of conflict resolution.

POLS 3102 Comparative Government & Politics 3 Credits
A study of the methods, political environment, political structures, participation and socialization, public policy processes of selected political systems.

POLS 3121 International Law 3 Credits
A survey of the principles of international law relative to functions of states and other international entities, diplomatic relations, and laws of warfare, with special emphasis on the relationship between international law and politics.
Prerequisite: POLS 3101 or PSC 303

POLS 3131 International Organizations 3 Credits
A study of the origins and evolution of international organizations, with emphasis on the United Nations and specialized agencies; factors favoring and impeding their development and their effect on political, economic, and social issues.
Prerequisites: POLS 2101 or PSC 201, POLS 3101 or PSC 303

POLS/AFRS 3141 African Government & Politics 3 Credits
Introductory survey of political patterns, political processes, and political ideologies in Africa; an examination of the legacy of colonialism, process of modernization, and the problems of political instability.
Prerequisite: POLS 2101 or PSC 201

POLS 3201 American Judicial Process 3 Credits
An examination of the institutions and operations of the American judicial system, with emphasis on the national, state and local judiciaries.

POLS 3211 American Constitutional Law 3 Credits
A study of the basic principles of the United States Constitution and powers of the national and state governments, examined through Supreme Court
decisions. The course also examines constitutional protections of individual civil liberties and rights.

**POLS/AFRS 3221 Civil Rights & Liberties 3 Credits**
An examination of personal liberties guaranteed by the United States Constitution, including freedom of speech, religion, assembly, petition, the rights of privacy, and the right against age, sex, race, or economic discrimination.

**POLS 3231 American Presidency 3 Credits**
An introduction to the structure and behavior of the presidency; an examination of presidential elections, the organization of the office, and its relations to the other national political institutions.

**POLS 3301 Research Methods in Political Science 3 Credits**
An introduction to the quantitative and qualitative techniques for measurement, analysis, and inference of political data.

**POLS 3401 Administrative Law 3 Credits**
A study of cases illustrating how the conduct of public officials is regulated.

**POLS 3501 Public Personnel Administration 3 Credits**
An analysis of the methods and theories in personnel administration, including selection, training, promotion, performance evaluation, and disciplinary actions. Critical issues such as merit, affirmative action, organization, and employee strikes are examined.

**POLS 3511 Organization Theory & Behavior 3 Credits**
An investigation into contemporary organization theory and problems, including the determinants of organization design, structure, and process; performance; and the interrelationship between organization and individuals within the organization.

**POLS/AFRS 3601 African-American Politics 3 Credits**
An examination of black political movements, participation of African-Americans in the American political system, particularly the electoral process, the power structure in African-American communities.

**POLS 3701 Georgia Government & Politics 2 Credits**
A survey of Georgia state and local governmental institutions, functions, and processes, including the behavior of political leaders.

**POLS 3801 Gender & Politics 3 Credits**
An analysis of the interactions between gender roles and the political systems; emphasis on the impact of gender politics on socialization, leadership recruitment and political participation, policy-making, and health care research.

**POLS 3811 Urban Politics 3 Credits**
An examination of political patterns, political processes, political conflict in metropolitan areas; interrelationship between urban growth and change in political institutions, processes, and solutions to problems of large cities.

**POLS 3901 Internship Credit Varies**
An individually designed course/project involving off-campus study and research in a government or private agency; designed to require the full semester for completion; joint supervision of the sponsoring organization and the faculty advisor; credit arranged by the faculty advisor.

**POLS 4000 Special Topics 3 Credits**
Special topics course will allow for different courses to be offered based on various topics chosen by faculty members or resulting from student requests. This will allow for current issues to be addressed, as well as courses by visiting and adjunct faculty. The course will be taught as a regular course with several students attending the same classes and laboratories (if offered).

**POLS 4911 Directed Independent Study 3 Credits**
Independent study, on-line and print-based, is designed to offer the individual student an opportunity to explore subjects outside of the traditional classroom setting. The specific course requirements will be formulated by the student under the direction of a selected instructor who possesses expertise in the subject matter. A grade point average of 3.00 is required. Exceptions to the 3.00 average may be made for students under extenuating circumstances.

An independent study form must be signed by the instructor of record and the department chairperson prior to a student’s enrollment in the course. A statement regarding the conditions and credit/semester limits under which the course may be repeated must be clearly stated in the DESCRIPTION (may not be enrolled for more than 9 credits).

**POLS 4101/ENVS 4121 Environmental Law 3 Credits**
A study of the legal processes relating to resource conservation, utilization, and the monitoring, control, and abatement of pollution of air, land, and water.

**POLS 4201 Political Theory 3 Credits**
An examination of the theoretical approaches to the basic political concepts in their historical context.

**POLS 4221 American Political Thought 3 Credits**
A study of origins and development of American political thought from the colonial period to the present; emphasis on recent political ideologies.

**POLS 4221 American Political Thought 3 Credits**
A study of origins and development of American political thought from the colonial period to the present; emphasis on black political thought and current liberal-conservative debate.

**POLS 4311 Legislative Process 3 Credits**
An examination of the machinery and function of law making in the United States with emphasis on the United States Congress.

**POLS 4401 Politics of Less Developed Countries 3 Credits**
An introduction and examination of the political systems of selected countries in Africa, Asia, Caribbean, and Latin America.
Description of Courses

POLS 4501 The Media & Politics 3 Credits
An examination of the role of the media in American politics; includes the media’s impact on the electoral process and its role as a check on the president and other elected officials.

POLS 4511 Public Policy 3 Credits
A study of how the federal government perceives public issues, processes them, and executes public policies; an examination of the various decision-making theories; emphasis on case studies.
Prerequisite: POLS 1101 or PSC 200 and POLS 2601 or PSC 202

POLS 4521 Party Politics & Voting Behavior 3 Credits
An analysis of the evolution, nature, and role of American political parties; an examination of each of the major party systems and the literature on voting behavior with emphasis on the problems and methods of studying voting.

POLS 4601 American Foreign Policy 3 Credits
A survey of the objectives and the formulation of American foreign policy.
Prerequisite: POLS 1101 or PSC 200

POLS 4611 American National Security Policy 3 Credits
A study of organizations and processes involved in the formulation and execution of American national security policy; topics on nuclear strategy, bureaucratic politics, and the programming and budgeting process.
Prerequisite: POLS 1101 or PSC 200 or permission of instructor

POLS 4901 Senior Seminar 3 Credits
An examination of selected topics in political science. Open only to senior majors.
Prerequisite: Permission of the instructor

Psychology

PSYC 1101 Introduction to General Psychology 3 Credits
This introductory survey course explores the scientific study of human nature, behavior, and cognitive processes. The major areas of psychological study will be reviewed including history, biology, memory, learning, development, personality, abnormal and social psychology. Emphasis will be placed on applying psychological principles and data to life experiences.

PSYC 2103 Human Growth & Development 3 Credits
An introductory, non-laboratory based examination of human development across the life span with an emphasis on normal patterns of physical, cognitive and social development.

PSYC 3301 Social Psychology 3 Credits
A study of individuals and their social context, beginning with the study of the social behavior of animals and including human function in small groups, in societies, and in cross-cultural perspectives; attitudes, motives, and social perception will be emphasized.
Prerequisite: PSYC 1101, 3101

PSYC 3311 Group Process 3 Credits
A utilization of group dynamics and counseling techniques to develop self-awareness and team-awareness in managing the problems, stresses, and challenges of life. The course is designed to identify dysfunctional patterns and to move toward more effective and creative modes of functioning in the work, family, and community settings.
Prerequisite: PSYC 1101

PSYC 3401 Test & Measurements 3 Credits
An introduction to measurement which covers statistical methods, research designs and research problems and the administration and evaluation of psychological tests.
Prerequisite: PSYC 1101

PSYC 4101 Theories of Personality 3 Credits
An exploration of the theoretical basis of personality with emphasis on structure, dynamics, personality, development, normal and deviant behavior, attitudes, beliefs, and opinions.
Prerequisite: PSYC 1101, 3201

PSYC 4501 Humanistic Psychology 3 Credits
A study of the individual and his relationship; individual perception, personality, motivation and self-esteem as the bases for individual self-actualization in relationships with other individuals, organization, and society.

PSYC 4601 Diagnostic Psychology 3 Credits
An examination of the traditions and controversies that arise in diagnosing psychiatric disorders, with specific attention to diagnostic principles, procedures, assessment, techniques, testing, and socio-cultural factors.
Prerequisite: PSYC 1101

PSYC 4701 Abnormal Psychology 3 Credits
Covers the contemporary approach to the description and understanding of maladaptive and pathological human processes. The varieties of abnormal experiences and behavior will be presented and discussed. The study method will be used in providing a comprehensive review of current approaches to the recognition and categorization of mental disorders. Causes and treatment of psychopathology will be discussed.

Religious and Philosophical Studies

RPHS 2101 Introduction to Philosophy 3 Credits
The basic survey course of the field of philosophy. An introduction to logic, ethics, ontology, and religion, etc., as a basis for additional study in philosophy. Required for minors.

RPHS 3101 Philosophy & Psychology of Religion 3 Credits
A study of philosophical concepts associated with religion and the psychology of the religious experience. Team-taught with a member of the Department of Social and Behavioral Sciences.
Prerequisite: RPHS 2101 or permission of the instructor

RPHS 3102 Philosophy & Psychology of Love 3 Credits
A study of the nature of love, using philosophical as well as psychological sources.
Prerequisite: RPHS 2101 or permission of the instructor

RPHS 3103 Philosophy of Film 3 Credits
This course is a study of major theoretical issues relating to film and the cinematic experience. We will focus our study on four central issues in film theory. 1) The relationship between the camera, the object filmed, and the object projected on the screen. What is it we see when we watch a film? To what extent is film realistic or expressionistic? 2) The voyeuristic character of the cinema. What has Freudian psychoanalysis contributed to the knowledge of the cinema? 3) The boundaries of time and space created by
the film’s image. Where does the film event occur? What is the context for the film event? 4) The film industry’s relation to social conditions in America, through the depiction of men, women, minorities, and economic classes in the United States and around the world. How also does the economics of Hollywood affect the American aesthetic?

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 3111 Principles of Logic 3 Credits**

An introduction to the systematic study of reasoning from the time of Aristotle and Plato through such modern thinkers as Boole and Toulmin.

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 3121 (Also ENGL 3121) The Bible as Literature 3 Credits**

A critical survey of the various forms of literature in the Old and New Testaments.

Prerequisite: ENGL 1102 or permission of the instructor

**RPHS 3231 Introduction to Eastern Religions 3 Credits**

A study of the teachings of Taoism, Confucianism, Hinduism, and the various sects of Buddhism.

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 4211 Philosophies of the African-American Experience 3 Credits**

A study of philosophical analyses and reflections relevant to the experiences of African-Americans. Will consider works and ideas of such historical figures as W.E.B. Du Bois and Alain Locke and contemporary thinkers such as bell hooks.

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 4221 The Jewish & Islamic Traditions 3 Credits**

A study of religious thought as it has influenced the Old Testament, the New Testament, and the Koran.

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 4241 Ethics 3 Credits**

A survey of the various systems of ethics found in the world’s religions and in the writings of the world’s great philosophers, such as Confucius, Aristotle, Socrates, Mill, James, and Santayana.

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 4311 Mysticism 3 Credits**

A survey of the common threads of mysticism found in Hinduism, Buddhism, the Sufi sect of Islam, Christianity, and the literature of Persia, China, Japan, India, and western civilization.

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 4411 Philosophical Issues 3 Credits**

An exploration of such topics as the nature of being, freedom and determinism, language and meaning, the concept of beauty, and the mystery of death.

Prerequisite: RPHS 2101 or permission of the instructor

**RPHS 4601 Special Topics in Religion 3 Credits**

A study of topics of special interest to students and instructors. Subjects could include types of religious belief (such as indigenous religions of Africa and the Americas), approaches to religious thought or experience (such as feminist theology, mysticism, or transcendentalism), or topics that stimulate religious thinking (such as love, friendship, death, the nature of the soul, the nature of evil).

Prerequisite: RPHS 2101 or permission of the instructor

**Social Work**

**SOWK/SoCI 2101 Social Statistics 3 Credits**

This is an introduction to statistical methods course that students encounter in social science literature. Students are trained in the application of data processing techniques to the manipulation of data for the purposes of constructing variables and analyzing variable relationships. Mathematical derivations are not stressed. Students learn through application. Students are introduced to the statistical package.

Prerequisite: MATH 1111 or MAT 107

**SOWK 2200 Human Needs & Human Services 3 Credits**

This is the gateway course to the undergraduate Bachelor of Social Work (BSW) degree. It provides and introduction to human services and the profession of social work, including opportunities and career choices available to human services professionals. Students are exposed to the range of problems and social issues that require individuals and groups to seek help. This course clarifies perceptions of the profession and its organizational response to human needs. Students are afforded opportunities to interact with professional social workers. Required for the social work major, but open to all majors.

Prerequisite: Sophomore standing

**SOWK 2205 History of Social Welfare & Social Policy 3 Credits**

This is the first course in the policy sequences. It provides an introduction to the historical significance of social values on the development of social welfare policies and programs. Concepts relative to social welfare developments are introduced. Students are introduced to beginning level assessment skills of social problems, social programs, and policy analysis.

Prerequisites: SOWK 2200 and admission to the major

**SOWK 3101 Research Methods II 3 Credits**

This course enables students to understand and apply scientific thought and procedures to social work practice. Emphasis is on the research process and its relevance for social work practice (i.e., conducting a thorough literature review, conceptualizing and operationalizing variables, formulating hypotheses, developing tools of data collection, selecting techniques of data collection, conducting an analysis, and preparing a research report to enhance social work practice).

Prerequisites: SOWK 2101/SoCI 2101, 2205, 3201, 3305, and instructor permission

**SOWK 3201 Human Behavior & the Social Environment I 3 Credits**

This first course in the human behavior sequence studies the bio-psycho-social, cultural and spiritual influences on the life cycle from pre-birth through adolescence. Emphasis is on understanding the interactions between individuals, groups, institutions and communities and their environments from various perspectives including a systems, ecological, strengths, diversity, and human development. Restricted to social work majors.

Prerequisites: SOWK 2200 and admission to major
SOWK 3202 Human Behavior & the Social Environment II 3 Credits
The second course in the human behavior sequence continues the examination of the bio-psycho-social, cultural and spiritual influences on the life cycle from late adolescence/early adulthood through old age and death. Emphasis is on understanding the interactions between individuals, groups, institutions and communities and their environments from various perspectives including a systems, ecological, strengths, diversity, and human development. Restricted to social work majors.
Prerequisites: SOWK 2205, 3201, 3305

SOWK 3220 Human Diversity & Social Work Practice 3 Credits
This course offers a critical analysis and understanding of social work practice with client populations from diverse backgrounds (i.e., social class, culture, geography, disability, gender, age, sexual orientation, among others). Course content emphasizes the use of self-awareness as a tool used to enhance cultural competency skills for generalist practice. Restricted to social work majors.
Prerequisite: SOWK 2200 and admission to major

SOWK 3305 Introduction to Social Work Practice 3 Credits
This course, the first of four methods courses in the practice sequence, introduces students to the professional practice of social work. Course content includes the history of the development of social work as a profession including social upheavals and the influence of social movements on service delivery. This course provides a survey of different approaches to the delivery of social services especially from a medical to a participatory empowerment model. The problem-solving method, various field settings in which social work is practiced, and interviewing as a skill are introduced. Students are expected to complete volunteer service in an approved human service agency. Restricted to social work majors.
Prerequisite: SOWK 2200 and admission to major

SOWK 3340 Interventive Methods I 3 Credits
This second course in the practice sequence is designed to assist students in developing interpersonal skills clients at the micro and mezzo levels of generalist practice. Students develop personal skills and enhance their self-awareness using various methods of interventions applied via case studies, role plays, logs and other forms of demonstrations. Restricted to social work majors.
Prerequisites: SOWK 2205, 3201, 3305

SOWK 3341 Interventive Methods II 3 Credits
This third course in the practice sequence, is taken in conjunction with the first field practicum sequence course SOWK 4701. The course focuses on practice approaches, problem solving, and intervention modalities using the systems perspective at the mezzo level of generalist practice. Restricted to social work majors.
Prerequisites: SOWK 3340; Corequisites: SOWK 4701, 4901

SOWK 3342 Interventive Methods III 3 Credits
The final course in the practice sequence emphasizes macro level interventions with large entities such as institutions, organizations, communities, and neighborhoods, rural and urban, nationally and internationally. Utilizing multiple roles of the generalist worker and integrating knowledge from social policy, students learn to be data gatherers, analysts, consultants, mobilizers, advocates, activists, leaders, and promoters of social justice as they implement corrective methods to system dysfunctions and attendant problems on people’s lives. Methods III is taken in conjunction with the final field practicum course SOWK 4702. Restricted to social work major.
Prerequisites: SOWK 2205, 3201, 3202, 3305, 3340, 3341; Corequisites: SOWK 4702, 4902

SOWK 4106 Social Work with Families & Children 3 Credits
A course designed to give social work majors comprehensive exposure and a historical perspective to the concept of family and child welfare (FCW) as a societal concern and as an area of practice in social work. The course analyzes social policies and service delivery relevant for families and children. This is the first of two courses required for BSW Title IV-E Child Welfare Recipients. This is an elective course for non IV-E social work students and other interested majors.
Prerequisites: Junior standing or consent of instructor

SOWK 4201 Gerontological Social Work 3 Credits
This course offers an overview of social work theory and practice on aging and older adult populations. Emphasis is placed on the bio-psycho-social, cultural, spiritual, economic and health needs of the elderly with particular attention to policies, programs, and intervention strategies of intervention that meet the needs of the older adult population. Elective course open to all majors at Junior level and above.
Prerequisites: Junior standing or consent of instructor

SOWK 4301 Substance Abuse Intervention Strategies 3 Credits
A survey of issues, personality factors, physiological and psychological effects, and treatment processes associated with substance abuse. Emphasis is on the specific effects of different drug classifications; understanding drug cultures; women, children, elderly and ethnic group addiction; and co-dependency and enabling. Open to all majors at Junior level and above.
Prerequisites: SOWK 2205, 3201, 3305, or instructor permission

SOWK 4410 Implementation of Social Welfare Policies 3 Credits
The second course in the policy sequence provides students with critical analytical and assessment skills essential to understanding the purpose and function of social policy. Students are required to analyze several policies. Restricted to social work majors.
Prerequisites: SOWK 2205, 3201, 3202, 3340

SOWK 4510 Crisis Intervention 3 Credits
An examination of the theories and techniques of short-term intervention and subsequent referral procedures. Topics include suicide, battering, HIV/AIDS, rape, death, dying, and communities experiencing disasters such as hurricanes, flood, and air crashes. Elective course open to all interested majors.
Prerequisites: SOWK 2205, 3201, 3305

SOWK 4701 Field Experience I 6 Credits
This is the first of a two-part senior field practicum sequence. Students are assigned to social service agencies (field placement) to observe and engage in generalist social work practice. Students are provided opportunities to apply social work knowledge, values, and skills acquired in the classroom to social service delivery systems under structured supervision with a professional social worker. Student interns must complete 20 hours per week for a total of 300 field practicum hours. Restricted to social work majors.
Prerequisites: Completion of the BSW Foundation Content and Liberal Arts Core (SOWK 2205, 3101, 3102, 3201, 3305, 3340, and senior standing); Corequisites: SOWK 3341, 4410

SOWK 4702 Field Experience II 6 Credits
This is the second course in the senior field practicum sequence. Students typically continue their assigned field placement from SOWK 4701 and are expected to apply advanced generalist techniques. Integration of social work knowledge, values, and skills is strengthened as students move
towards greater independent practice in their field placement. Students must complete 20 hours per week for a total of 300 field practicum hours. Restricted to social work majors.

Prerequisites: SOWK 3341, 4701, 4901; Corequisites: SOWK 3342, Senior Standing

SOWK 4901 Senior Seminar I 3 Credits
This is part of one a two-semester capstone course for the BSW major. This course is an integrative reflective experience for students as they approach the end of their BSW studies. Students utilize social work ethics and values as central themes to guided discussions, group exercises, and written assignments designed to facilitate and insure the integration of social work methods, knowledge, and skills for effective generalist practice. Students prepare for final senior exit requirement as determined by the department. Restricted to social work majors enrolled in SOWK 4701.

Prerequisite: Senior standing; Corequisites: SOWK 3341, 4701

SOWK 4902 Senior Seminar II 3 Credits
This is part two of the sequence capstone course for the BSW major. Students are required to complete a major presentation of their field practicum experience, which they will orally defend, integrating a generalist understanding of social work. The course outcomes should reflect the student’s perspective on social work practice and should include their BSW experience in terms of social work core course, electives, volunteer experiences, field practica, class discussions, and professional meetings and conferences. Restricted to social work majors.

Prerequisite: SOWK 4901; Corequisites: SOWK 3342, 4701

SOWK 5501 Law, Race & Poverty in the Welfare of Children 3 Credits
This course is required for BSW senior social work majors and MSW 1st Year students who are Title IV-E Child Welfare recipients. The course focuses on differential application of law on child welfare issues and the interventions of human service workers. Emphasis is on child abuse and neglect, separation and loss, foster care, kinship care, the courts and legal issues related to decision-making.

Prerequisites: Senior status or instructor permission

SOWK 6000 Special Topics 3 Credits
Special topics course will allow for different courses to be offered based on various topics chosen by faculty members or resulting from student requests. This will allow for current issues to be addressed, as well as courses by visiting and adjunct faculty. The course will be taught as a regular course with several students attending the same classes and laboratories (if offered). If a special topic is offered more than once per two-year period, it will be submitted for formal approval through regular university procedures. A course outline and syllabus will be submitted to and approved by the department chair prior to scheduling of course.

Prerequisite: Consent of instructor

SOWK 6100 Independent Study 3 Credits
Independent Study, on-line and print-based, is designed to offer the individual student an opportunity to explore subjects outside of the traditional classroom setting. The specific course requirements will be formulated by the student under the direction of a selected instructor who possesses expertise in the subject matter. A grade point average of 3.00 is required. Exceptions to the 3.00 average may be made for students under extenuating circumstances.

An independent study form must be signed by the instructor of record and the department chairperson to a student’s enrollment in the course. A statement regarding the conditions and credit/semester limits under which the course may be repeated must be clearly stated in the DESCRIPTION (may not be enrolled for more than 9 credits).

Prerequisites: Consent of instructor with approval of Department Chair

Sociology

SOCI 1101 Introduction to Sociology 3 Credits
An analysis of contemporary society and North American culture and its major institutional forms (the family, religion, education, economic and political systems).

SOCI 1160 Social Problems 3 Credits
A survey and analysis of social problems, their interrelationships and linkage to social institutions in contemporary North American society.

SOCI/SOWK 2101 Social Statistics 3 Credits
An introduction to statistical methods relevant to sociological research, social work theory and practice, and the social sciences in general; the integration of user-friendly statistical software packages in the social sciences (e.g. CHIPPENDALE SHOWCASE).

SOCI 3101 The Family 3 Credits
A study of the role of the family in the development of the individual family formation and disintegration, cross-cultural and sub-cultural variations in family structure and experience, and the future of the family.

Prerequisite: SOCI 1101

SOCI 3122 Sociology of Poverty 3 Credits
This course examines theories on the causes of poverty and provides an examination of empirical studies concerning the trends and determinants of poverty.

SOCI 3201 Classical Theory 3 Credits
This course will focus on the pivotal theories contributed not only to the development of the field of sociology but also to the evolution of ideas concerning social life.

Prerequisite: SOCI 1101

SOCI 3219 Deviance & Conformity 3 Credits
This course will introduce students to the various theories, concepts and forms of deviant behavior.

SOCI 3301 Sociology of Aging 3 Credits
This course examines aging, including ageism, the changing roles and relationships of elders in society as well as theories and concepts of aging.

SOCI/SOWK 3401 Social Research Methods 3 Credits
The methods and techniques of social science research, research design, methods of data gathering and analysis, sampling and survey research techniques, and interpretation and presentation of research findings.

Prerequisite: SOCI 2101

SOCI 3425 Sex, Roles & Gender 3 Credits
This cross examines the evolutionary and cross-cultural analysis of sex roles in human societies with a special focus on the relative status of women.

Prerequisite: SOCI 1101

SOCI/AFRS 3611 Minorities & the Social Environment 3 Credits
An examination of the problems faced by minority groups in American society, especially where skin color and language pose social, cultural, and economic barriers; an examination of conflicts between dominant public attitudes and minorities, and among minority groups such as Black...
Description of Courses

SOCI 3621 Demography 3 Credits
An examination of social, economic, political, and environmental factors as they relate to population growth, composition, and distribution. The course considers how population change affects the structure and organization of societal institutions and focuses on basic demographics analysis as well as on past and current population trends and issues.
Prerequisite: SOCI 1101 or SOCI 1150

SOCI 3631 Urban Sociology 3 Credits
A sociological study of the city, its growth, characteristics, and problems in the United States and elsewhere; an introduction to the literature, empirical data, and research on the urban phenomenon. The course provides conceptual clarity and understanding of the urban and urbanization process.

SOCI 3651 Sociology of Religion 3 Credits
The analysis of religion as a social institution and cultural phenomenon; cross-cultural studies of religious belief; symbol and ritual; the role and future of religion in secular society.

SOCI 3901 Internship Credit Varies
An individual-designed project involving off-campus study, research, and where applicable, work in a public or private agency; supervised by the sponsoring agency and faculty advisor; a stipend may be arranged for some work-related projects.

SOCI 4101 Individual Study & Independent Research 3 Credits
Independent reading or research in selected areas of sociological interest; supervised by a department member.

SOCI 4111 Criminology 3 Credits
An investigation of crime and the criminal in modern, especially, urban society; a sociological examination of the causes of crime, its impact on major social institutions, methods of treatment, and preventive programs.

SOCI 4135 Sociology of Law 3 Credits
This course will also examine work of theorists who proposed and popularized various concepts, theories, and paradigms relevant to the study of law and society.

SOCI 4131 Juvenile Delinquency 3 Credits
This course is designed to provide students with an overview of the social dimensions of juvenile delinquency, its nature, extent, distribution, prevention and control.

SOCI 4312 Contemporary Theory 3 Credits
An examination of the contemporary and classical theoretical models in sociology; an investigation of the development of social thought from the Afro centric and the Euro centric perspectives.
Prerequisite: SOCI 1101

SOCI 4421/AFRS 4421 Seminar on the African-American Experience 3 Credits
A study of historic and current trends in selected sociological frames of reference of experiences encountered by Black people in the United States; emphasis on social movement and social change, urban life, institutional forms (family, religion, education), and political and economic struggles and achievements.

SOCI 4901 Senior Seminar 3 Credits
A comprehensive review of sociological concepts, theories, and topics, including research methodology and statistical concepts. Students interested in pursuing graduate study in sociology are encouraged to enroll in this course.
Prerequisite: SOCI 3401 or permission of the instructor

Speech

SPEH 1101 Principles of Speech 1 Credit
Study and practice in speech preparation and delivery. Elements of speech production, types of speeches, and oral interpretation are emphasized. Fall and Spring. (3-0-3)
Prerequisite: Sophomore standing

*SPEH 2101 Voice and Diction 3 Credits
Study and practice in effective voice production, with emphasis upon breath control, posture, articulation and pronunciation. Fall. (3-0-3)

*SPEH 2111 Oral Interpretation 3 Credits
Intensive study and practice in the oral interpretation of poetry, prose, and drama. Individual activity primarily emphasized. Fall. (3-0-3)

SPEH 4101 Advanced Speech 3 Credits
A course emphasizing self-improvement in all phases of diction and delivery and providing experience in various speaking situations.
Prerequisite: SPEH 1101

Theatre

THEA 2101 Introduction to Theatre 3 Credits
Focus on the components of theatre, its past and present history, its major shapers and movers, and how to develop an appreciation of the theatre experience. For non-theatre minors. Fall and Spring. (3-0-3)

THEA 2601 Stagecraft 3 Credits
A course on backstage equipment, how to use it to maximum effort with safety, speech, and efficiency, THEA 2601 will focus on the practical aspects of lighting and production. Students will word with a variety of equipment available to meet the lighting demands of a production.

THEA 3004 Scene Design 3 Credits
An exploration and investigation of scenic design. The course will explore and analyze modern scenic elements used in the various play genres. The art and skills required in designing scenery are explored in detail. This includes the developing models, plans, and color schemes for student productions.

THEA 3101 Acting I 3 Credits
Designed to teach performers the basic fundamentals and techniques of acting. Students learn to control the body's creative energy by participating in exercises as solo acting, duo acting and basic audition.

THEA 3122 Movement I 3 Credits
An introduction course to stage movement and kinetic practice and intentions.

THEA 3123 Movement II 3 Credits
A continuation of Movement I, Movement II covers the basic principles for developing fitness and examines the means by which one becomes an actress through improvisation, scene study and improvising play.
Prerequisite: THEA 3122

111
THEA 3125 Stage Make Up & Costumes 3 Credits
A systematic study of form, line, balance, tone, shade, value and pattern with reference to the human form and its costume. The basic principles and practice in make-up, stage, screen, and television are used. Students will practice in using cosmetics, wigs, hairpieces, and facial prosthetics and masks.

THEA 4051 Black American Theatre & Performance 3 Credits
Will cover significant development in the American Black Theatre since 1900 as reflected through the major playwrights and theatre organizations.

THEA 4055 Theatre History I 3 Credits
Covers theatre history, dramatic literature and theory from Italian to the Pre-Algdern era. The physical theatre and culture of the period will be studied as they affect the theatre of each period.

THEA 4101 Acting II 3 Credits
A laboratory class providing practical experiences within the area of acting as demonstrated in Acting I. Students enrolled in this class are required to complete one modern scene study assignment for production and one complete audition that entails two contrasting monologues. This course works toward a culminating activity, which is a one-act modern play to be performed for jury.
Prerequisite: THEA 3101

THEA 4103 Advanced Acting/TV/Cinema 3 Credits
Offers advanced work in special problems of applying acting techniques to the demands of modern media. Practicum experience is designed for television and cinema. The course leads the actor/student to a finished mini-production of either a television or film project.

THEA 4104 Acting III 3 Credits
Studies the problems and techniques in periods and styles through intensive scene study and performance of Greek, Shakespearean and Romantic works.
Prerequisites: THEA 4101, 4103

THEA 4105 Playwriting 3 Credits
A laboratory course that explores dramatic writing including study and practice in writing for the modern stage. This course will be conducted upon the principles of critical readings, script analysis, and dramatic genres.

THEA 4111 Performance/Production/Management 3 Credits
Permits the student to learn through theatre production, marketing strategies, front of house duties, fundraising and proposal writing, and the roles and responsibilities of a producer.

THEA 4211 Auditioning and Directing
Explores elementary principles of stage plays, practice work in directing and auditioning, and one-act plays; attention is given to the principles of selecting, casting, and rehearsing of plays through exercises, lectures, and demonstrations.
Prerequisite: completion of 18 credits hours in Concentration area
College of Sciences and Technology

Biology

BIOL 1001 Introduction to Life Science 1 Credit
Introduction to the biological sciences, career exploration, and the responsibilities of professionals in these careers. (1-0-1) Freshman elective course for Biology Major.

BIOL 1103 General Biology 3 Credits
Chemistry of life cell structure and function, metabolism, cellular respiration, photosynthesis, plant and animal organization and growth, origin and evolution of life, ecosystems, and the biosphere. (3-0-3)

BIOL 1103L General Biology Lab 1 Credit
Lab taken concurrently with BIOL 1103. (0-2-1)

BIOL 1104 Human Biology 3 Credits
Human organization, functions of various organ systems in humans, development, the biosphere and inheritance; human population concerns. (3-0-3)

BIOL 1104L Human Biology Lab 1 Credit
Lab taken concurrently with BIOL 1104. (0-2-1)

BIOL 1107 Principles of Biology I 4 Credits
Introduction to broad themes in biology, with emphasis on chemistry and origin and evolution of life, metabolic diversity and regulation, cell structure and function, classical genetics, macromolecular synthesis (including proteins), recombinant DNA, and biotechnology. (3-0-3) Prerequisites: CHEM 1211 (For biology, marine science and environmental science majors)

BIOL 1107L Principles of Biology I Lab 1 Credit
Lab taken concurrently with BIOL 1107. (0-2-1)

BIOL 1108 Principles of Biology II 4 Credits
Introduction to organismal and developmental biology; structure and physiology of plants and animals relative to their evolution and adaptation to different environments, classification, comparative and diverse adaptations in the biological kingdoms, neural and endocrine control processes, and immunology. (3-0-3) Prerequisites: CHEM 1212 and BIOL 1107

BIOL 1108L Principles of Biology II Lab 1 Credit
Lab taken concurrently with BIOL 1108. (0-2-1)

BIOL 1401 Introduction to Biological Chemistry 2 Credits
Basic principles and concepts of biology, life and living organisms, basic and applied biology, and an overview of the interface between biology and chemistry. (2-0-2)

BIOL 2401 Ecology & Evolutionary Biology 3 Credits
Mechanisms of evolution in relation to the genetics of plants, animals, and man; speciation and natural selection; ecological processes in the development, structure, and organization of biomes; biogeography; population ecology; communities, and ecosystems; species interactions; and the evolution of behavior. (3-0-3) Prerequisite: BIOL 1108

BIOL 2401L Ecology & Evolutionary Biology Lab 1 Credit
Lab taken concurrently with BIOL 2401.

BIOL 2515K Human Anatomy & Physiology I 4 Credits
Gross anatomy, histology and physiology of human organ systems (Not for biology majors; Non-majors course intended for health profession students). (3-3-4) Prerequisite: BIOL 1103 or BIOL 1104 or CHEM 1211 or consent of instructor

BIOL 2516K Human Anatomy & Physiology II 4 Credits
A comprehensive study of the structure, location and functions of the organs and systems of the human body. Gross anatomy, histology, micro and macroscopic study of organs especially nervous, musculo-skeletal, endocrine and reproductive systems. (3-2-4) Prerequisite: BIOL 2515K

BIOL 3000 Laboratory Techniques for Medical Science 3 Credits
Procedures involved in urinalysis, hematology, blood-banking, parasitology, and tissue examination. (1-4-3) Prerequisite: BIOL 1108

BIOL 3101 General Botany 3 Credits
An introduction to general principles of plant life with special emphasis given to cellular organization, anatomy, physiology, inheritance, taxonomy, and modern aspects of plant science, such as plant biotechnology and genetic engineering. (3-0-3) Prerequisite: BIOL 1108

BIOL 3101L General Botany Lab 1 Credit
Lab taken concurrently with BIOL 3101. (0-2-1)

BIOL 3201 Cell Biology 3 Credits
An introduction to general principles of plant life with special emphasis given to cellular organization, anatomy, physiology, inheritance, taxonomy, and modern aspects of plant science, such as plant biotechnology and genetic engineering. (3-0-3) Prerequisite: BIOL 1108

BIOL 3201L General Botany Lab 1 Credit
Lab taken concurrently with BIOL 3201. (0-2-1)

BIOL 3201 Cell Biology Laboratory 1 Credit
Lab taken concurrently with BIOL 3201. (0-2-1)

BIOL 3211 Zoology 3 Credits
A study of major phyla of invertebrate animals, morphology, physiology, life histories, and taxonomic relationships of selected representatives of groups and an intense survey of the morphology, taxonomy, physiology, behavior, and ecology of the chordates, with attention given to basic principles and theories. (3-0-3) Prerequisite: BIOL 1108

BIOL 3211L Zoology Lab 1 Credit
Lab taken concurrently with BIOL 3211. (0-2-1)

BIOL 3301 Genetics 3 Credits
The principles of genetic analysis and the nature of genes. Discussion of the chromosomal and the molecular basis of transmission, replication, mutation, and expression of heritable characteristics. Includes modern developments in genetics, such as the physical nature and fine structure of the gene, its relationship to proteins, protein synthesis, growth, and differentiation and regulation of gene function. (3-0-3) Prerequisite: BIOL 1108

BIOL 3301L Genetics Lab 1 Credit
Lab taken concurrently with BIOL 3301. (0-2-1)
BIOL 3201 Microbiology 3 Credits
Introduction to origin, diversity, anatomy, and physiology of microorganisms; principles of immunology; environmental and applied microbiology. (3-0-3)
Prerequisite: BIOL 1108

BIOL 3201L Microbiology Lab 1 Credit
Lab taken concurrently with BIOL 3201. (0-2-1)

BIOL 3501 Animal Behavior 3 Credits
Ethisological approach to animal behavior; physiological, ontogenetic, and phylogenetic causes and adaptive significance of behavior are examined. Principles of animal behavior are studied, emphasizing social organization, communication, and genetic development. (3-0-3)
Prerequisite: BIOL 1108

BIOL 3501L Animal Behavior Lab 1 Credit
Lab taken concurrently with BIOL 3501. (0-2-1)

BIOL 3511 Vertebrate Anatomy 3 Credits
Comparative studies of structures, across the vertebrate phylum. Includes analysis of evolutionary changes in vertebrates. (3-0-3)
Prerequisite: BIOL 1108

BIOL 3511L Vertebrate Anatomy Lab 1 Credit
Lab taken concurrently with BIOL 3511. (0-2-1)

BIOL 3601K Biocomputing 4 Credits
An introduction to a broad range of computational tools and methods, which can be used to solve biological and statistical problems. Emphasis on computational analysis of nucleic acid and protein structure, and structure-function relationships. (3-2-4)
Prerequisites: CSCI 1130 and BIOL 1108

BIOL 3621 Urban Health & Hygiene 3 Credits
An introduction to a variety of environmental and occupational health hazards of an urbanized society. Covers biological and health effects of environmental pollutants, disease vectors, food and housing sanitation, and principles of industrial hygiene. Social and psychological stresses environmental health planning and management are also discussed. (3-0-3)
Prerequisite: Junior standing

BIOL 3701 Bioethics 1 Credit
A course designed to promote responsible conduct of science. Topics covered include scientific integrity, misconduct in science, conflict of interest, plagiarism, informed consent, data management, animal welfare, laboratory safety, responsible authorship, intellectual property, copyright and patents. (1-0-1)
Prerequisite: Instructor’s approval

BIOL 3801 Animal Physiology 3 Credits
A study of vertebrate systemic physiological processes. Topics covered are bioenergetics, temperature regulation, endocrine control mechanisms; digestive, urinary, cardiac, respiratory, excretory, and reproductive systems; membranes; and neurophysiology. (3-0-3)
Prerequisite: BIOL 3201

BIOL 3801L Animal Physiology Lab 1 Credit
Lab may be taken concurrently with BIOL 3801. (0-2-1)

BIOL 4201 Toxicology 3 Credits
General principles of toxicology, testing procedures, target organs, toxic substances, and risk assessment. Emphasis is on the mechanisms involved in chemical carcinogenesis, mutagenesis, and teratogenesis. (3-0-3)
Prerequisites: BIOL 1108 and CHEM 3511

BIOL 4211 Reproductive Biology 3 Credits
Comparative anatomy, physiology, and endocrinology of male and female reproductive systems with emphasis on gametogenesis, early embryonic development, and mechanisms of birth control in humans. (3-0-3)
Prerequisite: BIOL 3201

BIOL 4211L Reproductive Biology Lab 1 Credit
Lab taken concurrently with BIOL 4211. (0-2-1)

BIOL 4270 Mycology 3 Credits
Ecology, physiology systematics, development of microfungi and organisms of general, industrial, and economic importance. (3-0-3)
Prerequisite: BIOL 3321

BIOL 4270L Mycology Lab 1 Credit
Lab taken concurrently with BIOL 4270. (0-2-1)

BIOL 4301 Biotechnology-An Overview 3 Credits
An overview of principles and techniques involved in biotechnology. The impact of biotechnology on mankind, with reference to its applications in agriculture, medicine, horticulture, forestry, fisheries, and environmental protection is discussed. (3-0-3)
Prerequisites: Any one of the following or its equivalent-BIOL 2201, 3301, CHEM 4101

BIOL 4301L Biotechnology-An Overview Lab 1 Credit
Lab taken concurrently with BIOL 4301. (0-3-1)

BIOL 4411 Genetic Engineering Technology I 3 Credits
A basic understanding of molecular biology and its applications. Concepts and principles of recombinant DNA technology, its relevance to generic engineering, and its uses in basic and applied biology. Molecular mechanisms of gene transfer, integration and expression of foreign gene(s) in target tissues/organisms. (3-0-3)
Prerequisite: Any one of the following or its equivalent-BIOL 2201, 3301, 4301, CHEM 4101

BIOL 4411L Genetic Engineering Technology I Lab 1 Credit
Lab taken concurrently with BIOL 4411. (0-3-1)

BIOL 4412 Genetic Engineering Technology II 4 Credits
Principles and applications of biotechnology/molecular biology laboratory methods. Use recombinant DNA technology, gene transfer, regeneration of transgenics, analysis of transgene expression and other related techniques in biotechnology/molecular biology research. (1-5-4)
Prerequisites: BIOL 4301 or 4411, junior standing and the consent of the instructor

BIOL 4601 Neuroscience 3 Credits
A study of neural function from the cellular through the behavioral levels. Analysis of neural structures and functions from the perspectives of electrophysiology, neurotransmitter mechanisms and pharmacology, neural networks, and comparative neuroanatomy. (3-0-3)
Prerequisites: BIOL 3201; 3511

BIOL 4601L Neuroscience Lab 1 Credit
Lab taken concurrently with BIOL 4601. (0-2-1)
BIOL 4611 Developmental Biology 3 Credits
The study of organismal development, with an emphasis on animal systems. Course will include an analysis of genetic and hormonal factors during embryonic differentiation, with a perspective on phylogenetic relationships. (3-0-3)
Prerequisites: BIOL 3201, 3301, and 3511

BIOL 4611L Developmental Biology Lab 1 Credit
Lab taken concurrently with BIOL 4611. (0-3-1)

BIOL 4631 Endocrinology 3 Credits
Physiology of the endocrine glands and their control of metabolism and reproductive cycles. (3-0-3)
Prerequisites: BIOL 3201 and 3801

BIOL 4631L Endocrinology Lab 1 Credit
Lab taken concurrently with BIOL 4631. (0-2-1)

BIOL 4641 Parasitology 3 Credits
General principles of parasitism; classification, morphology, and life cycle of parasites of vertebrates, and immunoparasitology. (3-0-3)
Prerequisite: BIOL 1108

BIOL 4641L Parasitology Lab 1 Credit
Lab taken concurrently with BIOL 4641. (0-2-1)

BIOL 4651 Physiological Chemistry 3 Credits
Advanced biological chemistry, emphasizing intermediary metabolism, and regulation of metabolic pathways. New developments in metabolism, role of enzymes and enzyme kinetics involving chemistry of liver, kidney, respiratory functions will be stressed. (3-0-3)
Prerequisite: BIOL 3201

BIOL 4651L Physiological Chemistry Lab 1 Credit
Lab taken concurrently with BIOL 4651. (0-2-1)

BIOL 4681 Immunology 3 Credits
Introduction to the study of infection and immunity in disease, cell-mediated and humoral immunity, immunological methods, and immunoochemistry. (3-0-3)
Prerequisites: BIOL 3201, 3321

BIOL 4681L Immunology Lab 1 Credit
Lab taken concurrently with BIOL 4681. (0-2-1)

BIOL 4701 Molecular Genetics 3 Credits
A study of molecular basis of inheritance with emphasis on the chemical nature of the gene, DNA replication, transcription, translation, and regulation of gene expression. The practical aspects include gene cloning, sequencing, and other recombinant techniques. (3-0-3)
Prerequisite: BIOL 3301

BIOL 4701L Molecular Genetics Lab 1 Credit
Practical laboratory exercises in gene cloning, sequencing and other recombinant DNA techniques. (0-2-1)

BIOL 4711 Molecular Biology 3 Credits
Detailed analysis of structure and ultrastructure of the cell; biochemistry, biophysics, physiology, and molecular genetics. (3-0-3)
Prerequisites: CHEM 3501, BIOL 2201 and 3301

BIOL 4711L Molecular Biology Lab 1 Credit
Lab taken concurrently with BIOL 4711. (0-2-1)

BIOL 4901 Senior Seminar 1 Credit
This course will provide instruction on researching and presenting a review of an area of specialized knowledge relevant to the students program of study. Students will produce written and oral reports that summarize the material. If the student is also required to complete Senior Research/Internship (4902), then the research work should be planned as part of the reports. (1-0-1)
Prerequisite: Completion of 3000 level of core curriculum

BIOL 4902 Senior Research/Internship 1-3 Credits
A research project under faculty supervision, which includes researching the background on a given problem, defining a hypothesis, and planning and executing experiments. A written report/manuscript and oral presentation are required. (1-2-2)
Prerequisites: Completion of 3000 level of core curriculum, BIOL 4901 (may be concurrent enrollment), and consent of faculty advisor

BIOL 4903 Senior Research II 1-3 Credits
This class is intended as a continuation of research or internship activities from 4902. Consent of instructor and the faculty advisor are required. Prerequisite: Completion of 300 level core curriculum, 4901 and 4902 (may be concurrently enrolled in 4902 and consent of faculty advisor)

BIOL 4930 Senior Synthesis 2 Credits
A review of academic training in preparation for transition to the next professional level. Students will enroll in this course within 2 semesters of degree completion. Students will review degree material and complete the department Exit Exam. A passing grade on the Exit Exam is required to pass the class. Graduate training and career options will also be explored. (2-0-2)
Prerequisite: Completion of 3000 level of core curriculum

Chemistry

Note: Unless otherwise noted, lecture courses meet three hours each week and carry one semester hour credit. Laboratory courses meet four hours each week and carry one semester hour credit.

CHEM 1101K* Introductory Chemistry 4 Credits
Introduction to chemistry for non-science majors. Topics to be covered include atomic structure, periodicity, and chemical processes in the natural world. Laboratory exercises will supplement lecture material. (3-3-4)

CHEM 1115* Chemical Calculations 3 Credits
Introduction to the use of mathematics to solve chemical problems encountered in CHEM 1211 and 1212. (3-0-3)

CHEM 1211 Principles of Chemistry I 3 Credits
First course in a two-semester sequence covering the fundamental principles and applications of chemistry. This course covers composition of matter, stoichiometry, periodic relations, and nomenclature. (3-0-3)
Prerequisite: All students are required to take a Chemistry Placement Test

CHEM 1211L Principles of Chemistry I Lab 1 Credit
Laboratory exercises to supplement the lecture material of CHEM 1211. (0-2-1)
Prerequisite or Corequisite: CHEM 1211

CHEM 1212 Principles of Chemistry II 3 Credits
Second course in a two-semester sequence covering the fundamental principles and applications of chemistry. (3-0-3)
Prerequisite: CHEM 1211
CHEM 1212L Principles of Chemistry II Lab 1 Credit
Laboratory exercises to supplement the lecture material of CHEM 1212. (0-4-1)
Prerequisite: CHEM 1211L; Corequisite: CHEM 1212

CHEM 2101 Synthesis Lab 2 Credits
This laboratory course is designed to prepare chemistry majors for upper level laboratory courses. The laboratory experiments will include quantitative analysis, inorganic synthesis and computational methods. (0-6-2)
Prerequisite: CHEM 1212L

CHEM 2501 Organic Chemistry I 3 Credits
The first of two semester introductory courses covering the principles of organic chemistry. The properties, preparation, reactions, and interrelationships of the important classes of organic chemistry. (3-0-3)
Prerequisite: CHEM 1212

CHEM 2501L Organic Chemistry I Lab 1 Credit
Lab taken concurrently with CHEM 2501 (0-4-1)
Prerequisite: CHEM 1212L; Corequisite: CHEM 2501

CHEM 2511 Organic Chemistry II 3 Credits
A Continuation of Organic Chemistry I (3-0-3)
Prerequisite: CHEM 2501

CHEM 2511L Organic Chemistry II Lab 1 Credit
A Continuation of Organic Chemistry Laboratory I (3-0-3)
Prerequisite: CHEM 2511; Corequisite: CHEM 2511L

CHEM 3101 Analytical Chemistry 3 Credits
Principles and techniques in volumetric and gravimetric determinations. Principles of chemical equilibria using chromatographic, spectrophotometric, and potentiometric methods of analysis. (3-0-3)
Prerequisite: CHEM 1212

CHEM 3101L Analytical Chemistry Lab 1 Credit
Lab taken concurrently with CHEM 3101. (0-4-1)
Prerequisite: CHEM 1212L; Corequisite: CHEM 3101

CHEM 3201 Instrumental & Data Analysis 3 Credits
Instrumental techniques used in chemical analysis with emphasis on accuracy and precision. Statistical and regression methods for the interpretation of data. (3-0-3)
Prerequisite: CHEM 3101

CHEM 3201L Instrumental Analysis Lab 1 Credit
Lab taken concurrently with CHEM 3201. (0-4-1)
Prerequisite: CHEM 3101L; Corequisite: CHEM 3201

CHEM 3302 Research 2 Credits
Supervised research including literature search, laboratory experimentation, and interpretation and presentation of results. (0-6-2)
Prerequisite: Junior standing

CHEM 3401 Physical Chemistry I 3 Credits
Properties of gases, thermodynamics, thermo-chemistry, physical transformation and equilibrium, phase diagrams, chemical equilibrium. (3-0-3)
Prerequisites: MATH 2111, PHYS 1112K or 2212
Lab taken concurrently with CHEM 3401. (0-4-1)
Corequisite: CHEM 3401

CHEM 3401L Physical Chemistry I Lab 1 Credit
Equilibrium electrochemistry, chemical kinetics, reaction dynamics, quantum theory, atomic and molecular structure, modern spectroscopy. (3-0-3)
Prerequisite: CHEM 1212L; Corequisite: CHEM 3401

CHEM 3411 Physical Chemistry II 3 Credits
Equilibrium electrochemistry, chemical kinetics, reaction dynamics, quantum theory, atomic and molecular structure, modern spectroscopy. (3-0-3)
Prerequisite: CHEM 3401

CHEM 3411L Physical Chemistry II Lab 1 Credit
Lab taken concurrently with CHEM 3411. (0-4-1)
Prerequisite: CHEM 3401L; Corequisite: CHEM 3411

CHEM 3522 Advanced Synthesis Lab 2 Credits
The focus of this laboratory course will be on advanced synthetic methods in organic, inorganic chemistry and biochemistry. A wide range of compounds will be synthesized and characterized using appropriate separation and spectroscopic techniques. The interpretation of spectroscopic spectra will be emphasized. (0-6-2)
Prerequisites: CHEM 2101, CHEM 2511 and CHEM 2511L

CHEM 4101 Biochemistry 3 Credits
Structure and function of proteins, nucleic acids, carbohydrates, and lipids. Emphasis on mechanistic analysis of metabolic pathways and enzymes activity.
Prerequisite: CHEM 2511 and BIOL 1108

CHEM 4111 Advanced Biochemistry 3 Credits
Recent advances in medical biochemistry with clinical correlations. Biochemistry of metabolic diseases, neuroendocrine and reproductive biochemistry, signal transduction, receptor chemistry, transcriptional regulation, cancer biochemistry, and oncogenes and oncoproteins. (3-0-3)
Prerequisite: CHEM 4101

CHEM 4121 Advanced Inorganic Chemistry 3 Credits
Principles of inorganic chemistry with emphasis on atomic structure, chemical bonding, solid state, coordination chemistry, organic metallic chemistry, and acid-base theories. Chemistry of selected elements. (3-0-3)
Prerequisites: CHEM 1211, 3401, and 3411

CHEM 4201 Medicinal Chemistry 3 Credits
Synthesis, structure, and mode of action of therapeutically active compounds. Design of pharmaceutical agents based on enzyme mechanism, structure activity relationships, and computer modeling. (3-0-3)
Prerequisites: CHEM 2511, 4101

CHEM 4301 Chemistry of the Environment 3 Credits
Chemical processes important in the environment from naturally occurring and man-induced systems. Thermodynamic and chemical considerations of fuels; the thermodynamics of the atmosphere; atmospheric photochemistry; chemistry of natural water systems; chemistry of pesticides, fertilizers, and other important environmental contaminants; aspects of the carbon, nitrogen, and sulfur cycles. (3-0-3)
Prerequisite: CHEM 3101

CHEM 4301L Chemistry of the Environment Lab 1 Credit
Lab taken concurrently with CHEM 4301. (0-4-1)
Prerequisite: CHEM 3101L
CHEM 4531 Advanced Organic Chemistry 3 Credits
Survey of modern organic synthesis with emphasis on mechanism of reactions. (3-0-3)
Prerequisite: CHEM 2511

CHEM 4601 Polymer Chemistry 3 Credits
Chemistry of polymers and the chemical and physical properties of polymers are discussed. Molecular weight characterization, structure and morphology and fabrication of polymer. (3-0-3)
Prerequisites: CHEM 2511, 3401

CHEM 4601L Polymer Chemistry Lab 1 Credit
Lab taken concurrently with CHEM 4601. (0-4-1)
Prerequisite: CHEM 2511L

CHEM 4801 Special Topics 3 Credits
Discussion of current topics in organic, analytical, physical chemistry, biochemistry, or polymer chemistry. (3-0-3)

CHEM 4901 Chemical Seminar 1 Credit
Modern development in specific subdivisions of the field of chemistry. (1-0-1)
Prerequisite: Junior or senior standing
("These courses cannot be used to satisfy the requirements for major in chemistry.")

Civil Engineering Technology

CIVT 3101K Surveying 5 Credits
A comprehensive study of taping, leveling, angle, and direction measurements, theodolites, traverse measurements computation of coordinates, areas, and volumes; topographic surveying, contouring; techemetry, EDMIs, and Total Stations route surveying; simple and transition horizontal and vertical curves; triangulation; introduction to aerial surveying and photogrammetric methods; introduction to GPS and GIS; use and care of instruments; computer applications. (3-4-5)
Prerequisites: MATH 1113; Corequisite: ENGT 2101K

CIVT 3201K Civil Engineering Materials 2 Credits
A comprehensive study of the physical, mechanical, and other important properties of materials; fabrication of method of manufacturer; durability and long-term performance, specifications and standards; laboratory testing procedures; applications or methods of use of various civil construction materials which include aggregates, concrete, cementitious materials, masonry, wood, bituminous, iron, and steel. (1-2-2)
Prerequisite: MATH 1113

CIVT 3211 Construction Estimating & Management 3 Credits
Construction planning and management; contracting (types, methods, documents); specifications, mathematical techniques of construction cost estimating; preparation and submission of bid; construction scheduling (CPM); project administration (financial, personnel, claims and disputes, change orders, safety); computer applications.
Prerequisite: CIVT 3201K

CIVT 3301K Hydraulics & Engineering Hydrology 4 Credits
Elements of fluid mechanics; pressure measurement; hydrostatics; forces on submerged plane and curved surfaces, buoyancy; fluids in motion; hydraulic and energy gradients; forces exerted by jets on flat plates and curved vanes; orifices, notches and weirs; flow in pipes; simple pipe networks; open channel flow; pumps. Hydrologic cycle; precipitation data analysis; hydraulics of groundwater flow; equilibrium and non-equilibrium conditions; groundwater exploration; surface runoff; hydrographs; reservoir storage; flood routing; hydrological forecasting; computer applications. (3-2-4)
Prerequisite: ENGT 3101

CIVT 3401K Highway & Transportation Engineering 4 Credits
A study of several transportation modes. Emphasis will be placed on the linkage of these modes for the effective and economic movement of people, materials, and equipment. It will also include the fundamentals of highway design, layout, foundations, and pavements; grade intersections and separations; highway cross-sections, traffic and safety requirements. (3-2-4)
Prerequisites: CIVT 3101K, 3201K, MATH 2111, and ENGT 2101K

CIVT 3601K Soil Mechanics & Foundation Design 5 Credits
A study of engineering properties of soil as a construction material and foundations for buildings. Topics include the soil classifications, Atterberg limits, shear strength, consolidations and settlement. This knowledge is then applied to the design of various types of foundations such as spread footings, piles, earth retaining structures and substructure elements. (4-2-5)
Prerequisites: CIVT 3201K and ENGT 3601

CIVT 3701 Structural Analysis 4 Credits
A comprehensive study of the behavior response of various structural forms that are employed, and an enumeration of the various loading conditions that a structure must support. Emphasis will be placed on the fundamentals and matrix method of structural analysis of simple and complex structural systems including trusses, beams, frames, arches, cable structures, and influence lines. It will also cover an introduction to the theory of statically indeterminate structures.
Prerequisites: ENGT 3601 and ENGT 3201

CIVT 4101K Structural Design I (Steel) 3 Credits
A study of structural design procedures of structural elements utilizing latest design methods according to building and design codes. Emphasis will be on the integration of designing steel structures from conception to working drawings. Course content includes identification and calculation of various loads, structural framing, designing of trusses, joists, beams, columns, and simple connections. (2-2-3)
Prerequisites: CIVT 3201K, 3701, and ENGT 2101K

CIVT 4111K Structural Design II (Reinforced Concrete) 3 Credits
A study of the fundamentals of reinforced concrete design. Emphasis will be on the principles and practices involved in the structural components and the design of reinforced concrete utilizing latest design methods in accordance with the ACI-codes. Course content includes designing of rectangular and T beams, one-way slabs, columns, footings, and retaining walls. (2-2-3)
Prerequisites: CIVT 3201K, 3701, and ENGT 2101K

CIVT 4201K Environmental Engineering 4 Credits
Basic concepts of environmental interrelationships; principles of environmental chemistry, microbiology, ecology and health; water quality parameters; water treatment processes; wastewater treatment processes; sludge treatment and disposal; industrial waste waters; design of water, wastewater and sludge treatment units; water distribution and wastewater collection systems; design principles; and computer applications. (3-2-4)
Prerequisites: CHEM 1211, 1211L, and CIVT 3301K

CIVT 4211 Environmental Pollution Control 3 Credits
Water pollution; point and diffuse sources; river pollution and oxygen sag curve analysis; groundwater pollution analysis; eutrophication of lakes; coastal pollution; solid wastes management (collection, storage and transport); processing and transformation; incineration, composting.
sanitary land filling; recycling; hazardous waste management types; RCRA, CERCLA and others; treatment and disposal methods; air pollution (air pollutants and interaction products); and preventive and control measures.  
Prerequisite: CIVT 4201K

CIVT 4301 Urban Planning 2 Credits
Historical development of urban centers and planning practices; theories, policies and quantitative techniques used; statistical methods; forecasting techniques; decision-making analysis; planning management; functional planning physical, land use, transportation, housing and real estate; historical preservation; environmental planning and monitoring, computer applications.  
Prerequisites: CIVT 3211, 3401K, and 4201K

Computer Science Technology

CSCI 1130 Computer & its Applications 3 Credits
An introductory course specially designed to help students become computer literate. The course covers the history of computers, hardware, software, and use of the state-of-the-art technology. Another unique feature of this course is that students use Internet, MS OFFICE applications using word processing, spreadsheets, and HTML language to create home pages.

CSCI 1301 Computer Science I 3 Credits
An introduction to the principles of computer programming with emphasis on problem solving methods. The topics include an introduction to data representation, data type and control structures, procedures and functions, and programming methodology.  
Prerequisite: MATH 1111

CSCI 1302 Computer Science II 4 Credits
An introduction to object-oriented programming language using abstract data type. Emphasis will be placed on encapsulation, inheritance and polymorphism, recursive programming, pointers, linked lists, stacks, strings, and trees.  
Prerequisite: CSCI 1301

CSCI 1371 Computing for Engineers & Scientists 3 Credits
Foundations of computing with an emphasis on design and implementation of algorithms that complement and support engineering and scientific problem solving.

CSCI 1501K Computing for Engineers I 3 Credits
This course presents the conceptual foundations and limitations of computing with design construction analysis of algorithms, and data structures. The course prepares students wherein they will be able to show evidence of adequate performance with respect to design and construct algorithms, and data structures, to solve problems in a high level (pseudo) language. Emphasis will be given on the manipulation of complex data structures, recursive and iterative algorithms, and designs of algorithm with high levels of modularity and object-oriented approaches. (2-3-3)  
Prerequisite: CSCI 1501K

CSCI 1502K Computer for Engineering II 3 Credits
Introduction to techniques and practices for implementing algorithms. Emphasis on professional software practices. Projects focus on interactive and computationally intensive programs, including large program management. (2-3-3)  
Prerequisite: CSCI 1501K

CSCI 1610 Programming in Java 4 Credits
An introduction to Java, which is a simple, object-oriented, distributed, interpreted, robust, secure, architecture-neutral, portable, high-performance, multithreaded and dynamic language. The course includes extensive use of classes, support of networking, basic data structures, abstract data type, recursion, and searching and sorting.  
Prerequisite: MATH 1111

CSCI 2215 Perl Scripting 4 Credits
Designed to teach students how to use PERL (Practical Extraction and Reporting Language) for Web/CGI scripting.  
Prerequisite: CSCI 1301

CSCI 2231 Introduction to UNIX 3 Credits
An introduction to UNIX operating system, which will provide a convenient and consistent interface to the wide variety of peripheral devices that are connected to the computer. Students learn history and fundamentals of SUN Operating System, by entering commands using Shell, the UNIX file systems; text file utilities. Vi editor, Shell scripts, AWK (Aho, Weingerger, Kernighan) programming language, and Local Area Networking Utilities.  
Prerequisite: CSCI 1301

CSCI 3000 Data Structure & Algorithm Design 3 Credits
Introduction to computation complexities, object-oriented programming, basic data structures; lists, stacks, trees, recursion, and graphs.  
Prerequisite: CSCI 1610

CSCI 3102 Visual Basic 3 Credits
An introduction to Visual Basic and Windows 95 applications. Topics include Form, List Box, Text Box, Scroll Bars, Menu and other windows resources.  
Prerequisite: CSCI 3000

CSCI 3210 Advanced Java 3 Credits
An introduction to Java and Web page programming. Students write basic Java applets.  
Prerequisites: CSCI 3000, CSCI 1610

CSCI 3385 Computer Network & Design 3 Credits
Introduction of distributed system architecture, data transmission, protocol levels, types of network layers, terminal based networks, modems, and multiplexers. A unique feature of this course is that students set up a LAN using Solaris, Novell and Windows NT. The course provides hands-on experience for students.  
Prerequisite: CSCI 1301

CSCI 4110 Operating Systems 3 Credits
Study of process control, CPU scheduling, primary memory management, and secondary memory management.  
Prerequisite: CSCI 3000

CSCI 4210 Data Base Management 3 Credits
Introduction to database application design. Topics include problem analysis, various data models, implementation, using Microsoft access, forms, reports, SQL, and database programming.  
Prerequisite: CSCI 3000

CSCI 4310 Compiler Construction 3 Credits
Introduction to compiling process, language elements, finite automata, grammar, parsing methods, top-down parsing, bottom-up parsing, and code generation.  
Prerequisite: CSCI 3000

CSCI 4410 Web Based Programming 3 Credits
Introduction to web server programming, Internet information server object: Request, Response, Application, Server session. Programming skills
via using basic server objects, including working with data source like Access, SQL server.

Prerequisite: CSCI 3000

**CSCI (YAMA) 4901 Search Engine Design 3 Credits**

**Electronics Engineering Technology**

**ELET 3101K Electric Circuit I 3 Credits**
The concept of current, voltage, power, and resistance. The course deals with units, basic electrical laws, series and parallel circuits, network theorems, and instruments. AC sources, capacitance, inductance, and magnetism are introduced. Circuits are analyzed using PSPICE. Laboratory work parallels class work and include the use of various AC and DC instruments. (2-2-3)

Prerequisite: MATH 1111

**ELET 3111K Electric Circuit II Credits**
The second part of the electric circuit sequence. The course deals with impedance and admittance in sinusoidal circuits. Resonant circuits, three-phase circuits, harmonics and transformer theory are also studied. Circuits are analyzed using PSPICE. Laboratory work parallels class work. (2-2-3)

**Prerequisite: ELET 3101K**

**ELET 3201K Electronics I 3 Credits**
A study of discrete electronic devices. Semiconductor diodes, BJTs, and FETs are studied with emphasis on characteristic curves. BJTs and FET amplifiers are studied in-depth and various configurations of small and large signal amplifiers are studied. Circuits are analyzed using PSPICE. Laboratory work parallels class work. (2-2-3)

**Prerequisite: ELET 3101K; Corequisite: ELET 3111K**

**ELET 3211K Electronics II 3 Credits**
A study of the characteristics, performance, and application of the most common linear integrated circuits. The emphasis of this course is on operational amplifiers, comparators, multipliers, oscillators, voltage regulation, oscillators, phase-locked loops and data converters. Applications will illustrate use, and laboratory exercises will enhance learning. (2-2-3)

**Prerequisite: ELET 3201K**

**ELET 3301K Digital Systems I 3 Credits**
A comprehensive study of binary and hexadecimal numbers, Boolean algebra, truth tables, Karnaugh maps, and combination logic using basic gates. Flip-flops, counters, registers, encoders, and decoders are also presented. Circuit simulation software is used in both classroom and laboratory work. (2-2-3)

**Prerequisite: ELET 3101K**

**ELET 3311K Digital Systems II 3 Credits**
A thorough study of sequential design. Techniques and issues relevant to design will be covered in-depth and project work will emphasize the use of LSI, MSI, and SSI circuits in the application and design of complex digital systems. Analog-to-digital converters (ADC), digital-to-analog converters (DAC), programmable logic devices (PLDs), and introduction to microprocessors are also studied. Circuit simulation software used in both classroom and laboratory. (2-2-3)

**Prerequisite: ELET 3301K**

**ELET 3401K Microcomputer Interfacing 3 Credits**
A study of microprocessors and microcomputer systems. Related hardware and software issues of X86 will be covered. The course also covers memory systems, input/output devices and interfacing mechanisms. Classroom instruction is enhanced by laboratory work. (2-2-3)

**Prerequisite: ELET 3301K**

**ELET 3411K Microcontrollers 3 Credits**
A comprehensive study of micro controller hardware and software. System architecture includes the CPU, timer, serial, and parallel I/O ports, RAM and ROM. The software portion of the course covers assembly language. Classroom instruction will be enhanced by laboratory work. (2-2-3)

**Prerequisite: ELET 3301K**

**ELET 3501K Control Systems 3 Credits**
Analysis and design of linear feedback control systems are studied. Nyquist’s and Routh’s stability criteria, Bode plots, transient behavior, static error coefficients, and the steady-state behavior of various system types are presented. The root-locus method and block diagram representation and simplification are also included. Classroom instruction will be enhanced by laboratory work. (2-2-3)

**Prerequisites: ELET 3111K and MATH 2111**

**ELET 3511K Electrical Machinery 3 Credits**
An introductory course in the characteristics and application of basic electric machinery. Three phase distribution systems, transformers, DC generators, AC generators, DC motors, and AC motors are studied. Laboratory work parallels classroom instruction. (2-2-3)

**Prerequisite: ELET 3111K**

**ELET 3701K Data Acquisition System 2 Credits**
Introduction to the techniques for interfacing the basic measurement and instrumentation circuitry and systems to monitor physical characteristics such as temperature, pressure, strain, and distance by using data acquisition system. Typical instrumentation and measuring problems will be solved in the laboratory. (1-2-2)

**Prerequisite: ELET 3101K**

**ELET 4101K Programmable Logic Controllers 3 Credits**
PLC, ladder logic, programming, installation, and troubleshooting of PLC systems. Sensors and their wiring, I/O modules and wiring, and fundamentals of plant communications are studied. Laboratory work parallels classroom instruction. (2-2-3)

**Prerequisite: ELET 3301K**

**ELET 4401K Industrial Electronics 3 Credits**
A study of the necessary background for understanding the concept and utilization of various electronics devices, circuits and systems which are essential in industrial control and automation. Recent development and practices in industry are presented. Students apply the knowledge from Electronics II and Digital Systems II to develop application-oriented systems. (2-2-3)

**Prerequisites: ELET 3211K, 3311K**

**ELET 4411K Computer Electronics 3 Credits**
A study of the theory of operations of the various electronic devices and components of the microcomputer. The installation, maintenance, and troubleshooting of microcomputer peripheral is also studied. Laboratory work parallels classroom instruction. (2-2-3)

**Prerequisite: ELET 3301K**
ELET 4611K Fiber Optics 3 Credits
A study of the basic understanding of optics systems, fiber optics, types, and characteristics related to computer communication. Additional coverage includes fiber optic couplers, multiplexes, demultiplexes, and distribution system. Laboratory work parallels classroom instruction. (2-2-3)
Prerequisite: CSCI 3385

ELET 4621K Digital Communications 3 Credits
Sampling, coding, decoding, and digital multiplexing. The course will also cover the networking essential concepts, with emphasis on Microsoft Networking system. (2-2-3)
Prerequisite: ELET 3311K

ELET 4901K Senior Project 1 Credit
The selection of an appropriate engineering project for design and development. The majority of work is spent in the laboratory researching, designing, prototyping, debugging, and fabricating the project. Engineering note book is required. Course requirements include oral and written reports on the project. (0-2-1)
Prerequisite: Permission of the instructor

Engineering
ENGR 1101 Introduction to Engineering 1 Credit
The course consists of material and learning activities that would build and sustain the interest of the student in engineering and that would produce behavioral modification in the student to adequately prepare him/her for a successful academic career in engineering.

ENGR 1161K Computing for Engineers & Scientists 3 Credits
Foundations of computing with an emphasis on design and implementation of algorithms that complement and support engineering problem solving. (2-3-3)
Prerequisite: MATH 1113

ENGR 2001 Principles & Applications of Engineering Materials 3 Credits
The structure-property-processing-performance relationships of engineering materials are described. Materials selection is treated as a part of engineering design.
Prerequisites: CHEM 1211 and 1211L

ENGR 2010: Computational Modeling for Engineers 3 Credits
This course is Fundamental and numerical methods and development of programming techniques for implementing them to solve engineering problems via computers.
Prerequisite: MATH 3101, PHYS 2211, and CSCI 1371

ENGR 2010: Computational modeling for Engineers 3 Credits
To learn numerical analysis techniques for solving engineering problems on the computer. Topics include sources of error in computing, the use of modular software design, basic numerical methods, and optimization. (2-3-3)
Prerequisites: CSCI 1371 and MATH 3101

ENGR 2025 Introduction to Signal Processing 4 Credits
Introduction to signal processing for discrete-time and continuous-time signals. Filtering, Frequency Response, Fourier Transform, Z Transform. Laboratory emphasizes computer-based signal processing. (3-3-4)
Prerequisites: MATH 2511 and CSCI 1502

ENGR 2030 Introduction to Computer Engineering 3 Credits
Computer system and digital design principles. Architectural concepts, software, Boolean algebra, number systems, combinational datapath elements, sequential logic, and storage elements. Design of DRAM control and I/O bus.
Prerequisite: CSCI 1371

ENGR 2031 Digital Design Lab 2 Credits
Design and implementation of digital systems, including a team design project. CAD tools, project design methodologies, logic synthesis, and assembly language programming. (1-3-2)
Prerequisite: ENGR 2030

ENGR 2040 Circuit Analysis 3 Credits
Basic concepts of DC and AC circuit theory and analysis.
Prerequisites: ENGR 2025, PHYS 2212, and MATH 3301

ENGR 2110 Creative Decisions & Design 3 Credits
To learn fundamental techniques for creating, analyzing, synthesizing, and implementing design solutions to open ended problems with flexibility, adaptability, and creativity through team and individual efforts. (2-3-3)
Prerequisites: ENGR 2770 and CSCI 1371

ENGR 2201 Statics for Engineers 2 Credits
Elements of statics in two and three dimensions, centroids, and friction.
Prerequisites: MATH 2111 and PHYS 2211

ENGR 2202 Dynamics of Rigid Bodies 3 Credits
Kinematics and dynamics of particles and rigid bodies in one, two, and three dimensions. Work-energy and impulse-momentum concepts.
Prerequisites: ENGR 2201 and CSCI 1371

ENGR 2270 Introduction to Engineering Graphics & Visualization 3 Credits
Engineering graphics and visualization including sketching, line drawing, simple wire frame, and solid modeling. Development and interpretation of drawings and specifications for the product realization. (2-3-3)

ENGR 3001 Mechanics of Deformable Bodies 3 Credits
Stress and strain, axially loaded members, torsion of circular members, bending of beams, transformation of stress and strain and column buckling.
Prerequisites: ENGR 2201 and MATH 3301

ENGR 3322 Engineering Thermodynamics 3 Credits
Introduction to thermodynamics. Thermodynamic properties, energy and mass conservation, entropy and the second law. Second-law analysis of thermodynamic systems, gas cycles, vapor cycles.
Prerequisites: PHYS 2211 General Physics II, MATH 3301, and CSCI 1371

ENGR 3770 Statistics & Applications 3 Credits
Introduction to probability, probability distributions, point estimation, confidence intervals, hypothesis testing, linear regression, and analysis of variance. Also applications in the engineering planning and Design are discussed.
Prerequisite: Math 2511

Engineering Technology
ENGT 2101K Computer Graphics 3 Credits
An introduction to computer graphics hardware and software with emphasis on hands-on experience using one or more CAD systems. (1-4-3)
Prerequisite: MATH 1113
Description of Courses

ENGT 2111K CAD Applications 1 Credit
Covers architectural, chemical, civil, electronics and mechanical CAD applications. (0-2-1)
Prerequisite: ENGT 2101K

ENGT 2201 Technical Writing 2 Credits
Covers fundamentals of writing technical reports and research papers; illustrating technical data; making oral presentations; and participating in group communications.
Prerequisite: ENGL 1102

ENGT 3101 Statics 3 Credits
A study of applied engineering mechanics of rigid bodies in equilibrium. Analysis of forces, reactions and moments in various force systems for both two and three dimensional systems. Determination of centroids of composite area and the moment of inertia will also be studied.
Prerequisites: MATH 2101; PHYS 1111K or PHYS 2211K

ENGT 3201 Applied Mathematics for Engineering Technology 1 Credit
Application of mathematics in the practice of engineering. The course consists of selected topics in matrix algebra, vectors, calculus, and statistics with emphasis on their application in engineering technology disciplines.
Prerequisite: MATH 2111

ENGT 3301 Quality Control 3 Credits
A study of statistics, probability, control charts for variables and attributes, and acceptance sampling plans.
Prerequisite: ENGT 3201

ENGT 3501 Dynamics 2 Credits
The study of kinematics, the motion and movement of a body in terms of displacement, velocity acceleration and time; and kinetics, the relations between motion of a body and the forces that caused the motion. Topics include rectilinear motion as well as curvilinear motion.
Prerequisite: ENGT 3101

ENGT 3601 Strength of Materials 3 Credits
A comprehensive study of the concept of the stress-strain relationship and how this relates to the design of structural members. Emphasis will be on the stress distribution due to axial tension and compression, thermal, torsion, and transverse loading and their combinations. Course content will also include pure bending, transformations of stress, shear and bending moment diagrams, slope and deflection of beams by integration, and Euler’s formula for columns.
Prerequisites: ENGT 3101 and MATH 2111

ENGT 3701 Engineering Economy 3 Credits
A study of the fundamental concept and analytical tools of engineering economy. The elements of engineering decision-making process, compound interest and equivalence are examined. This course also covers present worth, uniform annual cost, rate of return and depreciation method as well as income taxes to help make the correct engineering business decision.
Prerequisites: MATH 1113, permission of the instructor

Environmental Science

ENVS 1140 Environmental Issues 3 Credits
Survey of global environmental issues facing humankind from philosophical, sociological, historical, ecological, and technological perspectives. (3-0-3)
Prerequisites: READ 0099, MATH 0099

ENVS 2401 Introduction to Environmental Science 3 Credits
Mechanism of evolution in relation to plants, animals and man, population dynamics, ecological processes, population ecology, species interactions, evolution of behavior, biomes, biogeography, pollution, and ecosystem sustainability. (3-0-3)

ENVS 2401L Introduction to Environmental Science Lab 1 Credit
Lab taken concurrently with ENVS 2401. (0-2-1)

ENVS 3121 Environmental Ethics 3 Credits
The basics in philosophical and ethical thought, especially as related to the development in mankind of a new ecological ethic. (3-0-3)
Prerequisites: HUMAN 2011, ENVS 1141

ENVS 3201 Limnology 3 Credits
Evolution and morphology of ponds, lakes, and streams; physical and chemical characteristics of inland water, aquatic biota, their taxonomy and ecology. (3-0-3)
Prerequisites: ENVS 1141, BIOL 2401, CHEM 1211, CHEM 1212

ENVS 3201L Limnology Lab 1 Credit
Lab taken concurrently with ENVS 3201. (0-2-1)

ENVS 3203/MSCI 3301 Environmental Chemistry 3 Credits
The chemistry of the Earth’s natural processes in air water and soil, toxic pollutants, soil, water, air, and sediment chemistry in relation to pollutants, natural waters and acid base chemistry of the carbonate system, redox, solid phase-solution equilibria, ion adsorption and desorption phenomenon. (3-0-3)
Prerequisites: ENVS 1141, CHEM 1211, CHEM 1212

ENVS 3203L Environmental Chemistry Lab 1 Credit
Lab taken concurrently with ENVS 3203. (0-2-1)

ENVS 3205/Biol 3321 Environmental Microbiology 3 Credits
Relationships of microorganisms to their environment and to other organisms, symbiotic, soil and aquatic microorganisms are considered, genetically engineered microorganisms as well as principles of bioremediation. (3-0-3)
Prerequisites: BIOL 1107K, BIOL 1108K

ENVS 3205L/Biol 3321L Environmental Microbiology Lab 1 Credit
Lab taken concurrently with ENVS 3205. (0-2-1)

ENVS 3301 Environmental Radiation 3 Credits
Atomic structure, nuclear radiation, radioactive decay, interaction of charged particles and electron with matter, methods of radiation detection, radiation dosimetry and, radiation protection. (3-0-3)
Prerequisites: CHEM 1211, CHEM 1212, PHYS 1111K, 1112K

ENVS 3301L Environmental Radiation Lab 1 Credit
Lab taken concurrently with ENVS 3301. (0-2-1)

ENVS 3621/Biol 3621 Environmental Health and Hygiene 3 Credits
Human exposure and health effects of chemicals, occupational health hazards, regulatory safety procedures, management requirements, disease vectors, food and housing sanitation risk assessment, principles of industrial hygiene. (3-0-3)
Prerequisites: ENVS 1141, BIOL 1107K, BIOL 1108K
ENVS 4101 Contaminant Hydrology 3 Credits
Topics dealing with the fundamentals of the hydrologic cycle, budget and aquatic; precipitation, evapo-transpiration, stream flow; containment transport; ground water flow and urban vs. watershed models (3-0-3)
Prerequisites: MATH 1113, MATH 2101

ENVS 4101L Contaminant Hydrology Lab 1 Credit
Lab taken concurrently with ENVS 4101. (0-2-1)

ENVS 4121 Environmental Law 3 Credits
Overview of the historic development and evolution of legal principles, the legal processes relating to resource conservation, environmental regulations and statutory laws. (3-0-3)
Prerequisites: ENVS 1141, ENVS 3121

ENVS 4202 Principles of Ecotoxicology 3 Credits
Toxic chemicals and their fate and distribution in various ecosystems, toxicity of chemicals on the individual, populations and communities, relationship of dose and response, and biomarkers in population studies. (3-0-3)
Prerequisites: ENVS 1141, CHEM 2501

ENVS 4301 Solid and Hazardous Waste Management 3 Credits
Hazardous wastes disposal techniques, problems associated with current waste disposal techniques, major pathways of pollutant migration from disposal sites, emphasis on critical issues facing industry, government, and the public. (3-0-3)
Prerequisites: ENVS 3203, CHEM 2501

ENVS 4401 Environmental Impact Assessment 3 Credits
Land use planning, zoning, subdivision and community organization, human growth, control, local, state and federal regulations, multi disciplinary terms are organized to produce actual EIS’s, geology, soils, topography, hydrology, meteorology, biology, sociology and economics are all involved. (3-0-3)
Prerequisites: ENVS 1141, ENVS 3121

ENVS 4801 Internship 2 Credits
Supervised training, apprenticeship, and experience with an appropriate agency, written internship report, and report presentation. (1-0-1)
Prerequisite: Senior Standing

ENVS 4901 Environmental Synthesis Seminar 1 Credit
Most updated environmental literature search, research methodology, synthesis, manuscript preparation, and seminar presentation. (1-0-1)
Prerequisite: Senior Standing

ENVS 4910 Special Topics 3 Credits
In depth discussion and review of most critical environmental issues, toxic chemicals, soil, water and air pollution, and new remedial methodologies. (2-0-2)
Prerequisite: Senior standing

Forensic Science

FSCI 1101
An introduction to forensic science from a chemist’s perspective; basic principles of chemistry and their application to forensic science; evidence collection and preservation, drugs of abuse, poisons, arson investigations, explosives and DNA analysis.

FSCI 3201 Forensic Evidence in Law Enforcement 3 Credits
Principles of criminal law and procedure, preparation and presentation of evidence; examination of witnesses, and methods of legal research.

Emphasis will be placed on court opinions defining the rules of search and seizure and advisability of evidence. (3-0-3)

FSCI 3301 Principles of Forensic Sciences 3 Credits
Application of chemical and instrumental techniques that are currently used in crime laboratories to examine firearms, tool marks, documents, arson accelerants, drugs, hairs, plastics, paints, glass, soil, and textile fibers.
Prerequisite: CHEM 1211 or FSCI 1101

FSCI 3301L Principles of Forensic Science Laboratory 1 Credit
Lab to supplement FSCI 3301. (0-3-1)

FSCI 4101 Personal Identification & DNA Fingerprinting Analysis 3 Credits
Modern techniques in personal identification with various methods in DNA fingerprint analysis, DNA profiling, DNA typing in rape and murder cases and in cases of paternity testing. (3-0-3)
Prerequisites: CHEM 2511, BIOL 1108 and FSCI 3301

FSCI 4102 Personal Identification & DNA Fingerprinting Analysis Lab (0-3-1) 1 Credit
Lab taken concurrently with FSCI 3301.
Prerequisites: CHEM 2511L and BIOL 1108L

FSCI 4201 Drug Abuse & Drug Analysis 3 Credits
Chemical, pharmacological, toxicological and pathological characteristics of commonly abused drugs, including alcohol, barbiturates, narcotics, stimulants and hallucinogens.
Prerequisites: CHEM 2511, BIOL 1108 and FSCI 3301

FSCI 4201L Drug Abuse & Drug Analysis (0,3,1) 1 Credit
Laboratory to supplement FSCI 4201.
Prerequisites: CHEM 2511L and BIOL 1108L
*These courses cannot be used to satisfy the requirements for major in chemistry.

Industrial Technology Management

INTM 3101 Motion & Time Study 3 Credits
A comprehensive study of cost analysis, production and inventory control, balancing of production lines, incentive pay and motion studies. Topics include problem solving techniques, operation and process charts, motion economy, work measurement, and motivational concepts.

INTM 3201 Cost Estimating 3 Credits
A study of preparing detailed cost estimates for new and existing products. The course content is divided into the following areas: labor costs, materials cost, accounting principles, forecasting, operation and product estimating, and engineering economics.

INTM 3301 Production & Inventory Control 3 Credits
A study of selecting and installing a computerized inventory control system such as Material Requirements Planning (MRP). The following topics are included: forecasting, master production scheduling, material requirements planning, inventory management, production activity control, and critical path scheduling.
Integrated Science

**ISCI 1101 Integrated Science I 3 Credits**
Nature, physical properties, structure and evolution of the physical universe, nuclear energy and the atom, cosmology, the nature of energy and its conservation. (3-0-3)

**ISCI 1111K Integrated Science II 4 Credits**
The physical earth, biological evolution, ecological processes, and human development. (3-2-4)
*Note: This is a 4-credit physical science course with laboratory.*

Marine Science

**MSCI 3101K Marine Science I 4 Credits**
Survey of basic concepts and interrelationships of physical, geological, chemical, and biological oceanographic and inshore ecosystems. Introduction to function and application of oceanographic equipment. (3-2-4)
*Prerequisites: BIOL 1108K; CHEM 1212, or instructor's approval*

**MSCI 3102K Marine Science II 4 Credits**
Introduction to the physiology, morphology, taxonomy, and ecology of marine organisms and their role in oceanographic processes. (3-2-4)
*Prerequisites: BIOL 1108K; CHEM 1212, or instructor's approval*

**MSCI 3301K Marine Environmental Chemistry & Analysis 4 Credits**
Chemical composition and processes of seawater and coastal waters; methods and techniques employed in analyzing environmental parameters; carbonate buffering system of seawater, biogeochemical cycles. (3-2-4)
*Prerequisites: CHEM 1212; MSCI 3101*

**MSCI 3401K Invertebrate Zoology 4 Credits**
Survey of the major invertebrate taxa emphasizing function and special adaptations to coastal and marine environments. Practical emphasis on collection, preserving, sorting, and classifying, especially local species. (3-2-4)
*Prerequisite: BIOL 1108K, (fall of odd years only)*

**MSCI 3501K Ichthyology 4 Credits**
Evolution, classification, anatomy, physiology, and ecology of fishes. Includes methods for the collection, identification, maintenance, and study of Southeastern coastal marine and estuarine species. (3-2-4)
*Prerequisites: BIOL 1108K and MSCI 3102*

**MSCI 3702 Introduction to Geographical Information Systems 3 Credits**
This course will develop student skills in GIS and demonstrate its interdisciplinary applications in marine sciences, city planning, and engineering and will serve as a required course for undergraduate interns in the NOAA-funded program, “Habitat Restoration and Land Use Monitoring Using GIS Technology: A Student Training Program” and as an elective in marine science and engineering. (3-0-3)

**MSCI 3901 Technical Writing & Seminar 3 Credits**
The practical study of organizing and presenting scientific and technical information through writing and oral presentation. covers the key elements of effective oral communication and written communication in memoranda, letters, reports, articles, and abstracts. introduces the application and practical capabilities of computers, word processing, and integrated software. (3-0-3)
*Prerequisite: ENGL 1102*

**MSCI 4021K Marine Ecology 4 Credits**
The principles of ecology related to marine and estuarine ecosystems. Theoretical population dynamics, age distributions, competition, and predation are discussed. (3-2-4)
*Prerequisites: MSCI 3101, 3102*

**MSCI 4301K Biological Oceanography 4 Credits**
Global-scale considerations of biological features and processes within oceanic environments including: marine biogeography, oceanographic nutrient cycles, food webs and energy flow, plankton biology and ecology, impacts of climate change on the oceans, and a class study of estuarine plankton communities. (3-2-4)
*Prerequisites: MSCI 3101, 3102, 3301*

**MSCI 4401K Marine Sediments 4 Credits**
Students will learn the concepts of sedimentology, stratigraphy, and paleoceanography in a regional context by exploring sedimentary environments along a transect from the Appalachian Mountains to the Mid-Atlantic Ridge. (3-2-4)
*Prerequisites: MSCI 3101 or GEOL 1121K*

**MSCI 4447 Marine Mammalogy 3 Credits**
An introduction to the biology of marine mammals, including cetaceans, pinnipeds, sirenians, and sea otters. Topics covered include evolution, physiology, behavior, and ecology of marine mammals. Particular attention is paid to current topics in the management and conservation of marine mammals. (3-0-3)
*Prerequisites: Junior standing; MSCI 3102 (BIOL 1108K preferred)*

**MSCI 4501 Current Issues in Oceanography 3 Credits**
This course provides background information, letters, milestone journal articles, and guidance in literature searches for discussion/debate on current issues in oceanography. (3-0-3)
*Prerequisites: BIOL 1108K; CHEM 2501 or BIO 1104*

**MSCI 4901 Research 1 Credit**
Provides background information and assistance for students to engage in original independent scientific research. By describing how to find pertinent scientific literature on a topic, problem, or question, explaining how to apply for summer research internships at marine laboratories and oceanographic institutions, and describing the organizational need and elements of the research report, the student should be able to design an independent research project, write the background or introduction of the report from library research and interviews. (1-0-1)
*Prerequisites: Junior Standing; MSCI 3901, (or concurrent enrollment in MSCI 3901)*

**MSCI 4902 Senior Research/Internship 1-3 Credits**
A research project under faculty supervision, which includes researching the background on a given problem, defining a hypothesis, and planning and executing experiments. A written report/manuscript and oral presentation are required.
*Prerequisite: Completion of 3000 level of core curriculum, MSCI 4901 (may be concurrent enrollment), and consent of faculty advisor*

**MSCI 4903 Senior Research/Internship II 1-3 Credits**
This class is intended as a continuation of research or internship activities from MSCI 4902. Consent of instructor and the faculty advisor are required.
*Prerequisite: Completion of 3000 level of core curriculum, MSCI 4901, and MSCI 4902 (may be concurrently enrolled in MSCI 4902) and consent of faculty advisor.*)
Mathematics

MATH 1111 College Algebra 3 Credits
A course presenting topics in algebra in a manner that will prepare students to study trigonometry and to manage their present and future daily mathematical needs. Topics included are the real number system, functions and polynomials, inequalities (first and second degree), systems of equations, and operations with exponential numbers (including radicals).

MATH 1113 Precalculus 3 Credits
A course designed to prepare students for a successful study of calculus. Topics include functions and their graphs, inverse functions, exponential and logarithmic functions, trigonometric functions and their inverses, analytic trigonometry, application of trigonometric functions, fundamentals of analytic geometry, and polar coordinates. 
Prerequisite: MATH 1111 or a minimum score of 475 on the SAT-MAT

MATH 1501 Precalculus for Engineers 4 Credits
Analytical geometry, the function concept, polynomials, exponential, logarithms, trigonometric functions, mathematical induction, and the theory of equations. (3-2-4)

MATH 2101 Calculus I 4 Credits
An integrated approach to differential calculus and an introduction to integral calculus. Topics include functions, graphs, the derivative, applications of the derivative, maxima and minima, velocity and acceleration, rates of change, antidifferentiation, the fundamental theorem of calculus, and basic integration techniques. 
Prerequisite: MATH 1113

MATH 2111 Calculus II 4 Credits
A continuation of MATH 2101. Topics include logarithmic, exponential, and other transcendental functions, applications of integration, integration techniques, L'Hopital’s rule, improper integrals, and infinite series. 
Prerequisite: MATH 2101

MATH 2121 Calculus III 4 Credits
A continuation of MATH 2111. Topics include plane curves, parametric curves and motion, polar coordinates, vectors and geometry of space, vector valued functions, functions of several variables, partial derivatives, and multiple integrals. 
Prerequisite: MATH 2111

MATH 2201 Elementary Statistics 3 Credits
Topics include mean, median, range, variance and standard deviation of raw and grouped data, probabilities, correlation, the normal distribution, the t-distribution, statistical inference, including the pooled t-test, the analysis of variance, chi-square test, and regression analysis. 
Prerequisite: MATH 1111

MATH 2301 Introduction to Discrete Math 3 Credits
The study of the logical and algebraic relationships between discrete objects. The roots of discrete math lie deep in set theory, directed graphs and relations, functions, combinatorics, logic, Boolean algebra, graph theory, and recurrence relations. 
Prerequisite: MATH 1111 (MATH 2101 or MAT 212 is recommended also)

MATH 2501 Calculus I for Engineers 4 Credits
This course is designed to present an integrated approach to differential calculus and integral calculus. Topics include functions, derivatives, product and chain rules, graphs, Newton’s method, maxima and minima, and other applications of differentiation, Fundamental theorem of calculus, integration techniques, definite integrals, infinite series and convergence tests. 
Prerequisite: MATH 1113 or ENGR 1113K

MATH 2511 Calculus II for Engineers 4 Credits
This course is a continuation of MATH 2501 - Calculus I for Engineers. Topics include L’Hopital’s Rule, Improper Integrals, Taylor Approximation, Infinite Series and Power Series, Numeric Integration, Linear Algebra, the Theory of Linear Functions and Equations in Several Variables. 
Prerequisite: MATH 2501

MATH 2521 Calculus III for Engineers 4 Credits
This course is a continuation of MATH 2511, Calculus II for Engineers. Topics included are vector calculus, parametric curves and motion, functions of several variable, Newton’s method in several variables, optimization, differentials, double and triple integrals, vector analysis, line integrals, surface integrals, and the theorems of Green, Gauss, and Stokes. 
Prerequisite: MATH 2511

MATH 3101 Linear Algebra 3 Credits
Topics include matrix algebra, solutions of linear systems, vectors and vector spaces, linear independence, spanning sets, bases, ranks, determinants, matrix inversion, linear transformations, null space, range, and eigenvalues. 
Prerequisite: MATH 2111 or MAT 213

MATH 3201 Probability & Statistics I 3 Credits
Topics include sample spaces, elementary theorems of probability, permutations and combinations, random variables, discrete and continuous distributions and density functions, mathematical expectation, and moment generating functions of probability distributions. 
Prerequisite: MATH 2111

MATH 3211 Foundations of Higher Mathematics 3 Credits
Topics include sets, prepositional calculus, truth tables, predicate calculus, universal and existential quantifiers, proofs about sets, basic methods of proof, mathematical induction, relations and functions, and cardinality. 
Prerequisite: MATH 2121

MATH 3301 Differential Equations 4 Credits
Topics include differential equations of the first order and first degree, linear equations, variation of parameters, method of undetermined coefficients, inverse operators, Laplace transforms, systems of differential equations, and applications. 
Prerequisite: MATH 2111

MATH 3401 Modern Geometry 3 Credits
A course designed to give a modern view of geometry, including advanced treatment of standard topics in Euclidean geometry, as well as the study of non-Euclidean systems. 
Prerequisite: MATH 2111

MATH 3501 Numerical Analysis 3 Credits
Topics include solving of linear equations, Gauss-Seidel and Jacobi methods, error analysis, approximating functions by infinite series, iteration techniques, techniques of integration, to include trapezoidal and Simpson’s rules. 
Prerequisites: MATH 2111 and CSCI 1302

MATH 3601 Linear & Discrete Mathematics 4 Credits
Basics of sequences and rates of growth, counting methods, graph theory and graph algorithms, linear algebra, linear programming, and combinatorial optimization. (3-2-4)
MATH 4101 Abstract Algebra I 3 Credits
An introduction to groups, subgroups, homomorphisms, isomorphisms, cyclic groups, permutation groups, direct products, Abelian groups, and Sylow’s theorem.
Prerequisite: MATH 3211

MATH 4111 Abstract Algebra II 3 Credits
A course exploring the theory of rings, fields, integral domains, and vector spaces.
Prerequisite: MATH 4101

MATH 4201 Analysis I 3 Credits
Topics include sets and functions, the real number system, elementary topology of the real line, limits of sequence, space of continuous functions, differentiation, and Riemann integration.
Prerequisites: MATH 2121, 3211

MATH 4211 Analysis II 3 Credits
A course presenting further topics in integration, Stokes theorem, Gauss divergence theorem, infinite series, sequences and series of functions, functions of several variables, and basic measure theory.
Prerequisite: MATH 4201

MATH 4221 Complex Analysis 3 Credits
Topics include complex numbers, elementary functions, analytic functions, complex integration, Laurent and Taylor series, residues, conformal mapping, and applications.
Prerequisite: MATH 2121

MATH 4311 Probability & Statistics II 3 Credits
Topics include sampling theory, statistical inferences, estimation and tests of hypotheses, multivariate distribution, transformation of random variables, conditional and marginal distributions, and Bayesian estimation.
Prerequisites: MATH 2121 and 3201

MATH 4401 Number Theory 3 Credits
Topics include the theory of mathematical induction, divisibility theory in the integers, prime numbers and their distribution, the theory of congruences and modular arithmetic, Fermat’s theorem, and number theoretic functions.
Prerequisite: MATH 3211

MATH 4411 Statistical Methods 3 Credits
Topics include statistical concepts and methods basic to experimental research in natural and social sciences, methods of estimation and tests of hypotheses, categorical data analysis (only to two-dimensional contingency tables), introduction to analysis of variance, correlation, regression, and experimental design.
Prerequisite: MATH 3211

MATH 4421 Regression Analysis 3 Credits
Topics include matrix algebra, simple linear regression, residual analysis techniques, multiple regression, non-linear regression, dummy variables, and influence statistics.
Prerequisites: MATH 3101 or MAT 319, 3201 or MAT 217

MATH 4501 Introduction to Topology 3 Credits
Topics include fundamental concepts of topology: set theory, the real number line, continuity, compactness, connectedness, separations axioms, the axioms of choice, and metric spaces.
Prerequisite: MATH 3211

MATH 4601 Mathematical Research 1-3 Credits
A course designed for students who wish to participate in mathematics seminars and independent research. Credit varies from 1 to 3 hours.
Prerequisite: Junior or senior standing

MATH 4701 History of Mathematics 3 Credits
The origin and development of mathematical ideas, beginning with geometry and algebra and continuing through selected topics in modern mathematics.
Prerequisite: MATH 2111

MATH 4901 Senior Seminar 1-3 Credits
A course to develop students’ use of mathematical skills and a chance to explore a mathematical concept in-depth.

Mechanical Engineering

MECT 3101K Engineering Materials 3 Credits
An overview of structures, properties, and applications of metals, polymers, ceramics, and composites commonly used in industry. Problem-solving skills are developed in the areas of materials selection, evaluation, measurement, and testing. (2-2-3)
Prerequisites: CHEM 1211, 1211L

MECT 3411 Thermodynamics 3 Credits
The fundamentals of thermodynamics. Use of gas tables is introduced. Property relations for ideal gasses and incompressible liquid are introduced. Application of first and second laws to closed and open systems is studied. Heat engines, refrigerators, heat pumps, availability, and irreversibility are studied.
Prerequisite: PHYS 1111K or PHYS 2211K

Military Science

MILS 1101 Introduction to Military Science & Skills Development 2 Credits
Instruction providing a basic understanding of the U.S. military. The course includes the following subjects: the role of the U.S. Army in national defense, organization and branches of the U.S. Army, ROTC and its role, customs and traditions of the service, military writing, implementing a personal physical fitness program, role of the ARNG and USAR, and roles of the commissioned and noncommissioned officer. Skills development includes instruction and practical exercises in basic mountaineering skills as well as knot tying, belaying, and rappelling. This course is acceptable as a PE requirement. MILS 5000 should be taken concurrently. (1-1-2)

MILS 1102 Basic Military Leadership 2 Credits
This course continues the development of critical military skills, leadership, and management techniques. It provides basic leadership techniques and principles, professional ethics, and senior subordinate relationships. One weekend field trip is required. (2-1-2)

MILS 2001 Evolution of Warfare 2 Credits
Science and art of warfare as practiced by American military leaders from the French and Indian Wars through present times. The role of the US Army is also examined in its social, economic, and political contexts.

MILS 2201 Basic Military Skills 2 Credits
Introduction and practical exercises covering basic skills necessary as a future leader in the U.S. Army. The course includes the following subjects: land navigation and map reading, basic first aid, survival, and communications. (2-1-2)
MILS 2202 Basic Military Tactic 2 Credits
Instruction introduces students to the fundamentals of Army leadership and management techniques. Focus is placed on the mission, organization, and composition of small unit teams; principles of offensive and defensive operations stressing firepower, movement, and communications techniques, and introduction to troop leading procedures. (2-1-2)

MILS 2250 Basic Field Internship Ft. Knox, KY 5 Credits
An intense summer program conducted at Ft. Knox, Kentucky, for six weeks. Designed as an alternative method to meet the prerequisites of the advanced course for students who have no basic course military science instruction. (V-V-5)

MILS 3301 Advanced Tactics & Applied Leadership I 3 Credits
Instruction on the principles of leadership and the leader’s role in directing small units in a variety of tactical scenarios. Emphasis is placed on offensive and defensive tactics, patrolling techniques, and conducting after-action reviews. Instruction in management and leadership techniques emphasizes Green Tab Leadership and leadership assessment. (3-2-3)
Prerequisite: MILS 3301

MILS 3302 Advanced Tactics & Applied Leadership II 3 Credits
Continued instruction on the principles of leadership and the leader’s role in direction of small units in a tactical environment. Emphasis is placed on action reviews. Instruction in management and leadership techniques emphasizes Green Tab Leadership and leadership assessment. (3-2-3)
Prerequisite: MILS 3301

MILS 3350 Advanced Military Skills Practicum Ft. Lewis, WA 5 Credits
The study and practical application of military skills and leadership ability during a six-week encampment experience. Encampment and training are conducted at Ft. Bragg, N.C. Instruction and evaluations are done by U.S. Army ROTC Cadet Command. (V-V-5)
Prerequisites: MILS 3301 and MILS 3302

MILS 4401 Military Leadership & Management Seminar 3 Credits
Instruction covers U.S. Army Command and Staff functions. Military and professional knowledge topics include writing in the Army style, oral communications, conducting briefings, preparing to conduct training, and evaluating training. (V-1-5)
Prerequisites: MILS 3301, MILS 3302, and MILS 3350

MILS 4402 Transition to Lieutenant 3 Credits
Instruction prepares MS IV cadets in their transition from cadet/student to commissioned officer. The course also covers military law, the law of land warfare, and additional basic knowledge and individual needs to become a professional officer. (V-1-3)
Prerequisite: MILS 4401

Naval Science

NSCI 1001 Introduction to Naval Science 2 Credits
Introduce midshipmen to NROTC program mission, organization, regulations and broad warfare components of the naval service. Included is an overview of officer and enlisted rank and rating structure, training and education, promotion and advancement and retirement policies. This course also covers naval courtesy and customs, as well as a study of the organization of the naval service. Students are familiarized with the major challenges facing today's naval officers, especially, in the areas of leadership and human resources management.
Lecture: 3.00 Lab: 00

NSCI 1002 Seapower & Maritime Affairs 3 Credits
A survey of American Naval and Maritime history from the American Revolution to the present with emphasis on major developments. Attention will be focused on Mahan’s geopolitical theory; economic and maritime forces; U.S. military and maritime strategy; and a comparative analysis of American and foreign maritime strategies.
Lecture: 3.00 Lab: 00

NSCI 1003 Sailing 3 Credits
A foundation course that provides students with fundamental knowledge and skills to be a competent crew member. The course covers the basic theory of sailing, nomenclature, seamanship, boat equipment and safety, and application inland waters navigation rules for sailing craft. Upon completion of this course, students will be Skipper “B” qualified. Practical skills to be mastered consist of rigging and sailing from a pier; sail to weather; sail two figure eight courses with two tacks and two jibes; man overboard maneuver; a capsiz; return to dock and secure.
Lecture: 2.00 Lab: 1.00

NSCI 2101 Naval Ships Systems I Engineering 3 Credits
A detailed study of ship characteristics and types, including ship design, hydrodynamics forces, stability, compartmentalization, propulsion, electrical and auxiliary systems, interior communications, ship control and damage control. Basic concepts or the theory and design of steam, gas turbine and nuclear propulsion, shipboard safety and firefighting are also covered.
Lecture: 3.00 Lab: 00

NSCI 2102 Leadership & Management 3 Credits
An introduction of management functions as they apply to routine daily military activities. The concepts of planning, organizing, staffing, directing, controlling and coordination are introduced and examined using lecture, seminar and case study methods. The course includes discussions on responsibility and accountability, power and influence, managerial theories, decision making, personnel appraisal, organizational structure and communications. Emphasis is placed on management of personnel and physical resources.
Lecture: 3.00 Lab: 00

NSCI 3003 Navigation 3 Credits
An in-depth study of piloting and celestial navigation theory, principles, and procedures, as well as the rules of the nautical road, ship employment and relative motion analysis. Students learn piloting navigation: the use of charts, visual and electronic aids, and the theory and operation of compasses. Celestial navigation is covered in depth. Students develop practical skills in piloting, celestial navigation, and relative motion analysis. Other topics include tides, currents, effects of wind and weather, use of navigational instruments, ship employment, types and characteristics of electronic navigation systems, naval command and control, and afloat naval communications.
Lecture: 2.00 Lab:1.00

NSCI 3004 Naval Operations & Seamanship 3 Credits
A study of basic naval command and control, forms of naval communications to include visual, radiotelephone and satellite systems. Students will know basic terms, equipment procedures and safety precautions used for replenishment at sea (UNREP). A study of
controllable and non-controllable forces in ship handling, and comprehend relative motion and demonstrate capability to solve problems associated with relative motion. Students will also know the principle rules for maneuvering ships in formations and the use of tactical publications. Understand import and at sea watch organization and procedures.

Prerequisite: NSCI 3003 Navigation
Lecture: 2.00 Lab: 1.00

NSCI 3101 Evolution of Warfare 3 Credits
This course traces the historical development of warfare from the dawn of recorded history to the present, focusing on the impact of major military theorists, strategists, tacticians, and technological developments. Students acquire a basic sense of strategy, development and understanding of military alternatives, and become aware of the impact of historical precedent on military thought and actions.
Lecture: 3.00 Lab: .00

NSCI 4001 Naval Ships Systems II Weapons 3 Credits
This course outlines the theory and employment of naval RADAR, SONAR, and weapons systems. Students explore the processes of detection, evaluation, threat analysis, weapon selection, delivery, guidance and naval ordnance. Fire control systems, major weapons types, and military platforms are discussed. The concept of command-control-communications and intelligence is explored as a means of weapons systems integration as are space and electronic warfare.
Lecture: 3.00 Lab: .00

NSCI 4050 Naval Drill 0 Credit
Introduces the student to basic military formations, movements, commands, courtesies and honors, and provides practice in unit leadership and management. Physical conditioning and training are provided to ensure students meet Navy/Marine Corps physical fitness standards. NSCI 4050 is required each semester for all NROTC students.
Lecture: .00 Lab: .00

NSCI 4102 Amphibious Warfare 3 Credits
A historical survey of the development of amphibious doctrine and the conduct of amphibious operations. Emphasis is placed on the evolution of amphibious warfare in the 20th century, especially, during World War II. Present day, potential, amphibious operations and their limitations, including the rapid deployment force concept, will be discussed.
Lecture: 3.00 Lab: .00
Restrictions: Must be a Junior or Senior

NSCI 4104 Leadership & Ethics 3 Credits
A study of military leadership and management which investigates techniques and concepts of task accomplishment in the absence of a normative business environment. The course includes an examination of military law, ethical leadership, personal responsibility, authority and bureaucracy. The focus of discussion is on those aspects of leadership and management not normally present in civilian enterprise such as operation in the presence of hostility and morale management.
Prerequisite: NSCI 2102
Lecture: 3.00 Lab: .00

Physical Sciences

ENVR 3101K Environmental Radiation 4 Credits
A study of radioisotops and radiation energy in the environment. Topics to be discussed are atomic structure and nuclear radiation, radioactive decay, interaction of charged particles and electrons with matter, methods of radiation detection, radiation dosimetry and radiation protection. (3-2-4)
Prerequisites: PHYS 1111K, PHYS 1112K, and General Inorganic Chemistry

GEOL 1121K Physical Geology 4 Credits
A course designed for students majoring in environmental science. The course is also useful for students majoring in civil engineering, marine science, and naval science who may take it as an elective. Topics include composition of the earth and its minerals, volcanoes, and earthquakes and their causes. (3-2-4)
Prerequisites: MATH 1111 and basic knowledge of chemistry and physics

PHSC 1011K Physical Science I 4 Credits
A course examining scientific facts and scientific laws pertaining to the physical universe. (3-2-4)

PHSC 1012K Physical Science II 4 Credits
A study of the earth in space, its form on the geographic grid, and map projections, atmosphere; oceans, ocean tides, and the eclipses; climate; soils and vegetation; temperature; latitude; heat budget of the earth. The earth’s crust and its relief forms are discussed. (3-2-4)

Physics

PHYS 1001 Introduction to Astronomy 3 Credits
This is a one-semester introduction course to astronomy. Some of the topics to be covered include: sun, planets and moons; origin of the solar system; nature and evolution of stars; exploding stars; stellar remnants, including white dwarfs, neutron stars, and black holes; molecules in space; galaxies and quasars; past and future of the Universe; and life in the Universe. A field trip to the Planetarium may be required.
Prerequisites: ENGL 0099, READ 0099, and MATH 0099

PHYS 1111K Introductory Physics I 4 Credits
An introductory course, which includes material from mechanics, thermodynamics, and waves. Elementary algebra and trigonometry are examined. (3-2-4)
Prerequisite: MATH 1111

PHYS 1112K Introductory Physics II 4 Credits
An introductory course, which includes material from electromagnetism, optics, and modern physics. Elementary algebra and trigonometry are examined. (3-2-4)
Prerequisite: PHYS 1111K

PHYS 2211K Principles of Physics I 4 Credits
An introductory course, which includes material from electromagnetism, optics, and modern physics. Elementary differential and integral calculus is used. (3-2-4)
Prerequisite: MATH 2101 or MATH 2501

PHYS 2212K Principles of Physics II 4 Credits
An introductory course, which includes material from electromagnetism, optics, and modern physics. Elementary differential and integral calculus are examined. (3-2-4)
Prerequisite: PHYS 2211K

PHYS 3111 Heat & Thermodynamics 3 Credits
Mathematical background and preparation, equations of state, ideal and real gases, kinetic theory of gases (temperature and temperature scales, heat capacity and calorimetry, work, Laws of Thermodynamics), the enthalpy
function and thermo-chemistry, Joule-Thomas experiment, entropy
functions, free energy, phase rule.
Prerequisite: PHYS 2211K

PHYS 3121 Optics 3 Credits
Advanced topics in optics; a continuation of PHYS 2212K.
Prerequisite: PHYS 2212K

PHYS 3131 Magnetism & Electricity 3 Credits
Advanced topics in electricity and magnetism; a continuation of PHYS
2212K.
Prerequisite: PHYS 2212K

PHYS 3211 Mathematical Physics 3 Credits
A course designed to develop an understanding of the concrete relationship
between mathematical factors that contribute to various physical
phenomena; qualitative and quantitative relationships.
Prerequisites: MATH 2111 and PHYS 2212K

PHYS 4111 Modern Physics 3 Credits
Recent advances in atomic and nuclear physics.
Prerequisites: MATH 2111, PHYS 2212K and at least one upper-level
physics course

PHYS 4951 Introduction to Research in Physics 2 Credits
An introduction to the techniques and procedures used in physics research
problems. (1-2-2)
Prerequisites: Junior standing in mathematics and physics; the consent
of the instructor; completion of at least one 3100 or 4100 level physics
course
Center for Academic Success

Student Academic Assistance Program (Learning Support)

ENGL 0099 Fundamentals of English 3 Credits
An exit level course in standard English, providing instruction in basic grammar, sentence mechanics, paragraph and essay composition, and test-taking skills. A diagnostic examination at the beginning of the course will identify specific areas needing improvement. Institutional credit only. (3-0-3)

MATH 0097 Fundamental Mathematics I 3 Credits
An entry level course designed to satisfy the needs of students whose knowledge of Introductory Algebra falls below the established cut-off COMPASS score for Math 0097. In this course, students will review concepts related to real numbers and variables, solving linear equations and inequalities, as well as systems of linear equations and inequalities, operations with exponential and polynomial expressions. 
Prerequisite: Appropriate cut-off placement score on COMPASS. Institutional credit only. (3-0-3)

MATH 0099 Fundamental Mathematics II 3 Credits
An exit level course designed to satisfy the needs of students whose knowledge of Intermediate Algebra falls below the established COMPASS cut-off score for Math 0099. In this course, students will review concepts related to factoring quadratic polynomials, operations of rational expressions, operations of roots and radicals, solving quadratic equations and inequalities, graphing nonlinear functions and conic sections, and exponential and logarithmic functions and their properties. 
Prerequisite: MATH 0097 or appropriate cut-off placement score on COMPASS. Institutional credit only. (3-0-3)

READ 0099 Foundations of Reading 3 Credits
A laboratory-oriented course designed to expand students’ reading skills for creative, critical, and interpretive reading, and to prepare students to pass the post CPE/COMPASS. The course is designed for pre-college level reading reinforcement, focusing on three major areas: word recognition, advanced literal and inferential comprehension, and study skills. Reinforcing Writing-Across-the-Curriculum, this course encourages students to use current events to develop multi-paragraph essays and other writing activities both in and out of class. Institutional credit only. (2-1-3)

Regents’ Preparation Courses

RGTR 0198 Regents’ Reading Preparation 3 Credits
The Regents’ Reading course is intended to ensure that all graduates of USG institutions possess certain minimum skills in reading comprehension. Students work on improving their comprehension of material drawn from a variety of subject areas (social science, natural science and humanities) with various modes of discourse (exposition, narration and argumentation). Critical thinking and the following four major aspects of reading are emphasized: vocabulary in context, inferential and literal comprehension, and analysis. Institutional credit only. (3-0-3)

RGTE 0199 Regents’ Essay Preparation 3 Credits
The Regents’ Writing Skills course is intended to ensure that all graduates of USG institutions possess certain minimum skills in writing. Students learn to evaluate their own writing strengths and weaknesses and work on improving their writing skills so that they are able to write an essay meeting the Regents’ criteria. Institutional credit only. (3-0-3)

B.S., Arizona State University; M.P.A., Jacksonville State University

COHEN, Michael Lecturer, Health Education
COX, Tara (2008) Assistant Professor, Marine Sciences
  B.S., Davidson College; M.S., Ph.D., Duke University

CROSS-HOLMES, Novella (1979) Associate Professor, Mass Communications
  B.A., Clark College; M.A., Ohio State University

CURRAN, Mary Carla (2002) Associate Professor, Marine Sciences
  B.S., University of South Carolina; Ph.D., MIT/Woods Hole Oceanographic Institution

DA SILVA, Juliana M. (2007) Assistant Professor, Mass Communications
  B.A., Rust College; M.A., American University; Ph.D., Howard University

DE BONIS, Nicholas J. (2009) Associate Professor, Marketing
  B.A., Flagler College; M.S., Troy State University; Ph.D., University of Tennessee

DELOACH, Darrell M. (1992) Assistant Professor, Mathematics
  B.S., Savannah State University; M.S., Ohio State University

DELOACH, Roenia J. (2002) Assistant Professor, Social Work, Chair
  B.S.W., Jackson State University; M.S.W., Ph.D., Ohio State University

DOLO, Samuel (2006) Assistant Professor, Mathematics
  B.S., Savannah State College, M.S., Ph.D., The University of Mississippi

  B.B.A., M.B.A., Valdosta State University; D.B.A., University of Tennessee

DYSON, Rebecca (2003) Lecturer, Health Education
  B.A., M.S.M., Armstrong Atlantic State University

FAMILONI, Babajide (2004) Professor, Engineering Technology
  B.Sc., University of Lagos, Nigeria; Ph.D., University of Alberta, Canada

FARIES, Chad (2007) Assistant Professor, English
  B.A., University of Wisconsin-Green Bay; M.A., Ph.D., University of Wisconsin-Milwaukee

FAYOYIN, Mary Jo (2001) Assistant Professor, Director of Library and Media Services
  B.A., Fairmont State; M.S.L.S., University of North Carolina

FONTENEAU, Deborah Y. (2004) Assistant Professor, English
  B.A., M.A.T., Jackson State University; M.A., Purdue University; M.Div., Eden Theological Seminary; Ph.D., University of Illinois

FRANKLIN, Chandra L. (1995) Professor, Biology
  B.Sc., M.Sc., University of Madras; M.S., University of Michigan; Ph.D., North Carolina State University

FRANKLIN, Reginald (1998) Associate Professor, Mass Communication
  B.S., Jackson State University; M.A., University of Michigan

GARDNER-MARTIN, Dorothy (1989) Professor, Psychology
  B.S., Central State University; M.A., Michigan State University; Ph.D., Temple University

GATES, Jane (2003) Professor, Political Science, Dean
  B.A., Arkansas State University; M.P.A., University of Arkansas; Ph.D., Southern Illinois University

GEIGER, Shirley M. (1996) Professor, Political Science
  B.A., Howard University; M.P.A., Ph.D., University of South Carolina

GENTRY, April D. (2003) Assistant Professor, English
  B.A., MacMurray College; M.A., Ohio University; Ph.D., Southern Illinois University

GIBSON, Irma J. (2006) Assistant Professor, Social Work
  B.A., Paine College; M.S.W., University of Georgia; Ph.D., Clark-Atlanta University

GILLIGAN, Matthew (1980) Professor, Marine Sciences
  B.A., Hartwick College; Ph.D., University of Arizona

GODCHAUX, Justin A. (2003) Senior Lecturer, Management
  B.S., M.B.A., The American University

HAN, Ying (1994) Associate Professor, Spanish
  B.A., Beijing Foreign Language University; M.A., Washington University; Ph.D., State University of New York, Stony Brook

HALE, Gwendolyn (2008) Assistant Professor, English
  B.A., M.A., East Tennessee State University; Ph.D., Middle Tennessee State University

HALES, Kevin (2008) Instructor, History (Full-time Temporary)
  B.A., Fisk University; M.A., North Carolina Central University

HARDY, Nat (2007) Assistant Professor, English
  B.A., University of Alberta; M.A., McMaster University; M.F.A., Louisiana State University; Ph.D., University of Alberta

HARRIS, Davida (2006) Instructor, Sociology
  B.A., Johnson C. Smith; M.A., The University of Akron

HARRIS-MURPHY, Vivien (2007) Instructor, Developmental English
  B.S., Savannah State University; M.Ed., Cambridge College

HERNANDEZ, Michelle (2008) Assistant Professor, Psychology
  B.A., M.S., University of Puerto Rico; Ph.D., Auburn University

HONG, Phat Q. (1990) Assistant Professor, Mathematics
  B.S., M.P.A., Savannah State University

HOSKINS, Dionne L. (1999) Associate Graduate Professor, Marine Sciences
  B.S., Savannah State College; Ph.D., University of South Carolina

IDE, Christopher (1992) Associate Professor, Political Science
  B.S., University of North Carolina; M.P.A., Auburn
JAHMANI, Yousef (2006) Associate Professor, Accounting  
Ph.D., University of Birmingham, United Kingdom

JAMISON, DeReef (2008) Assistant Professor, Africana Studies  
B.S., Bowie State University; M.S., Florida A & M University;  
Ph.D., Temple University

JAYARAMAN, Kuppuswamy (1996) Associate Professor, Engineering Technology  
B.E., Sri Venkateswara University; M.Sc., University of Madras; Ph.D., Ernst-Moritz-Arndt University

JINDANI, Shina z G. (1996) Associate Professor, Social Work  
B.S.W., M.S.W., Bombay University; D.S.W., Tulane University

JOHNSON, Johnny (2008) Assistant Professor, Biology  
B.S., Savannah State University; Ph.D., State University of New York at Stony Brook

JOHNSON, Sharon W. (2005) Assistant Professor, Management  
B.S., Northeast Louisiana University; M.B.A., Grambling State University; Ph.D., Jackson State University

JOHNSON, Willie E. (1986) Professor, Public Administration  
B.A., California State Polytechnic University; M.S., M.S.P.A.; Ph.D., Florida State University

JONES, Cecil (2006) Associate Professor, Chemistry  
B.S., Ph.D., University of Alabama at Birmingham

JONES, Hetty B. (1978) Professor, Biology  
B.S., M.Ed., Tuskegee Institute; Ph.D., Iowa State University

JORDAN, Kenneth (1989) Professor  
B.A., North Carolina College, M.A., Ph.D., University of California at Berkeley

KALANTARI, Behrooz (1997) Professor, Public Administration  
B.S., Tehran Business College; B.S., Avila College; M.P.A.; Ph.D., Southern Illinois University

KALU, Alex (1986) Professor, Engineering Technology  
B.S., University of Texas at Arlington; M.S., Louisiana Tech University; Ph.D., Louisiana State University

KATZAN, Harry, Jr. (2005) Lecturer, Computer Information Systems  
B.S., M.A., The Ohio University

KAWASHA, Boniface (2004) Assistant Professor, French  
B.A., University of Zambia; M.A., M.A., Ph.D., University of Oregon

KENT, Rosalind M. (1990) Assistant Professor, Reading  
B.S., Savannah State University; M.Ed., Georgia Southern University

KING, Jeffrey (2004) Adjunct Professor, U.S. Army Corps of Engineers  
B.S., Florida State University, M.S., Johns Hopkins University; Ph.D., Georgia Institute of Technology

KIRKLAND, Lauren (2008) Instructor, Library  
B.A., University of Georgia; M.L.I.S., University of South Carolina

LAMBRIGHT, Jonathan (2002) Associate Professor, Interim Chair, Engineering Technology  
B.S., M.S., North Carolina A&T; M.S., Ph.D., Georgia Institute of Technology

LEE, Lorne K. (2006) Assistant Professor, Music  
B.A., University of Central Oklahoma; M.F.A., Howard University

LEMA, Mulatu (1994) Professor, Mathematics  
B.Sc., M.Sc., Addis Ababa University; M.A., Ph.D., Kent State University

LESEANE, Reginald (1996) Assistant Professor, Associate Dean  
B.B.A., Savannah State University; M.B.A., Ed.D., Georgia Southern University

LI, Pengfei (2007) Assistant Professor, Physics  
B.S., University of Science and Technology of China; M.S., Ph.D., The Ohio State University

LIN, Shinemin (1994) Professor, Mathematics  
B.S., National Taiwan Normal University, M.S., Pittsburgh State University; Ph.D., University of Kansas

LIU, Ying (1990) Associate Professor, Mathematics  
B.S., Lanzou University; M.Sc., M.S., University of South Carolina; Ph.D., Carnegie-Mellon University

LULU, Menberu (2008) Associate Professor, Management  
B.I.E., Georgia Institute of Technology; M.S., Ph.D., University of Alabama

MALETTA, Thomas P. (2009) Lecturer, Business Administration  
B.A., St. John's University; M.Tax, Pace University

MARRIOTT, Karla-Sue C. (2006) Assistant Professor, Forensic Science  
B.S., Ph.D., University of the West Indies

MAYNOR, Joan D. S. (1974) Professor, English  
B.S., Savannah State College; M.A., Atlanta University; Ed.D., Grambling State University

MAYNOR, Joan D. S. (1974) Professor, English  
B.S., Savannah State College; M.A., Atlanta University; Ed.D., Grambling State University

MCCOY, Leonard (2007) Instructor, Political Science (Full-time Temporary)  
B.A., Central State University; M.S.W., The Ohio State University; M.P.A., Baruch College/City University of New York

MESCO, Eugene (1996) Associate Professor, Biology  
B.S., University of South Carolina; Ph.D., University of California Berkeley
