Special Notice
While the provisions of this catalog will generally be applied as stated, Savannah State University reserves the right to change any provision listed in this catalog, including but not limited to, academic requirements for graduation without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the office of the Registrar, the Vice President for Academic Affairs, the Vice President for Student Affairs, and the offices of the academic deans. It is especially important that students note that it is their responsibility to remain apprised of current graduation requirements for their particular degree programs.

Savannah State University, an affirmative action/equal opportunity education institution, does not discriminate based on sex, race, age, religion, handicap, or national origin in employment, admissions, or activities.

The University System of Georgia
The University System of Georgia operates 26 public institutions that are located throughout the state.

A 16-member constitutional Board of Regents governs the University System, which has been in operation since 1932. Appointment of board members - five from the state-at-large and one from each of the state's 14 congressional districts - are made by the governor, subject to confirmation by the State Senate. Regular terms of board members are seven years. The chairman, the vice chairman, and other officers of the Board are elected by the members of the Board. The Chancellor, who is not a member of the Board, is the chief executive officer of the Board and the chief administrative officer of the University System.

Instruction consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates.

Requirements for admission of students to instructional programs at each institution are determined, pursuant to policies of the Board of Regents, by the institution. The Board establishes minimum academic standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed in all cases to the institutions.

The policies of the Board of Regents are for the governance, management, and control of the University System. The administrative actions of the Chancellor provide autonomy for each institution. The executive head of each institution is the President, whose appointment is recommended by the Chancellor and approved by the Board.

The University System Advisory Council engenders continual system-wide dialogue on major academic and administrative matters of all types. It also makes recommendations to the Chancellor for transmittal to the Board of Regents as appropriate, regarding academic and administrative aspects of operation of the system.

The advisory council consists of the chancellor, the vice chancellor, and all presidents as voting members, and it includes other officials and staff members of the institutions as nonvoting members. The advisory council's academic committees and administrative committees are made up of representatives from the institutions. The committees dealing with matters of university-system-wide application include, typically, at least one member from each institution.

Accreditation

Savannah State University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award the associate, baccalaureate and master’s degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges, at 1866 Southern Lane, Decatur, GA 30033-4097, or call (404)-679-4500 or www.sacscoc.org for questions about accreditation of Savannah State University.

Savannah State University has also earned the following specialized accreditations:

Bachelor of Social Work and Master of Social Work - Accredited by the Council on Social Work Education (CSWE),

Civil Engineering Technology - Accredited by the Engineering Technology Accreditation Commission of ABET,

Electronics Engineering Technology - Accredited by the Engineering Technology Accreditation Commission of ABET,

College of Business Administration - Accredited by the Association to Advance Collegiate Schools of Business (AACSB) International,

Mass Communications - Accredited by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC),

Master of Public Administration - Accredited by the National Association of Schools of Public Affairs and Administration (NASPAA),

College of Education Certification Programs – Accredited by the Georgia Professional Standards Commission (GaPSC)

Certification

Chemistry - Approved by the Committee on Professional Training of the American Chemical Society,

The Behavior Analyst Certification Board, Inc.® has verified the following course sequence (BEHV 3103, BEHV 3104, BEHV 3105, BEHV 3117, and BEHV 3740) as meeting the coursework requirements for eligibility to take the Board Certified Assistant Behavior Analyst Examination®. Applicants will have to meet additional requirements to qualify.
Purpose and Goals of the University

Mission Statement
Savannah State University, the oldest public historically black university in the State of Georgia, develops productive members of a global society through high quality instruction, scholarship, research, service, and community involvement. The University fosters engaged learning and personal growth in a student-centered environment that celebrates the African American legacy while nurturing a diverse student body. Savannah State University offers graduate and undergraduate studies including nationally accredited programs in the liberal arts, the sciences and the professions.

Overview of Savannah State University
Savannah State University was founded when the Georgia General Assembly passed enabling legislation on November 26, 1890, creating a normal school for the training of Black citizens. The fledgling institution, known as the Georgia State Industrial College (GSIC) for Colored Youths, began its first session in June 1891 in the Baxter Street School Building in Athens, Georgia, with Richard R. Wright, Sr., as principal, and was considered a part of the University of Georgia. Religious and educational leaders such as Professor John McIntosh, Reverend E. K. Love, James Simms, Alexander Harris, and others met in March 1891 in the basement of the First African Baptist Church and developed a proposal that convinced Judge Peter W. Meldrim, chair, and the other white members of the Georgia State Industrial College Board of Commissioners to locate the new Black institution in Savannah.

The college was established as a result of the Second Morrill Land Grant Act of August 30, 1890, which had specific wording mandating the development of Black land grant colleges in the southern and border states. The early educational paradigm of the college was based on the Talented Tenth philosophy of W. E. B. DuBois, the vocation of Booker T. Washington, and the model of the New England College espoused by Richard R. Wright, Sr., because of his education under the American Missionary Association at Atlanta University. The early curriculum had normal, agricultural, and college programs. The college opened in Savannah on October 7, 1891, with Richard R. Wright, Sr., as principal, five students from Ware High School in Augusta, and a supervisor for the farm. Richard R. Wright, Jr., received the first baccalaureate degree from the college in June 1898. During Wright's presidency, Presidents William McKinley (December 1898) and William Howard Taft (May 1, 1912) visited the campus. During Cyrus G. Wiley's (GSIC Class of 1899) tenure (1921-26), women were admitted as boarders, and the college was established as a federal agricultural extension center.

In 1932, the college became a full-time degree granting institution, without high school and normal programs, and became a member of the University System of Georgia. The name of the college was changed to Georgia State College in 1936. In 1950, the name of the college was changed to Savannah State College and in 1996, the name was changed to Savannah State University.

Though its earliest academic programs were centered on agriculture, commerce and industrial and vocational trades, today’s curriculum is focused on science, research, business, liberal arts, teacher preparation and global citizenship.

Location
Savannah State University is located approximately five miles east-southeast from the center of beautiful, historic Savannah, the original European settlement in Georgia, founded by James Oglethorpe in 1733. Savannah today is an extraordinarily attractive and busy port city with nearly 200,000 inhabitants.

Nearby are historic and contemporary resort islands of St. Simons, Jekyll, and Hilton Head. Daufuskie, home of the famed Gullah culture, a blend of early African and American ways of life, language, and music, is nearby. Tybee Island lies to the east and is noted for its easy going lifestyle and sport fishing.

The general environment is replete with abundant historic and contemporary tourist and outdoor attractions, including wildlife refuges, museums, heritage preserves, and numerous other attractions. Historically, the region was noted for its rich rice and cotton production as well as its lively pirate trade. Many believe Savannah, with its exemplary urban renewal and historic preservation record, is the ultimate hostess city.

The campus itself lies on a stunning site adjacent to the inland waterway near the estuary of the Savannah River and proximate to the Atlantic coast. Several of the university's major buildings overlook the open marsh and peaceful tidewater flood plain while others center on the two beautifully landscaped quads of native foliage. A temperate climate encourages year-round outdoor activities with mean high temperatures ranging from the low 50s for December/January to the 80s for July/August.

Savannah State University is accessed from north/south US Interstate 95 and east/west US Interstate 16. A beautiful, modern and convenient Savannah/Hilton Head International Airport makes the region accessible from anywhere in the USA.

Savannah State University expanded its footprint into historic downtown Savannah on July 1, 2018, with its assumption of management and operations at the Coastal Georgia Center. The center offers a convenient, versatile and affordable environment for academic courses, as well as meetings, conferences and symposia. This two-story facility offers wireless internet access in every room, smart classrooms and free on-site technology support to business professionals, organizations and students pursuing professional advancement, academic enrichment, and graduate, undergraduate and continuing education. The Director of Graduate Studies is responsible for providing oversight and supervision of the Savannah State University Academic West Wing of the Coastal Georgia Center (CGC), directs the recruitment, development and administration of all graduate programs, in coordination with the Graduate Program Directors. The Director provides supervision of support staff and graduate staff at the main campus and the satellite campus (Coastal Georgia Center). For more information, call 912-651-2005 or email CoastalGeorgiaCenter@Savannahstate.edu.

Savannah State University expanded its footprint into Liberty County and Hinesville, GA on February 7, 2019, with its partnership with Georgia Southern University’s Liberty Campus to offer Homeland Security and Emergency Management (HSEM). The SSU HSEM program offered on our campus in Savannah is the only bachelor's degree program in homeland security and/or emergency management in the state of Georgia and the first in the nation at a historically black college/university. The program leads to the bachelor's degree in homeland security and emergency management. Students must earn 122 hours to graduate, with 36 semester hours in major required courses and no requirement for a subject area minor. A 15-hour minor in HSEM also is available.

And now for the first time, the program is being expanded into Liberty County. Additionally, Savannah State University (SSU) is proud to announce our 18 credit-hour certificate in Virtual Forensic Science: Evidence Processing, Documentation and Analysis. Building upon the forensic sciences degree, this certificate is open to students in any major as well as those employed in law enforcement, military or an associated area of forensic science, criminal justice or homeland security.
Division of Student Affairs

Central to the Division of Student Affairs is enhancing the holistic educational experience of students by providing educationally purposeful services and programs that bridge classroom learning with out-of-class experiences. The primary focus of the division of Student Affairs is to provide opportunities (e.g., activities, programs, resources, and well-maintained facilities) and to create environments that support the achievement of the university's educational goals. The quality of student life, however, depends on the extent to which students take advantage of what the university offers for their personal learning and social enrichment. Students can be assisted in this important task through the units that comprise the Division of Student Affairs and Enrollment Management.

Center for Leadership and Character Development

The Center for Leadership & Character Development focuses on developing student leadership through seminars, institutes, retreats, and workshops. The Center houses dozens of books and audio tapes on leadership, personal development, career development, and service learning. Programs include the Freshman Academy during the fall semester, the Alternative Spring Break experience and a Leadership Lecture Series throughout the year. All students are encouraged to utilize the center. Students should be mindful that space is limited in major leadership programs.

Department of Student Development

The focus of the Department of Student Development is to incorporate student learning and student development into experiential and social opportunities that will enhance students' overall educational experience. This department recognizes the importance of a comprehensive college health program, which supports our academic program, to include focus on professional personal and career counseling services, health promotion, education and prevention, medical/clinical/holistic services, intramural sports and wellness and other services.

Counseling and Disability Services

The Office of Counseling and Disability Services provides free, confidential counseling to all students. College life is a transitional period marked by change, pressure and stress. The goal is to help students understand this period and find ways of coping and grow from their experiences.

Personal Counseling

Mission
To provide developmental, remedial, preventive and consultative/training services which will assist students to grow and experience personal and academic success within the educational framework.

Areas of counseling include but are not limited to: relationship issues, self-esteem, stress management, eating disorders, problem gambling, pregnancies, anger management, depression and suicide, home-sickness, self-injurious behaviors and substance abuse.

Disability Services

Mission
To improve the educational development of students with disabilities and the vocational access of employees with disabilities by providing appropriate accommodations; and to enhance understanding and support within the campus community.

Accommodations are academic services or adaptations that allow a student with a disability to have full access to academic information and access to demonstrate they mastered the information or allow an employee to have access to meet the essential functions of their position. Accommodations do not guarantee success, but they provide equal access. Accommodations do not compromise academic standards or the mastery of essential course elements. Students with disabilities who receive accommodations must still meet all admission and academic standards, including attendance requirements.

Accommodations typically offered, based on the individual student’s documented needs may include, but are not limited to: registration assistance, consultation with faculty, volunteer note taker services, permission to tape lectures, priority seating, and relocating inaccessible classrooms, extended test time, low distraction test room, audio books, adaptive software and enlargement of print materials.

All students who have been approved for accommodations receive an Accommodation Letter each semester to show to their professors. The Accommodation Letter outlines the student's approved accommodations. It is the student's responsibility to pick up this letter each semester, discuss their needs and accommodations with their professors and have their professors sign the Acknowledgement Form. The student is responsible for returning the signed Acknowledgement Form to the Coordinator of Disability Services each semester. Students should not assume that professors would provide accommodations without an Accommodation Letter.
Services are available to those students who choose to self-identify to the Coordinator of Disability Services and provide appropriate documentation of their disability that meets standards set by the Board of Regents. The office refers students to resources to obtain documentation, if needed. Students with a learning disability, attention deficit disorder, an acquired brain injury, psychological disorders, chronic medical illnesses, mobility impairments, pervasive developmental disorders, vision impairment and hearing impairment may be eligible. Written copies of documentation requirements are available in the office. SSU does not offer separate classes for students with disabilities. All disability accommodations are provided at no charge.

The Office of Counseling and Disability Services: 912-358-3129.

Student Health Services
Harris-McDew Student Health Center
Mission
Student Health Services is dedicated to the delivery of excellent health care, the facilitation of student learning and personal responsibility, and the continual improvement of medical services to foster growth and attitudes for the future.

All full-time undergraduate and graduate students pay a student health fee that covers the unlimited use of student health center services without additional cost for services provided by the staff. The center, which is staffed by nurses, is open Monday through Thursday. A part-time physician is also available evenings Monday through Friday. Available services include:

- Medical and nursing examination and care;
- Rape Crisis Center;
- Family Planning Services;
- Limited pharmacy services;
- Information, consultation and referrals;
- Wellness and wholesome mental and physical health habits programs; and
- Day beds for temporary observation and care.

A resident student suffering from an injury or sudden illness during hours when the health center is closed should contact the residence hall staff, community assistant, or the Department of Public Safety. An ambulance or paramedic unit may be dispatched to campus for an immediate evaluation or transportation to the hospital as needed at the student's expense. Students are responsible for the cost of all services provided by any other community health care provider. All students are encouraged to secure coverage by an adequate health insurance plan and should follow its directions for emergency or crisis care. Information on a current student health insurance plan is maintained in the Student Health Center. Participation in the student health insurance plan is voluntary and the student is responsible for the cost.

Contact: The Harris-McDew Student Health Center; (912) 358-4122.

University Recreation and Wellness
The University Recreation and Wellness (URW) department is designed to foster both competitive and leisure sports and fitness activities for both men and women. The purpose of the URW is to promote student learning for all students, and development by encouraging outcomes such as intellectual growth; ability; to communicate effectively, realistic self-appraisal, enhanced self-esteem, clarification of values, leadership development, physical fitness, meaningful interpersonal relations, ability to work independently and collaboratively, social responsibility, satisfying and productive lifestyles, appreciation of aesthetic and cultural diversity, and achievement of personal goals.

Mission:
To enhance students' fitness and wellness, knowledge, personal skills, and enjoyment by providing opportunities for a variety of activities that may contribute to individual fitness and wellness; opportunities for cooperative and competitive play activity in the game form; and a medium through which students can learn and practice leadership, management, program planning and interpersonal skills.

Activities usually include, but are not limited to, basketball, volleyball, softball, and flag football. Participants are required to complete a Student Waiver Form with the URW office. Sporting equipment and other resources will be made available.

Contact: University Recreation and Wellness; (912) 358-3071.
University Career Services
University Career Services are designed to assist students and other designated clients through all phases of their career development.

Mission
To assist students, alumni and retirees of Savannah State University in developing and implementing career plans, through career guidance, promoting institutional awareness, early intervention activities, exposure to resources and involvement in opportunities for learning and development of career goals.

University Career Services offers services and resources, which include, but are not limited to career focus checklist for freshmen through seniors, job fairs, computer career guidance, employment bulletins, internship guidance, interviewing and job searching programs, on campus recruiting and outreach programs, referral services and resume development.

Contact: University Career Services; (912) 358-3140.

Housing and Residence Life
University Housing and Residence Life provides comfortable, affordable, and secure residential communities located throughout campus. In particular, the university has traditional residence hall facilities and apartment-style facilities for upper-class level students. Residence life programs promote student development, leadership and a variety of living and learning options that compliment classroom instruction. For a greater understanding of residence life at the university, students are encouraged to read the Student Handbook, which is available in the Office of the Dean of Students.

Students wishing to live on campus are required to apply for housing at the beginning of the academic year, summer school, and any semester that is preceded by a break in continued residence. Room assignments are made for the academic year. Students who live in residential facilities are required to purchase a meal plan. Students who have a diet prescribed by a physician may be exempted if dining services are unable to prepare meals.

Learning communities are established in designated housing facilities for merit scholars (SSU Honors Program, externally funded scholarship recipients, e.g., NSF, NIH, etc.). As approved annually by the University, this housing includes free accommodations in the summer to allow qualifying merit scholars to participate in required research training during the summer semester.

Contact: University Housing and Residence Life; (912) 358-3132.

Department of Student Life
The Department of Student Life, is responsible for enhancing student life for all students, through co-curricular activities, which are an integral part of the physical, social, emotional, spiritual, and intellectual growth of students. Student activities at Savannah State University consist of:

- Clubs and Organizations
- Game Room and Recreational Activities
- Movies
- Campus-wide and Informal Activities
- Departmental Activities

Student organizations provide opportunities for students, faculty, and staff to interact with one another during cultural, recreational, spiritual and social activities either in formal or informal settings.

Organizations that are recognized at the university include:

- Honor Societies
- Professional and Departmental Organizations
- Fraternities and Sororities
- Service Clubs and Organizations
- Student Leadership Development
The Board of Regents is deeply concerned about this problem. Under the Constitution of the State of Georgia, under all applicable court rulings, and in keeping with the tradition of higher education in the United States, the Board is ultimately responsible for the orderly conduct of its institutions. The Board of Regents reaffirms its policies to fully support freedom of expression by each member of the academic community and to preserve and protect the rights and freedoms of its faculty and student members to engage in debate, discussion, and peaceful and non-disruptive protest and dissent. The following statement relates specifically to the problem described herein. It does not change or in any way infringe upon the Board’s existing policies and practices in support of freedom of expression and the rights, responsibilities, and prohibitions described in this statement are incorporated as a part of these regulations.

Disruptive Behavior
The following statement is the policy of the Board of Regents regarding disruptive behavior at any institution of the University System. The rights, responsibilities, and prohibitions described in this statement are incorporated as a part of these regulations. "The Board of Regents of the University System of Georgia reaffirms its policies to fully support freedom of expression by each member of the academic community and to preserve and protect the rights and freedoms of its faculty and student members to engage in debate, discussion, and peaceful and non-disruptive protest and dissent. The following statement relates specifically to the problem described herein. It does not change or in any way infringe upon the Board's existing policies and practices in support of freedom of expression and action. Rather it is considered necessary to combat the ultimate effect of irresponsible, disruptive, and obstructive actions by students and faculty who tend to destroy academic freedom and the institutional structures through which it operates. In recent years, a new and serious problem has appeared on many college campuses in the nation. Some students, faculty members, and others have on occasion engaged in demonstrations, sit-ins, and other activities that have clearly and deliberately interfered with the regular orderly operation of the institution concerned. Typically, these actions have been the physical occupation of a building or campus area for a protracted period of time or the use of verbal or written obscenities involving indecent or disorderly conduct.

These actions have gone beyond all heretofore-recognized bounds of meetings for discussions, persuasion, or even protest in that (1) acquiescence to demands of the demonstrations is the condition for dispersal, and (2) the reasonable and written directions of institutional officials to disperse have been clearly ignored. Such activities thus have become clearly recognizable as an action of force, operating outside all established channels on the campus, including that of intellectual debate and persuasion, which are at the heart of education.

The Board of Regents is deeply concerned about this problem. Under the Constitution of the State of Georgia, under all applicable court rulings, and in keeping with the tradition of higher education in the United States, the Board is ultimately responsible for the orderly operation of the several institutions of the University System and the preservation of academic freedom in these institutions. The Board cannot and will not divest itself of this responsibility.

Of equal or even greater importance, such action of force as previously described destroys the very essence of higher learning. The essence is found in the unhampered freedom to study, investigate, write, speak, and debate on any aspect or issue of life. This freedom,
which reaches its full flowering on college and university campuses, is an essential part of American democracy, comparable to the jury system or the electoral process.

For these reasons and in order to respond directly and specifically to this new problem, the Board of Regents stipulates that any student, faculty member, administrator, or employee, acting individually or in concert with others, who clearly obstructs or disrupts, or attempts to obstruct or disrupt any teaching, research, administrative, disciplinary or public service activity, or any other activity authorized to be discharged or held on any campus of the University System of Georgia, is considered by the Board to have committed an act of gross irresponsibility and shall be subject to disciplinary procedures, possibly resulting in dismissal or termination of employment.

The Board reaffirms its belief that all segments of the academic community are under a strong obligation and have a mutual responsibility to protect the campus community from disorderly, disruptive, or obstructive actions, which interfere with academic pursuits or teaching, learning, and other campus activities."

Violations of the Student Conduct Code

Students, including Distance Learning students, may receive disciplinary action, including suspension and dismissal for a number of acts of misconduct committed on or away from University property. (For additional details, see the Savannah State University Code of Student Conduct) as listed in the Student Handbook. Examples of these actions are listed below.

- Academic misconduct
- Disorderly conduct
- Misuse of student identification cards
- Hazing and/or harassment
- Violation of the local, state and federal laws
- Possession of drugs and alcoholic beverages
- Falsification of records
- Unauthorized use of computer resources
- Unauthorized entry or use of University facilities
- Violation of residence hall visitation rules and regulations
- Possession of weapons

Disciplinary Procedures

A charge of misconduct originates with the accuser filing a written charge with the Office of Student Conduct. Any person may refer a student suspected of violating the student conduct code. Upon receipt of the charge, the Coordinator for Student Conduct conducts an informal investigation to determine whether to drop the case or send a letter of notification to the accused student. If a formal charge is made to the accused, either electronically, certified letter, or in person, the Coordinator will request a meeting with other necessary relevant parties on an individual basis. The purposes of the administrative interview are two-fold: first, to determine whether probable cause exists to believe the accused may have committed the charged offenses; and second, to determine whether to have the case heard by the Coordinator or the University's Student Conduct Review Board. The Coordinator will notify all persons of the time and place when they are to appear before the Board.

Student Conduct Review Board

Unless the accused elects to have the case decided by the Coordinator for Student Conduct the Student Conduct Review Board (comprised of faculty, staff and students) will adjudicate the case. If the accused chooses a hearing by the Student Conduct Review Board, the Coordinator or Investigator shall present the case on behalf of the person bringing charges, including cases where the Office of Student Affairs files the charges.

Basis for Review (Appeals)

All appeals must be made in writing within five business days of the original decision. The original decision is final on the day it is rendered by the Coordinator and the Hearing Body (Hearing Officer, Student Conduct Review Board or Administrative Hearing Officer). The filing of an appeal will not postpone punishments imposed there under, by the Dean of Students or the Hearing Body.

The accused may appeal on the grounds listed below. The appellant, as appropriate, may assert additional grounds.

1. The proceeding failed to follow procedures; including observing the rights of the accused, but only if such failure actually resulted in preventing the accused from adequately defending against the charge.
2. The findings are not supported by substantial evidence, or the recommendations are not supported by the findings.
3. One or more members of the adjudicating body demonstrated bias. "Bias" requires more than merely knowing the accused or knowing something about the case. Disqualification occurs only where it can be established that the Vice President or Student Conduct Review Board member was incapable of rendering a fair decision.
4. In light of the nature of the offense and the student's disciplinary record, the sanctions imposed by the adjudicating body were excessive.

Article IX Appeal to Board of Regents

A student dissatisfied with the President's decision has the right to appeal to the Board of Regents. The appeal to the Board shall be submitted in writing to the executive secretary of the Board through the Chancellor, within twenty calendar days after the President's decision and shall cite all the reasons for dissatisfaction with the previous decision.

Drug possession or use (without valid medical or dental prescription), manufacture, transportation, storage, furnishing, or sale of any narcotic or dangerous drug controlled by federal or Georgia law is prohibited. Students convicted of violation Section II (Drugs and Alcohol) of the student conduct code may lose academic credit and/or federal financial aid and/or be suspended from the University.

Weapons

Persons found in possession of weapons will be subject to disciplinary action by the University and/or local courts. Violators will be subject to arrest, adjudication by the University and/or prosecution by local, state, and federal courts. It is against University rules and regulations for students to possess, use, or store weapons such as guns, blackjacks, bow and arrows, Taser guns, BB guns, air guns, ammunition, hunting slingshots, martial arts weapons, chemical weapons, medieval weapons, darts, knives or mace. Carrying a weapon onto or within 1,000 feet of property owned, controlled, or leased by the University is strictly prohibited.

Contact: The Office of Student Conduct is conveniently located on the SSU campus in the King-Frazier Student Center, room 247, and can be contacted at (912) 358 - 3122.

Title IX: Compliance

Sexual Harassment, Discrimination, and Sexual Misconduct Policy

Title IX of the Education Amendments of 1972 prohibits discrimination based on sex in education programs and activities that receive federal funding.

Title IX states: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

Title IX prohibits sex discrimination in any university program including, but not limited to health services, counseling, psychological services, athletics, admissions, academic programs, extracurricular activities, employment, and financial aid, housing, and student services. Title IX prohibits discrimination by and against both males and females, by students, faculty and staff, and visitors.

The policy of Savannah State University is to implement equal opportunity for employees, students and applicants for employment or admission without regard to race, color, religion, national origin, gender, gender identity, sexual orientation, age, veteran status, and physical or mental disability.

"Discrimination based on sex" contains a broad category of activities that prevent or limit the victim from participating in or benefiting from an education program or activity.

Examples of sex-based discrimination, include, but are not limited to:

Unequal admission, participation, or employment opportunities in education programs and activities based on a person's sex;

Unequal opportunities to participate in intercollegiate athletics or to receive athletics-based financial assistance based on a person's sex.

Sexual Harassment

"Discrimination based on sex" also includes sexual harassment. Sexual harassment is unwelcomed sexual conduct, intimidation, or coercion that is severe and pervasive, and that prevents or limits the victim from participating in or benefiting from an education program or activity. Harassers and victims may be either male or female, and may be students, faculty, or staff.

Examples of sexual harassment include, but are not limited to:

Criminal sexual conduct, such as rape and sexual assault
Requesting or pressuring an individual for sexual favors
Discussing sexual activities
Sexual conduct of any nature, which is not freely and mutually agreeable to both parties
Sexual remarks about one's clothing, body or sexual activities
Sexual jokes, innuendo, texts, teasing and/or remarks
Verbal harassment or abuse
Stalking
Indecent exposure
Unnecessary touching, patting, cornering, fondling, hugging, against a person's body

Consensual Relationships

The existence of such a consensual relationship must be immediately disclosed to your supervisor. Consensual romantic or sexual relationships between supervisor and employee or between faculty and students are strongly discouraged. No person involved in a consensual relationship should have direct responsibility for evaluating the employment or academic performance or for making decisions regarding the promotion, tenure, or compensation of the other party to the relationship. The existence of such a consensual relationship must be immediately disclosed to your supervisor.

Retaliation is prohibited.

It is unlawful to retaliate against an individual for filing a complaint or for cooperating in an investigation of complaint regarding Title IX. SSU will take strong responsive action if retaliation occurs. Any person found to have retaliated against an individual reporting, filing, or cooperating in a Title IX matter is subject to SSU disciplinary procedures up to and including expulsion or termination.

Title IX—Sexual Misconduct

Savannah State University supports a safe learning environment for all students, faculty, staff and campus visitors. The university prohibits sex discrimination, including sexual misconduct of any kind, and enforces a Sexual Misconduct Policy. The policy applies to all students, employees and third parties, regardless of sexual orientation or gender identity. Any form of sexual misconduct, including but not limited to sexual assault, sexual exploitation, sexual harassment and stalking, will not be tolerated on the Savannah State University campus. The university encourages members of the campus community to report sexual misconduct immediately and has several tools available to ensure the process is fair and prompt.
Division of Enrollment Management

As a resource to Savannah State University, the Office of Enrollment Management, reporting to the Division of Student Affairs, facilitates, coordinates, manages, and provides continued outstanding services to students, faculty, staff, administration, the community, prospective students, and alumni.

The Enrollment Management endeavors to promote and enrich student education through recruitment, admissions, and student services support by way of ongoing direct contact with students in their everyday lives. This mission is accomplished by working in partnership with the University community and its stakeholders.

The scope of the office is to advance the recruitment and admissions activities of the institution while achieving a healthy overall mix of high achieving students, students with limited learning support need, adult learners, transfer students, out-of-state and international students. The office is also charged with creating an enrollment profile that reflects the changing demographics of the State of Georgia and, in particular, the metropolitan areas of Savannah and the Coastal Georgia region.

By developing and/or implementing highly functional information systems, and a robust reporting environment, the Office of Enrollment Management provides ongoing analysis of the characteristics and student behaviors of current, prospective, and former students to help the University achieve its goals. It studies enrollment trends, forecasts enrollments, and develops strategies to improve recruitment and customer service efforts and endeavors.

Undergraduate Admission to the University

Persons who wish to enroll at Savannah State University must file an application, which can be obtained from the Office of Admissions or GA Futures (GAFutures.org). Applicants who are high school students should file an application as early as possible during their senior year. All applications must be filed and completed by the application deadline for the semester in which applicants plan to enroll.

All new students (freshmen, transfers, and others) attending regularly scheduled classes or receiving resident credit will be required to submit a University System of Georgia Certificate of Immunization prior to attending such classes. This certificate will be kept on file in the Office of Student Health Services and will be valid throughout enrollment. Students without this certification of immunization may be denied permission to enroll at the University. Exceptions may be made for students who have religious objections and students whose physicians have certified that the students cannot be immunized because of medical reasons.

Savannah State University reserves the right to employ appropriate assessment mechanisms to ascertain the suitability of applicants to enroll in the University and to deny enrollment or admission to individuals based upon the results of this assessment.

The University reserves the right to withdraw admission prior to or following enrollment if students become ineligible as determined by the standards of the University or Board of Regents. These standards may be revised and new policies initiated upon the discretion and consensus of the University and Board of Regents.

Admission Procedures

Applicants are responsible for requesting official documents required for admission be sent directly from their previous institutions to the Office of Admissions. Official documents must be issued by the records office of the previous institution(s) in either a sealed envelope sent or electronically to the Office of Admissions at Savannah State University. These documents become part of the applicants' permanent records and will not be returned.

The following are specific items required for admission:

- **APPLICATION FORM.** An application may be obtained from the Office of Admissions or on-line at http://www.savannahstate.edu/. Care should be taken to read the directions accompanying the application and provide all information requested. An incomplete application will cause delay and may be returned without a decision.
- **CERTIFICATE OF IMMUNIZATION.** All applicants must submit a copy of immunization(s) as a condition of enrollment. This document must be on file before registration.
- **OFFICIAL TRANSCRIPT(s) OF COURSES COMPLETED.** All documents must be on file in the Office of Admissions prior to the specified document deadline. Freshmen applicants should request their high school guidance department send an official copy of their transcript. Freshman applicants who are applying for FT status who have been dually enrolled at other higher education institutions must submit the transcripts from those institutions. Non-traditional adult candidates must submit an official high school transcript and/or official college transcript(s), if applicable. Transfer candidates with fewer than 45 transferable quarter hours, or 30 transferable semester hours should submit official transcripts from their high schools and from all colleges previously attended.
• **COPIES OF TEST SCORES.** The Scholastic Aptitude Test (SAT I) or The American College Testing Program (ACT) tests are required for all freshmen applicants and transfer students not meeting transfer requirements. Applications and information for the college entrance exams can be found in high school guidance offices or may be obtained from College Board or the American College Testing. The SAT college code assigned to Savannah State University is 5609, and the ACT college code number is 0858. Non-traditional students who earned a GED certificate are also required to submit Next-Generation ACCUPLACER scores as required to satisfy admission criteria. Transfer candidates who have attempted fewer than 45 transferable core quarter hours or 30 transferable semester hours must also submit SAT I or ACT scores and submit an official copy of their high school transcript.

• **OTHER REQUIREMENTS.** The University may require applicants to appear for a personal interview and take any exams deemed appropriate in order to make a decision regarding the qualification for admission to the University.

**Admissions Requirements**

**Freshman Applicant/Regular Admission**

Acceptance to the University is determined on the basis of a Freshman Index, which is calculated by using a numerical formula. (See Freshmen Index below) The required Freshmen Index for admission is 1940. The required high school curriculum, ACT or SAT scores, and grade point average is used to determine admissions. Applicants must be a graduate of an accredited high school (regional accrediting association or a public school regulated by a school system and state department of education) with a diploma (a certificate of attendance is not acceptable). The University requires the students' final high school transcripts before they are allowed to attend classes. Applicants graduating from high school less than 5 years or earlier, must complete requirements of the Required High School Curriculum (RHSC) of the Board of Regents (see Required High School Curriculum).

**Regular Admissions Requirements:**

- Freshman Index of 1940
- SAT Evidence-Based Reading and Writing Section score of 480 (New SAT)/ 430 Critical Reading (Old SAT) and Math
- Section score of 440 (New SAT)/ 400 Math (Old SAT) or ACT English 17 or Reading 17, ACT Math 17, and ACT Composite 17
- Minimum 2.0 GPA
- 17 CPC Units

**Freshman Index**

The Freshman Index is calculated by adding a weighted high school GPA (500 x HSGPA) to the sum of the verbal and mathematics scores on the SAT. If ACT scores are submitted, a comparable formula is used.

Formula for SAT

\[
\text{Freshman Index} = 500 \times \text{HSGPA} + \text{SAT I verbal} + \text{SAT I Math}
\]

Prior to test administered March 2016

\[
\text{Freshmen Index}= 500 \times (\text{HSGPA}) + 1.06 \times (\text{Evidence-Based Reading and Writing Section score} + \text{Math Section Score}) -74
\]

Test administered after March 2016

Formula for ACT

\[
\text{Freshman Index} = 500 \times \text{HSGPA} + (\text{ACT Composite score} \times 42) + 88
\]

The required index score for regular admission to Savannah State University is subject to increase. Contact the Office of Admissions for current index scores for application term.

**Test Scores**

The highest scores submitted by the applicant will be used for admissions purposes. The minimum scores for regular admissions are as listed:

- SAT I (New) 480 Evidence-Based Reading and Writing Section and 440 Math Section
- SAT I (Old) 430 Critical Reading and 400 Math
- ACT 17 English, 17 Math, and 17 Composite

**High School Grade Point Average**

A minimum of a 2.0 grade point average is required for Regular Admissions. The high school grade point average is calculated by using only college preparatory curriculum courses in the formula. All courses attempted will be calculated into the grade point average (upon
receipt of final high school transcript the GPA is calculated on the 17 units used to satisfy Required High School Curriculum requirements. Courses will not be weighted unless designated by a grade legend printed on the applicant’s high school transcript indicating additional points should be added. A preliminary GPA is calculated for admissions and is re-calculated when the final high school transcript is received by the Office of Admissions.

**Required High School Curriculum**

Listed are the requirements for completion of the Required High School Curriculum (RHSC). A preliminary evaluation is processed using the current high school transcript to determine if the applicant is on track to complete the required number of units. A final evaluation is processed when the final high school transcript is received. The applicant must complete a minimum number or CPC units when the preliminary evaluation is processed for admissions.

<table>
<thead>
<tr>
<th>Units</th>
<th>Instructional Emphasis/Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>English (4)</td>
<td>Literature (American and World) integrated with grammar, usage and advanced composition skills.</td>
</tr>
<tr>
<td>Science (4)</td>
<td>Science units should include two courses with a laboratory component. GA public high school students should have at least one unit of Biology; one unit of Physical Science or Physics; one unit of Chemistry, Earth Systems, Environmental Science, or an Advanced Placement course; and a 4th science (some computer science courses may count as a 4th science).</td>
</tr>
<tr>
<td>Mathematics (4)</td>
<td>Two courses in Algebra, one course in Geometry, and one other Math.</td>
</tr>
<tr>
<td>Social Science (3)</td>
<td>Courses must include one unit focusing on U.S. studies and one unit on world studies.</td>
</tr>
<tr>
<td>Foreign Language (2)</td>
<td>Two courses in one language emphasizing speaking, listening, reading, and writing. Computer Science courses that have an emphasis on coding and programming can be used to satisfy this requirement.</td>
</tr>
</tbody>
</table>

**Limited Admission**

Freshmen applicants that do not meet the freshmen index for regular requirements may qualify for limited admissions if a minimum set of requirements are met. Only a small percentage of the total freshmen class may be admitted as Limited admits. Students will be evaluated and granted Limited admissions on a space availability basis if the minimum requirements are met.

Minimum Requirements for Limited Admissions:
- Freshman Index of 1790
- 2.0 grade point average
- SAT Critical Reading score of 430 (Old SAT)/ 480 Evidence-Based Reading and Writing Section (New SAT) and Math score of 400 (Old SAT)/ 440 Math Section (New SAT) or ACT of 17 English or 17 Reading, 17 Math, and 17 Composite
- A minimum of 17 units of RHSC courses

**Satisfying Required High School Curriculum Deficiencies**

Students who have not completed the RHSC requirements in high school, students that graduate from high schools that are not accredited, home school students and applicants earning a GED must satisfy the minimum number of units to satisfy requirements for admissions. Students that are admitted via limited admissions must satisfy the requirements during the first term(s) of enrollment.

**English**

Students earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. **A score of 520 on the English Writing SAT II subject test and a score of 530 on the Literature test are passing scores.** Students with a passing score on only one test would have two deficiencies at admission and, therefore, must be tested for placement into a Student Academic Assistance or Learning Support English course (institutional credit only). Satisfactory scores on either test will provide credit for two years of CPC English while satisfactory scores on both tests will provide credit for four years or CPC English.

Limited admit applicants graduating with fewer than the four required units of English are required to take the reading and writing section of the ACCUPLACER. Based upon the score earned, students will either be exempt from or required to enroll in the appropriate learning support course. Students who took the SAT I exam and their Critical Reading or Evidence-Based Reading and Writing scores met or exceeded the average score of the first-time, full-time freshmen class of the previous year may satisfy any English deficiency.

**Mathematics**

Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. **To satisfy the math CPC course requirements a score of 500 on the Math IC and a score of 550 Math IIC must be earned on the test.** Students not passing either test would have three deficiencies.
Limited admit applicants graduating with fewer than the four required units of mathematics are required to take the math section of the ACCUPLACER. Based upon the score earned, students will either be exempt from or required to enroll in the appropriate learning support course. Students who took the SAT I exam and their Math scores met or exceeded the average score of the first-time, full-time freshmen class of the previous year may satisfy any math deficiency.

Science
Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. To satisfy the science CPC course requirements an applicant must achieve a score of 520 on the Biology subject test and a 540 on the Chemistry subject test or 590 on the Physics subject test. Students passing only one of the two required tests would have two deficiencies at admission.

Limited admit students that are admitted with fewer than the four required units of science are required to take a laboratory science course and pass it with a grade of C or better. Students must enroll in a laboratory science course and pass the course with a C or better.

Social Science
Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. To satisfy the social science CPC requirements an applicant must achieve a 560 on the SAT II subject tests in American History and Social Science and achieve a 540 on the World History. Students passing only one of the two required tests would have two deficiencies at admission and, therefore, will be required to enroll in a social science course.

Limited admit students that are admitted with fewer than the three required units of social science are required to take a three semester hour course from approved social science courses and pass it with a grade of C or better.

Foreign Language
Students earning a GED, earning a home school diploma and/or graduating from a non-accredited high school may take SAT II subject tests to earn CPC units. To satisfy the foreign language CPC requirements an applicant must pass a SAT II test for language or qualify for exemption. Alternatively, the CLEP, AP, or a departmental exam may be taken, and, if the score earned is adequate, credit will be granted for meeting the foreign language requirements.

Limited admit students with fewer than the two required units of foreign language are required to take a three semester hour course from an approved social science courses and pass with a grade of C or better.

Policies Regarding RHSC Deficiencies
All course work required to overcome deficiencies must be completed prior to accumulating 30 semester hours of university level course work. In science, social science, and foreign language courses, it is necessary to complete the course with a grade of C or better.

Students should register for courses to satisfy deficiencies in science, social science, or foreign language during their first and each subsequent semester of enrollment until the deficiencies are satisfied.

Students transferring with fewer than 30 transferable credit hours of accepted transfer credits which do not include completion of the core curriculum credits, or from a program not requiring the College Preparatory Curriculum are required to submit a high school transcript and appropriate test scores for evaluation. Applicants not meeting regular freshman requirements (see Regular Admission) are required to test for placement and should register for any deficiencies immediately upon entering Savannah State University.

Students whose native language is not English may be considered to have met the CPC foreign language requirements if they are proficient in their native language. Documentation from the high school counselor is needed to verify that the student’s native language satisfies the foreign language requirement.

Exceptions to the RHSC Requirements
Applicants who have not attended high school within the previous five years are exempt from Required High School Curriculum Requirements. Qualified transfer applicants and International students are exempt also.

Non-traditional applicants who are admitted with RHSC exemptions in English and/or Math are required to sit for the Next-Generation ACCUPLACER.

Presidential Exceptions
In very special and rare circumstances, the President of Savannah State University may grant exceptions to the RHSC and FI requirements for limited admissions if students show exceptional promise for success. Only a few students can be admitted under this category. The total number of Presidential Exceptions must be included in the Limited Admit category and both categories must not exceed 20 percent of the previous Fall First Time-Full Time Freshman cohort. Applicants are required to submit two letters of recommendations and a letter demonstrating desire and competency to attend college.

**Admission of Students with Disabilities**

Applicants with disabilities are expected to have completed the RHSC requirement with the appropriate instructional accommodations. The Core Curriculum of Savannah State University requires students to complete university-level courses in English, mathematics, social science, and science. No exemptions or substitutions are permitted for these required college courses. Students who are not successful in the high school courses will not be provided with RHSC exceptions in the admissions process.

Foreign language fluency is not required for all majors at Savannah State University. Therefore, students with learning disabilities that preclude the acquisition of a foreign language may petition for admission without completing this RHSC requirement.

For admission to Savannah State University, students must receive approval from a Regents' Center for Learning Disorders (RCLD) prior to acceptance. To ensure consideration under this provision, students should apply for admission and request a RCLD review no later than six months before the admissions decision is to be made. Students applying should also apply and request approval at least six months in advance, but may be admitted in the limited category if they meet other requirements. Those admitted without approval must request a RCLD review and submit all requested materials during their first semester of enrollment. Students who receive approval from the RCLD may then satisfy the CPC foreign language deficiency by substituting another type of course determined by the Institution.

Students are expected to achieve the University's minimum SAT scores with the appropriate SAT accommodations from the College Board.

Students may apply and be admitted without regard to disability. However, students who do not meet the regular admissions requirements and who would like to be considered for accommodations in the admissions process must notify the Office of Counseling and provide documentation of their disability. In particular, students with learning disorders who are requesting an accommodation that requires approval from a RCLD review should apply at least six months in advance of the time the admissions decision is needed.

Students should be aware that certain programs and degrees require the ability to perform specific critical skills. Students should, prior to applying for or beginning a program of study, review all requirements that are necessary for completion of the program.

**Transfer Students**

Transfer students who have been out of high school fewer than five years are requested to submit high school transcripts and SAT/ACT test scores as part of their application package unless they have completed 30 transferable hours and earned a minimum GPA of 2.0.

Transfer students completing high school less than 5 years ago and transferring from University System of Georgia institutions maintain their RHSC status as determined by the first University System institution making the original RHSC evaluation.

Transfer applicants are required to send official transcripts from all previously attended colleges or universities. Transcripts should be sent to the Office of the Registrar at Savannah State University, regardless of the transferability of the credits.

Transfer applicants are not considered for admission unless they are academically eligible to return to the colleges or universities they last attended.

Transfer applicants will be considered for admission to Savannah State University if their grade point average is equivalent to 2.0 on all work attempted at other institutions. Applicants with a GPA of less than 2.0 will be denied admission, but may appeal to the Office of Academic Affairs.

Credit allowed for extension, correspondence, CLEP examination, or military service schools shall not exceed a total of 30 semester hours.

Transfer credit may be accepted from degree granting institutions that are accredited at the collegiate level by their appropriate regional accrediting agencies. Students may be required to validate credit by examination. In computing cumulative grade point averages, only the work attempted at Savannah State University will be considered.

If the Core Curriculum requirements in Area A (Essential Skills), Area B (Institutional Options), Area C (Humanities/Fine Arts), Area D (Science, Math, and Technology), Area E (Social Sciences), Freshman Experience, and/or health and wellness have been
completed at a University System of Georgia institution, each completed course will be accepted as having met the respective area requirement at Savannah State University. Freshmen Experience/Orientation classes will be allowable substitutions for SSU FYE courses. Transfer students who transfer in 30 or more hours are exempt from taking the First Year Experience course. Students must meet the overall hours to graduate but can make up the hours with elective credit.

An official evaluation of applicants' previous college credit hours earned will be completed prior to their first semester of attendance, provided that all transcripts are on file. Transfer credit will be awarded from institutions listed in the American Association of College Admission Officers and Registrars Handbook as being regionally accredited.

Students who complete course work and exit any area of Student Learning Support at a University System institution shall not be required to re-enroll in that area of Student Learning Support upon transfer to Savannah State University.

All transfer students from within the system shall be subject to all provisions of this policy. During subsequent semesters, these students shall be subject to all provisions of this policy. Provisionally admitted transfer students must meet the same regular admission requirements as individuals admitted to the University for the first time. A complete record of past remedial course work and ACCUPLACER exam scores must be on file in the Savannah State University Office of the Registrar.

**Dual Enrollment**

Students who have completed the ninth grade in high school and who have demonstrated outstanding ability towards academic achievement will be considered for Dual Enrollment. The University will consider students for Dual Enrollment only upon recommendation from their high school counselor. To be admitted, students must satisfy all of the following criteria:

- Have a minimum Scholastic Aptitude Test (SAT I) score of 970 (combined evidence based reading and mathematics sections) with no less than 430 Critical Reading (Old SAT) 480 Evidence-Based Reading and Writing Section (New SAT), 24 Reading Test (New SAT) and 17 ACT English or 17 Reading and
- 400 Math (Old SAT) 440 Math Section (New SAT) 22 Math Test (New SAT)/17 ACT Math and ACT composite score of 20 or;
- Next Generation ACCUPLACER score of Reading 237 63, Math 258 67 and Write Placer 4
- Have at least a minimum cumulative high school grade point average of 3.0 or numerical average of 80 or higher in academic subjects;
- Be exempt from all Student Academic Assistance or Learning Support requirements;
- Present Parental Consent Form

Courses pursued by students under this program must come from the approved course directory (found at www.gsfc.org) which is supplied to high school counselors in the state. Courses are available only in the areas of the core graduation requirements for college preparatory students: English; Mathematics; Social Studies; Science and Foreign Language.

At Savannah State University the Dual Enrollment program pays for tuition and some fees books, transportation and other expenses are the responsibility of the student, including fees and expenses if not covered under the Dual Enrollment program.

**Application Process/Application Procedure**

The student must complete an application for admissions. The high school counselor should send an official copy of the students’ transcript directly to the Admissions Office. Submit official test scores from either the College Board Scholastic Aptitude Test (SAT I) or The American College Testing Program (ACT). We will accept scores posted on high school transcripts. Please submit recommendations from the high school guidance counselor and use a Parental Agreement form from your high school signed by the guidance counselor and parent.

**International Students**

Savannah State University subscribes to the principles of international education and to the basic concept that only through education and understanding can mutual respect, appreciation, and tolerance of others be accomplished.

Students from a country other than the United States who are interested in attending Savannah State University should write to the Office of Admissions, Savannah State University, Savannah, Georgia 31404, USA, and submit a completed application. Applications must be submitted at least ninety days prior to the beginning of the anticipated semester of enrollment.

Applicants must have the equivalent of a USA high school diploma and the equivalent of a 2.0 minimum grade point average on academic work only (on a 4.0 scale).
Savannah State University does not evaluate high school or college coursework completed outside of the United States. An official International Record evaluation must be completed by a university recognized agency.

Applicants must provide evidence of English language proficiency through the TOEFL. Language school records and scores from all tests must be sent to the Office of Admissions. The minimum acceptable TOEFL on the paper version is 530 the score on the computerized version is 225. A score of 69 is the minimum for the Internet based exam. Freshman applicants must also sit for the SAT.

Applicants may be required to take the Next-Generation ACCUPLACER test as well.

Applicants must submit evidence of financial ability to pursue a full-time education in this country since no financial aid is available for international students. All international students are required to pay out-of-state tuition except for those who are in a Direct Exchange Program.

After all of the above conditions have been met, the Immigration Form I-20 (Certificate of Eligibility) needed to obtain a student VISA will be issued to applicants. Applicants must pay the Student and Exchange Visitor Information System (SEVIS) fee and make an appointment for an F-1 Visa and must be granted the student visa prior to enrollment.

International students with a student visa are required to carry a full course of study in every semester, except summer. A minimum course load at Savannah State University is twelve semester hours for undergraduate students and nine semester hours for graduate students.

Resident aliens must present their Alien Registration card as proof of their official status to the Office of International Education.

All international students must be prepared to obtain adequate health and accident insurance while they are attending Savannah State University. Prior to registration, they must provide proof of insurance and a local street address. A mandatory health insurance program is required for undergraduate and graduate students.

International students must take a proficiency test in both reading and writing (Michigan Test of English Language and a writing test) during their sophomore year. Students who fail either or both tests will be required to enroll in remedial courses.

The University's international student advisor assists international students on campus and in the community. There is an active International Students Association.

**Admission to Engineering Degree Programs**

The Regents' Engineering Pathway Program (REPP) was established in 1986 to expand the availability of engineering education opportunities for Georgians. In its current structure, students complete two or more years of pre engineering courses at participating University System of Georgia (REPP Partner) institutions and then transfer to Georgia Institute of Technology, Georgia Southern University, Kennesaw State University, Mercer University or the University of Georgia to complete a B.S. degree in Engineering (REPP Engineering Institutions).

The freshman admission criteria for direct admission in the Regents' Engineering Pathway Program (REPP) at Savannah State University are the same as for all other freshmen. However, a minimum score of 500 SAT Math or 19 ACT Math along with a high school GPA of 3.0 or higher will allow the student to start with Pre-Calculus. Students are encouraged to complete the Associate of Science – Core Curriculum degree prior to transferring to any REPP participating institution to complete their bachelor degree. Admission and curriculum requirements vary by institution.

**Special Admission Categories**

**Nontraditional Students**

Applicants who have not attended high school or college within the previous five years and who have earned fewer than 30 transferable semester hours of college credit are not required to take the SAT or ACT. However, these applicants will be required to take the Next-Generation ACCUPLACER for placement.

**Post-Baccalaureate/Non-Degree Students**

Applicants who possess a baccalaureate degree from an accredited college or university may enroll as post-baccalaureate students after submitting an official college transcript showing completion of a baccalaureate degree. There is no limitation on the number of hours of undergraduate credit these students can earn.
Transient Students Enrolling at Savannah State University

Students officially enrolled at another college may apply for the privilege of temporary registration at Savannah State University. These students will ordinarily be expected to return to their home institution.

Transient students are admitted for only a specified time, normally one term. These students must file a regular Application for Admission form, submit a Certificate of Immunization, submit a statement of good standing from their home institution, and have home institution's permission to take specific courses at Savannah State University.

Since transient students are not admitted as regular students, transcripts of college work completed elsewhere are not required for admissions. A transcript of coursework verifying prerequisites have been met may be required by departments. The College of Business Administration and Department of Social Work require documentation of prerequisites completion.

Transient students who wish to enroll at Savannah State University for a subsequent term must submit (from their home institutions) another statement of good standing and another permission to take specific courses.

Transient students who later wish to apply as transfer students to Savannah State University must meet all requirements for transfer applicants and must submit transcripts from all institutions attended.

Georgia Resident Senior Citizens/Persons 62 or Older

Persons who are 62 or older may enroll as regular students in credit courses on a space available basis without payment of tuition and fees. Students must pay for their supplies and laboratory or special course fees. They must be residents of the State of Georgia and must present a birth certificate or comparable documentation of age to enable the Office of Admissions to determine eligibility. They must meet all admission and degree requirements.

Special Students

All students in classifications not otherwise covered in the University's admissions categories shall be required to meet all requirements prescribed for admission to undergraduate or graduate programs and to meet any additional requirements prescribed by the University. Exceptions may be made only with written approval of the Chancellor of the University System of Georgia.

Auditors

Students who submit evidence of graduation from an accredited high school or a GED certificate which satisfies the minimum score requirement of the State of Georgia may register as auditors. Under extraordinary circumstances, the President may waive the requirement of a high school diploma or equivalent. Students registered as auditors shall be required to pay the regular tuition and fees for enrollment and shall be prohibited from receiving credit at any later time for course work that they completed as auditors. Prior to registration, students must complete a request for Audit of Course Form and indicate this category on the course schedule planning and registration form.

Faculty members of Savannah State University may attend classes offered by other faculty members if space is available without registering as auditors, but they may not receive credit.

Right of Appeal of Admissions Denial

In all matters concerning admissions, the applicant may appeal by writing to the Office of Admissions and state the basis for an appeal.

A written appeal must be received in the Office of Admissions at least 20 days before the first day of registration for classes for the semester for which the applicant is seeking admission.

Readmit applicants may appeal by submitting a letter to the Office of Academic Affairs prior to first day of registration. Individuals failing to satisfy the deadline may submit their appeal for the following semester.
Financial Information

Financial Aid

Applying for Financial Aid
Students applying for financial aid must complete the Free Application for Federal Student Aid (FAFSA) and list the school code 001590. Students may complete the FAFSA via use of the mobile app by downloading the myStudentAid app or visit fafsa.gov and do the FAFSA form on the go. Remember the FAFSA needs to be completed only once annually and is effective for both the academic year and the following summer sessions. All required documents must uploaded within the savannahstate.verifymyfafsa.com portal by June 30th.

If the FAFSA is selected for verification, the student must complete the verification process before any awards are finalized. The Office of Financial Aid (OFA) suggests documents are uploaded promptly. Students who fail to upload required documents may become ineligible to receive certain funds from a particular program. Students will be awarded financial aid upon their admittance to the University.

Scholarships and Grants

Federal Pell Grant
Authorized by the 1972 Higher Education Act, only undergraduates who have not previously received a Bachelor’s Degree are eligible. The eligibility for an award is based on a formula the Department of Education consistently applies to all applicants, cost of attending the institution, and the student’s enrollment status per semester. Beginning with the 2012-2013 academic year students cannot receive more than 600% in Pell grant funds. This new Pell Lifetime Eligibility percentage includes all prior and future disbursements of Pell. Federal Pell Grant awards are not available for certificate, special admit, transient, second degree, non-degree, learning support, high school and graduate seeking students.

Federal Supplemental Educational Opportunity Grants
The Supplemental Educational Opportunity Grant (FSEOG) is determined upon completion of a FAFSA, based on the Department of Education Expected Family Contribution (EFC) number calculated, financial need and funds availability. The grants range from $100 to $2000 per year. Students with the lowest EFC numbers receive priority. FSEOG funds are not available for certificate, special admit, transient, second degree, non-degree, learning support, high school and graduate seeking students.

Federal Teach Grant
The Federal Teach Grant program is a federal grant program that provides grants of up to $4,000 per year to students (regardless of income or need) who intend to teach in a public or private elementary or secondary school that serves students from low income families in a critical need teaching field. Failure to complete required teaching service requirements or an eligible program/major/concentration results in the grant becoming a Federal Direct Unsubsidized loan. Students must complete the obligation within eight years of completing program of study.

HOPE Scholarship (Helping Outstanding Pupils Educationally)
Georgia’s HOPE Scholarship is a merit-based award restricted to Georgia residents who have demonstrated academic achievement, graduated from a Georgia high school with a minimum grade point average of 3.0, continue to maintain a minimum 3.0 cumulative grade point average at a HOPE Scholarship eligible college or university in Georgia, is a U.S. citizen, meet the Georgia residency and selective service registration requirements, not defaulted or owe on federal or state financial aid, and maintain satisfactory academic progress.

Students must maintain a 3.0 grade point average at all checkpoints (30, 60, 90 semester hours), at the end of every Spring semester, and at the end of 3 part-time terms for beginning students. A non-traditional student may qualify for HOPE Scholarship after completing 30 credit hours towards their program of study and maintain a 3.0 GPA. Students may only regain HOPE Scholarship one time. The scholarship provides some money to assist students with their educational costs of attending an eligible college or university in Georgia. The HOPE Scholarship does not pay for Learning Support (remedial) classes, after July 1, 2011. Recipients do not receive a book allowance for attendance at SSU. The HOPE Scholarship has a 10-year limit for students first receiving the HOPE Scholarship during summer 2019 term (FY 20) or later. A 7-year limit exists for students first receiving the HOPE Scholarship during the 2011-2012 academic year (FY12) or later. Students are ineligible to receive HOPE Scholarship funds once the 127 semester credit limit is reached.

Zell Miller Scholarship
Georgia’s Zell Miller Scholarship a merit-based award restricted to Georgia residents who have demonstrated academic achievement, similar to the HOPE Scholarship, but with more rigorous academic requirements. A Zell Miller Scholarship recipient must graduate from high school with a minimum 3.70 grade point average, receive a combined minimum SAT score of 1200 on the math and reading
portions or a minimum composite ACT score of 26 in a single national test administration. Students must maintain a minimum 3.30 cumulative postsecondary grade point average to remain eligible at all checkpoints (30, 60, and 90 semester credits), at the end of every Spring semester, and at the end of 3 part-time terms for beginning students. Students who lose eligibility may regain the scholarship once. Ineligible Zell Miller Scholarship students may continue to receive HOPE Scholarship if eligible. Zell Miller Scholarship does not pay for Learning Support (remedial) classes, after July 1, 2011. Recipients do not receive a book allowance for attendance at SSU. A 10-year limit for students first receiving the HOPE Scholarship during summer 2019 term (FY 20) or later. A 7-year limit exists for students first receiving the HOPE Scholarship during the 2011-2012 academic year (FY12) or later. Students are ineligible to receive Zell Miller Scholarship funds once the 127 semester credit limit is reached.

Savannah State University Scholarships
Merit and need-based academic scholarships are awarded annually to undergraduates and graduates from private, federal, state and university-funded sources. University funded-sources are made possible through contributions from alumni, students, parents, faculty, staff, businesses, foundations, corporations, and friends of the university. Both undergraduate and graduate students may apply for scholarships. The eligibility requirements for each scholarship vary. Criteria for merit-based scholarships include academic achievement, standardized test scores, extracurricular activities, awards, and honors. Students with GPA’s from 2.0 to 2.9 are also encouraged to apply. Students are required to complete the FAFSA and offered admittance to the university by published deadline. Applications are available online at www.savannahstate.edu.

For more information, contact the Office of Financial Aid at (912) 358-4162 or finaid@savannahstate.edu. Athletic scholarship information is available through the Athletic Department at (912) 358-3449.

ROTC Scholarships
Army and Navy ROTC Scholarships are available. For information regarding these scholarships, contact the Army ROTC Program at (912) 358-4272 and/or the Navy ROTC Program (912) 358-3095.

Work Programs
Federal Work-Study
The Federal Work-Study Program provides part-time jobs for students with financial need as determined by the Free Application for Federal Student Aid (FAFSA). A student is awarded work for no more than 19 hours per week. Students are paid the current federal minimum wage and may earn up to $2,000 per semester or a maximum of $4,000 for the academic year.

Students awarded a work award must use “JobX” to search posted community service work and work-related course of study positions or sign up for e-mail notification about placement.

University Work Program
The Savannah State University student employment program provides part-time employment opportunities for students within various departments on campus. Any full-time student with satisfactory grades is eligible for employment.

Under an agreement with the U.S. Department of Education, the institution is obligated to employ qualified financially eligible students before offering employment to others.

Loans
Federal Direct Loan
The Federal Direct Loan Program is an educational loan that offers low interest rates directly to students and parents (PLUS) through post-secondary institutions. Repayment is deferred until the student graduates, withdraws, or drops below half-time status. Federal Direct Loans are either subsidized or unsubsidized. The results of the Free Application for Federal Student Aid (FAFSA) determine loan type eligibility. First-time borrowers must complete a Loan Counseling session and Master Promissory Note online before any loan funds are credited to an account or disbursed to the student. Federal Direct Student Loans are made in multiple disbursements.

Georgia Student Access Loan Program (SAL)
The Georgia Student Access Loan program is restricted to Georgia eligible students and designed to assist undergraduate college students who have a gap in meeting their educational costs. To be considered, students must complete the FAFLSA application and the SAL application (at www.gafutures.org). Students must not decline any federal, institutional or private scholarships, grants, loans or military or veteran educational benefits, when available, in lieu of a SAL. SAL funds are used to cover any part of the student’s Cost of Attendance for the academic period and cannot be used to offset a student’s EFC. This loan has a 1% interest rate. The annual award amount may be the lesser of $8,000 or the student’s Cost of Attendance minus the student’s Expected Family Contribution (EFC) minus the student’s Expected Financial Aid. The aggregate limit is $40,000. Applications are randomly selected from a pool of eligible applicants.

Veteran Affairs
These benefits are available to all qualifying students under various DOD and VA Funded Programs as shown below. VA Payments for Tuition and Fees will be paid directly to SSU while payments for Monthly Housing Allowance and Books will be made directly to the student. For questions regarding GI Bill benefits, please contact the Department of Veteran Affairs at 912.358.4205. Active Duty and Reserve students desiring to utilize Tuition Assistance should contact the Office of the Comptroller at 912.358.3015. Eligible students are encouraged to contact the appropriate office to best determine their estimated amount of benefits prior to applying for Financial Aid as some awards and/or scholarships must be discounted.

- Montgomery GI Bill – Selected Reserves and National Guard (MGIB-SR); Chapter 1606

Withdrawal Policy and Financial Aid Funds

Financial aid is awarded to a student on the premise the student will complete the entire semester for which the aid was awarded. All schools participating in the Title IV Funds Program are required to use specific refund policies when a student receiving SFA Program funds ceases attendance. In addition, the current provisions specify an order of return of unearned funds from all sources of aid, not just the SFA Programs.

Unofficial Withdrawals

Students, who cease attending all classes without officially withdrawing or notifying the university of his/her intent to withdraw are considered unofficially withdrawn from the university. The withdrawal date will be the midpoint of the payment period for which Title IV Funds were disbursed or the student’s last date of attendance at an academically-related activity as documented by the university. In compliance with Title IV regulations for unofficial withdrawals, students who have received grades with no earned hours in all classes will be considered unofficially withdrawn from the University and reported as such. A R2T4 calculation must be completed by the Office of Financial Aid. Based on the students’ last date of attendance provided by the Office of the Registrar, the student will be responsible for any and all funds due back to the Department of Education.

Official Withdrawals

If a student completely withdraws from school during a term, the school must calculate, according to a specific formula, the portion of the total scheduled financial assistance that the student has earned and is therefore entitled to retain, until the time that the student withdrew. Students who have not completed the verification process are ineligible to receive any financial aid. The portion of the federal grants and loans that the student is entitled to receive is calculated on a percentage basis up to the end of 60% of the term. For example, if a student completes 30% of the semester, he/she earns 30% of the approved federal aid that he/she was originally scheduled to receive. This means that 70% of the students scheduled or disbursed aid remains unearned and must be returned to the Federal Programs. This policy governs the earned and unearned portions of the student’s Federal Title IV Financial Aid only. This policy does not affect the student’s charges. The student is responsible for paying any outstanding charges to the university.

The student’s official withdrawal date will be determined by the university as 1) the date the student began the university’s withdrawal process or the date that the student officially notified the university of his/her intent to withdraw; 2) the midpoint of the semester if the student withdraws without notifying the university; or 3) the student’s last date of attendance at an academically-related activity as documented by the university.

Savannah State University attempts to notify the student no later than 30 days of determination that a student withdraws to return its share of the student’s unearned aid and the student has 45 days from the notification date to return their portion. Any amount awarded for the term in which a return of Title IV funds is required must occur in the following order: Federal Unsubsidized Direct Stafford Loans, Federal Subsidized Direct Stafford Loans, Federal PLUS Loan (received on behalf of the student), Federal Pell Grants, and Federal SEOG Grants.

Satisfactory Academic Progress (SAP) Guidelines for Student Financial Aid

To be eligible to receive Financial Aid, which includes funds from federal, state and institutional programs, students must maintain satisfactory academic progress (SAP). Savannah State University (SSU) is required by the U.S. Department of Education to establish minimum standards of SAP to ensure the student is proceeding in a positive manner toward graduation. SAP is calculated each semester and includes all periods of the student's enrollment, including periods in which the student does not receive financial aid funds.

Students attending SSU must be in good academic standing and making satisfactory progress with a minimum grade point average (GPA), pace of completion rate and maximum time frame, as stated below. Progress is checked at the end of each semester.
Grade Point Average Requirement (Quantitative)
Students must maintain the following GPA requirements:

<table>
<thead>
<tr>
<th>Attempted Hours</th>
<th>Minimum Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 29</td>
<td>1.70</td>
</tr>
<tr>
<td>30 - 59</td>
<td>1.85</td>
</tr>
<tr>
<td>60 and higher</td>
<td>2.00</td>
</tr>
<tr>
<td>2nd Degree</td>
<td>2.00</td>
</tr>
<tr>
<td>Graduate Students</td>
<td>3.00</td>
</tr>
</tbody>
</table>

Any student who fails to meet the GPA requirement will be placed on Financial Aid Warning, but, will continue to be eligible for financial aid. The student has the following semester of attendance to earn the required minimum cumulative GPA. At the end of the warning period, if the required minimum cumulative GPA is met, the student is taken off of Financial Aid Warning. If the required minimum cumulative GPA is not achieved, then the student will be placed on Financial Aid Suspension during the next semester of attendance. The student will not receive financial aid assistance while on Financial Aid Suspension. The total cumulative earned hours consist of hours earned at SSU and accepted transfer credits. Transfer credits are not included in the computation of the cumulative GPA for financial aid unless the credit was earned while attending other schools as a Transient Student where a student was taking classes at another institution as a degree-seeking SSU student.

Pace of Completion (Quantitative)
A student must successfully earn a minimum of 67% of the cumulative coursework attempted at SSU. Failure to complete this minimum percentage will result in a student being placed on Financial Aid Warning during the next semester of attendance. If the student completes 67% of the coursework attempted during the warning semester, then the student will be taken off of Financial Aid Warning. If the student completes less than 67% of cumulative coursework attempted during the warning semester, then the student will be placed on Financial Aid Suspension for the next attending semester. The Total Earned Hours at SSU divided by the Total Attempted Hours at SSU must be at least 67% to maintain eligibility.

Maximum Time Frame
All students must complete their program of study within a maximum time frame of one and-one-half (150%) times the length of the program in which they are enrolled. This means that once a student has attempted one-and-one-half times the minimum number of credit hours necessary for completing program requirements, the student will be ineligible to receive financial aid. Attempted hours include all attempted hours at SSU and all attempted transfer credit. Students who have completed all the coursework for their degree but have not received the degree are no longer eligible for aid. Second degree students are required to complete their second degree within the maximum 150% of the hours required for the second degree. If the time limit has been exceeded, aid eligibility ends. The student will be placed on Financial Aid Suspension status. There is no Financial Aid warning period.

Grades
Grades of IP (in-progress), W (withdrew) and WF (withdrew failing) are not included in calculating a student's GPA, but are counted as course work attempted. I (incomplete) is counted as an F. All grade changes must be submitted and processed during the first 10 days of classes of the following semester. Any changes after the first 10 days of the following semester will not be included in the SAP calculation.

Repeated Hours
All repeated hours are counted in Pace of Completion calculation, however, only the highest grade is counted in the GPA calculation.

Academic Renewal
The U. S. Department of Education does not recognize academic amnesty or academic renewal in relation to financial aid satisfactory academic progress. SSU is required to include all courses and grades in evaluating a student’s satisfactory academic progress. However, if there were special circumstances involved SSU may be able to approve a SAP appeal and place the student on Financial Aid Probation.

Transfer Students
Transfer students accepted by SSU, not previously enrolled at SSU, will be classified as maintaining SAP for the first semester enrolled. At the end of the first semester, the student's grades will be measured in accordance with the SSU's SAP policy. Transfer credits will be counted as attempted and, if accepted, earn credits for the calculation of maximum time-frame only.

Financial Aid Suspension
Once a student is on Financial Aid Suspension, the student must pay for the next attending semester at his or her own expense (alternative loans may be used). All federal, state and institutional funds are removed for the semester(s) the student is on Financial Aid Suspension. Until the student meets SAP requirements or have a successfully approved appeal, the student will remain on Financial Aid Suspension.
A student is expected to now the SAP Policy. Students can review their SAP status is always available for viewing online via PAWS after final grades have been processed.

Appeal of Financial Aid Suspension
Students have the right to appeal their suspension of financial aid if they have extenuating circumstances that prevented them from making SAP. Extenuating circumstances are limited to 1) death or serious illness or injury to an immediate family member, 2) extended hospitalization or medical condition of the student, 3) victimization of a violent crime or natural disaster, 4) and work related difficulties, and 5) other unexpected documented situations.

Lack of transportation to school, poor class performance, and pursuit of a double or dual major are not extenuating circumstances. The appeal must be address the following: 1) the extenuating circumstances that prevented the student from meeting the Satisfactory Academic Progress (SAP) standards, 2) what has changed that will enable you to meet SAP, and 3) plan of action to resolve or control the cause for the circumstance or unit-deficiency and explain how it will not cause problems in the future.

The appeal must be completed online at https://savannahstate.verifymyfafsa.com. If the appeal is not available, please contact the office. An appeal can only be submitted once per semester. Supporting documents must be uploaded with the appeal. In the case of maximum time frame, a letter from the academic advisor, Department Chair or Dean and evidence graduation is likely to occur in the near future is needed. The SAP appeal form must be submitted by the end of the Drop/Add period for the semester in which the student plans to attend. Failure to adhere to this time line will result in the student losing the right to appeal the financial aid suspension for that semester.

The SAP Appeals Committee will review appeals at the end of the semester after grades are posted. The Office of Financial Aid will notify the student of the committee's decision via campus email. Decision results will be available on PAWS. Due to FERPA, decision information cannot be given over the phone. The SAP committee decision is final. If denied, students are able to submit an additional appeal after meeting with a Financial Aid Counselor.

Until the appeal is approved, the student should consider him or herself ineligible until notice is received otherwise. Future decisions of enrollment should be under the assumption that financial aid will not be provided and that payment of tuition will be the obligation of the enrolling student.

If approved, the student will be placed on Financial Aid Probation status for the subsequent semester(s). While on Financial Aid Probation, the Office of Financial Aid may require the student to maintain a specified percentage of semester coursework, cumulative GPA, receive tutorial assistance and/or complete a SAP Agreement. If any of the prescribed conditions are not met, eligibility will be denied. The student will be awarded based on funds available and replacement of previously awarded funds is not guaranteed.

A student is expected to now the SAP Policy. Students can review their SAP status is always available for viewing online via PAWS after final grades have been processed. The Office of Financial Aid attempts to notify students when they are on Financial Aid Suspension; however, sometimes students do not receive notification due to circumstances beyond the control of the Office of Financial Aid. If a student is not notified of the Financial Aid Suspension, that does not excuse a student from the Financial Aid Suspension, nor does it exempt a student from appealing in a timely manner.
Division of Business and Financial Affairs

Student Financial Services

The Student Financial Services is responsible for student billing and revenue collection. The office is also responsible for collecting and posting payments on student's accounts and processing refunds from funds in excess of tuition, fees, and charges. Tuition and fees are assessed according to the policies of the Board of Regents of the University System of Georgia. Registration is not complete until all tuition and fees have been paid. Students are responsible for checking account balances and securing payment by the established payment deadline.

Savannah State reserves the right to use a collection agency and to pursue legal action to collect any debt. Once an account is placed in collection or legal action is pursued by the collection agency, the student will be liable for all collection fees, which will be in addition to the amount of the original debt.

* Students who register for online courses only are only responsible for the Technology Fee and Institutional Fee. Students who opt to take one or more online courses in conjunction with on-campus courses will be responsible for all mandatory and any course related fees.

Textbooks and supplies are available through the bookstore and are not part of mandatory tuition and fees.

Student Account Refund Policy

Students officially withdrawing from the University after paying tuition and fees for the term will be issued a refund of the tuition and mandatory fees, provided the official withdrawal occurs no later than the last day of the official add/drop period for the term. Students officially withdrawing from all classes after the last day of the official add/drop period for the term will receive a refund based upon the following refund policy:

• The refund amount shall be based on a pro rata percentage determined by dividing the number of calendar days in the semester that the student completed by the total calendar days in the semester. The total of calendar days in a semester includes weekends but excludes scheduled breaks of five or more days and days that students were on an approved leave of absence. The unearned portion shall be refunded up to the time that the amount earned equals 60%.
• Students who withdraw when the calculated percentage of completion is greater than 60% are not entitled to a refund of any portion of institutional charges. A refund of all nonresident fees, matriculation fees, and other mandatory fees shall be made in the event of the death of students at any time during the academic session.
• Housing fees and post office box fees are non-refundable fees. Refunds of elective charges upon withdrawing from the Institution during a term will be made on a prorated basis determined by the date of withdrawal.

Textbooks and supplies are available through the bookstore and are not part of mandatory tuition and fees.
Students are responsible for withdrawing officially in accordance with University regulations, which are set out in this Catalog. Students receiving funds and financial aid monies will have their refunds restored to the following programs in this precise order: Federal Unsubsidized Direct Stafford Loan, Federal Subsidized Direct Stafford Loan, Federal PLUS Loan, Federal Perkins Loan, Federal Pell Grant, FSEOG, Other Federal, State, Private, Institutional Aid and the Student.

No other refunds or reductions are allowed unless such reductions are necessitated by schedule changes initiated by the College. Students suspended or expelled for disciplinary reasons are not entitled to a refund of any deposits, tuition, or fees paid. Additionally, students who are asked to vacate their residence hall rooms as a result of disciplinary actions are not eligible for refunds.
Auxiliary Services

The Auxiliary Services Department is an organization within the Division of Business and Financial Affairs, responsible for providing services both directly and indirectly to students, faculty, staff, and the University community. By policies of the Board of Regents, the Department must be totally self-supporting; no state funds are allocated to the activities. The Department is subject to rules and regulations of the University System of Georgia. Auxiliary Services is committed to providing quality, value, and excellence in customer service, while assuring best uses of available resources.

Currently, Savannah State University's Auxiliary Services Department is responsible for the following: SSU Bookstore, SSU Mail Center, dining services, snack and beverage vending, photocopy services, parking and transportation, and the ID Card Office. For additional information, see http://www.savannahstate.edu/fiscal-affairs/auxiliary-services.shtml.

Bookstore

SSU Bookstore is an integral part of the academic and social life of the university. In addition to textbooks and school supplies, students can find a variety of SSU logo clothing and specialty items in the store and online. There are also many products that will make their lives easier in their student living spaces, such as paper products, personal items and room decorations.

The bookstore will match prices of books sold online by companies such as Amazon, B&N, and Chegg (no peer-to-peer). The bookstore provides a rental service, and digital books in addition to book buy-back for full purchases at posted times during each semester. For additional information, including hours of operation, please see the SSU Bookstore website.

The SSU Bookstore is located on the first floor of the King-Frazier Complex.

Dining Services

Savannah State University has been defined by the Board of Regents of the University System of Georgia as a residential institution. Therefore, the University must provide on-campus facilities for room and board. All students who live in on-campus housing must purchase a meal plan. Students may choose between four resident meal plans when they choose their housing and are automatically billed via the Banner Student Information System accordingly. There is no refund for missed meals, and meals do not carry over from one semester to another. Resident students leaving housing will be billed for meal plans on a prorated basis. Commuter meal plans are available for off-campus students. Commuter students who withdraw are billed at the casual rate for the meals they have eaten, or the full cost of the meal plan, whichever is lower. Additional information is found on the SSU Dining Services website.

SSU ID-Card Office

All students must carry their SSU ID Card at all times while they are on campus. SSU ID Cards can be used for meal plans, residence hall access, and computer lab printing, as well as bookstore, and mail center purchases. Funds can be placed on the card using the PHIL (machine closest to the window outside the Savannah Ballroom) in the King-Frazier Student Center or the PHIL in the Student Union (next to the ATM on the first floor).

Parking

Resident students and commuter students who have a vehicle on campus are required to purchase a decal which entitles them to park in one of the parking areas designated for students. Resident students must leave their vehicles in their assigned lot or in General Residential Parking during the parking restriction hours. (Please see the Parking page online for updated information). Vehicles on campus without appropriate decals, or who are parked inappropriately, are subject to ticketing, booting, and/or towing.

Shuttle Service

All students pay a mandatory transportation fee. This fee is then paid to Chatham Area Transit to provide shuttle services on and off campus throughout much of the day and on weekends. In addition, students ride for free on all CAT regular bus lines. See www.catchacat.org for schedules.

SSU Mail Center

The SSU Mail Center is located on the first floor of the King-Frazier Complex. Stamps can be purchased and letters or packages can be mailed. Resident students are each charged a nominal fee for a mailbox, which is assigned by the Mail Center upon request. The service window is open from 8:30 a.m. to 4:30 p.m., Monday – Friday, except for University Holidays. Students are notified by SSU e-mail when there is a package for them at the Mail Center.

Vending

Auxiliary Services is responsible for snack and vending machines on campus. If there is a problem with a machine, or if you have a suggestion for a product, please notify our office at 912-358-3109.
Division of Information Technology Services

Computers and technology are integral parts of the University. They facilitate teaching, learning (both online and traditional) and administrative functions. The University maintains a state of the art local-area network through state and federal funding.

The University's infrastructure is supported by a campus-wide fiber optics backbone and wireless network, connecting campus users to speeds up to 1 gigabyte (GB) locally. PeachNet, is the Internet connection that provides faculty, staff and administrators with a 500 megabyte (MB) internet connection. The students’ internet connection is also provided by PeachNet and is a dedicated 1 gigabyte (GB) Internet path for the residential network. The University's supporting applications include electronic mail; a campus-wide distributed messaging system, a university web site (http://www.savannahstate.edu), door card access, video conferencing, student LMS, remote printing, remote access services, security for identity management, and video surveillance.

Teaching and learning is supported through the establishment of general purpose, collaborative open spaces and specialized computer labs, in both PC and MAC formats, in academic and residential facilities. The University offers distance education through Video Conferencing using WebEx to deliver distributed e learning.

The University's administrative functions are supported through Ellucian's Banner - a student information system, OneUSG Connect and Human Resources systems, an automated work order system, electronic building security, and Blackbaud - an alumni financial system.

The University strives to stay in the forefront of technology to better facilitate the services to and education of its student population.
Division of Academic Affairs

Mission
Academic Affairs promotes excellence in teaching, scholarship, and service. The division fosters a student-centered learning environment grounded in a liberal education. Academic Affairs nurtures a community of learners committed to ethical behavior, intellectual curiosity, personal growth, accountability, and global involvement.

Institutional Student Learning Outcomes (ISLOs)

Written Communication - The development and clear expression of ideas in writing.
Critical Thinking - A habit of mind characterized by the comprehensive exploration of issues, ideas, artifacts, and events before accepting or formulating an opinion or conclusion.
Information Literacy - The ability to know when there is a need for information to be able to identify, locate, evaluate, and effectively and responsibly use and share that information for the problem at hand.
Quantitative Literacy - A “habit of mind,” competency, and comfort in working with numerical data.
Ethical Reasoning - The ability to reason about right and wrong conduct. Development of framework of values on which to base moral analysis.
Integrative Learning - An understanding and disposition that a student builds across the curriculum and co-curriculum, from making simple connections among ideas and experiences to synthesizing and transferring learning to new, complex situations within and beyond the campus.

*Ratified by the SSU Institutional Assessment Committee: January 2014

University Library

The Asa H. Gordon Library offers a variety of informational resources and services to the university community to serve both the research and academic needs of undergraduates, graduate students, faculty and staff.

The main library is centrally located within close proximity to all instructional buildings on campus. Access to the library is provided through two main ground level entrances. The east entrance is ADA accessible and is equipped with an entrance ramp and an automatic door. The library has both quiet and collaborative study spaces including 12 study rooms, 4 conference rooms and a presentation lab. Asa’s Café is located on the library’s first floor and is equipped with a microwave, tables, and snack machines. Students may use lockers located on the first and second floors to safely store their books, electronic devices, and other belongings.

Resources include over 100+ computers with internet access and printing capabilities in study and conference rooms, the reference area, and library classrooms. The library provides access to 10,000+ scholarly journals, magazines and newspaper titles; 300+ databases; 250,000+ eBooks; and 200,000+ hard copies of books. The library’s electronic catalog allows students to locate hard copies and electronic resources and to download full text of many electronic resources. Electronic resources are available 24/7/365. Materials located in the Special Collections must be used in the library; although full text of many of the Special Collections documents have been digitized and are available electronically in the SSU Digital Archives or Tiger Scholar Commons website.

A valid SSU ID or an official picture ID—such as a driver’s license—is needed to borrow materials at the SSU library and from any university system library as a walkup patron or through interlibrary loan. While daily overdue fines are not charged, fees are charged for lost materials and any materials not returned in 56 days. All fees must be paid in full in order for students to register for classes, receive grades, borrow library materials, or receive an official transcript.

In addition to its resources and collections, the library also offers research assistance at the reference/information desks or virtually using telephone, email, chat, or text messaging. In order for our patrons to have access to materials that are not owned by Savannah State, in addition to borrowing materials from University System of Georgia institutions, interlibrary loan is available from many other libraries across the nation at no cost. One of the most important services provided by the library is in-class instruction. In-class instruction is conducted by library faculty at the request of the teaching faculty to assist students in finding, evaluating, and citing information.

Library staff invite students and faculty to assess library services and resources. The results of surveys and other assessment methods are used to improve library operations and services.
Center for Student Success and Retention Programs and Services

Academic Advising and Faculty Mentoring
In accord with the tenets of the University System of Georgia’s Momentum Year, Savannah State University has designed work across the university to guide all new students to make purposeful choices, to develop a growth mindset, and to follow a set path to completion. Academic advising, the very first step in the actual collegiate experience, aims to provide students with the resources they need to be successful at Savannah State University while also providing comprehensive programming to support the needs of the student. To achieve the established level of success for that first year, academic advising will ensure students begin with a strong sense of direction, find their paths early—academically and career wise, and then build the force necessary to complete their course of study—in essence, gain the momentum they need to succeed.

Advising at Savannah State University will be organized into three general areas of responsibility: professional advisors, faculty mentors, and specialists. The Professional Advisors Handbook outlines the roles, responsibilities, and resources for professional advisors, sets the stage and outlines the policies and procedures for the work that will be performed by the Professional Advisors. The professional advisors are assigned to students for their entire academic career at Savannah State University to ensure a consistent appreciative advising experience across disciplines and majors.

As the primary academic support and advising unit for all students at Savannah State University, the Professional advisors will be responsible for advising through core curriculum, degree pre-requisites, and the program map. The advisors will work with the students in a number of areas related to the academic experience at Savannah State University, with a primary emphasis in advising and monitoring progress toward a degree of their selected academic program. Working hand-in-hand with academic deans and faculty mentors with curriculums, changes in degree programs, and graduation audits/checks, the Professional Advisors will continue to implement the Appreciative Advising model of advising students.

On the academic side, there will be Faculty Mentors and Specialists to ensure that those academic services that fall outside the purview of the Professional Advisors will be addressed accurately and timely. Faculty mentors serve as experts in the discipline who help shape students’ understanding of the academic and professional field. They are responsible for contextualizing the course content in the major with broader academic and professional goals. Faculty mentors will work in collaboration with professional advisors and provide referrals for course advisement and registration.

This new advising model assures the university that the professional advisors will give new students the springboard they need and overall, will assist in increasing Savannah State University’s rates for student retention, persistence, and degree completion. Students can visit their professional academic advisors in Hubert Technology Building A for additional information or to make an appointment.

First Year Experience
The First Year Experience (FYE) at Savannah State University builds a strong foundation for college success. The content of First Year Experience includes a wealth of information, resources, and support designed to help students become active learners and well-informed members of the University community. This course is required for first time full time students as part of the required curriculum.

Testing
The Testing Center in the Center for Student Success (CSS) coordinates, administers, and reports on various tests within the appropriate guidelines that support the academic and professional goals of our students and individuals in the community. The Testing Center administers various types of exams: college entrance, college placement, college credit by exams, major field, professional, and certification. Test proctoring services are available for students enrolled in fully online classes at Savannah State University and other colleges. The Testing Center is a member of the Georgia College Testing Association, subscribes to the National College Testing Association (NCTA) Professional Standards and Guidelines and serves as a certified NCTA Test Center. A comprehensive list of the services offered and other test center certifications are included on the official SSU Test Center’s website: www.savannahstate.edu/testing.

Tutorial Services
Peer and professional tutors are provided free of charge for all SSU students in learning support and core curriculum subjects. Tutors for higher level and major courses are also available in Biology, Chemistry, Accounting, Finance, and Statistics. Additional courses are added upon request from students and faculty. For more information or to make an appointment, call (912) 358-4476.

Learning Support Placement
Learning Support (LS) is a University System of Georgia program designed to strengthen the skill level of entering students in Mathematics and/or English (reading/writing) to promote academic success. There are multiple measures which determine Learning Support placement: high school curriculum and grades (official high school transcript), official SAT/or ACT test scores and/or placement test scores. The system approved placement test is the ACCUPLACER Test. Transfer students may be required to participate in LS in areas not exited at a prior USG institution if eligible. Institutional credit will be awarded for LS classes.
Center for Student Success and Retention (CSS)
The University System of Georgia Board of Regents designates Savannah State University as an access institution. Because of this
designation, the University is charged with providing an opportunity for individuals to earn a college degree who may have difficulty
entering college because of various cultural, psycho-social and socio-economic issues, which have been shown to have a direct impact on
their level of educational ability to attain a college degree.

The Access to Success (A2S) mission, under the Center for Student Success, provides the academic service and advising support for
students who have not met the traditional freshman admission criteria, such as ACT and SAT test scores. Access to Success supports
student retention, persistence, and degree completion. Students who matriculate and successfully complete the core curriculum through
Access to Success may earn an associate's degree and receive continued support through completion of a bachelor's degree.

The advisors work with students in a number of areas related to the academic experience at Savannah State University, with a primary
emphasis in advising and monitoring progress toward a degree of their selected academic program. The advisors work hand-in-hand with
academic deans and campus faculty advisors with curriculums, changes in degree programs, and graduation audits/checks.

The Center for Student Success and Retention provides comprehensive academic support classes, services and resources specifically
designed to enhance student academic achievement and success. Resources provided include professional academic advisement and
mentoring, academic coaching, testing, and tutoring services.

The Center for Student Success and Retention, in accordance with the University System of Georgia’s Momentum Year initiative will
work to ensure that students begin their college careers by making a purposeful choice in a focus area or program. Advisors will help
students to understand the benefits of developing an academic mindset and to adhere to the degree maps in the respective majors. All new
students will be advised to complete the core requirements for English and math and to earn nine credits in their chosen degree area
within the first year. These essential elements are designed to give students the impetus to move successfully to completion.

In addition, the Center for Student Success and Retention addresses college readiness through its involvement in the oversight of
Savannah State University’s partnership with the Savannah Chatham County Public Schools’ Dual Enrolled program and the traditional
dual enrollment programs for high school students taking college classes.

Learning Support Curriculum:
Learning Support placement exists as a co-requisite or supplement to college level courses. This co-requisite model includes the freshmen
level course in the Area A class for English/or Math (e.g. ENGL 1101, MATH 1001 or MATH 1111 or MATH 1401) along with a
required Learning Support co-requisite course in English/or Math (ENGL 0999, MATH 0996, MATH 0997, MATH 0999) (a fee is
assessed for these courses) in which both classes must be taken together within the same semester until fulfilled. Fulfillment of the
Learning Support requirement includes the passing of the Area A class with a “C” grade or better. Students who do not fulfill this
requirement must re-enroll in both courses (as the co-requisite model) until the requirement is satisfied.

Students requiring remediation will be placed in non-credit bearing, co-requisite Learning Support courses that will provide “just-in-time”
academic assistance while students are also enrolled in the gateway (collegiate) courses in mathematics or English. Savannah State
University offers remediation as co-requisite support only, as research shows that even less prepared students have higher success rates in
co-requisite support than in traditional forms of remediation.

Combined Reading and Writing Course
Reading and writing skills will be developed simultaneously in co-requisite support for ENGL 1101 English Composition. Mathematics
skills will be developed in co-requisite support for MATH 1001, MATH 1111, and MATH 1401.

Courses and Numbering
To reflect the changes in Learning Support delivery, new courses and course numbers have been developed for the co-requisite support
course.

Co-requisite course numbers and titles:
CHEM 0998 - Principles of Chemistry I Concept Development (CHEM 1211/1211L)
ENGL 0999 – Support for English Composition (ENGL 1101)
MATH 0996 – Support for Elementary Statistics (MATH 1401)
MATH 0997 – Support for Quantitative Reasoning (MATH 1001)
MATH 0999 – Support for College Algebra (MATH 1111)

Enrollment in Institutionally Required Learning Support Courses
Students who exceed the USG minimum requirements but are required by the institution to take Learning Support courses in order to
prepare for core curriculum courses may, at the institution’s option, be exempted from any or all of the requirements specified in Section
IV H. However, all such requirements imposed by the institution must be satisfied by the time the student has earned 30 credit hours or the student must enroll in course work that will satisfy the requirements every semester of enrollment until the requirements are satisfied. Institutions have the authority to limit accumulation of college-level credit to 20 hours.

**Learning Support for Transfer Students**
Students who complete course work and exit an area of Learning Support at any institution in the USG shall not be required to re-enter that area of Learning Support upon transfer to another USG institution. For students transferring from SACSCOC-accredited Technical College System of Georgia (TCSG) colleges, exit will be considered according to guidelines issued by the Executive Vice Chancellor and Chief Academic Officer of the USG.

**Exiting Learning Support**
To exit Learning Support, students must pass the collegiate-level course.

**Withdrawal from Learning Support Courses**
Students enrolled in gateway collegiate courses with co-requisite support may not withdraw from either course without withdrawing from both.

**Attempts in Learning Support Courses**
There are no limits on attempts in co-requisite Learning Support courses.

**Learning Support Suspension**
Students who have been suspended from the institution without completing Learning Support requirements may complete their Learning Support requirements and additional collegiate-level work at SACSCOC-accredited TCSG institutions during the year of suspension.

**Learning Support Policies**
Students may not accumulate more than 30 hours of degree credit while their Learning Support requirements remain unsatisfied. Students who have accumulated 30 credit hours and who have not successfully completed the required Learning Support courses must enroll only in their Learning Support classes until the LS requirements are successfully completed. Notification letters are mailed and e-mailed each semester to students informing them of their status.

All students enrolled in Learning Support (LS) courses are advised by professional advisors in A2S until they complete their Learning Support requirements and accumulate up to 60 hours of college credit.

**Courses with Learning Support Co-requisites**
A. Students who are required to enroll in co-requisite Learning Support courses are not permitted to enroll in credit courses that require the mastery of the content or the skills of the co-requisite courses.
B. Institutions shall inform students of those collegiate courses that have Learning Support prerequisites or co-requisites. The following core curriculum areas may require students to complete or exempt co-requisite Learning Support requirements.
   - Completion or exemption from co-requisite Learning Support English may be a prerequisite for Social, Natural, and Physical Science courses. (Additional areas for exit or exemption such as Learning Support Mathematics are at the discretion of the institution.)
   - Placement into or exemption from co-requisite Learning Support English is required for placement into ENGL 1101. Completion or exemption from co-requisite Learning Support English is required for placement into all other college-level English courses.
   - Placement into or exemption from co-requisite Learning Support mathematics is required for placement into MATH 1001, MATH 1401 or 1111. Completion or exemption from co-requisite Learning Support Mathematics is required for placement into all other college-level mathematics courses.
   - Completion or exemption from co-requisite Learning Support mathematics may be a prerequisite for physics and chemistry courses.
   - Any courses with prerequisite of any other college-level course would require exit or exemption from related Learning Support requirements.
   - It is recommended that courses such as music, art, and theater remain open for students with Learning Support requirements whenever possible.

**Placement**
The “default placement” for all students will be in an entry-level collegiate course with Corequisite Learning Support UNLESS students meet exemption criteria (for Corequisite Support) as outlined below in the sections on English and mathematics.
   - Students who do not meet any exemption criteria may waive placement testing if they are willing to accept placement in Corequisite Learning Support at the highest level of credit intensity (the most credits) offered at the institution.
All students must be made aware that they have the OPTION to take placement tests, which may place them directly into collegiate courses or in less credit intensive levels of Corequisite Learning Support. Students interested in taking placement tests should not be discouraged from doing so.

When placement testing is needed, Next-Generation Accuplacer placement tests should be used. Placement testing with Next-Generation Accuplacer placement tests is described in more detail in the next section (8. Next-Generation Accuplacer Placement Tests).

Exception: students wishing to enroll in MATH 1111 College Algebra, (with or without Corequisite Learning Support), must take the mathematics placement test unless they have already met the criteria for direct placement into MATH 1111 or MATH 1111 with Corequisite Learning Support (see below).

English
All entering students will be enrolled in ENGL 1101 English Composition I and the Corequisite Learning Support course, ENGL 0999 Support for English Composition, unless they meet one of the exemption criteria listed below or are enrolled in a program for which ENGL 1101 is not required. If students enroll in programs that do not require ENGL 1101, but they choose to take this course, standard assessment and placement rules will apply.

The exemption criteria below apply to the requirement to enroll in the Corequisite Learning Support course, not to the ENGL 1101 course requirement. Institutions may set higher exemption criteria. Students meeting any of the criteria on the list below may enroll in ENGL 1101 without the Corequisite Learning Support course, ENGL 0999: • Student already has credit for an Area A English course (must meet the minimum grade requirement for the course at the institution – which may be a “C” or higher).

• Student has an English Placement Index of 4230 or higher.*
• Student has a final high school GPA (HSGPA – this is the same HSGPA that is used in calculation of the Freshman Index) of 3.1 or higher and has completed the Required High School Curriculum (RHSC) in English.
• Student has an ACT English or Reading score of 17 or higher. • Student has an SAT Verbal/Critical Reading score of 430 or higher on the “old” SAT.
• Student has a score of 480 or higher on the “new” SAT Evidence-Based Reading 23 and Writing (EBRW) section.
• Student has an SAT Mathematics score of 400 or higher on the “old” SAT.

* At the institution’s option, the English Placement Index (EPI) may continue to be used for students who have at least two of the following: 1) High school grade point average, 2) SAT or ACT scores, 3) Classic Accuplacer scores. ** Next-Generation Accuplacer Reading test scores may not be used to calculate the English Placement Index.

Mathematics
All entering students will be enrolled in one of three standard Area A college-level credit-bearing mathematics courses (MATH 1001 Quantitative Reasoning, MATH 1401 Elementary Statistics, or MATH 1111 College Algebra) and a Corequisite Learning Support course unless they meet one of the exemption criteria listed below or are enrolled in a program for which a mathematics course is not required. If students enroll in programs that do not require a mathematics course, but they choose to take a mathematics course, standard assessment and placement rules will apply.

Note that MATH 1111 has higher placement and exemption criteria than MATH 1001 and MATH 1401.

The exemption criteria below apply to the requirement to enroll in a Corequisite Learning Support course, not to the college-level mathematics course requirement.

MATH 1001 Quantitative Reasoning and MATH 1401 Elementary Statistics

Students meeting any of the criteria on the list below may enroll in MATH 1001 or MATH 1401 without the corequisite Learning Support courses, MATH 0997 or MATH 0996:

• Student already has credit for an Area A mathematics course (must meet the minimum grade requirement for the course at the institution – which may be a “C” or higher).
• Student has a Mathematics Placement Index of 1165 or higher. *
• Student has placed in Pre-Calculus or a higher mathematics course (e.g., College Trigonometry or some form of calculus).
• Student has a high school GPA (HSGPA – this is the same HSGPA that is used in calculation of the Freshman Index) of 3.2 or higher and has completed the Required High School Curriculum (RHSC) in mathematics.
• Student has an ACT Mathematics score of 17 or higher.
• Student has an SAT Mathematics score of 400 or higher on the “old” SAT.
• Student has an SAT Math section score of 440 or higher on the “new” SAT.
- Student has a Classic Accuplacer Elementary Algebra score of 67 or higher (for students who will take MATH 1001 or 1101, see below).
- Student has an Accuplacer Next-Generation Quantitative Reasoning, Algebra, and Statistics score of 258** or higher (for students who will take MATH 1111, see below).

At the institution’s option, the Mathematics Placement Index (MPI) may continue to be used for students who have at least two of the following: 1) High school grade point average, 2) SAT or ACT scores, 3) Classic Accuplacer scores.

** Next-Generation Accuplacer scores may not be used to calculate Mathematics Placement Indices (MPI).

MATH 1111 College Algebra

Students who do not qualify for initial enrollment in MATH 1111 (with or without corequisite Learning Support) may enroll in MATH 1001 or MATH 1401 (with or without corequisite support) and may later enroll in MATH 1111 after successfully completing MATH 1001 or MATH 1401.

Criteria for Placement into MATH 1111 with Corequisite Learning Support:

Students meeting any of the criteria on the list below may enroll in MATH 1111 with Corequisite support, MATH 0999. (Institutions may set higher requirements to enroll in MATH 1111 with corequisite support.)

- Student has a Mathematics Placement Index of 1165 or higher. *
- Student has a high school GPA (HSGPA – this is the same HSGPA that is used in calculation of the Freshman Index) of 3.2 or higher and has completed the Required High School Curriculum (RHSC) in mathematics.
- Student has an ACT Mathematics score of 17 or higher.
- Student has an SAT Mathematics score of 400 or higher on the “old” SAT.
- Student has an SAT Math section score of 440 or higher on the “new” SAT.
- Student has a Classic Accuplacer Elementary Algebra score of 67 or higher.
- Student has an Accuplacer Next-Generation Quantitative Reasoning, Algebra, and Statistics score of 258** or higher.

Criteria for Direct Placement into MATH 1111: Students meeting any of the criteria on the list below may enroll in MATH 1111 without the Corequisite Learning Support course, MATH 0999.

- Student already has credit for an Area A mathematics course (must meet the minimum grade requirement for the course at the institution – which may be a “C” or higher).
- Student has a Mathematics Placement Index of 1265 or higher. *
- Student has placed in pre-calculus or a higher mathematics course (e.g., College Trigonometry or some form of calculus). Student has a high school GPA (HSGPA – this is the same HSGPA that is used in calculation of the Freshman Index) of 3.4 or higher and has completed the Required 25 High School Curriculum (RHSC) in mathematics.
- Student has an ACT Mathematics score of 20 or higher.
- Student has an SAT Mathematics score of 470 or higher on the “old” SAT.
- Student has an SAT Math section score of 510 or higher on the “new” SAT.
- Student has a Classic Accuplacer Elementary Algebra score of 79 or higher.
- Student has an Accuplacer Next-Generation Quantitative Reasoning, Algebra, and Statistics score of 266** or higher.

At the institution’s option, the Mathematics Placement Index (MPI) may continue to be used for students who have at least two of the following: 1) High school grade point average, 2) SAT or ACT scores, 3) Classic Accuplacer scores.

** Next-Generation Accuplacer scores may not be used to calculate Mathematics Placement Indices (MPI).

Learning Support prerequisite for core courses is as follows:

Students must enroll in or exempt the corequisite Learning Support course in order to register for:

If a student passes (ENGL 1101) successfully with a grade of C or higher ----- The next course is ENGL 1102
If a student passes (MATH 1111) successfully with a grade of C or higher ----- The next course is MATH 1113 (if major requires)
If a student passes (MATH 1001 or MATH 1401) successfully with a grade of C or higher ----- The student has fulfilled the requirement for the major.

Grades in Learning Support Courses

The following grades defined in detail in BOR Policy 3.5 are approved for LS courses in English (reading/writing), and mathematics:

Grade Definition
A, B, C, S  Passing course grade
F, U, or WF  Failing course grade
IP  Progress insufficient for completion of the course
I  Academic progress satisfactory, but coursework incomplete
W  Withdrawal without penalty
WM  Withdrawal without penalty for military service
V  Student auditing LS course that is not required but taken voluntarily
Learning Support Attempts and Exit

- An attempt is defined as an institutional credit course in which a student receives any grade or symbol except “W” or “WM”.

**USG-mandated Enrollment in Learning Support Courses**

The following requirements apply to those students who have USG-mandated Learning Support requirements. Institutions are not required to apply them to students who exceed the USG requirements even though such students may have institutionally-mandated Learning Support requirements:

During each semester of enrollment, a student must first register for all required Learning Support courses before being allowed to register for other courses. This policy also applies to part-time students. Two exceptions are possible:

- In the event that a required Learning Support course is not available, a student may enroll in a course for degree credit if the student has met the course requirements, subject to the written approval of the president or designee.
- Students who have accumulated a maximum of 30 semester hours of college-level credit and have not successfully completed required Learning Support courses may enroll only in Learning Support courses until requirements are successfully completed. Students with transfer credit or credit earned in a certificate or prior degree program who are required to take Learning Support courses for their current degree objectives may earn up to 30 additional hours of college-level credit. After earning the additional hours, such students may enroll in Learning Support courses only. Institutions have the authority to limit accumulation of college-level credit to 20 hours.

**Voluntary Enrollment in Learning Support Courses**

A. Students who are required to take Learning Support courses in an area may not register as auditors in any Learning Support course in that area. Students who transfer into a USG institution without having exempted or completed Learning Support requirements in an area (i.e., English or mathematics) must be evaluated for Learning Support placement and placed according to the USG institution’s criteria for Learning Support placement.

B. Students who are not required to take Learning Support courses in a disciplinary area may elect to enroll in Learning Support courses in a non-required area for institutional credit or on an audit basis. There is no limit on attempts for students who elect to enroll in corequisite Learning Support courses.

**Learning Support Rules for Returning Students**

A. Students who transfer into a USG institution without having exempted or completed Learning Support requirements in an area (i.e., English or mathematics) must be evaluated for Learning Support placement and placed according to the USG institution’s criteria for Learning Support placement.

B. Students who leave a USG school for any reason may be re-admitted without Learning Support requirements if they meet one of the following conditions:

- Students have completed all Learning Support requirements at a SACSCOC TCSG institution and completion of Learning Support requirements is documented on their TCSG transcript.
- Students have earned transferable credit at a regionally-accredited non-USG institution for ENGL 1101 or 1102 (for completion of the Learning Support English requirement) or an Area A mathematics course (for completion of the Learning Support Mathematics requirement). (USG receiving institutions will decide whether to grant Area A credit for courses taken elsewhere. Provided that native and transfer students are treated equally, institutions may impose additional reasonable expectations, such as a minimum grade of “C” in Area A courses.)
- Students have completed Learning Support at another USG institution and completion of Learning Support requirements is documented on their transfer transcript.
- Students have earned transferable credit at a regionally-accredited non-USG institution for ENGL 1101 or 1102 (for completion of the Learning Support English requirement) or an Area A mathematics course (for completion of the Learning Support Mathematics requirement). (USG receiving institutions will decide whether to grant Area A credit for courses taken elsewhere. Provided that native and transfer students are treated equally, institutions may impose additional reasonable expectations, such as a minimum grade of “C” in Area A courses.)

C. Students who leave a USG school and return without having satisfied their Learning Support requirements in the interim may be readmitted to the college under the following conditions:

- Students may take the ACCUPLACER Test and accept Learning Support placement according to a placement index calculated on the basis of ACCUPLACER Test alone.
- Students in Learning Support who voluntarily leave a USG institution for periods of less than one calendar year will return to the level of Learning Support (corequisite) they were in immediately prior to their absence.
- Time spent in Learning Support course work in a disciplinary area is cumulative within the USG.
- Students who had completed requirements for corequisite Learning Support may reenter at the corequisite support level.
- Students in Learning Support who voluntarily leave a USG institution for periods of one calendar year or more must be retested with the ACCUPLACER Test in any previously unsatisfied Learning Support area.
- Students who have passed a Learning Support course prior to leaving, or at another USG institution, or at a TCSG institution will have their MPIs and/or EPIs recalculated based on ACCUPLACER Test only.
- Students who have not successfully passed a Learning Support course prior to leaving, or at another USG institution, or at a TCSG institution will have their MPIs and/or EPIs recalculated based on all currently applicable information, including HSGPA (less than 6 years old) and SAT or ACT scores (less than 8 years old) and ACCUPLACER Test scores.
- After testing, such students may be readmitted without a Learning Support requirement if they meet the institutional criteria for exemption.
- Students who do not score high enough on the ACCUPLACER Test to exempt Learning Support may be placed in corequisite Learning Support, depending on institutional placement policies.
• Students placed in corequisite Learning support may be readmitted if individual evaluation indicates that the student has a reasonable chance of success on readmission.

D. Students readmitted under this provision are subject to the 30-hour limit on college-level coursework and may not take credit work if they had earned 30 or more credit hours during their previous period(s) of enrollment and have not completed Learning Support requirements in the interim.

E. Completion of transferable Area A courses in English or mathematics from any institution will eliminate further Learning Support requirements in that area upon transfer back to a USG institution

**Students with Special Needs**

Students with documented learning disorders as defined in the USG Academic Affairs Handbook, Section 3.11.1., must fulfill all stated requirements, including placement testing (Accuplacer or system-approved alternate) and course requirements.

Appropriate course and testing accommodations should be made for students with sensory, mobility, or systemic disorders. Students must consult with Savannah State University’s Counseling and Disabilities Office for more information on documentation and approval process. Such students may be granted up to two additional semesters of LS upon review and approval. Documentation on such students will be maintained at the institution and summarized in the annual report on accommodations for students with disabilities.

**Academic Renewal for Returning Students**

Academic Renewal policy established by University System of Georgia allows Savannah State University degree-seeking undergraduate students who have experienced academic difficulty to have one opportunity to make a fresh start at Savannah State University after an absence of five consecutive calendar years.

Academic Renewal allows re-calculating GPA and credit hours toward graduation, based exclusively on work completed after returning to the University.

Students who qualify for academic renewal must:

- Not have enrolled for credit in any courses, offered by academic/postsecondary institutions (accredited by one of the organizations recognized by Council on Postsecondary Education Association) for at least five years after the enrollment period subject to academic renewal;
- Be an undergraduate who was not awarded an associate or bachelor's degree; and
- Request academic renewal status within two academic semesters of re-enrollment or within one calendar year, whichever comes first.

**Academic Renewal Procedures and Implementation Issues**

Course work, grades and academic standing earned prior to a five-year (or longer) separation period will remain on the transcript. In consideration of any course work completed after the period of separation, only Savannah State University course work and subsequent transfer work will be used in the calculation of the overall GPA. The overall GPA will be used for admission to programs/majors requiring a minimum grade point average. Academic credit for previously completed course work, including transfer course work, will be retained only for all courses in which an A, B, C, or S grade has been earned. Grades of A, B, C or S are not calculated in the academic renewal GPA but may be used toward degree completion.

Former Academic Assistance or Learning Support students may apply for academic renewal only if they successfully complete all Student Academic Assistance or Learning Support requirements before the commencement of the five years of absence.

Students who transfer from Savannah State University should recognize that the receiving institution is under no obligation to acknowledge the adjusted GPA. The receiving institution is expected to recognize only the cumulative GPA.

The academic renewal GPA will be used for determining academic standing and eligibility for graduation. All courses will be considered in the implementation of the Board of Regents' Examination and College Preparatory Curriculum policy requirements. Academic renewal can be approved only once. Once academic renewal is requested and approved, it cannot be reversed. All courses will be considered for the determination of financial aid and/or veteran’s benefits. To earn a degree, students must meet Savannah State University's graduation requirements. Students who have been granted academic renewal are not eligible for Latin honors recognition at graduation.

**Residency/Tuition Classification**

**Definition of Legal Residence**

Regents’ Policies Governing the Classification of Students for Tuition Purposes

The Board of Regents has adopted the following policies for the purposes of determining the tuition status of students:

403.02 Classification of Students for Tuition Purposes

- If a person is 18 years of age or older, he or she may register as an in-state student only upon showing that he or she has been a legal resident of Georgia for a period of at least 12 months immediately preceding the date of registration.
An institution may waive out-of-state tuition and assess in-state tuition for:

- Academic Common Market. Students selected to participate in a program offered through the Academic Common Market.
- University System Employees and Dependents. Full-time employees of the University System, their spouses, and their dependent children;
- Full-Time School Employees. Full-time employees in the public schools of Georgia or of the Department of Technical and Adult Education, their spouses, and their dependent children. Teachers employed full-time on military bases in Georgia shall also qualify for this waiver (BOR Minutes, 1988-89, p. 43);
- Career Consular Officials. Career consular officers, their spouses, and their dependent children who are citizens of the foreign nation that their consular office represents and who are stationed in Georgia under orders of their respective governments.
- Any Veteran, to include spouse and dependent child, excepting those assigned as students to USG System Institutions for educational purposes such as the “Army Green to Gold Program” who within 36 months of the military member leaving service is admitted to any USG College or University, is eligible to have Out of State tuition waived. The waiver continues as long as the student remains continuously enrolled (two consecutive semesters each year); for students utilizing VA benefits, the window is further expanded in order to improve access and affordability during transition. While the Choice Act of 2014 stipulates in-state rates within 36 months of separation, USG institutions waive out-of-state tuition for any student enrolling within 120 months of separation/retirement and utilizing VA Educational Benefits. This generous timeline addresses transition success and once the student is enrolled, the waiver remains in effect as mentioned previously.
- Border State Residents. Residents out-of-state bordering the State of Georgia in which the reporting institution is located. These states include Florida, Alabama, and South Carolina.
- Border County Residents. Residents of an out-of-state county bordering a Georgia county in which the reporting institution or a Board-approved external center of the University System is located.
- Students enrolled in University System institutions as part of Competitive Economic Development Projects. Students who are certified by the Commissioner of the Georgia Department of Industry, Tourism and Trade as being part of a competitive economic development project;
- Students in Georgia-Based Corporations. Students who are employees of Georgia-based corporations or organizations that have contracted with the Board of Regents through University System institutions to provide out-of-state tuition differential waivers;
- Students in Pilot Programs. Students enrolled in special pilot programs approved by the Chancellor. The Chancellor shall evaluate institutional requests for such programs in light of good public policy and the best interests of students. If a pilot program is successful, the tuition program shall be presented to the Board for consideration;
- Students in ICAPP® Advantage programs. Any student participating in an ICAPP® Advantage program; and
- Direct Exchange Program Students. Any international student who enrolls in a University System institution as a participant in a direct exchange program that provides reciprocal benefits to University System students.
- Families Moving to Georgia. A dependent student who, as of the first day of term of enrollment, can provide documentation supporting that his or her supporting parent or court-appointed guardian has accepted full-time, self-sustaining employment and established domicile in the State of Georgia for reasons other than gaining the benefit of favorable tuition rates may qualify immediately for an out-of-state tuition differential waiver which will expire 12 months from the date the waiver was granted. An affected student may petition for residency status according to established procedures at the institution.
- For those currently serving, USG policy addresses access and affordability for this segment of the population. All military members, and families, assigned to or stationed in, Georgia have out-of-state waived. Additionally, any student using transferred
GI Bill Education benefits from a currently serving military member have out of state tuition waived. The military member from which the benefit is derived does not have to be currently, or previously, assigned in Georgia.

Additional Resident Information

Individuals who enter Savannah State University as nonresident students but who wish later to qualify as legal residents must submit a Petition for Georgia Resident Classification, which can be obtained in the Office of the Registrar. Residence status is not changed automatically, and the burden of proof rests with students. Students are responsible for registering under the proper residence classification. Students classified as nonresidents who believe they are entitled to be reclassified as legal residents may petition the Registrar for a change in status. To avoid delay and inconvenience at registration, the petition must be filed no later than 60 working days prior to registration for the semester students are petitioning for in-state residence status.

Items to be included with Petition for Residency

- A notarized statement verifying employment during the last 12 months should indicate dates of employment. Statements on company letterhead do not have to be notarized.
- A copy of lease or deed showing residence during the last 12 months should be included. Leases or deeds in a name other than that of the student require a notarized statement of residence from the person holding the lease or deed.

Grading

The University uses letters to indicate quality of academic work. “A” is the highest grade; “D” is the lowest passing grade, except when a “C” is required. The grade “F” indicates a failure to meet the minimum requirements of a course. Grade distinctions and quality point values are:

<table>
<thead>
<tr>
<th>Grade</th>

*Indicates grades not included in calculation of grade point average

Grade Symbols

# (Academic Renewal) - Course grade not counted in computation of Grade Point Average and hours earned
% (Learning Support) - Course grade not counted in computation of Grade Point Average and hours earned
E (Course Repeated/Excluded) - Course grade excluded from grade point average and hours earned
I (Course Repeated/Included) - Course grade included in grade point average and hours earned
I (Incomplete) - This symbol indicates that students were doing satisfactory work, but, for non-academic reasons beyond their control, were unable to meet the requirements of the course. Students may remove the “I” by completing the remaining requirements within two semesters of residence. If course requirements are not satisfied within two semesters, a grade of “F” will be assigned and the student must retake the course to receive credit. Students are responsible for initiating the completion of requirements with the instructor.
V (Audit) - This symbol indicates permission to sit for a course without receiving quality points or a grade other than “V.” Students may not transfer from audit to credit or vice versa. Students may register on a credit basis for a course that has previously been
K (Credit) - This symbol indicates credit for the course via a credit by examination program approved by the faculty of the University. A “K” may be assigned for courses that have previously been audited if institutional procedures for credit by examination are followed.
Reporting of Grades
At mid-term and at the end of the semester, faculty members submit grade reports through self-service (PAWS). At the end of each semester, grades are provided to students electronically, which notes the grades and credit hours earned in each course in which they were enrolled, grade-point average for the semester, cumulative grade point average, and academic standing.

Mid-term grade reports are required to help students identify their progress in classes and assist advisors in reaching out to at risk students.

Students can access grade information through self-service (PAWS).

Calculating the Cumulative Average
Determinations of scholastic standing are generally based upon a cumulative grade point average, which appears on student's permanent record. The cumulative grade point average is calculated by dividing the total number of grade points or quality points earned in academic courses by the total number of academic credit hours attempted at Savannah State University. Credits by examination, credits that carry S/U grades, and credits specifically excluded by University policy are not used in computing the cumulative grade point average.

Repeating of Courses
Students may repeat courses in which grades D, F, or WF were earned. The highest grade will count in computing the grade point average for degree requirements. If the same grade is earned, the most recent grade will count in the grade point average calculations. Courses may be repeated any time before the first degree is awarded.

• Earned hours will be applied only once toward graduation requirements.
• It is recommended that students not repeat any courses for credit in which they have earned a grade of C or better.
• All attempted courses and grades will remain on the academic transcript. The previous attempts will be noted but excluded from GPA calculations.

Students who are planning to apply for admission to graduate school should take note that most graduate/professional schools recalculate GPAs based upon all courses that students have attempted during their college career. Thus, any repeated courses may include both grades in consideration for graduate school admission.

Transient Policy
Savannah State University students who are concurrently enrolled in courses for credit at another institution may not transfer such credit to Savannah State unless the appropriate dean or his designated representative gives written authorization.

Classification
Undergraduate students are classified based on earned academic credit hours as follows:
Freshman: 0-29 or less semester hours earned
Sophomore: 30-59 semester hours earned
Junior: 60-89 semester hours earned
Senior: 90 or more semester hours earned

Grade Changes
Once a grade has been reported to the Registrar, it can be changed only if one of the following conditions are met:
• The instructor presents to the dean of the college conclusive, documentary evidence that the grade was reported in error;
• The instructor follows the procedure of removal of an I (Incomplete) grade;
• The instructor follows the procedure of removal of an NR (Not Reported) grade;

Challenges by Students
Students who feel that they have received an unfair grade in any course should meet with the instructor within 7 calendar days of the first day of class of the next semester (excluding summer) in an effort to reach a resolution. If no satisfactory resolution is reached, students may, within 7 days after meeting with the instructor, challenge the grade by writing a letter of appeal to the chair of the department in which the course was offered. If the instructor is also the chair of the department, the appeal letter should be addressed to the dean of the College in which the course was offered. This procedure must be accomplished within 14 days of the first day of classes of that semester. If a resolution satisfactory to the student is not reached, the department chair or college dean may appoint a review committee (exclusive of the dean, department chair, and the instructor). The review committee, after hearing both the instructor and the student, submits its report and recommendation(s) to the chair, dean, or director of the division, who then submits the report and recommendation to the Vice President for Academic Affairs. Upon accepting a recommendation to change a grade or upon reversing a recommendation not to change a grade, the Vice President directs the Registrar to make the appropriate change. The Vice President or his designee shall communicate final decisions to students. In order for the department chair, dean, or director of the division to grant a hearing, students must present adequate evidence of unfair grading.
Transcripts

The transcript is considered the official document of record of a student's grades while in attendance at the institution. In accordance with the Family Educational Rights and Privacy Act of 1974, as amended (FERPA), transcripts normally are issued only at the request of the student. This request can be made online. There is a fee of $4.00 per transcript. The institution has a legal right to deny a transcript if a student has indebtedness to the institution. The amount of indebtedness leading to this sanction will be determined by the Student Financial Services Office.

Good Standing, Academic Probation and Suspension

Policy on Academic Good Standing, Probation and Suspension Pertaining to Undergraduates

At the end of each semester, the Office of the Registrar computes cumulative institutional grade point averages in order to determine the academic standing of all students. Undergraduate students whose cumulative institutional grade point average at the end of any term will be considered in good standing based on the following minimum requirements:

- Freshman (0-29 attempted hours) – 1.5 GPA and above
- Sophomore (30-59 attempted hours) – 1.75 GPA and above
- Junior and Senior (60+ attempted hours) – 2.0 and above

Academic Warning

Students who do not meet the minimum requirements will be placed on Academic Warning. This status is considered good standing for the purposes of enrollment. Students under Academic Warning will be able to continue enrollment during the next semester but are limited to 13 credit hours.

Academic Probation

Students on Academic Warning who do not meet the minimum institutional GPA requirements will be placed on Academic Probation. This status is considered good standing for the purposes of enrollment. Students on Academic Probation will be able to continue enrollment during the next semester. Students on academic probation are expected to use their probationary semester to focus on their academic success and recover their academic progress. To assist students in achieving these goals, students on probation are subject to the following restrictions:

1. Students on probation must meet with an advisor before the start of class to be advised on necessary schedule adjustments.
2. Enrollment is limited to a maximum of 13 credit hours for the semester.

Additionally, students on academic probation will not be permitted to represent the University or hold office in any University organization.

Students who raise their cumulative institutional grade point average to 2.0 or higher at the end of their probationary semester will be removed from probation. A student on probation, who has earned the minimum GPA requirements for the semester, but has not achieved good standing (i.e. cumulative institutional GPA does not meet minimum standards), will remain on probation until the student meets the minimum cumulative institutional GPA requirement for academic good standing.

Academic Suspension

Students on Academic Probation who do not improve their GPA to meet the minimum cumulative institutional grade point average to remain in good standing will be subject to academic suspension.

Students suspended for the first time must sit out the next semester.

Students suspended for the second time must sit out the next two semesters.

Third suspension will be considered the final suspension and students may be subject to academic expulsion from the university.

Students who have been academically suspended from the University must complete a readmission application with the Registrar’s Office and appeal to Academic Affairs at the end of their suspension in order to return to the University. Such students must convincingly demonstrate readiness to assume academic responsibilities. The policy for satisfactory academic progress for financial aid purposes is not the same as the university academic standing policy. Students who are interested in receiving financial aid must also submit an Appeal for Financial Aid Suspension.

Recognition of Excellence in Scholarship

Persons who have not been subject to disciplinary action while earning superior grades and who have not incurred any academic deficiencies are eligible for honors status as indicated:

- Honor Roll: Students who maintain a GPA of 3.0-3.49 while full time (12 hours) during a semester
- Dean’s List: Students who maintain a GPA of 3.50-3.99 while full time (12 hours) during a semester
- President’s List: Students who maintain a GPA of 4.0 while full time (12 hours) during a semester
Degree and Graduation Requirements

All candidates for a degree must file a formal application for graduation with the Registrar’s Office and pay the graduation application fee two semesters preceding their expected graduation date. The Registrar’s Office conducts an independent audit to ensure that all degree requirements have been satisfied.

Degrees will be awarded only to students who meet all degree requirements. Degrees are conferred formally at commencement exercises at the end of the Fall and Spring Semesters. Students who complete degree requirements in the Summer semester will be invited to participate in the Fall commencement ceremony. Summer degrees will be awarded and posted to the academic transcript at the end of the Summer semester.

All Undergraduates earning Associate or Baccalaureate degrees must meet the following requirements:

- Students must have a minimum of 60 semester hours to earn an Associate degree and 120 semester hours to earn a Bachelor degree. Students should check their specific program of study for total semester hour requirements.
- Students must have a cumulative institutional and overall GPA of 2.0
- Students must complete all course requirements for outstanding Incomplete (I) grades
- Students must submit all transcripts from other institutions they attended
- Students must meet the residency requirements for their degree: 25% of coursework must be taken at SSU for all degrees; 50% of the major must be taken at SSU for Bachelor degrees
- Students are requirement to satisfy all Board of Regents requirements, including legislative requirements and all Required High School Curriculum requirements
- Students must pass Core Area A courses with a grade of C or better. Students should refer to their specific program of study for other courses that require a grade of C or better.
- As conditions of graduation, the University and academic departments may require students to take additional competency tests appropriate to their programs of study. Information relative to these tests is available in the academic departments.

Graduation with Honors

Graduation with honors requires a minimum of sixty institutional credit hours. In addition, students who graduate with honors must attain the following grade-point averages:

- Cum Laude 3.25 - 3.49
- Magna Cum Laude 3.5 - 3.74
- Summa Cum Laude 3.75 - 4.00

Due to processing and final evaluation time constraints, Spring Semester grades for May and Fall Semester grades for December will not be used in computing the GPA for honors for the purposes of the commencement ceremony. After May and December final grades are processed, the GPA is rechecked for honors qualifications; the eligible honors designation will then be added to the student’s transcript and diploma.

Walk No Diploma policy

Candidates for graduation may request to participate in the commencement ceremony scheduled one semester prior to completing degree requirements. The following are the minimum requirements to participate in commencement as a “walk no diploma” candidate:

- No more than 6 semester hours are needed to complete degree requirements in the semester following commencement.
- Graduation application must be submitted by the graduation application deadline of the commencement term.
- Minimum GPA of 2.0 for undergraduates (Associate/Bachelor degrees) and 3.0 for graduates (Master degrees)
- Registration for required classes needed in the following semester
- Approval from academic department

Candidates for graduation that do not meet the minimum requirements will be invited to participate in the commencement ceremony after completion of all degree requirements.

Dual Degrees and Double Major Graduation Requirements

Dual degrees are earned when a student satisfies all requirements for two different baccalaureate degrees (for example, B.A. and B.S.) within one or more colleges of Savannah State University.

A double major consists of two separate majors in the same baccalaureate degree (for example, B.S. with majors in Sociology and Political Science). A double major is earned when the student completes discipline-specific requirements for each of the majors and all requirements for the degree. Both Area Fs may be satisfied by meeting the requirements for the first major. However, all pre-requisite requirements for major courses must be completed.
2nd Degree Policy (Post Baccalaureate)

Students who have earned a baccalaureate degree from a regionally accredited institution may obtain a second baccalaureate degree from Savannah State University by completing the following requirements:

- Complete all major requirements listed for the chosen program of study.
- Earn at least 30 semester hours in residence at Savannah State University.
- Complete at least 39 semester hours of upper division work overall in addition to hours used towards the first baccalaureate degree.
- Demonstrate knowledge of the history and constitutions of the United States and of Georgia. Students who did not earned their first degree at a USG or TCSG school, must satisfy this requirement by taking the Georgia Government exam or taking both POLS 1101 and HIST 2111/2112.

Minor

A minor area of study requires a minimum of 15 semester credit hours. At least 9 of these credit hours must be at the 3000 level or higher. Courses taken to satisfy Core Area A through E may not be counted as coursework in the minor. Students may add minors at any time prior to graduation. To be noted on the transcript, a minor must be declared at the time of graduation and noted on the graduation application.

Posthumous Degrees/Certificate of Attendance Policy and Procedures

I. This policy applies to all degree-granting colleges and units.

II. In appropriate situations, Savannah State University may honor a deceased student by granting a degree posthumously. By recommending a student for a posthumous degree, the department is agreeing to waive any remaining requirements for graduation. The University determines that a deceased student has completed sufficient coursework to earn a degree. This status will be reserved for those students who are in good standing, and who have made substantial progress toward their degrees. The procedure for granting a degree posthumously will be as follows:

- The deceased student will be recommended for the honor as appropriate (associate/bachelor, or master degrees) by the Division of Academic Affairs taking into consideration the totality of circumstances, totally within the discretion of the Division of Academic Affairs. The request will be reviewed by the student’s major department.
- The student would have successfully completed 75% of an undergraduate degree, or 90% of a graduate degree and met the GPA requirements for that degree.
- At the time of death, the student had no disciplinary sanctions pending.
- The Office of Academic Affairs will determine if the student’s name may be included in the next commencement exercises and that the student’s family is notified of the granting of the degree.
- A student who did not meet the above requirements for a posthumous degree may be considered for a Certificate of Attendance.

Class Regulations

The University policy governing semester academic course load for full-time status is as follows:

Undergraduate Full Time Status: 12 credit hours

Maximum semester hour limit: 18 credit hours

In accordance with USG’s Momentum Year, students are generally expected to enroll in at least 15 hours per semester to remain on track to graduate with a bachelor’s degree in 4 years.

Overloads

Permission to enroll for more than 18 semester hours will be granted by the appropriate Dean to a student:

- with an average grade of "B" for full-time enrollment in the preceding semester, or
- with an overall grade-point average of 3.0 or
- requiring an extra course in one of the two semesters prior to graduation

No student will be allowed to register for more than 21 hours. A student who is on academic probation will not be permitted to register for more than 13 semester hours. Only the appropriate Dean may make exceptions to these limitations.

Special Policy for Limited Seating Classes

Certain classes, such as computer lab classes, with limited seating are governed by a more stringent attendance policy. In these cases, students must attend the first class session or notify the instructor immediately that they will be absent. Failure to comply with these requirements may result in the immediate removal (withdrawal) from the class. The seat may be reassigned. When circumstances prevent their attending the first session, students are responsible for notifying instructors or the administrative unit head (department chair or dean of the instructor's college). Withdrawals may also impact financial aid classification if students' academic load then falls below the required minimum.
Class Attendance
Savannah State University endeavors to provide optimum conditions for the intellectual growth and development of its students. With the exception of University approved activities, it is expected that students should attend and be punctual to their classes, laboratories, and scheduled class requirements. Students who are absent because of participation in approved University activities will be permitted to make up work missed during their absences, provided that no more than 15% of class hours per course per term are missed and that work is assigned for completion prior to the University sanctioned activity.

All matters related to student absences, including the make-up of work missed, are to be arranged between the student and the instructor. Instructors will publish their guidelines for handling absences in their syllabi. Students are obligated to adhere to the requirements of each course. Faculty members are encouraged to take into consideration religious holidays of the student's faith, summons, jury duty, or similar compelling reasons for absences.

Verification of Attendance is required by faculty for all classes during the attendance verification period published on the academic calendar. Students will be dropped for non-attendance if reported as not attending during the attendance verification period.

Class Drop/Add Policy
Subsequent to registration, students may drop classes from, or add classes to, their schedules, without financial or academic penalty, until the last day of late registration (refer to the Academic Calendar for this date). All drops during this period will delete the class from the student's schedule and release the student of any financial obligations corresponding to the class.

Subsequent to the late registration deadline, students may withdraw from a class until the last day of classes of the term. However, all withdrawals during this period will be assessed corresponding tuition and fees, a grade of W will be assigned for any class withdrawn by the deadline, and a grade of WF will be assigned for any class withdrawn after the deadline through the last day of classes.

Students desiring to drop or add classes should use self-service (PAWS).

Students will not be permitted to add classes to their schedules after the last day of late registration.

Withdrawing from the University
Savannah State is not obligated to drop students for failure to attend classes. It is the student’s obligation to drop classes, and students’ failure to officially drop a course prior to the end of the add/drop period could lead to financial and academic consequences.

After the late add/drop period and prior to the midterm, students may withdraw every class except the last class using the online registration process in PAWS. In order to withdraw the last class, an electronic withdrawal form must be submitted. Students will automatically receive a W, if they officially withdraw before the published deadline. For all academic dates, including add/drop period and withdrawal deadlines, please refer to the published academic calendar.

Types of withdrawals:
- Withdrawal before midterm
- Withdrawal after midterm
- Hardship withdrawals
- Military Withdrawal
- Administrative Withdrawals

Hardship Withdrawal from the University
Students may be granted hardship withdrawals when non-academic emergency situations occur which prevent them from completing their coursework (e.g., severe medical problems, traumatic events/circumstances that cause them to miss numerous classes). Hardship withdrawals are subject to the following restrictions:
- Students are not eligible for hardship withdrawals in any course in which they have completed the course requirements (for example, taking the final exam or submitting the final project).
- Students must have supporting documents to receive a hardship withdrawal.
- Students must initiate an application for a hardship withdrawal no later than one academic year after the semester in which the courses were taken.
- Hardship status applies to all courses taken in a semester.

Military Withdrawal
A student who is on active duty or is a military reservist (including members of the National Guard) may withdraw from the University if called for active duty or reassignment. The student must officially withdraw and submit Official Orders to Active Duty to the Office of
Academic Affairs within three (3) working weeks of actual receipt of said orders. The student is not eligible for a military withdrawal in any course in which the student has completed the course requirements (for example, taking the final exam or submitting the final paper) and/or a final grade has been assigned. Students who withdraw and receive a full tuition refund will receive a grade of "WM" (military withdrawal) for all courses from which the student has withdrawn.

Administrative Withdrawals
In the judgment of the authorized University officials, a student may be withdrawn from the university for non-academic reasons when it is determined that the student has demonstrated behavior that:
Poses a significant danger or threat of physical harm to self or to the person or property of others; or
Interferes with the rights and privileges of other members of the university community or with the exercise of any proper activities or functions of the university or its personnel.

Except in situations where the student is believed to be an imminent threat to self or others, as determined at the sole discretion of the University, a student shall, upon request, be accorded due process concerning his or her continued enrollment at the university. In situations involving an imminent threat, the student will be provided a hearing as soon as possible after the withdrawal occurs. The instructor will assign students who are non-academically withdrawn a grade of “W” or “WF” (depending on whether they have exceeded their maximum number of withdrawals allowed) if they are withdrawn before the semester midterm “W” and a “WF” if they are withdrawn after the midterm.

Students, who cease attending all classes without officially withdrawing, will be administratively withdrawn from the university. Upon submission of final grades for a term, instructors are required to indicate the last day of attendance for each failing grade (F) submitted. In compliance with Title IV regulations for unofficial withdrawals, students who have failing grades of "F" in all classes, and whose last date of attendance is the 50% point of the semester or below will be considered as unofficially withdrawn from the University and reported as such.

Access to Student Records
The Family Educational Rights and Privacy Act of 1974, as amended (FERPA), which is designed to protect the students’ rights with regard to education records maintained by the institution, cover Savannah State University. Under the Act, students may inspect and review their own education records maintained by the institution and challenge the content of records (except grades which can only be challenged through the academic appeal procedure) on the grounds that they are inaccurate, misleading or in violation of privacy or other rights; and control disclosures from educational records with certain exceptions.

Savannah State University's policy on “Access to Student Records” complies with the provisions of FERPA. A copy of this policy and a copy of a summary of the FERPA regulations may be obtained in the Office of the Registrar. Students also have the right to file complaints with the FERPA Office of the Department of Education, Washington, D.C., 20201.

Release of Directory Information
Directory information will be treated as public information and generally will be available on all students and former students at the discretion of the University. Savannah State has defined Directory information to include the student’s name, major field of study, dates of attendance, degrees awarded, hometown, participation in recognized activities and sports, weight and height of athletic participants. Students, or parents of students who are under eighteen, may refuse to permit the release of any or all of the categories of directory information by submitting a written request to the Office of the Registrar.

Inquiries from news media about students or former students should be made to the Marketing and Communications department. Due to the unpredictable nature and immediacy of media inquiries, notice cannot be given of media releases (non-athletic).

Change of Address
Students are responsible for updating their address in PAWS. The mailing of notices to the last address on record constitutes official notification.

Student Academic Grievance Procedures
Original Jurisdiction
Academic Grievances should first be reported to the academic department. If the appeal cannot be resolved by the department, it will be escalated to the College. As the final authority on decisions about academic grievances, Academic Affairs will make any final decision needed.

Right of Appeal
Appeals shall be available to every student in an academic grievance proceeding against the University.
Appellate Procedure
When a decision of original jurisdiction has been rendered, the grievant shall have seven (7) working days to appeal this decision. All appeals shall be in writing and supporting documents must be presented to the dean of the college. Within three (3) days, appellants shall be given, in writing, all charges upon which the original decision was based as well as all necessary information for the appellate hearing procedures. Appellants shall be guaranteed a speedy hearing, yet given adequate time to prepare their defense.

Jurisdiction of Appeal
The Vice President for Academic Affairs shall make the decision regarding all appeals. The Vice President shall have the prerogative of either creating a special committee or using an independent officer to assist in hearing the case.

Rights of Appellant
Grievant shall have the right to be present when all evidence is presented against them and all witnesses appear, have an advisor (non-lawyer) present to assist throughout the proceedings, cross-examine witnesses, present evidence by witness or affidavit, and present evidence by deposition when a witness is unable to appear.

Hearing Procedures
A record shall be kept of the entire proceedings, by either tape or stenographer. The hearing will commence by a reading of the charges and the decision of the department of original jurisdiction. Evidence will be presented to sustain the decision.

Disciplinary Interim Suspension
A student who has been summarily suspended after mid-term of the semester pursuant to the Savannah State University Student Conduct Code pending the outcome of a disciplinary hearing will not be eligible for withdrawal from the University until the final disposition of the case. Should the student be found guilty of violating the Student Conduct Code or plead "no contest", the student will receive failing grades from the date of the summary suspension and forfeit the semester. Should the student be found not guilty, the Vice President for Student Affairs will provide written notification to the Vice President for Academic Affairs of the disposition. Should the student desire to withdraw, the Vice President for Academic Affairs will accept a petition from the student and grant an automatic withdrawal without penalty and forward the withdrawal approval to the appropriate offices.

Credit Course Description
Under each course title, there are three numbers, such as 3-0-3. The first number listed is the number of hours of lecture; the second number indicates the number of hours of laboratory; and the third number indicates the number of credit hours awarded for successful completion of the course.

Online Education
Online Education is to provide high quality learning and flexibility for our students, faculty, and staff. Brightspace/D2L may be used to access SSU eLearning and USG eCore courses. The Center for Teaching and Faculty Development provides training for faculty and assists with instructional design for future courses. All users have access to resolve issues and faculty can review available resources to aid in course development.

Online courses are taken exclusively over the Internet. There are no required on-campus meetings. Hybrid courses are held both on campus and online. They are traditional face-to-face courses in which some of the on-campus class meetings are replaced with online assignments. Web-enhanced courses are traditional face-to-face courses that are augmented by course websites. Unlike the class meetings for hybrid courses, the class meetings for web-enhanced courses are all scheduled on campus unless classes are redirected for special activities.

Code Category Description
- Entirely at a distance (E)
• Fully at a distance (F): All or nearly all of the class sessions are delivered via technology. The course does not require students to travel to a classroom for instruction; however, it might require students to travel to a site to attend an orientation or to take exams. (NOTE: This is generally equivalent to delivering more than 95 percent of sessions via technology.)
• Hybrid (H): Technology is used to deliver 50 percent or less of class sessions, but at least one class session is replaced by technology.
• Technology enhanced (T): Technology is used in delivering instruction to all students in the section, but no class sessions are replaced by technology.
• Null - No technology

Proctoring and Associated Fees
Savannah State University’s Testing Office provides free test proctoring services for Savannah State University online students who can attend specific testing sessions on campus at the Testing Office. Fees associated with Savannah State University’s Bachelor of Business Administration (BBA) Online program are embedded in tuition costs. BBA Online students can also utilize Proctor U, an organization that offers online proctoring services. Students can take examinations online at anytime, anywhere in a secure testing environment. For information on Proctor U registration for BBA Online students, contact the College of Business Administration at 912.358.3389. Savannah State University students enrolled in fully online courses (not in the BBA online program) and do not reside in the Savannah area and must complete a proctored examination could incur additional charges for proctoring. Savannah State University students who enroll in eCore courses are required to pay proctoring fees (which vary by college) for each examination required.
The eCore website states that each eCore course requires at least one proctored exam that requires a proctoring fee. For more information about eCore, classes and requirements please visit: https://ecore.usg.edu/.

Military and Veterans Affairs
Veteran refers to any Active Duty, Reserve, National Guard or Military Dependent student using GI Bill Benefits to attend this University.
Savannah State University maintains a School Certifying Official in the Department of Military and Veterans Affairs under the Vice President of Enrollment Management. Their duties are to coordinate between various Department of Defense and Veterans Administration agencies and to assist all students who are eligible for Veteran’s Education Benefits.
Veterans wishing to attend Savannah State University under any of the educational benefit programs provided by public law should apply for admission.
Those who have never used their education benefits should apply for their Certificate of Eligibility (COE) at va.gov. Those who have previously used GI Bill Benefits must obtain their Letter of Remaining Benefits (LORB) from the VA. This can be accomplished in several ways:
  • Each time a student is Certified to the VA that they are using their GI BILL Benefits, the VA will send a LORB to the student outlining the number of months and days of benefits they have used and have remaining.
  • Online through their E-Benefits account.
  • Online at www.benefits.va.gov (tab through: Education and Training, For Students, Get Started Home and Submit a Question),
  • Fax a request to (404) 929-3009
  • Written request to “Department of Veterans Affairs, 1700 Clairmont Road, Decatur, Ga. 30033.
Those transferring to Savannah State who have used their GI BILL Benefits at other institutions must also submit a VA Form 22-1995 for Military or VA Form 22-5495 for Military Dependents to change their Place of Training or program of study. Upon notification by the Admissions Office of their acceptance to Savannah State University, the Veteran should contact the School Certifying Official for further instructions.

General Information
Use of VA Education Benefits (GI bill) is accomplished only by the request of the student. Each student desiring to use his or her benefits must submit a VA Enrollment Certification Request to the School Certifying Official each semester for the duration of their college career at Savannah State University. Any student who has received benefits from Savannah State and transfers to another Institute of Higher Learning must file a VA Form 22-1995 for Military or VA Form 22-5495 for Military Dependents with the School Certifying Official at the gaining institute to change the location of their supporting administrative unit.

GI bill Benefits may be combined with Active Duty or Reserve Tuition Assistance Benefits if desired.

Students exercising Chapter 30, 1606 or 1607 GI bill benefits must certify their continued attendance monthly either online at benefits.va.gov/GIBill/ or by telephone to the VA Regional Processing Office at 1-800-442-4551.
Students may only be certified for courses that apply to their formal and declared degree program, Students receiving benefits are required to notify the School Certifying Official whenever they drop or add a course of instruction or if there is a change in their degree program. Failure to do so may lead to an overpayment of benefits.

49
Repayment of any overpayment may be the responsibility of the student.

If a passing grade is received for a course of instruction, the course may not be recertified in order to receive a better grade. However, if a failing grade is received or if the grade does not meet the minimum requirements of the degree program, the course of instruction may be certified and repeated.

A normal, Full-Time academic load during fall or spring semesters is defined by the university as 12 semester hours for undergraduate and 9 hours for graduate students. The VA honors these parameters for payment of benefits. Undergraduate and graduate students carrying less than a full load will not be certified at Full-Time.

Veterans who can show proof of successful completion of introductory military training (Boot Camp or a Commissioning source) are awarded credit for the 4 hours of physical fitness training and First Year Experience. A student desiring to use their GI Bill Benefits must submit a request for that semester containing the following documents:

- VA Enrollment Certification Request Form
- VA Letter or Eligibility or VA Letter of Remaining Benefits (LORB)
- Student Schedule/Bill from their Account.

Reserve Officer Training Corps (Military Service Commissioning Opportunities)

Through the University’s Army, Naval and Coast Guard Reserve Officer Training Corp Programs, Savannah State University students can prepare for commissioned service as regular or reserve officers in the Army, Navy, Marine Corps or Coast Guard, commensurate with earning their degree. The Army and Naval ROTC Programs constitute an academic minor in military and naval science, respectively. For further information, contact Army ROTC at (912) 325-4270, or Navy ROTC at (912) 358-3095 or Coast Guard at (912) 447-0832.

International Education Center

The mission of the International Education Center (IEC) at Savannah State University is to promote and support efforts to internationalize the university's curriculum and to expose students to our global society. The IEC provides a clearinghouse for information relative to international educational opportunities and programs for students, faculty and staff. It facilitates and supports faculty and student exchanges, study abroad programs, and research cooperatives with foreign institutions.

The university's International Education Center (IEC) offers students access to study abroad opportunities in several countries. In the past, SSU faculty have hosted short-term study abroad programs to: Brazil, Costa Rica, Egypt, Ghana, Haiti, Nigeria, Liberia, India, China, Trinidad and Tobago, Vietnam and Thailand. As a part of the University System of Georgia’s European Council, students and faculty are welcome to join the conglomerate of state institutions traveling to places like Paris, London, Madrid, Scotland, and Ireland. Students can explore additional travel opportunities with other colleges and universities within the University System of Georgia as transient students.

The IEC also provides services to a growing number of international students from more than 40 countries. Students from around the world come to complete degrees at Savannah State. A number of students will begin their time at the university as a member of our English Language Institute and later transition to regular degree level programs. The center is designed to assist new international students with orientation, advisement, processing paperwork, as well as helping students adapt to cultural differences experienced while living in the United States. Our campus hosts students from a multitude of countries including: Ghana, Nigeria, Burkina Faso, Cameroon, the Democratic Republic of Congo, Ivory Coast, Brazil, The Bahamas, Antigua, United Kingdom, Ukraine, Columbia, Russia, Georgia, Canada, India, Jamaica, South Korea, and China.

In 2014, the International Education Center and the Chinese government launched The Confucius Institute on our campus. This institute promotes Chinese language and culture, allowing Savannah State University to expand these services to the City of Savannah and the region as a whole. Students and faculty have opportunities to travel to China to conduct research and increase their skills in Chinese language. United States business leaders benefit from the institute’s partnerships, utilizing programs designed to teach American industries how to do business with China. The business exchange hosts programs for Chinese investors interested in discovering investment opportunities in Savannah.

On January 28, 2019, Savannah State University went “Global,” as a member of the University System of Georgia’s system-wide consortia study abroad programs known as USG Goes Global! USG Goes Global is an administrative unit of the University System of Georgia (USG) that partners with USG institutions to provide quality, affordable, and impactful faculty-led study abroad experiences open to all USG undergraduate students. USG Goes Global offers an interesting mix of core and special topics courses in international locations, attractive to undergraduates at any stage of their academic career. Additionally, by leveraging the power of the entire university system, USG Goes Global will keep programs affordable, safe and manageable by using innovative technology, existing USG systems and proven study abroad best practices.

Approximately 30 years ago, the USG assisted in the creation of one study abroad program to London via the USG European World Regional Council. Currently the USG European and Asian World Regional Councils actively offer 10 study abroad programs that serve more than 300 USG students each summer. The USG World Regional Councils will continue to exist, as they always have to provide
opportunities for both students and faculty to broaden their understanding of individual world regions by promoting activities that enrich teaching and research about these regions.

With the creation of USG Goes Global, the USG will take-on the administrative burden of running study abroad programs from the World Regional Councils, so that faculty can concentrate more on academic oversight and offering impactful experiences on the ground. Currently USG Goes Global is working to fold in the programs offered by the USG European World Regional Council and by 2020; we plan to incorporate the USG Asia World Regional Council programs. Going forward USG Goes Global plans to offer study abroad programs in all areas represented by the USG World Regional Councils, which include Europe and Asia, as well as Africa, Americas and Middle East.

The USG Goes Global program will utilize the USG created Intra-Georgia Registration Sharing System (INGRESS), a multi-institutional registration system, to facilitate enrollments and provide an electronic classroom for all faculty teaching on USG Goes Global programs. Additionally, in the same manner as other collaborative programs created by the USG, USG Goes Global will pay institutions a competitive rate for faculty teaching on our summer study abroad programs. In doing so, the USG will attract faculty across the entire USG and thereby provide both students and faculty with impactful experiences abroad.

For further information, contact the International Education Center (IEC) at (912) 358-4152.

The English Language Institute (ELI)
The English Language Institute is a program that is a non-credit program offered to international and immigrant student populations. Students who enroll in the English Language Institute take intensive classes in Listening/Speaking, Writing/Grammar, Reading, and Computer-Assisted Language Learning. Voice and Articulation and Cultural Enrichment are infused into the program as well. The Student Learning Outcomes (SLOs) for the ELI are Grammar, Reading, Writing, Listening, and Speaking.

Honors Program
The Savannah State University Honors Program is designed to provide SSU’s exceptional and high-achieving students with innovative honors courses and enriching co-curricular activities as they embark on the path to becoming global leaders.

Honors at SSU provides for expansive collaborations between faculty and students who engage in service-learning activities within local, national, and global communities. The program supports and motivates students in the pursuit of their academic and professional goals such as study abroad /study away, international internships, research and service learning projects. Upon acceptance into the Honors Program students enjoy the following benefits:

- Residence among honors peers in Camille-Hubert Hall, a living-learning community.
- Program courses such as Honors Seminar, Honors designation and Honors Enhanced Opportunities.
- Program coordinators to refine academic plans and research agendas.
- Mentoring amongst the network of SSU’s globally, renowned alumni.
- Engaged service-learning projects laden with intrinsic value.
- Access to internships as well as study away and study abroad opportunities.

Located in Gardner Hall, the Honors Program at SSU is nurtured in an intellectually creative atmosphere for inquisitive and highly motivated scholars, who intend to extend their educational experiences beyond the scope of the traditional undergraduate curriculum.

Honors Program Scholarship Recipient Guidelines
The Honors Program Scholarship is a renewable, yearly commitment determined by the student’s ability to maintain a 3.4 grade point average (G.P.A.). Renewal of the scholarship is subject to the availability of funds. Scholarship allocations support tuition, room, board, books, and other mandatory on-campus fees. Scholarship allocation is dispersed equally among the fall and spring semesters. Allotments to student accounts occur after all other aid (i.e. Pell Grant, Hope Scholarship, etc.). The Honors Program scholarship is non-refundable.

Scholar Expectations
Students accepted into the SSU Honors Program are required to continuously matriculate while abiding by the policies of the Office of Financial Aid and its eligibility requirements (i.e. completing FAFSA paperwork by). Honors Program scholars are expected to graduate from Savannah State University within four years as socially conscious, global citizens, representing the SSU community while consistently displaying good character. A participant will be dismissed from the program for violating of the policies of the University System of Georgia and the Board of Regents, or those specified in the Savannah State University Student Code of Conduct (see Savannah State University’s Student Handbook and Code of Student Rights, Responsibility and Ethics).
Core Curriculum

All students, regardless of major, must complete the University’s core curriculum (Areas A – E). The core curriculum consists of sets of specific courses drawn from across the University’s curriculum, which are usually completed prior to undertaking major field preparation. All students should complete the forty-two or forty-three (42-43) hours of core curriculum requirements during the first two years and prior to enrollment in their major classes. Area F (courses appropriate to the program of study) consists of 17-18 hours.

A grade of “C” or better is required in Core Area A and major requirements. In addition, students in a College of Science and Technology major must also earn a grade of “C” or better in Core Area D. A grade of “D” is considered passing in all other core areas unless specified by a specific major. Students must earn an overall institutional GPA of 2.0 to graduate.

*A grade of “C” or better is required*
State Legislative Requirement in History and Government
By State law, students who receive a diploma or certificate from a school supported by the State of Georgia must demonstrate proficiency in United States history and government and in Georgia history and government. Students at Savannah State University may demonstrate such proficiency by receiving credit in certain courses: United States and Georgia government POLS 1101 for United States and Georgia government; HIST 2111 or 2112 for United State and Georgia history.

Major Curriculum
In addition to the required core curriculum, which is usually completed in the first two years of college attendance, students will select a major field of study that focuses attention during the second two years of study. Area F of the core curriculum (courses appropriate to the field of study) provides a foundation for the major field of study and should be completed prior to students' undertaking major courses. Plans and requirements for the various major programs are detailed in the sections of this catalog, which describe the University's three colleges.

Minor Curriculum
While students are all required to complete the core and a major curriculum, completing a minor program is an additional option. A minor consists of a set of 15-17 credit hours in a specific field of study. Some major programs require students to complete formal minor programs while others do not. Formal minor programs are established in a variety of fields. Requirements are listed in this catalog along with the departments sponsoring them. Informal minors may be developed by acquiring any set of 18 credit hours of upper-division course work in any field for which such work is offered. Students often find that completing a minor curriculum is a valuable professional asset for use in the highly competitive world following graduation.

SSU Core Curriculum Learning Outcomes (CCLOs)
Area A1: Communication Outcomes
Students produce well-organized written communication that meets conventional standards of composition and appropriately acknowledges the use of material from original sources.
Students demonstrate the ability to comprehend, analyze, and draw inferences from written texts.
Area A2: Quantitative Outcomes
Students demonstrate the ability to use mathematical information and concepts in verbal, numeric, graphical, and symbolic forms to solve problems.
Area B: Institutional Options
Students analyze and evaluate elements of arguments and create effective, well-reasoned responses, considering opposing views when appropriate.
Students analyze historical and cultural events that have shaped the Africana experience within the context of US and global history and culture.
Area C: Humanities and Fine Arts
Students effectively analyze the meaning and cultural significance of literary/philosophical texts or of works in the visual/performing arts.
Area D: Science and Technology
Students demonstrate a collegiate-level understanding of the nature of science and the scientific method and knowledge of fundamental concepts in one or more fields of science.
Area E: Social Sciences
Students critically analyze historical, economic, political, social, spatial, or psychological processes and how they contribute to the human experience.
Area I: US Perspectives
Students demonstrate collegiate-level knowledge and understanding of the history, culture, and politics of the United States.
Area II: Global Perspectives
Students demonstrate knowledge of political, social, economic, linguistic, or institutional developments and human diversity in global cultures.
Area III: Critical Thinking
Students analyze and evaluate elements of arguments and create effective, well-reasoned responses, considering opposing views when appropriate.

Bachelor of Science in Education in Engineering Technology Education (BSED)
Bachelor of Science in Education in Middle Grades Education (BSED)
The emphasis on the liberal arts is most significant during the freshman and sophomore years. Building on the liberal arts foundation, students are exposed to the functional areas of business and business tools to develop a clear understanding of how organizations work. Major areas of study provide students with the opportunity for in depth study in the selected major.

The College of Business Administration offers programs of study leading to the Bachelor of Business Administration degree (B.B.A.) with majors in Accounting, Computer Information Systems, Global Logistics and International Business, Management, and Marketing. The College also offers an online BBA in Management where students can complete all the junior and senior level requirements completely online. Additionally, the College of Business Administration offers a Master’s Degree in Business Administration (MBA).

Vision Statement
Building on the rich history of Savannah State University, the College of Business Administration will be a premier, student-centered college in our region, where students can maximize their options and fulfill their potential in an environment that embraces diversity. The College will create an efficient, service oriented culture that is responsive to the needs of students, faculty, staff, alumni and the community.

Mission Statement
The College of Business Administration contributes to its community through excellence in teaching, scholarship, and professional engagement. Faculty and students are involved in intellectual contributions and professional engagement that impact business practices and management education. In an environment that embraces diversity and accountability and fosters integrity and respect, the college provides high quality business programs at the undergraduate and graduate levels that prepare students for successful careers.

Guiding Values
The following "Guiding Values" were formulated as part of COBA's strategic planning process and adopted by COBA faculty members:

- **Integrity** We believe that students' academic performance rises with high faculty expectations and mentoring.
- **Diversity** We believe that the college's increasingly diverse learning environment is beneficial to the future of our students.
- **Accountability** We believe that applied experiences enhance student responsibility and personal growth.
- **Respect** We believe that integration and reinforcement of ethical and leadership values are essential throughout the students' COBA-experience.
- **Excellence** We believe that mastery of business, communication, and interpersonal skills is critical to developing professional and successful students.

Accreditation
The College of Business Administration is accredited by AACSB International, the Association to Advance Collegiate Schools of Business. AACSB International accreditation represents the highest standard of achievement for business schools worldwide.

Academic Regulations
- At least 25% - or 30 semester hours, excluding institutional Additional Requirements - must be taken in residence in order for a student to earn a (B.B.A.) degree from Savannah State.
- To graduate, business majors must complete, with a grade of "C" or better in each of the following courses: ENGL 1101, ENGL 1102, MATH 1111, the prerequisite foundation course(s) for their major, BUSA 4126, and all courses in the students’ designated Major.
- Class Restriction: students must be Juniors (60+ earned hours) to enroll in upper division business courses as well as satisfying any course-specific prerequisites.
- “42-hour rule" - Business students may enroll in upper division business classes, provided all course-specific prerequisites have been satisfied, if they have 1) a minimum of 42 earned hours and 2) have completed the business Area F. Students meeting these requirements should contact COBA Student Services for registration of the upper division courses.

Transfer Students
The Dean of the College of Business Administration determines eligibility for transfer of credit for business course work, which will apply toward business degrees. Business courses taken at University System of Georgia universities and senior colleges with AACSB accreditation will transfer if the prerequisites at Savannah State have been satisfied.
Business courses completed at the lower division level at other institutions will not be awarded transfer credit if these courses are offered at the junior and senior levels at Savannah State University.

**Transient Students**
Business students may take courses as a transient student at another college/university. COBA Student Services works with students to make sure they are enrolling in an eligible school and taking the correct courses. Students may transfer up to 3 classes in the major area of specialization.

Transient Letters should be submitted to Savannah State University’s Registrar office no less than 3 weeks prior to the Admissions deadline of the transient school. Forms are submitted online.

**Program of Study - Bachelor of Business Administration**
Notes: All major area of specialization courses must have a minimum grade of C. A grade of D is allowable in Areas F and G for non-major area courses. Students must earn an overall and institutional GPA of 2.0 to graduate.

**Areas A, B, C, D, E, and additional requirements**  **42 hrs**

- MGNT 3196 Entrep and Small Business Mngt 3 hrs*
- MGNT 3300 Organizational Behavior and Theory 3 hrs*
- MGNT 4110 Leadership in Organization 3 hrs*
- MGNT 4168 International Business Management 3 hrs*

### Marketing Minor (Non-Business Majors) 15 hrs

**Required:**
- BUSA 2106 The Environment of Business 3 hrs*
- MGNT 3175 Principles of Marketing 3 hrs*

**Electives: (Choose three)**
- MKTG 3176 Professional Selling 3 hrs*
- MKTG 3178 Consumer Behavior 3 hrs*
- MKTG 3186 Sales Management 3 hrs*
- MKTG 4175 Advertising and Promotion 3 hrs*
Data Analytics Certificate

Data Analytics is an interdisciplinary program funded by National Science Foundation. A joint effort between the three colleges of Savannah State University (SSU): College of Business Administration (COBA), College of Sciences and Technology (COST), and College of Liberal Arts and Social Sciences (CLASS), will develop a Targeted Infusion Project in Interdisciplinary Data Analytics (TIP-IDA), and implement an undergraduate certificate program. IDA certificate will focus on educating SSU students, non-SSU students, and the local community in STEM disciplines. This certificate program will also focus on improving the methodological, technical, mathematical, statistical, software and discipline-based research in the area of Data Analytics. The DATA certificate program will be open to both STEM and non-STEM majors. The long-term goal of SSU is to harness the success of this certificate program to ultimately move forward developing a master’s degree program in DATA. Additionally, the role of TIP-IDA is to prepare students in data analytics methodologies and tools in their respective disciplines, conduct meaningful research, formulate managerial insights, and make decisions to help meet the changing landscape of 21st century big data.

Data Analytic Certificate 18 hrs

**Required:**

* CISM/DATA 3109 Intro to Data Analytics and Mining 3 hrs
* CISM/DATA 3111 Applied Statistics for Data Science 3 hrs

**Select any four (4) Electives** 12 hrs

College of Liberal Arts and Social Sciences

The College of Liberal Arts and Social Sciences (CLASS) comprises six departments—Fine Arts, Humanities, and Wellness; English Languages, and Cultures; Journalism and Mass Communications; Political Science and Public Affairs; Social and Behavioral Sciences and Social Work. The College offers majors in English, Journalism and Mass Communications, Behavior Analysis, History, Criminal Justice, Social Work, Sociology, Homeland Security and Emergency Management, Political Science, Africana Studies, and Visual and Performing Arts.

The following areas of concentration are offered: Religious and Philosophical Studies, World Languages, Journalism, Public Relations and Strategic Communication, Multimedia & Digital Communication, Applied Forensic Analysis, Pre-Law, Public Administration, and International and Comparative Politics. The College also offers three Master's degree programs, the Master of Public Administration, the Master of Social Work, and the Master of Science in Urban Studies and Planning.

The College of Liberal Arts and Social Sciences is committed to the mission of Savannah State University. The College strives to assure an academic milieu that fosters excellent teaching, scholarly activities, service to students and meaningful community outreach. The College recognizes its rich cultural history as central to the ethos of the University.

The goals of the College of Liberal Arts and Social Sciences are as follows:

• To promote the belief that demography is not destiny: all students have a potential to graduate, and all students should be held to a high level of expectation;
• To provide students with a body of knowledge in the humanities, social sciences, arts, and wellness that empowers critical, visionary scholarship;
• To promote an inclusive environment that encourages students to develop intellectually, physically, ethically, emotionally and aesthetically;
• To provide an overarching culture that supports and nurtures students through relationships cultivated between faculty and students; To provide learning experiences that promote critical and analytical thinking and effective communications skills;
• To promote applied research and creative and scholarly activity among faculty and students.

• To serve as an educational resource for cultural enrichment and economic growth throughout southeast Georgia; To foster cultural diversity;
• To emphasize tradition of African-American and African culture and serve as a repository of knowledge about African-American experience; and
• To promote a desire for learning, a concern for humanity, human rights and the ideals of equality, citizenship and social justice.

Academic Counseling

Students in the College of Liberal Arts and Social Sciences are assigned a professional academic advisor from the Center of Academic Student Success, as well as a faculty mentor within their major department. Since the advisement process is essential to ensure all prerequisites have been successfully completed prior to enrollment in a particular course; students must consult with both their advisor and faculty mentor before registering. Students should also work with their faculty mentor to develop a plan of academic progress for their major. In addition, students should alert their advisors immediately when they deviate from their approved academic plan.

Transient Students

Students enrolled at Savannah State University in CLASS who would like to be a Transient Student at another college/university for a given semester should follow these instructions:

Select the course(s) you would like to take at the college/university; using the course descriptions from both institutions, make sure the course(s) are comparable to a course(s) here at SSU.

Make a copy of the catalog course description from the other college/university and from Savannah State University.

If the course falls under the College of Business Administration (COBA) or the College of Science and Technology (COST), please have the appropriate department sign off on the course description page to certify that the course is an appropriate transfer course.

Bring the completed Transient Form, catalog descriptions and other supporting documentation to your academic advisor and department chair. Submit the application with signatures for processing to the Dean’s Office. (Allow five business days for processing). All forms turned in after the posted deadlines will be subject to a longer processing time regardless of the deadline for the institution for which you are applying for transient status.

Associate of Arts, Core Curriculum

The College of Liberal Arts and Social Sciences also offers the degree Associate of Arts, Core Curriculum. The Associate of Arts (AA) degree in Core Curriculum is a 60 semester-hour degree program that is comprised of 42 semester hours in Areas A-E of the general education core curriculum, and 18 semester hours of course work at the 1000 and 2000 levels. The degree is a stand-alone academic credential, or it can be part of a baccalaureate degree program. Students seeking baccalaureate degrees may opt to take courses in Area F of the selected baccalaureate degree program to satisfy the 18 semester hours required to complete the AA degree program.

### Area F - Electives  

**Select 18 hours of general electives at the 1000 or 2000 level**

**TOTAL 60 hours**

*A grade of “C” or better required*
Department of English, Languages, and Cultures

**Mission**
The Department of English, Languages, and Cultures offers a multidisciplinary, student-centered approach to learning that enriches the whole person and the larger community. Through programs in writing, literature, and global languages and cultures, the department provides the strong foundation of a liberal arts education rooted in the Africana traditions. The department engages learners in a high level of scholarly and creative work, develops critical and creative thinking and communication skills, and fosters a desire for life-long learning, self-efficacy, and civic involvement.

**Departmental Description**
The Department of English, Languages, and Cultures includes the programs of First-Year Writing English Language and Literature, and World Languages. These programs provide a variety of course offerings in literature, writing, and World languages (Arabic, Chinese, French, and Spanish). The department offers courses leading to a baccalaureate degree (B.A.) in English Language and Literature; in addition, it contributes significantly to the interdisciplinary program of Africana Studies. A minor in English language and literature is available, as well as areas of concentration (15 credit hours) in French and Spanish. The department serves a crucial need of the University by offering courses to satisfy the core curriculum requirements in Area A-Essential Skills and Area C-Humanities/Fine Arts.

The department contributes to a liberal arts education through which students develop competence in communication skills, including reading, writing, speaking, listening, analysis, and critical thinking; become familiar with one or more world languages; explore the interdisciplinary approach in Africana Studies; and prepare for careers in a variety of areas requiring communication and critical thinking skills, or for graduate study in language and literature as well as pre-professional areas such as law, library science, medicine, and education.

**First-Year Writing**
Entering freshmen who meet the requirements of regular admission are placed in ENGL 1101. Applicants who do not meet the requirements for regular admission may be placed in ENGL 1101 with a co-requisite ENGL 0999.

As Area A “Essential Skills” requirements in the Core Curriculum, ENGL 1101 and 1102 require passing grades of “C” or higher. Completion of ENGL 1102 is a prerequisite for 2000-level literature courses.

**Advanced Placement and Credit by Examination**
Students who earned the grade of 3 or above on the Advanced Placement Test or 50 on the Freshman English CLEP may be exempted from ENGL 1101 with credit. Students who receive a 3 or above in French, Spanish, Arabic or Chinese on the Advanced Placement Test may be exempted from the first course in language (1001) with credit.

Students who have taken the International Baccalaureate examination or CLEP examination in Spanish or French and have had scores reported to Savannah State University should consult the appropriate test score credit policies to determine whether they should enroll the 1001, 1002, or 2001 level of the course.

**English Language and Literature Major**
Students majoring in English language and literature will complete at least thirty-nine semester hours in language, writing, and literature, beyond Area F requirements. English courses taken in the core curriculum Areas A, B, C, and F may not be counted as a part of the thirty-nine hours required for the major.

As sophomores, students should prepare to major in English by taking ENGL 2105, which is a prerequisite to all literature courses on the 3000 or 4000 level. For English majors entering the program in fall 2019 or later, other courses required in area F include survey courses in British, American, and African American literature designed for English majors (ENGL 2120, 2130, and 2220), and one language course on the intermediate level (2001). Other requirements are shown in the grid below. Students who started the program prior to fall 2019 should consult the appropriate catalog or their advisor for program requirements.

**Academic Requirements**
Senior English majors must take the departmental exit examination. Students enrolled in the English degree program will be assigned an academic advisor by the chair of the department. Students must be advised by their professional advisor and must consult with their faculty mentor prior to registering each semester.

Students must earn a minimum grade of “C” in all prerequisite courses prior to registering for an upper level course. Students must earn a minimum grade of “C” in all major courses and all courses listed under Area F.
Note: English majors may choose a formal minor in another area as listed in the SSU Catalog OR complete 15 hours of coursework of their choosing. At least nine (9) of those hours must be at the 3000 or 4000 level.

Program of Study – Bachelor of Arts in English Language and Literature

Areas A, B, C, D, E, and additional requirements 42 hrs

ENGL 4418 Fiction Writing Seminar
ENGL 4611 Practical Workshop in Small Press Production

*ENGL Major Electives 12 hrs
Any four 3000/4000-level courses not required elsewhere

*Minor or Additional Coursework 15 hrs
(At least 9 hrs at or above 3000-level)

*Open Electives 6 hrs

TOTAL 120 hours

*A grade of “C” or better required
**Minor in English Language and Literature**
A minor in English consists of fifteen hours in English courses beyond those used to fulfill Area A, C, F or other requirements. Courses required for the minor are either ENGL 2104 or 2105, one course in African American literature, and three other ENGL courses not counted as a core course or elsewhere on the student’s grid. At least nine of the fifteen hours must be on the 3000- or 4000-level.

**Area of Concentration in French or Spanish**
The aims of the French and Spanish areas of concentration are (1) to develop the ability to communicate in a world language; (2) instill respect for other people and other cultures; (3) to develop an appreciation for the artistic expressions which are found in other languages, and (4) to bring about a greater awareness of our cultural heritage. The French or Spanish concentration consists of the second intermediate course (2002) in the language and twelve additional hours at the 3000 or 4000 level.

Students should begin language study at a level appropriate for their previous preparation. Students should take note of the language requirements in their majors since some majors do not permit credit for 1001 or 1002 except as open electives.

**Department of Humanities, Fine Arts, and Wellness**

**Mission**
The Department of Fine Arts, Humanities, and Wellness offers an interdisciplinary curriculum that focuses on the holistic development and growth of the conscientious learner. By fostering creative expression and performance, critical thinking and communication, philosophical reflection, ethical responsibility, and practices of healthful living, our department facilitates learning environments that prepare students for an authentic application of artistic, civic-minded, and career-oriented skills.

**Visual and Performing Arts Program**
The Department of Fine Arts, Humanities, and Wellness offers courses leading to the (Bachelor of Fine Arts) in the Visual and Performing Arts. The Visual and Performing Arts program also delivers fine arts courses as fulfillment of core requirements, as electives, and as advanced courses leading to a minor (15 credit hours) in Visual and Performing Arts. Students of all disciplines collaborate on productions and other related projects throughout the year threading connections throughout the arts. The program also provides opportunities for student engagement in the Visual and Performing Arts through recitals, concerts, theatrical and dance productions, visual art exhibitions, festivals, open studios, visiting artists, community outreach, study abroad, public/private partnerships, internships, conferences and guest lectures.

The Visual and Performing Arts program provides a comprehensive interdisciplinary curriculum in music, theatre, dance, and visual arts. The program utilizes individualized instruction to develop aesthetic and technical competency, a global perspective on the arts and an appreciation of diverse modes of expression. Building on the robust artistic culture of the community and region, the program encourages collaboration, creating opportunities for students to exhibit their creative skills and to explore varied careers in the visual and performing arts.

Music education is part of the Visual and Performing Arts degree program offered in collaboration with the Department of Teacher Education. Music Education (P-12) which is accredited by the Georgia Professional Standards Commission (GaPSC) PSC accredited to offer three concentrations in music education in order to prepare students for KGeorgia -12 music teacher certification in grades P-12. Concentration choices in Music Education include: Instrumental, Piano, and Voice. Students must apply for admission to the Teacher Preparation Program to become teacher candidates and should refer to the College of Education section of this catalog for admission and other certification requirements as mandated by the GaPSC.

By the time they complete 12 credit hours within their respective concentration area, students must fulfill the requirements below in order to be fully admitted to the BFA program:

**Visual Arts**
Portfolio submitted, reviewed & awarded a score of at least 75%; Evidence of previous related experience; two letters of recommendation

**Music**
Audition completed & awarded a score of at least 75%; Evidence of previous related experience; two letters of recommendation

**Theatre and Dance**
Audition completed and awarded a score of at least 75%; Evidence of previous related experience; two letters of recommendation

**Program Requirements and Expectations**
Auditions and portfolio reviews will be held in the fall and spring semesters. Students should meet with their advisors to review the expectations and evaluation criteria for their individual discipline prior to the audition or portfolio submission. Students are also strongly encouraged to take FINE 2104 – Portfolio and Career Marketing, prior to audition.
Visual and Performing Arts majors will participate in a variety of activities and events in and out of the classroom as part of the BFA program experience. Students are expected to spend additional hours outside of class requirements honing their skills through practice studio work. Throughout their matriculation, students will receive verbal, written, and peer critiques of their work. As appropriate to their area of concentration, students are required to participate in program-sponsored music ensembles, theatre and dance productions, and art exhibitions. As part of their capstone experience, seniors in the Visual and Performing Arts program are required to organize and present their work in the form of a senior thesis exhibition (Visual Art), recital (Music) or production (Theatre and Dance). In order to be approved for graduation, all Visual and Performing Arts majors must also score at least 80% on their BFA thesis defense and paper. Graduating seniors must also undergo an exit interview with the department chair.

Humanities

All Savannah State Students are required to satisfactorily complete HUMN 1201, Critical Thinking and Communication, as a prerequisite for graduation. Additionally, the general education curriculum Area C includes: HUMN 2011, Humanities; PHIL 2010, Introduction to Philosophy; and PHIL 2030, Ethics.

Religious and Philosophical Studies courses are designed to provide students with a broad humanistic background in religion and philosophy and to offer students expanded opportunities to pursue liberal studies. An area of concentration can be earned by completing 15 credit hours in PHIL and RELS courses, including PHIL 2010.

Health Education

Health Education provides wellness-based elective courses for all students and seeks to develop students' intellectual competency regarding lifestyle habits and issues that affect health, quality of life, and well-being as a lifetime process.

Visual Arts Studio Emphasis 21 hrs
Choose four (4) art studio courses (One course must be 2D concept; one must be 3D concept):
ARTS 3101, 3201, 3301, 3401, 3512, 3601, 3701,
THEA 2601, 3004, 3125,
FINE 4900-4909 12 hrs

Choose three upper division studio courses
ARTS 3012, 3122, 3211, 3311, 3411, 3611, 3711, or
Special Topics 9 hrs

Senior Capstone 9 hrs
ARTS 4900 Issues in Studio Arts 3 hrs
FINE 3999 Internship 3 hrs
FINE 4999 Senior Thesis 3 hrs

General Electives 6 hrs
TOTAL 120 hours

Program of Study –
Bachelor of Fine Arts - Theater Concentration
Areas A, B, C, D, E, and additional requirements 42 hrs

Area F 18 hrs
CLAS 1103 First Year Experience 2 hrs
FINE 1101 FYE Arts Practices 1 hr
FINE 2104 Portfolio Career Marketing 3 hrs
FINE 2909 Arts Administration 3 hrs
FINE 2999 Legal Aspects of the Arts 3 hrs

Foreign Language Sequence 6 hrs
Foreign Language I 3 hrs
Foreign Language II 3 hrs

Visual Arts Major Required Courses 18 hrs
DNCE 1501 Dance Fundamentals 3 hrs
THEA 2601 Stagecraft 3 hrs
THEA 3122 Movement I 3 hrs
THEA 3123 Movement II 3 hrs
THEA 3125 Stage Makeup & Costume 3 hrs

Choose one Theater History Course not required elsewhere:
THEA 4051, 4055, 4056, 4058; FINE 4909 3 hrs

Theatre Emphasis 27 hrs
THEA 3101 Acting I 3 hrs
THEA 4101 Acting II 3 hrs
THEA 4055 Theatre History I 3 hrs
THEA 4056 Theatre History II 3 hrs
THEA 4201 Directing 3 hrs

Choose four (4) additional Theater courses:
THEA 2525, 3004, 4103, 4104, 4105;
SPEH 2101, 2111, MUSC 4645,
FINE 4900-4909 12 hrs

Senior Capstone 9 hrs
THEA 4111 Performance, Production and Management 3 hrs

Department of Journalism and Mass Communication
The Department of Journalism and Mass Communications prepares students for careers in all areas of mass communications. Designated by the university as a “Center of Excellence,” the department strives to provide a liberal arts preparation that incorporates literature, art, film, philosophy, African American studies, music, and history. The department’s curriculum enables students to excel and to compete in the media industry.

Objectives
• To offer students state-of-the-art equipment and instruction in print and online journalism, broadcast, and public relations/advertising to prepare them for jobs in professional media and many other fields.
• To aid students in developing critical thinking/analytical skills, writing skills, computer/software usage skills in print, on the Web for broadcasting, and public relations/advertising.
• To orient students to the importance of minority contributions to the areas studied in mass communications to enhance their global view of the world.
• To assist students in developing a broad interdisciplinary liberal arts perspective inclusive of literature, art, film, philosophy, African American studies, languages, music, and history.
• To involve students in applied experiences in the program to enhance their employability in a modern workforce.
• To prepare students for graduate study in mass communications, film, and other areas of endeavor.

Accreditation
In addition to the University of Georgia, Savannah State University’s Department of Journalism and Mass Communications is one of only two programs in the State of Georgia that accredited by the Accrediting Council on Education in Journalism and Mass Communication (www.ACEJMC.org). The department has been accredited since 2007. ACEJMC requires that irrespective of their particular specialization, all graduates should be aware of certain core values and competencies. The following competencies are specific to departmental course offerings:
• Understand and apply the principles and laws of freedom of speech and press, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;
• Demonstrate an understanding of the history and role of professionals and institutions in shaping communications;
• Demonstrate an understanding of the diversity of groups in a global society in relationship to communications;
• Understand concepts and apply theories in the use and presentation of images and information;
• Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness, and diversity;
• Think critically, creatively, and independently;
• Conduct research and evaluate information by methods appropriate to the communications professions in which they work;
• Write correctly and clearly in forms and styles appropriate for the communications professions, audiences, and purposes they serve;
• Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style, and grammatical correctness;
• Apply basic numerical and statistical concepts;
• Apply tools and technologies appropriate for the communications professions in which they work.

Academic Requirements for the Baccalaureate Degree in Journalism and Mass Communications
Students enrolled in the mass communications degree program will be assigned an academic advisor in the department. Students are required to be counseled by an advisor prior to registering for a course. Students must earn a minimum grade of "C" in all prerequisite courses prior to registering for an upper level course. Students must earn a minimum grade of "C" in all major courses and all courses that are appropriate to the major. Generally, the courses appropriate to the major are listed under Area F courses. Senior mass communications majors must take the departmental exit examination and submit the senior portfolio.

Department of Social and Behavioral Sciences
The Department of Social and Behavioral Sciences is one of the most academically diverse units of the University. The Department offers Bachelor of Arts degrees in African Studies and History, and Bachelor of Science degrees in Behavior Analysis, Criminal Justice, and Sociology. These programs prepare students for graduate studies and career goals. Students will receive specialized training and gain exposure to multidisciplinary activities designed to help them develop historical consciousness, awareness of civic responsibilities, appreciation of cultural diversity, understanding of both human and nonhuman animal behavior, and interpersonal relationships.

Africana Studies
The Africana Studies Program is a multidisciplinary field of inquiry committed to preserving African and African American culture. Established in 1997 at Georgia's first public Historically Black University, it is the premier degree-granting program of Black Studies in the city of Savannah. Africana Studies graduates find employment in schools, museums, libraries, archives, and agencies that address issues related to the experiences of Africans and African Americans. The Program also prepares students to pursue graduate studies in Black Studies, history, psychology, sociology, anthropology, political science, law, and related fields.

Behavior Analysis
The Behavior Analysis Program at SSU is unique in the nation for its undergraduate degree offering. Graduates can begin a career helping people live better lives or pursue graduate studies in behavior analysis, psychology, and related fields. Students will learn the fundamental principles of behavior and the science of behavior change in a context of ethical responsibility. The Association for Behavior Analysis International has verified the following courses (BEHV 3103, BEHV 3104, BEHV 3105, BEHV 3117, and BEHV 3740) toward the coursework requirements for eligibility to take the Board Certified Assistant Behavior Analyst Examination®. Applicants will have to meet additional requirements to qualify.

Criminal Justice
The Criminal Justice Program is one of the most popular majors at SSU with a large student enrollment. The Program provides an understanding of how the justice system functions and an exploration of scholarship related to crime and the administration of justice. Students are trained with analytical, critical thinking, writing and technology skills. Criminal Justice majors are employed in law enforcement, public safety and related positions, or pursue graduate law degrees. A fully-online option is available.

History
The History Program offers courses in American, African-American, African, Asian, European and Latin American history. Rigorous courses and internships led by experts in the field prepare students for graduate school and careers as teachers, museum professionals, researchers, documentary filmmakers, journalists, and beyond. Program graduates demonstrate literacy in the content and uses of historical information, as well as gain critical thinking and writing skills, and knowledge of academic conventions in research papers.

Sociology
The Sociology Program provides students with an opportunity to study social life, including the causes and consequences of human behavior. The Program focuses on training students in research methods, statistics, theory, demography, and observation within our social environment. The goal is to prepare students for graduate school or employment in a wide range of occupations in the public and private sector, such as social research, education, the health professions, business, social service, data processing and numerous other potential fields of interest. The study of sociology is also a popular undergraduate major for students planning further study in professions such as law, business, education, social work, public administration, and urban and regional study.

- Choose one (1) of the following four (4) courses:
  - **HIST 1111** World History to Early Modern Times 3 hrs
  - **HIST 1112** World History from Early Modern Times - 3 hrs
  - **HIST 2111** US History to the Post Civil War Period 3 hrs
  - **HIST 2112** US History from Post Civil War – pres 3 hrs
- One course from Category I, II, and III of the Hist Major 9 hrs
- One course from Major requirements 3 hrs
- *A grade of “C” or better is required*

#### Sociology Minor 15 hrs
- Choose one (1) of the following two (2) courses:
  - **SOCI 1101** Introduction to Sociology 3 hrs
  - **SOCI 1160** Social Problems 3 hrs
- **SOCI 3201** Classical Theory 3 hrs
- **SOCI 4312** Contemporary Theory 3 hrs
- Two 3000 level courses (except SOCI 3901 or 4901) 6 hrs
- One 4000 level course 3 hrs
- *A grade of “C” or better is required*
Department of Social Work

Mission Statement
The mission of the Bachelor of Social Work Program at Savannah State University is to prepare students for generalist practice. The program promotes student focused learning, affirms the African American legacy and fosters a unique multicultural environment through its curriculum and advocacy roles in community change. Graduates of the program are culturally competent to practice social work in rural, urban and global settings.

Bachelor of Social Work Program
The Bachelor of Social Work (BSW) degree is a carefully articulated program that provides a generalist academic and experiential foundation for students seeking a career in the varied and expanding profession of social work. The Council on Social Work Education accredits the BSW program. The major requires a selective liberal arts base of knowledge from social, behavioral, and natural sciences (e.g. psychology, sociology, biology) together with group social work skills, values, and methodologies of intervention at the individual, family, group, institution, and community levels. BSW graduates are educated to respond in an informed way to identifiable social work needs in a variety of settings, including rural, urban, and international. The social work major is structured around four interrelated components: theoretical foundations/intervention strategies; client population/cultural diversity; research/evaluation; and skills development/fieldwork. Students admitted to the major are expected to maintain academic excellence and demonstrate professional and ethical behavior as reflected in the BSW Handbook. Students must maintain a minimum GPA of 2.5 and above in all social work courses after formal admission to the social work program.

BSW Admission Requirements
The BSW program at Savannah State University is a professional program, which requires a formal admissions process. Therefore, students considering admission into the BSW program must submit an application packet. Prior to seeking admission into the BSW program, students must have completed or be currently enrolled in the gateway courses SOWK 3505. Additionally, the student must have completed 60 hours of Core Curriculum courses. Applicants must have a minimum overall GPA 2.3. Students must have earned a grade of C or higher in SOWK 3305 (Social Work Practice). All students considered for admission are expected to demonstrate professional behavior and scholastic performance. Items to be submitted for review:

1. Completion of the BSW Application Packet (Must be typed)
2. Unofficial transcript
3. Letters of reference:
   • One (1) Letter of Reference from an SSU Professor or Instructor from a previous college
   • One (1) Professional Letter of Reference (Employer, Supervisor,)
   • All letters of reference should be addressed to the BSW Screening Committee

*note: a personal interview may be requested by the BSW Screening Committee
Applications must be submitted no later than April 24, 2020 for Fall admission

Students interested in declaring social work as a major are required to complete the Application for Admission to the BSW Program.

Academic credit for life or previous work experience is not considered in completely or in part in lieu of admission requirements or in lieu of social work courses including field practicum requirements (CSWE Accreditation Standard 5.2, 2004).

Transfer Students
The BSW Program at Savannah State University is a professional program dedicated to preparing beginning level generalist social work professionals for social work practice in any human service setting and with any population level in the society in which they live. BSW students attain a beginning level of generalist practice proficiency, which enables them, with instruction and experiential learning, to provide direct service to clients, including the organization and provisions of resources on behalf of clients. Students may declare social work as their major as freshmen or when transferring from another college. Though freshmen and sophomores may declare social work as their major, the social work program actually begins in the junior year. A formal application process for admission to the major is required and must be processed by the BSW admissions committee. Transfer students must first apply for admission to the University.

The SSU Registrar’s Office provides preliminary evaluation of transfer credit in the core curriculum. The BSW program evaluates and provides final approval for all transfer credits in the social work curriculum. The Department of Social Work makes decisions about transfer of credit toward requirements specifically for the social work major. Students who wish to transfer other social work courses from other CSWE accredited programs must submit a copy of the course syllabus for each course being considered for transfer. The BSW Program Coordinator and faculty to determine whether there is a comparable course in the BSW Program for which credit may be given review the course syllabus. Non-equivalent social work courses from CSWE-accredited programs may be transferred as social work electives.

Students who wish to transfer other social work courses from non-CSWE accredited programs must submit a copy of the course syllabus for each course being considered for transfer. The BSW Program Coordinator and faculty to determine whether the course meets the
BSW program standards for transfer review the course syllabus. Only social work courses completed within the last ten years of readmission or transfer to Savannah State University will apply toward the BSW degree requirements.

Requirements for Admission to Field Practicum (SOWK 4701 & 4702 and 4901 & 4902)
To be eligible for admissions to Field Practicum, students must earn a minimum GPA of 2.5 and above in all Social Work courses after formal admission to the social work program. Students must also satisfy the standards for social work education as stated in the BSW Student Handbook. Field placements are during weekday and daytime hours. Students must adjust their personal schedules to meet the demands of field practicum. Students who are denied admission to field practicum must select another major. Students who fail field practicum a second time will be dismissed from the social work program and must select another major.

Requirements for Graduation
In addition to completing 42 hours of Savannah State University's core curriculum requirements (Areas A, B, C, D*, E, and additional requirements), 18 hours in Area F (courses appropriate to the program of study); and 60 hours of social work major (SOWK) courses.

*Social Work majors must complete BIOL 1104 (Human Biology) and BIOL 1104 Lab in Area D. Social Work majors must complete 400 clock hours of field practicum (during their senior year) at an approved field agency.

- Minimum grade of "C" is required for Areas A, F and all Social Work Major Courses
- Must make take SOWK 2200 Human Needs and Human Services and SOWK 3305 Intro to Social Work Practice before applying to Social Work Program
- Maintain a minimum GPA of 2.5 in the social work program, after formal admission
- Must have a minimum of 2.5 in the social work courses to be accepted into Field Education.
- Minimum GPA of 2.3 for admission to the Bachelor of Social Work Degree Program
- Students are required to take at least 3 social work electives and may take 2 general electives of their choice from any department
- Please note that it is your responsibility to ensure that all courses taken reflect the expectations of the BSW course grid in the catalog year of your admission to SSU. It is important to bring your BSW Grid anytime you meet with your advisor.
- Social work majors must complete BIOL 1104 (Human Biology) and BIOL 1104L in Area D
Program of Study –  
Bachelor of Social Work

Areas A, B, C, D, E, and additional requirements  42 hrs

Department of Political Science and Public Affairs

Homeland Security and Emergency Management

The SSU Homeland Security and Emergency Management Program (HSEM) is built on the existing body of knowledge in homeland security and emergency management as well as current and developing research, with an emphasis on lessening the impacts of disasters on our most vulnerable residents. The program prepares students to move into entry-level public and private sector positions in this growing field.

The HSEM program uses an integrated and interdisciplinary approach to homeland security and emergency management, preparing students with the knowledge, skills, and abilities to leverage and coordinate the full range of capacity and resources to improve outcomes in a disaster – whether natural or human-caused. The program offers students’ knowledge specific to different types and causes of disaster, lessons from past disasters, and both comprehensive and hazard-specific practices that lead to effective prevention, protection, mitigation, preparedness, response and recovery. Savannah State University expanded its footprint into Liberty County and Hinesville, GA on February 7, 2019, with its partnership with Georgia Southern University’s Liberty Campus to offer Homeland Security and Emergency Management (HSEM). The SSU HSEM program is the first bachelor’s degree program in homeland security and/or emergency management in the state of Georgia and the first in the nation at a historically black college/university.

The program leads to the bachelor's degree in homeland security and emergency management. Students must earn 120 hours to graduate, with 36 semester hours in major courses, with no requirement for a subject area minor. The program also offers a minor and a 15-hour certificate in HSEM.

**Political Science**

The Department of Political Science and Public Affairs offers the Bachelor of Science degree in political science. Students majoring in political science may elect to concentrate in pre-law, public administration, American Politics, or international (comparative) politics. The Political Science program seeks to prepare leaders for greatness in public service to Georgia and beyond, and who are able to:

- Demonstrate an understanding of American governmental structures, as well as comparative political systems;
- Exhibit knowledge of the political science literature and have the ability to retrieve information and acquire knowledge on their own;
- Communicate effectively about the impact of political science in society and the significance of the discipline in the social sciences;
- Pursue graduate and professional schools;
- Compete successfully for entry-level jobs in the domestic and international arenas in Georgia and beyond; and
- Perform at higher levels of economic productivity, social responsibility, and moral excellence in their chosen field

Minor in Urban Studies and Planning

Minor in Urban Studies and Planning is designed to enable undergraduate students to obtain valuable skills necessary to expand their employability and opportunities for graduate study in urban planning. The minor is available within the Department of Political Science and Public Affairs but may also supplement the skills of students in other areas such as Business, Environmental Sciences, and Civil Engineering and Technology. This minor provides students with a general awareness and understanding of planning as a process for making public decisions about the allocation of resources. The minor will provide a thorough overview of the practice of planning and its role in urban politics and collective decision-making.

*Minor in Urban Studies 15 hrs
POLS 3813 Introduction to Urban Planning 3 hrs
POLS 3811 Urban Politics 3 hrs
3 elective courses from the following:
ANTH 1101 Introduction to Anthropology 3 hrs
BIOL 3621 Urban Health and Hygiene 3 hrs

SOCI 3611 Minorities and the Social Environment 3 hrs
SOCI 3631 Urban Sociology 3 hrs
SOCI 3401 Social Research 3 hrs
The College of Sciences and Technology is comprised of seven departments:

- Biology
- Chemistry and Forensic Science
- Engineering Technology
- Marine and Environmental Science
- Mathematics
- Military Science
- Naval Science

The College offers an Associate of Science, Core Curriculum. The Associate of Science, Core Curriculum degree is primarily intended to be a transfer degree leading to a STEM baccalaureate degree. The A.S. degree provides a foundation in mathematics and science designed for transfer into a prescribed area of specialization. The AS degree consists of 60 semester credit hours; generally, 43 hours of the required core curriculum coursework (Area A-E) and 17 hours of lower division requirements, related to a bachelor’s degree field of study (Area F).

*Area F Pathway to B.S. in a STEM Program | 17 hrs
| Select 17 hours from either STEM pathway requirements or 17 hours from a combination of several STEM pathway requirements.

TOTAL 60 hours

* A grade of “C” or better required

Articulation agreements have been established with other system institutions, which lead to a Bachelor of Science degree. Please see a departmental advisor for specific courses in Area F.
The College offers Bachelor of Science degree programs with majors in Biology, Chemistry, Environmental Science, Forensic Science, Marine Sciences, Mathematics, Civil Engineering Technology (ABET Accredited), Computer Science Technology, Electronics Engineering Technology (ABET Accredited), and Mechanical Engineering Technology. The College also offers the Regents’ Engineering Pathway Program (REPP), which enables the students to complete two years of engineering pathway courses at SSU and then transfer to Georgia Institute of Technology, Georgia Southern University, Kennesaw State University, Mercer University or the University of Georgia to complete a B.S degree in Engineering. In addition, the College offers Master of Science degrees in Marine Sciences and Mathematics.

The Naval Reserve Officers Training Program gives young men and women the choice of attending college in an academic discipline of their choice while at the same time receiving military training that culminates at being commissioned as military officers in the Navy or Marine Corps upon completion of the baccalaureate degree.

The Army Reserve Officers Training Program enhances a student's education by providing unique leadership and management training along with practical experience. It helps a student develop many of the qualities basic to success in the Army, or in a civilian career. ROTC gives students a valuable opportunity to build for the future by enabling them to earn a college degree and an officer's commission at the same time.

Core Curriculum
All students enrolled for the first time must complete the core curriculum, which consists of six areas and includes sixty semester hours of course work.

Numbers in parentheses following course description indicate, in subsequent order, the number of hours of lecture each week, the number of laboratory hours each week and the semester hour credit the course carries.

Students seeking degrees with any major through the College of Sciences and Technology are required to complete the University's "Core Curriculum".

Students then select and complete the requirements for a specific major curriculum as described in the appropriate sections of this catalog.

Department of Biology
Mission
The mission of the Biology degree programs is to develop each student's ability to acquire and critically interpret knowledge of scientific facts and theories of biology, to relate that knowledge to other subject areas and to communicate his or her understanding to others. The programs prepare students for employment in scientific professions as well as pursuit of advanced degrees and careers in biology or health sciences.

Biology Major
The Department of Biology offers curricula leading to the degree of Bachelor of Science in Biology.

The program emphasizes training to pursue careers in research, education, biomedicine, biotechnology, or unique paths selected by the students in consultation with their faculty mentors. Students should discuss specific options with their faculty mentors.

Students will have the option to specialize in areas ranging from molecular mechanisms to ecological analysis. A broad range of course materials emphasizing critical thinking will be cultivated by involvement in investigative techniques ranging from laboratory experiments to individual research projects. Students will be encouraged to think beyond the classroom and participate in activities on and off campus.

A Department Exit Exam is required of all students applying for graduation with a degree from the program. The Department Exit Exam is a summary test of Biology core course materials specific to the program of study. A passing grade of seventy percent (70%) is required for graduation. Biology majors will take the Department Exit Exam while enrolled in BIOL 4930 (Senior Synthesis).

Bachelor of Science in Biology
The Bachelor of Science in Biology can be earned by the completion of biology core courses. The university Core Curriculum is followed by core courses in biology, and includes required courses in chemistry, mathematics, and physics.

Electives within the department allow training to focus on specific career objectives. Electives will be selected following consultation with a faculty mentor.

A grade of “C” or better is required in all science and math courses required for the degree.
Program of Study – Biology

Areas A, B, C, D, E, and additional requirements  43 hrs

MATH 1113 required in Core Area A

Biology majors must take the following courses in Area D:
*CHEM 1211, 1211L, 1212, and 1212L, and CISM/CSCI 1130

Area F  17 hrs

COST 1103 First Year Experience  2 hrs
*BIOL 1107 Principles of Biology I  3 hrs
*BIOL 1107L Principles of Biology I Lab  1 hr
*BIOL 1108 Principles of Biology II  3 hrs
*BIOL 1108L Principles of Biology II Lab  1 hr

Choose one (1) of the following two (2) courses:
*MATH 2101 Calculus I  4 hrs
*MATH 1401 Elementary Statistics  3 hrs

Choose three (3) or four (4) credit hours from:
*BIOL 1001 Introduction to Life Science  1 hr
*BIOL 2515K Human Anatomy & Physiology I  4 hrs
*BIOL 2516K Human Anatomy & Physiology II  4 hrs
*CSCI 1301 Intro to Computer Science I  3 hrs
*MSCI 1810K Marine Biology  4 hrs

** CHEM 2511 Organic Chemistry II and CHEM 2511L Organic Chemistry II Lab or
Select one: MSCI 3901Tech. Writing; MSCI 3702 GIS; ENVS 3121Env. Ethics; MATH 1401 Statistics; CISM 3232 Web Application Development; CISM 2130 Business Information Systems or a suitable substitute approved by the advisor and department head.  3-4 hrs

Electives: 3000 or higher level science or math courses  15-16 hrs

TOTAL 120 hours

*A grade of “C” or better is required
*Biology elective options (3000 level or higher level Science or Math courses) should be selected in consultation with the faculty mentor.

****Pre-med students and those who wish to pursue graduate education/research career are expected to take CHEM 2511 and CHEM 2511L and 15 hours of electives. All other students can choose one 3-credit hour course listed as alternatives for CHEM 2511 and CHEM 2511L and 16 hours of electives.

Service Courses
Certain courses are offered for students who do not intend to earn the degree in biology. These courses are intended to provide electives for majors in other departments or as introductory courses for students planning to move on to other programs.

Department of Chemistry and Forensic Science

The Department of Chemistry and Forensic Science consists of two programs: Chemistry and Forensic Science. The department is well equipped with state-of-the-art equipment for teaching and research. Many of our graduates have earned advanced and/or professional degrees from some of the most prestigious universities.

Chemistry Major
Accreditation: The Chemistry Program is approved by the Committee on Professional Training of the American Chemical Society to offer ACS certified BS degree.

The Chemistry program is designed to provide strong and innovative instruction in the theory and practice of the chemical sciences. Our graduates are expected to be proficient in the methods of scientific inquiry. The program is designed to accommodate a range of career goals such as research scientists at varied research laboratories and industrial settings; and at associated professions such as the health sciences and public policy.

The Chemistry program offers courses leading to the degree of Bachelor of Science with the following options: BS Chemistry (ACS Certified), BS Chemistry and BS Chemistry Biochemistry track. Minor concentration is offered in Chemistry.

Bachelor of Science in Chemistry
The Bachelor of Science in Chemistry degree program is designed to give a strong foundation in physical, inorganic, organic and analytical chemistry. The program provides flexibility to satisfy a range of career goals and requirements to pursue advanced degree in chemistry and related disciplines. The Bachelor of Science in Chemistry with Biochemistry track enables majors to meet the admission requirements for medical, dental, pharmacy, veterinary and graduate schools.

The Program in Chemistry requires majors to earn a minimum grade of "C" in each of the courses required for the degree. A pass in the exit examination is a requirement for graduation. The exit examination is a test in all the major areas of chemistry: analytical, biochemistry, inorganic, organic and physical chemistry.

**Forensic Science Major**

**Vision**
Savannah State University will be recognized as one of the leading undergraduate universities in the nation to offer a premier degree in Forensic Science, producing graduates with exceptional scientific knowledge, practical skills and integrity to effectively support the performance of the criminal justice system.

**Mission**
The mission of the Forensic Science Degree Program is to provide forensic science majors with a solid scientific understanding of the applications of forensic science to the judicial system while promoting scientific integrity, critical thinking and communication skills. Develop within our students an understanding of ethical behavior at the highest level. This program will maintain cutting-edge awareness by exposing majors to current technological advances and laboratory instruments and equipment used in forensic science. The program will promote intellectual diversity, interactive and creativity centered learning experiences, resulting in a highly marketable interdisciplinary degree.

**Objectives**
Principle objectives of the program:
- To offer an interdisciplinary Bachelor of Science Degree in Forensic Science
- To strengthen research and scholarly endeavors
- To strengthen collaboration with local and state Law Enforcement Agencies, which will assist in enhancing student learning outcomes as well as facilitate career path networking
- To offer a very interactive curriculum focusing on hands-on learning experiences
- To attract and train a cadre of outstanding under-represented minorities to the field of forensic science
- To offer a very diverse and well-qualified faculty team
- To offer a program which is current on technological advances in forensic science
- To enhance learning at the university by offering students opportunities to develop as professionals
- To improve undergraduate academics, emphasizing excellence, which will promote intellectual development and student success through a diverse, student-centered environment.
- To provide the community with various opportunities to engage in the Forensic Science Degree program through activities respective to studies, internships, seminars and professional development workshops.

**Bachelor of Science in Forensic Science**
The Bachelor of Science degree in Forensic Science is a four-year program with two concentrations: Forensic Chemistry and Forensic Biology. The development of a Forensic Science degree program is interdisciplinary and relies strongly on the incorporation of courses in the College of Science and Technology and the College of Liberal Arts and Social Sciences. Forensic Science spans a wide spectrum of scientific disciplines including chemistry, biology, odontology, pathology, criminalistics, engineering, psychiatry, toxicology, computer science and behavioral sciences, to mention a few. This program is designed to produce well-informed graduates with the option to further their scientific interests in graduate school as well as pursue a career in law enforcement. The major tracks are summarized below:

Forensic Biology - Prepare students for positions in local, state, federal and private forensic science laboratories as deoxyribonucleic acid (DNA) analysts or applicable biological science. This concentration will also prepare students for graduate work in Forensic Science or Biology disciplines.

Certificate in Virtual Forensic Sciences

Building upon the forensic sciences degree, this certificate will be open to students in any major as well as those employed in law enforcement, military or an associated area of forensic science, criminal justice or homeland security.

The certificate program will provide an immersive learning experience with SSU’s exclusive 3-D virtual reality crime scene investigation technology. Certificate coursework will cover procedures necessary for the proper use of 3-D technology in criminal investigations, such as 3-D scanning, processing, analyzing and the use of 3-D virtual reality technology in courtroom presentation of crime scene evidence.

Department of Marine and Environmental Science

Environmental Science Major
The Department of Marine and Environmental Sciences offers courses leading to the degree of Bachelor of Science with a major in Environmental Science. In addition, the program offers courses leading to a minor in environmental science for science and non-science majors. The objectives of the program are as follows:

- Provide a broad-based curriculum and specialization involving integration of information from different disciplines such as natural and social science and leading to a degree in environmental science.
- Offer courses that satisfy the environmental science curriculum requirements for persons planning to pursue careers in the environmental sciences and related disciplines as well as preparation for advanced study in environmental related disciplines.
- Offer core courses in environmental science for science and non-science majors.
- Participate in community outreach activities as professional scientists, educators and representatives of the University.
- Encourage student and faculty from all disciplines to participate in environmental research, stewardship and sustainability.
- Develop skills in critical thinking, data analysis, computer application and instrumentation usage among Environmental Science students.

Bachelor of Science in Environmental Science
The environmental science curriculum includes required courses in biology, chemistry, mathematics, and physics. Multiple major courses with labs are required. Electives are selected in consultation with a faculty advisor.

**Marine Sciences Major**

The mission of the Marine Sciences Program at Savannah State University is to provide research, education, and outreach programs that contribute to a vital technically qualified intellectually thoughtful and ethnically diverse community of individuals capable of solving problems and answering questions related to coastal and ocean ecosystem health, environmental quality and fisheries sustainability.

**Bachelor of Science in Marine Science**

The following Learning Outcomes are what we expect a student to know and to be able to do as a result of graduating with a major in marine sciences from SSU. Graduates will:

- Be ocean literate. Ocean literacy is an understanding of the ocean’s influence on you and your influence on the ocean. An ocean-literate person understands the essential principles and fundamental concepts, can communicate about the oceans in a meaningful way, and is able to make informed and responsible decisions regarding the oceans and its resources.
- Demonstrate a basic knowledge in the sciences, oceanography and marine biology.
- Demonstrate the ability to identify marine science questions and problems; use critical thinking, research, and analytical skills to solve them; and effectively communicate the results using research report and oral presentation formats.
- Have marine sciences relevant and appropriate quantitative and analytical skills and tools.

These objectives are met through rigorous course work including laboratories and boat-based instruction; academic advisement and mentoring; and opportunities to engage in original research.

Facilities include multiple research laboratories, 2 wet-laboratories, 2 docks, and multiple boats (up to a 36-foot twin diesel). Both marine science buildings are adjacent to estuarine salt marsh and a tidal creek, providing exceptional opportunity for hands-on marine science instruction.

A grade of “C” or better is required in all science and math courses required for the degree.

Department of Engineering Technology

The Department of Engineering Technology offers courses leading to the degree of Bachelor of Science, with majors in Civil Engineering Technology, Computer Science Technology, Electronics Engineering Technology, and Mechanical Engineering Technology. The Civil Engineering Technology program is accredited by the Engineering Technology Accreditation Commission (ETAC), of the Accreditation Board for Engineering and Technology (ABET). For more information, visit http://www.abet.org. The Electronics Engineering Technology program is accredited by the Engineering Technology Commission (ETAC), of the Accreditation Board for Engineering and Technology. For more information, visit http://www.abet.org.

Engineering Technology embraces the physical sciences, mathematics, and the practices and materials of modern industry, which are utilized in the design, and construction of the machines, structures, highways, power sources, process systems, communication systems, and products needed to maintain a highly technological society. The activities of engineering technology are concerned with translating the concepts and theories of professional engineers and scientists into actual devices and products by using tests to provide data for rational solutions and designs. These tests are followed by interpretations of data and preparation of appropriate plans for use by skilled craftsmen who produce the devices and/or products.

The objectives of the Engineering Technology and Computer Science Technology programs are to prepare their students for successful careers, and this process requires the department to provide opportunities for students to acquire the essential educational experiences for applying their knowledge and methods coupled with skills in support of technical activities.

Registration for Professional Engineer

To protect public safety, each state establishes laws to license engineers involved in projects affecting public health, safety and life. The registration process involves written examination, professional work experience and professional recommendations.

Although it is not the goal of Savannah State University to prepare an individual for professional engineering registration, it is possible for an Engineering Technology graduate of Savannah State University to become registered in Georgia and some other states. Students considering registration as a professional engineer should contact the Department of Engineering Technology for further information.

Engineering Technology graduates from ETAC of ABET accredited programs are qualified for professional licensing by the National Institute for Certification in Engineering Technologies (NICET). Students interested in this certification may contact the department Chair for more information.

Engineering Technical Organizations

Students are encouraged to join appropriate engineering societies to stimulate their interest in professional activities, to promote their pursuit for life-long learning, and to expose them to professional conduct and ethics. The department has, at present, the following student organizations:

- Institute of Electrical and Electronic Engineers (IEEE)
- Engineers Without Borders (EWB)
- American Society of Civil Engineers (ASCE)
- National Society of Black Engineers (NBSE)

Baccalaureate Degree Programs

Special Requirements for Majors

Students enrolled in the Department of Engineering Technology who earn less than a “C” in any English, Mathematics, sciences or major course required in their curriculum must repeat the course during the next semester that it is offered. Major courses are those courses offered by the Department of Engineering Technology and Mathematics.

Major Comprehensive Examination

To satisfy the institutional requirements for a comprehensive examination, all students in Engineering Technology are required to take an exit examination administered by the department.

Civil Engineering Technology Major

Accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org

The curriculum in Civil Engineering Technology is designed to provide ample instruction in those areas of knowledge required for successful performance in the following capacities as well as in other construction-related positions.

Architectural and Structural Draftsman and Designer - plans, designs, and supervises construction of frame, steel, and concrete structures; makes architectural inspections and appraisals for architects and builders.
Highway Engineering Technologist - collects and tests soil samples, concrete and other materials to ascertain their physical characteristics for use in highway construction; establishes the location and measurements of points, elevations, lines, areas and contours of land needed for highway construction and prepares hard copy, draft or computer generated drawings of land.

Estimator - determines quantities and costs of materials and labor required to erect structures.

Materials Tester - determines mechanical properties of materials used in the erection of structures and highways.

Surveyor - supervises, directs, and is responsible for the accuracy of the work of an engineering survey party engaged in determining the location and measurements of points, elevations, lines, areas, and contours on the earth’s surface for purposes of securing data for building and highway construction, map-making, land valuation, mining, or other purposes.

Environmental Technologist - Plans, designs, and monitors water, wastewater, and other environmental pollution control systems.

**Computer Science Technology Major**

The curriculum in computer science technology is designed for those students who are interested in careers in computer science. This program is flexible so that students may orient the major emphasis toward software aspect of computer science or to be the hardware realm of computer science. This program promotes an extensive interdisciplinary approach to provide students a sound educational background, one that will make the students quite marketable and thus be prepared for gainful employment in following areas:

**Programming/Software Development** - consider how software (Java, Visual Basic, C# and Visual Studio) can, will, and should be developed.

**Install Software/End User Support** - computer applications with knowledge of hardware, word processing, spreadsheet, and database programs.

**Network Setup and Administration** – Install, tests, maintain the network software (Linux, NT) covering basic hardware configuration, using TCP/IP, configuring routing, network security, involved in operations, policies, procedures, functions, principles and practices of network and telecommunications support services.

The program of study sheet for the Computer Science Technology can be accessed using: [Computer Science Technology Advising Curriculum Grid](#).

*A grade of “C” or better is required*
Electronics Engineering Technology Major

Accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org

The electronics engineering technology curriculum provides instruction in the fundamentals of modern electronics theory, with emphasis on the application of theoretical principles to actual electronic devices, circuits, systems, design and fabrication. Graduates of the electronics engineering technology program are prepared to function effectively in several capabilities, including:

**Research and Development Technologist** - engages in the development, building and testing of new equipment in the areas of digital electronics, communication electronics and microelectronics.

**Process Control Technologist** - supervises the operation of automatic control equipment for industrial processes.

**Field Engineering Specialist** - installs, tests, and maintains equipment such as data processing machines and other electronic systems.

**High Frequency Technologist** - maintains and/or operates radar, sonar, and other warning detection and navigation devices.

Mechanical Engineering Technology Major

The curriculum of Mechanical Engineering Technology program provides students with the foundation to design, develop, test, troubleshoot, and manufacture mechanical devices, including tools, engines and machines. Emphasis is placed on a broad range of courses including, properties and processes of engineering materials, thermal-fluid-energy sciences and applications, computer aided design and analysis, mechanical design and analysis, robotics, mechatronics, manufacturing and industrial engineering areas.

Students learn how to apply the basic engineering principles and utilize technical skills to the diversified mechanical and manufacturing fields.

Graduates work with the latest technologies in a broad range of fields like automotive, logistics, materials, maintenance, quality assurance, reliability and testing, manufacturing, robotics, supply chain, aerospace, alternative/clean energies, nanotechnology, biomedical and more.

**Cooperative Education Program**

The Cooperative Education Program enables engineering technology students to gain work experience in industry as paid employees during their college tenure. The program is coordinated through the Office of Cooperative Education. The program is available to students who have acquired at least 30 semester hours, including at least five courses in the major; who are proficient in a computer language; who have a satisfactory academic record; and who meet the job specifications of the employer.

Students work in industry and attend college during alternate semesters or as arranged. To remain in the program, they must maintain creditable records at both places. Students must register for the appropriate cooperative education course each semester they are employed and must observe all applicable regulations of the cooperating company.

Students pursuing the coop program should expect their matriculation to extend beyond four years. The University does not guarantee the availability of coop stations, duties, or compensation. At the conclusion of the coop experience, students are not obligated to accept employment with the cooperating companies nor are the companies obligated to offer them employment.

Students interested in this program should consult with their advisors.

**Engineering Degree Programs**

**Regents' Engineering Pathway Program (REPP)**

Savannah State University (SSU) participates in the Regents' Engineering Pathway (REP). The REP allows the students to complete thirty or more credit hours in specific courses at Savannah State University and then complete the engineering degree program at the Georgia Institute of Technology, Georgia Southern University, Kennesaw State University, Mercer University, or the University of Georgia.

Following are the REP requirements:

- Meet all the criteria for admission as transfer students to any of the participating institutions.
- Complete all required math and science, as well as some engineering courses at SSU (Listed in Appendix A of the REP Agreement on the USG website)
- For more information, review REP information and the REP agreement (PDF) on the USG website [University System of Georgia (USG) Regents' Engineering Pathway (REP)]

Admission requirements, including GPA, vary at the partner institutions. Please visit the institution's website to review the admission criteria.

**Department of Mathematics**

**Mathematics Major**

The Department of Mathematics offers courses leading towards a degree in mathematics and a double major in mathematics and any area of technical sciences. Minor programs in mathematics, physics, and computer science are available. The program promotes an extensive interdisciplinary approach to provide students a sound educational background, one that will make the students quite remarkable and thus prepared for gainful employment, or prepared to pursue graduate study. Course offerings include pure mathematics, applied mathematics, and statistics.

The main objectives of the Program of Mathematics and Physical Sciences are (1) to provide a program of study in mathematics, physical sciences, and environmental science which will enable students to achieve computational and problem-solving skills, an understanding of basic physical principles, and will enable them to apply these skills to their respective areas of study; and (2) to provide students in mathematics with the theory and applications necessary for use in post-baccalaureate study and/or in their work force, insight into physical and natural laws, and the analytical and logical thinking necessary for the application of these tools in the various fields as measured by the program and standard national level examinations.

The curriculum in Mathematics is designed for those students who are interested in careers in mathematics or related fields (after graduation) in industry/government or pursuing an advanced degree in mathematics, pure or applied.

**Mathematics Education Concentration**

The Department of Mathematics, in collaboration with the College of Education (COE), offers a bachelor’s degree in mathematics with a secondary education (6-12) track for students in the Noyce Teacher Scholarship Program. Mathematics education candidates will complete a set of courses to be used as one measure of the teacher candidate’s content knowledge in mathematics. The courses will represent concepts of mathematics and will cover topics that are essential for teaching, synthesizing information, and using technology. See College of Education faculty advisors for additional requirements.

**Freshman Mathematics**

Entering freshmen whose scores on the combined verbal and mathematics sections of the Scholastic Aptitude Test (SAT) meet the requirements for regular admission are placed in college algebra, pre-calculus, or calculus courses. Applicants for admission whose SAT score does not meet the requirements for the regular admission must take the Collegiate Placement Examination (CPE) or COMPASS placement test in English, reading and mathematics. Based on their achievement on the Mathematics test, these students are assigned to college algebra or to a mathematics course in the Center for Student Success.

**Required Examinations**
Candidates for the baccalaureate degree in the program of Mathematics and Physical Sciences are required to pass the reading and essay writing components of the Regents' Test Program (RTP). Seniors Mathematics majors are required to take the departmental assessment examination and pass with an average of 50% to graduate from the program.

Exemption Examinations

Students may be exempted with credit hours from college algebra, pre-calculus, or calculus courses by passing the requisite examinations. Examinations should be taken before the end of the first semester of enrollment at Savannah State University and must be taken in sequential order. The College Level Examination Program (CLEP) tests are administered by the University's Director of Testing.

### Examinations Required for Exemption with Credit

<td>Advanced Placement (AP) - Calculus AB</td>
<td>3 or above</td>
</tr>
<tr>
<td>Calculus II</td>
<td>Advanced Placement (AP) - Calculus BC</td>
<td>3 or above</td>
</tr>
</tbody>
</table>

**Important**

Students who have passed either Calculus I, Calculus II, or Calculus III with a minimum grade of “C” will not receive credit hours for the pre-calculus course taken subsequently.

All students must pass both parts of the Regents' Test and must earn a minimum grade of “C” in all courses specified as major/or minor requirements.

Students enrolled in the Program of Mathematics and Physical Sciences who earned less than the grade “C” in any English, mathematics, science, engineering, or major or minor course required in their curriculum must repeat the course during the next semester that the course is offered.

Students whose score on mathematics section of the SAT is less than 475 must take college algebra, the prerequisite course for pre-calculus.

Electives (2000 – 4000 level) 6 hrs

TOTAL 122 hours

*A grade of “C” or better is required
Minors in the College of Science and Technology

Minors cannot be earned in the same discipline as major.

*Biology Minor 17 hrs
BIOL 1107 Principles of Biology I 3 hrs
BIOL 1107L Principles of Biology I Lab 1 hr
BIOL 1108 Principles of Biology II 3 hrs
BIOL 1108L Principles of Biology II Lab 1 hr
Additional Biology (BIOL) courses at 3000/4000 level 9 hrs

*Chemistry Minor 16-18 hrs
CHEM 3101K Analytical Chemistry 4 hrs
CHEM 3111K Instrumental & Data Analysis 4 hrs
CHEM 3401K Physical Chemistry I 4 hrs
CHEM 3801 Biochemistry 3 hrs
CHEM 4211 Advanced Inorganic Chemistry 3 hrs
CHEM 4531 Advanced Organic Chemistry 3 hrs

*Environmental Science Minor 15 hrs
ENVS 3121 Environmental Ethics 3 hrs
ENVS 4101 Contaminant Hydrology 3 hrs
ENVS 4101L Contaminant Hydrology Lab 1 hr
ENVS 4301 Solid & Hazardous Waste Management 3 hrs
ENVS 4801 Internship 2 hrs

*Forensic Science Minor 15 hrs
FSCI 3201 Forensic Evidence in Law Enforcement 3 hrs
FSCI 3301 Principles of Forensic Science 3 hrs
FSCI 3301L Principles of Forensic Science Lab 1 hr
FSCI 4101 Personal ID/DNA Fingerprint Analysis 3 hrs
FSCI 4101L Personal ID/DNA Fingerprint Analysis Lab 1 hr
FSCI 4201 Drug Abuse & Drug Analysis 3 hrs
FSCI 4201L Drug Abuse & Drug Analysis Lab 1 hr

*Marine Science Minor 15 hrs
MSCI 1810K Marine Biology 4 hrs
MSCI 2010K Introduction to Oceanography 4 hrs
Additional MSCI courses at 3000/4000 level 7 hrs

*Civil Engineering Technology Minor 17 hrs
CIVT 3101K Surveying 4 hrs
CIVT 3201K Civil Engineering Materials 3 hrs
CIVT 3211 Construction Estimating & Management 3 hrs
CIVT 3401K Highway & Transport Engineering 4 hrs
ENGT 2101K Computer Graphics 3 hrs
Note: Civil Engineering Technology minor is not available to students majoring in Civil Engineering Technology.

*Computer Science Technology Minor 17 hrs
Select nine (9) or ten (10) hours from the following five (5) courses:
CSCI 1301 Computer Science I 3 hrs
ENGT 2101K Computer Graphics 3 hrs
CSCI 1610 Programming in Java 3 hrs
CSCI 2215 PERL Scripting 4 hrs
CSCI 2231 Introduction to UNIX 3 hrs
Upper Division Computer Science Technology courses 9 hrs

*General Technology Minor 17 hrs
ENGT 2101K Computer Graphics 3 hrs
ENGT 3701 Engineering Economy 3 hrs
ENGT 3101 Statics 3 hrs
ELET 3101K Electrical Circuits I 4 hrs
ENGT 3501 Dynamics 2 hrs

*Electronics Engineering Technology Minor 18 hrs
ELET 3101K Electrical Circuits I 4 hrs
ENGT 2101K Computer Graphics 3 hrs
ELET 4101K Programmable Logic Controllers 4 hrs
ELET 3301K Digital Systems I 4 hrs
ELET 3401K Microprocessor Interfacing 4 hrs
Note: Electronics Engineering Technology minor is not available to Electronics Engineering and Computer Science Technology majors.

*Mathematics Minor 15-18 hrs
MATH 2101 Calculus I 4 hrs
MATH 2111 Calculus II 4 hrs
MATH 3101 Linear Algebra 3 hrs
MATH 3201 Probability & Statistics I 3 hrs
Upper Division level mathematics course 3 hrs
# Students who will take MATH 2101 and/or 2111 in major program will take MATH 2111 and/or 2121 and nine to twelve hours of upper division courses to have a minimum of sixteen semester hours.

*Applied Mathematics Minor 15-18 hrs
At least six credit hours from the following Courses:
MATH 2111 Calculus II 4 hrs
MATH 2121 Calculus III 4 hrs
MATH 1401 Elementary Statistics 3 hrs
At least nine credit hours from the following Courses:
MATH 3000 Intro. to Biostatistics 3 hrs
MATH 3101 Linear Algebra 3 hrs
MATH 3201 Probability & Statistics I 3 hrs
MATH 3301 Differential Equations 4 hrs
MATH 3501 Numerical Analysis 3 hrs
MATH 4221 Complex Analysis 3 hrs
MATH 4301 Survey of Partial Differential Equations 3 hrs
MATH 4311 Probability and Statistics II 3 hrs
* Note that only one course may be used to satisfy both a minor and a major requirement.
Department of Naval Science

The department offers a minor in Naval Science. The program is designed to prepare the student for a commission in the U.S. Navy or Marine Corps and is required for NROTC Scholarship students to obtain a commission. Normal program of study requirements for a commission are shown below and requirements for a minor in Naval Science are specified separately. All course work for a minor work must be completed with a grade of "C" or better.

NROTC students must receive NSCI Course credit, not MILs course credit, for ACE recommended military experience.

Scholarship Programs

For continuing students already enrolled in a Savannah State University curriculum or transferring students with previous college credit, the Department of Defense offers a limited number of 3 and 2 year scholarships (“side load scholarships”) to qualifying students interested in a career in service in the U.S. Navy and U.S. Marine Corps. Scholarship requirements include a minimum cumulative 2.5 GPA, rigorous physical fitness standards including body composition standards, adherence to an honor code, and participation in service related training events outside of normal academic course load which contribute to overall leadership development. Approved enrollment in the NROTC College Program (see below) allows for qualifying students to compete for NROTC Scholarships. Contact the Department of Naval Science in the McGlockton Building for specific details.

College Program Midshipmen (non-scholarship)

Navy ROTC College program allows participation in midshipmen training for students not on scholarship, but interested in pursuing a commission in the U.S. Navy, or U.S. Marine Corps. Interested freshmen and sophomores can apply for this program at the Department of Naval Science in the McGlockton building. Qualified and competitive students in NROTC College Program may apply for 2.5 or 3 year scholarships depending on their service option. If a College Program student is not awarded a scholarship by the conclusion of sophomore year, he/she may be considered for Advanced Standing, which will grant a commission in the Navy or Marine Corps upon graduation. Advanced Standing requires selection from a Naval Service Training Command. Students may also be granted Provisional Advanced Standing directly from the PNS if they meet all program requirements prior to entry.

College Program students must take all required Naval Science courses for their service option. These students must complete one-year of college-level study in both mathematics and physical science as a prerequisite for commissioning. Mathematics courses must be college algebra or higher and completed by the end of the junior year. The physical science requirement can be met by completing a one-year sequence, or two courses, in any area of physical science and completed by the end of senior year.
Navy Option Scholarship Requirements
While not a requirement to join, all Navy option students are encouraged to pursue Science, Technology, Engineering, or Mathematics majors. Navy option scholarship students must complete 6 hours of Calculus by the end of their second year and 6 hours of Physics by the end of their third year as a prerequisite for commissioning.

Marine Corps Option Scholarship Requirements
All Marine Corps option students shall take, during the junior or senior year, one course in military history and one in political science (6 hours total) from a list approved by the Professor of Naval Science.

Other NROTC-Specific Academic Requirements
All NROTC programs require a 3-hour American History/National Security Policy course, 6 hours of English, and a 3-hour World Culture/Regional Studies course. Students in the NROTC program will maintain a semester and cumulative GPA of 2.5 to remain in the program.

NROTC Uniforms, Books and Instructional Materials
NROTC uniforms, books and special instructional materials will be issued at no charge to naval scholarship and college program students. Uniforms must be returned upon exit from the NROTC program. Books and other instructional material must be returned at the completion of each academic term.

Scholarship Benefits
Nationally awarded Navy ROTC scholarships are available to qualified students for tuition, fees and laboratory expenses. The scholarships can pay for one, two, three, or four years of tuition and fee expenses and possibly five years depending on major. Scholarship includes a $350 book stipend per semester. Additionally, the Department of the Navy reserves a portion of all scholarships for students who attend Historically Black College and Universities.

Financial Assistance
All Midshipmen in the NROTC program who qualify for the college program advanced standing or the scholarship program are paid a monthly tax-free stipend. The monthly amount is $250 for freshmen, $300 for sophomores, and $350 for juniors and $400 for seniors. Students who qualify for Advance Standing will receive a monthly stipend of $350 for juniors and $400 for seniors. Provisional Advance Standing students will receive a monthly stipend of $250.

Summer Training Cruises
A summer training period is held annually to furnish NROTC midshipmen the opportunity to gain experience in the practical application of their studies in Naval Science. These training periods range from two to six weeks in length with embedded cruise experiences three to four weeks in length. NROTC Scholarship midshipmen are required to participate in summer training during each of the three summers between freshman and senior years.

*NSCI 4050: Naval Drill is only open to students actively enrolled in the NROTC program.
Department of Military Science

The Reserve Officer Training Corps program is a four-year course of study leading to a commission in the United States Army. In addition to a major, students must satisfy requirements in military history and complete the appropriate military science courses. Students interested in this program should first consult with the Army ROTC Department.

Basic military science courses (MILS 1101, 1102, 2201 and 2202) involve four (4) semesters during the freshman and sophomore years. Students learn leadership and management and acquire essential background knowledge of customs and traditions, weapons, map reading, tactics and survival. Equally important, these courses have the objective of developing the students’ leadership, self-discipline, integrity and sense of responsibility. Those students who successfully complete the Basic Course, meet the Army physical standards, and demonstrate Officer potential are considered for contracting and enrolling in the Advanced Course (MILS 3301, 3302, 4401 and 4402). All students must be contracted prior to enrolling in the Advanced Course.

Placement

Veterans entering the military science program will receive appropriate placement credit for their active military service. Students who have completed military science courses in military preparatory schools or junior colleges may be given appropriate credit. Students with at least three years of high school ROTC may also be granted placement credit. Placement credit or four (4) semesters of basic military science, or equivalent thereof, is a prerequisite to admission into the Advanced Course.

Alternate Programs for Admittance

Basic Camp

Students who have two years of course work remaining, but who have not completed basic military science are eligible to be considered for selection into Basic Camp. Basic Camp is a 31-day training event designed to introduce Cadets to the Army. The objective is to develop Cadet leadership skills and train them on individual and junior leader tasks to develop and reinforce Warrior Ethos and our Army Values. Basic Camp provides the critical thinking skills necessary to succeed in ROTC, and, ultimately, the Army. Basic Camp Cadets graduate the course prepared to lead at the team (3-4 Cadets) and squad (9-13 Cadets) level. Basic Camp's primary target audience is the Lateral Entry Cadet and the freshman Cadet. Lateral Entry Cadets typically decide to join ROTC in their sophomore year of college, thus require Basic Camp to learn what normal-progression Cadets have learned in their first two years of military science classes, during their freshman and sophomore years of Army ROTC. As an ancillary target, Basic Camp allows second-year (Military Science II or MS II) Cadets to gain squad leader experience, which provides opportunities for some MS III (rising senior) Cadets to fulfill roles as platoon-level leaders. Basic Camp consists of eight Cadet Regiments, nearly 3,000 Cadets. Cadets are taught how to conduct troop leading procedures (TLPs) to plan and execute tactical missions at the squad level in a platoon construct/setting. As Cadets gain experience and confidence through the training, they apply lessons learned from the After Action Review (AAR) process.

Master’s Degree

Students seeking a Master’s Degree are eligible to be considered for selection into the Advanced Course.

Financial Assistance

All Contracted Cadets are paid a subsistence allowance of $420 while enrolled in Military Science Courses. Amounts vary by academic year.
Scholarship Program
Each year the U.S. Army awards two and three-year on-campus scholarships to outstanding young men and women participating in the Army ROTC program who desire careers as commissioned Officers in the U.S. Army. The Army pays tuition fees, books, and laboratory expenses incurred by these students or room and board. In addition, each student receives $420 per month stipend for the academic year. Individuals desiring to compete for these scholarships should apply at the Department of Military Science.

Army ROTC Uniforms, Books and Supplies
Students enrolling in the Army ROTC program are issued U.S. Army uniforms, books, and supplies by the Department of Military Science. No fees or deposits of any kind will be required. Uniforms must be returned before commissioning or upon dismissal or withdrawal from the ROTC program.

MIL Courses
The Basic course of four (4) semesters consists of one hour of lecture with one hour of leadership lab per week for freshmen and two hours of lecture and one hour of leadership lab per week for sophomores. In the classroom, students acquire knowledge of military leadership, weapons, tactics, basic military skills, and physical fitness. In field training exercises, potential for leadership is progressively developed.

The Advanced Course consists of three hours of classroom work and one hour of leadership laboratory per week. The course work during the Advanced Course emphasizes techniques of management and leadership and the fundamentals and dynamics of the military team. Field training exercises provide students with applied leadership experiences.

Mandatory Summer Training
Advanced Camp
Advanced Camp is a 31-day training event that is designed to assess a Cadet’s ability to demonstrate proficiency in basic officer leadership tasks. Cadets are evaluated on their ability to lead at the Squad and Platoon levels, both in garrison and tactical environments. Cadets are mentally and physically tested during a 12-day consequence driven field training exercise that replicates a combat training center rotation. Successful completion of the Advanced Camp is a prerequisite for commissioning.

The mission of Advanced Camp is to assess a Cadet’s potential to serve as a commissioned officer. It is the most significant training and evaluation event in ROTC. Training is complex, challenging, and rigorous and is conducted in a stressful training environment. Cadets reinforce basic skills through squad (9-13 Cadets) level leader development exercises, and transition to platoon (40-50 Cadets) level operations in a company construct. Prior to attending Advanced Camp, Cadets receive intelligence updates, preparing them for the geopolitical environment to which they will deploy and operate. Students attending this camp are paid active army rates and given travel allowance from their home to camp and return.

Professional Military Education (PME) Requirements
The Army’s Professional Military Education requirements are established to provide Cadets with the training and enrichment necessary to successfully compete in the Army.

Minor Concentration
The department offers a minor in military science to contracted Cadets only. The program is designed to prepare students for commission in the United States Army. Whatever the major, a military science minor will strengthen students’ management, leadership, and interpersonal communication skills. The minor requires 15 credit hours with minimum grades of “B” in the following military science courses: MILS 3301, 3302, 4401, and 4402, HIST 2111 or 2112.

Physical Training
Physical Training (PT) is an important part of the Army ROTC program. Its purpose is to ensure each Cadet is physically fit. The Army Physical Fitness Test (APFT) is used to determine the level of fitness by measuring Cadets’ endurance and stamina in three different events: push-ups, sit-ups, and a 2-mile run.

All Cadets are required to participate in 3 PT sessions per week. These sessions are part of their regular military science class and are normally held on Monday, Wednesday and Friday mornings.
The College of Education (COE) is the organizational unit for the Department of Teacher Education and the Interdisciplinary Studies Program, TRIO Programs, and the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP). The Dean of the College of Education provides leadership for the unit and works collaboratively with deans of the other units to ensure continuity with university-wide initiatives and to develop school and community partners.

The Department of Teacher Education prepares students to become eligible for Georgia certification through Bachelor of Science in Education (BSED) programs in the following areas: Middle Grades Education (4-8) with concentration areas in Mathematics, Science, English/Language Arts, or Social Studies (students must select two); Secondary Education (6-12) with concentrations in Biology Education and Mathematics Education; and Engineering and Technology Education (P-12). Also, the Department of Teacher Education, in collaboration with the College of Liberal Arts and Social Sciences prepares students to become eligible for Georgia certification through the Bachelor of Fine Arts (BFA) in Visual and Performing Arts with concentrations in Music Education (P-12). The Department provides course-based field experiences that culminate in a full-year experience with a practicum at a school site followed by student teaching. Under the guidance of a cooperating teacher and university supervisor, students integrate theory with practice in a school setting relevant to the certification area. All teacher certification programs are accredited by the Georgia Professional Standards Commission (GaPSC). Graduates who meet all certification requirements are eligible to apply to the GaPSC to become Georgia certified teachers.

There is also a post-baccalaureate option for students with bachelor’s degrees to add on teacher certification after graduation. Students who would like to determine eligibility for the post-baccalaureate program should contact the Department of Teacher Education.

The Interdisciplinary Studies Program leading to the Bachelor of Interdisciplinary Studies (BIDS) degree offers learning in a broad range of subject areas across the colleges and majors in the university. Students complete the general education and core courses in a science or non-science track and may choose to design the BIDS program of studies following an Interdisciplinary, Multidisciplinary Studies or an Educational Studies concentration. Students in the Educational Studies concentration typically complete Area F education courses and then select from education or educational studies courses. Students interested in Interdisciplinary Studies and concentration options should work with their advisor and consult with the BIDS program coordinator to map out a program of study.

TRIO Programs are Federal outreach and student services programs designed to identify and provide services for individuals from disadvantaged backgrounds. TRIO at Savannah State University includes three programs--Educational Talent Search, Student Support Services, and Upward Bound. These programs are primarily designed to serve and assist low-income individuals, first-generation college students, and individuals with disabilities to progress through the academic pipeline from middle school to post baccalaureate programs.

GEAR UP is a discretionary grant program designed to increase the number of low-income students who are prepared to enter and succeed in postsecondary education. GEAR UP provides six-year grants to states and partnerships to provide services at high-poverty middle and high schools. GEAR UP grantees serve an entire cohort of students beginning no later than the seventh grade and follow the cohort through high school.

Savannah State University's College of Education teacher preparation programs are approved by the University System of Georgia’s (USG) Board of Regents and the Georgia Professional Standards Commission (GaPSC) and the Commission on Colleges of the Southern Association of Colleges and Schools (SACSCOC).

**Mission**

Preparing Global, Reflective, Professional Educators

The mission of the Department of Teacher Education in collaboration with P-20 institutions is to prepare and empower professional educators with the knowledge, skills, and dispositions to teach all students in a global, diverse educational setting, to provide inclusive learning environments, and to demonstrate ethical behavior.

**Vision**

The vision of the Department of Teacher Education strives to produce graduates who embrace dynamic educational changes that encompass technological innovations, diversity and global environments, and have the intellectual capacity to teach all children to be productive citizens in a global community. To this end, the department and its faculty are committed to on-going research that informs educational practice, exemplary teaching that addresses the needs of all learners, and collaborative partnerships that promote outreach activities to P-12 schools and to those in other disciplines. It is through intentional design and implementation that COE teacher preparation programs are standards-aligned, assessment focused, integrated with technology, and use researched-based pedagogy that embed learner-driven outcomes for all students.
Teacher Preparation Program Student Learning Outcomes (PSLOs)
The program student learning outcomes (PSLOs) are aligned to the unit’s mission and conceptual framework. As programs that are grounded in research-based teaching practices and that adhere to the principles, policies, and procedures framed in state and national standards, the teacher preparation programs in the College of Education’s Department of Teacher Education enable teacher candidates to be equipped to address the academic achievement of all students. More specifically, COE’s PSLOs are outlined in items 1–5 that define candidate proficiencies.

PSLO 1. Content and Pedagogical Knowledge
Teacher candidates will possess induction level content and pedagogical knowledge as demonstrated by the ability to address state and local curricula and standards that meet the needs of all students through relevant learning experiences.

PSLO 2. Instruction: Planning, Strategies, Differentiation, and Technology
Teacher candidates will use research-based, instructional strategies and technologies that are relevant to the content and that address individual learning needs and interests to actively engage learners in higher-order and critical thinking.

PSLO 3. Assessment: Strategies and Use of Data
Teacher candidates will be able to design and select varied diagnostic, formative, and summative assessment tools and strategies that are appropriate for the content and student population and use technology to analyze and develop data-driven solutions to improve instruction and provide constructive feedback to students, parents, and stakeholders.

PSLO 4. Supportive and Challenging Learning Environment
Teacher candidates will be able to create and maintain a supportive, student-centered academic environment in which learners are challenged and encouraged to become self-directed and reflective learners to achieve at their full potential.

PSLO 5. Professionalism and Communication
Teacher candidates will exhibit professional ethics and the dispositions expected of an educator through professional development, communication and collaboration with colleagues, and engagement with students and the school community.

Teacher Preparation
Acceptance and enrollment at Savannah State University (SSU) does not automatically qualify an applicant for the Teacher Education Program. In accordance with Board of Regents, the Georgia Professional Standards Commission, and the College of Education (COE), students seeking to become teacher candidates must apply for admission to the Teacher Education Program. During the first three semesters, students interested in the Teacher Education Program should enroll in Education Foundation courses and successfully complete course work and field hours in EDUC 2110 Investigating Critical and Contemporary Issues in Education, EDUC 2120 Socio-cultural Influences in Teaching and Learning, and EDUC 2130 Exploring Teaching and Learning. Students should also complete general education and core requirements as outlined in this catalog and on program maps. In addition to required coursework, students MUST pass the Georgia Assessments for the Certification of Educators (GACE) as explained below.

Students interested in teacher education apply for admission to the Teacher Education Program and must:
1. Complete and submit an application for admission to the College of Education
2. Successfully complete at least 30 semester credits of accredited college coursework.
3. Complete 30 clock hours of field experience.
4. Submit a verification of tort liability insurance.
5. Achieve a minimum cumulative GPA of 2.50 (4.0 scale) grade point average (with grade of C or higher) for designated courses in the system core curriculum Areas A—F.
6. Submit passing scores on the GACE Program Admission Assessment or be exempt by acceptable SAT (totaling 1000 or more in Reading & Math or 1080 total if taken after July 2019) or ACT (totaling 43 in English & Math) scores.
7. Complete EDUC 2110, EDUC 2120, and EDUC 2130 with grades of C or higher.
8. Submit a positive recommendation along with the character disposition survey from a faculty member at Savannah State University.
9. Submit a Philosophy of Teaching as completed in Education Foundation courses (EDUC 2110, EDUC 2120, and EDUC 2130).
10. Complete an interview with a representative(s) of the Department of Teacher Education.

In addition to the requirements listed above, students must apply and be granted a Pre-Service Certification from the Georgia Professional Standards Commission (GaPSC).

Note: There are additional fees and assessment requirements, as mandated by the GaPSC, associated with teacher preparation that will be reviewed with students prior to admission.

Course Lettering System
Four capital letters followed by four numbers are used to designate individual courses. The following is a list of the abbreviations used in specific content areas.

**College of Education**
- **Abbreviation** Course
  - **BIDS** Interdisciplinary Studies
  - **BIED** Biology Education
  - **EDUC** Education
  - **ESED** Educational Studies
  - **ETED** Engineering Technology Education
  - **MAED** Mathematics Education
  - **MGED** Middle Grades Education
  - **MUED** Music Education

BSED students should refer to Program Maps for the complete, sequenced program of study. Program maps are found on the COE web pages and are available in the College of Education Office and from Professional advisors and faculty mentors.

Education program requirements may change at the discretion of the College of Education and the Georgia Professional Standards Commission.

**Program of Study**

**Bachelor of Science in Secondary Education (BSED) with a concentration in Biology Education**

**Areas A, B, C, D, E, and additional requirements** 43 hrs

</tbody>
</table>
A course focusing on the basic concepts and techniques of fund accounting, including budgeting and management accounting problems for governmental, educational, religious, and charitable organizations.

**Prerequisite(s):** ACCT 2102

**ACCT 4117  Auditing  3 Credits (3-0-3)**
A study of the philosophy, concepts, and techniques used by independent auditors. Topical coverage includes professional ethics, standards, audit programs, study and evaluation of internal control, auditors' opinions, statistical sampling techniques, and EDP auditing.  
**Prerequisite: ACCT 3112**

**ACCT 4118  Advanced Managerial Accounting  3 Credits (3-0-3)**
This course uses the case approach to emphasize transition of costing systems from traditional systems to the development of Activity Based Costing systems and the use of ABC tools in management (Activity Based Management). Additionally, case studies in such areas as transfer pricing, target costing, management compensation and incentives, and the Balanced Scorecard are included. The relevance of technology in these areas is highlighted.  
**Prerequisite(s):** ACCT 3115

**ACCT 4119  Internal Auditing  3 Credits (3-0-3)**
Introduction to the theory and practice of internal auditing, an independent appraisal activity within firms. Topics covered include internal auditing standards, ethics, fraud, internal controls, risk assessment, evidence, documentation (Including use of computer-assisted auditing techniques), and reporting practices.  
**Prerequisite(s):** ACCT 3112

## Africana Studies

**AFRS 1501  Survey of the African American Experience  2 Credits (2-0-2)**
A survey and understanding of the cultural, economic, political, psychological and social development of African Americans and an analysis of their contemporary status.

**AFRS 2000  Introduction to Africana Studies  3 Credits (3-0-3)**
This course is a broad based survey course designed to give the student and understanding of the general history of the development of the discipline and to define its scope. The conceptual parameters of study will be established and distinguished from other fields of academic inquiry.

**AFRS 3000  Africana Political Ideology & Philosophy  3 Credits (3-0-3)**
This course is designed to study the relevant ideas that have served as the intellectual and philosophical foundations of mass movements throughout Africa and the diaspora. Classical Pan Africanism, Negritude, the ideology of selected Black Millenarian Movements, Black Nationalism, Black Cultural Nationalism, Ujamaa Socialism, Kawaida Nationalism, Black Marxism, and contemporary Pan African and Afrocentric thought will be considered.  
**Prerequisite(s):** AFRS 2000

**AFRS 3102  The African & African American Family  3 Credits (3-0-3)**  
This is an upper division course, which focuses upon the unique development of the African and African-American family within the traditional and modern context both within continental Africa and the Americas. Relevant topics concerning the African American family will be studied. Particular attention will be given to the survival role the family has served for African peoples.  
**Prerequisite(s):** AFRS 2000

**AFRS 3111  The Africana Woman  3 Credits (3-0-3)**
This course specifically addresses the role of African women in the development of modern and postmodern society in Africa and the diaspora. The unique continuing contribution of Africana women in the ongoing transformation of social relations is the central theme and topical focus of this course. The course will exam the various political tendencies
within the African women’s movement. It will also explore the underlying social causes of male chauvinism, gender violence, and gender role transformation within the context of race and class oppression.

Prerequisite(s): AFRS 2000 or AFRS 1501

</tbody>
</table>
An introduction to the “orature” and literatures (Anglophone and, in translation, vernacular, francophone, Swahili, and Arabic) of sub-Saharan Africa. Includes such writers as Achebe, Soyinka, Armab, Okri, Ngugi, Senghor, Beti, Oyono, Fagunwa, and Salih.

Prerequisite(s): ENGL 1102

AFRS 4311/PSYC 4311
Psychology of the African-American Experience 3 Credits (3-0-3)
An overview of contemporary topics in Black psychology, including self-concept, achievement, motivation, and the Black family.
Prerequisite(s): PSYC 1101

AFRS 4501
African Americans, Africa, & Pan-Africanism 3 Credits (3-0-3)
An interdisciplinary examination of the concept of Pan Africanism as a realistic, authentic, effective and multidimensional mechanism by which people of African descent in the United States have related historically and culturally to the African dimension of their identity.
The course employs methods germane to the disciplines of History, Sociology, Political Science and Anthropology.
Prerequisite(s): AFRS 1501

AFRS 4601
Senior Seminar 3 Credits (3-0-3)
A comprehensive review and analysis of topics and issues, theories, and interpretations, and research in African and African-American Studies.
Prerequisite(s): Permission of the instructor

AFRS 4602
Special Topics 3 Credits (3-0-3)
An in-depth examination and analysis of an issue or issues of particular significance to the historical, cultural, intellectual or social development or contemporary predicament of Africans or African Americans.

Anthropology

ANTH 1101
Introduction to Anthropology 3 Credits (3-0-3)
An introduction to the study of primitive and traditional societies with focus on cross-cultural comparisons of pre-literate and modern social institutions.

Arabic

ARAB 1001
Elementary Arabic I 3 Credits (3-0-3)
An introduction to elementary modern standard Arabic. The course will focus on the phonology and writing system. Lectures in Arabic civilization and culture will be integrated into the language study. Not open to students who have more than one year of high school Arabic or who are native speakers of Arabic.

ARAB 1002
Elementary Arabic II 3 Credits (3-0-3)
A continuation of Elementary Arabic I. The emphasis will be on speaking and writing skills. Intensive practice of sentence structure and basic vocabulary will be required. Various aspects of Arabic culture will be examined. Not open to students who have more than one year of high school Arabic or who are native speakers of Arabic.
Prerequisite(s): ARAB 1001

ARAB 2001
Intermediate Arabic I 3 Credits (3-0-3)
An intensive review of grammar and sentence structure, along with drills in reading, speaking and writing. Language instruction will be supplemented with lectures and audio-video presentations.
Prerequisite(s): ARAB 1002 or two years of high school Arabic
ARAB 2002 Intermediate Arabic II 3 Credits (3-0-3)
Continuation of Intermediate Arabic I.
Prerequisite(s): ARAB 2001

**Art History**

ARTH 3601 African American Art 3 Credits (3-0-3)
Study of African-American Art of the eighteenth, nineteenth, and twentieth century.

ARTH 4600 African Art 3 Credits (3-0-3)
This course reviews the history of African Art from 10,000 B.C. through the twentieth century. The course includes the role of art in Africa, its culture and the people who produce the art and use it. Particular interest will be given to art and culture of West Africa.

ARTH 4602 Art History I 3 Credits (3-0-3)
This course will introduce students to the arts of the ancients through the 1600's. Students study great moments, the cultural background, and the persistent themes of western art through slides lectures, reading, and assigned exercises and discussion. Students will learn how archeologists and art museums work and the ways in which they teach us to understand the past.

ARTH 4603 Art History II 3 Credits (3-0-3)
This course is a continuation of ARTS 4602: Art History I and covers from 1700 through today. Students study the great monuments, the cultural background, and the persistent themes of western art through slide lectures, readings, and assigned exercises and discussion.

ARTH 4604 Contemporary Art 3 Credits (3-0-3)
This course will study recent literature in American Art/ Visual Culture and related social and cultural history from 1880 to present day. The course will address works in historical, institutional, and methodological contexts. As a case study rather than a survey seminar, there are several overlapping themes: tradition and realism, versus abstract modernism in representation, and as social issues of gender, class, domesticity, labor, and consumer culture.

**Art**

ARTS 1010 Drawing I 3 Credits (3-0-3)
Basic drawing materials and techniques. Elements and principles of art are studied through still life and nature subject matter. Introduction to computer drawing is optional.

ARTS 1011 Drawing II 3 Credits (3-0-3)
An introduction to the study of landscape and the human figure. Elements and principles of design will be reviewed. The course explores various materials and techniques. Basic introduction to computer drawing is optional. Prerequisite(s): ARTS 1010

ARTS 1030 3D Design 3 Credits (3-0-3)
Three-dimensional design is a course designed to develop a fundamental understanding of a variety of techniques, processes, and styles used in traditional and contemporary approaches in sculpture. With special consideration to spatial concepts, students will utilize the elements and principles of art to create three-dimensional objects. As well as practical application of techniques, each student will learn to critically write and speak about their own work and the work of other artists. Throughout this course, students will be challenged to become sensitive to formal and conceptual concerns in art, while investigating the technical aspects of three-dimensional media.
ARTS 1060  Color/Composition  3 Credits (3-0-3)
Designed for students to study and explore the basic elements, principles, materials and techniques of two-dimensional visual art. The course also includes explorations and discussion of color and color theory. The course allows students to study the critical components of two-dimensional design and the role of color within a composition.

ARTS 1101  Introduction to Visual Arts  3 Credits (3-0-3)
Introduction to Art is a lecture course with some opportunity for studio experiences and web enhanced assignments. The course explores the basic elements and principles of two and three-dimensional art. The study of various materials and techniques used in the graphic and plastic arts is included. Students will develop skills in translating art concepts into art products and study artists who created major styles and art movements. Individual field trips to city and state galleries and museums are anticipated. The works of contemporary African-American artists are highlighted.

ARTS 2800  New Media Design  3 Credits (3-0-3)
Provides experiences in significant design media. Through the exploration of various digital media applications students will learn to navigate vast digital environments in order to isolate the tools needed to solve design dilemmas.

ARTS 3012  Life Studio  3 Credits (3-0-3)
This course studies drawing and painting of the human figure form. The course will study advanced problems in drawing and composition of the human figure. Following initial review, the student may choose an individual medium of study with the approval of the instructor.

Prerequisite(s): ARTS 1010, 1011

ARTS 3101  Painting I  3 Credits (3-0-3)
Painting media and techniques of oil, acrylic, or watercolor.
Prerequisite(s): ARTS 1010

ARTS 3122  Painting II  3 Credits (3-0-3)
A continuation of Painting I with an emphasis on development of individual expression, problem solving and style in composition: figure, landscape, portrait and still life. Painting II is an exploration of content issues in art. Students will be expected to work consistently and independently each week. Class sessions will provide individual and class critiques, painting demonstrations, museum visits, and lectures on artists and painting concepts. An observational approach will utilize the human figure, still-life, and landscape, however, different directions in both form and content will be discussed, and can be explored in many of the projects.
Prerequisite(s): ARTS 3101

ARTS 3201  Photography I  3 Credits (3-0-3)
An introduction to photographic processes through a combination of lectures, demonstrations, assignments and critiques, with an emphasis on creative use of camera controls, exposure and digital imaging software. Students learn to see photographically through an exploration of the basic tools, techniques and aesthetics of traditional and digital photography, and an awareness of the African American contribution to photography.

ARTS 3211  Photography II  3 Credits (3-0-3)
Building on the foundations of Photography I, students are challenged to build their vocabulary of photography through a combination of lectures, demonstrations, assignments, and critiques, with an emphasis on creative use of camera controls, exposure digital imaging software and hybrid techniques. Students have the opportunity to pursue more individual concerns in tandem with class directed assignments. In conjunction with increased technical proficiency, students will expand critical awareness through the investigation of conceptual, historical and contemporary art issues, ultimately increasing professionalism and the development of a personal aesthetic.
Prerequisite(s): ARTS 3201 or permission from instructor with portfolio samples

ARTS 3212  Forensic Photography  3 Credits (3-0-3)
This course will examine the techniques, methods, and ethical issues of photographic applications in forensic science, focusing on practical investigative applications as well as historic photography analysis and documentation. Students
will gain experience through hands-on studio/lab and field assignments. Prosumer SLR camera and flash system required.

Prerequisite(s): ARTS 3201

**ARTS 3301 Printmaking I**

An introduction to printmaking processes and equipment with equal emphasis on concept and technique. No prior printmaking experience required. This course provides the opportunity to explore various forms of print media for those who are interested in gaining a basic understanding of printmaking. Demonstrated methods include various approaches in each media.

**ARTS 3311 Printmaking II**

Continuation of printmaking processes and equipment covered in Printmaking I with equal emphasis on concept and technique. This course provides the opportunity for students to enhance their proficiency of print processes, and a further investigation of the Southern African American Printmaker. Demonstrated methods include various approaches in each media. Course will be limited to 15 students.

Prerequisite(s): ARTS 3301

**ARTS 3401 Sculpture I**

Comprehensive course designed to develop a basic understanding of a variety of techniques, processes, and styles in sculpture. Each student will be challenged to become sensitive to formal and conceptual concerns in sculpture, while investigating the technical aspects of art. In conjunction with various techniques, students will utilize formal and conceptual concerns found in art to gain practical experience in producing work. As well as the hands on exploration of the medium, each student will learn to critically write and speak about their work and the work of other artists. Demonstrated methods include basic carving, molds making, casting, and welding.

**ARTS 3411 Sculpture II**

Building on the foundation of Sculpture I, students are challenged to expand their vocabulary of sculptural form and concept. Intermediate sculpture encourages the student to develop a personal direction in tandem with class directed assignments which have an emphasis on expanding technical and conceptual possibilities. In conjunction with increased technical proficiency, students will expand critical awareness through the investigations of conceptual, historical and contemporary art issues, ultimately increasing professionalism and the development of a personal aesthetic.

Prerequisite(s): ARTS 3401

**ARTS 3601 Illustration I**

Exploration of illustration as a means of communicating ideas in nonverbal/pictorial ways. A variety of drawing styles, techniques, and materials will be explored in creation of drawings and illustrations for this class.

**ARTS 3611 Illustration II**

Continuation of concepts and techniques covered in ARTS 3601. Students will continue to explore various materials and techniques used in illustration, with an emphasis on development of a personal artistic style. Students will have the opportunity to create illustrations for multiple purposes, including projects that focus on illustration as a storytelling, educational and emotional medium.

Prerequisite(s): ARTS 3601

**ARTS 3701 Ceramics I**

A comprehensive course designed to develop a basic understanding of a variety of techniques and processes in clay. Each student will be challenged to become sensitive to the inherent qualities of clay, become proficient in glazing techniques and will be exposed to firing processes. In conjunction with these various techniques, student will utilize formal and conceptual concerns found in art to gain practical experience in producing work. As well as the hands on exploration of the medium, each student will learn to critically write and speak about their work and the work of other artists. No prior ceramics experience is required. Demonstrated methods include basic throwing, various hand building techniques, kiln firing, and glaze application.
Building on the foundation of Introduction to Ceramics, students are challenged to expand their vocabulary of ceramic form and texture. Hand building and wheel throwing techniques will be explored for both vessel and sculptural work. Technical understanding of surface treatments, firing techniques, glaze formulation and ceramic processes are emphasized as tools used toward formal and conceptual success. Students have the opportunity to pursue more individual concerns in tandem with class directed assignments. In conjunction with increased technical proficiency, students will expand critical awareness through the investigation of conceptual, historical and contemporary art issues, ultimately increasing professionalism and the development of a personal aesthetic. 

Prerequisite(s): ARTS 3701

This course will address fundamental, theoretical, and practical questions that result from one’s participation in the arts. Participants will examine their own views and others’ aesthetic values as a means of understanding the arts through a multicultural and cross-cultural perspective. Students will also investigate the issues that affect arts organizations within the immediate community and issues relating to current, national and international events in which human values are materialized in art. Emphasis will be placed on field trips to local art institutions and participation at events as well as thinking and writing critically about the arts. 

Prerequisite(s): ARTH 4603

This is a one-semester introduction course to astronomy. Some of the topics to be covered include: sun, planets and moons; origin of the solar system; nature and evolution of stars; exploding stars; stellar remnants, including white dwarfs, neutron stars, and black holes; molecules in space; galaxies and quasars; past and future of the Universe; and life in the Universe. A field trip to the Planetarium may be required.

This course provides an overview of careers in Behavior Analysis and psychology. The content includes ethical considerations for those conducting research or in applied practice. Additionally, content covers system support available for those practicing in the field, such as competency-based training, performance monitoring, and procedural integrity.

This course is designed to provide the basic characteristics, concepts, and principles of Behavior Analysis. This course will offer explanation of operant contingencies and include reinforcement, punishment, antecedent control, and behavior consequences. The course includes initial exposure to measurement of behavior and display and interpretation of behavior data. Also included are the seminal works of the founders of Behavior Analysis. 

Prerequisite(s): BEHV 1101 and BEHV 2000 (grade of C or better)
A practical focus on the context of statistics in behavioral research, with an emphasis on looking at data before jumping into a test. This course provides students with an understanding of the logic behind the statistics: why and how certain statistical methods are used rather than just doing techniques by rote. Students move beyond number crunching to discover the meaning of statistical results and how they relate to the research questions being asked. Students will engage with real data and research studies as a base and move through analyses of data.

Prerequisite(s): MATH 1001 or MATH 1101 or MATH 1111 or MATH 1113; Declared Behavior Analysis Major

BEHV 2105 \textbf{Research Methods \& Behavior Science} \hspace{1cm} 3 \text{ Credits} \hspace{1cm} (3-0-3)

This course is concerned with the research methods scientists use to study behavioral phenomena. In covering the course content, we will seek a balance between abstract models of science, the practical concerns of the working scientist, and the role that each of us plays as a consumer of science. The readings and presentations will consider conceptual and practical issues relevant to various approaches to behavioral research and the written assignments will amplify these issues as well as provide you with firsthand experience measuring behavior, analyzing data, and reporting behavioral science findings.

Prerequisite(s): BEHV 1101, BEHV 2000, BEHV 2103 Declared Behavior Analysis Major

BEHV 2106 \textbf{Research Design and Data Analysis} \hspace{1cm} 3 \text{ Credits} \hspace{1cm} (3-0-3)

The first course in two-course sequence that introduces the skills behavioral scientists use to conduct research. This first course focuses on the basic philosophy of research, ethics, critical thinking, scientific literacy, and how to organize data with descriptive statistics.

Prerequisite(s): BEHV 1101; ENGL 1101; Area A MATH

BEHV 3103 \textbf{Measurement in Behavior Analysis} \hspace{1cm} 3 \text{ Credits} \hspace{1cm} (3-0-3)

This course provides techniques for measurement of behavior, displaying and interpreting behavioral data, and experimental evaluation of interventions. Specifically, the course includes selecting and defining target behaviors, examination of single-subject experimental designs, and planning and evaluating behavior analysis research. Also included are reviews of recent literature to support course content.

Prerequisite(s): BEHV 1101, BEHV 2000, BEHV 2103, BEHV 3104; Declared Behavior Analysis Major

BEHV 3104 \textbf{Behavior Change in Behavior Analysis} \hspace{1cm} 3 \text{ Credits} \hspace{1cm} (3-0-3)

This course is designed to teach the methods for behavioral assessment, selecting intervention outcomes, and behavior change procedures. Specifically, course content includes functional analyses, environmental factors in interventions, and behavior change techniques such as the Premack principle, differential reinforcement, schedules of reinforcement, and shaping. Also included are reviews of recent literature to support course content.

Prerequisite(s): BEHV 1101 and BEHV 2000

BEHV 3105 \textbf{Learning and Motivation} \hspace{1cm} 3 \text{ Credits} \hspace{1cm} (3-0-3)

The primary focus of the course is on basic processes in learning and motivation. Emphases will be on theoretical and experimental analyses of behavior, the practical applications of the theoretical perspectives, and behavioral psychology.

Prerequisite(s): BEHV 1101 and BEHV 2000; Declared Behavior Analysis Major

BEHV 3106 \textbf{Behavior Neuroscience} \hspace{1cm} 3 \text{ Credits} \hspace{1cm} (3-0-3)

This course covers the concepts, methods and data of behavioral neuroscience. The focus is on biological factors, their interactions with each other and the environment, and how they support behavior and behavior change. Topics will include the anatomy and physiology of the nervous system, their role in fundamental behavioral processes (e.g., reinforcement), and behavioral pharmacology.

Prerequisite(s): BEHV 1101, BEHV 2000 and BEHV 3105; Declared Behavior Analysis Major

BEHV 3117 \textbf{Behavior Assessment \& Behavior Change} \hspace{1cm} 3 \text{ Credits} \hspace{1cm} (3-0-3)

Topics include direct observation methods, data analysis, experimental design, functional assessment, stimulus preference assessment, and ethics and professional issues.

Prerequisite(s): BEHV 1101, BEHV 2000, BEHV 2103, BEHV 3103, and BEHV 3104
BEHV 3118 Multicultural & Social Issues in Behavior Analysis 3 Credits (3-0-3)
This course is designed to identify and explore issues, strategies and successes with multicultural and minority clientele. It will prepare students to recognize and respond to factors that may affect the application of behavior analysis principles within and across community settings and focuses on research and best practices related to cultural competence in assessment and treatment as behavioral consultants. Community contexts and settings considered in this course include families and family homes, schools, service agencies and facilities; neighborhoods with district cultural identities; and places of employment, recreation, and commerce.  
Prerequisite(s): BEHV 1101 and BEHV 2000

BEHV 3710 Autism Spectrum Disorders 3 Credits (3-0-3)
This course will provide a comprehensive, research-based overview of Autism Spectrum Disorders allowing students to understand the disorder, the range of characteristics, and the issues faced by families of children with autism. This course will explore design, delivery and evaluation of instruction for individuals with autism spectrum disorders, use of assistive technology and augmentative communication and implementation of functional behavior assessment and positive behavior support for children and adults.  
Prerequisite(s): BEHV 2000

BEHV 3720 Community Applications of Behavior Analysis 3 Credits (3-0-3)
The course provides an overview of community psychology from a behavior analytic perspective. This course will cover a number of areas where behavior analysis can make a difference in solving socially important issues at the community level. The focus of the course will be on reviewing the research that has been conducted in the field and developing new ideas for addressing problems in the community.  
Prerequisite(s): BEHV 2000

BEHV 3730 Organizational Behavior Management 3 Credits (3-0-3)
The course provides an overview of the field of Organizational Behavior Management (OBM). OBM is one area of Applied Behavior Analysis with a focus on behavior in the workplace. This class will review how the principles of Behavior Analysis are applied in the business and provide specific examples of how performance management works. In addition, the effectiveness of common practices within the work environment will be evaluated.  
Prerequisite(s): BEHV 2000

BEHV 3740 Behavior Ethics 3 Credits (3-0-3)
This course will familiarize the student with the ethical issues involved in the provision of behavioral services and research with human and animal populations. Special consideration of the responsibilities required of applied behavior analysts by the Behavior Analyst Certification Board (BACB) will be given. Informed consent, protection of confidentiality, conflict of interest, and selection of least intrusive, least restrictive behavior change procedures will be presented and discussed within the context of case method. Ethical decision making processes will be emphasized.  
Prerequisite(s): BEHV 1101, BEHV 2000 and BEHV 3104

BEHV 3750 Science, Skepticism, and Critical Thinking 3 Credits (3-0-3)
In this class we will utilize scientific critical thinking to learn about how our brain can trick us, how to recognize when it has, and how we can make good decisions anyway. The main goal is to teach you how to think critically about claims you encounter and how skeptical thinking should be used in your daily and professional life.  
Prerequisite(s): BEHV 1101

BEHV 4000 Selected Topics in Behavior Analysis 3 Credits (3-0-3)
An in depth study of current topics in behavior analysis. This course may be repeated for credit with different topics.  
Prerequisite(s): Specific prerequisites will depend on the topic.

BEHV 4212 Internship/Research in Behavior Analysis 3 Credits (3-0-3)
An experiential learning arrangement during which the student is expected to apply knowledge acquired in BEHV classes. It may involve off-campus placement in an organization under faculty supervision or working with faculty on various types of projects on campus. This course may be repeated for credit, up to 12 credit hours.

Prerequisite(s): BEHV 1101 and BEHV 2000; additional specific prerequisites will depend on the specific placement/project.

**BEHV 4213 Research Seminar 4 Credits (4-0-4)**
The study and application of qualitative and quantitative research methods used in the social sciences for measurement, analysis and inferences of data. Emphasis on computer applications for analysis of and presentation of research data. Students will have opportunities to conduct action-oriented research projects and to prepare written reports in appropriate formats.

*Prerequisite(s):* BEHV 1101, BEHV 2000, BEHV 2103, BEHV 3103, and BEHV 3104

---

**Interdisciplinary Studies**

**BIDS 2000 Introduction to Interdisciplinary Studies 1 Credit (1-0-1)**
The purpose of this course is twofold. First, students will be introduced to the specifics of the interdisciplinary studies program and degree requirements. Second, students will be introduced to interdisciplinary studies and design their academic plans of study.

**BIDS 3000 Foundations in Interdisciplinary Studies 3 Credits (3-0-3)**
Students will be introduced to different approaches to interdisciplinary studies and learn the fundamentals of interdisciplinary research, as well as some of its more useful applications: personal assessment and career development. Students will also plan career goals and establish their BIDS portfolios.

*Prerequisite: BIDS 2000*

**BIDS 4000 Seminar in Interdisciplinary Studies 3 Credits (3-0-3)**
This required capstone course engages interdisciplinary study degree students in an analysis of their program of study through a process of synthesis and reflection focused on their learning outcomes and career goals.

*Prerequisites: BIDS 3000 and completion of 90 semester credit hours*

**BIDS 4100 Internship Capstone with Seminar 1-13 Credits (V-0-V)**
This elective course provides Interdisciplinary Studies students with the opportunity to apply the knowledge and skills acquired through academic preparation at a host site as an apprentice to develop career-ready skills.

*Prerequisites: BIDS 3000 and completion of 90 semester credit hours*

**BIDS 4200 Special Topics 1-12 Credits (V-0-V)**
This course offers in-depth exploration of a special topic, issue or trend in interdisciplinary studies and may integrate two or more disciplines. Repeatable to a maximum of 12 semester hours for different special topics.

---

**Biology Education**

**BIED 2201 Biology Literacy for Diverse Learners 3 Credits (3-0-3)**
This course explores methods of teaching secondary students to read, write, think, and learn to master content towards meaningful application aiding in furthering scientific understanding. Teacher candidates will learn to plan lessons and activities that reach diverse learners to teach content with practices that promote the attainment of literacy. Classroom adaptations for culturally and linguistically diverse population in the content areas are also addressed.

**BIED 3002 Connections in Secondary Science 3 Credits (3-0-3)**
This course, guided by NSTA standards, blends best practices in teaching science concepts (cell biology, genetics, evolution, scientific inquiry, organismal biology, and ecology) and bridges connections in science with technology,
This course focuses on topics in education or topics in the major content area of education.

This is an examination and application of curricular issues, learning theories, teaching strategies, instructional materials, and assessment procedures associated with teaching secondary mathematics in the multicultural and diverse classroom of today. The course emphasizes those practices recommended by research in math education and NCTM Principles and Standards. Candidates examine aspects of math classroom practice from various perspectives. The eportfolio is required for all education courses.

Prerequisite(s): Admission to Teacher Education
Corequisite: BIED 4417

This course is designed to provide teacher candidates with experience in a supervised school setting where they will show active involvement with mentor teachers in creating and teaching lessons and assessing student learning to guide instruction. Students will learn how to implement meaningful and engaging instruction for secondary students in biology using inquiry and discovery to develop critical thinking, problem solving, and scientific literacy skills. Verification of professional liability insurance and a clear criminal background check are required prior to receiving a school placement. The e-portfolio is required for all education courses. There are 160 field experience credits in this course. The course cannot be passed without completion of the field experience credits. Verification of professional liability insurance and a clear criminal background check are required prior to receiving a school placement.

Prerequisite(s): Admission to Teacher Education
Corequisite: BIED 4416

Introduction to the biological sciences, career exploration, and the responsibilities of professionals in these careers. Freshman elective course for Biology Major.

Chemistry of life cell, structure and function, metabolism, cellular respiration, photosynthesis, plant and animal organization and growth, origin and evolution of life, ecosystems, and the biosphere.

Corequisite: BIOL 1103L

Lab taken concurrently with BIOL 1103.
Corequisite: BIOL 1103

Human organization, functions of various organ systems in humans, development, the biosphere and inheritance, and human population concerns.

Corequisite: BIOL 1104L

Lab taken concurrently with BIOL 1104.
Corequisite: BIOL 1104

BIOL 3201  
**Cell Biology**  3 Credits  (3-0-3)
An overview of eukaryotic cells, with an emphasis on animal cells. Analysis of the anatomy and physiology of cells and subcellular components, including molecular, biochemical and evolutionary perspectives.  
*Prerequisite(s):* CHEM 1212 and BIOL 1108  
*Corequisite: BIOL 3201L*

**BIOL 3201L**  
**Cell Biology Laboratory**  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 3201.  
*Corequisite: BIOL 3201*

**BIOL 3211**  
**Zoology**  3 Credits  (3-0-3)
A study of major phyla of invertebrate animals, morphology, physiology, life histories, and taxonomic relationships of selected representatives of groups and an intense survey of the morphology, taxonomy, physiology, behavior, and ecology of the chordates, with attention given to basic principles and theories.  
*Prerequisite(s):* BIOL 1108  
*Corequisite: BIOL 3211L*

**BIOL 3211L**  
**Zoology Lab**  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 3211.  
*Corequisite: BIOL 3211*

**BIOL 3301**  
**Genetics**  3 Credits  (3-0-3)
The principles of genetic analysis and the nature of genes. Discussion of the chromosomal and the molecular basis of transmission, replication, mutation, and expression of heritable characteristics. Includes modern developments in genetics, such as the physical nature and fine structure of the gene, its relationship to proteins, protein synthesis, growth, and differentiation and regulation of gene function.  
*Prerequisite(s):* BIOL 1108  
*Corequisite: BIOL 3301L*

**BIOL 3301L**  
**Genetics Lab**  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 3301.  
*Corequisite: BIOL 3301*

**BIOL 3321**  
**Microbiology**  3 Credits  (3-1-3)
Introduction to origin, diversity, anatomy, and physiology of microorganisms, principles of immunology, environmental and applied microbiology.  
*Prerequisite(s):* BIOL 1108  
*Corequisite: BIOL 3321L*

**BIOL 3321L**  
**Microbiology Lab**  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 3321.  
*Corequisite: BIOL 3321*

**BIOL 3401**  
**Ecology & Evolutionary Biology**  3 Credits  (3-0-3)
Mechanisms of evolution in relation to the genetics of plants, animals, and man, speciation and natural selection, ecological processes in the development, structure, and organization of biomes, biogeography, population ecology, communities, and ecosystems, species interactions, and the evolution of behavior.  
*Prerequisite(s):* BIOL 1108  
*Corequisite: BIOL 3401L*

**BIOL 3401L**  
**Ecology & Evolutionary Biology Lab**  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 3401.  
*Corequisite: BIOL 3401*
Molecular Evolution is a study of genetic and epigenetic changes that define the modern synthesis of evolutionary change. Material will be reviewed to study changes in DNA within an organism, including population structure, geographic distribution, and systematics. Also, comparisons between organisms will be covered to review changes to DNA structures. Overall, the students will gain an appreciation of the fluid nature of DNA changes over time within all species.

**Prerequisite(s):** BIOL 3301 and BIOL 3301L

**Introduction to Genomics**

Introduction to Genomics is a study of genomes. The course discusses the structure, function, and evolution of genomes, and introduces the latest techniques that are used to explore the genomes. The course will increase students' understanding of the application of genomics in our health and well-being.

**Prerequisite(s):** BIOL 3301 and BIOL 3301L

**Animal Behavior**

Ethological approach to animal behavior; physiological, ontogenetic, and phylogenetic causes and adaptive significance of behavior are examined. Principles of animal behavior are studied, emphasizing social organization, communication, and genetic development.

**Prerequisite(s):** BIOL 1108

**Corequisite:** BIOL 3501L

**Animal Behavior Lab**

Lab taken concurrently with BIOL 3501.

**Corequisite:** BIOL 3501

**Vertebrate Anatomy**

Comparative studies of structures across the vertebrate phylum. Includes analysis of evolutionary changes in vertebrates.

**Prerequisite(s):** BIOL 1108

**Corequisite:** BIOL 3511L

**Vertebrate Anatomy Lab**

Lab taken concurrently with BIOL 3511.

**Corequisite:** BIOL 3511

**Biocomputing**

An introduction to a broad range of computational tools and methods, which can be used to solve biological and statistical problems. Emphasis on computational analysis of nucleic acid and protein structure, and structure-function relationships.

**Prerequisite(s):** CSCI 1130 and BIOL 1108

**Urban Health & Hygiene**

An introduction to a variety of environmental and occupational health hazards of an urbanized society. Covers biological and health effects of environmental pollutants, disease vectors, food and housing sanitation, and principles of industrial hygiene. Social and psychological stresses, environmental health planning, and management are also discussed.

**Prerequisite(s):** Junior standing

**Bioethics**

A course designed to promote responsible conduct of science. Topics covered include scientific integrity, misconduct in science, conflict of interest, plagiarism, informed consent, data management, animal welfare, laboratory safety, responsible authorship, intellectual property, copy rights and patents.

**Prerequisite(s):** Instructor's approval
BIOL 3801  Animal Physiology  3 Credits  (3-0-3)
A study of vertebrate systemic physiological processes. Topics covered are bioenergetics, temperature regulation, endocrine control mechanisms; digestive, urinary, cardiac, respiratory, excretory, and reproductive systems, membranes, and neurophysiology.
Prerequisite(s): BIOL 3201
Corequisite: BIOL 3801L

BIOL 3801L  Animal Physiology Lab  1 Credit  (0-1-1)
Lab may be taken concurrently with BIOL 3801.
Corequisite: BIOL 3801

BIOL 4100  Directed Study  1-4 Credits  (V-0-V)
Directed Study allows the student to explore a topic of interest under the close supervision of a faculty member. The course may include directed readings, applied work, assisting a faculty member with a research project, carrying out a directed research project, or other activities deemed appropriate. Regardless of the nature of the experience, the work must culminate in a formal paper. The specific course requirements are described in the Directed Study Proposal form to be completed by the student and faculty supervisor.

BIOL 4201  Toxicology  3 Credits  (3-0-3)
General principles of toxicology, testing procedures, target organs, toxic substances, and risk assessment. Emphasis is on the mechanisms involved in chemical carcinogenesis, mutagenesis, and teratogenesis.
Prerequisite(s): BIOL 1108 and CHEM 2511

BIOL 4211  Reproductive Biology  3 Credits  (3-0-3)
Comparative anatomy, physiology, and endocrinology of male and female reproductive systems with emphasis on gametogenesis, early embryonic development, and mechanisms of birth control in humans.
Prerequisite(s): BIOL 3201
Corequisite: BIOL 4211L

BIOL 4211L  Reproductive Biology Lab  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 4211.
Corequisite: BIOL 4211

BIOL 4270  Mycology  3 Credits  (3-0-3)
Ecology, physiology systematics, development of micro-fungi and organisms of general, industrial, and economic importance.
Prerequisite(s): BIOL 3321
Corequisite: BIOL 4270L

BIOL 4270L  Mycology Lab  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 4270.
Corequisite: BIOL 4270

BIOL 4301  Biotechnology-An Overview  3 Credits  (3-0-3)
An overview of principles and techniques involved in biotechnology. The impact of biotechnology on mankind, with reference to its applications in agriculture, medicine, horticulture, forestry, fisheries, and environmental protection is discussed.
Prerequisite(s): BIOL 3201, 3301 or CHEM 3801
Corequisite: BIOL 4301L

BIOL 4301L  Biotechnology-An Overview Lab  1 Credit  (0-1-1)
Lab taken concurrently with BIOL 4301.
Corequisite: BIOL 4301
A basic understanding of molecular biology and its applications, concepts and principles of recombinant DNA technology, its relevance to generic engineering, and its uses in basic and applied biology. Molecular mechanisms of gene transfer, integration and expression of foreign gene(s) in target tissues/organisms.

Prerequisite(s): BIOL 3201, BIOL 3301, BIOL 4301, or CHEM 3801
Corequisite: BIOL 4411L

Lab taken concurrently with BIOL 4411.
Corequisite: BIOL 4411

Principles and applications of biotechnology/molecular biology laboratory methods. Use recombinant DNA technology, gene transfer, regeneration of transgenics, analysis of transgene expression, and other related techniques in biotechnology/molecular biology research.

Prerequisite(s): BIOL 4301 or BIOL 4411, junior standing and the consent of the instructor

A study of neural function from the cellular through the behavioral levels. Analysis of neural structures and functions from the perspectives of electrophysiology, neurotransmitter mechanisms and pharmacology, neural networks, and comparative neuroanatomy.

Prerequisite(s): BIOL 3201, BIOL 3511
Corequisite: BIOL 4601L

Lab taken concurrently with BIOL 4601.
Corequisite: BIOL 4601

The study of organismal development, with an emphasis on animal systems. Course will include an analysis of genetic and hormonal factors during embryonic differentiation, with a perspective on phylogenetic relationships.

Prerequisite(s): BIOL 3201, 3301, 3511
Corequisite: BIOL 4611L

Lab taken concurrently with BIOL 4611.
Corequisite: BIOL 4611

Physiology of the endocrine glands and their control of metabolism and reproductive cycles.

Prerequisite(s): BIOL 3201, 3801
Corequisite: BIOL 4631L

Lab taken concurrently with BIOL 4631.
Corequisite: BIOL 4631

General principles of parasitism; classification, morphology, and life cycle of parasites of vertebrates, and immuno-parasitology.

Prerequisite(s): BIOL 1108
Corequisite: BIOL 4641L

Lab taken concurrently with BIOL 4641.
Corequisite: BIOL 4641L
Lab taken concurrently with BIOL 4641.
Corequisite: BIOL 4641

**BIOL 4651**  
**Physiological Chemistry**  
3 Credits  
(3-0-3)
Advanced biological chemistry, emphasizing intermediary metabolism, and regulation of metabolic pathways. New developments in metabolism, role of enzymes and enzyme kinetics involving chemistry of liver, kidney, and respiratory functions will be stressed.  
Prerequisite(s): BIOL 3201  
Corequisite: BIOL 4651L

**BIOL 4651L**  
**Physiological Chemistry Lab**  
1 Credit  
(0-1-1)
Lab taken concurrently with BIOL 4651.  
Corequisite: BIOL 4651

**BIOL 4681**  
**Immunology**  
3 Credits  
(3-0-3)
Introduction to the study of infection and immunity in disease, cell-mediated and humoral immunity, immunological methods, and immunochemistry.  
Prerequisite(s): BIOL 3201, BIOL 3321  
Corequisite: BIOL 4681L

**BIOL 4681L**  
**Immunology Lab**  
1 Credit  
(0-1-1)
Lab taken concurrently with BIOL 4681.  
Corequisite: BIOL 4681

**BIOL 4701**  
**Molecular Genetics**  
3 Credits  
(3-0-3)
A study of molecular basis of inheritance with emphasis on the chemical nature of the gene, DNA replication, transcription, translation, and regulation of gene expression. The practical aspects include gene cloning, sequencing, and other recombinant techniques.  
Prerequisite(s): BIOL 3301  
Corequisite: BIOL 4701L

**BIOL 4701L**  
**Molecular Genetics Lab**  
1 Credit  
(0-1-1)
Practical laboratory exercises in gene cloning, sequencing and other recombinant DNA techniques.  
Corequisite: BIOL 4701

**BIOL 4711**  
**Molecular Biology**  
3 Credits  
(3-0-3)
Detailed analysis of structure and ultrastructure of the cell; biochemistry, biophysics, physiology, and molecular genetics.  
Prerequisite(s): CHEM 2501, BIOL 3201, BIOL 3301  
Corequisite: BIOL 4711L

**BIOL 4711L**  
**Molecular Biology Lab**  
1 Credit  
(0-1-1)
Lab taken concurrently with BIOL 4711.  
Corequisite: BIOL 4711

**BIOL 4721**  
**Physiological Ecology**  
3 Credits  
(3-0-3)
A study of the anatomical, biochemical, and physiological adaptation of plants and animals to specific environments. Emphasis on physiological problems faced by organisms common to the local salt marsh and marine environments. Design and completion of individual research projects including data analysis and presentation.  
Prerequisite(s): BIOL 3401/BIOL 3401L, CHEM 2501, MSCI 3401K

**BIOL 4900**  
**Special Topics**  
3-4 Credits  
(V-0-V)
Special topics within the biological and health sciences chosen by faculty members or resulting from student requests. This course will allow for current issues and/or trends in the discipline to be addressed, as well as to offer courses by visiting and adjunct faculty.

**BIOL 4921 Senior Seminar Research** 2 Credits (2-0-2)

Seminar Option: To conduct extensive literature search on a biology-related topic, process the scientific information and present a comprehensive review in a formal seminar and submit written report. Research option: To conduct independent research under the supervision of a mentor in a biology-related field and present research results in a formal seminar and submit written report.

*Prerequisite(s):* Completion of all 3000-level courses

**BIOL 4930 Senior Synthesis** 3 Credits (3-0-3)

A review of academic training in preparation for transition to the next professional level. Students will enroll in this course within 2 semesters of degree completion. Students will review degree material and complete the Department Exit Exam. A passing grade on the Department Exit Exam is required to pass the class. Graduate training and career options will also be explored.

*Prerequisite(s):* Completion of 3000 level of core curriculum

---

**Business Administration**

**BUSA 1101 Leadership & Professional Development I** 1 Credit (1-0-1)

This seminar is required of all undergraduate business students and should typically be taken during the freshman year. This first course serves as a prerequisite for the following course in the series. The courses are designed to help students identify, appreciate and capitalize on natural strengths that will enable them to communicate, learn, and think more effectively. Students will be able to make critical decisions more efficiently and set realistic goals for success in college and the world of work.

*Note: Course should not be taken by students who have completed BUSA 1103 Introduction to Business and Leadership (3 credits). Course should be taken by business students who have already completed 2 credits of Freshmen Experience.*

**BUSA 1103 Introduction to Business and Leadership** 3 Credits (3-0-3)

Introduction to Business is a combination of exposing students to business and leadership concepts. The course is designed to assist first year students in their adjustment and assimilation into the university and business environment. Students will be introduced to a series of individual and group experiences that will enhance self-motivation, identify learning styles and habits, develop academic mindset, management skills, interpersonal skills, enhance critical thinking, information literacy skills, business communication and writing, working in multicultural environment and adopt study skills for college success.

**BUSA 2105 Communicating in the Business Environment** 3 Credits (3-0-3)

An emphasis on both interpersonal and organizational communication through written and oral exercises appropriate to business practice.

*Prerequisite(s):* ENGL 1101, ENGL 1102, and CISM 1130 or CSCI 1130

**BUSA 2106 The Environment of Business** 3 Credits (3-0-3)

An introduction to the legal, regulatory, political, social, ethical, cultural, environmental, and technological issues which form the context for business and an overview of the impact of demographic diversity on organizations.

**BUSA 2182 Introduction to Business Statistics** 3 Credits (3-0-3)

An introduction to the methods of scientific inquiry and statistical inference. Subjects covered are sampling, parameter estimating, hypothesis testing, and determination of the nature and strength of relationships among variables, decision theory, time series analysis, and non-parametric methods. The course develops proficiency in the use of statistical software. Spreadsheets and statistical packages are used extensively.
**Prerequisite(s):** MATH 1113

**BUSA 2185**  
Introduction to Business Research  
3 Credits  (3-0-3)  
This course provides an introduction to research, its theoretical foundation and fundamental protocols. Students learn about research methodologies, the cyclical nature of applied research, and the iterative process of research writing. The course teaches students how to write a research proposal, it equips students to engage in independent research, and it assists students in cultivating a mentor-mentee relationship with a faculty advisor. The curriculum is sequential, helping students to identify a study topic, formulate research questions, conduct and synthesize a literature review, and select research designs and methodologies. Students also learn about other sections that convert a proposal into a full research paper: findings, discussion, conclusions, and references.  
*Prerequisite(s):* BUSA 2182

**BUSA 3000**  
Personal Finance  
3 Credits  (3-0-3)  
A course designed to acquaint non-business students with the tools and constructs necessary for economic survival. This course focuses on consumer credit, savings and investment, insurance, home ownership, and estate planning.  
*Prerequisite(s):* MATH 1111, CISM 1130 or CSCI 1130, and ENGL 1102

**BUSA 3145**  
Global Business Issues  
3 Credits  (3-0-3)  
A survey of environmental factors, such as culture, economics, law, and politics, affecting international business decision-making. The impact of the globalization of markets and competition as well as the increasing role of multinational corporations is emphasized.

**BUSA 4126**  
Business Policy  
3 Credits  (3-0-3)  
A capstone course in the College of Business Administration required of all seniors. The course integrates subject matter from the business core courses and other disciplines. This course focuses on integrated approaches to medium and long-term organizational challenges in a dynamic environment. Students develop managerial skills and learn to appreciate the role of all managers in the formulation and implementation of organizational strategies.  
*Prerequisite(s):* ACCT 2101, ACCT 2102, BUSA 2105, BUSA 2106, ECON 2105, ECON 2106, MATH 1113, BUSA 2182, FINC 3155, MGNT 3165 and MKTG 3175 (Other Area G courses must be completed prior to enrollment unless it is student’s graduating semester); Senior standing

**BUSA 4229**  
Administrative Practice & Internship  
3 Credits  (3-0-3)  
This course provides experiential learning in an employment setting, which is appropriate to the business student's academic program and career objectives. A minimum of 100 hours of relevant and practical work experience are required in a public or private organization, which has entered into a formal internship agreement with the College of Business Administration. The student intern will perform duties and services as assigned by the organization's supervisor and the COBA internship coordinator. In addition, the student intern may be required to attend seminars dealing with human relations, business etiquette, and professional and ethical responsibilities appropriate to the intern's major. Business students will be awarded 3 semester credit hours for successful completion of the internship. (A student cannot receive credit for both BUSA 4229 and CISM 4900).  
*Grading: Pass/Fail*  
*Prerequisite(s):* MGNT 3165, Permission of COBA Dean

**BUSA 4999**  
Study Abroad  
3 Credits  (3-0-3)  
The SSU study abroad program takes place during the summer semester for a period of about four (4) weeks. Participants take courses in the history and culture of partnering countries (currently Brazil, the Caribbean, China, Ghana, and India) as well as in other areas of the academic curriculum. A typical course load consists of six (6) credit hours or two courses. COBA students will enhance their knowledge of other cultures through a three-hour history/culture courses, and will take the remaining three hours in a study abroad course in one of the business disciplines: accounting, management, marketing, or computer information systems. Through the study abroad program students can develop an in-depth appreciation of what it means to live and work in other cultures.  
*Prerequisite(s):* Permission of COBA Dean
**Chemistry**

Note: Unless otherwise noted, lecture courses meet three hours each week and carry three semester hour credits. Laboratory courses meet four hours each week and carry one semester hour credit.

**CHEM 0998**  
**Principles of Chemistry I Concept Development**  
1 Credit  
(1-0-1)

This course is a concurrent enrollment and co-requisite for Principles of Chemistry I (CHEM 1211/1211L), covering the fundamental principles and applications of chemistry to everyday life. It will act as a support to understanding fundamental chemistry concepts and nurture essential problem-solving techniques required for successful completion of CHEM 1211/1211L. The course will cover the following topics, but not limited to: scientific method, making measurements, the SI system, conversion factor, atomic and molecular structure, chemical formulas, chemical reactions, chemical equations, thermochemistry, quantum theory, electron configurations, periodicity, chemical bonding, states of gases, and states of matter and solutions.  
*Corequisite: CHEM 1211 and CHEM 1211L*

**CHEM 0999**  
**Principles of Chemistry II Concept Development**  
1 Credit  
(1-0-1)

This course is a concurrent enrollment and co-requisite for Principles of Chemistry II (CHEM 1212/1212L), covering the fundamental principles and applications of chemistry to everyday life. It will act as a support to understanding fundamental chemistry concepts and nurture essential problem-solving techniques required for successful completion of CHEM 1212/1212L. The course will cover the following topics, but not limited to: colligative properties, chemical reaction rates, chemical equilibrium, acid-base chemistry, solubility, thermodynamics, electrochemistry, and nuclear chemistry.  
*Corequisite: CHEM 1212 and CHEM 1212L*

**CHEM 1101K**  
**Introductory Chemistry**  
4 Credits  
(3-3-4)

Introduction to chemistry for non-science majors. Topics to be covered include atomic structure, periodicity, and chemical processes in the natural world. Laboratory exercises will supplement lecture material.

**CHEM 1211**  
**Principles of Chemistry I**  
3 Credits  
(3-0-3)

First course in a two-semester sequence covering the fundamental principles and applications of chemistry. This course covers composition of matter, stoichiometry, periodic relations, and nomenclature.  
*Corequisite: CHEM 1211L*

**CHEM 1211L**  
**Principles of Chemistry I Lab**  
1 Credit  
(0-4-1)

Laboratory exercises to supplement the lecture material of CHEM 1211.  
*Corequisite: CHEM 1211*

**CHEM 1212**  
**Principles of Chemistry II**  
3 Credits  
(3-0-3)

Second course in a two-semester sequence covering the fundamental principles and applications of chemistry.  
*Prerequisite(s): CHEM 1211*

*Corequisite: CHEM 1212L*

**CHEM 1212L**  
**Principles of Chemistry II Lab**  
1 Credit  
(0-4-1)

Laboratory exercises to supplement the lecture material of CHEM 1212.  
*Prerequisite(s): CHEM 1211L; CHEM 1211L*

*Corequisite: CHEM 1212*

**CHEM 2501**  
**Organic Chemistry I**  
3 Credits  
(3-0-3)

The first of two semester introductory courses covering the principles of organic chemistry. The properties, preparation, reactions, and interrelationships of the important classes of organic chemistry.  
*Prerequisite(s): CHEM 1212*

*Corequisite: CHEM 2501L*
CHEM 2501L Organic Chemistry I Lab 1 Credit (0-4-1)
Laboratory techniques in organic chemistry; synthesis and reactions of organic compounds and spectroscopic analysis. Lab taken concurrently with CHEM 2501.
Prerequisite(s): CHEM 1212L;
Corequisite: CHEM 2501

CHEM 2511 Organic Chemistry II 3 Credits (3-0-3)
A Continuation of Organic Chemistry I. (3-0-3)
Prerequisite(s): CHEM 2501
Corequisite: CHEM 2511L

CHEM 2511L Organic Chemistry II Lab 1 Credit (0-4-1)
A Continuation of Organic Chemistry Laboratory I.
Prerequisite(s): CHEM 2501L
Corequisite: CHEM 2511

CHEM 2601K Chemistry Research Methods 2 Credits (1-1-2)
Review of the research process. Construct a literature review, including the use of computer based tools, and critically analyze research papers. Introduction to performing systematic independent investigation, critically interpreting results in the context of previous studies, and communicating research results as a scientific report.
Prerequisite(s): CHEM 1212 and CHEM 1212L

CHEM 3101K Analytical Chemistry 4 Credits (3-2-4)
Prerequisite(s): CHEM 1212, CHEM 1212L

CHEM 3111K Instrumental Analysis 4 Credits (3-2-4)
Instrumental techniques used in chemical analysis with emphasis on accuracy and precision. Statistical and regression methods for the interpretation of data.
Prerequisite(s): CHEM 3101K

CHEM 3201K Inorganic Chemistry 4 Credits (3-2-4)
Fundamental principles of inorganic chemistry. Topics include electronic structure of atoms, inorganic bonding theories, group theory, coordination chemistry, and spectroscopic applications. The accompany lab reinforces concepts of the topics discussed in lecture course.
Prerequisite(s): CHEM 1212

CHEM 3401K Physical Chemistry I 4 Credits (3-2-4)
Thermochemistry, thermodynamics, equilibria, electrochemistry, kinetics and quantum mechanics.
Prerequisite(s): CHEM 1212, CHEM 1212L and MATH 2111

CHEM 3411K Physical Chemistry II 4 Credits (3-2-4)
Prerequisite(s): CHEM 3401K

CHEM 3522L Advanced Synthesis Laboratory 2 Credits (0-2-2)
The focus of this laboratory course will be on advanced synthetic methods in organic and biochemistry. A wide range of compounds will be synthesized and characterized using appropriate separation and spectroscopic techniques. The interpretation of spectroscopic spectra will be emphasized. There will be two three-hour labs per week.
Prerequisite(s): CHEM 2511 and CHEM 2511L

CHEM 3602K Chemical Research 2 Credits (1-1-2)
Supervised research including literature search, laboratory experimentation, and interpretation and presentation of results.

Prerequisite(s): CHEM 2101K, CHEM 2511, CHEM 2511L, CHEM 3201K and CHEM 3411K

**CHEM 3801** Biochemistry 3 Credits (3-0-3)
Structure and function of proteins, nucleic acids, carbohydrates, and lipids. Emphasis on mechanistic analysis of metabolic pathways and enzymes activity.

Prerequisite(s): CHEM 2511 and BIOL 1108

**CHEM 4211** Advanced Inorganic Chemistry 3 Credits (3-0-3)
Principles of inorganic chemistry with emphasis on atomic structure, chemical bonding, solid state, coordination chemistry, organic metallic chemistry, and acid-base theories. Chemistry of selected elements.

Prerequisite(s): CHEM 3201K

**CHEM 4411** Advanced Physical Chemistry 3 Credits (3-0-3)
The aim of this course is to further advance students’ understanding of the principles and applications of physical chemistry.

Prerequisite(s): CHEM 3411K

**CHEM 4531** Advanced Organic Chemistry 3 Credits (3-0-3)
Survey of modern organic synthesis with emphasis on mechanism of reactions.

Prerequisite(s): CHEM 2511

**CHEM 4532** Medicinal Chemistry 3 Credits (3-0-3)
Synthesis, structure, and mode of action of therapeutically active compounds. Design of pharmaceutical agents based on enzyme mechanism, structure activity relationships, and computer modeling.

Prerequisite(s): CHEM 2511 and CHEM 3801

**CHEM 4601** Polymer Chemistry 3 Credits (3-0-3)
Chemistry of polymers and the chemical and physical properties of polymers are discussed. Molecular weight characterization, structure and morphology and fabrication of polymer.

Prerequisite(s): CHEM 2511 and CHEM 3401

Corequisite: CHEM 4601L

**CHEM 4601L** Polymer Chemistry Lab 1 Credit (0-4-1)
Lab taken concurrently with CHEM 4601.

Prerequisite(s): CHEM 2511L

Corequisite: CHEM 4601

**CHEM 4801** Advanced Biochemistry 3 Credits (3-0-3)
Recent advances in medical biochemistry with clinical correlations. Biochemistry of metabolic diseases, neuroendocrine and reproductive biochemistry, signal transduction, receptor chemistry, transcriptional regulation, cancer biochemistry, and oncogenes and oncoproteins.

Prerequisite(s): CHEM 3801

**CHEM 4901** Chemical Seminar 1 Credit (1-0-1)
Modern development in specific subdivisions of the field of chemistry.

Prerequisite(s): Junior or senior standing

**CHEM 4902** Special Topics in Chemistry 3 Credits (3-0-3)
Discussion of current topics in organic, analytical, physical chemistry, biochemistry, or polymer chemistry.
Chinese

CHIN 1001 Elementary Chinese I 3 Credits (3-0-3)
An introduction to elementary Chinese. This course focuses on listening to, speaking, writing, and reading everyday Chinese. Lectures on Chinese civilization will be integrated into the language study. Not open to students who have more than one year of high school Chinese or who are natives of Chinese.

CHIN 1002 Elementary Chinese II 3 Credits (3-0-3)
A continuation of CHIN 1001 with more emphasis on writing. Intensive practice in grammar and composition will be required. Continuing study of Chinese culture. Not open to students who have more than one year of high school Chinese or who are natives of Chinese.
Prerequisite(s): CHIN 1001

CHIN 2001 Intermediate Chinese I 3 Credits (3-0-3)
Intensive review of grammar and sentence structure, with emphasis on writing, speaking, and reading. Some cultural aspects will also be studied.
Prerequisite(s): CHIN 1002 or two years of high school Chinese

CHIN 2002 Intermediate Chinese II 3 Credits (3-0-3)
Continuation of CHIN 2001.
Prerequisite(s): CHIN 2001

Computer Information Systems

CISM 1130 Introduction to Computer Applications 3 Credits (3-0-3)
An introductory course specially designed to help students become computer literate. The course covers the history of computers, hardware, software, and use of the state-of-the-art technology. Another unique feature of this course is that students use Internet, MS OFFICE applications using word processing, spreadsheets, and HTML language to create homepages.

CISM 2130 Business Information Systems 3 Credits (3-0-3)
This course will introduce the business student to the management information system theory, the hardware and software systems available for meeting the information systems requirements, and the use of application software (spreadsheets and databases) to solve information problems and meet requirements. The emphasis is primarily on using a microcomputer through practical, hands-on operation thereby providing experience in the use of computers in higher-level college courses and a business environment.
Prerequisite(s): CISM 1130 or CSCI 1130

CISM 2140 Introduction to Programming: Visual Basic 3 Credits (3-0-3)
Topics include the visual programming environment, event-driven programming, file processing, database processing, error handling, objects and class libraries.
Prerequisite(s): CISM 2130

CISM 3109/DATA 3109 Introduction to Data Analytics and Mining 3 Credits (3-0-3)
The aim of this hands-on course is to allow students to understand the foundational skills in data analytics, including but not limited to preparing and working with real-world data sets. Abstracting and modeling an analytic question; and using tools from statistics and data mining to address these questions. Students will study the entire data analysis process, from raw data mining to address these questions. Students will study the entire data analysis
process, from raw data to a deeper understanding of the patterns and structures within the data, and utilize
techniques that enable one to make predictions and data-informed decisions. At the end of the course, students
should feel comfortable using basic data mining techniques to answer questions about data using a statistical
software packages such as SAS Enterprise Miner, R. Tableau, and Microsoft Excel.

**Prerequisite:** MATH 1113 and CISM 1130/CSCI 1130 and BUSA 2182 or SOCI 2101 or MATH 1401

</table>
A course that examines current issues in CIS. Topics may include visual programming, RAD techniques, building Internet applications, and advanced networking techniques.  

*Prerequisite(s):* CISM 2130; Junior standing or 42-hour rule

**CISM 4150**  
*Network Administration*  
3 Credits (3-0-3)  
This course covers the day-to-day administrative tasks necessary to maintain a business computer network. Creating user and group accounts, profiles, and setting permissions are covered. Setting up and administering a network printer will be demonstrated. Resource auditing, backup and recovery, and monitoring resources will also be covered. Microsoft Windows NT will be the software tool used in this course.  
*Prerequisite(s):* CISM 3325

**CISM 4200**  
*Project Management*  
3 Credits (3-0-3)  
This course is designed to help students learn technologies and methodology to initiate, plan, monitor and execute projects. Students will learn and exercise to develop a comprehensive project plan, including tasks with time, cost, and quality measures throughout the course. Project management tools will be employed by the team to ensure tracking of the project and communication of project goals and accomplishments to the client. Students will learn from real-world cases and work on a number of software, including but not limited to, Microsoft products and Visio.  
*Prerequisite(s):* CISM 1130/CISM 1130 and CISM 2130 with grades of C or better or instructor approval

**CISM 4900**  
*Occupational Internship*  
3 Credits (3-0-3)  
This course is expected to serve as a supplemental source of learning and to enhance the student's academic program and career objectives. A minimum of 100 hours of relevant and practical experience are required in a public or private organization, which has entered into a formal internship agreement with the College of Business Administration. The student will perform duties and services as assigned by the work supervisor and internship coordinator. Reports and assignments are required to be completed by the students. General tasks include PC maintenance, software/hardware installation and upgrades, Web Page creation/maintenance, and Database creation and maintenance.  
*A student cannot receive credit for both BUSA 4229 and CISM 4900.*  
*Prerequisite(s):* CISM 2140, CISM 3137, and CISM 3325

**Civil Engineering Technology**

**CIVT 2109**  
*Introduction to Transportation Planning*  
3 Credits (3-0-3)  
This course introduces the fundamentals of transportation planning and explores a broad range of topics that touch on method, policy, process, and design. Different aspects of transportation planning as well as different modes of transportation and their components will be discussed. The course also covers basic knowledge of network modeling, travel demand forecasting, and systems evaluation. The interaction and contribution of transportation planning to other disciplines such as energy, economics, and health, and social life will be discussed. There will be a class project on how to use PTV Visum software for regional transportation planning

**CIVT 2113/DATA 2113**  
*Data Analytics in Transportation and Logistics*  
3 Credits (3-0-3)  
The purpose of this course is to provide students with a solid foundation in theory and application of transportation systems with a focus on data analytics. Data characteristics from a wide ranges of transportation areas including traffic flow, safety, and planning will be investigated, along with well-suited modeling and analysis techniques. Topics to be covered include sampling and data collection, descriptive statistics and data representation, fitting data to distributions, and regression analysis.  
*Prerequisite: MATH 1113 and CSCI 1130 or CISM 1130*
CIVT 3101K  Surveying  4 Credits  (3-2-4)
A comprehensive study of taping, leveling, angle, and direction measurements, theodolites, traverse measurements computation of coordinates, areas, and volumes; topographic surveying, contouring; tachometry, EDMs, and Total Stations route surveying; simple and transition horizontal and vertical curves; triangulation; introduction to aerial surveying and photogrammetric methods; introduction to GPS and GIS; use and care of instruments; computer applications.
Prerequisite(s): MATH 1113

CIVT 3109  Traffic Engineering & Analysis  3 Credits  (2-2-3)
Introduces traffic engineering as the application of engineering methods and techniques to identify the characteristics of people and vehicles while moving and interacting on transportation infrastructures.
Prerequisite(s): CIVT 2109

CIVT 3201K  Civil Engineering Materials  3 Credits  (2-2-3)
A comprehensive study of the physical, mechanical, and other important properties of materials; fabrication of method of manufacturer; durability and long-term performance, specifications and standards; laboratory testing procedures; applications or methods of use of various civil construction materials which include aggregates, concrete, cementitious materials, masonry, wood, bituminous, iron, and steel.
Prerequisite(s): MATH 1113

CIVT 3211  Construction Estimating & Management  3 Credits  (3-0-3)
Construction planning and management; contracting (types, methods, documents); specifications, mathematical techniques of construction cost estimating; preparation and submission of bid; construction scheduling (CPM); project administration (financial, personnel, claims and disputes, change orders, safety); computer applications.
Prerequisite(s): CIVT 3201K

CIVT 3301K  Fluid Mechanics  4 Credits  (3-2-4)
Elements of fluid mechanics; pressure measurement; hydrostatics; forces on submerged plane and curved surfaces, buoyancy; fluids in motion; hydraulic and energy gradients; forces exerted by jets on flat plates and curved vanes; orifices, notches and weirs; flow in pipes; simple pipe networks; open channel flow; pumps. Hydrologic cycle; precipitation data analysis; hydraulics of groundwater flow; equilibrium and non-equilibrium conditions; groundwater exploration; surface runoff; hydrographs; reservoir storage; flood routing; hydrological forecasting; computer applications.
Prerequisite(s): ENGT 3101 or ENGR 2201, and MATH 2111

CIVT 3311  Engineering Hydrology  3 Credits  (3-0-3)
Hydrologic cycle; water budget; precipitation data analysis; evaporation & transpiration; hydraulics of groundwater flow; equilibrium and non-equilibrium conditions; groundwater exploration; surface runoff; hydrograph analysis; flood routing; hydrological forecasting; and computer applications.
Prerequisite(s): CIVT 3301K

CIVT 3401K  Highway & Transportation Engineering  4 Credits  (3-2-4)
A study of several transportation modes. Emphasis will be placed on the linkage of these modes for the effective and economic movement of people, materials, and equipment. It will also include the fundamentals of highway design, layout, foundations, and pavements; grade intersections and separations; highway cross-sections, traffic and safety requirements.
Prerequisite(s): CIVT 3101K, CIVT 3201K, MATH 2111, and (ENGT 2101K or ENGR 2770)

CIVT 3501  Civil Engineering Computing Practices  3 Credits  (3-0-3)
A study of civil engineering software applications utilizing latest software packages. Emphasis will be on software that is used in local industry and the department of transportation. Course content will vary based on software packages used in the class.
Prerequisite(s): Junior Standing or Consent of the Instructor
CIVT 3601K  Soil Mechanics & Foundation Design  4 Credits  (3-2-4)
A study of engineering properties of soil as a construction material and foundations for buildings. Topics include
the soil classifications, Atterberg limits, shear strength, consolidations and settlement. This knowledge is then
applied to the design of various types of foundations such as spread footings, piles, earth retaining structures and
substructure elements.
Prerequisite(s): CIVT 3201K and ENGT 3601

CIVT 3701K  Structural Analysis  3 Credits  (2-2-3)
A comprehensive study of the behavior response of various structural forms that are employed, and an
enumeration of the various loading conditions that a structure must support. Emphasis will be placed on the
fundamentals and matrix method of structural analysis of simple and complex structural systems including trusses,
beams, frames, arches, cable structures, and influence lines. It will also cover an introduction to the theory of
statically indeterminate structures.
Prerequisites: ENGT 3601

CIVT 4100K  Structure Design  4 Credits  (3-2-4)
This class aims at providing students with a solid background on principles of structural engineering design.
Students will be exposed to the theories and concepts of both concrete and steel design and analysis both at the
element and system levels, in accordance to American Concrete Institute (ACI) and American Institute of Steel
Construction (ASCI) codes. Course content includes the introduction to steel and reinforced concrete structures
and members, ACI, ASD and LRFD structural load combinations, analysis and design of steel and reinforced
crete tension and compression members, reinforced concrete footings and retaining walls, one-way slabs, steel
base plate design, and practical applications of steel and reinforced concrete structures. Laboratory exercises are
required in this course and consist of structural design software as well as laboratory equipment to evaluate the
physical properties of steel and concrete members.

CIVT 4201K  Environmental Engineering I  4 Credits  (3-2-4)
Basic concepts of environmental interrelationships; principles of environmental chemistry, microbiology, ecology
and health; water quality parameters; water treatment processes; wastewater treatment processes; sludge treatment
and disposal; industrial waste waters; design of water, wastewater and sludge treatment units; water distribution
and wastewater collection systems; design principles; and computer applications.
Prerequisite(s): CIVT 3311

CIVT 4211  Environmental Engineering II  3 Credits  (3-0-3)
Water pollution; point and diffuse sources; river pollution and oxygen sag curve analysis; groundwater pollution
analysis; eutrophication of lakes; coastal pollution; solid wastes management (collection, storage and transport);
processing and transformation; incineration, composting, sanitary land filling; recycling; hazardous waste
management types; RCRA, CERCLA and others; treatment and disposal methods; air pollution (air pollutants and
interaction products); and preventive and control measures.
Prerequisite(s): CIVT 4201K or the consent of the instructor.

CIVT 4350  Civil and Environmental Systems Engineering  3 Credits  (3-0-3)
Introduction to application of systems approach and modeling techniques to problems in civil and environmental
engineering.
Prerequisite(s): CIVT 3211, ENGT 3701

**College of Liberal Arts and Social Sciences**

CLAS 1103  Freshman Year Experience  2 Credits  (2-0-2)
This course is designed to assist students in the academic and social transitions associated with college life. The
development of specific success skills such as financial literacy, time management, note-taking and study
strategies, critical thinking, effective communication, and career and academic guidance activities will be included
in this class.
Mass Communications

COMM 1000  Mass Communications Colloquium  2 Credits  (2-0-2)
Entering freshmen take this course as a first-year experience learning opportunity to gain exposure to foundations for college success, campus resources, and journalism and mass communications-specific content as an introduction to the major.

COMM 2101  Writing for Multimedia  3 Credits  (3-0-3)
This hands-on sampler course introduces students to the definition of news and basic news reporting and writing, including the use of Associated Press style. Students learn basic video scriptwriting and video production. The principles of information-gathering and writing for public relations and advertising, including the news release, are introduced. Students are expected to learn and practice the theories of journalism and public relations according to the highest professional standards.
Prerequisite(s): ENGL 1101 and ENGL 1102

COMM 2105  Mass Media & Society  3 Credits  (3-0-3)
General examination of the foundations, organization, control, and current status of the media. Economic and social impact of the media (radio, television, newspapers, books, magazines, and comics) is surveyed. Broad comparisons of the American with foreign media systems are included.

COMM 2106  African-Americans in the Media  3 Credits  (3-0-3)
A survey of the history, the contributions, representation, and portrayal of African-Americans and other minorities in the media. Assessment of the impact of such portrayal on social, political, and cultural interactions.

COMM 2107  Women in the Media  3 Credits  (3-0-3)
A survey of the history, the contributions, representation, and portrayal of women in the media. Assessment of the impact of such portrayal on social, political, and cultural interactions.

COMM 2810  Introduction to Communication Research  3 Credits  (3-0-3)
An introduction to social science research concepts and techniques in the study of the mass media. Survey of quantitative research methods in the media situations and media rating services.

COMM 3101  Media Arts & Design  3 Credits  (3-0-3)
The development of basic skills in graphics for print and television. The course introduces students to the practice of image making and new technologies. It includes layout, page design, and other graphic elements necessary for public relations and advertising campaigns.

COMM 3102  Photography for Multimedia  3 Credits  (3-0-3)
This hands-on course teaches the essential skills of making photographic images for journalism applications from print and online text stories to video stories. Skills taught include framing, lighting, angles, action, content and the like.

COMM 3105  News Writing & Reporting  3 Credits  (3-0-3)
The course focuses on real-world beat and specialty news reporting using the techniques including interviewing, observation and data evaluation. Students learn to identify credible information sources including people, documents and online data. They practice representing that information comprehensively, accurately and fairly in text stories and multimedia production. (Prerequisite: COMM 2101)
Prerequisite(s): COMM 2101

COMM 3110  Layout and Design  3 Credits  (3-0-3)
This hands-on course introduces students to the concepts, theories and software for designing print and online publications including newspapers, magazines, social media and more. Students apply these theories in the
development of multiple printed and online-based projects. The course reinforces concepts of data visualization through graphs and charts.

Corequisite: COMM 3401

COMM 3120 Introduction to Communications Theory 3 Credits (3-0-3)
An overview of the major concepts and applications of human mass communications theories. While interpersonal and intercultural communications will be examined, applications of the theories and concepts in the mass media will be emphasized.

COMM 3130 History of Journalism 3 Credits (3-0-3)
An historical survey of the principal developments in journalism from the eighteenth through the twentieth centuries.

COMM 3201 Feature Reporting and Writing 3 Credits (3-0-3)
In this practical course, students write in several forms, including the news feature, the profile, the trend-analysis story, data-based investigations and the self-immersion story. Students use the production of multimedia elements such as videos, still photographs, charts and maps to expand and enhance text storytelling. Students discuss freelancing stories for specific audiences and print and online publications.
Prerequisite(s): COMM 3105

COMM 3301 Introduction to Multimedia Production 3 Credits (3-0-3)
This course is designed to provide students with an introduction to the disciplines and techniques involved in producing content for broadcast television, broadcast radio, and digital platforms including the internet. The course will also give students a basic operating knowledge of the terminology used in broadcast and digital media.
Prerequisite(s): COMM 2105

COMM 3302 Speech for Multimedia 3 Credits (3-0-3)
A course designed to teach the basic techniques of radio and television broadcasting. Emphasis on news casting, advertising, sports casting, and announcing formats.

COMM 3303 Scriptwriting for Multimedia 3 Credits (3-0-3)
Scriptwriting for Radio and Television provides practical experience in writing various forms used in broadcast and film media and provides students with exposure to professional audio and video production equipment and techniques.
Prerequisite(s): COMM 2101

COMM 3305 Introduction to Film Production 3 Credits (3-0-3)
Provides students a working knowledge of the disciplines and techniques involved in film production including a basic operating knowledge of the terminology and equipment used in the film industry.
Prerequisite(s): COMM 3901

COMM 3306 Introduction to Audio Production 3 Credits (3-0-3)
Designed to provide students with a working knowledge of the disciplines and techniques involved in radio and other professional audio production systems. The course will also give students a basic operating knowledge of professional audio equipment and technology and appropriate terminology.

COMM 3401 Introduction to Public Relations & Strategic Communication 3 Credits (3-0-3)
An introduction to the role of public relations and advertising in our society, how “publics” and markets are determined and targeted, the different types of public relations fields, the use of public relations in image packaging, the use of advertising in selling goods and services, and the relationship of advertising agencies to advertisers and media.
Prerequisite(s): COMM 2101
Corequisite: COMM 3110
COMM 3402  Advertising Media Sales & Purchases  3 Credits (3-0-3)
Analysis of major media sales practices, including organization and preparation of radio, newspaper, television, or magazine presentations for advertising clients. Introduction to common media sales terminologies, data collection, and calculations and tools, including ratings and rate cards.

COMM 3901  History of Film  3 Credits (3-0-3)
Class sessions are informal. The instruction process is lecture by the instructor, guest lecturers, out of class procedural demonstrations, examination and viewing of various film genres, and exercises by the class in various production situations. Student and group projects will be conducted in and outside of the regular class period.

COMM 3951  Special Topics  3 Credits (3-0-3)
Special Topics in Mass Communication

COMM 4101  Strategic Communication Writing  3 Credits (3-0-3)
Principles and practices of planning, preparing, and writing effective advertising messages for newspapers, magazines, industrial publications, the trade press, radio, television, mail order, and billboards. Analysis and critique of current advertisements. Copy and product tests in relation to markets.

COMM 4105  Opinion and Editorial Writing  3 Credits (3-0-3)
In this course, students practice the techniques of column and editorial writing and also the crafting of reviews of movies, food and the like. Students generate ideas, conduct research and write journalistic essays suitable for publication in print and online news media.
Prerequisite(s): COMM 3105 or COMM 3303 or COMM 3401

COMM 4106  Communications Practicum  3 Credits (3-0-3)
Intensive field and laboratory practice on video, audio, or print projects under faculty supervision.
Prerequisite(s): COMM 3201 or COMM 4101 or COMM 4107

COMM 4107  Advanced Video & Post Production  3 Credits (3-0-3)
Advanced instruction and practice in television production, including directing, programming, and equipment.
Prerequisite(s): COMM 3301

COMM 4108  Film & Television Directing  3 Credits (3-0-3)
This course is designed to provide students with a working knowledge of the disciplines and techniques involved in the directing process for film and television, and will give students a basic operating knowledge of the terminology used in directing film and television production.
Prerequisite(s): COMM 3301 or COMM 3305

COMM 4109  Multimedia News Production  3 Credits (3-0-3)
This course is designed to provide students with the skills to plan and produce all the production elements of a broadcast news program. Course content will consist of writing, shooting and editing material for news programs for broadcast television, broadcast radio, and digital platforms including the internet.
Prerequisite(s): COMM 3301

COMM 4110  Audio Production and Sound Design  3 Credits (3-0-3)
Advanced instruction and practice in audio production, including directing, programming, and equipment.
Prerequisite(s): COMM 3301

COMM 4111  Film & Television Editing  3 Credits (3-0-3)
This course will provide students with an introduction to linear and non-linear editing processes for film and television.
Prerequisite(s): COMM 3301 or COMM 3305

COMM 4112  Commercial Recording  3 Credits (3-0-3)
This course will provide students with experiences in recording for the broadcast and music industries. Commercials, music video production, music production, and public service announcements will be examined. New approaches to digital music production and software usage in the music industry will also be covered. 

Prerequisite(s): COMM 3306

COMM 4113 Advanced Post-Production Techniques 3 Credits (3-0-3)
This course will provide students with advanced techniques for the non-linear editing processes for film and television. This course will give students expert operating knowledge of the terminology used in the post-production process of film and television productions. 

Prerequisite(s): COMM 4111 or COMM 4112

COMM 4115 Independent Study 3 Credits (3-0-3)
Directed individual work under the guidance of various faculty members. 

Prerequisite(s): Permission of the instructor

COMM 4170 Advanced Journalism 3 Credits (3-0-3)
In this course, students learn to report and write length in text forms including trend-analysis using data-based investigations. Multimedia elements enlarge and enhance text stories. Students are expected to observe the highest standards of professionalism and ethical practice and to target their stories at journalism's best publications, in print and online. Prerequisite(s): COMM 3201

COMM 4170 Advanced Journalism 3 Credits (3-0-3)

COMM 4201 Copy Editing 3 Credits (3-0-3)
This course focuses on the traditional definition of copy editing: the reading of text stories for the mechanics of grammar, punctuation, spelling and syntax, the use of Associated Press, organization and style. It also emphasizes fact-checking for accuracy, comprehensiveness, and fairness in text stories and multimedia. A third focus is the editor's thinking and decision-making process in writing headlines and captions and making assignments for text stories and multimedia elements. 

Prerequisite(s): COMM 3105

COMM 4211 Newspaper Production 3 Credits (3-0-3)
Copy editing, headline writing and newspaper layout. Emphasis upon the principles and skills involved in producing a newspaper by the off-set of cold type method. 

Prerequisite(s): Prior approval of instructor

COMM 4402 Strategic Campaign Principles 3 Credits (3-0-3)
Analysis of contemporary public relations and advertising issues. Development of public relations and advertising campaigns involving research, planning, preparation and presentation for various types of public relations and advertising organizations. Problem-solving and decision-making techniques. 

Prerequisite(s): COMM 3401 and COMM 4101

COMM 4406 Strategic Campaign Production 3 Credits (3-0-3)
An intensive, hands-on course that stresses the production of professional quality public relations and/or advertising materials pre-approved or specified by the instructor. Students work in groups, but meet as a class with instructor for critiques. Focuses on products that meet professional standards in content, style, and quality. Prerequisite(s): COMM 3401 and COMM 4101

COMM 4705 Media Ethics & the Law 3 Credits (3-0-3)
Study of the laws affecting American media, including the concept of freedom of speech and press, federal regulatory agencies, libel, slander, copyright, and invasion of privacy. 

Prerequisite(s): Junior or Senior Standing

COMM 4810 Advanced Communication Research 3 Credits (3-0-3)
A continuation of COMM 2810: Introduction to Communications Research. 

Prerequisite(s): COMM 2810
COMM 4815  The Documentary  3 Credits  (3-0-3)
A survey and analysis of the documentary format employed in film productions, 1945-1970s, and preparation and production of a mini-documentary.
Prerequisite(s): COMM 3303 and COMM 4107

COMM 4902  Professional Media Internship  3 Credits  (3-0-3)
A course open only to juniors and seniors majoring in mass communications; students work with various professional media in Savannah and other areas. Junior or senior standing.
Prerequisite(s): COMM 2101 and permission of instructor

College of Science and Technology Integrative Courses

COST 1103  Freshman Year Experience  2 Credits  (2-0-2)
This course is designed to assist students in the academic and social transitions associated with college life. The development of specific success skills such as financial literacy, time management, note-taking and study strategies, critical thinking, effective communication, and career and academic guidance activities will be included in this class.

COST 1140  Coastal Hazards and Environmental Risk  3 Credits  (3-0-3)
Students will be introduced to major coastal processes and issues including interactions between land and water as well as humans and the coast. They will also study coastal hazards, risk perception, and vulnerability as they are familiarized with the major elements of Environmental Justice. This course will target students working toward completion of requirements for the Certificate in Coastal Risk, Management, and Environmental Justice; however, it can serve as a lower-level elective for students of all majors, science-based and non-science based. Format: lecture, discussion, interactive computer-based lessons, possible field trips.

COST 4140K  Environmental Justice & Coastal Risk Management  4 Credits  (4-0-4)
Students will develop and implement action plans to address complex interdisciplinary issues of coastal hazards, requiring an understanding of the natural and built environments, vulnerable communities and ecosystems, environmental law, urban settings, and environmental justice in the context of the densely populated coastlines, and their unique resources and hazards. Students will assimilate the issue with the lens of management and their specific backgrounds in this interdisciplinary setting. Includes completion of one major Service Learning Project to raise awareness of at least one coastal environmental hazard toward the reduction of disproportional risk exposure. Format: use of case studies, discussion, service-learning collaborative project(s), possible field trips.

Criminal Justice

CRJU 1101  Introduction to Criminal Justice  3 Credits  (3-0-3)
A study of the history, theory, and structure of the criminal justice system; introduction to substantive and procedural criminal law, police, courts, corrections, and juvenile justice.

CRJU 2102  Police & Society  3 Credits  (3-0-3)
A study of the role of the police in American society and an overview of police organization and administration.

CRJU 3111  American Court System  3 Credits  (3-0-3)
An examination of the history, philosophy and basic concepts of the legal system; the organization and jurisdiction of federal, state, and local courts; and the legal process from inception to appeal.
Prerequisite: CRJU 1101 and/or CRJU 2102

CRJU 3121  American Corrections  3 Credits  (3-0-3)
A study of the historical and philosophical development of the correctional system; the organization and functions of correctional agencies; and the role and responsibilities of personnel in the correctional setting.

**Prerequisite(s):** CRJU 1101, and/or CRJU 2102

**CRJU 3301 Constitutional Law in the Criminal Process**  
3 Credits (3-0-3)  
A case study approach to theoretical and applied knowledge of constitutional issues affecting the criminal justice system.  
**Prerequisite(s):** CRJU 1101, and/or CRJU 2102

**CRJU 3311 American Court Systems**  
3 Credits (3-0-3)  
An examination of the history, philosophy, and basic concepts of the legal system: the organization and jurisdiction of federal, state, and local courts: and the legal process from inception to appeal.  
**Prerequisite(s):** CRJU 1101

**CRJU 3321 Race, Gender, Class & Crime**  
3 Credits (3-0-3)  
A comprehensive study of the role of crime in the lives of various minorities within American society.  
**Prerequisite(s):** CRJU 1101, and/or CRJU 2102

**CRJU 3361 Human Behavior**  
3 Credits (3-0-3)  
The study of the origins of human and deviant behavior from a multidisciplinary approach (biological, psychological, sociological, criminological); addresses major theories and research including case studies illustrative of deviant behavior such as drug abuse, suicide, mental illness, and sexual deviance.  
**Prerequisite(s):** CRJU 1101, and/or CRJU 2102

**CRJU 3342 Community Policing**  
3 Credits (3-0-3)  
Community policing philosophy, applications and issues and contemporary research of policing methods  
**Prerequisite(s):** CRJU 1101, and/or CRJU 2102

**CRJU 3521 Drugs, Alcohol, & Crime**  
3 Credits (3-0-3)  
History of pharmacology, health consequences, and crime-related aspects of mind-affecting drugs. Emphasis on effects on criminal behavior, the legal response to the problem and on treatment and prevention of abuse.  
**Prerequisite(s):** CRJU 1101 and/or CRJU 2102

**CRJU 3610 Theories of Criminal Behavior**  
3 Credits (3-0-3)  
Provides a basic understanding of the complex factors related to crime, with concentration on principal theoretical approaches to the explanation of crime.  
**Prerequisite(s):** CRJU 1101, and/or CRJU 2102

**CRJU 3901 Internship**  
6 Credits (6-0-6)  
Participation on staff of a criminal justice agency under co-supervision of faculty and agency personnel. This course requires field experience, periodic conferences and seminars, and compositions and readings designed to combine theory and professional practice.  
**Prerequisite(s):** CRJU 1101, CRJU 2102, CRJU 3111, CRJU 3321, and/or CRJU 3610

**CRJU 4101 Independent Study**  
3 Credits (3-0-3)  
An elective open to students with junior and senior standing who have earned the prerequisite hours in RJU. Independent study, which requires permission of the instructor, offers students an opportunity to conduct research under the direction of an instructor qualified in the subject or field of major interests.  
**Prerequisite(s):** Instructor Approval

**CRJU 4111 Criminology**  
3 Credits (3-0-3)  
A study of criminal behavior and its impact on society, overview of major theories and crime causation and empirical findings about numbers of crimes and the characteristics of offenders and victims.  
**Prerequisite(s):** CRJU 1101, CRJU 2102, CRJU 3610
CRJU 4301  Jurisprudence of Criminal Law  3 Credits  (3-0-3)
An examination of the nature and scope of criminal law; the classification and analysis of crimes and the examination of specific offenses, justifications, excuses, and other defenses.
Prerequisite(s): CRJU 1101, CRJU 2102, CRJU 3111, CRJU 3121, and/or CRJU 3610

CRJU 4311  Juvenile Justice  3 Credits  (3-0-3)
A study of children in the legal system, including issues and problems concerned with the social control and protection of young persons; the role and responsibilities of the juvenile court, law enforcement, and corrections.
Prerequisite(s): CRJU 1101, CRJU 2102, CRJU 3111, CRJU 3121, and/or CRJU 3610

CRJU 4331  Comparative Criminal Justice Systems  3 Credits  (3-0-3)
An analysis of the design, operation, and legal basis for systems of justice in other countries, governmental, political, demographic, and economic factors in past and current trends in the adjudication of offenders; cross-cultural analysis of causes of crime and systems of justice.
Prerequisite(s): CRJU 1101 and/or CRJU 2102 and/or CRJU 3610

CRJU 4411  Criminal Investigations  3 Credits  (3-0-3)
An explanation of the history, theories, and procedures for investigating crimes.
Prerequisite(s): CRJU 1101, CRJU 2102, and/or CRJU 3610

CRJU 4420  Crime Analysis  3 Credits  (3-0-3)
Examination of various approaches to crime analysis and its effect on planning for criminal justice and related programs.
Prerequisite(s): CRJU 1101 and/or CRJU 2102 and/or CRU 3610

CRJU 4501  Violence, Crime & Justice  3 Credits  (3-0-3)
An examination of violence, criminal responses to violence, and the role of non-criminal justice agencies in the area of violence prevention; a review of theories, statistical data, and case studies from other disciplines, such as: law, psychology, sociology, history, and, of course, criminology and criminal justice.
Prerequisite(s): CRJU 1101 and/or CRJU 2102 and/or CRJU 3610

CRJU 4521  Criminal Justice Management  3 Credits  (3-0-3)
A focus on issues in the organization and management of criminal justice agencies, including police departments, prosecutors' offices, courts, jails, prisons, and community corrections.
Prerequisite(s): CRJU 1101 and/or CRJU 2102 and/or CRJU 3610

CRJU 4901  Senior Seminar  3 Credits  (3-0-3)
Selected topics of current interest. Critical analysis of current research literature and development of action projects by seminar members.
Prerequisite(s): CRJU 1101, CRJU 2102, CRJU 3111, CRJU 3121, CRJU 3131, CRJU 3610, CRJU 4301 and/or SOCI 2102

**Computer Science Technology**

CSCI 1130  Computer & Its Applications  3 Credits  (3-0-3)
An introductory course specially designed to help students become computer literate. The course covers the history of computers, hardware, software, and use of the state-of-the-art technology. Another unique feature of this course is that students use Internet, MS OFFICE applications using word processing, spreadsheets, and HTML language to create home pages.

CSCI 1301  Computer Science I  3 Credits  (3-0-3)
An introduction to the principles of computer programming with emphasis on problem solving methods. The topics include an introduction to data representation, data type and control structures, procedures and functions, and programming methodology.

**Prerequisite(s):** MATH 1111

**CSCI 1302**  
Computer Science II  
4 Credits  
(4-0-4)

An introduction to object-oriented programming language using abstract data type. Emphasis will be placed on encapsulation, inheritance and polymorphism, recursive programming, pointers, linked lists, stacks, strings, and trees.

**Prerequisite(s):** CSCI 1301

**CSCI 1371**  
Computing for Engineers & Scientists  
3 Credits  
(3-0-3)

Foundations of computing with an emphasis on design and implementation of algorithms that complement and support engineering and scientific problem solving.

**Prerequisite(s):** MATH 1113

**CSCI 1610**  
Programming in Java  
4 Credits  
(4-0-4)

An introduction to Java, which is a simple, object-oriented, distributed, interpreted, robust, secure, architecture-neutral, portable, high-performance, multithreaded and dynamic language. The course includes extensive use of classes, support of networking, basic data structures, abstract data type, recursion, and searching and sorting.

**Prerequisite(s):** MATH 1113

**CSCI 2215**  
Perl Scripting  
4 Credits  
(4-0-4)

Designed to teach students how to use PERL (Practical Extraction and Reporting Language) for Web/CGI scripting.

**Prerequisite(s):** CSCI 1301

**CSCI 2231K**  
Introduction to UNIX  
3 Credits  
(2-2-3)

An introduction to UNIX operating system, which will provide a convenient and consistent interface to the wide variety of peripheral devices that are connected to the computer. Students learn history and fundamentals of SUN Operating System, by entering commands using Shell, the UNIX file systems; text file utilities. VI editor, Shell scripts, AWK (Aho, Weingerger, Kernighan) programming language, and Local Area Networking Utilities.

**Prerequisite(s):** CSCI 1301 or CSCI 1371

**CSCI 3000**  
Data Structure & Algorithm Design  
3 Credits  
(3-0-3)

Introduction to computation complexities, object-oriented programming, and basic data structures; lists, stacks, trees, recursion, and graphs.

**Prerequisite(s):** CSCI 1301 and CSCI 1302

**CSCI 3102**  
Visual Basic  
3 Credits  
(3-0-3)

An introduction to Visual Basic and Windows 95 applications. Topics include Form, List Box, Text Box, Scroll Bars, Menu and other windows resources.

**Prerequisite(s):** CSCI 3000

**CSCI 3210**  
Advanced Java  
3 Credits  
(3-0-3)

An introduction to Java and Web page programming. Students write basic Java applets.

**Prerequisite(s):** CSCI 3000 and CSCI 1610

**CSCI 3414**  
Software Engineering  
3 Credits  
(3-0-3)

A course designed to introduce basic principles of software engineering, the process of producing a software product, project planning, development, and management. Each student is expected to walk through the complete process by implementing a software project.

**Prerequisite(s):** CSCI 3000
CSCI 3385K  Computer Network & Design  3 Credits (2-2-3)
Introduction of distributed system architecture, data transmission, protocol levels, types of network layers, terminal based networks, modems, and multiplexers. A unique feature of this course is that students set up a LAN using Windows Server, Linux operating System and Cisco hardware. The course provides hands-on experience for students.
Prerequisite(s): CSCI 1301 or CSCI 1371

CSCI 3800  Computer Architecture  3 Credits (3-0-3)
Introduction to computer architecture systems; quantifying cost and performance; instruction set architecture; program behavior and measurement of instruction set use; processor data paths and controls; instructions set architectures and assembly language, I/O devices, controllers and drivers; I/O and system performance.
Prerequisite(s): CSCI 3000

CSCI 4110  Operating Systems  3 Credits (3-0-3)
Study of process control, CPU scheduling, primary memory management, and secondary memory management.
Prerequisite(s): CSCI 3000

CSCI 4210  Data Base Management  3 Credits (3-0-3)
Introduction to database application design. Topics include problem analysis, various data models, implementation, using Microsoft access, forms, reports, SQL, and database programming.
Prerequisite(s): CSCI 3000

CSCI 4410  Web Based Programming  3 Credits (3-0-3)
Introduction to web server programming, Internet information server object: Request, Response, Application, Server session. Programming skills via using basic server objects, including working with data source like Access, SQL server. Prerequisite(s): CSCI 3000

CSCI 4510  Artificial Intelligence  3 Credits (3-0-3)
Introduction of basic concepts in artificial intelligence. Topics include optimal search, learning algorithms, various neural network architecture and various software.
Prerequisite(s): CSCI 3000

Data Analytics

DATA 2113/CIVT 2113  Data Analytics in Transportation and Logistics  3 Credits (3-0-3)
The purpose of this course is to provide students with a solid foundation in theory and application of transportation systems with a focus on data analytics. Data characteristics from a wide ranges of transportation areas including traffic flow, safety, and planning will be investigated, along with well-suited modeling and analysis techniques. Topics to be covered include sampling and data collection, descriptive statistics and data representation, fitting data to distributions, and regression analysis.
Prerequisite: MATH 1113 and CSCI 1130 or CISM 1130

DATA 3109/CISM 3109  Introduction to Data Analytics and Mining  3 Credits (3-0-3)
The aim of this hands-on course is to allow students to understand the foundational skills in data analytics, including but not limited to preparing and working with real-world data sets. Abstracting and modeling an analytic question; and using tools from statistics and data mining to address these questions. Students will study the entire data analysis process, from raw data mining to address these questions. Students will study the entire data analysis process, from raw data to a deeper understanding of the patterns and structures within the data, and utilize techniques that enable one to make predictions and data-informed decisions. At the end of the course, students
should feel comfortable using basic data mining techniques to answer questions about data using a statistical software packages such as SAS Enterprise Miner, R, Tableau, and Microsoft Excel. **Prerequisite**: MATH 1113 and CISM 1130 or CSCI 1130 and BUSA 2182 or SOCI 2101 or MATH 1401

**DATA 3010/CISM 3010**

**Business Intelligence**

3 Credits (3-0-3)

The aim of this hands-on course is to provide an integrative foundation in the field of business intelligence at the operational, tactical, and strategic levels, and to provide students with an understanding of several data analytics techniques. Students will earn how these tools may be used to analyze complex business problems and identify rational solutions.

Prerequisites: MATH 1113 and CISM/CSCI 1130 and BUSA 2182 or SOCI 2101 or MATH 1401

**DATA 3111/CISM 3111**

**Applied Statistics For Data Science**

3 Credits (3-0-3)

Introduction to intermediate level applied statistics and techniques of statistical modeling. The course will utilize available primary and secondary data sets in improving the conceptual understanding. The course will involve use of programming through scripting language (Python) and statistical package R and STATA. The focus of the course will be on using understanding the following concepts by analyzing data in Python, R and STATA: inferential statistics, data mining, visualization, linear regression, decision trees, logistics regression, k-means clustering, hierarchical clustering, collaborative filtering, random forests, resampling methods, classification, singular value decomposition, regularization, choosing models and fitting parameters, generalized linear models etc.

**Prerequisite**: MATH 1113 and CISM 1130 or CSCI 1130 and BUSA 2182 or SOCI 2101 or MATH 1401

**DATA 3115/MATH 3115**

**Mathematical Data Analytics**

3 Credits (3-0-3)

The objective of this course is to provide conceptual as well as hands-on experience of working with big data sets with the aid of structured programmatic skills to develop a scientific approach towards mathematical data analytics. An introduction to predictive analytics will be followed by demonstrating its applications on imported data to discover meaningful patterns and trends. Various statistical (machine) learning techniques will be introduced and their advantages/disadvantages in supporting a selected data-driven learning system will be discussed.

**Prerequisite(s)**: (CISM 3109/DATA 3109 and CISM 3111/DATA 3111) or (BUSA 2182 and MATH 3000)

**DATA 3190/ENGT 3190**

**Data Visualization**

3 Credits (3-0-3)

An important skill that a data analyst should possess is to communicate practical implications of any data set after performing quantitative analysis of the information. Using technical means and software tools to communicate the information in a non-technical manner will help firms to make meaningful decision. Data visualization requires students to become familiar with technologies in use, streamline the analysis, and highlight implications efficiently using tools such as Python and R.

**Prerequisite**: MATH 1113 and CSCI 1130 or CISM 1130

**DATA 3560/MSCI 3560**

**Big Data Analysis in the Sciences**

3 Credits (3-0-3)

A course in basic quantitative and analytical tools used to understand large sciences datasets, primarily using examples from the geosciences. Students will gain confidence in both the interpretation of presented data as well as the application of tools used for a variety of data types. Concepts covered will include sampling theory and design, plotting and visualizing data, basic data analysis techniques in Excel and MatLab, linear regression and
curve fitting, time-series analysis, introduction to geoscience models, management of large data sets, and scripting in at least one software program typically used in geosciences (e.g., MatLab, R, etc.). This course will use example data sets commonly collected from ocean observatories, satellite remote sensing, data loggers, tagging and tracking experiments, moorings, current meters, long-term climate data sets, and other common types of science data.

Prerequisite: BIOL 1107 or ENVS 2401 or MSCI 2010K or MATH 1113 or CISM/CSCI 1130

Dance

DNCE 1000  
Dance Forum  
0 Credits  
(0-0-0)

Dance Forum is a required weekly meeting involving all dance majors and minors enrolled in dance technique classes. This forum gathers he student body to engage in enriching discussions, processes for presenting work, creating, sharing and adjudicating dance, and networking opportunities with dance professional’s activity in the field for aster classes, workshops, lectures and insight into careers in dance.

DNCE 1501  
Dance Fundamentals  
2 Credits  
(2-0-2)

This developmental course builds upon the techniques of dance. The course is designed to further implement modern and jazz technique using contemporary ballet, jazz and modern principles. The class will be taught as an intensive to proper dance structure, balance, fluid movement and physical development. Students must successfully accomplish all outcomes based on goals and objectives.

DNCE 2010  
Dance Appreciation  
3 Credits  
(3-0-3)

This course is a survey of all aspects of the dance experience spanning prehistoric dance through the 21st century. Students will be introduced to universal human movement, expression of cultural identity and art form. They will survey global dance including folk, ceremonial, ritual, court and classical dance and dance as a way of life and daily practice. Students will become familiar with historical writings and critical readings, dance theories and styles in order to unearth masterpieces of dance and theater and develop responsiveness to dance.

DNCE 2502  
Advanced Modern Dance Performance & Technique  
3 Credits  
(3-0-3)

This class is designed for the intermediate to advanced level student. Students will expand on the principles of modern dance using the influence of a variety of dance and movement techniques to include ballet, jazz, various ethnic styles, and modern dance fusion.

Prerequisite(s): DNCE 2501  
Corequisite: DNCE 1000

DNCE 2600  
Ballet I  
3 Credits  
(3-0-3)

Ballet is an early 19th century dance style based on formalized movements and positions of the arms, feet and body designed to enable the dance to move with the greatest possible agility, control, speed, lightness, and grace. This course is designed to introduce students to fundamentals of contemporary ballet. Students will embody and practice basic ballet positions and steps using proper alignment through strengthening and conditioning.

Prerequisite(s): DNCE 1501 or special permission

DNCE 2851  
Performance Dance Ensemble  
1 Credit  
(1-0-1)

This course is professional and performance training class. Students are developed through the official Savannah State University Dance Ensemble. The class will serve as the official technique, developmental, and rehearsal intensive course.

Prerequisite(s): DNCE 1501  
Corequisite: DNCE 1000

DNCE 2855  
Performance Dance Ensemble  
1 Credit  
(1-0-1)

This course is professional and performance training class. Students are developed through the official Savannah State University Dance Ensemble. The class will serve as the official technique, developmental, and rehearsal intensive course.
Prerequisite(s): DNCE 1501
Corequisite: DNCE 1000

**DNCE 2900 Modern I**
3 Credits (3-0-3)
This class is designed for the advanced beginner student. Students will expand their comprehension and apply the principles of Modern dance using the influence of a variety of codified movement techniques to include classical modern such as Lester Horton technique, and a contemporary fusion of fundamental principles from ballet.
Prerequisite(s): DNCE 1501 or special permission

**DNCE 3401 Jazz II**
2 Credits (2-0-2)
This course is a continuation of Jazz I and is the last succession or sequence of mastery in this genre. Jazz II prepares students for mastery level technical skills and concepts, increased flexibility and endurance, lengthier choreographic sequences and a deeper understanding of specific jazz styles related to theater and commercial dance. Students will practice technique across disciplines and embody selected Broadway musicals and fusion of contemporary dance. Students will encode, memorize and demonstrate jazz sequences and will synthesize different styles with performance proficiency.
Prerequisite: DNCE 3700

**DNCE 3501 Appreciation and History of Dance**
3 Credits (3-0-3)
This course surveys dance cultures in America and the relationship of dance to the identity and expression of different groups in the United States. Jazz, modern, ballet, and multi-cultural dance forms will be the focus of the class. The course includes guest lectures, film, videos, performing artists, reading, discussions, research papers and attending a dance performance.

**DNCE 3502 Dance History II**
3 Credits (3-0-3)
This course surveys the history of dance from an anthropological perspective. Students will explore the recorded beginnings of dance from West Africa, including expansions from the slave trade that created Caribbean and South American cultures. Students will also explore dances of North Africa and the Middle East; East Asia, to include China, Japan, Korea, Thailand and Java islands.

**DNCE 3662 Ballet II**
3 Credits (3-0-3)
This course increases development and intermediate level contemporary ballet technique.
Prerequisite(s): DNCE 2600

**DNCE 3700 Jazz I**
3 Credits (3-0-3)
This course equips students with jazz dance technique and an understanding of fundamentals in jazz styles related to theater and concert dance. Students will observe and practice technique as well as embody genres such as Broadway/American jazz, Latin jazz, and blues. Students will encode, memorize and demonstrate jazz sequences and will synthesize different styles with performance proficiency.
Prerequisite(s): DNCE 1501 or special permission

**DNCE 3851 Performance Dance Ensemble**
1 Credit (1-0-1)
This course is professional and performance training class. Students are developed through the official Savannah State University Dance Ensemble. The class will serve as the official technique, developmental, and rehearsal intensive course.
Prerequisite(s): DNCE 1501
Corequisite: DNCE 1000

**DNCE 3855 Performance Dance Ensemble**
1 Credit (1-0-1)
This course is professional and performance training class. Students are developed through the official Savannah State University Dance Ensemble. The class will serve as the official technique, developmental, and rehearsal intensive course.
Prerequisite(s): DNCE 1501
Corequisite: DNCE 1000

This course introduces and extends students' understanding of African dance fundamentals and concepts underlying its rich dance culture and diaspora, which stand as the root of many African American social dances and extends their comprehension. This course will begin with learning Dunham Technique as codified by distinguished dancer Katherine Dunham and integrate jazz dance, West African and Caribbean dance forms such as Capoiera progressing through the course. They will relate cultural styles and their function in secular and religious culture. **Prerequisite(s):** DNCE 1501 or special permission

This class is designed for the application level, advanced performer. Students will apply and demonstrate choreographic devices improvisational and through creative projects, create and perform site specific/environmental works, experiment with application of found objects into performance, transform improvisational prompts into performance skits, and an interdisciplinary approach to theory, practice and multimedia synthesizing dance, performance art, theater and visual arts through.

This course is an accelerated advanced/intermediate level dance composition course. Students must already have intermediate level skill in Modern dance, Jazz dance, Ballet and other forms of dance performance. The class will develop skill in dance composition and choreography utilizing a variety of venues and incorporating various mixed media. Students will collaborate with other art genres to enhance choreography and composition creativity. Students will be responsible for designing and choreographing a full production.

This course is an exploration of contemporary theories of movement as they relate to dance and how those theories shaped that development of different dance technique. The course also looks at the impact ballet had on dance and the development of different dance forms that were derived from ballet. Students study the theory behind Horton Technique, Graham Technique, Dunham Technique, as well as other techniques. This class will consist mainly of lecture, with some laboratory. **Prerequisite(s):** DNCE 2501 and 3501

This course is designed for the advanced, skilled performer. Students will learn the basic principles of choreography, and the theory and practice of interpretive dance. **Prerequisite(s):** DNCE 2501

This course is a critical examination of the advent of dance in the American popular film industry spanning late 1800s starting with the peculiar entertainment of minstrelsy to movie musicals to contemporary times with movies centrally themed about dance. Students will deduce how dance culminated on screen focusing on popular stereotypes, and icons, revealing how the roles of gender, race, fashion, economic factors and political forces effect the times. Students will observe and examine movies containing dance or dance themes. They will create discourse around dance, strengthen critical thinking skills through class discussion supported by mini-projects and unwrap social issues and subtext within the film through written response. **Prerequisite(s):** DNCE 3501

This course is professional and performance training class. Students are developed through the official Savannah State University Dance Ensemble. The class will serve as the official technique, developmental, and rehearsal intensive course. **Prerequisite(s):** DNCE 1501

**Corequisite:** DNCE 1000

**Corequisite:** DNCE 1000

**Corequisite:** DNCE 1000
DNCE 4855  Performance Dance Ensemble  1 Credit (1-0-1)
This course is professional and performance training class. Students are developed through the official Savannah State University Dance Ensemble. The class will serve as the official technique, developmental, and rehearsal intensive course.
Prerequisite(s): DNCE 1501
Corequisite: DNCE 1000

## Economics

**ECON 2105**  Principles of Macro-Economics  3 Credits (3-0-3)
An introduction to concepts that enable students to understand and analyze economics aggregates and evaluate economic policies.
Prerequisite(s): MATH 1111

**ECON 2106**  Principles of Micro-Economics  3 Credits (3-0-3)
An introduction to concepts that enable students to understand and analyze the structure and performance of the market economy.
Prerequisite(s): MATH 1111

## Education

**EDUC 1103**  First Year Experience for Future Educators  2 Credits (2-0-2)
This course is designed to support students who aspire to work in the field of education with the information and skills to achieve the academic and social transitions for success at Savannah State University and in an educator preparation program. Students will be provided with the tools needed to develop an individualized plan that can enable them to successfully meet the requirements of a professional program in education, the standards of the Georgia Professional Standards Commission (GaPSC), and the expectations of a career as an educator.

**EDUC 2000**  Technology in Teaching and Learning  3 Credits (3-0-3)
Technology in Teaching and Learning explores technology that has been designed for use in technology-rich Pre-K-12 environments. The course provides hands on experiences that integrate technology, pedagogy, and content knowledge to support clearly defined student learning outcomes. Students create, design, and publish technology-enhanced learning tools to promote collaboration, creativity, communication, and higher-order thinking skills in the classroom. Students will also explore contemporary topics related to educational media and technology trends in education.

**EDUC 2100**  Reading and Writing Strategies  3 Credits (3-0-3)
Knowledge and skill to apply effective reading and writing strategies in content area subjects can have a direct impact on student success. This course will provide pre-service teachers with best practices and instructional strategies to use in the classroom with future students, as well as personal skill development. Focus areas include pre-, during, and after-reading skills and application of the writing process in informational and scientific writing.

**EDUC 2103**  Educational Psychology  3 Credits (3-0-3)
This course introduces psychological principles, theories, and methodologies to issues of teaching and learning in schools and investigates the primary issues and problems in educational psychology. Major theories will be examined in these realms and how we can apply these theories to become better teachers and learners. With a focus on P-12 learners, this course explains human growth and development, cognitive and linguistic development; personal, social, and moral development; individual and group differences; behaviorist views of learning; social cognitive views of learning; motivation; instructional strategies; classroom management; and assessment.

**EDUC 2110**  Investigating Critical and Contemporary Issues in Education  3 Credits (3-0-3)
In this course, students will investigate issues influencing the social and political contexts of educational settings in Georgia and the United States. Students actively examine the teaching profession from multiple vantage points both within and outside the school. There are 10 field experience credits in this course. The course cannot be passed without completion of the field experience credits. Verification of professional liability insurance and a clear criminal background check are required prior to receiving a school placement.

**EDUC 2120**  
**Socio-cultural Influences in Teaching and Learning**  
3 Credits  
(3-0-3)

This course introduces students to fundamental knowledge of culture essential for effective teaching in increasingly diverse classrooms. Designed as a foundation course for subsequent courses focused on the preparation of culturally responsive teachers, this course examines 1) the nature and function of culture; 2) the development of individual and group cultural identity; 3) definition and implications of diversity; 4) the influences of culture on learning, development and pedagogy, and 5) an introduction to English for Speakers of other Languages (ESOL). Includes 10 hours of field experience. Time documentation, evaluation forms and reflection papers are required.

**EDUC 2130/5130**  
**Exploring Teaching and Learning**  
3 Credits  
(3-0-3)

This course examines the knowledge, skills and dispositions of effective teachers. Course topics include characteristics of effective teachers; knowing your diverse students; instructional planning; differentiating instruction; teacher-centered and student-centered instructional strategies; strategies to promote student understanding, thinking and engagement; managing lesson delivery; classroom management and discipline; assessing and reporting student performance; and working with colleagues and parents. Current use of technology will be integrated as communication and instructional tools. There are 10 field experience hours in this course. Time documentation, evaluation form, and reflection paper is required.

**EDUC 2140**  
**Exploring Global Issues in Education**  
3 Credits  
(3-0-3)

This course is a guided field experience designed to immerse students in global issues challenging the educational community worldwide, from both academic and experiential perspectives. Through guided studies and field experiences abroad, students will gain a greater appreciation of the challenges faced by emerging nations that include the effects of poverty, exceptionality, race, ethnicity, language and gender on access to quality education and equitable life chances. By studying and completing a field experience abroad, students will gain insights into linkages between education and national development, as well as the impact of national, multinational, NGO organizations and global civil society's role in nation building.

**EDUC 3030/5030**  
**Teaching Exceptional Learners**  
3 Credits  
(3-0-3)

This course is designed to prepare candidates to meet the educational, social, and behavioral needs of diverse students, including those with a full range of disabilities and gifted students. Current information on legislative mandates for serving exceptional students, characteristics of exceptionality, and best practices in teaching exceptional individuals will be addressed. There are 60 field experience hours required in this course.  
Prerequisite(s): Admission to Teacher Education.

**EDUC 3040/5040**  
**Classroom Management & Ethics of Teaching**  
3 Credits  
(3-0-3)

This course engages students in the design of effective instruction that supports classroom management to maximize learning. Communicating clear expectations, responding to behaviors, and effectively managing and maintaining a safe learning environment are addressed. The ethics and dispositions required for the teaching profession are a focus of this course.  
Prerequisite(s): Admission to Teacher Education Program.

**EDUC 3200/5200**  
**Curriculum and Assessment**  
3 Credits  
(3-0-3)

This course focuses on the foundation of curriculum and assessment with a focus on alignment of instruction and assessment to learning outcomes. Formative and summative assessments and documenting and interpreting student
achievement data through the use of technology will be studied. There are 60 field experience hours required in this course. Prerequisite(s): Admission to Teacher Education.

**Teaching the Four Skills: Reading, Writing, Listening, and Speaking**

**EDUC 3300**

Students will examine the teaching of reading, writing, listening, and speaking with a focus on the application of the critical components of reading instruction and the use of diagnostic assessment practices to differentiate instruction based on literacy needs. Students will apply strategies to design and adapt instruction for English as a Second Language (ESOL).

**EDUC 4000**

**Special Topics**

This course focuses on topics in education or topics in the major content area of education.

**EDUC 4475**

**Student Teaching/Clinical Practice**

Student teaching is a 630-hour field-based capstone requirement for teacher certification and BSED candidates. Requirements for entry, grade level and/or content placement, and teaching experiences at the assigned school adhere to the most recent rules for teacher certification mandated by the Georgia Professional Standards Commission (GaPSC). Students must meet all requirements for eligibility and have the approval of the department and field and clinical experience coordinator to register for this course. Supervision in the field will be under the director of an assigned cooperating teacher and university supervisor(s). Prerequisite(s): Admission to Teacher Education.

**EDUC 4476**

**Student Teaching Seminar**

This seminar, taken with EDUC 4475 Student Teaching/Clinical Practice, provides students with structured support to meet final teacher preparation program requirements mandated by the Georgia Professional Standards Commission (GaPSC) for teacher certification. Completion of GACE assessments and submission of a teaching portfolio to edTPA are required to complete this course. Prerequisite(s): Admission to Teacher Education.

**EDUC 5030/3030**

**Teaching Exceptional Learners**

This course is designed to prepare candidates to meet the educational, social, and behavioral needs of diverse students, including those with a full range of disabilities and gifted students. Current information on legislative mandates for serving exceptional students, characteristics of exceptionality, and best practices in teaching exceptional individuals will be addressed. Field hours are required. Prerequisite(s): Admission to Teacher Education.

**EDUC 5040/3040**

**Classroom Management & Ethics of Teaching**

This course engages students in the design of effective instruction that supports classroom management to maximize learning. Communicating clear expectations, responding to behaviors, and effectively managing and maintaining a safe learning environment are addressed. The ethics and dispositions required for the teaching profession are a focus of this course. Prerequisite(s): Admission to Teacher Education Program.

**EDUC 5130/2130**

**Exploring Teaching and Learning**

This course examines the knowledge, skills and dispositions of effective teachers. Course topics include characteristics of effective teachers; knowing your diverse students; instructional planning; differentiating instruction; teacher-centered and student-centered instructional strategies; strategies to promote student understanding, thinking and engagement; managing lesson delivery; classroom management and discipline; assessing and reporting student performance; and working with colleagues and parents. Current use of technology will be integrated as communication and instructional tools. There are 10 field experience hours in this course.
Verification of professional liability insurance and a clear criminal background check are required prior to receiving a school placement.

**Prerequisite(s):** Admission to Teacher Education.

This course focuses on the foundation of curriculum and assessment with a focus on alignment of instruction and assessment to learning outcomes. Formative and summative assessments and documenting and interpreting student achievement data through the use of technology will be studied. Field hours are required.

**Prerequisite(s):** Admission to Teacher Education.

This course examines effective strategies to address literacy and adapt instruction in multiple contexts to meet the needs of diverse learners with a focus on ESOL students and students with reading challenges.

**Prerequisite(s):** Admission to Teacher Education.

This course provides an introduction to urban learners, urban teaching, and urban school systems using case studies and first-person accounts of teaching and learning in an urban environment. The course also examines: the history of urban education in the United States; current issues facing urban P-12 students, teachers, schools, districts, and communities will be discussed; society’s responsibility to urban schools; and the roles that teachers and schools play in increasing student achievement and leading school improvement. (GaPSC Standard 1, 6)

This course explores the cultural, social, political, and economic realities of our complex pluralistic society in relation to our education system. The history of multicultural education will be examined along with current understandings of culturally responsive pedagogies. Through course readings and online discussions, students will understand the role of critical, analytic and evaluative abilities to deal with racism, sexism, value clarification, power and access in schooling. (GaPSC Standard 3, 5)

This course is designed to help teachers create and maintain caring, respectful classroom communities in which learners feel safe, valued, cared about, respected, and empowered. The course includes a strong emphasis on developing knowledge about the culture and backgrounds of children and families in order to establish positive interactions within the classroom community. When teachers create these kinds of environments learners are academically engaged. This course also introduces the study of multilingualism, language development, and language engagement methodologies for teaching in linguistically and culturally diverse educational settings and communities (GaPSC Standard 2, 4, 5)

This course is designed to provide teacher candidates with research, standards-based planning, instruction, and assessment strategies differentiated by the grade range and certification field. Practicum hours are required in a school setting in the specific content area(s) and in the grade range.

**Prerequisite(s):** Admission to Teacher Education.

Teacher candidates will engage in this culminating school-based, content-specific teaching experience at the certification grade level(s) under the supervision of a cooperating teacher and university supervisor. A Georgia pre-service certificate is required prior to registration. Completion of GaPSC mandated GACE and edTPA requirements are required to complete and pass the course.

**Prerequisite(s):** Admission to Teacher Education.
Educational Studies

**ESED 2000**  
**Introduction to Educational Studies**  
3 credits  
(3-0-3)  
This course introduces the study of education within an interdisciplinary framework both within and outside formal educational settings. The resources, structures, and socio-economic contexts influencing educational opportunities and outcomes in the United States contrasted to other countries are studied. Theories of learning are examined as are competing educational goals and their underlying assumptions regarding social justice and democracy.

**ESED 3200**  
**Workforce Education**  
3 credits  
(3-0-3)  
This course will provide students with the opportunity to learn and use a range of work analysis techniques and to apply this information in service to an organization for identifying job standards, designing training programs, and performance support systems, evaluating work performance, and perhaps most importantly improving performance.

**ESED 3210**  
**Diversity in Workforce Development**  
3 credits  
(3-0-3)  
This course will enable trainers and managers in business and industry to effectively recognize and understand diversity in work settings. Activities focus on understanding the nature of diverse populations, their unique learning needs, and potential collaborative efforts between workforce educators and work place personnel.

**ESED 3220**  
**Training Systems Design**  
3 credits  
(3-0-3)  
Instruction and practice in the selection, organization, and preparation of content for instructional programs in business and technical settings will be studied. A theoretical orientation to instructional design will be coupled with the opportunity to experience the instructional design process as it applies to business and technical settings through the development of instructional materials.

**ESED 3300**  
**Foundations in Language and Literacy**  
3 credits  
(3-0-3)  
This course will focus on reading, writing, listening, and speaking. The emphasis will be on creating environments conducive to developing all skills in the four language arts areas using research-based instructional strategies. The course also focuses on differentiating instruction for varying literacy levels.

*Prerequisite(s):* ESED 2000

**ESED 3310**  
**Integrating Language, Literacy, and Technology**  
3 credits  
(3-0-3)  
This course prepares students to infuse technology into language and literacy instruction. Students will develop technology skills and knowledge based on sound pedagogical principles that reflect research and theory in language and literacy acquisition, with a focus on second language acquisition, and the application of practical and theoretical knowledge to instructional situations.

*Prerequisite(s):* ESED 2000

**ESED 3320**  
**Teaching Language and Literacy Skills to Adult Learners**  
3 credits  
(3-0-3)  
This course is designed to provide an understanding of the instructional needs and challenges of adult learners who are learning English or developing literacy skills. A variety of theories, issues, procedures, methods, and approaches for use in bilingual, English as a second language, and adult literary learning environments will be examined and applied.

*Prerequisite(s):* ESED 2000

**ESED 3400**  
**Introduction to International Education**  
3 credits  
(3-0-3)  
This course presents education within a global context and the political, cultural, societal, and economic influences in education. Theories of comparative education and global trends and contemporary practices in international education will be examined.

**ESED 3410**  
**Issues in Global and International Education**  
3 credits  
(3-0-3)  
This comparative and international education course will address education policy issues that transcend national boundaries and have implications for educators in fostering social justice and global awareness. The course
explores theoretical approaches to understanding the role of education internationally and comparatively in diverse settings.

Prerequisite(s): ESED 2000

**ESED 3420 Education and International Development** 3 credits (3-0-3)
This course examines the debates and issues surrounding international development and the role education plays in that development, including the possibilities of global cooperation as well as the complexity of educational accountability in disparate societies. Educational development, as influenced by increasing access to technology, and the impacts of educational interventions will be analyzed related to their implications for students, nationally and internationally.
Prerequisite(s): ESED 2000

**ESED 4100 Internship Capstone with Seminar** 3 credits (3-0-3)
This internship option can serve as a culminating learning experience for BIDS and BIDS Educational Studies students. This experience gives students the opportunity to apply the knowledge acquired through academic preparation, while learning the skills of an entry-level practitioner. Experience at an internship site will provide the practical application of course work from the fields of study while developing professional skills.
Prerequisite(s): ESED 2000 or BIDS 3000

### Electronics Engineering Technology

**ELET 3101K Electric Circuit I** 4 Credits (3-2-4)
The concept of current, voltage, power, and resistance. The course deals with units, basic electrical laws, series and parallel circuits, network theorems, and instruments. AC sources, capacitance, inductance, and magnetism are introduced. Circuits are analyzed using PSPICE. Laboratory work parallels class work and include the use of various AC and DC instruments.
Prerequisite(s): MATH 1113

**ELET 3111K Electric Circuit II** 4 Credits (3-2-4)
The second part of the electric circuit sequence. The course deals with impedance and admittance in sinusoidal circuits. Resonant circuits, three-phase circuits, harmonics and transformer theory are also studied. Circuits are analyzed using PSPICE. Laboratory work parallels class work.
Prerequisite(s): ELET 3101K

**ELET 3201K Electronics I** 4 Credits (3-2-4)
A study of discrete electronic devices. Semiconductor diodes, BJTs and FETs are studied with emphasis on characteristic curves. BJT and FET amplifiers are studied in-depth and various configurations of small and large signal amplifiers are studied. Circuits are analyzed using PSPICE. Laboratory work parallels class work.
Prerequisite(s): ELET 3101K; Corequisite: ELET 3111K

**ELET 3211K Electronics II** 4 Credits (3-2-4)
A study of the characteristics, performance, and application of the most common linear integrated circuits. The emphasis of this course is on operational amplifiers, comparators, multipliers, oscillators, voltage regulation, oscillators, phase-locked loops and data converters. Applications will illustrate use, and laboratory exercises will enhance learning.
Prerequisite(s): ELET 3201K

**ELET 3301K Digital Systems I** 4 Credits (3-2-4)
A comprehensive study of binary and hexadecimal numbers, Boolean algebra, truth tables, Karnaugh maps, and combination logic using basic gates. Flip-flops, counters, registers, encoders, and decoders are also presented. Circuit simulation software is used in both classroom and laboratory work.
Prerequisite(s): ELET 3101K
ELET 3311K  Digital Systems II  4 Credits  (3-2-4)
A thorough study of sequential design. Techniques and issues relevant to design will be covered in-depth and project work will emphasize the use of LSI, MSI, and SSI circuits in the application and design of complex digital systems. Analog-to-digital converters (ADC), digital-to-analog converters (DAC), programmable logic devices (PLDs), and introduction to microprocessors are also studied. Circuit simulation software used in both classroom and laboratory.
Prerequisite(s): ELET 3301K

ELET 3401K  Microcomputer Interfacing  4 Credits  (3-2-4)
A study of microprocessors and microcomputer systems. Related hardware and software issues will be covered. The course also covers memory systems, input/output devices and interfacing mechanisms. Classroom instruction is enhanced by laboratory work.
Prerequisite(s): ELET 3301K

ELET 3411K  Microcontrollers  4 Credits  (3-2-4)
A comprehensive study of micro controller hardware and software. System architecture includes the CPU, timer, serial, and parallel I/O ports, RAM and ROM. The software portion of the course covers assembly language. Classroom instruction will be enhanced by laboratory work.
Prerequisite(s): ELET 3301K

ELET 3501K  Control Systems  4 Credits  (3-2-4)
Analysis and design of linear feedback control systems are studied. Nyquist’s and Routh’s stability criteria, Bode plots, transient behavior, static error coefficients, and the steady-state behavior of various system types are presented. The root-locus method and block diagram representation and simplification are also included. Classroom instruction will be enhanced by laboratory work.
Prerequisite(s): ELET 3111K and MATH 2111

ELET 3511K  Electrical Machinery  4 Credits  (3-2-4)
An introductory course in the characteristics and application of basic electric machinery. Three phase distribution systems, transformers, DC generators, AC generators, DC motors, and AC motors are studied. Laboratory work parallels classroom instruction.
Prerequisite(s): ELET 3111K

ELET 3701K  Data Acquisition Systems  4 Credits  (3-2-4)
An introduction to the techniques for interfacing the basic measurement and instrumentation circuitry and systems to monitor physical characteristics such as temperature, pressure, strain, and distance by using data acquisition system. Typical instrumentation and measuring problems will be solved in the laboratory.
Prerequisite(s): ELET 3101K

ELET 4101K  Programmable Logic Controllers  4 Credits  (3-2-4)
PLC, ladder logic, programming, installation, and troubleshooting of PLC systems. Sensors and their wiring, I/O modules and wiring, and fundamentals of plant communications are studied. Laboratory work parallels classroom instruction.
Prerequisite(s): ELET 3301K

ELET 4401K  Industrial Electronics  4 Credits  (3-2-4)
A study of the necessary background for understanding the concept and utilization of various electronics devices, circuits and systems which are essential in industrial control and automation. Recent development and practices in industry are presented. Students apply the knowledge from Electronics II and Digital Systems II to develop application-oriented systems.
Prerequisite(s): ELET 3211K, 3311K

ELET 4412K  Instrumentation and Measurement  3 Credits  (2-2-3)
The purpose of this course is to provide students with basic understanding of instrumentation, sensors, analog and digital signal conditioning. Students will gain experience in designing basic measurement systems and will become proficient in using laboratory based instrumentation and measurement devices.

Prerequisite(s): ELET 3411K

</tbody>
</table>
Extensive practice in composition forms and stylistic techniques. This course requires peer and self-evaluation and frequent conferences with the instructor to guide extensive revision of compositions. Students develop a final portfolio illustrating their expertise in writing.

Prerequisite(s): ENGL 1102

**ENGL 2105**  
Introduction to Literary Criticism  
3 Credits  (3-0-3)  
An introduction to theories and techniques of literary analysis, with practice in reading literary and critical texts, in writing critical essays, and in doing literary research. Includes a survey of critical approaches to literature.

Prerequisite(s): ENGL 1102

**ENGL 2111**  
World Literature I  
3 Credits  (3-0-3)  
A survey of important works of world literature from ancient times through the mid-seventeenth century.

Prerequisite(s): ENGL 1102

**ENGL 2112**  
World Literature II  
3 Credits  (3-0-3)  
A survey of important works of world literature from the mid-seventeenth century to the present.

Prerequisite(s): ENGL 1102

**ENGL 2120**  
British Literature Survey for Majors  
3 Credits  (3-0-3)  
ENGL 2120 is a survey of important works of British literature from the Old English period through the twentieth century. It is intended for English majors and provides a foundation in textual analysis, close reading, the conventions of literary study and terminology.

Prerequisite(s): ENGL 2105 or consent of instructor

**ENGL 2121**  
British Literature I  
3 Credits  (3-0-3)  
A survey of important works of British literature from the Old English period through the eighteenth century.

Prerequisite(s): ENGL 1102

**ENGL 2122**  
British Literature II  
3 Credits  (3-0-3)  
A survey of important works of British Literature from the Romantic period to the present.

Prerequisite(s): ENGL 1102

**ENGL 2130**  
American Literature Survey for Majors  
3 Credits  (3-0-3)  
ENGL 2130 is a survey of important works of American literature from the time of contact with the first European explorers to the present. It is intended for English majors and provides a foundation in textual analysis, close reading, the conventions of literary study and terminology.

Prerequisite(s): ENGL 2105 or consent of instructor

**ENGL 2131**  
American Literature I  
3 Credits  (3-0-3)  
A study of the main currents of literary thought and expression in America from the colonial period to 1865.

Prerequisite(s): ENGL 1102

**ENGL 2132**  
American Literature II  
3 Credits  (3-0-3)  
A study of the main currents of literary thought and expression in America from 1865 to the present.

Prerequisite(s): ENGL 1102

**ENGL 2140**  
Introduction to African American Literature  
3 Credits  (3-0-3)  
Survey of important works of African American literature.

Prerequisite(s): ENGL 1102

**ENGL 2220**  
African American Literature Survey for Majors  
3 Credits  (3-0-3)  
ENGL 2220 is a survey course designed to introduce and engage English majors and minors in in-depth study of representative works of African American literature, providing a foundation in textual analysis, close reading, the conventions of literary study and terminology.
**ENGL 2322**  
Imaginative Writing  
3 Credits  
(3-0-3)

A course designed to provide valuable writing and reading experience for all majors who are interested in expanding their understanding and practice in the area of creative writing and literary analyses. It will enhance their understanding of classroom-learned concepts and practices by providing instructed guidance on the application of their reading, writing, and analyzing skills as they relate to Imaginative Writing (multi-genre creative writing).

*Prerequisite(s):* ENGL 2105 or consent of instructor.

---

**ENGL 2521**  
Introduction to Film  
3 Credits  
(3-0-3)

Introduction to reading and interpreting the language of film through an understanding of filmmaking techniques, cinematic conventions and active viewing practices. The influence of key genres, movements, and figures, both American and international, will also be discussed.

*Prerequisite(s):* ENGL 1102.

---

**ENGL 3010**  
Literary Theory and Criticism  
3 Credits  
(3-0-3)

A course designed to give English majors guided opportunities to acquire effective methods of writing literary analyses informed by current literary criticism and cultural theories. Required for English majors. ENGL 3010 is a pre- or co-requisite for all upper division courses in literature.

*Prerequisites:* ENGL 2105, ENGL 2120, ENGL 2130, & ENGL 2220 or consent of the instructor.

---

**ENGL 3011**  
Medieval English Literature  
3 Credits  
(3-0-3)

A study of the literature of medieval Britain, from the beginnings to approximately 1500. Addresses texts such as *Beowulf*, “The Dream of the Rood,” and Arthurian legends as well as authors such as Chaucer and Bede.

*Prerequisite(s):* ENGL 2120 or ENGL 2121 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

---

**ENGL 3012**  
Renaissance British Literature  
3 Credits  
(3-0-3)

A survey of British Literature of the Renaissance, addressing the prose, poetry, and drama of the long sixteenth and seventeenth centuries. Students will engage with writings of authors such as Francis Bacon, Edmund Spenser, Philip Sidney, Christopher Marlowe, John Donne, Ben Jonson, and William Shakespeare, in light of the historical context from 1485 to 1660.

*Prerequisite(s):* ENGL 2120 or ENGL 2121 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

---

**ENGL 3014**  
Romantic British Literature  
3 Credits  
(3-0-3)

The genesis of Romantic theory and the beginning of the Romantic revolt in English; significant literary aspects of the movement as shown in the works of Wordsworth, Coleridge, Byron, Shelley, and Keats; in the prose writing of Hazlitt, DeQuincey, Hunt, Lamb, and Scott.

*Prerequisite(s):* ENGL 2105 and ENGL 2122 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

---

**ENGL 3015**  
Victorian British Literature  
3 Credits  
(3-0-3)

Literature during the reign of Queen Victoria, showing the merging of the Romantic tradition into the era of modern doubt. Includes such writers as Carlyle, Tennyson, the Brownings, Arnold, Ruskin, Meredith, the Rossettis, Swinburne, Pater, Hopkins, and Wilde.

*Prerequisite(s):* ENGL 2105 and ENGL 2120 or ENGL 2122 and, as a prerequisite or co-requisite, ENGL 3010 or consent of the instructor.

---

**ENGL 3016**  
Modern British Literature  
3 Credits  
(3-0-3)

Literature from the Edwardian period through the two world wars and decolonization to the present. Includes such writers as Hardy, Shaw, Conrad, Yeats, Joyce, Woolf, Lawrence, Eliot, Graves, Auden, Thomas, Beckett, Osborne, Pinter, and Stoppard.
Prerequisite(s): ENGL 2105 and ENGL 2122 or consent of the instructor

ENGL 3031 The British Novel 3 Credits (3-0-3)
A study of the rise and development of the novel in English. Includes writers such as Samuel Richardson, Laurence Sterne, Walter Scott, Jane Austen, Charles Dickens, Wilkie Collins, Joseph Conrad, James Joyce, Virginia Woolf, Jean Rhys, Bernardine Evaristo, A.S. Byatt, and Michael Frayn.

Prerequisite(s): ENGL 2120 and ENGL 3010

ENGL 3121 The Bible as Literature 3 Credits (3-0-3)
Critical survey of the various forms of literature found in the Hebrew Bible.

Prerequisite(s): ENGL 2105 or consent of the instructor

ENGL 3122 The Bible as Literature II 3 Credits (3-0-3)
An introduction to the literature of the New Testament and to the religious writing contemporary with the Bible known as the Apocrypha. Using the tools of literary and rhetorical analysis, we will explore the meanings the Biblical and Apocryphal texts held for their communities, and the strategies by which the texts construct and convey those meanings.

Prerequisite(s): ENGL 2105 or consent of the instructor

ENGL 3211 African-American Drama 3 Credits (3-0-3)
A survey of African-American drama from the early nineteenth century through the Harlem Renaissance to contemporary theatre, examining its relationships to the oral tradition and to literary, social, and political influences. Includes such writers as James Baldwin, Amiri Baraka, Alice Childress, Pearl Cleage, Langston Hughes, Suzan-Lori Parks, Ntozake Shange, Anna Deavere Smith, August Wilson, and George C. Wolfe.

Prerequisite(s): ENGL 2105 and ENGL 2220 or ENGL 2140 and, as a prerequisite or co-requisite, ENGL 3010 or permission of the instructor

ENGL 3212/AFRS 3212 African-American Oral Literature 3 Credits (3-0-3)
Studies African-American folklore, preaching and speaking, and the lyrics of spirituals, blues, and rap in relation to African roots, historical conditions, and literary practice.

Prerequisite(s): ENGL 2105 and ENGL 2140 or permission of the instructor

ENGL 3216/AFRS 3216 African-American Poetry 3 Credits (3-0-3)
A survey of African-American poetry from the nineteenth century through the Harlem Renaissance to contemporary poetry, examining its relationships to the oral tradition and to literary, social, and political influences. Includes such writers as Claude McKay, Langston Hughes, Gwendolyn Brooks, Nikki Giovanni, Sonia Sanchez, and Rita Dove.

Prerequisite(s): ENGL 2105 and ENGL 2140 or permission of the instructor

ENGL 3217/AFRS 3217 African-American Fiction 3 Credits (3-0-3)
A critical survey focusing on leading themes and techniques in the short stories and novels of such authors as Charles Chesnutt, Zora Neale Hurston, Richard Wright, Ralph Ellison, James Baldwin, Toni Morrison, Ishmael Reed, Alice Walker, and Gloria Naylor.

Prerequisite(s): ENGL 2105 and ENGL2220 or ENGL 2140 and, as a prerequisite or co-requisite, ENGL 3010 or permission of the instructor
ENGL 3219/AFRS 3219
African-American Nonfiction 3 Credits (3-0-3)
A study of African-American nonfiction including slave narratives, political speeches, cultural essays, memoirs, and other life writing. It may cover such authors as W.E.B. DuBois, Ida B. Wells, Alex Haley, Alice Walker, Barack Obama, Ta-Nehisi Coates, John Edgar Wideman, and others.
Prerequisite(s): ENGL 2105 and ENGL 2220 or ENGL 2140 and, as a prerequisite or co-requisite, ENGL 3010 or permission of the instructor.

ENGL 3310 American Literature from Contact Period and Colonial Period 3 Credits (3-0-3)
An examination of the development of literature produced in North America from the earliest contact between Native peoples and European explorers to the dawn of the American Revolution.
Prerequisite(s): ENGL 2130 or ENGL 2131 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 3311 American Literature from Revolution to Civil War 3 Credits (3-0-3)
A study of literary works written in the United States by writers active between 1776 and 1861.
Prerequisite(s): ENGL 2130 or ENGL 2131 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 3312 Realism and Modernism in American Literature 3 Credits (3-0-3)
Examines significant works in the three major genres of fiction, poetry, and drama from 1860 to 1950 in American literature, especially works exemplary of realism and modernism. Includes writers such as Mark Twain, Willa Cather, Kate Chopin, Gertrude Stein, Wallace Stevens, Langston Hughes, Robert Frost, William Faulkner, John Steinbeck, and Tennessee Williams.
Prerequisite(s): ENGL 2130 or ENGL 2132 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 3313 Postmodern American Literature 3 Credits (3-0-3)
An examination of significant literary works produced in the US since 1950, with an emphasis on writers who push the boundaries of conventional literary practice.
Prerequisite(s): ENGL 2130 or ENGL 2132 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 3321 Introduction to Language Study 3 Credits (3-0-3)
A general survey of linguistics, with emphasis on sociolinguistics, the historical development of the English language, and the structure of contemporary English.
Prerequisite(s): ENGL 1102

ENGL 3331 American Novel 3 Credits (3-0-3)
A survey of the history and major currents of literary expression in America as represented in the American novel. Intended for English Majors and will provide further practice in textual analysis, close reading, and the conventions of literary study and terminology.
Prerequisite(s): ENGL 2130 or ENGL 2132 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 3332 American Short Story 3 Credits (3-0-3)
A genre-based survey examining the development and contexts of the short story as a literary form in American Literature. Includes such writers as Edgar Allan Poe, Nathaniel Hawthorne, Willa Cather, Sherwood Anderson, Ernest Hemingway, Eudora Welty, Flannery O’Connor, John Updike, and Tim O’Brien, as well as contemporary authors of short fiction.
Prerequisite(s): ENGL 2130, ENGL 2131 or ENGL 2132, and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.
ENGL 3335  American Poetry  3 Credits (3-0-3)
A study of poetry written in America, with an emphasis on significant themes, techniques, and movements.
Prerequisite(s): ENGL 2130, ENGL 2131 or ENGL 2132, and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor

ENGL 3339  American Drama  3 Credits (3-0-3)
A study of the variety and development of drama in America, focusing both on theatre as a mode of national expression and on theatre as a reflection of humanity that readily crosses national boundaries. The course will situate modern and contemporary American drama in relationship to American theatre from the eighteenth century to the present.
Prerequisite(s): ENGL 2130 or ENGL 2132, and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor

ENGL 3416  Creative Nonfiction  3 Credits (3-0-3)
Guided practice in the writing of various forms of nonfiction (memoir or autobiography, personal essays, travel writing, cultural criticism) that are distinguished by the use of personal perspectives and literary techniques. Students will study and discuss examples by professional writers and other students, submit frequent writing projects, and hold frequent conferences with the instructor.
Prerequisite(s): ENGL 1102

ENGL 3417  Introduction to Creative Writing: Poetry  3 Credits (3-0-3)
An introductory course with an emphasis on the craft of poetry writing. Students will explore and deconstruct a variety of poetic forms and conventions and engage in writing exercises that will help create their own poetry manuscript while building skill as writers.
Prerequisite(s): ENGL 1102

ENGL 3418  Introduction to Creative Writing: Fiction  3 Credits (3-0-3)
An introductory course with an emphasis on the craft of fiction writing. Students will examine a variety of fiction texts in order to gain a theoretical understanding of the writing and reading of fiction which will allow them to analyze and critique fiction works.
Prerequisite(s): ENGL 1102

ENGL 3419  Introduction to Technical Writing  3 Credits (3-0-3)
This course introduces students to the written, oral, and digital aspects of technical communication. Students will gain proficiency in the techniques of objective reporting on scientific and technical material; the conventions of technical exposition; rhetorical analysis; collaborative writing; the ability of completing tasks in the workplace; language use; and principles of various technical reports, including abstracts, proposals, presentations, and manuals.
Prerequisite(s): ENGL 1102

ENGL 3430  Literary Editing, Publishing, and Marketing  3 Credits (3-0-3)
A course designed to introduce concepts and practices used in producing and marketing literary texts and to provide practical application of the skills needed for successful publishing.
Prerequisite(s): ENGL 1102

ENGL 3515  World Drama  3 Credits (3-0-3)
A survey of important dramatic works from the Americas, Europe, Asia, and Africa.
Prerequisite(s): ENGL 2105

ENGL 3531  World Novel  3 Credits (3-0-3)
A survey of significant novels in World Literature. The course will emphasize discussion of historical, religious, social, and cultural perspectives of the geographic areas and historical periods in which the literature was written.
Prerequisite(s): ENGL 2105 and, as a prerequisite or corequisite, ENGL 3010, or consent of the instructor.
ENGL 3535  World Poetry  3 Credits  (3-0-3)
A survey of world poetry in from ancient times through modern. The course will emphasize discussion of historical, religious, social and cultural perspectives of the geographic areas and historical periods in which the literature was written.
*Prerequisite(s):* ENGL 2105 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 3538  World Nonfiction  3 Credits  (3-0-3)
A study of topics, trends, and hallmarks of contemporary international and multicultural nonfiction writing. The course will emphasize discussion of social and cultural perspectives of the geographic areas and historical periods in which the literature was written.
*Prerequisite(s):* ENGL 2105 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 3800  Peer Writing Tutor Seminar  3 Credits  (3-0-3)
This course is designed to examine the theoretical and practical components of writing center work. This course will also introduce students to all facets of writing center consultation and administration.
*Prerequisite(s):* ENGL 1101 and ENGL 1102 with a B or better or ENGL 2104 with a B or better.

ENGL 3900  Internship for English Majors  3 Credits  (3-0-3)
This course is designed to give students practical experience working, researching, and/or studying in a public or private agency related to the field of English. Students will be supervised by the sponsoring agency as well as faculty advisor; all parties will work together to designate individual goals and responsibilities for each student. Intern positions may be obtained in any one of a broad range of relevant organizations, including but not limited to various media outlets, publishing and/or editing firms, non-profits, libraries, governmental agencies, educational and educational support facilities, and legal firms. Students must complete at least 100 hours of onsite work as well as additional writing and research assignments.
*Prerequisite(s):* ENGL 2105

ENGL 4011  Shakespeare  3 Credits  (3-0-3)
An examination of dramatic and poetic works of William Shakespeare. Students will analyze a number of plays and poems as well as a selection of secondary and critical material.
*Prerequisite(s):* ENGL 2120 or ENGL 2121 and, as a prerequisite or co-requisite, ENGL 3010, or consent of the instructor.

ENGL 4040  Black British Literature  3 Credits  (3-0-3)
A study of the literature produced by Black British writers, chiefly in the years following the major immigration of African Caribbeans to Britain after World War Two, this course will focus consideration on multicultural Britain, the diasporic experience, and modern British politics of race and culture.
*Prerequisite(s):* ENGL 3010 or consent of the instructor.

ENGL 4041  The British Novel  3 Credits  (3-0-3)
An evaluative study of works of great English novelists. Rise and development of the English novel, together with an analytical appraisal of four elements – setting, character, plot and philosophy. Readings and discussion of various types, with emphasis upon the variety of methods by which the novel interprets life.
*Prerequisite(s):* ENGL 2120 or ENGL 2122 and, as a prerequisite or corequisite, ENGL 3010 or consent of the instructor.

ENGL 4100  Major Author  3 Credits  (3-0-3)
An advanced course that provides an intensive scholarly study of the texts of a single major author (Faulkner, Swift, O’Connor, Chaucer, Morrison, Poe, Dickens, among others) within their literary and cultural contexts. Students will produce a sophisticated piece of researched literary analysis that takes into account the body of criticism on that writer.
*Prerequisite(s):* ENGL 3010 or consent of the instructor.

ENGL 4105  Advanced Playwriting  3 Credits  (3-0-3)
An examination of techniques and strategies involved in writing works of drama and the application of those strategies by writing and revising original plays.

**Prerequisite(s):** 3000-level writing course or consent of the instructor

This course continues work in the craft and creation of poetry writing. In this seminar students will closely examine their writing and that of their peers, as well as a variety of creative and academic poetry texts in order to further a theoretical understanding of the writing and reading of poetry. Students will write intensely to produce works for peer critique in a workshop setting.

*Prerequisite(s): ENGL 3417 or permission of instructor with writing sample*

**ENGL 4418  Fiction Writing Seminar  3 Credits  (3-0-3)**
This course continues work in the craft and creation of fiction writing. In this smaller workshop format, students will closely examine their writing and that of their peers, as well as a variety of fiction texts in order to further a theoretical understanding of the writing and reading of fiction. Students will write intensely to produce works for peer critique in a workshop setting.

*Prerequisite(s): ENGL 3418 or permission of instructor with writing sample*

**ENGL 4551  Postcolonial Studies  3 Credits  (3-0-3)**
An exploration of such concerns as race, gender, nationality, and postcolonial subjectivity. Texts studied will include such writers as Jean Rhys, V. S. Naipaul, Salman Rushdie, Grace Nichols, and Okot p’ Bitek, along with such theorists and critics as Homi Bhabha and Frantz Fanon.

*Prerequisite(s): ENGL 2105 and ENGL 2120 or ENGL 2112 or permission of the instructor*

**ENGL 4621  Popular Culture Studies  3 Credits  (3-0-3)**
An examination of American pop culture, with an emphasis on developments since World War II. A study of current trends in pop culture and cultural theory.

*Prerequisite(s): ENGL 2105 and ENGL 2130 or ENGL 2132 or permission of the instructor*

**ENGL 4700  Senior Seminar  3 Credits  (3-0-3)**
A capstone course in which students will be guided to synthesize previous coursework through intensive study of literary movements, genres, and authors. Methods include small group discussion, formal and informal oral presentations, and conferences with the professor. Each student will prepare a major paper demonstrating skill in research, writing, and critical thinking.

*Prerequisite(s): ENGL 2104 and ENGL 2105; senior standing or permission of instructor.*

**Engineering**

**ENGR 1101  Introduction to Engineering  1 Credit  (1-0-1)**
The course consists of material and learning activities that would build and sustain the interest of the student in engineering and that would produce behavioral modification in the student to adequately prepare him/her for a successful academic career in engineering.

**ENGR 2001  Principles & Applications of Engineering Materials  3 Credits  (3-0-3)**
The structure-property-processing-performance relationships of engineering materials are described. Materials selection is treated as a part of engineering design.

*Prerequisite(s): CHEM 1211 and CHEM 1211L*

**ENGR 2016  Computing  3 Credits  (3-0-3)**
This course encompasses numerical analysis/methods techniques for solving engineering problems using software development. Topics include sources of error in computing, the use of modular software design, basic numerical methods, and optimization.

*Prerequisite(s): CSCI 1371 and MATH 3101*

**ENGR 2025  Introduction to Signal Processing  4 Credits  (3-3-4)**

*Prerequisite(s): MATH 2111 or MATH 2511, and CSCI 1371*

</table>
An introduction to computer graphics hardware and software with emphasis on hands-on experience using one or more CAD systems.

Prerequisite(s): MATH 1113

**ENGT 2803**  
Introduction to Renewable Energy Entrepreneurship  
3 Credits  (3-0-3)

The course is primarily based on case studies and business planning. There are two broad themes to the class. In the first part we focus on the process of creating entrepreneurial companies. We will examine business issues of identifying opportunities in energy and environment, implementing strategies, and formulating and implementing the business plans. In the second part, we focus more specifically on the challenges of raising funds, dealing with investors and exploring issues in renewable (solar) energy and environment. We will occasionally change our perspective then, looking at the process from an investor’s perspective.

Prerequisite(s): ENGL 1102

**ENGT 3101**  
Statics  
3 Credits  (3-0-3)

A study of applied engineering mechanics of rigid bodies in equilibrium. Analysis of forces, reactions and moments in various force systems for both two and three dimensional systems. Determination of centroids of composite area and the moment of inertia will also be studied.

Prerequisite(s): MATH 1113, & (PHYS 1111K or PHYS 2211K)

**ENGT 3190/DATA 3190**  
Data Visualization  
3 Credits  (3-0-3)

An important skill that a data analyst should possess is to communicate practical implications of any data set after performing quantitative analysis of the information. Using technical means and software tools to communicate the information in a non-technical manner will help firms to make meaningful decision. Data visualization requires students to become familiar with technologies in use, streamline the analysis, and highlight implications efficiently using tools such as Python and R.

Prerequisite: MATH 1113 and CSCI 1130 or CISM 1130

**ENGT 3301**  
Quality Control  
3 Credits  (3-0-3)

A study of statistics, probability, control charts for variables and attributes, and acceptance sampling plans.

Prerequisite(s): MATH 2111

**ENGT 3501**  
Dynamics  
2 Credits  (2-0-2)

The study of kinematics, the motion and movement of a body in terms of displacement, velocity acceleration and time; and kinetics, the relations between motion of a body and the forces that caused the motion. Topics include rectilinear motion as well as curvilinear motion.

Prerequisite(s): ENGT 3101 or ENGR 2201, and MATH 2101

**ENGT 3601**  
Strength of Materials  
3 Credits  (3-0-3)

A comprehensive study of the concept of the stress-strain relationship and how this relates to the design of structural members. Emphasis will be on the stress distribution due to axial tension and compression, thermal, torsion, and transverse loading and their combinations.

Course content will also include pure bending, transformations of stress, shear and bending moment diagrams, slope and deflection of beams by integration, and Euler’s formula for columns.

Prerequisite(s): ENGT 3101 or ENGR 2201, and MATH 2111

**ENGT 3701**  
Engineering Economy  
3 Credits  (3-0-3)

A study of the fundamental concept and analytical tools of engineering economy. The elements of engineering decision-making process, compound interest and equivalence are examined. This course also covers present worth, uniform annual cost, rate of return and depreciation method as well as income taxes to help make the correct engineering business decision.

Prerequisite(s): MATH 1113 or permission of the instructor
ENGT 4401  Senior Design/Capstone  3 Credits  (3-0-3)
The senior design project course provides an opportunity for the students to work individually or in a team, based on their interest in areas such as Structural, Geotechnical, Environmental or Highway. (Civil Engineering Technology) or in areas such as Analog/Digital, Communication, Control, Embedded and Power Systems (Electronics Engineering Technology). Students will identify, explore, and analyze real-life problems. The project may involve field exposure, data collection, working with field professionals, laboratory use, design, and computer analysis. Each team is required to present their project orally as well as submit a written report to support their design work.
Prerequisite(s): CIVT 4211; or CIVT 4100K; or CIVT 3601K; or CIVT 3401K (Civil Engineering Technology). Prerequisite(s): ELET 3411K; or ELET 3511K; or ELET 3311K; or ELET 3211K; or ELET 4101K (Electronics Engineering Technology)

ENGT 4901  Engineering Technology Internship  1 – 3 Credits  (V-0-V)
A supervised training, apprenticeship at an appropriate company, laboratory, academic institution, or agency. The student is expected to participate in activities related to their field of study. A final oral presentation, written report from the student and evaluation from the supervisor are the deliverables.
Prerequisite(s): Senior standing or as specified by the instructor

ENGT 4903  Special Topics  1 – 4 Credits  (V-0-V)
A discussion of current topics in either Civil Engineering technology, Electronics Engineering technology or Computer Science technology.
Prerequisite(s): Senior standing or as specified by the instructor

Environmental Science

ENVS 1121K  Physical Geology  4 Credits  (4-0-4)
A course designed for students majoring in environmental science. The course is also useful for students majoring in civil engineering, marine science, and naval science who may take it as an elective. Topics include composition of the earth and its minerals, volcanoes, and earthquakes and their causes.
Prerequisite(s): MATH 1111 and basic knowledge of chemistry and physics

ENVS 1140  Environmental Issues  3 Credits  (3-0-3)
Survey of global environmental issues facing humankind from philosophical, sociological, historical, ecological, and technological perspectives.

ENVS 2401  Introduction to Environmental Science  3 Credits  (3-0-3)
Mechanism of evolution in relation to plants, animals and man, population dynamics, ecological processes, population ecology, species interactions, evolution of behavior, biomes, biogeography, pollution, and ecosystem sustainability.
Corequisite: ENVS 2401L

ENVS 2401L  Introduction to Environmental Science Lab  1 Credit  (0-1-1)
Lab taken concurrently with ENVS 2401.
Corequisite: ENVS 2401

ENVS 3121  Environmental Ethics  3 Credits  (3-0-3)
The basics in philosophical and ethical thought, especially as related to the development in mankind of a new ecological ethic.
Prerequisite(s): HUMN 2011, ENVS 2401

ENVS 3201  Limnology  3 Credits  (3-0-3)
Evolution and morphology of ponds, lakes, and streams; physical and chemical characteristics of inland water, aquatic biota, their taxonomy and ecology.
Prerequisite(s): ENVS 2401, BIOL 2401, CHEM 1211 and CHEM 1212

Overview of the historic development and evolution of legal principles, the legal processes relating to resource conservation, environmental regulations and statutory laws.

**Prerequisite(s):** ENVS 2401 and ENVS 3121

**ENVS 4202**  
**Principles of Ecotoxicology**  
3 Credits  
(3-0-3)  
Toxic chemicals and their fate and distribution in various ecosystems, toxicity of chemicals on the individual, populations and communities, relationship of dose and response, and biomarkers in population studies.  
**Prerequisite(s):** ENVS 2401 and CHEM 2501

**ENVS 4301**  
**Solid and Hazardous Waste Management**  
3 Credits  
(3-0-3)  
Hazardous wastes disposal techniques, problems associated with current waste disposal techniques, major pathways of pollutant migration from disposal sites, emphasis on critical issues facing industry, government, and the public.  
**Prerequisite(s):** ENVS 3203 and CHEM 2501

**ENVS 4401**  
**Environmental Impact Assessment**  
3 Credits  
(3-0-3)  
Land use planning, zoning, subdivision and community organization, human growth, control, local, state and federal regulations, multi-disciplinary terms are organized to produce actual EIS’s, geology, soils, topography, hydrology, meteorology, biology, sociology and economics are all involved.  
**Prerequisite(s):** ENVS 2401 and ENVS 3121

**ENVS 4801**  
**Internship**  
2 Credits  
(2-0-2)  
Supervised training, apprenticeship, and experience with an appropriate agency, written internship report, and report presentation.  
**Prerequisite(s):** Senior Standing

**ENVS 4901**  
**Environmental Synthesis Seminar**  
1 Credit  
(1-0-1)  
Most updated environmental literature search, research methodology, synthesis, manuscript preparation, and seminar presentation.  
**Prerequisite(s):** Senior Standing

**ENVS 4910**  
**Special Topics**  
3 Credits  
(3-0-3)  
In depth discussion and review of most critical environmental issues, toxic chemicals, soil, water and air pollution, and new remedial methodologies.  
**Prerequisite(s):** Senior standing

---

**Engineering Technology Education**

**ETED 2201**  
**Literacy and Technical Writing in Engineering and Technology Education**  
2 Credits  
(2-0-2)  
This course explores methods for teaching P-12 to read, write, think, and learn in ways that allow them to master the subject matter and meaningfully apply their understanding. Candidates learn to plan lessons that teach content and nurture greater literacy. Pre-, during-, and post-reading strategies are explored, along with assessment methods that give students a continual view of their literacy progress and achievement. Classroom adaptations for culturally and linguistically diverse population and technical writing in the engineering and technology education areas are also addressed.

**ETED 2500**  
**Introduction to Engineering and Technology Education**  
3 Credits  
(3-0-3)  
This course is an introduction to Engineering and Technology Education. While offering current viewpoints on the subject of technology the course prepares students for their future as teachers, and simultaneously teaches about the evolution of society's technical means. Through this approach, students will learn to fuse ideas and concepts from many engineering technology areas while relating to their own interests and backgrounds. Course is required for students who are seeking teacher certification.
ETED 3000  Principles of Engineering and Technology Education  3 Credits  (3-0-3)
This course is designed to provide students with experience in the application of the principles of physics and mathematics as they relate to technological systems. Instruction covers seven technical principles: force, work, rate, resistance, energy, power, and force transformers, emphasizing how each principle plays a unifying role in the operation of mechanical, fluid, electrical, and thermal systems.
Prerequisite(s): ETED 2500

ETED 3211  Connections in P-12 Engineering Technology Education  4 Credits  (4-0-4)
This course bridges connections of all sorts: those between different technological systems; engineering and science; and engineering/technology and the real world of people, business and everyday life. The course integrates technology through the use of lab equipment and computers, which students use to make design and create; validate findings; and investigate concepts, problems, and projects in greater depth. The emphasis on writing and the use of alternative types of assessment in this course is designed to help the student teachers to adapt their teaching strategies in order to meet every student's need.
Prerequisite(s): Admission to Teacher Education

ETED 3301  Electrical Power and Energy Systems  3 Credits  (3-0-3)
This course is an introductory course in the field of electric power systems and electrical to mechanical energy conversion.

ESED 3302  Hydraulic and Pneumatic Systems in Technology Education  3 credits  (3-0-3)
This course introduces the basic components, functions and theories of hydraulic and pneumatic power systems used in Engineering and Technology Education Programs. Topics include pumps, control valves, control assemblies, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting as well as integrating hose components into teaching strategies in P-12 Engineering Technology Education Programs.
Pre-requisite: ETED 3000.

ETED 3303  Construction Systems  3 Credits  (3-0-3)
This course offers an introduction to the history, theory, and construction of basic structural systems as well as an introduction to analysis of individual structural elements and strategies for load carrying.

ETED 3304  Transportation Systems  3 Credits  (3-0-3)
This course introduces transportation as a large-scale, integrated system that interacts directly with the social, political, and economic aspects of contemporary society, system performance and level-of-service metrics, and the design of transportation services and facilities for various modes and intermodal operations.

ETED 3305  Manufacturing Systems  3 Credits  (3-0-3)
This course is an introduction to manufacturing; Fundamental properties of materials including metals, polymers, ceramics and composites; Forming and shaping processes, such as rolling, forging, extrusion, drawing, sheet metal forming; Fundamentals of machining, machining processes, machine tool materials; and joining processes.

ETED 4000  Special Topics  1-13 Credits  (V-0-V)
This course focuses on topics in education or topics in the major content area of education.

ETED 4416  Teaching and Research in P-12 Engineering Technology Education  3 Credits  (3-0-3)
This course is an examination of the philosophy, mission, vision, goals, and research recommended by ISTE, content standards, and teaching methods for Engineering Technology Education in multicultural and diverse classroom of today. This course is designed to give engineering technology education students' specialty and professional knowledge in the area of integrating technology into school curricula. Research-based teaching strategies, instructional design, assessment, and lab management are examined and best practices are applied. Thee-portfolio is required for all education courses.
Prerequisite(s): Admission to Teacher Education
ETF 4417 Practicum in Teaching P-12 Engineering Technology Education 3 Credits (3-0-3)
This course is designed to provide teacher candidates with experience in a supervised school setting where they show active involvement with mentor teacher in creating and teaching lessons, grading papers, or any other classroom work. Students will learn how to implement meaningful and engaging instruction for secondary students in engineering technology; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance. Verification of professional liability insurance and clear criminal background check are required prior to receiving a school placement. The e-portfolio is required for all education courses. There are 120 field experience hours in this course. The course cannot be passed without completion of the field experience hours. Verification of professional liability insurance and a clear criminal background check are required prior to receiving a school placement.
Prerequisite(s): Admission to Teacher Education Corequisite: ETF 4416

Financial Technology

FTA 4001 Foundations of FinTech 3 Credits (3-0-3)
The financial services industries are changing rapidly with the emergence of financial technology (FinTech). The objective of the course is to provide students with an overview of FinTech and introductions to its applications in financial services, such as commercial and investment banking, digital investing, financial advising, and insurance. Students are expected to develop a broad understanding of the recent FinTech development and its impact on different parts of the financial world. Students will also have hands-on problem-solving experiences that can be useful in FinTech applications and innovation. Topics may include but are not limited to: blockchain and cryptocurrencies, smart contacting, payments, digital banking, P2P lending, crowdfunding, robo-advising, and InsurTech.

FTA 4002 Financial Technologies 3 Credits (3-0-3)
This course examines the information and communications tools, technologies, and standards integral to consumer, merchant, and enterprise services in the payments and financial service sectors. Explores technology's role in reshaping FinTech businesses. Technologies span messaging, communication networks and gateways, core processing, mobile and online software, and application program interfaces (APIs). Includes the challenges, standards, and techniques associated with securing systems and data.

FTA 4003 Commercial Banking and FinTech 3 Credits (3-0-3)
The FinTech revolution is creating significant disruption to the traditional processes of managing and regulating financial institutions, especially banks. Understanding, assessing and forecasting FinTech's impact on banking is particularly important because proper management and oversight of financial institutions is essential to the efficient operation of the national, as well as global, economy. In this course, students will learn about the principles and practices of commercial bank management, bank regulation, and the tradeoffs between risk and return. Challenges presented by the FinTech evolution, including traditional and emergent competitors as well as demographic, social, and technology forces driving change in the industry, will be integrated through the entire course.

FTA 4005 Introduction to Financial Data Analytics 3 Credits (3-0-3)
This course provides the foundation for financial data used in business and FinTech applications. The objective of this course is for the students to gain experience in analyzing financial data using modern machine learning techniques, statistical methods, and prediction models. Students will develop computational skills to perform data analysis using modern statistical programming environments and apply these skills to address a range of problems encountered by business firms including those in FinTech industry. The topics discussed include an introduction to R language, visualization of financial data, cluster analysis, simple and multiple linear regression, classification models, high dimension data analysis using Lasso, tree regression, and model assessment and selection using cross validation. Students will have hands on experience in the development of data analytics applications to analyze real world financial problems.
FTA 4100  Introduction to Information Security for FinTech  3 Credits  (3-0-3)
The purpose of this course is to introduce the student to the rapidly evolving and critical international arenas of privacy, information security, and critical infrastructure for FinTech. This course is designed to develop knowledge and skills for security of information and information systems within FinTech organizations. It focuses on concepts and methods associated with security across several systems platforms, including internal and internet-basing systems. The course utilizes a world view to examine critical infrastructure concepts as well as techniques for assessing risk associated with accidental and internal breaches of security in a FinTech network. It introduces associated issues of ethical uses of information and privacy considerations.

FINC 3155  Business Finance  3 Credits  (3-0-3)
Financial management of non-financial corporations and the role of interest rates and capital markets in the economy. Topics will include the structure and analysis of financial statements, time value of money calculations (using financial calculators), stock and bond valuation, financial forecasting, valuation of income-producing physical assets, determination of the cost of capital, the profitability of proposed investments in fixed assets, risk-return tradeoffs that must be considered in using financial leverage, and methods used in obtaining funds from the various capital markets. This course is taught mainly through lectures and class discussions of textual materials and problems.

FINC 3160  International Finance  3 Credits  (3-0-3)
International Finance is a study of the major markets of international finance with focus on corporate financial planning and decision making in a multinational environment. Topics covered include measurement and management of exchange rate risk, financing international trade, short- and long-term asset and liability management, direct foreign investment, cost of capital, capital structure, and country risk analysis.

FINC 4156  Capital Markets and Institutions  3 Credits  (3-0-3)
Course coverage includes an analysis of financial markets & institutions; regulation, money market operation, global impact of central banking principles and monetary policy, and determinates of interest rates with financial asset pricing.  
**Prerequisite(s):** FINC 3155

**FINC 4159**  
**Financial Statement Analysis**  
3 Credits  
(3-0-3)  
This course is designed to prepare students to interpret and analyze financial statements effectively. This course explores in greater depth financial reporting topics introduced in the core course in financial accounting and also examines additional topics not covered in that course. The viewpoint is that of the user of financial statements. This course is designed primarily for students who expect to be intensive users of financial statements as part of their professional responsibilities.  
**Prerequisite(s):** FINC 4155

---

### Fine Arts

**FINE 1101**  
**FYE Arts Practices**  
1 Credit  
(1-0-1)  
The First Year Experience is designed to assist first year students in their adjustment and assimilation into the university environment. Students will be introduced to a series of individual and group experiences that will enhance self-motivation, identify learning styles and habits, develop academic mindset, and adopt study skills for college success. This course will also address the interdisciplinary nature of the visual and performing arts through a cooperative hands-on immersion into real time arts production. Students will be introduced to craft, design, and theory crucial to their own arts endeavors. Significant artist and movements will be surveyed and critiqued in order to gain a better understanding of the context of their own art making. Students will receive guidance on how to create exhibitions, recitals/performances with an entrepreneurial approach to production.

**FINE 2101**  
**Arts Practices**  
3 Credits  
(3-0-3)  
This course addresses the interdisciplinary nature of the visual and performing arts through a cooperative hands-on immersion into a real-time arts production. Students will be introduced to the craft, design, and theory crucial to their own arts endeavors. Significant artists and movements will be surveyed and critiqued in order to gain a better understanding of the context of their own art making. Ultimately, students receive the fundamental background workings of how to create their own exhibition/recital/performance.

**FINE 2102**  
**Voice and Movement**  
3 Credits  
(3-0-3)  
This class will introduce students to a range of vocal and physical techniques for creative expression in performance, performance art, and all kinds of spoken human communication. Through a series of exercises, trainings, and performances, students will have the opportunity to reduce habitual tensions, connect the voice and body, and increase the strength, flexibility, and dynamic of their presentations. Speech skills including an introduction to the International Phonetic Alphabet will also be developed. The class will cover techniques drawn from a wide variety of voice and movement pedagogies.

**FINE 2104**  
**Portfolio/Career Marketing**  
3 Credits  
(3-0-3)  
Portfolio and Career Marketing prepares students for entering into their chosen careers, furthering education and employment in a field of their interest while in study or upon graduating from the university. The course is two-fold portfolio development and preparation-based learning experience. The course provides instruction on and includes self-awareness, career awareness and career exploration.

**FINE 2909**  
**Arts Administration**  
3 Credits  
(3-0-3)  
This course is an introductory management course for the student seeking a career in the visual and performing arts. Students will be introduced to the various aspects of entertainment law. This course aims to introduce students to management issues and topics that apply to art management of various disciplines and give students tools and strategies to navigate these issues. These topics include, but are not limited to; self-promotion, marketing, advertising and publicity, as well as alternative funding sources. Finally, this course aims to provide students with the opportunity to apply these advanced management techniques to their specific artistic field and
examine how these principles can be applied to their artistic business endeavors including effective professional written communication.

**FINE 2999** Legal Aspects of the Arts 3 Credits (3-0-3)
This course provides a basic introduction to laws and legal issues affecting arts and entertainment professionals. Attention is given to the products of individual artists and entertainers, as well as contract and agency law and tax law, as well as a visual or performing artist’s relationship with professional organizations and unions. Students are encouraged to explore and assess contemporary law as it relates to their professional goals and aspirations.

**FINE 3999** Internship 3 Credits (3-0-3)
This is a senior level course where students will be involved in off-campus, on-the-job observation and training in which the student pursues professional work in a variety of traditional and non-traditional careers appropriate to their academic program. An internship must be completed at 100 clock hours. Students planning to take an internship must prepare a portfolio/reel before enrolling. 
*Prerequisite(s):* approval required and successful completion (C average or better) of 30 credit hours within the student’s chosen concentration

**FINE 4800** Arts USA 3 Credit (3-0-3)
This course is designed for high impact practicum. Students synthesize skills within their discipline and craft by engaging in professional development and technical skills acquisition through experiential learning. This course is designed to set pathways for career opportunities and advantages. Students will develop networks within major hubs in the continental United States. They will be immersed in intensive practices, technical training and skill development integral to their profession.
*Prerequisite(s):* ARTS 1101 or DNCE 2010 or HUMN 2011 or MUSC 1101 or THEA 2101

**FINE 4900-4910** Special Topics 3 Credits (3-0-3)
The topic of this seminar varies from semester to semester. Each seminar focuses on a specific field and/or issue in the Arts. Students engage the topic by perusing individual projects that relate to course content.
*Prerequisite(s):* varies with topic

**FINE 4999** Senior Thesis 3 Credits (3-0-3)
Students enrolled in the program will demonstrate knowledge of the field through a thesis. Students must have topic approval from a faculty advisor in their chosen concentration and work under the close supervision of a thesis committee. The student must also complete a senior thesis research paper relevant to the student’s chosen topic and pass a program exit examination.
*Prerequisite(s):* Approval required. Successful completion (C average of better) of 45 credit hours within the student’s chosen concentration.

**Forensic Science**

**FSCI 1101** Introduction to Molecular Forensic Science 3 Credits (3-0-3)
An introduction to forensic science from a chemist’s perspective; basic principles of chemistry and their application to forensic science; evidence collection and preservation, drugs of abuse, poisons, arson investigations, explosives and DNA analysis.

**FSCI 3001** Computer Forensics 3 Credits (3-0-3)
This course introduces students to the technical and legal aspects of electronic evidence and the computer forensic investigative process. Topics covered include the discovery and recovery of electronic evidence stored on or transmitted by computers, networks, and cellular devices. Students will learn how computer forensics increasingly plays a role in investigations of both traditional and cyber-crimes.

**FSCI 3201** Forensic Evidence in Law Enforcement 3 Credits (3-0-3)
Principles of criminal law and procedure, preparation and presentation of evidence; examination of witnesses, and methods of legal research. Emphasis will be placed on court opinions defining the rules of search and seizure and advisability of evidence.

**FSCI 3301 Principles of Forensic Sciences**
3 Credits  (3-0-3)
Application of chemical and instrumental techniques that are currently used in crime laboratories to examine firearms, tool marks, documents, arson accelerants, drugs, hairs, plastics, paints, glass, soil, and textile fibers.
*Prerequisite(s):* CHEM 1211 or FSCI 1101

**FSCI 3301L Principles of Forensic Science Laboratory**
1 Credit  (0-1-1)
Lab to supplement FSCI 3301.

**FSCI 3401 Forensic Science Research/Internship**
2 Credits  (2-0-2)
This course involves supervised research including literature search, laboratory experimentation and investigations related to forensic science as well as interpretation and presentation of results.
*Prerequisite(s):* FSCI 3301

**FSCI 4101 Personal Identification & DNA Fingerprinting Analysis**
3 Credits  (3-0-3)
Modern techniques in personal identification with various methods in DNA fingerprint analysis, DNA profiling, DNA typing in rape and murder cases and in cases of paternity testing.
*Prerequisite(s):* CHEM 2511, BIOL 1108 and FSCI 3301

**FSCI 4101L Personal Identification & DNA Fingerprint Analysis Lab**
1 Credit  (0-1-1)
Lab taken concurrently with FSCI 3301.
*Prerequisite(s):* CHEM 2511L and BIOL 1108L

**FSCI 4201 Drug Abuse & Drug Analysis**
3 Credits  (3-0-3)
This course will look at the history and culture surrounding legal and illegal drug use and abuse. Factors affecting how drugs interact with the human body and the motivation for drug use will be discussed as well as key techniques and instruments required for drug analysis. Chemical, pharmacological, toxicological and pathological characteristics of commonly abused drugs, including alcohol, barbiturates, narcotics, stimulants and hallucinogens.
*Prerequisite(s):* CHEM 2511, BIOL 1108 and FSCI 3301

**FSCI 4201L Drug Abuse & Drug Analysis Lab**
1 Credit  (0-1-1)
Laboratory to supplement FSCI 4201.
*Prerequisite(s):* CHEM 2511L and BIOL 1108L

**FSCI 4301K Forensic Toxicology**
4 Credits  (3-1-4)
This course will provide the principles and techniques of forensic toxicology in terms of sample preparation, the various analytical techniques that are used in forensic science laboratories, as well as the pharmacogenomics, pharmacokinetic and pharmacodynamics of drug action within a biological system such as the human body. For the laboratory component, students will apply the knowledge gained in lecture (the theoretical aspects) to experimentally investigate problems in forensic toxicology.
*Prerequisite(s):* FSCI 3301 and FSCI 3301L and CHEM 2511 and CHEM 2511L and BIOL 1108 and BIOL 1108L

**FSCI 4401 Crime Scene I**
2 Credits  (2-0-2)
Students will participate in the development and processing of a mock crime scene. Students will process the crime scene, collect and analyze evidence, perform instrumental and chemical analyses as well as carry out general investigative procedures. Students will then submit to the instructor a written formal report based on their results.
*Prerequisite(s):* Senior standing and FSCI 3301

**FSCI 4402 Crime Scene II**
2 Credits  (2-0-2)
Students will perform an extensive literature review to obtain documentation to support their results from Crime Scene I. Students will then present their findings under mock court conditions and be asked to defend these results and their hypotheses.

Prerequisite(s): Senior standing and FSCI 4401

FSCI 4501 Forensic Evidence – Case Studies 3 Credits (3-0-3)
This course is a series of presentations of true crime case studies, including high profile cases such as Ted Bundy, “The Night Stalker” Richard Ramirez, “The Unabomber” Theodore Kaczynski, Lee Harvey Oswald and more. Discussions will focus on the importance of forensic evidence collected, evidence validity and explanation of evidence significance to the jury.

Prerequisite(s): FSCI 3201 or permission from the instructor

FSCI 4601K 3-D Crime Scene: Capture & Process 3 Credits (3-0-3)
In this course students will collect and process 3-dimensional images of a mock crime scene. Students will use a HD 3-D laser scanner with integrated GPS to capture an exact record of the crime scene and provide data for the accurate analysis of blood spatter, line of sight, evidence location, and bullet trajectories. Student will use 3-D software to process the data collected and submit to the instructor a 3-D forensic animation of the crime scene.

Prerequisite: FSCI 4601K

FSCI 4602K 3-D Crime Scene: Documentation & Analysis 3 Credits (3-0-3)
In this course students will document and analyze exact record of 3-dimensional data images and animations of a mock crime scene produced in FSCI 4601K. Students will use the 3-D data for accurate analysis of blood spatter, line of sight, evidence location, and bullet trajectories. Students will use 3-D software and virtual accessories to explore, perform accurate measurements, and present evidence within an exact 3-D crime scene record in a virtual environment.

Prerequisite: FSCI 4601K

FSCI 4901 Forensic Science Seminar 1 Credit (1-0-1)
This course is a series of student presentations designed to train students in the art of public presentation of scientific papers. Students will be required to search the literature for a specific topic in Forensic Science or related area using library resources including SciFinder Scholar and submit a primary and a review abstract. If the instructor approves the abstracts, the student will choose either the review or primary article for presentation.

Prerequisite(s): FSCI 3301 and junior standing

French

FREN 1001 Elementary French I 3 Credits (3-0-3)
A beginning French course which focuses on practice in hearing, speaking, reading, and writing everyday French. The culture and civilization of France are also stressed. Not open to students who have more than one year of high school French or who are native speakers of French.

FREN 1002 Elementary French II 3 Credits (3-0-3)
A continuation of FREN 1001 with emphasis on hearing, speaking, reading and writing.

Prerequisite(s): FREN 1001

FREN 2001 Intermediate French I 3 Credits (3-0-3)
An intensive review of basic French with more emphasis on speaking, reading, and writing. Various cultural aspects of France and Francophone countries are examined.

Prerequisite(s): FREN 1002 or two years of high school French

FREN 2002 Intermediate French II 3 Credits (3-0-3)

Prerequisite(s): FREN 2001

FREN 3101 Advanced Conversation & Composition 3 Credits (3-0-3)
Intensive practice in conversational French based upon written texts and audio-visual documents. Development of writing and stylistic skills in addition to advanced review of grammatical structure.

*Prerequisite(s):* FREN 2002.

**FREN 3201 French Civilization 3 Credits (3-0-3)**
Acquaintance of the student with major contributions of France to Western civilization. The notion of Francophones will also be studied.

*Prerequisite(s):* FREN 3101

**FREN 3203 Survey of French Literature 3 Credits (3-0-3)**
Diachronic study of French literature from the middle ages to modern times, with emphasis on major authors and/or works.

*Prerequisite(s):* FREN 3101

**FREN 3401 Introduction of Business French 3 Credits (3-0-3)**
Basic notions of management, market studies, insurance, export-import, telecommunications and commercial correspondence will be introduced.

*Prerequisite(s):* FREN 3101

**FREN 3402 Intermediate Business French 3 Credits (3-0-3)**
Same emphasis as FREN 3401 in addition to the usage of French Minitel through the Internet.

*Prerequisite(s):* FREN 3401

**FREN 4100 Survey of African & Caribbean Francophone Literature 3 Credits (3-0-3)**

*Prerequisite(s):* FREN 3101

---

**Geography**

**GEOG 1101 Introduction to Human Geography 3 Credits (3-0-3)**
A study of man’s relationship to the natural, physical, and cultural environment, world patterns of population, climate and industrial development; problems of agricultural, commerce, trade, transportation, and communication, and conservation of natural resources.

**GEOG 3122 The Geography of Poverty 3 Credits (3-0-3)**
This course provides an examination of the spatial dimensions of poverty in the United States and provides evidence that there is some utility in bringing the spatial perspective of the geographer to bear on the national problem of poverty. The course addresses disparities in wealth, economic prosperity and social well-being and quality of life issues in American cities. Different perspectives (geographical, sociological, economic, psychological, and cultural) on the definitions and dimensions of poverty are examined in some depth.

**GEOG 3302 Geographic Information System & Spatial Analysis 3 Credits (3-0-3)**
This course is designed to provide basic knowledge of Geographic Information Systems (GIS) theory and applications using the existing state-of-the-art GIS software: ArcGIS. The students will learn the basic concepts of GIS design and structure and to understand the concept and application of spatial data analysis. By the end of the course, students are expected to have a thorough understanding of GIS functionality, methodology for implementing the technology, and its potential usefulness in a variety of social problems.

*Prerequisite(s):* CSCI 1130 or equivalent

**GEOG 3621 Population Geography 3 Credits (3-0-3)**
The course is designed to acquaint the students with the essentials of population study from a geographer's perspective. Students will learn where to obtain pertinent demographic data and how to analyze it in a meaningful way with maps and statistics. It examines the characteristics and distribution of human populations across the
diaspora paying special attention to the factors responsible for the spatial variations in mortality, fertility and migration patterns.

Global Logistics and International Business

This course will cover introduction to concepts in supply chain, logistics, transportation, culture, political and legal institution, and economic situation. The concepts will be learned from a global perspective, primary focus will be on emerging economies and comparing with United States.

GLIB 3190 Purchasing and Procurement for Global Supply Chain

This course introduces students to key concepts in purchasing and procurement practices in supply chain management. Additionally, the course also helps in developing an understanding of the strategic importance of sourcing in improving a firm's competitive position. Challenges in managing the relationships among businesses involved in the process of buying and selling products and services are explored.

Prerequisite(s): MGNT 3165 or GLIB 2109 or CIVT 2109 with a grade of "C" or better.

GLIB 3196 Supply Chain Analytics

Supply chains are complex networks that involve supplier's supplier to buyer's buyer, typically involving varying organizations and businesses with conflicting goals and objectives. Researchers and practitioners have used varying analytical and modelling techniques to better design and manage supply/chain. Use of data to make effective decisions in supply chain is at the heart of this course. This course introduces the important tools and methods that you will encounter in your study and practice of supply chains. The focus of the course will be on the application of these methods, not necessarily the concepts.

Prerequisite(s): BUSA 2185; MGNT 3165

GLIB 3197 Global Business Logistics

Logistics Management – that part of supply chain management that plans, implements, and controls the efficient, effective forward and reverse flow and storage of goods, services, and related information between the point of origin and the point of consumption in order to meet customers’ requirements. This senior level course focuses on Global Alliances and Global Business Logistics Management. Topics include supply chain and alliance strategy in multinational firms, materials management, international sourcing and distribution, importing and exporting procedures, international carrier management and operations. This course is designed to help prepare the logistics professional for a career in international logistics.

Prerequisite(s): MGNT 3165

GLIB 4190 International Transportation and Carrier Management

With the increasing emphasis on efficient supply chains and more sophisticated logistics management techniques, the basic component of transport is moving a product or providing a service from one place to another has come under increasing economic pressure and increasing deregulation. The businesses today cannot be competitive without a good transportation and logistics network. The goal of this course is to understand the basic modes of transportation, the economic fundamentals underlying each and some of the ways in which today’s supply chain manager can use them to achieve efficiencies and cost effectiveness necessary for a company to survive in today’s global markets.

Prerequisite(s): MGNT 3165
GLIB 4192  International Strategic Management  3 Credits  (3-0-3)
The course will examine the firm’s environments – especially the international environment using the tools of
analysis such as 5 Forces and the value chain. It will also examine the firm’s corporate and business strategies.
Finally, The course will specifically examine the firm’s international strategies, the nature and form of
international business arrangements, to determine if they fit within the firm’s overall global strategic position. The
course serves to integrate and synthesize knowledge acquired in the functional disciplines in a business school by
application of acquired functional skills to corporate and business strategic analysis.
Prerequisite(s): MGNT 3165, MKTG 3175

GLIB 4194  International Trade: Theory and Policy  3 Credits  (3-0-3)
This course is to introduce the main concepts relating to the international trading system and its institutions, and to
review both traditional perspectives and important recent developments in international trade theory. Emphasis is
placed on using theory to interpret observed trade patterns and to analyze the motivations behind existing trade
policies and institutions. In particular, the welfare gains from trade, what accounts for observed patterns of trade,
and who are the winners and losers from various trade policies. Special attention is also given to protectionist trade
policies and the political economy of protection, as well as the merits and drawbacks of bilateral trade
negotiations.
Prerequisite(s): MGNT 3165, MKTG 3175

GLIB 4196  Continuous Improvement and Six Sigma  3 Credits  (3-0-3)
Broad coverage of managerial and statistical aspects of quality control, including quality assurance, quality
management, and continuous improvement. Topic coverage includes problem-solving tools, process
capability/assessment, control charts for variables, control charts for attributes and advanced
control chart methods. The course will primarily look at four aspects: (i) the foundation principles of quality
management; (ii) tools and techniques to drive and support design, control, and improvement of quality; (iii)
application of structured problem-solving methods and tools to improve quality and Analyze and quantify data that
enable process improvements and execute the Six Sigma methodology; (iv) an organizational view of performance
excellence as reflected by the Malcolm Baldrige Criteria.
Prerequisite(s): BUSA 2182; MGNT 3165

Health Education

HEDU 1101  Concepts in Healthful Living  2 Credits  (2-0-2)
An introduction to the role of physical fitness in a healthful lifestyle. This course involves developing exercise
programs for each component of physical fitness. Students spend two hours each week on physical fitness
activities and one hour each week exploring the relationship of physical fitness activities to a healthy lifestyle.

HEDU 1111  Physical Fitness for Life  2 Credits  (2-0-2)
An introduction to the role of physical fitness in a healthful lifestyle. This course involves developing exercise
programs for each component of physical fitness. Students spend two hours each week on physical fitness
activities and one hour each week exploring the relationship of physical fitness activities to a healthy lifestyle.

HEDU 1112  Concepts in Healthful Living / Fitness Walking  3 Credits  (3-0-3)
The purpose of this course is to enable you to gain knowledge and skills you will need to make informed decisions
about your health and health-related behaviors. If you work to apply the knowledge you gain in this course to your
personal life, the benefits of this class will extend far beyond the academic credit award to you for completing this
course successfully. This course will also introduce the student to the fundamental concepts of physical activities
that will help promote a healthy lifestyle and encourage the appreciation of leisure activities. This course will
introduce the student to aerobic and resistant training along with presenting basic nutritional guidelines.

HEDU 1113  Concepts in Healthful Living / Physical Conditioning  3 Credits  (3-0-3)
The purpose of this course is to enable you to gain knowledge and skills you will need to make informed decisions
about your health and health-related behaviors. If you work to apply the knowledge you gain in this course to your
personal life, the benefits of this course will extend far beyond the academic credit awarded to you for completing
this course successfully. This course will also introduce the student to practical and comprehensive information and experiences related to physical activity while teaching students how to undertake a regular program of physical activity.

**HEDU 1114  Physical Activity and Stress Management / Fitness Walking  3 Credits  (3-0-3)**

This course is designed to explore the nature of human stress, and to examine some physical and mental methods of reducing stress. This course exposes students to a holistic approach to stress management. It treats both cognitive skills and relaxation techniques with the intention of preventing and/or alleviating the physical symptoms of stress. This course will also introduce the student to the fundamental concepts of physical activities that will help promote a healthy lifestyle and encourage the appreciation of leisure activities. This course will introduce the student to aerobic and resistant training along with presenting basic nutritional guidelines.

**HEDU 1115  Physical Fitness for Life / Swimming  3 Credits  (3-0-3)**

This course is designed to enable the student to develop skills and knowledge that will aid him/her in determining physical fitness status, and to develop and apply physical fitness programs. This course will also introduce the student to an aquatic environment. The student will receive instruction in basic swimming techniques and safety procedures.

**HEDU 1116  Physical Fitness for Life / Weight Training  3 Credits  (3-0-3)**

The purpose of this course is to enable the student to develop skills and knowledge that will aid him/her in determining physical fitness status, and to develop and apply physical fitness programs. This course will also introduce the student to weight training and conditioning. The student will receive instruction in basic weight training techniques and safety procedures.

**HEDU 1140  Tennis I  1 Credit  (1-0-1)**

Students will learn tennis techniques, strokes, and practice skills. Students will develop beginning proficiency in tennis and obtain basic knowledge of its fundamental mechanics and etiquette.

**HEDU 1150  Beginning Golf  1 Credit  (1-0-1)**

Students will learn golf techniques and practice skills. Students will develop beginning proficiency in golf and obtain basic knowledge of its fundamental mechanics and etiquette.

**HEDU 1201  Physical Activity & Stress Management  2 Credits  (2-0-2)**

A course focusing on the development of physical activity and relaxation programs that help students to manage and cope with stress in their lives. The course consists of two hours each week of physical activity and relaxation application and one hour each week exploring the nature of the human stress response.

**HEDU 1211  Physical Activity & Body Composition  2 Credits  (2-0-2)**

A course designed to help students develop and execute exercise programs that will develop a healthy body composition and achieve and maintain a desirable body weight. Students spend two hours each week participating in exercise programs. The course also explores theories regarding the relationship of exercise and body composition.

**HEDU 1301  Weight Training  1 Credit  (1-0-1)**

Participation in weight training exercise programs and weight resistance activities to achieve desired level of strength and a healthy level of body composition.

**HEDU 1401  Physical Conditioning  1 Credit  (1-0-1)**

Participation in weight training exercise programs that develop the five components of physical fitness. The major emphasis in the course is on the development of cardiovascular fitness.

**HEDU 1501  Modern Dance Techniques  1 Credit  (1-0-1)**

Course designed to teach the fundamentals of modern dance that contribute to wellness.
The course presents an instructor-led regimented style exercise regime that works the entire body through one of a variety of group fitness activities. The topic of the course may vary from semester to semester and the topic will be indicated on the course title on the schedule. Possible topics include, but are not limited to, yoga, Pilates, Zumba, or tai chi.

HEDU 1601  Swimming  1 Credit  (1-0-1)
A beginning course in swimming. Students learn basic techniques and drown-proofing skills.

HEDU 1611  Swimming II  1 Credit  (1-0-1)
A course designed for development of advanced swimming fundamentals and techniques to be used for acquiring and maintaining a desirable quality of life and cardiovascular fitness.

HEDU 1621  Water Aerobics  1 Credit  (1-0-1)
A water aerobics class that focuses on all the components of physical fitness.

HEDU 1701  Fitness Walking  1 Credit  (1-0-1)
The purpose of this course is to introduce the student to the fundamental concepts of physical activities that will help promote a healthy lifestyle and encourage the appreciation of leisure activities. This course will also introduce the student to aerobic and resistant training along with presenting basic nutritional guidelines.

HEDU 2101  Structural Kinesiology  3 Credit  (3-0-3)
This course surveys biological systems and physical principles as applied to human movement. Emphasis is placed on the study of bones and joints and how they are involved in the science of movement. Students will be able to examine the places of motion and their respective axes of rotation. Engaging in the learning activities associated in this course will assist students in clarifying the principles of anatomy with emphasis on human movement.

HEDU 2201  Nutrition Concepts  3 Credit  (3-0-3)
This course will identify the basic principles of nutrition and their application to health and wellness. Students will investigate the interrelationship between personal nutrition and health maintenance through the life cycle. Emphasis is placed on diet and disease through the lifespan.

HEDU 2301  Lifespan Development  3 Credit  (3-0-3)
This course will investigate human development throughout the lifespan as influenced by family, society and the nature of development. Emphasis is placed on the physical, intellectual, and psycho-social development process. Students will be able to examine the nature of development and how their experiences will influence development through the remainder of their life. Engaging in the learning activities associated with the course will assist students in assessing and clarifying a lifespan perspective on development.

**History**

HIST 1111  Survey of World History to Early Modern Times  3 Credits  (3-0-3)
A survey of the major civilizations of the world from the earliest time to approximately 1500.

Survey of World History from Early Modern Times to the Present  3 Credits  (3-0-3)
A survey of the major civilization of the world from about 1500 to the present.

HIST 2111  A Survey of U.S. History to the Post-Civil War Period  3 Credits  (3-0-3)
An introductory survey of the formative years of the history of the United States.

HIST 3801  Modern Asian History  3 Credits  (3-0-3)
An introduction to the origins and developments of the economic, political, social, and cultural characteristics of Asian nations with special emphasis on the roles of China, Japan, and India during the past four centuries.

HIST 3901  Internship  Credit Varies  (V-0-V)
An individually designed course-project involving research in a government or private agency. Students will be under the joint supervision of the sponsoring agency and their faculty advisor. This internship will be arranged by the faculty advisor and department chair.

HIST 3909  Readings in History  Credit Varies  (V-0-V)
Directed readings and other activities related to particular topic in the discipline.

HIST 4301  History of African-American Thought  3 Credits  (3-0-3)
A study of the ideas, institutional practices, values, and ideologies embraced by African-Americans. The course incorporates the philosophies and tactics of accommodation, integration, and separation.

HIST 4411  History of Modern Britain  3 Credits  (3-0-3)
A survey of British history since the revolution of the seventeenth century, including its economic growth, its rise as a world power, and its role in the world today.

HIST 4601  Latin America in the Modern World  3 Credits  (3-0-3)
An appraisal of the social, political, economic, and intellectual development of Latin America since independence with emphasis on the 20th Century.

HIST 4701  African History Before 1800  3 Credits  (3-0-3)
A study of major themes in the history of Africa prior to 1800: The African physical environment, early civilizations and state formation, the spread of Islam, the slave trade, the beginning of European colonization, and significant cultural developments.

HIST 4702  African History Since 1800  3 Credits  (3-0-3)
A study of major themes in the history of Africa since 1800: major cultural developments, colonial rule, African nationalism and independence, and global Africa.

HIST 4801  History of China Since 1600  3 Credits  (3-0-3)
An examination of the major issues, revolutions, and personalities in the history of China from 1600 to the present; a comprehensive presentation of China’s economics, politics, society, and culture during the past four centuries.

HIST 4805  Twentieth Century East Asian Economic History  3 Credits  (3-0-3)
An examination of the themes, patterns, and problems of economic development in China, Japan, Korea, Taiwan, and Hong Kong since 1900. This course provides an historical background to the relations between economics and non-economic affairs.

HIST 4901  Senior Seminar  3 Credits  (3-0-3)
A review of general historical time-lines of United States and world history with reference to trends in historiography and historical interpretations as well as a review of library research skills.

**Homeland Security and Emergency Management**

HSEM 2101  Introduction to HSEM  3 Credits  (3-0-3)
A survey of the emerging field of homeland security and emergency management. The course provides students with a broad picture of the emergency management system in the United States, including historical events, practices, and policies that have had impacted the development of emergency management and homeland security
as a governmental function and as a profession. Students will get an overview of the role and methods of emergency management and homeland security in protecting lives, property, and infrastructure.

**HSEM 2201 Research Methods and Statistics** 3 Credits (3-0-3)
The course focuses on the research methods and statistical tools that social scientists utilize in their everyday work. The course exposes students to the research process, fundamentals of methods and statistical applications. It introduces the basic concepts and problems encountered in social science research, including research design, ethical issues in research, types of data and measurement, overview of statistics, data collection and analysis, and presentation of research findings. This course is designed to provide the students with the competency to be educated consumers of research in political science, urban studies, and homeland security and emergency management.

**HSEM 3110 Politics & Policy of HSEM** 3 Credits (3-0-3)
Examines policies, programs, agencies, and institutions involved in U.S. disaster and emergency management. Focus is on the role of politics, public policymaking, and intergovernmental relations in managing all hazards at the local, state, and national levels. Emergency management and homeland security encompass a wide range of expertise and activities; policy and politics have significant impact on these preparedness, response and related activities before and during a disaster. 
Prerequisite(s) or Corequisite: HSEM 2101

**HSEM 3120 Law & Ethics in HSEM** 3 Credits (3-0-3)
Focuses on the legal, liability and ethical concepts underlying U.S. civil liberties and rights in the context of HSEM activities, from mitigation and prevention, to declarations of emergency or acts of terrorism. Topics addressed include surveillance, public health quarantine, property buyouts, federal laws passed in the aftermath of September 11, 2001, terrorists’ attacks, rights of citizens and foreign nationals, government infrastructure for decisions concerning national and international legal rights, and jurisdictional issues. 
Prerequisite(s): HSEM 2101

**HSEM 3122 International Humanitarian Law** 3 Credits (3-0-3)
An elective that provides an introduction to concepts and rules related to human rights law of armed conflict. Topics include humanitarian aid, legal principles, non-governmental organizations, the Nuremberg Charter, Geneva Convention, Genocide Convention, and background, statutes and experiences related to United Nations tribunals and the International Criminal Court.

**HSEM 3130 Emergency Planning, Mitigation & Incident Management** 3 Credits (3-0-3)
Provides foundation knowledge and develops skills and abilities in planning, hazard mitigation and incident management. It addresses planning principles and specific types of planning including emergency operations planning, continuity of operations and continuity of government planning, and business continuity planning. It includes instruction on incident management, addressing direction, control and cooperation challenges, systems, and approaches across disciplines and levels of government. Training and exercises as key components of preparedness also are addressed. 
Prerequisite(s) or Corequisite: HSEM 3250

**HSEM 3140 Diversity Issues in HSEM** 3 Credits (3-0-3)
Examines the extent to which HSEM practitioners and their organizations serve the needs of diverse groups, including the elderly, disabled, women, racial and ethnic groups, the poor and/or disadvantaged, and other segments of the community. The course also explores ways of expanding participation of diverse groups in the design and implementation of disaster planning and policy. 
Prerequisite(s) or Corequisite: HSEM 3250

**HSEM 3250 Risk & Vulnerability Assessment** 3 Credits (3-0-3)
A study of a hazard identification and risk and vulnerability assessment across all types of hazards. The course provides instruction in analytical techniques and methodologies for threat and vulnerability assessment for public
and private entities. It uses an all-hazards approach to assessing risk, addressing natural, human-caused, and technological hazards, and will include cyber and critical infrastructure threats.

Prerequisite(s) or Corequisite: HSEM 2101

**HSEM 3860 Disaster Response & Recovery**

This course examines the theory and practice of response including response variance and effectiveness. Also, this course will educate students about sustainable disaster recovery, including the principles, concepts, processes, and practice currently used in the United States. This course explores how the long-term recovery period after a disaster can create a better community in which to live and provide information, examples, and applications to build sustainable communities.

**HSEM 3901 HSEM Internship**

Designed to provide the HSEM major or minor with an opportunity to relate theory to practice through observation and actual experience with government, private sector, and/or non-profit sector organizations that have responsibilities for developing policy or performing work in the area of homeland security and emergency management.

*Prerequisite(s):* 75 credit hours or permission of instructor

**HSEM 4000 Independent Study**

An elective open to students with junior and senior standing who have earned at least 12 credit hours in HSEM. Independent study, which requires permission of the HSEM program coordinator, offers students an opportunity to conduct research under the direction of an instructor qualified in the subject or field of major interest.

**HSEM 4605/4606 Special Topics**

Special Topics in Homeland Security and Emergency Management

**HSEM 4901 Senior Capstone Seminar**

A capstone course examining the major issues in homeland security and emergency management. Students will produce a research project.

*Prerequisite:* Required HSEM courses through 3200 level or permission of instructor

**Humanities**

**HUMN 1201 Critical Thinking & Communication**

This course is designed to assist in the development of skills in critical reading, critical thinking, and interpersonal communication in the context of contemporary issues. This course focuses not only on improving reading comprehension and analytical skills, but also on identifying problems with logic found in one's own communication and in that of others, on developing an awareness of techniques commonly used in advertising and political language, on understanding principles of interpersonal communication and public speaking, and on organizing, developing, and presenting audience-centered material.

**HUMN 2011 Humanities**

Designed as a multicultural, cross-disciplinary course to enable students to discover, interpret, and assess critically the intellectual and aesthetic expressions of cultures of America, Europe, Asia, and Africa.

*Prerequisite(s):* ENGL 1102

**Honors**

**HONS 2101 Sophomore Honors Seminar**

This special topics seminar integrates advanced independent reading and interdisciplinary research with emphasis on advanced planning and problem-solving skills. This course includes a service-learning component with community partners that reflect the special topic of the course. Students will present their independent research results in oral written forms at the conclusion of the course.
HONS 3101 Junior Honors Seminar 3 Credits (3-0-3)
This seminar integrates junior honors and degree curriculum with independent reading and research. Students will present their research in oral and written form in the final weeks of the course in preparation for their capstone project during their senior year. Course work includes intensive reading, research and writing peer reviews, and critical inquiry across academic disciplines.

HONS 4101 Senior Honors Seminar 3 Credits (3-0-3)
This course is designed as a capstone for majors in the honors program. Students will combine their acquired knowledge to produce a piece or original research. Students will apply theory, scientific methods (qualitative or quantitative skills) in conducting and defending their Honors thesis. This course is meant to enhance the research or capstone projects required in the major rather than add an additional research requirement. Students without a capstone requirement in the major will be expected to complete an original research project. In addition to the Honors thesis, students will also begin to prepare for their lives after graduation, be it graduate school or a job.

**Industrial Technology Management**

INTM 3101 Motion & Time Study 3 Credits (3-0-3)
A comprehensive study of cost analysis, production and inventory control, balancing of production lines, incentive pay and motion studies. Topics include problem solving techniques, operation and process charts, motion economy, work measurement, and motivational concepts.

INTM 3201 Cost Estimating 3 Credits (3-0-3)
A study of preparing detailed cost estimates for new and existing products. The course content is divided into the following areas: labor costs, materials cost, accounting principles, forecasting, operation and product estimating, and engineering economics.

INTM 3301 Production & Inventory Control 3 Credits (3-0-3)
A study of selecting and installing a computerized inventory control system such as Material Requirements Planning (MRP). The following topics are included: forecasting, master production scheduling, material requirements planning, inventory management, production activity control, and critical path scheduling.

**Integrated Science**

ISCI 1101 Integrated Science I 3 Credits (3-0-3)
Nature, physical properties, structure and evolution of the physical universe, nuclear energy and the atom, cosmology, the nature of energy and its conservation.

ISCI 1111K Integrated Science II 4 Credits (4-0-4)
The physical earth, biological evolution, ecological processes, and human development.

**Library Services**

LIBR 1101 Research Topics 2 Credits (2-0-2)
This course is applicable to students majoring in any course of study and anyone who wishes to learn how to use information effectively. Using 125-year of Savannah State University history as a framework for hands-on research, this course will provide the critical thinking and computer searching strategies necessary for lifelong—academic, daily, and life after college—learning. Instruction in the organization, access, evaluation, and use of information resources and traditional library research techniques will be covered.

**Management**
MGNT 3165  Management of Organizations  3 Credits  (3-0-3)
The study of fundamental management principles and their applications in managing organizations. Topics will include planning, organizing, leading, and controlling, as well as management ethics and basic financial management techniques.

MGNT 3185  Operations Management  3 Credits  (3-0-3)
This course focuses on the issues and techniques relevant to the management of the operations function within an organization, emphasizing its strategic significance. Operations Management is an introductory level course designed to expose students to the dynamic forces, which are responsible for shaping the business environment. The subject matter represents a blend of concepts from industrial engineering, cost accounting, general management, quantitative methods, and statistics. Students will learn about operations activities such as forecasting, scheduling, product and design service, capacity planning and project management to name a few. As with many core courses in business, the foundation of this course relies on teaching students sound decision-making principles. The basic quantitative techniques presented are essential to developing and nurturing students' decision-making skills.
Prerequisite: BUSA 2182 and MGNT 3165

MGNT 3196  Entrepreneurship and Small Business Management  3 Credits  (3-0-3)
Entrepreneurship and Small Business Management is a course focused on the entrepreneurial process as it pertains to the management of large enterprises or the management of newly created or newly acquired small businesses. Beginning with traits commonly found in successful entrepreneurs, students cover the various topics necessary to develop and run a profitable business. The topics include business entity forms, marketing for small/fledgling businesses, advertising, elements of the business plan, risk management, and staffing decisions.
Prerequisite(s): MGNT 3165

MGNT 3300  Organizational Behavior & Theory  3 Credits  (3-0-3)
This course is designed to provide the management major with in-depth knowledge of the key issues in organizational behavior and theory facing managers today. Topics include organizational behavior of individuals and groups, and modern organizational design concepts. Experiential learning tools and videos will be utilized as well as the traditional methods of teaching via lecture and case analysis.
Prerequisite(s): MGNT 3165

MGNT 4110  Leadership in Organizations  3 Credits  (3-0-3)
This course will provide both a theoretical and practical review of leadership within organizations. Students will be exposed to basic leadership theory and research while also being given real-world examples through cases and interaction with practitioners. Students will also be asked to apply these theories through in-class activities and projects. This course will provide students with an understanding of leadership theory and will develop their leadership skills in decision-making, communicating, conflict management, motivation, and leading teams.
Prerequisite(s): MGNT 3165

MGNT 4165  Human Resource Management  3 Credits  (3-0-3)
A course focusing on the principles, practices, and scientific techniques and methods involved in the development and operation of an effective personnel and industrial relations program. The topics covered include the methods and procedures used by business management in recruiting, selecting, and maintaining an efficient work force.
Prerequisite(s): MGNT 3165

MGNT 4168  International Business Management  3 Credits  (3-0-3)
A course divided into three major parts. Part one covers the various dimensions of the international business field, including brief coverage of the major theories of international trade and investment. Part two deals with the environment in which international business operates, the financial variables, including balance of payment, exchange rates, and capital markets, along with the cultural, legal, political, and economic institutions with which international business firms may come in contact. Part three concentrates on the operation aspects of international business; the firm-specific variables including marketing, finance, management, accounting; and attempts to integrate the environmental with the firm-specific variables into a meaningful, conceptual framework.
Prerequisite(s): MGNT 3165

MGNT 4170  Staffing, Training, and Development  3 Credits  (3-0-3)
This course will examine human resources planning, recruiting, and selection followed by a detailed investigation of training needs analysis, developing training programs, evaluation of training, and implementing personnel development programs.
Prerequisite(s): MGNT 4165

MGNT 4204  Creativity and Entrepreneurship  3 Credits  (3-0-3)
This course will provide both a theoretical and practical review of the creative and innovative processes within organizations and how ideas are translated into novel products and processes. The content will take a multilevel perspective such that we will discuss the creative process of individuals, how creativity and innovation occur within teams, and the implementation of innovative ideas at the organizational level.
Prerequisite(s): MGNT 3165

MGNT 4221  Social Entrepreneurship  3 Credits  (3-0-3)
This course introduces students to the field of social entrepreneurship and the best practices of starting and growing successful mission-driven ventures. This field is rapidly garnering attention around the world from entrepreneurs, investors, philanthropists, foundations, and consulting firms. Social ventures aim to achieve a “double bottom line” with meaningful social returns, as well as sustainable or competitive financial returns through their products, services and other business practices. This course will guide students in developing entrepreneurial solutions to educations, healthcare, environment, workforce development, international development and other large societal issues.
Prerequisite(s): MGNT 3165

MGNT 4231  Family Business Management  3 Credits  (3-0-3)
This course explores the unique challenges and opportunities involved in owning and/or managing a family business. By attending the class, students learn to identify and address challenges related to responsible ownership, succession, corporate governance, and family governance. Both family and non-family members’ perspectives are explored and addressed.
Prerequisite(s): MGNT 3165

MGNT 4800  Contemporary Topics in Management  3 Credits  (3-0-3)
An elective for management majors, this course will address management topics of special interest. The topics may include, but are not limited to, crisis management, organizational communications and data management, compensation management, business ethics, organizational change, leadership, managing non-profits, management of risk, or case studies in management.
Prerequisite(s): MGNT 3165

Marketing

MKTG 3175  Principles of Marketing  3 Credits  (3-0-3)
A comprehensive overview of the marketing process for goods, services and ideas. The course is taught from a marketing management and decision-making perspective. Topics such as the organization's environment, marketing research, and buyer behavior are discussed as the context in which marketing plans and strategy are formulated. In addition, the marketing decision elements, product, distribution, promotion, and price are examined. Finally, topics such as international marketing, service marketing, and nonprofit marketing are explored.

MKTG 3176  Professional Selling  3 Credits  (3-0-3)
Course designed to introduce the basic principles and techniques of professional selling. Students build strategies for effective selling and practice approaches to presenting products, handling objections, and closing sales. The economic and psychological motives of the buyer are examined in both industrial and consumer goods and services markets. Some special topics such as telemarketing and sales technologies are also introduced.
Prerequisite(s): MKTG 3175
MKTG 3178  Consumer Behavior  3 Credits  (3-0-3)
An examination of the basic concepts and research results from marketing and the social sciences with the goal of enabling marketers to better understand customers and meet their needs. The decision process of buyers, factors affecting purchasing decisions, and customer satisfaction are major conceptual areas of the course. Implications for marketing strategies (e.g., market segmentation and product design and promotion) are discussed.
Prerequisite(s): MKTG 3175

MKTG 3179  Global Electronic Business  3 Credits  (3-0-3)
This course focuses on the role of marketing in electronic commerce. The technologies of electronic commerce, web-based marketing strategies, and the use of the Internet to improve management and marketing operations are discussed.
Prerequisite(s): MKTG 3175 and CISM 2130

MKTG 3186  Sales Management  3 Credits  (3-0-3)
This course studies the planning, organizing, staffing, directing and controlling of sales force activities. The course emphasizes sales territory design, staff leadership, sales coaching and motivation, and cost analysis.
Prerequisite(s): MKTG 3175

MKTG 4116  Marketing Research  3 Credits  (3-0-3)
A course that examines the scientific method as applied to marketing research problems. The use of primary and secondary information for management decision-making is examined. Survey design, questionnaire construction, sampling processes, and data analysis are studied in depth. The course requires the extensive use of the computer for word processing and statistical analysis (SPSS & LISREL).
Prerequisite(s): BUSA 2182 and MKTG 3175

MKTG 4175  Advertising & Promotion  3 Credits  (3-0-3)
A course that examines advertising as a business and as a multidisciplinary subject that draws from both the arts and sciences. The first half of the course takes an analytical perspective, focusing on the history of advertising, as well as the social, legal, ethical, and economic issues. The second half of the course assumes a managerial perspective as students learn about the advertising process and create an advertising campaign.
Prerequisite(s): MKTG 3175

MKTG 4176  Contemporary Topics in Marketing  3 Credits  (3-0-3)
An elective for marketing majors. The course contains a variety of topics that are offered annually on a rotating basis. These topics may include, but are not limited to, buyer behavior, database marketing, channels of distribution, transportation and logistics, or case studies in marketing.
Prerequisite(s): MKTG 3175

MKTG 4179  International Marketing and Export Management  3 Credits  (3-0-3)
A course that focuses on the marketing mix issues that are faced by large and small multinational organizations. Marketing decisions related to product line, branding, communications, distribution, and pricing are addressed.
Prerequisite(s): MGNT 3165 and MKTG 3175

MKTG 4185  Marketing Management  3 Credits  (3-0-3)
This course is designed as the capstone course in the marketing curriculum. Students will integrate materials learned in previous marketing course and apply marketing principles to solve actual business problems. The emphasis will be on planning, operation, and control of marketing activities. Case studies and stimulation games where students market one or more products are used to present “real life” situations. The emphasis will be on the analysis of marketing information and on the skills involved when making marketing decisions. Students will be required to prepare a marketing plan for a local business or nonprofit organization.
Prerequisite(s): MKTG 3175 and nine (9) hours of additional marketing courses
Mathematics Education

MAED 2201  Mathematics Literacy for Diverse Learners  3 Credits (3-0-3)
This course explores methods for teaching secondary students to read, write, think, and learn in ways that allow mastery of subject matter and meaningful application. Teacher candidates plan lessons and activities that teach content and promote literacy. Pre-, during, and post-reading strategies are explored with varied assessments that provide students with a continual view of literacy progress and achievement. Classroom adaptations for culturally and linguistically diverse population in the content areas are also addressed.

MAED 3002  Connections in Secondary Mathematics  3 Credits (3-0-3)
This course blends the mathematics of algebra, geometry, trigonometry, probability, statistics, and discrete mathematics. Connections in Secondary School Mathematics course bridges connections of all sorts: those between different mathematical areas; mathematics and science; mathematics and other subject areas; and mathematics and the real world of people, business and everyday life. The course integrates technology through the use of graphing calculators and computers, which students use to make conjectures; validate findings; and investigate concepts, problems, and projects in greater depth. The emphasis on writing and the use of alternative types of assessment in this course is designed to help the student teachers to adapt their teaching strategies in order to meet every student's need.
Prerequisite(s): Admission to Teacher Education Program.

MAED 4000  Special Topics  1-13 Credits (V-0-V)
This course focuses on topics in education or topics in the major content area of education.

MAED 4416  Teaching and Standards in Secondary Mathematics Education  3 Credits (3-0-3)
This course is an exploration of the fundamental issues and practices associated with teaching secondary mathematics. Beginning with a review of the current state standards and NCTM Principles and Standards, participants examine aspects of Math classroom practice from various perspectives. Through observations, interaction and discussion, students review lesson planning, instructional models, differentiation methods, technology infusion and assessment methods for middle and high school mathematics classrooms. The e-portfolio is required for all education courses.
Prerequisite(s): Admission to Teacher Education, and completion of all 3000 level education courses. This course must be taken concurrently with MAED 4417.

MAED 4417  Practicum in Teaching Secondary School Mathematics  3 Credits (3-0-3)
The course will examine the strategies that can be used to create an effective 21st Century learning environment. The goal is to equip the students with certain core competencies such as collaboration, digital literacy, critical thinking, and problem solving. The course will also examine strategies and skills to engage creatively mathematics students and master teaching and assessment techniques appropriate for the implementation of the current math state standards. There are 120 field experience hours in this course. The course cannot be passed without completion of the field experience hours. Verification of professional liability insurance and a clear criminal background check are required prior to receiving a school placement. The e-portfolio is required for all education courses.
Prerequisite(s): Admission to Teacher Education and completion of all 3000 level education courses. This course must be taken concurrently with MAED 4416.

Mathematics

MATH 0996  Support for Elementary Statistics  2 Credits (2-0-2)
This Learning Support course provides co-requisite support for students enrolled in MATH 1401 - Elementary Statistics. Topics will parallel topics being studied in MATH 1401 and the course will provide support for the essential skills needed to be successful in MATH 1401. Taken with MATH 1401, topics to be covered will include descriptive statistics, probability theory, confidence intervals, hypothesis testing, and other selected statistics topics.

</table>
|            | The study of the logical and algebraic relationships between discrete objects. The roots of discrete math lie deep in set theory, directed graphs and relations, functions, combinatorics, logic, Boolean algebra, graph theory, and recurrence relations.  
|            | Prerequisite(s): MATH 2101          |         |               |
| MATH 3000  | Introduction to Bio-Statistics      | 3       | (3-0-3)       |
|            | This course is specifically designed to strengthen the biomedical/behavioral science research competencies and skills of Savannah State University students and to help them progress to biomedical/behavioral science research careers. This course examines all aspects of basic Bio-statistics needed by the students and researchers who are majoring in biomedical/behavioral science areas. Greater emphasis will be focused towards the development of critical thinking skills and health disparity data analysis applications with computer software.  
|            | Prerequisite(s): MATH 1113          |         |               |
| MATH 3101  | Linear Algebra                       | 3       | (3-0-3)       |
|            | Topics include matrix algebra, solutions of linear systems, vectors and vector spaces, linear independence, spanning sets, bases, ranks, determinants, matrix inversion, linear transformations, null space, range, and eigenvalues.  
|            | Prerequisite(s): MATH 2111          |         |               |
| MATH 3115  | Mathematical Data Analytics          | 3       | (3-0-3)       |
| DATA 3115  |                                      |         |               |
|            | The objective of this course is to provide conceptual as well as hands-on experience of working with big data set with the aid of structured programmatic skills to develop a scientific approach towards mathematical data analytics. An introduction to predictive analytics will be followed by demonstrating its applications on imported data to discover meaningful patterns and trends. Various statistical (machine) learning techniques will be introduced and their advantages/disadvantages in supporting a selected data-driven learning system will be discussed.  
|            | Prerequisite(s): (CISM 3109/DATA 3109 and CISM 3111/DATA 3111) or (BUS 2182 and MATH 3000)  |
| MATH 3201  | Probability & Statistics I           | 3       | (3-0-3)       |
|            | Topics include sample spaces, elementary theorems of probability, permutations and combinations, random variables, discrete and continuous distributions and density functions, mathematical expectation, and moment generating functions of probability distributions.  
|            | Prerequisite(s): MATH 2111          |         |               |
| MATH 3211  | Foundations of Higher Mathematics    | 3       | (3-0-3)       |
|            | Topics include sets, propositional calculus, truth tables, predicate calculus, universal and existential quantifiers, proofs about sets, basic methods of proof, mathematical induction, relations and functions, and cardinality.  
|            | Prerequisite(s): MATH 2121          |         |               |
| MATH 3301  | Differential Equations               | 3       | (3-0-3)       |
|            | Topics include differential equations of the first order and first degree, linear equations, variation of parameters, method of undetermined coefficients, inverse operators, Laplace transforms, systems of differential equations, and applications.  
|            | Prerequisite(s): MATH 2121          |         |               |
| MATH 3311  | Mathematical Finance and Interest Theory | 3       | (3-0-3)       |
|            | A course on the formulation, analysis, and interpretation of advanced mathematical models in finance and interest theory. Computers and technology will be used to give students a hands-on experience in developing and solving their own models. Applications to "real-world" problems in interest theory, including the development of complex |         |               |
annuity models, will be emphasized. The course will cover the fundamentals needed for the second actuarial exam. The primary focus will be on the financial models developed in Kellison and Ruckman.

**Prerequisite(s):** MATH 2111

| MATH 3511   | Numerical Analysis II           | 3       | (3-0-3)|
|             | This is the second part of the undergraduate Numerical Analysis I course. In this course we will cover initial and boundary value problems for ordinary and partial differential equations, approximation theory (e.g., least squares approximations, Fast Fourier Transforms), eigenvalue problems, numerical solutions of nonlinear systems of equations. Students will use a high-level language and development tool, MATLAB for developing and analyzing algorithms. It will provide the hands-on computational experience which students will require to fully comprehend the theoretical aspects of the numerical methods discussed in class. |

|             | Introductions to groups, subgroups, homomorphism’s, isomorphism’s, cyclic groups, permutation groups, direct products, Abelian groups, and Sylow’s theorem. |
| MATH 3211   |                                  |         |        |

| Course Code | Course Title                    | Credits | Units  | |
|-------------|---------------------------------|---------|--------|
| MATH 4111   | Abstract Algebra II             | 3       | (3-0-3)|
|             | A course exploring the theory of rings, fields, integral domains, and vector spaces. |
| MATH 4101   |                                  |         |        |

| Course Code | Course Title                    | Credits | Units  | |
|-------------|---------------------------------|---------|--------|
| MATH 4201   | Analysis I                      | 3       | (3-0-3)|
|             | Topics include sets and functions, the real number system, elementary topology of the real line, limits of sequence, space of continuous functions, differentiation, and Riemann integration. |
| MATH 3211   |                                  |         |        |

| Course Code | Course Title                    | Credits | Units  | |
|-------------|---------------------------------|---------|--------|
| MATH 4211   | Analysis II                     | 3       | (3-0-3)|
|             | A course presenting further topics in integration, Stokes theroem, Gauss divergence theorem, infinite series, sequences and series of functions, functions of several variables, and basic measure theory. |
| MATH 4201   |                                  |         |        |

| Course Code | Course Title                    | Credits | Units  | |
|-------------|---------------------------------|---------|--------|
| MATH 4221   | Complex Analysis                | 3       | (3-0-3)|
|             | Topics include complex numbers, elementary functions, analytic functions, complex integration, Laurant and Taylor series, residues, conformal mapping, and applications. |
| MATH 2121   |                                  |         |        |

<p>| Course Code | Course Title                    | Credits | Units  | |
|-------------|---------------------------------|---------|--------|
| MATH 4301   | Survey of Partial Differential Equations | 3       | (3-0-3)|
|             | The course is designed to provide an introduction to some elementary partial differential equations. A number of applications to actual problems will be discussed. Students will also further develop their programming skills in MATLAB, and will use them to solve a range of problems introduced during lectures. |
| MATH 2121 and MATH3301 |                         |         |        |</p>

MECT 3101K  Engineering Materials  3 Credits (2-2-3)
An overview of structures, properties, and applications of metals, polymers, ceramics, and composites commonly used in industry. Problem-solving skills are developed in the areas of materials selection, evaluation, measurement, and testing. Prerequisite(s): CHEM 1211, CHEM 1211L

MECT 3201K  Manufacturing Processes  3 Credits (2-2-3)
A survey of the manufacturing processes and tools commonly used to convert raw materials into finished products. The course includes basic casting and forming processes; the basic mechanisms of material removal; measurement; assembly processes. Prerequisite(s): MECT 3101K

MECT 3301K  Fluid Mechanics  4 Credits (3-2-4)
A study of hydrostatics, viscosity, dimensional constraints and fluid flow in pipes. Prerequisite(s): ENGT 3101 or ENGR 2201; MATH 2111

MECT 3411  Thermodynamics  4 Credits (4-0-4)
The fundamentals of thermodynamics. Use of gas tables will be introduced. Property relations for ideal gasses and incompressible liquid will be introduced. Application of first and second laws to closed and open systems will be studied. Heat engines, refrigerators, heat pumps, availability, and irreversibility will be studied. Emphasis will also be placed on application of thermodynamics, i.e., on combustion, internal and external combustion cycles, gas turbine, compressors, refrigeration and air conditioning processes. Prerequisite(s): PHYS 1111K

MECT 4101  Machine Design  4 Credits (4-0-4)
A study in the design of machines, and machine elements. The course focuses on power transmissions in machines including gears, belts, pulleys, bearings, lubrication, clutches, brakes, chains, power screws, and gear trains. Stress calculations and material selection are discussed. Students will work in design teams on various design projects. Prerequisite(s): ENGT 3601

MECT 4201K  Robotics Application  3 Credits (2-2-3)
This course will provide instruction in the basic principle and application of robotics in practice. With a focus on industrial robotic applications, this course will include: basic robotic principles, power supplies, motion control, sensors, grippers, control systems, robotic vision and maintenance. Prerequisite(s): CSCI 1301 or CSCI 1371

MECT 4211K  Introduction to Mechatronics  3 Credits (2-2-3)
This course will provide an introduction to mechatronics concepts and their applications in engineering practice. The fundamentals to understand mechatronics systems including, electrical circuits, semiconductor electronics devices, digital circuits, sensors, actuators, etc. will be covered. Students will work on hands-on projects, both individually and in groups. Prerequisite(s): ELET 3101K; CSCI 1301 or CSCI 1371

MECT 4301K  Heat and Mass Transfer  4 Credits (3-2-4)
An introduction to heat transfer by conduction, convection, radiation and its application to engines, heat exchangers, air conditioners, and refrigeration systems. Prerequisite(s): MECT 3301K or CIVT 3301K, MECT 3411

MECT 4611  Lean Engineering  3 Credits (3-0-3)
An overview and history of Lean and six-sigma will be discussed. Studies will include various tools of Lean including types of waste, Five S, Value Stream J Mapping (VSM), cellular manufacturing, Just in Time (JIT), pull system, and Total Quality Management (TQM). The benefits of Lean manufacturing implementation and its effect on operational performance will also discussed.
Prerequisite(s): ENGT 3301

MECT 4621 Operations Research 3 Credits (3-0-3)
A study of the techniques applied to solve optimization and decision-making problems in manufacturing operations. Topics to be covered include linear programming, CPM and PERT, quenching theory, and simulation. Prerequisite(s): ENGT 3301

MECT 4701K Fundamentals of HVAC 4 Credits (3-2-4)
This course covers the fundamentals of Heating, Ventilation, & Air Conditioning (HVAC) refrigeration system theory, mechanical refrigeration cycle, components, operation and applications. Basic to advanced electrical theory and application are covered. Electromagnetic controls, heat transfer, heat transmission in building structures and solar radiation, properties of moist air, and refrigerant characteristics are also covered. Prerequisite(s): MECT 4301K

MECT 4901 Propulsion Technology 3 Credits (3-0-3)
Internal combustion process of spark-ignition, diesel, stratifiedcharged, and mixed-cycle engines will be studied in detail. Jet and rocket engine population concepts will also be discussed. Prerequisite(s): MECT 3411

MECT 4911 Renewable Energy Concepts 3 Credits (3-0-3)
This course examines conventional energy sources and systems, including fossil fuels and nuclear energy and introduces the basic concepts, technology, and application of various renewable energy sources and devices. Renewable energy sources that will be explored include wind, solar, hydro, biomass, tidal, and geothermal. The course will explore society's present needs and future energy demands. Prerequisite(s): MECT 3411

Middle Grades Education

MGED 2140 Teaching Adolescent Learners in the Middle Grades 3 Credits (3-0-3)
This course addresses adolescent development and the unique learning needs of diverse adolescent learners in the middle grades. The social, emotional, and cognitive needs of adolescents are examined within the context of middle school structures, innovative curriculum designs, research-based instructional strategies that engage adolescents in meaningful, active learning, and effective assessment practices that guide instruction.

MGED 3010 Number Theory in Middle Grades Education 3 Credits (3-0-3)
This course examines topics that encompass the three main categories in the Number and Operations strand of Principles and Standards of School Mathematics (NCTM): understanding numbers and number systems, operations with numbers and how they relate to one another, computation and estimation. Also included are content-related pedagogy and best-practice instructional strategies.

MGED 3011 Measurement and Geometry Concepts in Middle Grades Education 3 Credits (3-0-3)
This course introduces the essentials of geometry as a method for problem solving and procedures for measuring. Content includes exploring the properties of geometric figures, exploring concepts and procedures for measuring and learning about standard units in the metric and customary systems, making constructions using pencil and paper and dynamic software, using mathematical language to express ideas to justify reasoning while exploring the basis of formal mathematical proofs and solid geometry metrics. Also included are content-related pedagogy and best-practice instructional strategies.

MGED 3012 Data Analysis, Probability, & Statistics in Middle Grades Education 3 Credits (3-0-3)
This course introduces statistics as a problem-solving process. Skills are built through investigations of ways to organize and represent data and describe and analyze variation in data. The association between two variables,
probability, random sampling, and estimation are covered. Also included are content-related pedagogy and best-practice instructional strategies.

**MGED 3013  Algebraic Concepts in Middle Grades Education  3 Credits  (3-0-3)**
This course explores the ‘big ideas’ in algebraic thinking. Topics include algebraic thinking, patterns in context, functions and algorithms, proportional reasoning, linear functions and slope, solving equations, nonlinear functions, and algebraic structure. Also included are content-related pedagogy and best-practice instructional strategies.

**MGED 3020  Inquiry and Literacy in Middle Grades Science  3 Credits  (3-0-3)**
This course focuses on addressing the demands required of students to comprehend discipline-specific scientific text. Strategies learned in this course support students in learning how to read a wide range of scientific genres. Students will focus on the implementation of inquiry learning and the positive aspects of this approach as related to various scientific disciplines.

**MGED 3021  Life Sciences in Middle Grades Education  3 Credits  (3-0-3)**
This course introduces the essentials of geometry as a method for problem solving. Content includes exploring the properties of geometric figures, making constructions using pencil and paper and dynamic software, using mathematical language to express ideas to justify reasoning while exploring the basis of formal mathematical proofs and solid geometry. Also included are content-related pedagogy and best-practice instructional strategies.

**MGED 3022  Physical Sciences in Middle Grade Education  3 Credits  (3-0-3)**
This course presents the basic concepts of physics including basic relationships between matter and energy, mechanics, electricity, magnetism, and waves. Topics include the conservation of energy, heat and thermal dynamics, atomic and nuclear structure, electricity, and the effective pedagogy to teach these concepts.

**MGED 3023  Earth & Space Sciences in Middle Grades Education  3 Credits  (3-0-3)**
This course examines the essential concepts pertaining to the study of the Earth as a constantly changing and dynamic system. Major topics include astronomy, meteorology, oceanography, historical geology and physical geology, as well as effective inquiry-based pedagogy to teach these concepts.

**MGED 3030  Adolescent Literature  3 Credits  (3-0-3)**
This intensive reading course presents major works and authors of adolescent literature level learners. Media literacy will include common research techniques, appropriate documentation of sources to avoid plagiarism, and locating and evaluating sources including multi-media sources.

**MGED 3031  Literary Forms and Media Literacy in Middle Grades Education  3 Credits  (3-0-3)**
This course will focus on literary devices, literary forms, and text structures for middle grades learners. Media literacy will include common research techniques, appropriate documentation of sources to avoid plagiarism, and locating and evaluating sources including multi-media sources.

**MGED 3032  Reading Methods in Middle Grades Education  3 Credits  (3-0-3)**
The focus of this course is on methods in teaching reading with an emphasis on comprehension, fluency, and vocabulary development in middle grades 4-8. Research-based, practical applications of literacy instruction and assessment, and the diagnosis and remediation of reading disabilities are addressed.

**MGED 3033  Teaching Grammar and Writing Mechanics in Middle Grades Education  3 Credits  (3-0-3)**
The focus of this course is on grammar and writing mechanics in middle level education. This course will build on essential writing skills such as sentence and paragraph construction to develop students' skills as writers.
MGED 3034  Teaching and Evaluating Writing in Middle Grades Education  3 Credits  (3-0-3)
The focus of this course is on the types and traits of writing and writing instruction and evaluation in middle level education. This course presents the teacher as writer and engaging students in writing for a variety of purposes and audiences.

MGED 3040  US History in Middle Grades Education  3 Credits  (3-0-3)
This course provides knowledge and skills for teaching U.S. and Georgia history at the middle level. Chronological accounts of major developments in Georgia and the U.S. from colonization through the current century will be explored to understand how major themes have shaped the growth of Georgia and the United States, its people, and its culture.

MGED 3041  Geography in Middle Grades Education  3 Credits  (3-0-3)
Geographic literacy, map skills, physical geography, and human geography are explored within the context of middle school geography standards. Skills needed to teach fundamental knowledge related to U.S. and World geography and its relationship to patterns of cultural, governmental, and economic activities will be studied.

MGED 3042  Government and Civics in Middle Grades Education  3 Credits  (3-0-3)
This course provides the foundation knowledge required to teach government and civics at the middle school level. Key concepts include the study of the Constitution, federalism, political parties and citizenship. International structures and systems will also be explained.

MGED 3054  Fundamentals of Economics in Middle Grades Education  3 Credits  (3-0-3)
This course differentiates between microeconomics and macroeconomics and teaches how that knowledge can be applied in the middle level social studies curriculum. Market structures, GDP, unemployment, and inflation are included as well as how government intervention and policy affect the US and global economies.

MGED 4000  Special Topics  1-13 Credits  (V-0-V)
This course focuses on topics in education or topics in the major content area of education.

MGED 4100  Methods and Research in Middle Grades Education  3 Credits  (3-0-3)
Teacher candidates will advance their practical understanding of educational research specific to middle grades education and the theories of teaching and learning. The course introduces the language of research, ethical principles, and elements of quantitative and qualitative research approaches. Candidates will use these theoretical underpinnings to begin to critically review and use literature related to research-based methods relevant to their middle grade content areas in planning, instruction, and assessment.

Prerequisite: Prior admission to the Teacher Education Program is required.

MGED 4410  Practicum in Teaching Middle Grades Social Studies  3 Credits  (3-0-3)
This course engages students in teaching concepts in middle grades social studies in a middle school setting while receiving additional training in effective instructional methods and assessment strategies appropriate for middle level learners. Successful completion of 60 field hours is required in this course.

Prerequisite: Prior admission to the Teacher Education Program is required.
Corequisite: MGED 4100

MGED 4411  Practicum in Teaching Middle Grades English/Language Arts  3 Credits  (3-0-3)
This course engages students in teaching concepts in middle grades literacy that encompass English and the language arts in a middle school setting while receiving additional training in effective instructional methods and assessment strategies appropriate for middle level learners. Successful completion of 60 field hours is required in this course.

Prerequisite: Prior admission to the Teacher Education Program is required.
Corequisite: MGED 4100

MGED 4412  Practicum in Teaching Middle Grades Mathematics  3 Credits  (3-0-3)
This course engages students in teaching concepts in middle grades mathematics with a focus on integrated STEM education in a middle school setting while receiving additional training in effective instructional methods and assessment strategies appropriate for middle level learners. Successful completion of 60 field hours is required in this course.

**Prerequisite:** Prior admission to the Teacher Education Program is required.

**Corequisite:** MGED 4100

MGED 4413 Practicum in Teaching Middle Grades Science 3 Credits (3-0-3)

This course engages students in teaching concepts in middle grades science with a focus on integrated STEM education in a middle school setting while receiving additional training in effective instructional methods and assessment strategies appropriate for middle level learners. Successful completion of 60 field hours is required in this course.

**Prerequisite:** Prior admission to the Teacher Education Program is required.

**Corequisite:** MGED 4100

---

**Military Science**

**MILS 1101** Introduction to Military Science & Skills Development 2 Credits (2-0-2)

Instruction providing a basic understanding of the U.S. military. The course includes the following subjects: the role of the U.S. Army in national defense, organization and branches of the U.S. Army, ROTC and its role, customs and traditions of the service, military writing, implementing a personal physical fitness program, role of the ARNG and USAR, and roles of the commissioned and noncommissioned officer. Skills development includes instruction and practical exercises in basic mountaineering skills as well as knot tying, belaying, and rappelling. This course is acceptable as a PE requirement. MILS 1101L should be taken concurrently.

**MILS 1102** Basic Military Leadership 2 Credits (2-1-2)

This course continues the development of critical military skills, leadership, and management techniques. It provides basic leadership techniques and principles, professional ethics, and senior subordinate relationships. One weekend field trip is required. MILS 1102L should be taken concurrently.

**MILS 2201** Basic Military Skills 2 Credits (2-1-2)

Instruction and practical exercises covering basic skills necessary as future leader in the U.S. Army. Includes the following subjects: land navigation and map reading, basic first aid, survival and communications. MILS 2201L should be taken concurrently.

**MILS 2202** Basic Military Tactics 2 Credits (2-1-2)

Instruction introduces students to the fundamentals of Army leadership and management techniques. Focus is placed on the mission, organization and composition of small unit teams; principles of offensive and defensive operations stressing firepower, movement and communication techniques; and introduction to troop leading procedures. MILS 2202L should be taken concurrently.

**MILS 3301** Advanced Tactics & Applied Leadership I 3 Credits (3-2-3)

Instruction on the principles of leadership and the leader’s role in directing small units in a variety of tactical scenarios. Emphasis is placed on developing and executing orders, troop leading procedures, and squad tactical reaction procedures. Land navigation and communication subjects are also included in the course. MILS 3301L should be taken concurrently.

**Prerequisite(s):** Completion of or placement credit for the Basic Course

**MILS 3302** Advanced Tactics & Applied Leadership II 3 Credits (3-0-3)

Continued instruction on the principles of leadership and the leader’s role in direction of small units in a tactical environment. Emphasis is placed on offensive and defensive tactics, patrolling techniques, and conducting after-action reviews. Instruction in management and leadership techniques emphasizes Green Tab Leadership and leadership assessment. MILS 3302L should be taken concurrently.

**Prerequisite(s):** MILS 3301
MILS 4401  Military Leadership & Management Seminar  3 Credits  (3-0-3)
Instruction covers U.S. Army Command and Staff functions. Military and professional knowledge topics include writing in the Army style, oral communications, conducting briefings, preparing to conduct training, and evaluating training. MILS 4401L should be taken concurrently.
*Prerequisite(s):* MILS 3301 and MILS 3302

MILS 4402  Transition to Lieutenant  3 Credits  (2-1-3)
Instruction prepares MS IV cadets in their transition from cadet/student to commissioned officer. The course also covers military law, the law of land warfare, and additional basic knowledge and individual needs to become a professional officer. MILS 4402L should be taken concurrently.
*Prerequisite(s):* MILS 4401

**Marine Sciences**

MSCI 1501K  Introduction to Marine Biology  4 Credits  (3-1-4)
Introduction to the form, function, classification, and ecology of marine organisms and ocean literacy principles. Ocean literacy is an understanding of the ocean’s influence on human kind and human kind’s influence on the ocean. An ocean-literate person understands the essential principles and fundamental concepts, can communicate about the oceans in a meaningful way, and is able to make informed and responsible decisions regarding the oceans and ocean resources.

MSCI 1701  Introduction to Aquarium Science  3 Credits  (3-0-3)
An introduction to the care and maintenance of captive aquatic plants and animals.

MSCI 1705  Outreach and Public Display  2 Credits  (2-0-2)
An introduction to effective oral, written, and graphical communication of scientific concepts to the public. This course includes a student practicum experience conducting public education and outreach activities. This course partially satisfies the requirements for the Aquarium Certificate.

MSCI 1810K  Marine Biology  4 Credits  (3-1-4)
Introduction to the physiology, morphology, taxonomy, and ecology of marine organisms and their role in oceanographic processes.

MSCI 2010K  Introduction to Oceanography  4 Credits  (3-1-4)
An introduction to physical, chemical and geological oceanography.

MSCI 2701K  Aquarium Systems I  4 Credits  (3-1-4)
Overview of the important physical, chemical, and biological components necessary to maintain a healthy captive environment. Emphasis is placed on knowledge of the cultured organism and recreating natural environments, within the limitations of current technologies. Introduces water filtration techniques and environmental maintenance strategies. Laboratories introduce common analytical techniques, culture maintenance and observation over the semester.
*Prerequisite(s):* MSCI 2010K or taken concurrently with instructor’s permission.

MSCI 2702K  Aquarium Systems II  4 Credits  (3-1-4)
A detailed investigation of aquatic maintenance systems, water filtration, wastewater treatment in small- and large-scale aquaria. Fundamental physical, chemical, and biological properties modified by these systems are discussed. Emphasis is placed on developing a working knowledge of the equipment necessary to maintain healthy aquatic environments. Overview of techniques to promote reproduction and sustaining long-term and multi-generational culture. Discusses current research improving high-density culture of commercial species. Laboratory experiences will include analytical techniques, equipment maintenance and repair, active culture maintenance over the semester.
*Prerequisite(s):* MSCI 2701K Aquarium Systems I
MSCI 2902  
**Aquarium Science Internship**  
8 Credits  
(8-0-8)  
Internship with an aquaculture facility providing the student a keystone experience in the Aquarium Science Certificate Program, combining fundamental instructional knowledge with practical employment experiences in the field.  
**Prerequisite(s):** MSCI 2702K Aquarium Systems II

MSCI 3301K  
**Marine Chemistry & Analysis**  
4 Credits  
(3-1-4)  
Chemical composition and processes of seawater and coastal waters; methods and techniques employed in analyzing environmental parameters; carbonate buffering system of seawater, biogeochemical cycles.  
**Prerequisite(s):** MSCI 2010K, CHEM 1212 (may be taken concurrently).

MSCI 3401K  
**Invertebrate Zoology**  
4 Credits  
(4-0-4)  
Survey of the major invertebrate taxa emphasizing function and special adaptations to coastal and marine environments. Practical emphasis on collection, preserving, sorting, and classifying, especially local species.  
**Prerequisite(s):** BIOL 1108, BIOL 1108L or MSCI 1810K

MSCI 3501K  
**Ichthyology**  
4 Credits  
(3-0-3)  
Evolution, classification, anatomy, physiology, and ecology of fishes. Includes methods for the collection, identification, maintenance, and study of Southeastern coastal marine and estuarine species.  
**Prerequisite(s):** BIOL 1108, BIOL 1108L or MSCI 1810K

MSCI 3560/DATA 3560  
**Big Data Analysis in the Sciences**  
3 Credits  
(3-0-3)  
A course in basic quantitative and analytical tools used to understand large sciences datasets, primarily using examples from the geosciences. Students will gain confidence in both the interpretation of presented data as well as the application of tools used for a variety of data types. Concepts covered will include sampling theory and design, plotting and visualizing data, basic data analysis techniques in Excel and MatLab, linear regression and curve fitting, time-series analysis, introduction to geoscience models, management of large data sets, and scripting in at least one software program typically used in geosciences (e.g., MatLab, R, etc.). This course will use example data sets commonly collected from ocean observatories, satellite remote sensing, data loggers, tagging and tracking experiments, moorings, current meters, long-term climate data sets, and other common types of science data.  
**Prerequisite:** BIOL 1107 or ENVS 2401 or MSCI 2010K or MATH 1113 or CISM 1130/CSCI 1130

MSCI 3702  
**Introduction to Geographical Information Systems**  
3 Credits  
(3-0-3)  
This course will develop student skills in GIS and demonstrate its interdisciplinary applications in marine sciences, city planning, and engineering and will serve as a required course for undergraduate interns in the NOAA-funded program, "Habitat Restoration and Land Use Monitoring Using GIS Technology: A Student Training Program" and as an elective in marine science and engineering.

MSCI 3901  
**Technical Writing & Seminar**  
3 Credits  
(3-0-3)  
The practical study of organizing and presenting scientific and technical information through writing and oral presentation. Covers the key elements of effective oral communication and written communication in memoranda, letters, reports, articles, and abstracts. Introduces the application and practical capabilities of computers, word processing, and integrated software.  
**Prerequisite(s):** ENGL 1102, prior science coursework, junior standing preferred

MSCI 4201K  
**Marine Ecology**  
4 Credits  
(4-0-4)  
The principles of ecology related to marine and estuarine ecosystems. Theoretical population dynamics, age distributions, competition, and predation are discussed.  
**Prerequisite(s):** MSCI 1810K and MSCI 3301K, or BIOL 1108 and ENVS 3203
MSCI 4350K  Biological Oceanography  4 Credits  (3-2-4)
Consideration of biological features and processes within oceanic environments including plankton biology, oceanographic nutrient cycles, food webs and energy flow, pelagic and benthic community dynamics, biophysical interactions, biogeography, and field and remote sensing methods.
Prerequisite(s): MSCI 1810K, MSCI 2010K, and junior standing

MSCI 4401K  Marine Sediments  4 Credits  (4-0-4)
Students will learn the concepts of sedimentology, stratigraphy, and paleoceanography in a regional context by exploring sedimentary environments along a transect from the Appalachian Mountains to the Mid-Atlantic Ridge.
Prerequisite(s): MSCI 2010K or ENVS 1121K

MSCI 4447  Marine Mammalogy  3 Credits  (3-0-3)
An introduction to the biology of marine mammals, including cetaceans, pinnipeds, sirenians, and sea otters. Topics covered include evolution, physiology, behavior, and ecology of marine mammals. Particular attention is paid to current topics in the management and conservation of marine mammals.
Prerequisite(s): Junior standing; MSCI 1810K or BIOL 1108+L

MSCI 4501  Current Issues in Oceanography  3 Credits  (3-0-3)
This course provides background information, letters, milestone journal articles, and guidance in literature searches for discussion/debate on current issues in oceanography.
Prerequisite(s): MSCI 1810K and 2010K

MSCI 4572  Oceanographic Instrumentation  3 Credits  (3-0-3)
Undergraduate introduction to oceanographic instrumentation commonly used aboard oceanographic research vessels, by marine laboratories, and remote sensing platforms. Discusses the physical, chemical, electrical, acoustic and mechanical basis for these instruments’ operation. Presents common practices for shipboard operation and at-sea research data collection.
Prerequisite(s): BIOL 1108, BIOL 1108L; MSCI 2010K; or ENVS 2401/2401L

MSCI 4601  Marine Conservation Biology  3 Credits  (3-0-3)
This course covers the principles of conservation biology and applies them to examples in marine systems. Students will learn how to measure marine biodiversity, analyze threats, and develop mechanisms to conserve marine biodiversity.
Prerequisite(s): BIOL1108, BIOL 1108L or MSCI 1810K

MSCI 4851  Special Topics  1-3 Credits  (V-0-V)
Content to be determined each semester. May be repeated.

MSCI 4902  Senior Research/Internship  1-3 Credits  (V-0-V)
A research project under faculty supervision, which includes researching the background on a given problem, defining a hypothesis, and planning and executing experiments. A written report/manuscript and oral presentation are required.
Prerequisite(s): MSCI 3901 and at least junior standing

MSCI 4903  Senior Research/Internship II  1-3 Credits  (V-0-V)
This class is intended as a continuation of research or internship activities from MSCI 4902. Consent of instructor and the faculty advisor are required.
Prerequisite(s): MSCI 4902 (may be concurrently).

MSCI 4904  Senior Seminar  1 Credit  (1-0-1)
Students explore marine career and graduate school options, prepare applications and curriculum vitae, practice interviews, discuss scientific ethics, review primary scientific literature, and produce and present a research poster.
Prerequisite(s): MSCI 4902
## Music

</tbody>
</table>
A course built around jazz, gospel and spiritual repertoire at the piano. The student will learn and perform African American standards at the piano. The student will learn of the influence of African Americans in “Classical” music.

Prerequisite(s): MUSC 3531

MUSC 3111 Theory III Form & Analysis 2 Credits (2-0-2)
A study of the construction of music from the eighteenth century to the present, including melodic and harmonic analysis of selections by major composers.

Prerequisite(s): MUSC 2101

MUSC 3121 History & Literature of Music I 3 Credits (3-0-3)
A survey of the history of music from the beginning of the Christian era to the Baroque period. Emphasis placed upon a study of representative works by major composers, together with a comprehensive analysis of style and musical development.

MUSC 3122 History & Literature of Music II 3 Credits (3-0-3)
A continuation of MUSC 3121 beginning with the Baroque period to the present.

MUSC 3321 Instrumental Methods I 2 Credits (2-0-2)
An introduction to the principles of instrumental performance and pedagogy. Focus on technique and group performance.

MUSC 3322 Instrumental Methods II 2 Credits (2-0-2)
An instrumental methodology course that familiarizes the student with approaches to learning and teaching different families of instruments in preparation for performance doubling or musical instruction.

Prerequisite(s): MUSC 3321

MUSC 3404 Music Production 3 Credits (3-0-3)
Music Production is a technology course focusing on the software and hardware components surrounding DAW, MIDI, MIDI sequencing and notation. Students will prepare digital music files by using editing, and mixing tools. Students will complete independent projects in the areas of music notation, MIDI sequencing, and film scoring.

MUSC 3408 University Marching Band 1 Credit (1-0-1)
University Marching Band

MUSC 3421 Instrumental Methods I 2 Credits (2-0-2)
A private lesson held in the percussion studio for one hour a week by appointment only. Junior level.

MUSC 3422 Instrumental Methods II 2 Credits (2-0-2)
A continuation of MUSC 3421.

MUSC 3455 Jazz Ensemble 1 Credit (1-0-1)
A course designed to expose students to composers and arrangers of jazz, rock, and soul music. Improvisation also included.

MUSC 3456 Jazz Ensemble 1 Credit (1-0-1)
A course designed to expose students to composers and arrangers of jazz, rock, and soul music. Improvisation also included.

MUSC 3531 Accompaniment 1 Credit (1-0-1)
This course is designed to introduce to the art of piano collaboration. Practical skills including sight-seeing and ensemble development will be addressed. Time will be devoted to exploring standard works from the vocal and instrumental repertoires, which are intended to prepare the student to graduate study as well as professional work as a collaborator.

</tbody>
</table>
A practical approach to the presentation of musical scores for collaborative piano playing with a singer, instrumentalist, or chorus. A large variety of repertoire will be examined.

Prerequisite(s): MUSC 3531 or permission from the instructor

MUSC 4644 Applied Major Area—Voice (Music Majors Only) 1 Credit (1-0-1)
A course devoted to the development of proficiency in a specific area of applied music selected by the student with the consent of advisor.

MUSC 4645 Musical Theatre 3 Credits (3-0-3)
This course explores the origins of the Musical Theatre in the United States and the African American Contribution to the American Musical. Students will learn the different forms of musical theatre and develop a full production, with orchestra, scenery, choreography and choral.

MUSC 4711 Opera/Musical Theatre Workshop 1 Credit (1-0-1)
Opera/Musical Theatre Workshop is a select course for moderate to advanced classical singers. Topics include the musical, linguistic and dramatic preparation of roles and scenes from the operatic, operetta and musical theatre repertory. In addition, the student will learn more about the history and literature of these genres as well as the industry (auditioning, young artist programs, etc.)

MUSC 4808 Chamber Organization 1 Credit (1-0-1)
A course that involves the official percussion ensemble of Savannah State University which studies and performs chamber and ensemble music. The group performs at various functions on and off campus in support of the university. Senior level.

MUSC 4809 Chamber Organization 1 Credit (1-0-1)
A continuation of MUSC 4808.

MUSC 4999 Seminar/Practicum/Internship 3 Credits (3-0-3)
A senior level course with two components: 1) Off-campus, on-the-job observation and training with the students pursuing professional work in a variety of traditional and non-traditional careers appropriate to their academic program. An internship must be completed at 100 clock hours for 3 credits. 2). Students must have an understanding of the various kinds of research as well as knowledge in their field of concentration in preparation for graduate schools and vocational entry positions. Students must show competence and skills in their field of study, prepare for successful completion of the departmental exit examination, and prepare a marketable project in the field of study.

Prerequisite(s): completion of 30 credit hours in BFA major

Naval Science

NSCI 1001 Introduction to Naval Science 3 Credits (3-0-3)
Introduce midshipmen to NROTC program mission, organization, regulations and broad warfare components of the naval service. Included is an overview of officer and enlisted rank and rating structure, training and education, promotion and advancement and retirement policies. This course also covers naval courtesy and customs, as well as a study of the organization of the naval service. Students are familiarized with the major challenges facing today's naval officers, especially, in the areas of leadership and human resources management.

NSCI 1002 Seapower & Maritime Affairs 3 Credits (3-0-3)
A survey of American Naval and Maritime history from the American Revolution to the present with emphasis on major developments. Attention will be focused on Mahan's geopolitical theory; economic and maritime forces; U.S. military and maritime strategy; and a comparative analysis of American and foreign maritime strategies.

NSCI 2101 Naval Ships Systems I Engineering 3 Credits (3-0-3)
A detailed study of ship characteristics and types, including ship design, hydrodynamics forces, stability, compartmentalization, propulsion, electrical and auxiliary systems, interior communications, ship control and
damage control. Basic concepts or the theory and design of steam, gas turbine and nuclear propulsion, shipboard safety and firefighting are also covered.

**NSCI 2102 Leadership & Management 3 Credits (3-0-3)**
An introduction of management functions as they apply to routine daily military activities. The concepts of planning, organizing, staffing, directing, controlling and coordination are introduced and examined using lecture, seminar and case study methods. The course includes discussions on responsibility and accountability, power and influence, managerial theories, decision making, personnel appraisal, organizational structure and communications. Emphasis is placed on management of personnel and physical resources.

Travel in conjunction with Course NSCI 2102: Savannah State University Navy ROTC with appropriated funding from Savannah State University College of Science and Technology (COST), may be offered opportunities for class participation in selected leadership conferences that are considered part of the course credit. Travel offerings associated with NSCI 2102 will be announced and selection criteria for attendance will be based on Professor of Naval Science recommendations to Dean of COST, Savannah State University.

**NSCI 3003 Navigation 3 Credits (3-0-3)**
An in-depth study of piloting and navigation theory, principles, and procedures, as well as the rules of the nautical road, ship employment and relative motion analysis. Students learn piloting navigation: the use of charts, visual and electronic aids, and the theory and operation of compasses. Celestial navigation is covered. Students develop practical skills in piloting, celestial navigation, and relative motion analysis. Other topics include tides, currents, effects of wind and weather, use of navigational instruments, ship employment, types and characteristics of electronic navigation systems, naval command and control, and afloat naval communications.

**NSCI 3004 Naval Operations & Seamanship 3 Credits (3-0-3)**
A study of basic naval command and control, forms of naval communications to include visual, radiotelephone and satellite systems. Students will know basic terms, equipment procedures and safety precautions used for replenishment at sea (UNREP). A study of controllable and non-controllable forces in ship handling, and comprehends relative motion and demonstrates capability to solve problems associated with relative motion. Students will also know the principle rules for maneuvering ships in formations and the use of tactical publications. Understand in port and at sea watch organization and procedures.

Prerequisite(s): NSCI 3003 Navigation

**NSCI 3101 Evolution of Warfare 3 Credits (3-0-3)**
This course traces the historical development of warfare from the dawn of recorded history to the present, focusing on the impact of major military theorists, strategist, tacticians, and technological developments. Students acquire a basic sense of strategy, development and understanding of military alternatives, and become aware of the impact of historical precedent on military thought and actions.

**NSCI 4001 Naval Ships Systems II Weapons 3 Credits (3-0-3)**
This course outlines the theory and employment of naval RADAR, SONAR, and weapons systems. Students explore the processes of detection, evaluation, threat analysis, weapon selection, delivery, guidance and naval ordnance. Fire control systems, major weapons types, and military platforms are discussed. The concept of command-control-communications and intelligence is explored as a means of weapons systems integration as are space and electronic warfare.

**NSCI 4050 Naval Drill 0 Credits (0-0-0)**
Introduces the student to basic military formations, movements, commands, courtesies and honors, and provides practice in unit leadership and management. Physical conditioning and training are provided to ensure students meet Navy/Marine Corps physical fitness standards. NSCI 4050 is required each semester for all NROTC students.

**NSCI 4103 Fundamentals of Maneuver Warfare 3 Credits (3-0-3)**
The purpose of this course is to introduce the student to the foundational concepts and history of the USMC as the premier Maneuver Warfighting Organization. It is a theoretical class that utilizes both historical examples from
previous military operations as well as current doctrine, developing an individual who is both a critical thinker and scholar in the profession of arms. The goal is to educate the student to read military history analytically not to memorize facts. The foundation for the course occurs in Module One - Fundamental concepts and Themes. Module Two lays out the doctrine of maneuver warfare and Module Three describes the future of the Marine Corps and how it will continue to apply and advance the maneuver warfare philosophy and concept.

NSCI 4104  Leadership and Ethics  3 Credits  (3-0-3)
A study of military leadership and management which investigates techniques and concepts of task accomplishment in the absence of a normative business environment. The course includes an examination of military law, ethical leadership, personal responsibility, authority and bureaucracy. The focus of discussion is on those aspects of leadership and management not normally present in civilian enterprise such as operation in the presence of hostility and morale management.

Travel in conjunction with Course NSCI 4104: Savannah State University Navy ROTC with appropriated funding from Savannah State University College of Science and Technology (COST), may be offered opportunities for class participation in selected leadership conferences that are considered part of the course credit. Travel offerings associated with NSCI 4104 will be announced and selection criteria for attendance will be based on Professor of Naval Science recommendations to Dean of COST, Savannah State University.  
Prerequisite(s): NSCI 2102

**Philosophy**

PHIL 2010  Introduction to Philosophy  3 Credits  (3-0-3)
The basic survey course of the field of philosophy. An introduction to logic, ethics, ontology, and religion, etc., as a basis for additional study in philosophy. Required for concentration in Religious and Philosophical Studies.

PHIL 2030  Introduction to Ethics  3 Credits  (3-0-3)
This course examines the philosophical study of morality—the justification of moral judgments and actions, as well as the concepts of right and wrong, duty, and character. Philosophers include Aristotle, Immanuel Kant, John Stuart Mill, and may include other influential thinkers from the Western tradition, as well as contemporary moral theorists.

PHIL 2500  Principles of Logic  3 Credits  (3-0-3)
An introduction to the systematic study of reasoning from the time of Aristotle and Plato through such modern thinkers as Boole and Toulmin.  
Prerequisite(s): PHIL 2010 or permission of the instructor

PHIL 3101  Philosophy of Religion  3 Credits  (3-0-3)
A study of philosophical concepts associated with religion and religious experience.  
Prerequisite: PHIL 2010 or permission of the instructor

PHIL 3102  Philosophy of Love & Sex  3 Credits  (3-0-3)
This course examines the changing philosophical significance of the conceptions and depictions of love and sex.  
Prerequisite(s): PHIL 2010 or permission of the instructor

PHIL 3103  Philosophy of Film  3 Credits  (3-0-3)
This course explores questions about the aesthetic dimensions of film, examines film as an art form, and focuses on philosophical questions about the nature of film, as well as philosophical questions generated by selected films.  
Prerequisite(s): PHIL 2010 or permission of the instructor

PHIL 4211  Philosophies of the African-American Experience  3 Credits  (3-0-3)
A study of philosophical analyses and reflections relevant to the experiences of African-Americans. Will consider works and ideas of such historical figures as W.E.B. Du Bois and Alain Locke and contemporary thinkers such as bell hooks.

Prerequisite(s): PHIL 2010 or permission of the instructor

**PHIL 4411 Philosophical Issues**  
3 Credits  (3-0-3)  
An exploration of such topics as the nature of being, freedom and determinism, language and meaning, the concept of beauty, and the mystery of death.  
Prerequisite(s): PHIL 2010 or permission of the instructor

---

**Physical Sciences**

**ENVR 3101K Environmental Radiation**  
3 Credits  (3-0-3)  
A study of radioisotopes and radiation energy in the environment. Topics to be discussed are atomic structure and nuclear radiation, radioactive decay, interaction of charged particles and electrons with matter, methods of radiation detection, radiation dosimetry and radiation protection.  
Prerequisite(s): PHYS 1111K, PHYS 1112K, and General Inorganic Chemistry

**GEOL 1121K Introduction Geoscience I & Lab**  
4 Credits  (4-0-4)  
A course designed for students majoring in environmental science. The course is also useful for students majoring in civil engineering, marine science, and naval science who may take it as an elective. Topics include composition of the earth and its minerals, volcanoes, and earthquakes and their causes.  
Prerequisite(s): MATH 1111 and basic knowledge of chemistry and physics

**PHSC 1011K Physical Science I**  
4 Credits  (4-0-4)  
A course examining scientific facts and scientific laws pertaining to the physical universe.

**PHSC 1012K Physical Science II**  
4 Credits  (4-0-4)  
A study of the earth in space, its form on the geographic grid, and map projections, atmosphere; oceans, ocean tides, and the eclipses; climate; soils and vegetation; temperature; latitude; heat budget of the earth. The earth’s crust and its relief forms are discussed.

---

**Physics**

**PHYS 1111K Introductory Physics I**  
4 Credits  (3-1-4)  
An introductory course, which includes material from mechanics, thermodynamics, and waves. Elementary algebra and trigonometry are examined.  
Prerequisite(s): MATH 1113

**PHYS 1112K Introductory Physics II**  
4 Credits  (3-1-4)  
An introductory course, which includes material from electromagnetism, optics, and modern physics. Elementary algebra and trigonometry are examined.  
Prerequisite(s): PHYS 1111K

**PHYS 2211K Principles of Physics I**  
4 Credits  (4-0-4)  
An introductory course, which includes material from mechanics, thermodynamics, and waves. Elementary differential calculus is used.  
Prerequisite(s): MATH 2101 or MATH 2501

**PHYS 2212K Principles of Physics II**  
4 Credits  (4-0-4)  
An introductory course, which includes material from electromagnetism, optics, and modern physics. Elementary differential and integral calculus are examined.  
Prerequisite(s): PHYS 2211K
PHYS 3111  Heat & Thermodynamics  3 Credits  (3-0-3)
Mathematical background and preparation, equations of state, ideal and real gases, kinetic theory of gases
(temperature and temperature scales, heat capacity and calorimetry, work, Laws of Thermodynamics), the enthalpy
function and thermo-chemistry, Joule-Thomas experiment, entropy functions, free energy, phase rule.
Prerequisite(s): PHYS 2211K

PHYS 3121  Optics  3 Credits  (3-0-3)
Advanced topics in optics; a continuation of PHYS 2212K.
Prerequisite(s): PHYS 2212K

PHYS 3131  Magnetism & Electricity  3 Credits  (3-0-3)
Advanced topics in electricity and magnetism; a continuation of PHYS 2212K.
Prerequisite(s): PHYS 2212K

PHYS 3211  Mathematical Physics  3 Credits  (3-0-3)
A course designed to develop an understanding of the concrete relationship between mathematical factors that
contribute to various physical phenomena; qualitative and quantitative relationships.
Prerequisite(s): MATH 2111 and PHYS 2212K

PHYS 4111  Modern Physics  3 Credits  (3-0-3)
Recent advances in atomic and nuclear physics.
Prerequisite(s): MATH 2111, PHYS 2212K and at least one upper-level physics course

PHYS 4951  Introduction to Research in Physics  2 Credits  (2-0-2)
An introduction to the techniques and procedures used in physics research problems.
Prerequisite(s): Junior standing in mathematics and physics; the consent of the instructor; completion of at least
one 3100 or 4100 level physics course

Political Science

POLS 1101  American Government  3 Credits  (3-0-3)
A comprehensive study of the origins, principles, structures, processes, and practices of American government,
emphasis on various perspectives on democratic theory and practice of governmental institutions.

POLS 2101  Introduction to Political Science  3 Credits  (3-0-3)
An introduction to the concepts, issues, and methods of the field of political science; emphasis on basic analytical
skills, including research methods that will be important in subsequent course work.
Prerequisite(s): For upper level POLS courses for majors/minors

POLS 2201  State & Local Government  3 Credits  (3-0-3)
A study of the structure, powers, functions, and problems of state and local governments and their roles in the
federal government system.

POLS 2401  Global Issues  3 Credits  (3-0-3)
An interdisciplinary approach to selected topics in contemporary societies, using the sociological, economic,
geographic, and political perspectives; an opportunity to equip students to understand and meet the challenges of a
rapidly changing world community.

POLS 3101  International Politics  3 Credits  (3-0-3)
A survey of the basic factors that motivate international relations; an examination of the causes of war and the
institutions and processes of conflict resolution.

POLS 3102  Comparative Government & Politics  3 Credits  (3-0-3)
A study of the methods, political environment, political structures, participation and socialization, public policy processes of selected political systems.

**POLS 3121**  
**International Law**  
3 Credits  
(3-0-3)  
A survey of the principles of international law relative to functions of states and other international entities, diplomatic relations, and laws of warfare, with special emphasis on the relationship between international law and politics.  
*Prerequisite(s):* POLS 3101

**POLS 3131**  
**International Organizations**  
3 Credits  
(3-0-3)  
A study of the origins and evolution of international organizations, with emphasis on the United Nations and specialized agencies; factors favoring and impeding their development and their effect on political, economic, and social issues.  
*Prerequisite(s):* POLS 2101, POLS 3101

**POLS 3141**  
**African Government & Politics**  
3 Credits  
(3-0-3)  
Introductory survey of political patterns, political processes, and political ideologies in Africa; an examination of the legacy of colonialism, process of modernization, and the problems of political instability.  
*Prerequisite(s):* POLS 2101

**POLS 3201**  
**American Judicial Process**  
3 Credits  
(3-0-3)  
An examination of the institutions and operations of the American judicial system, with emphasis on the national, state and local judiciaries.

**POLS 3211**  
**American Constitutional Law**  
3 Credits  
(3-0-3)  
A study of the basic principles of the United States Constitution and powers of the national and state governments examined through Supreme Court decisions. The course also examines constitutional protections of individual civil liberties and rights.  
*Prerequisite(s):* POLS 1101

**POLS 3221**  
**Civil Rights & Liberties**  
3 Credits  
(3-0-3)  
An examination of personal liberties guaranteed by the United States Constitution, including freedom of speech, religion, assembly, petition, the rights of privacy, and the right against age, sex, race, or economic discrimination.

**POLS 3231**  
**American Presidency**  
3 Credits  
(3-0-3)  
An introduction to the structure and behavior of the presidency; an examination of presidential elections, the organization of the office, and its relations to the other national political institutions.

**POLS 3301**  
**Research Methods in Political Science**  
3 Credits  
(3-0-3)  
An introduction to the quantitative and qualitative techniques for measurement, analysis, and inference of political data.  
*Prerequisite(s):* POLS 1101, POLS 2101

**POLS 3401**  
**Administrative Law**  
3 Credits  
(3-0-3)  
A study of cases illustrating how the conduct of public officials is regulated.  
*Prerequisite(s):* POLS 3211

**POLS 3501**  
**Public Personnel Administration**  
3 Credits  
(3-0-3)  
An analysis of the methods and theories in personnel administration, including selection, training, promotion, performance evaluation, and disciplinary actions. Critical issues such as merit, affirmative action, organization, and employee strikes are examined.  
*Prerequisite(s):* POLS 1101

**POLS 3502**  
**Non-Profit Organizations**  
3 Credits  
(3-0-3)
This class prepares students to serve in, or collaborate with, nonprofit organizations as separate and distinct from market firms and government. This course offers an overview of the history, scope, and practice of collective action impacting public services and policy development. The course emphasizes acquiring the knowledge, skills and abilities to serve in these organizations or as a partner, such as when government contracts with a nonprofit organization as a delivery mechanism for public services.

**POLS 3511 Organization Theory & Behavior** 3 Credits (3-0-3)
An investigation into contemporary organization theory and problems, including the determinants of organization design, structure, and process; performance; and the interrelationship between organization and individuals within the organization.
*Prerequisite(s):* POLS 1101

**POLS 3601 African American Politics** 3 Credits (3-0-3)
An examination of black political movements, participation of African Americans in the American political system, particularly the electoral process, the power structure in African American communities.
*Prerequisite(s):* POLS 1101

**POLS 3602 Fundamentals of Public Administration** 3 Credits (3-0-3)
This course is an examination of the study and practice of public administration in the United States. It provides a historical account of the evolution and development of the field of public administration as a discipline and a profession. Students will be asked to think critically about a range of concepts and principles relevant to the field. The course format includes lectures, in-class exercises, and case-study analyses.
*Prerequisite(s):* POLS 1101

**POLS 3701 Georgia Government & Politics** 2 Credits (2-0-2)
A survey of Georgia state and local governmental institutions, functions, and processes, including the behavior of political leaders.
*Prerequisite(s):* POLS 1101

**POLS 3702 Introduction to Geographic Information Systems** 3 Credits (3-0-3)
Applied skills in Geographic Information Systems (GIS) are required for many entry-level careers in public and private sector planning, engineering, public health, community development and natural-resource management. This course is an introduction to Geographic Information Systems (GIS) for undergraduate students. This course has three objectives: (1) to familiarize students with the application of GIS software and provide experience working with common sources of spatial data and analysis techniques. (2) To produce intelligent consumers of spatial information to recognize the perils of misrepresenting spatial data and the real-world implications of bad maps. (3) To prepare students for a job market that demands GIS skills and spatial literacy.

**POLS 3801 Gender & Politics** 3 Credits (3-0-3)
An analysis of the interactions between gender roles and the political systems; emphasis on the impact of gender politics on socialization, leadership recruitment and political participation, policy-making, and health care research.

**POLS 3811 Urban Politics** 3 Credits (3-0-3)
An examination of political patterns, political processes, political conflict in metropolitan areas; interrelationship between urban growth and change in political institutions, processes, and solutions to problems of large cities.

**POLS 3813 Introduction to Urban Planning** 3 Credits (3-0-3)
An introduction to the basic concepts, principles, and theories of urban planning, including the development, design, and revitalization of high density populations.

**POLS 3901 Internship** Credit Varies (V-0-V)
An individually designed course/project involving off-campus study and research in a government or private agency; designed to require the full semester for completion; joint supervision of the sponsoring organization and the faculty advisor; credit arranged by the faculty advisor.

Prerequisite(s): Permission of the instructor

**POLS 4000 Special Topics** 3 Credits (3-0-3)
Special topics course will allow for different courses to be offered based on various topics chosen by faculty members or resulting from student requests. This will allow for current issues to be addressed, as well as courses by visiting and adjunct faculty. The course will be taught as a regular course with several students attending the same classes and laboratories (if offered).

**POLS 4101 Environmental Law** 3 Credits (3-0-3)
A study of the legal processes relating to resource conservation, utilization, and the monitoring, control, and abatement of pollution of air, land, and water.

**POLS 4201 Political Theory** 3 Credits (3-0-3)
An examination of the theoretical approaches to the basic political concepts in their historical context.

Prerequisite(s): HIST 1101, HIST 1102; and POLS 2101 or permission of the instructor

**POLS 4211 Contemporary Political Theory** 3 Credits (3-0-3)
An analytical review of the writing of great thinkers from the end of the Middle Ages to the present; emphasis on recent political ideologies.

Prerequisite(s): POLS 2101, POLS 4201

**POLS 4221 American Political Thought** 3 Credits (3-0-3)
A study of origins and development of American political thought from the colonial period to the present, emphasis on black political thought and current liberal-conservative debate.

**POLS 4311 Legislative Process** 3 Credits (3-0-3)
An introduction and examination of the political systems of selected countries in Africa, Asia, Caribbean, and Latin America.

Prerequisite(s): POLS 3102

**POLS 4501 The Media & Politics** 3 Credits (3-0-3)
An examination of the role of the media in American politics; includes the media’s impact on the electoral process and its role as a check on the president and other elected officials.

**POLS 4511 Public Policy** 3 Credits (3-0-3)
A study of how the federal government perceives public issues, processes them, and executes public policies; an examination of the various decision-making theories; emphasis on case studies.

Prerequisite(s): POLS 1101

**POLS 4521 Party Politics & Voting Behavior** 3 Credits (3-0-3)
An analysis of the evolution, nature, and role of American political parties; an examination of each of the major party systems and the literature on voting behavior with emphasis on the problems and methods of studying voting.

**POLS 4601 American Foreign Policy** 3 Credits (3-0-3)
A survey of the objectives and the formulation of American foreign policy.

Prerequisite(s): POLS 1101

**POLS 4611 American National Security Policy** 3 Credits (3-0-3)
A study of organizations and processes involved in the formulation and execution of American national security policy; topics on nuclear strategy bureaucratic politics, and the programming and budgeting process.

Prerequisite(s): POLS 1101 or permission of instructor
POLS 4901          Senior Seminar         3 Credits  (3-0-3)
An examination of selected topics in political science. Open only to senior majors.
Prerequisite(s): Permission of the instructor

POLS 4911          Directed Independent Study 3 Credits  (3-0-3)
Independent study, on-line and print-based, is designed to offer the individual student an opportunity to explore subjects outside of the traditional classroom setting. The specific course requirements will be formulated by the student under the direction of a selected instructor who possesses expertise in the subject matter. A grade point average of 3.00 is required. Exceptions to the 3.00 average may be made for students under extenuating circumstances. *Note - An independent study form must be signed by the instructor of record and the department chairperson prior to a student’s enrollment in the course. A statement regarding the conditions and credit/semester limits under which the course may be repeated must be clearly stated in the description (may not be enrolled for more than 9 credits).

Psychology

PSYC 1101          Introduction to General Psychology 3 Credits  (3-0-3)
This introductory survey course explores the scientific study of human nature, behavior, and cognitive processes. The major areas of psychological study will be reviewed including history, biology, memory, learning, development, personality, abnormal and social psychology. Emphasis will be placed on applying psychological principles and data to life experiences.

PSYC 2102          Counseling in a Multicultural Society 3 Credits  (3-0-3)
An introduction to the basic principles and practices of counseling with particular attention to the significance of socio-cultural factors in the counseling situation.

PSYC 2103          Human Growth & Development 3 Credits  (3-0-3)
An introductory, non-laboratory based examination of human development across the life span with an emphasis on normal patterns of physical, cognitive and social development.

PSYC 3301          Social Psychology 3 Credits  (3-0-3)
A study of individuals and their social context, beginning with the study of the social behavior of animals and including human function in small groups, in societies, and in cross-cultural perspectives; attitudes, motives, and social perception will be emphasized.
Prerequisite(s): PSYC 1101

PSYC 3311          Group Process 3 Credits  (3-0-3)
A utilization of group dynamics and counseling techniques to develop self-awareness and team-awareness in managing the problems, stresses, and challenges of life. The course is designed to identify dysfunctional patterns and to move toward more effective and creative modes of functioning in the work, family, and community settings.
Prerequisite(s): PSYC 1101

PSYC 3401          Test & Measurements 3 Credits  (3-0-3)
An introduction to measurement which covers statistical methods, research designs and research problems and the administration and evaluation of psychological tests.
Prerequisite(s): PSYC 1101

PSYC 4101          Theories of Personality 3 Credits  (3-0-3)
An exploration of the theoretical basis of personality with emphasis on structure, dynamics, personality, development, normal and deviant behavior, attitudes, beliefs, and opinions.
Prerequisite(s): PSYC 1101
PSYC 4201  Health Psychology  3 Credits  (3-0-3)
An analysis of the concept of the healthy personality and mental functioning as responding constructively to stress rather than merely adapting or adjusting to stress.
Prerequisite(s): PSYC 1101

PSYC 4311/AFRS 4311  Psychology of the African-American Experience  3 Credits  (3-0-3)
An overview of contemporary topics in Black psychology, including self-concept, achievement, motivation, and the Black family.
Prerequisite(s): PSYC 1101

PSYC 4601  Diagnostic Psychology  3 Credits  (3-0-3)
An examination of the traditions and controversies that arise in diagnosing psychiatric disorders, with specific attention to diagnostic principles, procedures, assessment, techniques, testing, and socio-cultural factors.
Prerequisite(s): PSYC 1101

PSYC 4602  Special Topics in Psychology  3 Credits  (3-0-3)
Special Topics in Psychology
Prerequisite(s): Specific prerequisites will depend on the topic

PSYC 4701  Abnormal Psychology  3 Credits  (3-0-3)
Covers the contemporary approach to the description and understanding of maladaptive and pathological human processes. The varieties of abnormal experiences and behavior will be presented and discussed. The study method will be used in providing a comprehensive review of current approaches to the recognition and categorization of mental disorders. Causes and treatment of psychopathology will be discussed.
Prerequisite(s): PSYC 1101, PSYC 4101

Religious Studies

RELS 2050  Religions of the World  3 Credits  (3-0-3)
This course is a study of selected world religions with concentration on the origin and major periods of the conceptual, scriptural, and doctrinal development of these religions.

RELS 3121  The Bible as Literature: Intro to the Hebrew Bible  3 Credits  (3-0-3)
An introduction to the books of the Hebrew Bible, with emphasis on rhetorical and literary-critical analysis.
Prerequisite(s): ENGL 1102

RELS 3122  The Bible as Literature: Intro New Testament & Apocrypha  3 Credits  (3-0-3)
An introduction to the books of the New Testament and the Apocrypha, with emphasis on rhetorical and literary-critical analysis.
Prerequisite(s): ENGL 1102

RELS 3231  Introduction to Eastern Religions  3 Credits  (3-0-3)
A study of the teachings of Taoism, Confucianism, Hinduism, and the various sects of Buddhism.
Prerequisite(s): PHIL 2010 or permission of the instructor

RELS 4221  The Jewish & Islamic Traditions  3 Credits  (3-0-3)
A study of religious thought as it has influenced the Old Testament, the New Testament, and the Koran.
Prerequisite(s): PHIL 2010 or permission of the instructor

RELS 4311  Mysticism  3 Credits  (3-0-3)
A survey of the common threads of mysticism found in Hinduism, Buddhism, the Sufi sect of Islam, Christianity, and the literature of Persia, China, Japan, India, and western civilization.
Prerequisite(s): PHIL 2010 or permission of the instructor

**RELs 4601** Special Topics in Religion 3 Credits (3-0-3)
A study of topics of special interest to students and instructors. Subjects could include types of religious belief (such as indigenous religions of Africa and the Americas), approaches to religious thought or experience (such as feminist theology, mysticism, or transcendentalism), or topics that stimulate religious thinking (such as love, friendship, death, the nature of the soul, the nature of evil). 
Prerequisite(s): PHIL 2010 or permission of the instructor

**Spanish**

**SPAN 1001** Elementary Spanish I 3 Credits (3-0-3)
A course for students with little or no previous language study. Practice in listening to, speaking, reading, and writing everyday Spanish. Introduction to Spanish culture. Not open to students who have more than one year of high school Spanish or who are native speakers of Spanish.

**SPAN 1002** Elementary Spanish II 3 Credits (3-0-3)
Practice in listening to, speaking, reading, and writing Spanish. Continuation of SPAN 1001. 
Prerequisite(s): SPAN 1001 or permission of instructor

**SPAN 2001** Intermediate Spanish I 3 Credits (3-0-3)
An intensive review of basic principles of the language; continued practice in listening, speaking, reading, and writing. 
Prerequisite(s): SPAN 1002 or two years of high school Spanish

**SPAN 2002** Intermediate Spanish II 3 Credits (3-0-3)
Intensive review of basic principles of Spanish; continued practice in listening, speaking, reading, and writing. 
Prerequisite(s): SPAN 2001

**SPAN 3101** Advanced Conversation & Composition 3 Credits (3-0-3)
A course focusing on understanding, speaking, and writing. Students will give oral presentations and write compositions on assigned topics. 
Prerequisite(s): SPAN 2002

**SPAN 3201** Civilization & Culture of Spain 3 Credits (3-0-3)
An historical survey of the culture of Spain from the Pre-Roman era to the present. Classes will be conducted in Spanish. 
Prerequisite(s): SPAN 3101

**SPAN 3202** Civilization & Culture of Latin America 3 Credits (3-0-3)
An historical survey of the culture of Latin American from the Pre-Columbian era to the present. Classes will be conducted in Spanish. 
Prerequisite(s): SPAN 3101

**SPAN 3204** Survey of Literature 3 Credits (3-0-3)
Introduction to some of the principal authors, works, and ideas in the literatures of Spanish-speaking countries. 
Prerequisite(s): SPAN 3101

**SPAN 3401** Introduction to Business Spanish 3 Credits (3-0-3)
A study of business terminology, including letter writing, insurance, banking, situations dealing with export and import companies, and job interviews. 
Prerequisite(s): SPAN 1002 or two years of high school Spanish

**SPAN 3402** Intermediate Business Spanish 3 Credits (3-0-3)
A continuation of SPAN 3401 with further emphasis on terminology relating to banking, insurance, letter-writing, job interviews, and exporting and importing.

Prerequisite(s): SPAN 3401

**SPAN 4101**  
Beginning Medical Spanish  
3 Credits  
(3-0-3)

A study of terminology vital to medical personnel, nursing students, and anyone in any health-related field.

Prerequisite(s): SPAN 1002 or two years of high school Spanish

**SPAN 4102**  
Intermediate Medical Spanish  
3 Credits  
(3-0-3)

A continuation of SPAN 4101. Students will continue to learn vocabulary useful to anyone in any medical or health-related field.

Prerequisite(s): SPAN 4101

---

**Sociology**

**SOCI 1101**  
Introduction to Sociology  
3 Credits  
(3-0-3)

An analysis of contemporary society and North American culture and its major institutional forms (the family, religion, education, economic and political systems).

**SOCI 1160**  
Social Problems  
3 Credits  
(3-0-3)

A survey and analysis of social problems, their interrelationships and linkage to social institutions in contemporary North American society.

**SOCI 2101/SOWK 2101**  
Social Statistics  
3 Credits  
(3-0-3)

An introduction to statistical methods relevant to sociological research, social work theory and practice, and the social sciences in general; the integration of user-friendly statistical software packages in the social sciences (e.g. CHIPPENDALE SHOWCASE).

**SOCI 3036**  
Social Stratification  
3 Credits  
(3-0-3)

This course examines and analyzes global perspective of social stratification. The course explores social factors that are used to stratify people in the world as well as the consequences of social inequality.

**SOCI 3101**  
The Family  
3 Credits  
(3-0-3)

A study of the role of the family in the development of the individual family formation and disintegration, cross-cultural and sub-cultural variations in family structure and experience, and the future of the family.

Prerequisite(s): SOCI 1101

**SOCI 3122**  
Sociology of Poverty  
3 Credits  
(3-0-3)

This course examines theories on the causes of poverty and provides an examination of empirical studies concerning the trends and determinants of poverty.

**SOCI 3201**  
Classical Theory  
3 Credits  
(3-0-3)

This course will focus on the pivotal theories contributed not only to the development of the field of sociology but also to the evolution of ideas concerning social life.

Prerequisite(s): SOCI 1101

**SOCI 3202**  
Health Disparities  
3 Credits  
(3-0-3)

Students will be introduced to the stress-exposure disease framework for understanding the relationships among race, environmental conditions and health. The course also offers the exposure-disease paradigm that shows how environmental toxicants cause disease. Students will be exposed to structural factors pertinent to environmental health disparities including the local and national economy, neighborhood physical conditions, land use patterns, and health infrastructure.
**Prerequisite(s):** SOCI 1101

|             | The methods and techniques of social science research, research design, methods of data gathering and analysis, sampling and survey research techniques, and interpretation and presentation of research findings.  
*Prerequisite(s):* SOCI 2101 |
| SOCI 3425   | Sex, Roles & Gender              | 3       | (3-0-3)   |
|             | This cross examines the evolutionary and cross-cultural analysis of sex roles in human societies with a special focus on the relative status of women.  
*Prerequisite(s):* SOCI 1101 |
| SOCI 3611   | Minorities & the Social Environment | 3       | (3-0-3)   |
|             | An examination of the problems faced by minority groups in American society, especially where skin color and language pose social, cultural, and economic barriers; an examination of conflicts between dominant public attitudes and minorities, and among minority groups such as Black Americans, Puerto Ricans, Native Americans, Chicanos, and other sizable ethnic groups.  
*Prerequisite(s):* SOCI 1101 or SOCI 1160 |
| SOCI 3621   | Demography                       | 3       | (3-0-3)   |
|             | An examination of social, economic, political, and environmental factors as they relate to population growth, composition, and distribution. The course considers how population change affects the structure and organization of societal institutions and focuses on basic demographics analysis as well as on past and current population trends and issues.  
*Prerequisite(s):* SOCI 1101 |
| SOCI 3631   | Urban Sociology                  | 3       | (3-0-3)   |
|             | A sociological study of the city, its growth, characteristics, and problems in the United States and elsewhere; an introduction to the literature, empirical data, and research on the urban phenomenon. The course provides conceptual clarity and understanding of the urban and urbanization process. |
| SOCI 3651   | Sociology of Religion            | 3       | (3-0-3)   |
|             | The analysis of religion as a social institution and cultural phenomenon; cross-cultural studies of religious belief; symbol and ritual; the role and future of religion in secular society. |
| SOCI 3901   | Internship                       | Credit  | (V-0-V)   |
|             | An individual-designed project involving off-campus study, research, and where applicable, work in a public or private agency; supervised by the sponsoring agency and faculty advisor; a stipend may be arranged for some work-related projects. |
| SOCI 4101   | Individual Study & Independent Research | 3       | (3-0-3)   |
|             | Independent reading or research in selected areas of sociological interest; supervised by a department member. |
| SOCI 4102   | The Sociology of Health and Disparities | 3       | (3-0-3)   |
|             | The study of health disparities will provide students with an in-depth look at published reports and books on variations in health conditions among societal members. |
SOCI 4111  Criminology  3 Credits  (3-0-3)
An investigation of crime and the criminal in modern, especially, urban society; a sociological examination of the
causes of crime, its impact on major social institutions, methods of treatment, and preventive programs.

SOCI 4135  Sociology of Law  3 Credits  (3-0-3)
This course will also examine work of theorists who proposed and popularized various concepts, theories, and
paradigms relevant to the study of law and society.

SOCI 4311  Juvenile Delinquency  3 Credits  (3-0-3)
This course is designed to provide students with an overview of the social dimensions of juvenile delinquency, its
nature, extent, distribution, prevention and control.

SOCI 4312  Contemporary Theory  3 Credits  (3-0-3)
An examination of the contemporary and classical theoretical models in sociology; an investigation of the
development of social thought from the Afro centric and the Euro centric perspectives.
Prerequisite(s): SOCI 1101

SOCI 4421  Seminar on the African-American Experience  3 Credits  (3-0-3)
A study of historic and current trends in selected sociological frames of reference of experiences encountered by
Black people in the United States; emphasis on social movement and social change, urban life, institutional forms
(family, religion, education), and political and economic struggles and achievements.

SOCI 4901  Senior Seminar  3 Credits  (3-0-3)
A comprehensive review of sociological concepts, theories, and topics, including research methodology and
statistical concepts. Students interested in pursuing graduate study in sociology are encouraged to enroll in this
course.
Prerequisite(s): SOCI 3401 or permission of the instructor

Social Work

SOWK 1000  Self-Awareness and Professional Development  3 Credits  (3-0-3)
This course is designed to address self-awareness and effective learning that is necessary to become effective
professional social work practitioners. Further it is to enhance students' development of self and the use of self to
empower others in social work practice. The students will examine their identity, interpersonal relationship skills,
problem-solving skills, styles of communication, and value system.
Prerequisite(s): Social Work Majors only

SOWK 1001  Interviewing and Writing Techniques for Social Workers  3 Credits  (3-0-3)
This course provides foundation knowledge and practice of interviewing, process recording and writing for
generalist social work practice. It is organized as an experimental laboratory to build good interviewing and
writing skills. Two important components of the course are interviewing and recording. Essential interviewing
skills are analyzed for their appropriate application with different populations, in particular women, people of
color and different ethnicities, person with disabilities and gay and lesbian persons. The problem solving and
solution building model is coupled with a combination of video analysis system for teaching single-skill units of
interviewing and a program method text approach for learning interviewing skills.
Prerequisite(s): Social Work Majors only

SOWK 2101/SOCI 2101  Social Statistics  3 Credits  (3-0-3)
An introduction to statistical methods relevant to sociological research, social work theory and practice, and the
social sciences in general; the integration of user-friendly statistical software packages in the social sciences (e.g.
CHIPPENDALE SHOWCASE)
**SOWK 2200**  
**Human Needs & Human Services**  
3 Credits (3-0-3)  
This is the gateway course to the undergraduate Bachelor of Social Work (BSW) degree. It provides and introduction to human services and the profession of social work, including opportunities and career choices available to human services professionals. Students are exposed to the range of problems and social issues that require individuals and groups to seek help. This course clarifies perceptions of the profession and its organizational response to human needs. Students are afforded opportunities to interact with professional social workers. Required for the social work major, but open to all majors.

**SOWK 2205**  
**History of Social Welfare & Social Policy**  
3 Credits (3-0-3)  
First course in the policy sequence. It provides an introduction to the historical significance of social values on the development of social welfare policies and programs. Concepts relative to social welfare developments are introduced. Students are introduced to beginning level assessment skills of social problems, social programs, and policy analysis.  
*Prerequisite(s):* SOWK 2200

**SOWK 3201**  
**Human Behavior & the Social Environment I**  
3 Credits (3-0-3)  
This first course in the human behavior sequence studies the bio-psycho-social, cultural and spiritual influences on the life cycle from pre-birth through adolescence. Emphasis is on understanding the interactions between individuals, groups, institutions and communities and their environments from various perspectives including systems, ecological, strengths, diversity, and human development. Restricted to social work majors.  
*Prerequisite(s):* SOWK 2200, SOWK 2205, SOWK 3305 and admission to major

**SOWK 3202**  
**Human Behavior & the Social Environment II**  
3 Credits (3-0-3)  
The second course in the human behavior sequence continues the examination of the bio-psycho-social, cultural and spiritual influences on the life cycle from late adolescence/early adulthood through old age and death. Emphasis is on understanding the interactions between individuals, groups, institutions and communities and their environments from various perspectives including systems, ecological, strengths, diversity, and human development. Restricted to social work majors.  
*Prerequisite(s):* SOWK 1000, SOWK 3201

**SOWK 3220**  
**Human Diversity & Social Work Practice**  
3 Credits (3-0-3)  
This course offers a critical analysis and understanding of social work practice with client populations from diverse backgrounds (i.e., social class, culture, geography, disability, gender, age, sexual orientation, among others). Course content emphasizes the use of self-awareness as a tool used to enhance cultural competency skills for generalist practice. Restricted to social work majors.  
*Prerequisite(s):* SOWK 1000, SOWK 2205 and admission to major

**SOWK 3305**  
**Introduction to Social Work Practice**  
3 Credits (3-0-3)  
This course, the first of four methods courses in the practice sequence, introduces students to the professional practice of social work. Course content includes the history of the development of social work as a profession including social upheavals and the influence of social movements on service delivery. This course provides a survey of different approaches to the delivery of social services especially from a medical to a participatory empowerment model. The problem-solving method, various field settings in which social work is practiced and interviewing as a skill are introduced. Students are expected to complete volunteer service in an approved human service agency. Restricted to social work majors.  
*Prerequisite(s):* SOWK 1000, SOWK 2200.

**SOWK 3340**  
**Interventive Methods I**  
3 Credits (3-0-3)  
This second course in the practice sequence is designed to assist students in developing interpersonal skills clients at the micro and mezzo levels of generalist practice. Students develop personal skills and enhance their self-awareness using various methods of interventions applied via case studies, role plays, logs and other forms of demonstrations. Restricted to social work majors.  
*Prerequisite(s):* SOWK 3201, SOWK 3305
SOWK 3341  Interventive Methods II  3 Credits  (3-0-3)
This third course in the practice sequence is taken in conjunction with the first field practicum sequence course SOWK 4701. The course focuses on practice approaches, problem solving, and intervention modalities using the systems perspective at the mezzo level of generalist practice. Restricted to social work majors.
Prerequisite(s): SOWK 3340
Corequisite(s): SOWK 4701, SOWK 4901

SOWK 3342  Interventive Methods III  3 Credits  (3-0-3)
The final course in the practice sequence emphasizes macro level interventions with large entities such as institutions, organizations, communities, and neighborhoods, rural and urban, nationally and internationally. Utilizing multiple roles of the generalist worker and integrating knowledge from social policy, students learn to be data gatherers, analysts, consultants, mobilizers, advocates, activists, leaders, and promoters of social justice as they implement corrective methods to system dysfunctions and attendant problems on people’s lives. Methods III is taken in conjunction with the final field practicum course SOWK 4702. Restricted to social work major.
Prerequisite(s): SOWK 1000, SOWK 3202, SOWK 3341
Corequisite(s): SOWK 4702, SOWK 4902

SOWK 4100  Research Methods I  3 Credits  (3-0-3)
This is the first of a two course research series. This course is based on the premise that the social work practice and social work research are inextricably related. It assumes that social work, as a helping profession needs to understand and apply scientific thought and procedures to defining and redefining social problems that are constantly changing. It is essential that social work professionals apply objectivity and scientifically developed research techniques to social work intervention, may it be at a micro, mezzo, or macro levels. This course is intended to enable the students to select a researchable problem and relating it to theoretical framework. Research is intertwined with other courses that are taught in the BSW curriculum. This course also emphasizes research process, i.e.; conducting a thorough literature review, conceptualizing and operationalizing variables, formulating hypothesis, developing tool/s of data collection, selecting techniques of data collection, conducting an analysis and preparing a research report that could/should enhance social work practice. Ethical use of social research to enhance social delivery systems is also emphasized.
Prerequisite(s): SOWK 2205, SOWK 3202, SOWK 3340

SOWK 4101  Research Methods II  3 Credits  (3-0-3)
This course is the second in a two-course sequence that is designed to provide foundation knowledge of research methods used in social work. Emphasis is placed on the development of analytical writing skills and evaluation of various stages of the research process used for developing of analytical writing skills and evaluation of various stages of the research process used for developing a scientific study, including problem formulation, research questions and hypotheses, variable measurement, design, sampling, and data collection. Student competence is strengthened through building knowledge and skills in data analysis, with an emphasis on understanding the purpose of various statistical techniques and developing the capacity to interpret and identify implications of statistical results. In this course, attention to various approaches to dissemination of research findings in order to better inform social work practice. Students will be required to present their research project at the SSU Annual Research Symposium (April).
Prerequisite(s): SOWK 2205, SOWK 3202, SOWK 3340, SOWK 4100

SOWK 4106  Social Work with Families & Children  3 Credits  (3-0-3)
A course designed to give social work majors comprehensive exposure and a historical perspective to the concept of family and child welfare (FCW) as a societal concern and as an area of practice in social work. The course analyzes social policies and service delivery relevant for families and children. This is the first of two courses required for BSW Title IV-E Child Welfare recipients. This is an elective course for non IV-E social work students and other interested majors.
Prerequisite(s): Junior standing or consent of instructor
SOWK 4201  Gerontological Social Work  3 Credits  (3-0-3)
This course offers an overview of social work theory and practice on aging and older adult populations. Emphasis is placed on the biopsychosocial, cultural, spiritual, economic, and health needs of older adults with particular attention to policies, programs, and intervention strategies of intervention that meet the needs of the older adult population. Elective course open to all majors at junior level and above.
Prerequisite(s): Junior standing or consent of instructor

SOWK 4301  Substance Abuse Intervention Strategies  3 Credits  (3-0-3)
A survey of issues, personality factors, physiological and psychological effects, and treatment processes associated with substance abuse. Emphasis is on the specific effects of different drug classifications; understanding drug cultures; women, children, older adults, and ethnicity.

SOWK 4410  Implementation of Social Welfare Policies  3 Credits  (3-0-3)
The second course in the policy sequence provides students with critical analytical and assessment skills essential to understanding the purpose and function of social policy. Students are required to analyze several policies. Restricted to social work major.
Prerequisite(s): SOWK 3201, SOWK 3202, SOWK 3340

SOWK 4510  Crisis Intervention and Brief Theory  3 Credits  (3-0-3)
An examination of the theories and techniques of short-term intervention and subsequent referral procedures. Topics include suicide, battering, HIV/AIDS, rape, death, dying, and communities experiencing disasters such as hurricanes, flood, and air crashes. Elective course open to all interested majors.
Prerequisites: SOWK 2205, SOWK 3201, SOWK 3305

SOWK 4520  Spirituality and Human Services  3 Credits  (3-0-3)
The purpose of this course is to provide Social Workers and Human Service Professionals with practical theory and research-based methods for spiritually oriented service delivery with individual, couples, families, groups, institutions, and local and global communities and ecosystems. Social service agencies provide individuals, families and communities with the resources and tools to achieve their highest fulfillment. Traditionally, social work has applied holistic approaches when serving people; applying interventions that incorporate the biological, psychological, sociological, and spiritual aspects. The latest Council on Social Work Education Curriculum Policy Statement supports the inclusion of content on religious and spiritual diversity. This course provides an overview of spiritual aspects of social work practice with individuals, families and small groups.

SOWK 4610  International Issues in Social Work  3 Credits  (3-0-3)
This course introduces students to concepts and practice issues regarding social welfare in a global context. Students review and apply conceptual frameworks, such as those based on human rights, social development, and sustainable development, to a range of global problems such as poverty, health, status of women and children, etc. Students use these frameworks, and an ecological and systems perspective to compare the dimensions of, and interventions used in response to, social problems in the United States and other countries, with special attention to vulnerable populations such as the elderly, refugees, handicapped, etc.

SOWK 4701  Field Experience I  3 Credits  (3-0-3)
The first of a two-part semester sequence Senior Social Work field practicum where majors are assigned to social service agencies to observe and engage in generalist social work practice. Under structured supervision with a professional social worker, students are provided opportunities to apply social work knowledge, values, and skills acquired in the classroom to social service delivery systems. Student interns must complete 15-20 hours per week for a total of 200 clock hours. Restricted to social work majors. Prerequisite(s): SOWK 2200, SOWK 2205, SOWK 3340, SOWK 3202 and Senior standing
Corequisite(s): SOWK 4901

SOWK 4702  Field Experience II  3 Credits  (3-0-3)
The first of a two-part semester sequence Senior Social Work field practicum where majors are assigned to social service agencies to observe and engage in generalist social work practice. Under structured supervision with a
professional social worker, students are provided opportunities to apply social work knowledge, values, and skills acquired in the classroom to social service delivery systems. Student interns must complete 15-20 hours per week for a total of 200 clock hours. Restricted to social work majors. Prerequisite(s): SOWK 2200, SOWK 2205, SOWK 3340, SOWK 3202, SOWK 4701, SOWK 4901,
Co-requisites: SOWK 4902

SOWK 4901 Senior Seminar I 3 Credits (3-0-3)
Part one of a two-semester capstone course for the BSW major. This course is designed as an integrative reflective experience for students as they approach the end of their BSW studies. Students will utilize value dimension of social work as the central theme to guided discussions, group exercises, and written assignments designed to facilitate and insure the integration of social work methods, knowledge, and skills for effective generalist practice. Students prepare for final senior exit requirement as determined by the department. Restricted to social work majors enrolled in SOWK 4701.
Prerequisite(s): Senior Standing

SOWK 4902 Senior Seminar II 3 Credits (3-0-3)
Part two of the sequence capstone course for the BSW major. Students complete final senior exit requirement began in SOWK 4901. Students are required to present a major paper, which they will orally defend, integrating a generalist understanding of social work. This requires the student to reflect on their background and culture, as well as the total BSW experience including social work core courses, electives, volunteer experiences, field internship, class discussions, professional meetings attended, and other interactions. Restricted to social work majors enrolled in SOWK 4702.
Prerequisite(s): SOWK 4901

SOWK 5501 Law, Race and Poverty in the Welfare of Children 3 Credits (3-0-3)
This course is required for BSW senior social work majors and MSW 1st year students who are Title IV-E Child Welfare recipients. The course focuses on differential application of law on child welfare issues and the interventions of human service workers. Emphasis is on child abuse and neglect, separation and loss, foster care, kinship care, the courts and legal issues related to decision-making.
Prerequisites: Senior status or instructor permission.

SOWK 6000 Special Topics 3 Credits (3-0-3)
Special topics course will allow for different courses to be offered based on various topics chosen by faculty members or resulting from student requests. This will allow for current issues to be addressed as well as courses by visiting and adjunct faculty. The course will be taught as a regular course with several students attending the same classes and laboratories (if offered). If a special topic is offered more than once per two-year period, it will be submitted for formal approval through regular university procedures. A course outline and syllabus will be submitted to and approved by the department chair prior to scheduling of course.
Prerequisite: Consent of instructor

SOWK 6100 Independent Study 3 Credits (3-0-3)
Independent Study, on-line and print-based, is designed to offer the individual student an opportunity to explore subjects outside of the traditional classroom setting. The specific course requirements will be formulated by the student under the direction of a selected instructor who possess expertise in the subject matter. A grade point average of 3.00 is required. Exceptions to the 3.00 average may be made for students under extenuating circumstances. An independent study form must be signed by the instructor of record and the department chairperson to a student's enrollment in the course.

Speech

SPEH 2101 Voice and Diction 3 Credits (3-0-3)
Study and practice in effective voice production, with emphasis upon breath control, posture, articulation and pronunciation. Fall.
SPEH 2111  Oral Interpretation  3 Credits  (3-0-3)
Intensive study and practice in the oral interpretation of poetry, prose, and drama. Individual activity primarily emphasized. Fall.

SPEH 4101  Advanced Speech  3 Credits  (3-0-3)
A course emphasizing self-improvement in all phases of diction and delivery and providing experience in various speaking situations.
Prerequisite(s): HUMN 1201 or permission of instructor

Theatre

THEA 2101  Introduction to Theatre  3 Credits  (3-0-3)
Focus on the components of theatre, its past and present history, its major shapers and movers, and how to develop an appreciation of the theatre experience. For non-theatre minors. Fall and Spring.

THEA 2525  Theatre Improvisation  3 Credits  (3-0-3)
This course will help the student prepare for critical thinking while creating a scene. The class will also increase confidence in the public-speaking abilities of the students.
Prerequisite(s): HUMN 1201

THEA 2601  Stagecraft  3 Credits  (3-0-3)
A course on backstage equipment, how to use it to maximum effort with safety, speech, and efficiency, THEA 2601 will focus on the practical aspects of lighting and production. Students will work with a variety of equipment available to meet the lighting demands of a production.

THEA 3004  Scene Design  3 Credits  (3-0-3)
An exploration and investigation of scenic design. The course will explore and analyze modern scenic elements used in the various play genres. The art and skills required in designing scenery are explored in detail. This includes the developing models, plans, and color schemes for student productions.

THEA 3101  Acting I  3 Credits  (3-0-3)
Designed to teach performers the basic fundamentals and techniques of acting. Students learn to control the body’s creative energy by participating in exercises as solo acting, duo acting and basic audition.

THEA 3122  Movement I  3 Credits  (3-0-3)
An introduction course to stage movement and kinetic practice and intentions.

THEA 3123  Movement II  3 Credits  (3-0-3)
A continuation of Movement I, Movement II covers the basic principles for developing fitness and examines the means by which one becomes an actress through improvisation, scene study and improvising play.
Prerequisite(s): THEA 3122

THEA 3125  Stage Make Up & Costumes  3 Credits  (3-0-3)
A systematic study of form, line, balance, tone, shade, value and pattern with reference to the human form and its costume. The basic principles and practice in make-up, stage, screen, and television are used. Students will practice in using cosmetics, wigs, hairpieces, and facial prosthetics and masks.

THEA 4051  Black American Theatre & Performance  3 Credits  (3-0-3)
Will cover significant development in the American Black Theatre since 1900 as reflected through the major playwrights and theatre organizations.

THEA 4055  Theatre History I  3 Credits  (3-0-3)
Covers theatre history, dramatic literature and theory from Italian to the Pre-Aldern era. The physical theatre and culture of the period will be studied as they affect the theatre of each period.
THEA 4056  Theatre History II  3 Credits (3-0-3)
Covers theatre history, dramatic literature, and theory from the English Restoration to the present. The physical theatre and culture of each period will be studied culminating into an understanding of the beginnings of theatrical criticism to include a worldly view of theatre.

THEA 4058  Women in Theatre  3 Credits (3-0-3)
Through selected readings, this course will focus on the evolution of the female character from classical to contemporary theatre. The course will also follow the progress of the female playwright in theatre.
Prerequisite(s): ENGL 1102

THEA 4101  Acting II  3 Credits (3-0-3)
A laboratory class providing practical experiences within the area of acting as demonstrated in Acting I. Students enrolled in this class are required to complete one modern scene study assignment for production and one complete audition that entails two contrasting monologues. This course works toward a culminating activity, which is a one-act modern play to be performed for jury.
Prerequisite(s): THEA 3101

THEA 4103  Advanced Acting/TV/Cinema  3 Credits (3-0-3)
Offers advanced work in special problems of applying acting techniques to the demands of modern media. Practicum experience is designed for television and cinema. The course leads the actor/student to a finished mini-production of either a television or film project.

THEA 4104  Acting III  3 Credits (3-0-3)
Studies the problems and techniques in periods and styles through intensive scene study and performance of Greek, Shakespearean and Romantic works.
Prerequisite(s): THEA 4101, THEA 4103

THEA 4105  Playwriting  3 Credits (3-0-3)
A laboratory course that explores dramatic writing including study and practice in writing for the modern stage. This course will be conducted upon the principles of critical readings, script analysis, and dramatic genres.

THEA 4111  Performance/Production/Management  3 Credits (3-0-3)
Permits the student to learn through theatre production, marketing strategies, front of house duties, fundraising and proposal writing, and the roles and responsibilities of a producer.

THEA 4201  Auditioning and Directing  2 Credits (2-0-2)
Explores elementary principles of stage plays, practice work in directing and auditioning, and one-act plays; attention is given to the principles of selecting, casting, and rehearsing of plays through exercises, lectures, and demonstrations.
Prerequisite(s): completion of 18 credits hours in Concentration area

THEA 4645  Musical Theatre  3 Credits (3-0-3)
This course explores the origins of the musical theatre in the United States and the African American contribution to the American musical. Students will learn about the different forms of musical theatre and will apply their learning through performance and production.
Faculty by Department

**Accounting, CIS & GLIB**

*Borges, Luis (Assistant Professor)*

- BS Federal University of Bahia, Civil Engineering, 1969
- MS Federal University of Rio Grande do Sul, Production Engineering, 1992
- PhD Marquette University, Industrial Engineering, 1997

*Butler-Lamar, Shetia C. (Assistant Professor)*

- BBA Savannah State University, Business Computer Information System, 2002
- MBA Savannah State University, Masters of Business Administration, 2008
- DBA University of Liverpool, 2019

*Farhangi, Hadi (Assistant Professor)*

- BS Iran University of Science and Technology, Industrial Technology, 2007
- MS Sharif University of Technology, 2010
- PhD Missouri University of Science and Technology, Systems Engineering, 2017

*Jahmani, Yousef F. (Professor & Department Chair)*

- BComm Beirut Arab University, Economics and Politics, 1970
- Master of Social Science University of Birmingham, Accounting and Development Finance, 1988
- PhD The University of Birmingham, Accounting and Finance, 1991

*Lucas, Bradley. (Lecturer in Accounting)*

- BA Claremont McKenna College, History and Economics, 1976
- BA St. Leo College, Accounting, 1981
- MBA Central Michigan University, 1983
- Certified Public Accountant (CPA) licensed to practice in Georgia

*Mudrinich, Andrew K. (Assistant Professor)*

- BS Pennsylvania State University, Accounting, 1984
- MTax University of Akron, Taxiation, 1994
- JD The University of Akron, Law, 1996

*Park, Yonpae (Professor)*

- BA Yonsei University, Economics, 1987
- MBA Seoul National University, Business Administration, 1989
- MPAcc Georgia State University, Accountancy, 1995
- PhD University of Nebraska-Lincoln, Business with a specialization in Accountancy, 2002

*Qin, Zhaoqiong (Assistant Professor)*
Simmonds, David (Assistant Professor)
BS University of the West Indies, Electronics, 1992
MS University of the West Indies, Management Information Systems, 2000
PhD Old Dominion University, 2016

Biology

Adeniyi, Moses O. (Instructor)
BS University of Ilorin, Microbiology, 1989
MS University of Ilorin, Microbiology, 2000

Johnson, Johnny A. (Assistant Professor)
BS Savannah State University, Biology, 2001
PhD Stony Brook University, Biophysics, 2007

Methven, Andrew S. (Associate Professor)
BS University of California, Davis, Botany, 1980
MA San Francisco State University, Ecology and Systematic Biology, 1983
PhD University of Tennessee, Knoxville, Botany, 1987

Moore, Andrea L. (Associate Professor)
BS Savannah State University, Environmental Science, 2001
MS Andrews University, Mathematics & Physical Science, 2006
PhD Oklahoma State University, Environmental Science, 2013

Neloms, Brandon (Instructor)
BS Alabama A & M University, Biology, 2007
MS Alabama A & M University, Biology, 2008

Nitta, Takayuki (Associate Professor)
BS University of Tsukuba, Biological Sciences, 2001
MS University of Tsukuba, Medical Science, 2003
PhD University of Tsukuba, Biomolecular and Integrated Medical Sciences, 2007

Purnell, Elissa T. (Professor)
BS Savannah State College, Biology, 1990
MS West Georgia College, Biology, 1992
PhD Medical University of South Carolina, Molecular and Cellular Biology and Pathobiology, 2001

Shakespeare, Teresa (Associate Professor)
BS Savannah State University, Biology, 2001
PhD State University of New York at Stony Brook, Physiology and Biophysics, 2008

Thompson, Marilyn (Instructor)
BS Savannah State University, Biology, 1980
MS Alabama A & M University, Biology, 1984
MS Georgia Southern University, Biology Education, 1996

Zhang, Xiaorong S. (Professor)
BS Beijing Normal University, Biology, 1983
MS Institute of Botany, Chinese Academy of Sciences, Plant Physiology, 1986
PhD Virginia Tech, Crop and Soil Environmental Sciences, 1993

Business

Brown III, Ulysses J. (Professor)
BGS Valdosta State University, General Studies, 1995
MS Valdosta State University, Psychology, 1998
PhD Jackson State University, Business Administration/Management, 2003

Cake, Dale (Assistant Professor)
BS Penn State University, Quantitative Business Analysis, 1975
MBA Temple University, Marketing, 1982
MS Temple University, Marketing, 2011
DBA Jacksonville University, Marketing, 2018

Cannonier, Nicole N. (Assistant Professor)
BS University of Louisiana, Business Management, 2007
MPA Louisiana State University, Public Administration, 2010
PhD Louisiana State University, Human Resource & Leadership Development, 2014

Korovyakovskaya, Inessa Y. (Associate Professor)
BS Alcorn State University, General Studies, 2002
MBA Alcorn State University, Business Administration, 2004
PhD Jackson State University, Management, 2014

Lundy, Baruch (Assistant Professor)
BA Dillard University, Accounting, 2003
MS Alabama State University, Accounting, 2004
PhD Jackson State University, Business Administration, 2015

Mullgrav, Shalonda K. (Associate Professor)
BBA Savannah State University, Marketing, 1994
OUANDLOUS, ARAV (Professor)

MS Troy State University, Human Resource Management, 2001
DBA Kennesaw State University, Marketing, 2014

BS University of Algiers, Quantitative Economics, 1979
MBA The American University, International Business & Finance, 1981
MA The American University, Applied Economics, 1985
MA Catholic University of America, Economics, 1995
PhD Catholic University of America, Economics, 1995

MS The University of Iowa, Mathematics, 2004

MS Chungnam National University, Pure Mathematics, 1997

PhD The University of Iowa, Applied Mathematical and Computational Sciences, 2008

Lemma, Mulatu (Professor and Chair)

BS Addis Ababa University, Mathematics Education, 1978

MA Kent State University, Pure Mathematics, 1993

MS Addis Ababa University, Applied Mathematics, 1982

PhD Kent State University, Mathematics, 1994

Lin, Shinemin W. (Professor)

BS National Taiwan Normal University, Mathematics, 1973

MS Pittsburg State University, Mathematics, 1982

PhD University of Kansas, Mathematics, 1991

Muche, Tilahun A. (Associate Professor)
MA University of South Florida, Math, 2007
PhD University of South Florida, Mathematics, 2012

Oh, Hyounkyun (Professor)
  BS Chungnam National University, Mathematics, 1995
  MS University of Iowa, Mechanical Engineering, 2004
  MS University of Iowa, Applied Mathematics, 2003
  MS Chungnam National University, Applied Mathematics, 1997
  PhD University of Iowa, Applied Mathematics and Computational Sciences, 2005

Ramirez Valdez, Diego (Assistant Professor)
  MS University of Louisiana at Lafayette, Mathematics, 2008
  PhD University of Louisiana at Lafayette, Mathematics, 2012

Tanksley, LaTriec Y. (Assistant Professor)
  BS Savannah State University, Mathematics, 2000
  MS Georgia Southern University, Mathematics, 2009

Tekalign, Wondimu (Assistant Professor)
  PhD University at Buffalo - The State University of New York, Mathematics, 2005

Tessema, George (Associate Professor)
  MS Florida State University, Mathematics Education, 1971
  PhD The University at Albany: State University of New York, Educational Psychology, 1991

Military Science

Montgomery, Brian (Professor)
  BS United States Military Academy (West Point), Economics, 2004
  MA New York University, Industrial/Organizational Psychology, 2013

Walker, Abby (Assistant Professor)
  BS University of Nebraska- Lincoln, Diversified Agriculture, 2005

West, Larry (Assistant Professor)
  BA Jacksonville State University, History, 2007
  MA Webster University, International Relations, 2017

Vazquez, Emilio (Instructor)
  BS Phoenix University, Education, 2009
  Sergeant Major Academy, Military History, 2016

Naval Science

Bird, James (Associate Professor)
BEng S.U.N.Y. Maritime College, Electrical Engineering Deck, 1999
MA Naval War College, 2012

**Carbone, Joseph (Lecturer)**
BA United States Naval Academy, Mechanical Engineering, 2015

**Estabrook, Kris E. (Assistant Professor)**
BS United States Naval Academy, Ocean Engineering, 2011

**Falgout, Chad M. (Professor)**
BS Louisiana State University and A&M College, Math, 1996
MBA Naval Postgraduate School, Executive Master of Business Administration, 2004

**Hillman, Ryan (Lecturer)**
BA History, 2010

**Madden, Eric W. (Lecturer)**
BS United States Naval Academy, Economics, 2014

**Sweeney, Andrew (Lecturer)**
BA College of the Holy Cross, Physics, 2013

**Political Science & Public Affairs**

**Bongang, Benn L. (Professor)**
MA University of South Carolina, International Studies, 1997
MS Boston University, Journalism, 1993
PhD University of South Carolina, International Studies, 2005

**Bowden, Geoffrey C. (Assistant Professor)**
BA The University of Tennessee, Knoxville, Religious Studies, 1992
MA University of Notre Dame, Social Sciences, 2000
MDiv The Southern Baptist Theological Seminary, 1995
PhD University of Notre Dame, Social Science, 2003

**Iancu, Otilia (Associate Professor and Interim Chair)**
MPA University of Kansas, Public Administration, 1999
PhD University of Arkansas, Public Policy, 2010

**Kalantari, Behrooz (Professor)**
BA Avila University, Public Management, 1981
BA Tehran Business College, Business, 1973
MPA Southern Illinois University, Public Affairs, 1983
PhD Southern Illinois University, Political Science, 1992
Mallard, Bruce B. (Assistant Professor)

BA George Peabody College, Political Science, 1969
MPA Middle Tennessee State University, Public Administration, 1972
PhD The University of Tennessee, Political Science, 1979

Naniuzeyi, Emmanuel (Professor)

MA, Ohio University, International Affairs, 1982
PhD Atlanta University, Political Science, 1987

Nojang, Emmanuel (Assistant Professor)

MBA University of Mary, Management, 2007
PhD North Dakota State University, Emergency Management, 2015

Omunga, Philip (Assistant Professor)

BA University of Nairobi, 1997
MA University of Nairobi, Valuation and Property Management, 2001
PhD Kansas State University, College of Architecture, Environmental Design & Planning, 2015

College of Education

Creekmur, Chaundra (Assistant Professor)

BS Valdosta State University, Biology, 2006
EDD Liberty University, Curriculum and Instruction, 2016
EdS Liberty University, Curriculum and Instruction, 2012
MA Augusta University, MAT, 2010

Cunningham, Kisha R. (Associate Professor & Interim Chair)

BS North Carolina A&T State University, Technology Education, 1995
MS North Carolina A&T State University, Technology Education, 1996
PhD The Pennsylvania State University, Workforce Education, 2005

Thompson, Cora (Associate Professor & Interim Dean)

BS Savannah State University, Elementary Education, 1980
EDD Nova Southeastern University, Education, 2007
MEd Troy State University, 2003

White, Patrice (Instructor)

BS Valdosta State University, Early Childhood Education, 1980
M.Ed. Educational Leadership, Troy State University, 2003
Social Work

Anderson, Adrian D. (Associate Professor)

BS Northwestern State University, Psychology, 1995
MSW Southern University, Social Work, 1999
PhD Tulane University, Social Work, 2007

Attipoe, Hope (Assistant Professor)

MSW University of Georgia, 2008
M.Ed University of Georgia, 2012
PhD University of Georgia, Adult Education, 2016

Byrd, Autry (Field Coordinator)

BSW Savannah State University, Social Work 2006
MSW–Clark Atlanta University, Social Work, 2007
PhD-Capella University-Education, 2016

Deloach, Roenia J. (Associate Professor)

BSW Jackson State University, Social Work, 1988
MSW Ohio State University, Social Work, 1989
PhD The Ohio State University, Social Work, 2002

Gayle, Catherine (Associate Professor and Chair)

BS Tuskegee Institute, Social Work, 1984
