

# SSU eLearning eCore Advisement

**What is eCore?**

eCore is a statewide collaborative program which enables students to earn most of the core curriculum offered by various state institutions while remaining enrolled in their home college or university. All work is submitted online (with the exception of CHEM labs). Each course has a proctored mid-term and/or final. Most proctored exams are also delivered online at a testing center.

**How can I tell if a course is an eCore Course?**

eCore courses are noted with a "G" next to the section number and are also listed under their own separate eCore course listing in the online schedule of classes (Labs are denoted with "K").

**Dates:** eCore does NOT necessarily follow the same SSU Academic Calendar. The start dates, end date, drop/add, and withdrawal deadlines may all be different. Please visit the [eCore Academic Calendar](#).

**Fees:** eCore courses cost \$169 per credit hour plus additional SSU fees.

**Registration:** Before registering students must successfully complete the [eCore Online Orientation and Quiz](#).

- Students who have previously completed an eCore class with a "C" or better are exempt from the orientation requirement.

Students will register for eCore classes through [PAWS](#).
