The University Police maintains a cooperative relationship with the State Police, Local Police, and surrounding police agencies. This includes interoperable radio capability and a joint police records computer system, training programs, special events coordination, and investigation of serious incidents.

Savannah State University Police participates in an Intermunicipal Mutual Aid Agreement that authorizes police officers and supervisors of the participating agencies to request mutual aid for incidents based upon a reasonable belief that such aid will enhance the public’s and/or officer safety and efficiency. The agencies participating in the Agreement include Savannah Police Department, Chatham County Police Department and Chatham County Sheriff’s Office. The agreement also allows for joint training and cooperation on other matters, such as pre-planned large-scale special events, amongst the participating agencies.

Crimes Involving Student Organizations at Off-Campus Locations

Savannah State University does not have any recognized student organizations off campus. The University relies on its close working relationships with local law enforcement agencies to receive information about incidents involving Savannah State University students on and off campus. However, some Savannah State University students reside in private housing in neighborhoods near to the Savannah campus. The Savannah Police Department, Chatham County Police Department and Chatham County Sheriff’s Office have primary jurisdiction in all off campus areas. In coordination with local law enforcement agencies, the Savannah State University Police Department will actively investigate certain crimes occurring within 500 yards of campus property. If Public Safety personnel learns of criminal activity involving students it will coordinate with the appropriate external law enforcement agency to forward information about the situation to the Office of Student Conduct, as appropriate.
ANNUAL SECURITY REPORT

It’s Up to Each of Us
Savannah State University takes great pride in the community and offers students, facility and staff many advantages. This community is a great place to live, learn, work and study, however, this does not mean that the campus community is immune from all of the other unfortunate circumstances that arise in other communities. With that in mind, Savannah State University has taken progressive measures to create and maintain a reasonably safe environment on campus. Though the University is progressive with its policies, programs, and education, it is up to each one of us to live with a sense of awareness and use reasonable judgment when living, working or visiting on campus.

CLERY ACT
The federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) requires colleges and universities, both public and private, participating in federal student aid programs to disclose campus safety information, and imposes certain basic requirements for handling incidents of sexual violence and emergency situations. Disclosures about crime statistics and summaries of security policies are made once a year in an Annual Security Report (ASR), and information about specific crimes and emergencies is made publicly available on an ongoing basis throughout the year. Notices may be communicated via: broadcast e-mail and/or text message to the campus community, posting of written alerts throughout the campus, and Outdoor Emergency Broadcast System. Notices will include appropriate safety recommendations, physical description of suspect, any connection to previous incidents, date and time the notice was released, and other relevant information. Anyone with information that warrants community notice, should call 912-358-3004.

PREPARATION OF THE ANNUAL SECURITY REPORT AND DISCLOSURE OF CRIME STATISTICS
Savannah State University Police Department prepares this report to comply with the Jeanne Clery Disclosure of Campus Security and Crime Statistics Act using information maintained by the University Police Department, information provided by other University offices, such as: Student Affairs, Residence Life, and other Campus Security Authorities, along with information provided by local law enforcement agencies surrounding the main campus. Each of these offices provides updated policy information and crime data. This report provides statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned, leased or controlled by Savannah State University. This report also includes institutional policies concerning campus security, such as policies regarding sexual assault, alcohol and other drugs.
Savannah State University distributes a notice of the availability of this Annual Security and Fire Safety Report by October 1 of each year to every member of the University community. Anyone, including prospective students and employees, may obtain a paper copy of this report by contacting the University Police at (912) 358-3004 or by visiting http://www.savannahstate.edu/faculty-staff/public-safety/index.shtml

**REPORTING CRIMES AND OTHER EMERGENCIES**

Savannah State University has a number of ways for campus community members and visitors to report crimes, serious incidents, and other emergencies to appropriate University officials. Regardless of how and where you decide to report these incidents, it is critical for the safety of the entire University community that you immediately report all incidents to the Savannah State University Police at (912) 358-3004. This is to ensure an effective investigation and appropriate follow-up actions, including issuing a Crime Alert or emergency notification.

**Voluntary, Confidential Reporting**

If crimes are never reported, little can be done to help other members of the community from also being victims. The Savannah State University community is encouraged to report crimes promptly and to participate in and support crime prevention efforts. The University community will be much safer when all community members participate in safety and security initiatives.

The Savannah State University Police Department encourages anyone who is the victim or witness to any crime to promptly report the incident to the Savannah State University Police at (912) 358-3004. All police reports are public records under state law, therefore the Savannah State University Police Department cannot hold reports of crime in confidence. As a result, the Savannah State University Police Department does not have a procedure to allow voluntary confidential reporting of crimes. All complaints are addressed through the official investigative process.

Individuals who wish to report crime confidentially and even anonymously can do so by contacting the Savannah area Crime Stoppers at (912) 234-2020. Information, withholding contact information, submitted to Crime Stoppers may be shared with University Police in an effort to combat crime and provide a safe learning environment.

**Reporting to University Police**

Savannah State University encourages all members of the University community to report all crimes and other emergencies to the Savannah State University Police in a timely manner. University Police have a dispatch center that is available by phone at (912) 358-3004 or in person twenty-four hours a day at Hubert Tech Science-Building C-Rooms 309/305. Though there are many resources available, University Police should be notified of any crime, whether or not an investigation continues, to assure the University can assess any and all security concerns and inform the community if there is a significant threat to the University community.
**Emergency Phones**

Savannah State University has installed 12 emergency phones throughout the University campus. Phones are located in public areas of buildings including parking lots, athletic fields, residence hall complexes, administration buildings, and also numerous outdoor locations. Each emergency phone can be identified by the bright blue coloring and the labeling “Emergency Call Box” on the side of each. Emergency phones provide direct voice communications to the Savannah State University Police Dispatch Center. Please visit [http://www.savannahstate.edu/faculty-staff/public-safety/communications-div.shtml](http://www.savannahstate.edu/faculty-staff/public-safety/communications-div.shtml) for further information on Emergency Phones and other public safety attributes on campus.

**Reporting to Other Campus Security Authorities**

While Savannah State University prefers that community members promptly report all crimes and other emergencies directly to the University Police at (912) 358-3004 or 911, we also recognize that some may prefer to report to other individuals or University offices. The Clery Act recognizes certain University officials and offices as “Campus Security Authorities (CSA).” The Act defines these individuals as “official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings”. These individuals have the authority and the duty to take action or respond to particular issues on behalf of the institution.

While the University has identified several hundred CSAs, we officially designate the following offices as places where campus community members should report crimes:

Pastoral and Professional Counselors
According the Clery Act, pastoral and professional counselors who are appropriately credentialed and hired by Savannah State University to serve in a counseling role are not considered Campus Security Authorities when they are acting in the counseling role. As a matter of policy, the University encourages pastoral and professional counselors to notify those whom they are counseling of the voluntary, confidential reporting options available to them.
Emergency Call Boxes are located throughout the campus. They are directly linked to the Communications Department.

EMERGENCY NOTIFICATION TO THE SAVANNAH STATE COMMUNITY

SSU Department of Public Safety receives and monitors information from various offices, departments on campus, officers and citizens of the community about situations that may pose a threat to the safety of the university community. In return, this information is disseminated in order to notify the campus.

Methods of Notification:

Computer Services
In case of an emergency, messages are sent to the email of every employee and students.

WHCJ Radio
Broadcasts made on air @ 90.3 FM

Police Vehicle Public Address Speakers
SSUPD patrol vehicles have been equipped with loud speaker systems that can be used in localized emergencies to broadcast the location- or event-specific information. This system is tested daily as a part of the officer’s pre-trip inspection.

Bulletin Boards
Bulletin boards are placed throughout campus and in SSU Offices and display information of interest to employees. They are intended for official information.

Outdoor Emergency Broadcast Speaker System
This system allows Savannah State University Police Department to notify the Savannah State community of a sudden emergency or incident that threatens health or safety while they are in transit throughout the campus. This system has a severe weather warning horn/siren and voice capability which can be activated remotely by Dispatchers in the Communications Department. Speakers are mounted throughout the campus to ensure maximum audibility.

Timely Warnings Reports – Crime Alerts
Savannah State University is committed to ensuring the campus community receives timely, accurate, and useful information in the event of a significant emergency or dangerous situation on campus or in the local area that poses an immediate threat to the health and safety of campus.
community members. The University uses the emergency notification system known as Everbridge–Tiger Alerts to issue warnings to the campus community. A university-wide annual test of the system is performed to ensure its effectiveness.

Everbridge–Tiger Alerts can be used to send emergency messages within minutes of the occurrence of an incident. Everbridge–Tiger Alerts is available to students, staff, and anyone in the University community who wants to subscribe. University community members are encouraged to enroll in Everbridge–Tiger Alerts during the registration period for each year.

**Crime Alerts**

In an effort to provide timely notice to the campus community in the event of a Clery Act crime that may pose a serious or ongoing threat to members of the community, the University Police issues “Crime Alerts.” The University Police will generally issue Crime Alerts for the following crimes: arson, aggravated assault, criminal homicide, robbery, burglary, sex assaults, and hate crimes. University Police will post these warnings through a variety of ways, including but not limited to posters, e-mails, and media. The University also has the ability, via Everbridge–Tiger Alerts, to send text message alerts to those who register their cell phone numbers. The text messaging can be a very effective way to send important information to the campus community.

The purpose of these Crime Alerts is to notify the campus community of the incident and to provide information that may enable community members to protect themselves from similar incidents.

Savannah State University will issue Crime Alerts whenever the following criteria are met: 1) a crime is committed; 2) the perpetrator has not been apprehended; and 3) there is a substantial risk to the physical safety of other members of the campus community because of this crime. Such crimes include, but are not limited to: 1) Clery Act crimes that are reported to any campus security authority or the local police; or 2) the University determines that the incident represents an ongoing threat to the campus community.

Additionally, the University Police may, in some circumstances, issue Crime Alerts when there is a pattern of crimes against persons or property. At Savannah State University, the Chief of Police will generally make the determination, in consultation with other University offices, if a Crime Alert is required. However, in emergency situations, any police supervisor may authorize a Crime Alert. For incidents involving off-campus crimes, the University may issue a Crime Alert if the crime occurred in a location used and frequented by the University population.

**Confirming the Existence of a Significant Emergency or Dangerous Situation and Initiating the Emergency Notification System**

The Savannah State University Police Department may become aware of a critical incident or other emergency situation that potentially affects the health and/or safety of the campus community. Generally, campus first responders become aware of these situations when they are reported to the Communications Division at the University Police Department or upon discovery during patrol or other assignments.
Once first responders confirm that there is, in fact, an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the campus community, first responders will notify supervisors in the University Police Department to issue an emergency notification.

The University’s authorized representatives will immediately initiate all or some portions of the University’s emergency notification system. If, in the professional judgment of first responders, issuing a notification potentially compromises efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency, the University may elect to delay issuing an emergency notification. As soon as the condition that may compromise efforts is no longer present, the University will issue the emergency notification to the campus community.

Determining the Appropriate Segment or Segments of the Campus Community to Receive an Emergency Notification

University and/or local first responders on the scene of a critical incident or dangerous situation will assist those preparing the emergency notification with determining what segment or segments of the University community should receive the notification. Generally, campus community members in the immediate area of the dangerous situation (i.e. the building, adjacent buildings, or surrounding area) will receive the emergency notification first. The University may issue subsequent notifications to a wider group of community members. In addition to the emergency notification that may be issued via the University mass notification system (Everbridge- Tiger Alerts), the University will also post applicable messages about the dangerous condition on the University homepage to ensure the rest of the campus is aware of the situation and the steps they should take to maintain personal and campus safety. If the emergency affects a significant portion of the entire campus, University officials will distribute the notification to the entire campus community.

Determining the Contents of the Emergency Notification

The office responsible for issuing the emergency notification (usually the Police Dispatchers) will, in concert with University and local first responders, determine the contents of the notification. The University has developed a wide range of template messages addressing several different emergency situations. The individual authorizing the alert will select the template message most appropriate to the on-going situation and modify it to address the specifics of the present incident. In cases where there are no pre-determined template messages in the system, the individual authorizing the alert will develop the most succinct message to convey the appropriate information to the community. The goal is to ensure individuals are aware of the situation and that they know the steps to take to safeguard their personal and community safety.
Procedures for Disseminating Emergency Information to the Greater Community

If an incident were to occur on Savannah State University's campus, the Chief Information Officer of the University is responsible for issuing a statement to the greater community. The Chief Information Officer may consult with the University Police Department prior to issuing a statement.

Missing Student Notification

The Clery Act requires institutions that maintain on campus housing facilities to establish a missing student notification policy and related procedures (20 USC 1092 (j) Section 488 of the Higher Education Opportunity Act of 2008).

When it is determined that a residential student is missing from the University, staff at Savannah State University, in collaboration with local law enforcement, will be guided by this Missing Student Notification Policy and related procedures.

Upon receiving a report that an individual cannot be located, the responding officer will gather an initial physical description of the individual, any leads as to the possible location (destination, mode of travel, routes, etc.), the identity and location where the person was last seen, names and phone numbers of relatives and friends, and any other information which may assist in locating the person. The responding officer will initiate an immediate investigation in an attempt to locate the missing person. This investigation will include at a minimum, all of the following actions to be taken immediately:

- Speak to the caller and complete the appropriate Investigative Report.
- Advise the caller to contact the police department in their jurisdiction.
- Call the police department where the Missing Person resides and advise of the situation.
- Check the surrounding area where the person was last seen
- Contact the CID
- Initial Investigation

Provisions

In accordance with general institutional emergency notification procedures, when a University student is thought to be missing from the campus, staff in the University administration should be immediately notified. Specifically, staff in the Office of Residence Life, Assistant Vice President for Student Affairs, Police, and the senior Student Affairs professional at a campus, should be contacted so that they can coordinate efforts to locate the student. The designated Assistant Vice President for Student Affairs at Savannah State University is to be notified immediately of all students thought to be missing. He/she has the authority and the responsibility for coordinating the efforts made by the University to assist the student and the student’s family.

The appropriate Student Affairs representative, or other individual learning that a student is missing, will file a formal missing student report with the University police or campus security
department, or, in the absence of an institutional police or campus security department, to the local law enforcement agency that has jurisdiction in the geographical areas around the specific campus location.

It will be made clear to all students annually, that each residential student of the University has the option to designate an individual to be contacted by Savannah State University administration no later than 24 hours after the time that Savannah State University determines the student is missing.

The University provides each student with the means and opportunity to register their confidential Missing Student contact information by logging into Blackboard and filling out the Address and Contact Information form. This information is only accessible to University employees who are authorized campus officials and this information will not be disclosed to others with the exception to law enforcement personnel in the furtherance of a missing student investigation;

In accordance with the Savannah State University’s Missing Student Policy, it should be noted that Savannah State University notifies each student who is under 18 years of age (and not an emancipated individual), that the University is required to contact the student’s parents or guardian in addition to the person identified as the missing student contact person. This contact will be made no later than 24 hours after the time that the student is determined to be missing;

In accordance with the University procedures, it should be noted that Savannah State University will inform each residential student that the University will notify the appropriate local law enforcement agency or campus police department, when a student has gone missing, unless the local law enforcement agency was the entity that made the determination that the student was missing. This notification will be made no later than 24 hours after the time that the student is determined missing, and;

If the campus law enforcement personnel or campus security department has been notified that a student has gone missing, and makes a determination that a student who is the subject of a missing person report has been missing for more than 24 hours, Savannah State University staff will initiate emergency contact procedures as outlined in the University’s policy and protocol.

Savannah State University’s missing student investigative procedures include following:

- Include communication procedures for official notification of appropriate individuals at Savannah State University that a student has been missing for more than 24 hours.

- Require an official Missing Person Report relating to a University residential student to be referred immediately to the University police department.

- If through investigation of an official report, the University police department determines a student has been missing for more than 24 hours, they will:
  - Notify the local police to share information.
Contact those individuals provided by the student, as their missing student contact person.

If a student is under 18 years of age, and not an emancipated individual, immediately contact the custodial parent(s) or legal guardian(s) of the student, in addition to the student's missing student contact person.

SECURITY OF and ACCESS TO UNIVERSITY FACILITIES

At the Savannah State University, administrative buildings are open from 7:00 a.m. until 6:00 p.m., Monday through Friday, and academic buildings generally are open from 7:00 a.m. until 9:00 p.m. Academic buildings are scheduled to be open on weekends only as needed. Access to individual classrooms and laboratories is limited to those enrolled in the courses meeting there. Other facilities such as the bookstore, library, and performance center are likewise available to those are part of the campus community. Likewise, access to most programs is limited to those enrolled in the program or otherwise authorized access.

Many cultural and athletic events held in the University facilities are open to the public however, individuals may be asked to show identification for security purposes. Only those who have demonstrated a need are issued keys to a building.

Special Considerations for Residence Hall Access

At the Savannah State University campus, all residence halls operate under key access, which the resident of a particular room or townhouse is issued a corresponding key. Public Safety Officers are responsible for checking and securing doors, when needed. When a door is malfunctioning, personnel are summoned for immediate repair. Remember to lock your doors and windows.

Only residents and their invited guests are permitted in the living areas of the residence halls. It is the resident’s responsibility to ensure that his/her guest are aware of the University and residence hall policies. Guests are not provided with room keys or door access cards. Guests of the opposite sex must be escorted by a resident of the building at all times. All exterior doors are locked 24 hours a day. It is the responsibility of residents and staff members to challenge or report individuals who cannot be identified as residents or the guests of residents. When University Police receive a report of an unescorted person in a residence hall, a police officer is dispatched to identify that person. University Police assigns the largest number of its officers between the hours of 10:30 p.m. until 4:00 a.m. Most of these officers spend much of their time patrolling in and around the residence hall complexes. During the summer when groups who are not regularly associated with Savannah State University are using the University residence halls, exterior doors are locked 24 hours a day. Residence Halls are staffed 24 hours per day. University Police personnel also conduct regular checks of residence hall areas.
Security Considerations for the Maintenance of Campus Facilities

Savannah State University is committed to campus safety and security. At the University, locks, landscaping and outdoor lighting are designed for safety and security. Sidewalks are designed to provide well-traveled, lighted routes from parking areas to buildings and from building to building. Sidewalks and building entrances are illuminated to provide well-traveled, lighted routes from parking areas to buildings and from building to building.

The Department of Physical Plant, in conjunction with representatives from the Police Department, conducts surveys of University property twice each year to evaluate campus lighting. We encourage community members to promptly report any security concern, including concerns about locking mechanism, lighting, or landscaping to the University Police.

CAMPUS SECURITY POLICIES, CRIME PREVENTION & SAFETY AWARENESS PROGRAMS

The Office of Student Conduct

The mission of the Office of Student Conduct is to promote a safe, orderly, and civil University community and to encourage and inspire students to become good citizens by engaging in personal responsibility, ethical decision making, and demonstrating respect for the rights and safety of others.

The Office of Student Conduct is responsible for administering the Code of Conduct for Students, which articulates the behavioral standards and the equitable procedures employed by the University to respond to allegations of student misconduct. The Code of Conduct for Students is administered at all University campuses on University property and may also address off campus student misconduct when a student’s behavior affects a Substantial University Interest.

Students who are found responsible for violations may be subject to sanctions ranging from Disciplinary Warning, Disciplinary Probation, up to Suspension or Expulsion from the University. Students residing in University housing may also lose the privilege of living on campus for violating University rules and regulations or conditions of the housing contract.
In most cases, the Office of Student Conduct will also assign developmental and educational interventions designed to promote greater awareness and improved decision-making for students and to further deter future misconduct.

In instances where there is reasonable cause to believe a student is an immediate threat to the safety of himself/herself or other persons or property or is an immediate threat to disrupt essential campus operations, the Office of Student Conduct may assign an Interim Suspension and/or other actions, designed to protect the health and safety of the community and members therein.

The Office of Student Conduct is also responsible for conducting pre-admission, pre-enrollment, and re-enrollment reviews for prospective students with known behavioral problems.

Any individual or entity may submit reports alleging student misconduct to the Office of Student Conduct or designee at the campus where the incident occurred.

The Office of Student Conduct also provides outreach programming designed to inform and educate students and to promote the Savannah State University principles. Please visit the Student Conduct homepage at http://www.savannahstate.edu/student-affairs/student-ethics.shtml where you may find the Student Code of Conduct, Student Records Policy and links to all policy and procedural guidelines related to the Student Conduct process.

Additional Information Regarding the Student Code of Conduct

Savannah State University is obligated to provide all students with the University regulations, policies, and procedures governing student conduct. Weapons Policy

Savannah State University is designated as a school safety zone by Georgia law. Georgia’s Safe Carry Protection Act prohibits an individual from possessing, carrying, or having any explosive compound or weapon under his or her control, on any property in a school safety zone. The school safety zone covers property owned or used by Savannah State University, including residence halls and college owned vehicles.
Individuals holding a valid weapons carry license may possess a weapon in a vehicle when transporting a student to/from campus and may have a weapon in a vehicle that is in transit through or parked within a school safety zone. However, weapons are strictly prohibited from being removed from a personal vehicle while on campus grounds. Weapons carry license holders must have the license in his or her immediate possession at all times when carrying a weapon.

Violation of this policy is also a violation of Georgia law and will result in appropriate action, including but not limited to, expulsion, termination, dismissal and/or referral for criminal prosecution.

**Campus Carry - House Bill 280**

Gov. Nathan Deal signed HB 280, which permits weapons carry license holders to carry firearms in specific and limited areas on college campuses.

This legislation addressed major concerns voiced by the governor last year regarding HB 859, which permitted a weapons carry license holder to carry a concealed weapon into certain areas of a college campus that had previously been prohibited. HB 859 failed, however, to address Deal’s concerns regarding the prohibition of firearms in “sensitive places,” including campus preschools, disciplinary hearings, or faculty and administrative offices. As a result, the legislation was vetoed.

The General Assembly overwhelmingly passed HB 280, which maintains the same restrictions present in HB 859. It also addresses the areas of campus over which Deal previously raised concerns, along with additional areas of college campuses where weapons would not be permitted.

This law took effect July 1, 2017, for all University System of Georgia (USG) institutions, including Savannah State University.

For additional information about House Bill 280, please visit the USG website.

**Frequently Asked Questions:**

Can license-holders carry concealed handguns in laboratories on campus?

**Yes.** HB 280 sets out specific excepted areas in which license-holders may not carry handguns, and laboratories are not one of those exceptions. Handguns would only be prohibited in a laboratory if the particular space were to fall within one of the specific exceptions.

Can license-holders carry concealed handguns at summer camps on campus?

**Yes.** Summer camps are not set out as an exception to the ability to carry concealed handguns on campus in HB 280. Handguns are prohibited, however, in childcare spaces, which include programs for children under 18 years of age that are located within an enclosed space behind a
Can license-holders carry concealed handguns in health centers and exam room on campus?

**Yes.** Health centers and their examination rooms are not specifically excepted from the general rule that license-holders may carry concealed handguns on campus. Handguns are only prohibited in those areas of health centers that fall within a specific exception in HB 280, such as faculty, staff and administrative offices.

Are handguns prohibited from athletic sporting event facilities at all times or only during the events?

Handguns are prohibited in buildings or property that are used for intercollegiate games at all times, not just those specific areas of the facility in which games are played. The same is true of student housing facilities; handguns are prohibited throughout the facilities, not only in the specific areas where students reside.

Does HB 280 apply to off-campus field trips or work trips?

**No.** HB 280 only applies “in any building or on real property owned by or leased to any public... college, or university.... or other public institution of postsecondary education.” When students, faculty or staff leave campus for school-related activities, they will be governed by the weapons laws that apply to their off-campus location.

Does HB 280 apply to property owned by USG institutions outside of Georgia?

**No.** HB only applies within the State of Georgia. People at locations that are owned or leased by USG colleges and universities but lie outside of Georgia will be governed by the applicable local laws of the city, county, state, and/or country in which the facilities lie.

Are handguns prohibited from athletic sporting event facilities at all times or only during the events?

**No.** HB 280 only prohibits handguns in rooms and spaces that are being used for classes in which high school students are enrolled. It does not prohibit license-holders from carrying concealed handguns in other area where those high school students may go while on campus.

Can faculty members and students other than license-holders ask the registrar whether high school students are enrolled in their classes?

**Yes.**

Can faculty members ask students to identify themselves if they are carrying handguns or ask students who carry handguns to take different classes?
No. State law grants license-holders the ability to carry handguns to public college and university classes (except those in which high school students are enrolled), and faculty members may not ask license-holders to reveal that they are carrying concealed handguns or in any way discourage them doing what they are legally allowed to do.

Are faculty members responsible for announcing to their classes that guns are (or are not) prohibited because high school students are (or are not) enrolled?

No. It is the responsibility of those who choose to carry handguns on campus to make themselves aware of where and when they can do so. They can learn which of their classes include high school students by asking the registrar, as can faculty members and their classmates. In fact, the USG does not recommend that faculty members make announcements in class because it may lead to confusion among students resulting from inconsistencies between different professors.

May faculty members provide information about HB 280 in their course syllabi?

Yes. Faculty members can provide information by linking to the USG guidance at the usg.edu website.

If USG institutions will not be providing storage lockers, where can license-holders store their handguns while they go to places on campus where handguns are prohibited?

It is the responsibility of those who choose to carry handguns on campus to make arrangements for the proper and safe storage of those guns. Current law already allows for the securing of guns in parked cars. License-holders can also make arrangements for storage off-campus.

If a student or employee violates the provisions of HB 280, may the institution treat that conduct as a violation of its student code of conduct or personnel rules?

Yes. The immediate situation should be handled by law enforcement, but afterwards the conduct may be treated as a violation of the student code of conduct or personnel rules. That process should then be handled in the same manner as any other student or employee misconduct case would be handled.

**Drug and Alcohol Abuse Education Services and Programs**

Drug and Alcohol abuse result in significant health problems for those who use them. Drug and alcohol use in the workplace not only contributes to lost productivity, but also causes tremendous costs related to absenteeism, accidents, health care, loss of trained personnel, and employee treatment programs. Drug and alcohol abuse causes physical and emotional dependence. Users may develop a craving for these drugs or alcohol and their bodies may respond to the presence of drugs in ways that lead to increased drug and alcohol use. Certain drugs, such as opiates, barbiturates, alcohol and nicotine create physical dependence. With prolonged use, these drugs become part of the body chemistry. Drugs have an effect on the mind and body for weeks or even
months after drug use has stopped. Drugs and alcohol can interfere with memory, sensation, and perception. They distort experiences and cause loss of self-control that can lead users to harm others as well as themselves.

The University offers a comprehensive substance intervention program for students through the Harris- McDew Health Center. Programs are provided promoting healthy lifestyles with emphasis on awareness of the dangers of drug and alcohol abuse. Referrals are administered through the Office of Student Affairs (912.358-3118). There is no charge for this service. Clients are informed of the nature and purpose of any assessment, treatment, educational or training procedure and are given freedom of choice with regard to participation. When the Counseling Center is not able to provide the necessary services, clients are informed of alternative resources and appropriate referrals are made.

To the extent permitted by law and ethical standards, all information received in counseling is considered confidential and is not disclosed to any other person or campus unit without the written permission of the clients.

In matters of student discipline, the Counseling Center staff may provide assessment and consultative services to clients, colleagues, or units of the College in ways which improve the campus environment, maintain the anonymity of clients, and preserve the confidential nature of all counseling relationships.

PARENTAL/GUARDIAN NOTIFICATION
Savannah State University reserves the right to notify the parents/guardians of dependent students regarding any conduct situation, particularly alcohol and other drug violations. The University may also notify parents/guardians of nondependent students who are under the age of 21 of alcohol and/or other drug violations. Savannah State University is committed to the elimination of alcohol and drug abuse within the University community. The University is concerned with the safety and welfare of its students.
The approach to violations of the alcohol and drug policy is designed to be proactive. While the primary approach in response to alcohol and drug violations is educational, it should also be clear that violations of the alcohol and drug policy will result in disciplinary sanctions imposed by Savannah State University. The Higher Education Reauthorization Act of 1998 (HERA) amended the Family Educational Rights and Privacy Act (FERPA) to allow institutions of higher education to notify parents or legal guardians of students under the age of 21 of the final outcome of an alcohol or drug violation. In view of these changes, the following policies will be observed:

1. After the second alcohol violation or after the first drug offense, it will be the policy of Savannah State University to notify parents or legal guardians of students under the age of 21 of violations of the University's alcohol or drug policy.

2. When it is determined that the parents or legal guardians should be notified of an alcohol or drug violation, the Office of Student Ethics will be responsible for mailing a certified letter to the parents or legal guardians outlining the violation and the penalty imposed.

3. Under certain circumstances, the parents or legal guardians of students under 21 years of age may be notified after the first alcohol violation. Those circumstances may be as follows:
   a. The incident involved significant property damage.
   b. The incident was a DUI.
   c. The incident involved a reckless disregard for the safety of students themselves and/or the safety of others.
   d. The incident was accompanied by other serious violations of the Code of Student Ethics.
   e. The student has been found responsible for any alcohol or drug-related violation that may result in suspension or dismissal from the University, or removal from University housing.

4. Under certain circumstances, it may be necessary to personally telephone the parents or legal guardians of students under 21 years of age and inform them of a potentially serious incident requiring their immediate notification.

Such as auto theft, robbery, burglary, identity theft, fraud, and sexual assaults.
**Crime Prevention Tips:**
SSUPD on preventing some of the most common crimes:

### ROBBERY

Robbery is the attempt to obtain money, personal belongings (for example, smartphones, tablets) or property by the use of force or the threat of force. Because of the potential for personal injury during a robbery, do not try to be a hero. Hand over your property quickly and quietly. If possible, observe the criminal and make mental notes of the number of thieves present as well as their appearance, clothing, voice, nicknames used, personal items, identifying marks, peculiarities and weapons. Call the police immediately upon reaching a place of safety. These precautions can help you reduce your chances of becoming a robbery victim:

- Walk confidently with your head up and do not let your mind wander.
- Pay attention to those passing you and behind you.
- Do not take short cuts through unlit, sparsely travelled paths, tunnels or alleys.
- Do not wear a lot of flashy jewelry and carry as little cash as possible.
- Know that weapons are not allowed on campus, but if you carry a weapon off campus, there is a possibility it could be used against you.

- Park in well-lighted, well-travelled lots.

### THEFTS FROM VEHICLES

You can prevent many car break-ins by thinking ahead and following these suggestions:

- Always remove the keys from your vehicle, lock all doors and roll up all windows, even if your stop is brief.
- Secure or remove all valuables from view, including items such as handbags, cell phones, loose change, clothing, textbooks, book bags, CDs, or even umbrellas.
- Never leave personal identification documents or credit cards in your vehicle.
- Park only in areas that are well-lit, or in attended parking lots or garages; parking in secluded or dimly lit areas makes your car an easy target.

### BOMB THREATS

A bomb threat is a federal offense that carries serious penalties. Georgia State is committed to identifying and prosecuting any individual calling in a bomb threat. Bomb threats are usually received by telephone. If you receive such a call, ask the following questions:

- When is the bomb going to explode?
- Did you place the bomb?
- Where is the bomb located?
- What does it look like?
- What is your address?
- What kind of bomb is it?
- What is your name?
- What will cause it to explode?
- In addition, note the exact time of the call and write down exactly what the caller said.
- Try to describe the caller’s voice and listen for any background noise.
- Then notify the SSUPD immediately by calling 912-358-3004.

### UNIVERSITY HOUSING

**SAFETY**

Savannah State residence halls and apartments are controlled access communities with limited access to grounds and buildings. A student must have card key access to open the outer gates and/or enter the buildings. Student room keys are used to open individual apartments and bedrooms. Police officers patrol in and around all residence halls continuously to respond to the needs of the residents. You can contact the Savannah State Police by calling 912358-3004 or by using one of the emergency call boxes. Security guards are on site during evening and morning hours to assist you.

**Tips for University Housing Residents:**

- Residents should make sure to lock the door to their apartment and also the door to their individual bedroom at all times when away.
- Before opening the door for a visitor, verify the identity of the caller.
of the person on the other side.

- Never leave purses, wallets, money or valuables in plain view or in common areas.
- Avoid allowing someone to follow you through the security gate onto the grounds or into the building.
- Report all violations of unauthorized entry to the police or housing staff immediately.
- Report any suspicious activity or Soliciting

**THEFT**

Theft is a common occurrence on college campuses. Oftentimes this is due to the fact theft is a crime of opportunity. Confined living arrangements, recreation facilities, and many open classrooms and laboratories provide thieves with effortless opportunities. Occupants of the residence halls often feel a sense of security and home atmosphere and become too trusting of their peers, while others leave classrooms and laboratories unlocked when not occupied for short periods of time.

It is important to be very vigilant when it comes to suspicious persons. Never leave items and valuables lying around unsecured. Doors should be locked at all times. The following is a list of suggestions to help you not fall victim of theft:

- Keep doors to residence halls, labs, classrooms locked when not occupied
- Don’t provide access to unauthorized persons in the buildings or classrooms
- Do not keep large amounts of money with you.
- Lock all valuables, money, jewelry, checkbooks in a lock box or locked drawer
- Keep a list of all valuable possessions including the makes, models, and serial numbers
- Take advantage of the Engraving Programs to have all valuables engraved with specific identifying marks
- Don’t leave laptop computers or textbooks unattended in labs or libraries, even if it is for a short period of time
- Don’t lend credit cards or identification cards to anyone
- Report loitering persons or suspicious persons to police immediately; don’t take any chances

**IDENTITY THEFT**

Identity theft is a crime in which someone wrongfully obtains and uses another person’s personal information in some ways that involve fraud or deception, typically for economic gain. This personal data could be a Social Security number, bank account or credit card information.

- Persons involved in identity theft often use computers or other forms of media to assist them.
- There are measures you can take to prevent this from happening to you:
  - Do not give anyone your personal information unless there is a reason to trust them and the release is for good reason.
  - Never give your credit card information, date of birth, or other information over the telephone, unless you can confirm the person receiving that information.
  - Complete a credit check frequently to assure there is no suspicious activity.
  - Examine financial information often to assure all transactions are authorized and accounted for.
  - Use of computer security software on computers and installation of firewalls are good.

**Personal Safety**

Theft, disorderly conduct, and alcohol related offenses are very common on university campuses. However, they do not stand-alone. Despite law enforcement's efforts, serious crimes do occur on campuses. It is important to report any suspicious incidents to police and always remain alert and vigilant.
One of the more serious crimes that too often is unreported is Sexual Assault. It is important to know what these crimes are, because in many cases, victims do not realize that they have been victimized. Additionally, crimes of this nature are very difficult for victims to report for a number of very complex reasons. We provide the following information to assist those who may have been victims of sexual assault or who have a friend who has been sexually assaulted.

There are many guidelines to help you be more alert and aware of the situation to prevent such serious crimes. Such as:

- Know your surroundings
- Be alert
- Call for help
- Report any suspicious people and/or activity, immediately

Defining Rape and Sexual Assault

In Georgia, Rape is defined under O.C.G.A. § 16-6-1 as a “male having carnal knowledge of a female forcibly and against her will. Carnal knowledge in rape occurs when there is any penetration of the female sex organs by the male sex organs.” The Code recognizes that rape can occur even between spouses so the defendant cannot use the fact that he is married to the person accusing him of rape as a defense. Rape is punishable by death, life imprisonment with or without parole, or a minimum of 25 years imprisonment, followed by probation for life.

In Georgia, Sexual Assault is defined under OCGA § 16-6-5.1 as “sexual contact” is that is perpetrated by “a person who has supervisory or disciplinary authority over another individual.”

While these definitions are clear, victims often have difficulty reporting a sexual assault for numerous reasons such as knowing the perpetrator, fear of retaliation, fear of parents knowing about the incident, fear of getting in trouble with law enforcement. Despite these concerns, it is vital to report such incidents in order to get help.

The following information provides steps to follow should a sexual assault occur:

- Get to a safe place as soon as possible!

- Try to preserve all physical evidence – The victim should not bathe, shower, brush teeth, douche, use the toilet, or change clothing until she/he has a medical exam. Contact a close friend or relative, if available, who can provide support and accompany the victim to the medical exam and/or police department. Advocates from the SSU Counseling Center can be available to the victim to provide support.

- Get medical attention as soon as possible – An exam may reveal the presence of physical injury of which the victim is unaware. Following a sexual assault, antibiotics are typically given at the time of the exam to help prevent the victim from acquiring certain sexually transmitted diseases. Emergency contraceptive pills are offered to all victims at the time of the exam (if the victim presents within 120 hours) to help prevent pregnancy from occurring as a result of the rape. If the victim reports memory loss, loss of consciousness or other circumstances suspicious for a drug-facilitated assault, a urine test may be done if the victim presents within 96 hours. Some of the commonly used “date rape” drugs, however, are only detectable in the urine for 6-8 hours after ingestion.

- Contact the police – Sexual assault is a crime; it is vital to report it. It is important to remember report a crime is not the same as prosecuting the crime. The decision to prosecute may be made at another time. Final decision to prosecute is determined by the District Attorney.

- Consider talking to a counselor – Seeing a counselor may be important in helping the victim understand his/her feelings and begin the process of recovery.

University Disciplinary Procedures in Sexual Assault Incidents

If you have been sexually assaulted, you have options for addressing such conduct. You may wish first to discuss the problem privately with a counselor or an adviser in the Savannah State University Center for Counseling Services or another confidential counselor. The University Police are always available to assist a victim with getting the support she/he requests.

The University’s student conduct process is designed to afford a complainant (the person who is bringing a charge) and a respondent (the person who is answering a charge) a fair, prompt, and appropriate resolution process. The process is designed to help persons who need support as they address these incidents.

The Office of Student Conduct manages the resolution proceeding in which a student is the alleged perpetrator. The full text of the protocol for how the University responds to sexual assault complaints through the campus conduct process can be found at [http://www.savannahstate.edu/student-affairs/documents/20152016studenthandbookwebversion.pdf](http://www.savannahstate.edu/student-affairs/documents/20152016studenthandbookwebversion.pdf). The Office of Human Resources is responsible for managing proceedings for those cases in which an employee is the respondent.

In determining whether the alleged conduct constitutes sexual harassment or assault, the full context in which the alleged incident occurred must be considered. In any case, both the accuser and the accused are entitled to the same opportunities to have others present during any disciplinary proceeding. Both the accuser and the accused will be informed of the outcome of any proceeding.

During any sexual assault complaint proceeding, the University has a range of sanctions available. Those sanctions may range from probation to expulsion from the University, depending upon the nature and circumstances of the specific incident.

Sex Offender Registration – Campus Sex Crimes Prevention Act
The Campus Sex Crimes Prevention Act (CSCPA) of 2000 is a federal law that provides for the tracking of convicted sex offenders enrolled at, or employed by, institutions of higher education. The CSCPA is an amendment to the Jacob Wetterling Crimes against Children and Sexually Violent Offender Act. The federal law requires state law enforcement agencies, (Georgia Bureau of Investigation) to provide Savannah State University with a list of registered sex offenders who have indicated that they are enrolled, employed or carrying on a vocation at Savannah State University. The Georgia Bureau of Investigation provides Savannah State University with a Sex Offender Registry. The Registry is maintained at two locations: the Savannah State University Police Department web page and a web link that provides this information that can be found at [http://gbi.georgia.gov/georgia-sex-offender-registry](http://gbi.georgia.gov/georgia-sex-offender-registry).

The CSCPA further amends the Family Educational Rights and Privacy Act of 1974 (FERPA) to clarify that nothing in the Act can prohibit an educational institution from disclosing information provided to the institution concerning registered sex offenders.

Non-retaliation/ Non-retribution

Sexual Harassment
The purpose of this directive is to establish Department policy concerning allegations of sexual harassment; to establish proper reporting procedures for reporting instances of sexual harassment; and to define instances, happenings, and occurrences of sexual harassment.

Policy
It is the policy of Savannah State University that all employees and students are able to work in an environment free from all forms of discrimination, including Sexual harassment.

Sexual Harassment refers to behavior, either direct or indirect, which is not welcome, which is personally offensive, which debilitates morale, and which therefore interferes with the University’s mission and its effectiveness. Sexual harassment includes behavior that may not be considered overtly sexual. Federal law prohibits sexual harassment under Title VII of the 1964 Civil Rights Act. The existing Board of Regents’ policy states “that it shall be unlawful discriminatory practice for any employer, because of the sex of any person, to discharge without cause, to refuse to hire, or otherwise discriminate against any person with respect to any matter directly or indirectly related to employment or academic standing. “Sexual harassment, whether by peers, by persons in authority, or by students or faculty, violates federal law and Board policy. It is the intent of these policies to include sexual harassment by peers:

- Faculty – faculty
- Staff – staff
• Student – student

and sexual harassment by persons in authority:

• Faculty – staff
• Graduate student – undergraduate student
• Supervisor – subordinate

**Definition**
Sexual harassment of faculty by students is covered by these policies if it interferes with the faculty member’s work or creates an intimidating, hostile or offensive working environment. Consenting sexual relationships between faculty and students, or between supervisors and subordinates, are actively discouraged and may be deemed sexual harassment of employees or students of Savannah State University is prohibited and shall be subject to dismissal or other sanctions after compliance with procedural due process requirements. According to the Equal Employment Opportunity Commission (2009) guidelines, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitutes sexual harassment when:

- Submission to such conduct is made explicitly or implicitly a term or condition of an individual’s employment or academic standing; or

- Submission to or rejection of such conduct by an individual is used as a basis for employment or academic decisions affecting an individual; or

- Such conduct unreasonably interferes with an individual’s work or academic performance or creates an intimidating, hostile or offensive working or academic environment.

**Examples of Sexually Harassing Behavior**
- Physical Assault;

- Demands for sexual favors;

- Indecent exposure;

- Indecent gestures or the display of sexually suggestive pictures or other objects;

- Touching, patting, embracing, caressing, or brushing against a person’s body.

- Verbal assault, including direct sexual references, lewd jokes or innuendos, and remarks of sexual nature about a person’s body or clothing;

- Allusions to or inquiries about a person’s private sex life;

- Repeated unwelcome gifts, cards, request for dates;

- Singling someone out or “putting someone down” on the basis of that person’s gender.
**Consensual Relationships**

All employees and students of Savannah State University should realize that sexual harassment most frequently occurs when one person has some power or authority over another. The relationship between a faculty member and a student should be considered one of professional and client in which sexual liaisons, even consenting liaisons, are inappropriate because they threaten the intellectual dependence and trust that underscore the teacher/student bond. Likewise, the relationship between a supervisor and subordinate must be a professional one free from sexual involvement.

Although the policy of Savannah State University does not expressly forbid consenting sexual relationships, such relationships are strongly discouraged and all personnel are cautioned that persons entering into such relationships do place themselves in danger of subsequent charges of sexual harassment which would be most difficult to dispute. For example, one of the parties might later claim that the relationship was not consensual.

One or the other parties might later claim that the relationship created a hostile working environment. Other students or employees might charge that they are being discriminated against because of the “special” relationship that the instructor or supervisor may enjoy with a student or an employee. Finally, at least one federal court has found that there exists an “affirmative duty of disclosure” of previous relationships should subsequent personnel action be taken against an employee who had been a partner in a consensual relationship. In light of the above, Savannah State University strongly discourages consenting sexual relationships between faculty and students and supervisors and subordinates and insists that supervisors or faculty who engage in such relationships must remove themselves from any decision-making activities regarding their consenting partner.

**Procedures**

1. Savannah State University guarantees the right of all students, faculty and staff to lodge complaints without fear of retaliation. The university, to the extent possible, will also protect the rights of the accused. In the event that allegations are not substantiated, all reasonable steps will be taken to restore the reputations of the accused if it was damaged by the proceeding. A complainant found to have been intentionally dishonest in making the allegations or to have made them maliciously is subject to disciplinary action.

   A person wishing to bring charges under the policy set forth above has two options: an informal complaint or a formal complaint.

2. An informal complaint may be brought to any of the following:

   - Department heads
   - Deans
   - Unit heads
   - Director, student development
   - Vice president for student’s affairs
   - Vice president for academic affairs
   - Vice president for fiscal affairs
   - The equity and diversity officer
The person to whom the charge is brought is required to keep the charge in strictest confidence and to handle
the complaint expeditiously. This person should inform the complainant of the option to handle the charge
formally or informally. In addition, the complainant will be asked to sign a form acknowledging the choice of
either the informal or formal option. This form will clearly explain the rights of the accused as stated above. If
the complainant wishes to pursue an informal resolution of the problem, the accused will not be informed of
the name of the complainant without the complainant’s consent. The person to whom the complaint is brought
may (1) help to resolve the complaint informally, or (2) may advise the complainant to draft a formal
complaint and outline the necessary steps in the process.

**Formal Complaint Process**

If the complaint cannot be resolved informally, or if the complainant prefers, formal action may be initiated.

- The complainant will prepare and present a sworn and notarized affidavit to the Equity and Diversity
  Officer.

- The Equity and Diversity Officer will initiate an investigation of the charges in order to establish
  whether there is a reasonable basis for believing that the alleged violation has occurred. In conducting
  the investigation, the Equity and Diversity Officer may interview the complainant, the accused, and
  other persons believed to have pertinent factual knowledge. In every case, the immediate supervisor of
  the person charged will be notified, in confidence, of charges against his/her employee. If the
  complaint is against the immediate supervisor, the complainant will be reassigned to another
  supervisor until the matter is settled. At all times, the administrator conducting the investigation will
  take steps to ensure confidentiality.

- The investigation will afford the accused a full opportunity to respond to allegations. The
  complainant’s charge will be immediately forwarded, in confidence, to the person charged in the
  affidavit. The person charged with sexual harassment shall have five working days to respond to the
  charges made with a sworn affidavit that has been notarized. This response will be available to the
  charging party.

- Possible outcomes of the investigation are (i) a judgment that the allegations are not warranted; (ii) a
  negotiated settlement of the complaint; or (iii) institution of formal action described in succeeding
  sections of these procedures.

- If after completing the investigation, the Equity and Diversity Officer concludes that there is a
  reasonable basis for believing that the alleged violation of the sexual harassment policy has occurred or
  that a negotiated settlement cannot be reached, formal action will be taken.

- If the Equity and Diversity Officer determines that the allegations are not warranted such
  determination shall be communicated to both parties. The complainant may seek review by the
  President (under Sections 4 & 5 below) by written notification to the President’s Office within 10 days
of receipt of notice that the Equity & Diversity Officer has determined the allegations are not warranted.

**Formal Action**

- The Equity and Diversity Officer will organize a Review Panel of no fewer than two faculty and staff members and himself/herself. The Review Panel members will be chosen at random, but will include both men and women, as well as peers of both the complainant and the person charged.

- The Review Panel will hold separate confidential hearings with the complainant and the accused. If the evidence warrants it, the Review Panel will question additional persons, in confidence, who have some direct bearing on the case.

- Within ten working days after all factors regarding the case have been reviewed, the Equity and Diversity Officer shall meet with the Review Panel to ascertain the disposition of the case. The Equity and Diversity Officer and the members of the Review Panel shall send to the President of Savannah State University the facts found in their investigation and, where appropriate, make recommendations concerning the resolution of the case.

- Once the President receives sufficient facts to resolve the case, he/she will send a registered letter, to both the complainant and the defendant outlining the final resolution of the case.

**Sanctions and Penalties**

Sanctions and penalties associated with violation of this policy may include the following:

- 1. Reprimand
- Denial of Merit Pay
- Suspension without Compensation
- Required Professional Counseling
- Dismissal for Cause

**Rights of Appeal**

If one or both parties find the decision of the president of Savannah State University unsatisfactory, they may appeal the decision to the board of regents of the University System of Georgia in writing within twenty calendar days following the written decision of the president of Savannah State University. The complainant and the person charged may be represented by an advisor or an attorney during the appeal process to the board of regents.

**President’s Statement On Sexual Harassment**

University Police maintains a combined Daily Crime and Fire Log of all crime and fire incidents reported to the Department. This log identifies the type, location, and time of each criminal incident reported to University Police.

The most current 60 days of information is available in the lobby of the Savannah State University Police Department located on campus at the Hubert Tech Science-Building C-Rooms 309/305. Upon request a copy of any maintained Daily Crime and Fire Log will be made available for viewing, within 48 hours of notice during normal business hours.
Crime Statistics

The Savannah State Police Department maintains a close relationship with all local authorities to ensure that it is notified of any crime report that is made directly to them that could impact the campus community. The University Police will disclose any crime report made directly to any local law enforcement agency by a member of the campus community.

(Note: The Residential Facility statistic is a sub-set of the "On Campus" statistic)

The Savannah State University Police collects the crime statistics disclosed in the charts through a number of methods. Police dispatchers and officers enter all reports of crime incidents made directly to the department through an integrated computer aided-dispatch systems/records management system. After an officer enters the report in the system, a department administrator reviews the report to ensure it is appropriately classified in the correct crime category. The Department periodically examines the data to ensure that all reported crimes are recorded in accordance with the crime definitions outlined in the FBI Uniform Crime Reporting Handbook and the FBI National Incident-Based Reporting System Handbook (sex offenses only). In addition to the crime data that the Savannah State University Police maintains, the statistics below also include crimes that are reported to various campus security authorizes, as defined in this report. The statistics reported here generally reflect the number of criminal incidents reported to the various authorities. The statistics reported for the sub categories on liquor laws, drug laws and weapons offenses represented the number of people arrested or referred to campus judicial authorities for respective violations, not the number of offenses documented.

Emergency Response and Evacuation Procedures

Emergency Management at Savannah State University

The University Police Department is responsible for the Emergency Management Plan. This plan is designed to be an all-hazards disaster response and emergency management plan that complies with FEMA guidelines for Higher Education that includes planning, mitigation, response, and recovery actions.

Savannah State University’s priorities in accordance to emergency management are:

- Life safety, infrastructure integrity, and environmental protection during an emergency
- Coordination with university departments to write, maintain, test, and exercise the Emergency Management Plan.
- Cooperation, Integration, and Mutual Aid with local, state and federal planning, response, and public safety agencies and their emergency operations section.

A summary of the University's emergency response procedures is located at http://www.savannahstate.edu/faculty-staff/public_safety/docs/Quick%20Reference%20Guide.pdf.
Drills, Exercises and Training
Annually, Savannah State University conducts an emergency management exercise to test emergency procedures. The scenarios for these exercises change from year-to-year, and include several departments from across the campus.

To ensure the University’s emergency management plans remain current and actionable, the University will conduct an emergency management exercise, at a minimum once yearly. These exercises may include tabletop drills, emergency operations center exercises, or full-scale emergency response exercises. The University conducts after-action reviews of all emergency management exercises.

In conjunction with at least one emergency management exercise each year, the University will notify the community of the exercise and remind the community of the information included in the University’s publicly available information regarding emergency response procedures.

Fire and Other Emergency Evacuations
Savannah State University is smoke-free campus. The importance of fire prevention in all areas cannot be overemphasized. Carelessness and thoughtlessness are two primary reasons for fires. Fire hazards such as smoking in nonsmoking areas, defective wiring, fire doors propped open, blocked corridors/exits, and the accumulation of combustible items should be reported to campus police as soon as possible.
Building Evacuation

Students are oriented to the location of building exits during orientation. This training includes students and personnel with special needs. All emergency exits are marked with illuminated Exit signs. Should it become necessary to evacuate the building, all building occupants should proceed to the nearest exit, move away from the building, and assemble in a location predetermined by each department or building coordinator. This will provide a quick and easy way to account for all personnel. It also is important for the Fire Department to have clear and unobstructed access to the building. Do not return to the building unless told to do so by the Fire Department, Police, or the Building Coordinator. If a fire pull station is pulled, students must evacuate the building. Officers will be notified of the location of the pull station that was activated when they are dispatched to the scene. Once the building has been evacuated, officers along with the Resident Director and/or Resident Assistant(s) will go room to room and ensure that everyone have exited the building.
Evacuation Shelters and Alternate Operating Locations Overview

The Emergency Planning Task Force (EPTF) has identified two sites as shelters and command centers in the event students and staff have to be evacuated from the campus. These shelters provide a reasonable distance for safety from the threat of a coastal storm, which is considered the most likely scenario requiring campus evacuation. SSU has established an agreement with Fort Valley State University as a primary relocation site. A secondary location is available through an arrangement with Georgia College and State University. Students will be encouraged to evacuate to appropriate locations inland using personal transportation, if available. For students without transportation, buses and/or vans will provide transportation to the relocation sites at Fort Valley, GA, and/or to Georgia College and State University, in Milledgeville, GA. Prior to the University transporting any student or staff member, a designated residential director will obtain an accurate manifest of all students and staff to be transported on each vehicle along with emergency contact information for each individual. In the event the planned evacuation routes and/or planned shelters are no longer available, the university will coordinate with the Chatham Emergency
