The whole campus is a learning community!

- “Learning” is not exclusively classroom-based
- Many valued outcomes are not taught exclusively in the classroom
- Many valued outcomes are the result of processes outside the classroom
- “Learning” is a process based on three interdependent student experiences:
  - Understanding academic content and processes
  - Student development
  - Identity formation
- Responsibility for “learning” exists outside the classroom
- Responsibility for “learning” doesn’t always take the same form; some entities on campus produce it, some facilitate it, some support it
- Responsibility for assessing learning exists outside the classroom as well
Examples

Civic Responsibility
- AA: Service learning
- SA: Student government, voter registration, student judicial boards

Think and Engage as a Global Citizen
- AA: Language courses, Anthropology, Sociology
- SA: International experiences, culture days, residence halls
Priorities 1: Academic Engagement and Achievement

- Advancing knowledge through research, scholarship, and creative inquiry
  - Diversifying academic programs and enhancing academic quality
  - Enhancing curricular and co-curricular activities through academic and student life experiences
Institutional Foundation for Engagement

Engagement should be tied to institutional priorities

- Mission Statement
- Strategic Plans
- Goals (Brackin & Gibson, 2004; Furco & Holland 2004 & 2009)

Should be connected to broader institutional practices e.g. achieving student learning outcomes

(Brackin & Gibson, 2004; Furco & Holland 2004 & 2009)
Assessing unit-level engagement for academic and administrative units- Two Strategies

1. Develop Community Engagement Plan
Purpose of Engagement Plans:
- Mechanism to institutionalize community engagement
- Mechanism to assess community engagement across the university at the unit-level and across the institution
- Involve all academic and administrative units in developing and assessing community engagement
- Provide Community-Based Learning for students
- Demonstrating measurement/assessment of community engagement to SACS
Assessing unit-level engagement for academic and administrative units - Two Strategies

2. Backward Mapping High Impact Practices

Step 1: Determine Desired Results

- Balance between “Workforce ready” and “Developing Community of Knowledge Creators”
- Develop professional profile for each academic program in collaboration with the stakeholders (critical thinking, collaboration, communication, creativity, self-direction/initiative, work ethic, leadership)
- Increase GPA & Retention
- Student need (Introduction to Higher Education)
- Institutional need (Accreditation, funding decisions)
- Learning Outcomes

Step 2: Use instrument to define and redefine program goals

- Use Association of America Colleges & Universities (AAC&U) undergraduate education (VALUE) Rubrics to create Student Learning Outcomes

Step 3: Assess your process and progress

Step 4: Share information with Stakeholders

President, Provost, Deans, Chairs, Academic Advising Directors, Student Leaders, Faculty, Advisory boards, High Schools
INTEGRATIVE LEARNING VALUE Rubric

In integrative learning, a student builds across the curriculum and cocurriculum, from making simple connections among ideas and experiences to synthesizing and transferring learning to new complex situations within and beyond the campus.

Evaluators are encouraged to assign a zero to any work sample or collection of work that does not meet benchmark (cell one) level performance.

<table>
<thead>
<tr>
<th>Connections to Experience</th>
<th>Capstone 4</th>
<th>Milestones 3</th>
<th>Benchmark 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meanings synthesize connections among experiences outside of the formal classroom (including life experiences and academic experiences such as internships and travel abroad) to deepen understanding of fields of study and to broaden own points of view.</td>
<td>Effectively selects and develops examples of life experiences, drawn from a variety of contexts (e.g., family life, artistic participation, civic involvement, work experience), to illuminate concepts/theories/frameworks of fields of study.</td>
<td>Compares life experiences and academic knowledge to infer differences, as well as similarities, and acknowledge perspective other than one's own.</td>
<td>Identifies connections between life experiences and those academic texts and ideas perceived as similar and related to own interests.</td>
</tr>
</tbody>
</table>

| Connections to Discipline | | |
|--------------------------| | |
| Views (makes) connections across disciplines, perspectives | Independently creates wholes out of multiple parts (synthesizes) or draws conclusions by combining examples, facts, or theories from more than one field of study or perspective. | Independently connects examples, facts, or theories from more than one field of study or perspective. | When prompted, connects examples, facts, or theories from more than one field of study or perspective. |

| Transfer | Adapts and applies skills, abilities, theories, or methodologies gained in one situation to new situations | Adapts and applies skills, abilities, theories, or methodologies gained in one situation to new situations to solve difficult problems or explore complex issues in original ways. | Uses skills, abilities, theories, or methodologies gained in one situation in a new situation to contribute to understanding of problems or issues. |

| Integrated Communication | | |
|--------------------------| | |
| Fulfills the assignment(s) by choosing a format, language, or graph (or other visual representation) in ways that enhance meaning, making clear the interdependence of language and meaning, thought, and expression. | Fulfills the assignment(s) by choosing a format, language, or graph (or other visual representation) to explicitly connect content and form, demonstrating awareness of purpose and audience. | Fulfills the assignment(s) (i.e. to produce an essay, a poster, a video, a PowerPoint presentation, etc.) in an appropriate form. |

| Reflection and Self-Assessment | | |
|-------------------------------| | |
| Envisions a future self (and possibly makes plans that build on past experiences) that have occurred across multiple and diverse contexts. | Evaluates changes in own learning over time, recognizing complex contextual factors (e.g., works with ambiguity and risk, deals with frustration, considers ethical frameworks). | Articulates strengths and challenges (within specific performances or events) to increase effectiveness in different contexts (through increased self-awareness). |

</table>
How can we assess co-curricular activities?

Co-Curricular Portfolio

A Co-Curricula Portfolio components:

1. Cover Sheet
2. Personal statement & Leadership Approach
3. Resume
4. Co-Curricular Transcript

Objectives of The Co-curricular Portfolio

1. Portfolios serve as direct assessment of a student’s learning experiences
2. Portfolios allow faculty, staff, prospective employers and graduate programs to share a real display of a student’s performance without interpretation of test scores
3. Portfolios provide a natural medium for staff/student discussions and the customization of individual co-curricular learning experiences and goals.
4. Comprehensive portfolios, maintained over a period of time, can exhibit comparisons of student work and illustrations of growth.
THE CO-CURRICULAR TRANSCRIPT

The purpose of the Co-Curricular Transcript is to help keep a written, cumulative record of student involvement at Savannah State University. The need for such a program is to encompass all volunteer work, community service, and service learning activities in a centralized and organized way via the Banner Student Information System. The intent of this program is to encourage more students to get involved in student activities, programs and civic duties. In return it will assist in student retention and support the overall mission of the Division of Student Affairs and Savannah State University. Students would enjoy having their entire academic as well as non-academic information on their official university transcript. As such, a Co-Curricular Transcript would be of value to students when applying to graduate schools or professional positions in the future.

(Student Handbook & Housing Policies 2014-2015, Savannah State University)
Organizing Co-Curricular Portfolio

1. Leadership Activities: Includes positions of leadership
2. Paraprofessional Work Experience
3. Honors, Awards and Recognition
4. Professional or Educational Development
5. Participation in Student Organizations and Activities
6. Service Learning and Volunteer Experiences
Sample of LiveText Co-Curricular portfolio

Co-Curricular Transcript

Leadership Roles/Activities

Paraprofessional Work Experience

- No text or image added. To add text and images: click here

Honors, Awards and Recognition

- No text or image added. To add text and images: click here
Alignment of the Co-Curricular Transcript

Each section of the Transcript contains the following information pertinent to each co-curricular activity:

1. End and start date
2. Organization
3. Position/role (Member Volunteer President Chair Vice President Vice Chair Treasurer Secretary Comptroller Representative Apprentice Intern Coordinator Chairperson Participant Group Leader Facilitator Student Assistant Award Recipient Finalist)
4. Duties and responsibilities
5. Competencies
6. Related coursework

Connection to one of the Six SSU Core Values by placing the corresponding acronym in bold after listing the duties and responsibilities

Integrity, Community, Social Justice, Respect, Responsibilities, Tradition
## Samples of a Co-Curricular Transcript

Developing Co-Curricular Portfolio

- Develop program outcomes:  
  What the Program accomplishes?

- Develop Operational Outcomes  
  Metrics regarding how well the operation works (financial metrics)

- Develop Student Learning Outcomes  
  Demonstration of cognitive, affective, or psychomotor abilities/characteristics
Rubric Development Process

- Define the skill
- Identify outcomes
- Search for resources/theories
- Adapt existing resources or create a new rubric
- Ensure cohesion between outcomes and rubric
- Seek feedback on the rubric
- Pilot test the rubric
- Annual review of rubric
Domains of Student Learning Outcomes

1. Cognitive knowledge
   Thinking
   Mental skills
2. Affective (Attitude)
   Attitudes
   Feelings
   Emotions
3. Psychomotor
   Doing
   Physical skills
C0-Curricular & Curricular Outcomes

- Co-curricular outcomes are different than curricular outcomes.
- Measuring co-curricular outcomes can be more challenging than assessing curricular outcomes.

Examples of co-curricular activities:

- Interactions with members of community
- Students associations
- Advocacy forums
- Scholarly activities
- Health and wellness activities
- Internships and clinical experiences.
Developing Learning Outcomes

Condition + ”Students will be able to” + Bloom Taxonomy word + Activity

Condition: describes the program, leadership opportunity or service
Students will be able to: focuses on what students will know, feel or do after participation
Bloom Taxonomy word: most appropriate word from Bloom’s taxonomy that narrows the kind of learning you expect participants to experience.
Activity: describes the actual thing you expect students to know, feel, or do after participation.
Example: As a result of participating in today’s workshop, participants will be able to write a learning outcome.
Bloom’s Taxonomy

Simple
- Identifies, defines, describes
- Explains, summarize, classifies
- Demonstrates, computes, solves
- Differentiates, diagrams, estimates
- Creates, formulates, revises
- Criticizes, compares, concludes

Complex
Words to avoid

- Appreciate
- Become aware of
- Become familiar with
- Know
- Learn
- Understand
Write down 1-3 examples of co-curricular learning outcomes. Are these program, operational, or student learning outcomes? For the student learning outcomes, which domain is being addressed?

<table>

<td></td>
<td></td>
<td>Cognitive</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Affective</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Psychomotor</td>
</tr>
</tbody>
</table>
Why Use Rubrics?

- Understood and often used by faculty
- Eliminate student confusion over expectations
- Provide timely, detailed feedback to students about performance and performance improvement in their co-curricular activities
- Encourage critical thinking about their own learning through self-assessment and reflection
- Prepare students to use detailed feedback
- Encourage students as peer mentors and in collaboration of rubric development
- Facilitate communication with others in academe
- Help us to refine our own advising skills
- Level the playing field for all students
Types of Rubrics

- **Analytic Rubrics**

An analytic rubric resembles a grid with the criteria for a student product listed in the leftmost column and with levels of performance listed across the top row often using numbers and/or descriptive tags.

**Advantages of Analytic Rubrics**

Provide useful feedback on areas of strength and weakness.

Criterion can be weighted to reflect the relative importance of each dimension.

**Disadvantages of Analytic Rubrics**

Takes more time to create and use than a holistic rubric.

Unless each point for each criterion is well-defined raters may not arrive at the same score.
### Example Analytic Rubric

<table>
<thead>
<tr>
<th>Clarity (Thesis supported by relevant information and ideas.) ISLO 1,2, 5</th>
<th>Needs Improvement (1)</th>
<th>Developing (2)</th>
<th>Sufficient (3)</th>
<th>Above Average (4)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The purpose of the student work is not well-defined. Central ideas are not focused to support the thesis. Thoughts appear disconnected.</td>
<td>The central purpose of the student work is identified. Ideas are generally focused in a way that supports the thesis.</td>
<td>The central purpose of the student work is clear and ideas are almost always focused in a way that supports the thesis. Relevant details illustrate the author’s ideas.</td>
<td>The central purpose of the student work is clear and supporting ideas always are well-focused. Details are relevant, enrich the work.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Organization (Sequencing of elements/ideas) ISLO 1,2</th>
<th>Needs Improvement (1)</th>
<th>Developing (2)</th>
<th>Sufficient (3)</th>
<th>Above Average (4)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Information and ideas are poorly sequenced (the author jumps around). The audience has difficulty following the thread of thought.</td>
<td>Information and ideas are presented in an order that the audience can follow with minimum difficulty.</td>
<td>Information and ideas are presented in a logical sequence which is followed by the reader with little or no difficulty.</td>
<td>Information and ideas are presented in a logical sequence which flows naturally and is engaging to the audience.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Mechanics (Correctness of grammar and spelling) ISLO 1</th>
<th>Needs Improvement (1)</th>
<th>Developing (2)</th>
<th>Sufficient (3)</th>
<th>Above Average (4)</th>
</tr>
</thead>
<tbody>
<tr>
<td>There are five or more misspellings and/or systematic grammatical errors per page or 8 or more in the entire document. The readability of the work is seriously hampered by errors.</td>
<td>There are no more than four misspellings and/or systematic grammatical errors per page or six or more in the entire document. Errors distract from the work.</td>
<td>There are no more than three misspellings and/or grammatical errors per page and no more than five in the entire document. The readability of the work is minimally interrupted by errors.</td>
<td>There are no more than two misspelled words or grammatical errors in the document.</td>
<td></td>
</tr>
</tbody>
</table>
Developmental Rubrics

- Developmental rubrics are a subset of analytic trait rubrics.
- The main distinction between developmental rubrics and other analytic trait rubrics is that the purpose of developmental rubrics is not to evaluate an end product or performance. Instead, developmental rubrics are designed to answer the question, “to what extent are students who engage in our programs/services developing this skill/ability/value/etc.?”
- Generally, this type of rubric would be based on a theory of development.

Advantages of Developmental Rubrics

- Useful when the goal of evaluation is to determine level of development rather than the quality of a final product.
- Rubric can be based on relevant developmental theory.

Disadvantages of Developmental Rubrics

- Conceptually, this type of rubric is more difficult to design.
- Developing a developmental rubric requires a close tie between assessment criteria and the theory of development.
## Sample of Developmental Rubrics
### Intercultural Maturity

<table>
<thead>
<tr>
<th>Domain</th>
<th>Initial Level of Development (1)</th>
<th>Intermediate Level of Development (2)</th>
<th>Mature Level of Development (3)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Cognitive</strong></td>
<td>Assumes knowledge is certain and categorizes knowledge claims as right or wrong; is naive about different cultural practices and values; resists challenges to one’s own beliefs and views differing cultural perspectives as wrong</td>
<td>Evolving awareness and acceptance of uncertainty and multiple perspectives; ability to shift from accepting authority’s knowledge claims to personal processes for adopting knowledge claims</td>
<td>Ability to consciously shift perspectives and behaviors into an alternative cultural worldview and to use multiple cultural frames</td>
</tr>
<tr>
<td><strong>ISLO 2, 3</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Intrapersonal</strong></td>
<td>Lack of awareness of one’s own values and intersection of social (racial, class, ethnicity, sexual orientation) identity; lack of understanding of other cultures; externally defined identity yields externally defined beliefs that regulate interpretation of experiences and guide choices; difference is viewed as a threat to identity</td>
<td>Evolving sense of identity as distinct from external others’ perceptions; tension between external and internal definitions prompts self-exploration of values, racial identity, beliefs; immersion in own culture; recognizes legitimacy of other cultures</td>
<td>Capacity to create an internal self that openly engages challenges to one’s views and beliefs and that considers social identities (race, class, gender, etc.) in a global and national context; integrates aspects of self into one’s identity</td>
</tr>
<tr>
<td><strong>ISLO 3, 6</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Interpersonal</strong></td>
<td>Dependent relations with similar others is a primary source of identity and social affirmation; perspectives of different others are viewed as wrong; awareness of how social systems affect group norms and intergroup differences is lacking; view social problems egocentrically, no recognition of society as an organized entity</td>
<td>Willingness to interact with diverse others and refrain from judgment; relies on independent relations in which multiple perspectives exist (but are not coordinated); self is often overshadowed by need for others’ approval. Begins to explore how social systems affect group norms and intergroup relations</td>
<td>Capacity to engage in meaningful, interdependent relationships with diverse others that are grounded in an understanding and appreciation for human differences; understanding of ways individual and community practices affect social systems; willing to work for the rights of other</td>
</tr>
<tr>
<td><strong>ISLO 3, 6</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Holistic Rubrics

A holistic rubric consists of a single scale with all criteria to be included in the evaluation being considered together (e.g., clarity, organization, and mechanics). With a holistic rubric the rater assigns a single score (usually on a 1 to 4 or 1 to 6 point scale) based on an overall judgment of the student work. The rater matches an entire piece of student work to a single description on the scale.

Advantages of Holistic Rubrics

- Emphasis on what the learner is able to demonstrate, rather than what s/he cannot do.
- Saves time by minimizing the number of decisions raters make.
- Can be applied consistently by trained raters increasing reliability.

Disadvantages of Holistic Rubrics

- Does not provide specific feedback for improvement.
- When student work is at varying levels spanning the criteria points it can be difficult to select the single best description.
- Criteria cannot be weighted.
Example Holistic Rubric

Articulating thoughts through written communication—final paper/project.

Above Average: The audience is able to easily identify the focus of the work and is engaged by its clear focus and relevant details. Information is presented logically and naturally. There are no more than two mechanical errors or misspelled words to distract the reader.

Sufficient: The audience is easily able to identify the focus of the student work which is supported by relevant ideas and supporting details. Information is presented in a logical manner that is easily followed. There is minimal interruption to the work due to misspellings and/or mechanical errors.

Developing: The audience can identify the central purpose of the student work without little difficulty and supporting ideas are present and clear. The information is presented in an orderly fashion that can be followed with little difficulty. There are some misspellings and/or mechanical errors, but they do not seriously distract from the work.

Needs Improvement The audience cannot clearly or easily identify the central ideas or purpose of the student work. Information is presented in a disorganized fashion causing the audience to have difficulty following the author's ideas. There are many misspellings and/or mechanical errors that negatively affect the audience's ability to read the work.
