

Summer Bridge and Summer Enhancement

July 1-26, 2019

Savannah State will offer an intensive summer bridge program to incoming, first-time freshmen and a summer enhancement program for continuing students, who have not yet met core requirements in specific courses. These programs are designed to increase and support participating students' progression to degree completion. These are two parallel summer programs with integrated learning support and a residential option.

Summer Bridge

The **Summer Bridge (SB)** program is a summer program for first-time freshmen entering SSU in fall. The program is open to incoming freshmen and to incoming freshmen not meeting the minimum requirements for regular admission.

Program admission requires the completion of a 2018-2019 FAFSA, acceptance of the invitation to attend and attendance at the orientation held the day before classes begin.

Students will take and earn up to, six (6) hours of college credit (3 in math, 3 in English).

Program requirements include completion of both courses, with an earned grade of "C" or better in each course, and participation in any related activities or tutoring, as required based on course performance, as well as meetings with their assigned academic advisor to ensure progression to enter SSU as a new freshman.

Summer Enhancement

The **Summer Enhancement (SE)** program is a summer program for eligible continuing or transfer students attending SSU in fall. Priority is given to freshmen (under 30 earned credits) and sophomore (31-59 credits) students.

Program admission requires the completion of a 2018-2019 FAFSA, acceptance of the invitation to attend, and attendance at mandatory meetings with the academic advisor during the first week of classes and at mid-semester.

Students may take and earn up to six (6) hours of college credit by completing two courses and attending tutorial sessions, as required by the faculty, receive support from math and English learning specialists, and attend meetings with academic advisors for progress monitoring and guidance.

Program requirements include completion of the courses with satisfactory earned grades, participation in required tutoring sessions and attendance at advisory meetings.

For Summer Bridge and Summer Enhancement
